Gen Prince Vasilchikoff, commander of the Guards, has not yet announced the stringent rules usually accompany a stage of seige, such as forbidding persons to leave their houses after 10 p.m. without special passes and the extinction of all lights in private houses after that hour. The authorities evidently are still confident that they have the situation well in hand.

There is no confirmation of the report that the Emperor, the Empress and their children are going to Copenhagen or on the other hand that the Emperor has decided to appoint a mixed committee of officials, employers and working men to consider the strikers' demands, notably the question of eight hours' work per day, and to make an investigation of the shooting of the strikers.

THEY CHEERED BY MISTAKE.

All sorts of rumors are circulating in both official circles and among the working men. A curious report spread among the men last night that the Emperor had given in and that three white flags had been displayed over the winter palace signifying that his Majesty had consented to reduce the maximum legal hours of work from eleven to eight. According to this legend the Emperor would have displayed a red flag if he had decided to refuse the strikers' request. Many workingmen, deceived by this rumor, shouted "Hurrah!" in token of victory, and this, possibly, was the reason that the strikers, believing they had already won the day, refrained from committing excesses yesterday.

AN INCIDENT IN LONDON.

London, Jan. 24.—A big brass plate at the entrance of the Russian Embassy here was wrenched off at two o'clock this morning. A special constable on duty at the Embassy witnessed the act, but was unable to get to the spot in time to arrest the man who eluded pursuit. The incident is regarded as simply the act of a common thief.

STRIKE SPREADS AT MOSCOW.

Moscow, Jan. 24.—The strike is spreading rapidly. All printing works have been stopped. No newspapers will be issued to-morrow.

Employes of the Bachrushin Michailoff Linder and Schroeder factories have joined in the strike.

Employes of the tanneries who are out on strike remain quiet.

The police have ordered all arms to be removed from the windows of the gunsmiths, a majority of whom have closed their shops.

The strikers here at noon to-day totalled ten thousand.

Moscow has more workmen and less troops than St. Petersburg, and, besides, is just the heart of the Liberal movement, and the danger of bloodier occurrences that have been witnessed is proportionately greater. A rising at Moscow also is more likely to have greater results, industrially

A Death From Heart Disease

Overtake those Who Neglect Their Weak Hesr and Tired Nerves.

FERROZONE

Is the One Sure Heart Tonic That Always Cures

An attack is liable to come at any time from over-exertion, excitement or emotion.

If blood rushes to your head and palpitation and shortness of breath are noticeable, there's great cause for alarm.

A. F. Beattie, of the Allen Hotel, Bay City, Mich., was cured of heart disease by Ferrozone. See if your case is similar to this;

THE SYMPTOMS:

Nervousness	Palpitation
Trembling	Dizziness
Sinking Feeling	Heart Pains
Short Breath	Weakness

Mr. Beattie says;

"I was weak and miserable.

"I was a subject to heart palpitation and dizziness.

"As I grew worse I began to have trembling and sinking sensations.

"Ferrozone strengthened my heart, gave vigor to my nerves, soon made me well. It's a great builder."

The one medicine for the people with weak heart and poor nerves is Ferrozone, 50c. a box or six for $2.50, at all dealers in medicine, or Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $4 per year, strictly in advance.

UNION LABEL

PETERBOROUGH, JANUARY 25 1905

VOICES FROM THE PULPIT

Hardly anything in recent politics in Ontario has been more remarkable than the numerous denunciations by Christian ministers of the fraud and corruption which have been revealed in recent years in Ontario politics, says the Ottawa Journal.

"Hell with the lid off," was the phrase quoted from Dr. Parkhurst by the Rev. Fulton Irwin in Askin street Methodist church, London, Ont., last autumn as properly applicable to the Minnie M. business. Rev. Dr. McKay of Chalmers' Presbyterian church, Woodstock, a Liberal, denounced in his pulpit on Oct. 25 last "the deplorable condition of our politics. The boodling, the bribery, the perjury, the wholesale debauchery exposed by our courts during the past few weeks ought to bring the blush of shame to the cheek of every patriotic Canadian. The very foundations of responsible government are seriously threatened." Said the Rev. W. J. Pedley of the Western Congregational church, Toronto, about the same time: "The Reformer who is not disgusted and ashamed at the revelations made at the Sault is an enemy not only to his country but to his party." The Rev. Edward Softley, rector of St. John's Episcopal church, Morpeth, writing to the president of the East Kent Conservative Association, said that though all his life he had held apart from politics, he felt it his duty as a clergyman and a citizen "to speak a word in condemnation of the brazen diabonesty, lying and perjury which the courts have proven to be associated with the party now in power. The Ross administration—it is not worthy of the name reform—has, in its efforts to retain office, been the means of casting a stigma and disgrace upon the fair name of the province of Ontario." Rev. Dr. Ross of St. Andrew's Presbyterian church, London, spoke thus in a sermon: "Many of us remember the horror with which the Liberals regarded the corrupt practices of the Conservatives under the old regime. And we thought the millennium was about to dawn when the Liberals got into power. But some of the shadiest transactions of political history have seen the light since then." Right Rev. Dr. Mills, Bishop of Ontario, addressing his synod last year said: "Our system of party politics, the unscrupulousness of its methods, and the depths of degeneracy to which it sometimes sinks are fast sapping the vitals of the country."

Among more recent utterances, the Rev. Nathaniel Smith says that Premier Ross, though he means well, is so much afraid of losing office that he has been recreant to his most sacred obligation. Prohibitionists have lost confidence in him. The Rev. William Kettlewell, another old Liberal, says it is his duty "and the duty of every citizen who has any regard for political and moral decency to help put out of office a rotten government." Rev. Dr. Sutherland, Methodist, Toronto, says: "Let us have the courage of our convictions and vote for the best men, irrespective of party." Rev. Dr. Potts, Methodist, Toronto, says: "Let us have the courage to vote for the best men, irrespective of party." Rev. Dr. Hunter, Methodist, Toronto, says: "Let us have the courage to vote for the best men, irrespective of party." Rev. Dr. Hunter, Methodist, Toronto, says: "Let us have the courage to vote for the best men, irrespective of party." Rev. Dr. Hunter, Methodist, Toronto, says: "Let us have the courage to vote for the best men, irrespective of party."

Methodists, Anglicans, Presbyterians, Congregationalists, Baptists, the voices come from pastors of all denominations to an extent not previously approached in our politics. In Hamilton the Ministerial Association last autumn, composed of all denominations, passed a resolution, expressing "alarm at the growing tendency toward corrupt practices in our elections," and calling upon the electors to "stand for pure and righteous campaign." At Peterborough a similar resolution was adopted by the ministers, while at Cobourg the pastors of the Methodist and Presbyterian churches referred "in scathing terms to the degeneracy of politics." They deplored the fact that one-hundredth part of the evil work has not been dragged to the light."

Surely for all this sort of thing there must be some great just moving cause? What do the people intend to say today?

CHANDOS COUNCIL MEETING

Inaugural Meeting of the Township Council of Boure

—The council of the township of Chandos held its first meeting for the year 1905 at Post S. House, Jan. 14th. Members present were: Reeve, John Hales; Councillors, John Bullied, John A. Trotter, G. A. Bullied, Geo. Campbell was absent.

After taking the declarations of office, the members proceeded to business, as follows:

The minutes of the last meeting were read and accepted.

Moved by Geo. A. Bullied and seconded by J. Trotter, that council adjourn till one o'clock, to give Mr. Geo. Campbell time to get there.—Carried.

The following officers were elected: Anson Andins, clerk; Allen Caldwell, assessor; Alex. Trotter, treasurer; T. J. Wilson and Mrs. Chas. Hawks, auditors; Dr. A. Bell, M.H.O.; Andrew Post, sanitary inspector; G. A. Campbell and Sam Bullied, Board of Health.

Moved by John Trotter, and seconded by J. Bullied, that auditors' report be laid over till next meeting.—Carried.

Moved by John Bullied and seconded by John Trotter, that the clerk be authorized to write to Henry Whitney in regard to taxes of 1903 yet unpaid by him on lot 33, in con. 9.—Carried.

Moved by G. A. Bullied, seconded by John Trotter, that clerk get the minutes of each meeting of this council printed in the paper where the municipal printing is done.—Carried.

Moved by G. A. Bullied and seconded by John Trotter, that the clerk write to the Peterborough Times and Peterborough Examiner to ask their prices for the municipal work for 1905, both by contract and piece work for 1905.—Carried.

Moved by John Trotter and seconded by G. A. Bullied, that the collector's roll be returned on the first day of May, 1905, and that the corporation seal be fixed to this resolution to give it the force of a by-law.—Carried.

Moved by John Bullied and seconded by G. A. Bullied, that the following orders be paid:

Allen Caldwell, expenses municipal election, Sub. Div. No. 1, $5.00; Andy Buchanan, expenses municipal election, Sub. Div. No. 2, $5.00; Andrew Post, expenses municipal election, Sub. Div. No. 3, $3.00; Anson Andins, procuring ballots, etc., municipal elections, $6.00; Anson Andins, Hospital for Sick Children, Toronto, $5.00; Anson Andins, Municipal World's for Council, $5.00; Anson Andins, postage, $2.00; Dr. Driscoll, balance alary M.H.O. for 1904, $16.75; T. W. Eastland, Phenyle, pr. Dr. Bell, 57c.

Moved by John Trotter and seconded by G. A. Bullied, that this council adjourn, to meet at Hales S. House on Saturday, February 18.—Carried.

JUST A TEASPOONFUL of Perry Davis' Painkiller in warm water or milk, taken after exposure to cold or wet will quicken the circulation and thus prevent a chill. There is but one Painkiller, Perry Davis.

J. A. MACDONALD AT THE OPERA HOUSE

Conclusion of Monday Night's Big Liberal Rally

Going back to the Soo trouble, Mr. Macdonald argued that the proper mode of procedure had not been acted on. Mr. Gibson, himself, had amended the election law to provide for the court in cases of corruption proceeding at once. That was the first case which arose under the amended act, and the court, apparently not acquainted with it, sent in a report which did not reach the Attorney-General till October 16, the court passed judgment eight days before. He characterized Mr. DuVernet's stepping in and taking out summonses two days before the court could legally do so under the original act as a foul trick which was almost the limit, and done with a view to making political capital.

Continuing, the speakers went on to say, "taking man for man, and capacity for capacity, there is no question as to Mr. Ross' superiority over Mr. Whitney. The Opposition leader is a happy mixture of purity and corruption, like the Scotchman who always drunk beer and when who always drank beer and whisky mixed together. This Scotchman gave as his reason for indulging in this strange mixture, that when he took beer he was full before he was drunk, on taking whiskey he would be drunk before he was full, whereas in drinking both mixed he was drunk and full together. Mr. Whitney is drunk and full together of purity and corruption, and when he finds energy enough to let go the men whom he knows are injuring him self and the party he leads, it will then be time for him to ask of you that support he is asking to-day.

In conclusion, Mr. Macdonald took up his favorite cry of "barnacles," and urged that if the buccaneer gets on the bridge of the ship of state, then its cargo is in greater danger than from all the barnacles on its hull. See to it then that those men on the deck are honest and capable, and men whose experience will enable them to distinguish the pirate when he comes. For love of your constituency, your town, your country, stand for that policy you believe to be right, and the men who, with all their mistakes, are best capable of legislating in the best interests of this province.

Mr. Macdonald resumed his seat amid a perfect ovation. The usual amid a perfect ovation. The usual cheers were then given, and the audience dispersed.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased), or any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same town, township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses (2) (3) or (4) must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1899.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Land Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

Artificial LEGS Best on Earth

AUTHORS & COX

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

INCORPORATED

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and, we believe, exceedingly profitable investment. Every dollar of stock is guaranteed by twenty year, full paid, gold bond, delivered to purchaser of stock, from an Investment Company that has no interest whatever in the company, but who are disposing of the debenured bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the State Treasurer under which they received their charter, there by doubly securing the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvellously rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Summer and Jack Mining Co., Limited, Elandsfountain, South Africa:—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world.

"With the present development of the Monument Mine, I estimate that 100 tons per day can be extracted, which will mill from $15.00 to $20.00 per ton. The total cost of mining the ore, delivering and smelting, I place at about $4.00 per ton. With increased milling capacity, it is safe to say that the mine can furnish 100 tons of $15.00 ore, which would yield a clear profit of $11.00 per ton, or $1,100.00 per day (equal to $400,000.00 per annum). Estimated total value of ore in sight, $2,500,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Dr. Brown writes as follows:—

"In regards to the amount of ore available at the mines at Sinclair, I saw on the dumps several thousand tons, probably 5000 tons would be an under-estimate.

"As to the size of the ore body itself, from what I saw of the geological structure, I think that there is every indication that it will refound to extend underground as far as the out-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish full information to investors.

Stocks—The MARKETS OF THE WORLD—Grains

A SPLENDID PROPOSITION

The Salido Gold and Copper Company

Incorporated under the laws of Arizona, with a capital of $3,oc ooo forever on assessable divided into shares of $1 each, par value. All investments insured Granite Securities Company.

The "SALIDO GOLD COPPER COMPANY" enterprise offers attractions to the investors of the country, that without thorough investigation, would scarcely seem probable. If only a fraction is realized of what any prudent business man in his own affairs would regard as absolutely certain, the enterprise must prove abundantly successful and exceedingly profitable.

SALE OF STOCK

The company will prosecute the work of development with all the diligence that the cash in the treasury will permit and circumstances warrant, and to this end a small amount of the treasury stock is now placed upon the market, in blocks of not less than One Hundred Shares. The par value of the stock is One Dollar per share, fully paid and forever non assessable.

The company reserves the right to advance the price of stock without notice.

REMEMBER

First—That all payments for treasury stock go into the treasury for development work and not into the pockets of the promoters.

Second—There are no salaried officers.

Third—The incorporators have put their own good money into this enterprise and being business men, intend to do business along business lines.

Fourth—That this company is honest.

Fifth—If you are thinking of investing in mining stocks this is worthy of your careful investigation.

OTHER PROPERTIES

This Company owns four other Gold and Copper Mines, which title is now in process in the laws of Mexico. As soon as title is perfected, we shall commence to develop them as we certainly expect something very great from these properties. Our assays aken have been of the very best, showing gold and copper from $6.00 to $122.30 per ton.

I have secured a small block of this stock, which I offer at the following prices: Unguaranteed 40 cents per share, guaranteed 80 cents per share. These prices will only prevail for a short time, as the number of shares for sale at this price is limited. The Shares will then be advanced to 40 cents for the unguaranteed and 80 cents for the guaranteed. I can unhesitatingly recommend this investment to the Canadian public.

W. K. HALL,

FISCAL AGENT, PETERBOROUGH

Agents wanted in outlying districts, including Toronto.

The California Buckeye Mine

This mine consists of 15 acres of good zinc land, well prospected by drill holes showing forty feet of good pay dirt at a depth of 154 feet.

On the property are hoisting engine, shaft house, ore buckets, Worthington steam pump, air drill, cars and pipes. Over $15,000 have been expended to date, and the proposition itself is a good one so much so that we can personally guarantee an immediate dividend of 8 per cent. this year and 12 per cent. after 1905, with an additional quarterly dividend.

Capital Stock $250,000

Shares, par value $1.00 each Fully paid up and non-assessable. No Preferred Stock. No bonded indebtedness

The shares are selling at 20 cents each, with a prospect of the price being raised.

The Joplin Daily Globe says that over $10,000,000 worth of zinc and lead were mined in 1904, up to 1st Dec., in the Joplin District. In the California Buckeye Zinc Mine, located in the centre of the Joplin District, it has been demonstrated that the ore body has an average thickness of 42 feet and the runs are 50 feet wide, about 120 feet from the surface.

The rough dirt for the first three months of operation produced zinc ore to the amount of $12.95 per cent., while the average for the district is less than 5 per cent., but for the purpose of being on the safe side, we calculate on only 8 per cent. ore to the ton of dirt, and it shows a profit each day with two shifts of men, of $566.20.

We stand ready to prove every statement made, and if enough stock is subscribed for in this locality a directorship of the company is at the disposal of the subscribers.

Any further information and proofs of earning capacity will be cheerfully supplied.

FRANCIS L. JUDD & CO.,
BANKERS AND BROKERS,
CLEVELAND, OHIO.

or W. SAILSBURY,
PETERBOROUGH, ONT.

THE DUTY OF LIBERALS

It is generally conceded that, whatever the actual administrative record of the Ross Government may have been during the past few years, it has clung to office helped by electoral methods that have been worse than corrupt Ballot burning, switching and stealing, wholesale impersonation of the "Minnie M" variety, and bribery within the precincts of Parliament itself, have so disgraced the Province of Ontario under the Ross Government that many men who would otherwise be proud to still call themselves Liberals, will, in justice to their own self-respect, be reluctantly compelled to vote against the Government on Wednesday next.

It is no argument to say that the Opposition is just as bad. The responsibility is with the Government which is in power, and the Government cannot shield itself behind the sins of others, who, while in Opposition under our system of Government, may have but little practical power for either good or evil. The Government alone is directly responsible to the people, and when the Government becomes, as the Ross Government has become, synonymous of all that stands for scandal and shame in matters political, there is only one choice for a decent citizen, be he Liberal or Conservative, and that is to vote against the Government candidate in the constituency in which he has the right to exercise his franchise. And he may be lucky, if, after all, the "Machine" of the present piratical political crew does not steal or switch his vote.

There may be Liberals who will hesitate to vote for a straight Conservative candidate because they are in a little sympathy with the men or methods of that party, but it is their plain duty, nevertheless, to do so, if only for the purpose of publicly rebuking the present evil elements within the Liberal party. The defeat of the Ross Government is as necessary now in Ontario for the political purification of the Province as the defeat of the Government at Ottawa was necessary for the same reasons in 1896.

The honest Liberals of Ontario have, therefore, a plain duty before them on January 25th, and that is, to vote against the Government, no matter who the Opposition candidate may be.

Mr. Whitney and Mr. Ross.

Mr Whitney stands for clean Government; Mr Ross stands for Government at any cost.

Mr Whitney desires clean elections; Mr Ross has accepted the fruits of stolen elections.

Mr. Whitney has broken no pledge; Mr Ross has broken the record as a pledge-breaker and, as he himself put it, "he was delighted" when the Liberal Convention helped him to crawl out of his prohibition obligations.

Mr Whitney is personally honest; Mr Ross has never explained how the Gamey letter reached his private desk.

Mr. Whitney is straightforward and above-board, Mr Ross is a specious pleader and deceitful in his utterances.

Mr Whitney has a sufficient number of good men around him to form a clean and honest Cabinet; Mr Ross has had, and has to-day, as members of his Cabinet men whose administration of office has become a scandal.

Mr Whitney stands before the public as a man who will punish crime whether it be committed by Liberals or Conservatives; Mr Ross stands before the public as a man who has rewarded men who have committed electoral crime in this Province.

Which will you vote for?

Where Is the Timber Surplus?

Without doubt the greatest and most valuable of Ontario's assets has been her timber wealth. From year to year we hear of large timber areas being sold by public auction and millions of dollars realized from their sale. These millions of dollars are periodically paid in the Provincial Treasury, and we have so much more money and so much less timber. Every sane man knows that the available amount of Government timber limits in this Province is not unlimited. In the last thirty-two years the Ontario Government has disposed of at least 70 per cent of its available timber. All the moneys derived from its sale has been paid over to the Provincial Treasurer. If the millions derived each year from the sale of timber form part of Ontario's capital the moneys derived from their sale should be represented either in an immense cash surplus of many millions of dollars bearing interest or in other interest bearing assets. We do not hear much of this immense surplus. If there was a surplus it ought to be not one or two millions of dollars but ten times that amount. We must assume that there is no surplus for otherwise Messrs. Ross and Harcourt would boast of it.

If there is no surplus then it is because the present Government is using all the moneys derived from the sale of timber for expenses. When the remaining timber limits are sold, as they must be at the present rate, within the next ten or fifteen years there will be no more money coming into the Provincial chest from that source. The expenses of governing this growing Province will not be lighter but heavier. The question then is how are these expenses to be met. There are no interests bearing assets belonging to the Government from which any considerable income can be derived; in fact any interest derived from such source is used at the present time to meet current expenses, altogether outside of the million or two millions of dollars received each year from timber sales. The only way to raise the money will be by direct taxation. The Province has the power to raise money in this way. The Government will then heap the taxes on the railways and the railways will raise their rates. The Government will raise the license fees and the hotel-keepers will raise the price of drinks. The Government will increase the amounts levied on the counties and the farmers will pay increased taxes. In every case the consumer and farmer will have to make up the deficit. Let the people of Ontario think for a moment. Have Mr. Ross and his colleagues been candid when they have stated year after year during the last twenty years "that Ontario had a surplus and no debt?"

IT IS TIME FOR A CHANGE. WHAT DOES THE PHRASE MEAN?

Would a change be of real value to the Province and if so why?

We answer yes and for this reason—if for no other.

There is no other practical way for the Province to get rid of its "barnacles."

For 32 years the Liberals have been making appointments to office in Ontario. These men have been appointed sometimes for fitness but more often because of political "pull" and despite unfitness.

Some of these public officers attend to their duties conscientiously and earn the salary the Province pays them. Others shirk their duties—waste the time that belongs to the Province in doing political work for political friends—and are unjust autocrats who in the administration of their public office deal unfairly against their political opponents.

Take as an example the operation of the License Commissioners all over the Province. These unjust stewards rely on the "pull" they possess, with the party in power who appoints them. Owing to this "pull" the Liberal leaders cannot discharge or discipline them. If the Conservatives are returned these men could and would be disciplined.

In the interests of the Province regardless of party the only way to clear the Administration and to wipe out these "barnacle" office holders is to change the Government.

Vote for a change.

Vote to abolish the "Barnacles."

Vote to make your office holders attend to the business of the Province and give an honest day's-work for an honest day's pay.

Vote for Mr. Whitney.

IS IT TIME FOR A CHANGE? WHY NOT?

No great public issue divides the two parties in Ontario; there is no prominent question before the public such as is now agitating the people of Great Britain. Mr. Ross and the Liberal Government do not stand at this moment for any particular line of policy.

Mr. Ross and his Government may be swept from power on the 25th January and no important public question can suffer thereby. His defeat would mean the defeat of Ross not the defeat of any policy. Under these circumstances surely it is time for a change. The only result of a change can be to purge the public administration from "barnacle" office holders and pronounce an emphatic denunciation of election frauds. Surely these things are worth doing, particularly when there is no risk and no danger to other interests by doing them.

WILL HOLD A RECEPTION

High Commissioner will Receive Guests to International Ball in London

London, January 21.—Speaking at the Colonial Exhibition at Liverpool, yesterday, Lord Strathcona said the colonies even now possessed resources which made up a very great Empire. Speaking for Canada, he could say it was ready to go on with the Mother Country in everything that could be to the advantage of the whole Empire. Whatever their political views, all must admit that Mr. Chamberlain had been the colonies' best friend. He had done more than any other to knit the different parts of the Empire together.

Lord Strathcona consented to receive a thousand guests invited to the international ball, promoted by the City of London Commercial Association, of which he is president. The Lord Mayor, the Lady Mayoress and sheriffs will attend in state. The French, German and United States Embassies will be represented officially.

LORD HAMILTON VIEWS.

Lord Hamilton, addressed two thousand people at Blackburn. He said his reason for leaving the Government was because he saw that Chamberlain's motives, unless checked, would degenerate into pure protection. They had been told to think Imperially. He had been an Imperialist all his life. He had learned Imperialism from Beaconsfield and Salisbury, who taught that though Imperialism in the abstract might be admirable, in concrete it must be regulated by the burden which it entailed. There had been, in his judgment, much Imperial "high falutin" on public platforms lately. His complaint against the tariff reformers was that they had no wide general survey of industrial conditions or the complexity of Imperial connections abroad before embarking on this unhappy agitation. With regard to the colonial offer, he thought the tariff reformers did not deal fairly with their audiences to measure the benefit they could derive from such an offer was simply the extent to which they could displace foreign goods now going to the colonies. He expresses the strong belief that free trade would win "hands down."

Rare Chance to Secure a Paying Investment

THE GOLD COIN MINING COMPANY

has placed a small block of their stock at the disposal of Canadian investors. This stock is sure to rapidly advance in price. The Company is now arranging to instal the power plant and a mill and cyanide plant for the reduction of their ore to a bullion on the property. They have arranged with a Trust Company having assets of $1,500,000 to put up a bond guaranteeing investors the repayment of the full amount invested. This makes investors absolutely safe. By no possibility can they lose a dollar.

THE GOLD COIN MINING COMPANY was organized November 21, 1902 under the laws of the State of Idaho. The capitalization is one million shares of the par value of one dollar each, fully paid and non assessable; of the 1,000,000 shares, 400,000 have been set aside as treasury stock.

THE BOISE BASIN came into prominence shortly after Grimes and his party of prospectors entered the Basin country in 1862; their entrance was into the northern portion, and one discovery of rich placer ground followed another until the news of the rich finds reached the outside world, when a veritable stampede for Boise Basin commenced. Towns sprang up and grew together in an incredibly short time; the rush of people to Idaho City made it a place of 20,000 people in 1867, having a business street over a mile long lined with two-story buildings streets and sidewalks filled with people day and night, business and money on every hand and the city bearing the proud distinction of being the capital of the territory of Idaho. Wages ran from $6 to $10 a day and not infrequently forty and fifty men worked on a single placer claim; the clean-up for a day's work in many instances ran close to $5,000; large fortunes were made in a few days by washing the golden sands in a pan, so eager was the quest for the shining metal that the streets of Idaho City were dug up and washed and re-washed, and the soil removed from under the houses and places of business. So extensive was the search for the hidden treasure that not only all of the low ground was worked but the foot of the mountains surrounding the city have been washed away, filling up the lower portions of the basin and extending into the town, where one of the buildings has been buried under the tailings from the numerous placer workings.

LOCATION—The property of the Gold Coin Mining Company is situated in the Gambrians Mining District, Boise County, Idaho, on the range of mountains between Moore Creek and Elk Creek, which forms a part of the eastern boundary of the famous Boise Basin and into which these mountains are drained. The property is located ten miles northeast of Idaho City, from which place there are good wagon roads either to the workings on top of the mountain or to the place of the proposed tunnels in the gulch which crosses the Tunnelsite claim.

THE CLAIMS—The Company owns a group of four contiguous lode mining claims and the Gold Coin Millsite: the names of the lode claims are the Tunnelsite, Blue Bell, Pennsylvania and Homestake, each being a full claim 600 feet wide by 1,500 feet long, excepting the Tunnelsite claim, which is 450 feet wide at the west end and 1,055 feet long; it was necessary to stake the claim in this form on account of joining the Washington property on the south and the Sub Rosa property on the west, these properties being prior locations to the Tunnelsite claim. The four lode claims aggregate nearly 80 acres of rich mineral land.

Air Carries Healing Medicine

THAT CURES COLDS, CATARRH AND DISEASES OF THE THROAT UNGS AND BRONCHIAL TUBES

About the healing power of the air of the pine woods everybody knows, but to supply it in the form of medicine seemed almost beyond realization. After many years of careful study a scientific remedy now known as Catarrhozone has been produced which enables the sufferer to breathe into his lungs all the healing properties of the balsamic pine woods air. This marvellous remedy has conquered catarrh. It unquestionably does cure it permanently.

You cannot fail to be cured by Catarrhozone, because it reaches and destroys the cause of the disease. You simply inhale the antiseptic vapor. It instantly spreads to every part of the breathing organs. The micro-organisms infecting the diseased tissues of your nose, throat and lungs die instantly. There is nothing left to cause inflammation. Any spots that are raw and sore are quickly healed by Catarrhozone and you are soon completely cured.

It is impossible to breathe through a Catarrhozone inhaler without at once feeling better. Your head is cleared of mucous discharge, your nostrils are cleansed of all putrid matter, the phlegm is removed from your throat. Every trace of catarrh is searched out of the system by Catarrhozone, which thoroughly disinfects and purifies every organ of the body.

Catarrhozone is the only natural remedy for catarrh. It cures by cleansing and purifying all diseased tissues, not by deadening the stomach by drugs. It is a clean, simple and satisfactory remedy that is endorsed by the clergy, and universally prescribed by the medical profession because it is scientific and absolutely certain to effect lasting cures.

Don't be misled into accepting a substitute for Catarrhozone, which alone can cure thoroughly. It is so powerfully healing that colds disappear in an hour, coughs in two hours and even chronic catarrh in a comparatively short time. Two months' treatment $1, sample size 25c. At druggists or by mail from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

LOCAL OPTION SPREADING

The Times Learns That Local Option May Become General

The Times was informed yesterday that the temperance party propose to submit option by-laws in Lakefield in Burleigh, in Harvey, and in Dummer, at an early date. It is said that the by-law will be submitted in some, if not all, of the above municipalities on or before 1st of January next.

Provided they carry, which is exceedingly doubtful, this would do away with the sale of liquor in the neighborhood of Stony Lake.

Laid at Rest

Toronto, Jan. 24.—The funeral of the late Mrs. George A. Cox took place this afternoon from the family residence, 439 Sherbourne street, to Mount Pleasant Cemetery. The officiating clergymen at the house were Rev. Dr. Potts, Prof. Wallace, of Victoria University, and Rev. Mr. Fairclough, assistant pastor of Sherbourne street Methodist church, in the absence of Rev. Dr. Cleaver, pastor of the church. The pall-bearers were the deceased lady's three sons, Mr. E. W. Cox, Mr. F. G. Cox and Mr. H. C. Cox; two sons-in-law, Mr. A. E. Ames and Mr. A. L. Davis, and a nephew, Mr. W. G. Morrow. The funeral obsequies were strictly private, and only the immediate relatives were present.

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 80 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence course.

ANOTHER BANK COMING

Bank of Nova Scotia May Open Branch in Peterborough

Yesterday The Times had a call from two representatives of the Bank of Nova Scotia, who spent a couple of days in town looking over the ground with a view to establishing a branch of that institution in Peterborough.

The bank has its head office in Toronto. It has a paid-up capital of $2,000,000, and has a large and growing business.

A VERY SAD DEATH

Demise of Miss Minnie C. Cuncannon on Monday Night

A particularly sad death occurred Monday night, when Minnie Coral, eldest daughter of Mr. and Mrs. J. B. Cuncannon, 404 Sherbrooke street, passed away after an illness of two months from pneumonia. Of a kind and loving disposition, her demise will be greatly deplored by her many friends, young and old. She was 14 years of age, and bore her illness with true christain fortitude. The Times joins in extending the heartfelt sympathy of the community to the bereaved family in their irreparable loss.

The funeral will take place from the family residence to-day at 2.30 o'clock and proceed to Little Lake Cemetery.

WEDDING BELLS

Nuptials of Miss A. M. Beauregard and Mr. Samuel Houlihan

Yesterday morning at five o'clock St. Peter's Cathedral was the scene of a very interesting wedding, when Miss Amelia Margaret Beauregard, daughter of the late Louis Beauregard, was united in marriage to Mr. Samuel Houlihan. The ceremony was performed by Rev. Dr. O'Brien. Miss Alphonsine Beauregard, sister of the bride was bridesmaid, and the groom was suppported by Mr. James Dercher. After the ceremony a dainty wedding breakfast was served to the guests at the residence of the bride's mother on George street. The happy couple left on the 5.30 train for western points, and on their return will take up residence on Donegal street.

THE LATE JAS. KERR

Respected Resident of Douro Township Passes Away

The death of Mr. James Kerr, who passed away on Thursday last, at the family residence, Douro, after a illness of six months, removes one of the best known and highly esteemed residents of the township.

Mr. Kerr was only 35 years of age. The funeral took place on Sunday at 2.30 p.m., and was from Douro church, where requiem mass was sung by Rev. Father Keilty, the parish priest. The funeral was a large one, nearly ninety rigs following the remains to their last resting place. Deceased was married five years ago to Theresa Bolan, who with two children, survive him. The children are John, James and Mary Kathleen. Two brothers, and two sisters, Hugh and Michael, and Mrs. M. Crowley and Miss Sarah Jane Kerr, with his father, also survive him. Deceased was born in Douro, and had lived there all his life, beloved and respected by all with whom he came into contact.

OUR POLITICAL HISTORY

How the Two Peterborough Ridings Stood in the Past

In 1871 T. M. Fairbairn, Lib., was elected over John Carnegie by 54.

In 1875 Geo. A. Cox, Lib., was elected over W. H. Scott, Cons., by 45. Mr. Cox was unseated in the bye-election defeated by Mr. Scott by one vote.

In 1879 Scott, Cons., was elected over James Elliott, Lib., and James Hogan, Ind., by 250.

In 1896 J. R. Stratton defeated Carnegie, Cons., by 36 majority.

In 1890 Stratton defeated H. C. Winch by 760.

In 1898 Stratton, Lib., defeated J. W. Garvin, Cons., by 999. Stratton was taken into the Cabinet, and in the bye-election was returned by acclamation.

In 1892 J. R. Stratton Lib., defeated J. W. Miller, Cons., by 1,194.

THE EAST RIDING.

In 1871 George Read, Cons., was elected over John O'Donohue, Lib., and Peter Pearce, Ind., by 295 majority.

In 1875 Dr. O'Sullivan, Cons., was elected over James Stratton, Lib., by 92. Dr. O'Sullivan was unseated and returned in a three-cornered fight by a majority of 17.

In 1879 Thomas Blezzard, Lib., was elected over Henry Calcutt by 80.

In 1886 Blezard, Lib., defeated Read, Cons., by 300.

In 1890 Blezard, Lib., defeated Kidd, by 40 majority.

In 1894 Blezard, Lib., defeated Lancaster, Cons., by 465 majority.

In 1898 Blezard, Lib., defeated Dr. Ford, Cons., by 216 majority.

In 1902 Wm Anderson Lib., defeated Dr. Ford, Cons., by 443 majority

LITTLE LOCAL LINES

Doings Here and There by Times Reporters on Their Round

—Man wants but little here below zero.

—The Times will give full returns of the elections to-morrow.

—The congregation of All Saints' church had an oyster supper last night.

PARTIAL CLOSING OF CEREAL MILLS A BIG LOSS

Board of Trade will Urge the Railways to Place Canadian Cereal Exports on an Equal Footing with Those of the United States.

The Board of Trade met in special session last night, with a view to taking active steps in an endeavor to secure from the railways more advantageous freight rates on cereals, raw and manufactured. The partial closing down of the American Cereal Co's mills, which have for some time been running but two or three days a week, with no immediate prospect for improvement, gave rise to this action on the Board of Trade's part. This is a serious question for Peterborough, as existing conditions in its big cereal mills means a loss yearly in wages alone of $100,000, and the Board of Trade hopes that if the railways can be induced to place Canadian cereal export trade on an equal footing with that of the United States, as far as the cost of handling and the seaboard is concerned. The American Cereal Co., will shortly be running full time once more, with every prospect of continuing to do so.

Important as this question is, the attendance last night was disappointingly small, perhaps the result of inclement weather, and the close proximity of the elections combined, had something to do with it.

There were present;—President D. Hughes-Charles, Messrs. E. B. Edwards, J. Coyle Brown, B. F. Ackerman, K. Eardley-Wilmott, G. B. Van Blaricom, R. E. Wood, T. A. S. Hays, H. LeBrun, Peter Campbell, W. Might and Secretary T. Q. Quartermaine.

On account of the slim attendance of members the question before the Board was not lengthly gone into; but on motion of Col. E. B. Edwards, seconded by Mr. Coyle Brown, the President was authorized to interview the railway representatives at Montreal, and offer to them the urgent need of reduced freight rates on cereal exports. Should Mr. Charles not find it convenient to leave for Montreal at an early date, he is empowered to appoint a substitute.

The Board adjourned to meet as early as the views of the railway representatives can be ascertained.

WEDDED AT KEENE

Nuptials of Miss Alice Taylor and Mr. David Edwards

On Wednesday evening a very pretty wedding took place at the home of Mr. Robert Taylor, when his eldest daughter Alice, was married to Mr. David Edwards. The ceremony was performed by Rev. W. B. Secombe in the presence of about ninety guests. The wedding march was rendered by Mrs. Dr. Harrison.

The bride was given away by her father and was prettily attirred in white silk with applique and lace trimmings, and wore the customary veil. The bouquet was of white roses. Miss Joey of Warsaw, cousin of the bride was bridesmaid, and wore white voile with silk trimmings. Her bouquet was of pink roses. The groom was attended by Rev. Wilson Avison of Alma, Ont.

After the ceremony a sumptuous wedding dinner was served, after which a very pleasant evening was spent.

The bride received many valuable presents among the number being a tea service from the choir of the Methodist church, and a silver tea tray from the Sunday school of which she was organist. The groom's gift to the bride was a gold brooch, set with diamonds, and to the bridesmaid a gold stick pin set with opals.

Among the guests were, Mr. and Mrs. A. Brown, Peterborough; Mr. and Miss F. Doughty and Miss Lumsden, Peterborough; Mr. and Mrs. John McFarlane, Dr. and Mrs. Harrison, Dr. and Mrs. Shaw, Keene, Mr. Ed. Wright, Toronto.

Mr. and Mrs. Edwards will reside on the farm a short distance from Keene.

SOCIAL AND PERSONAL

—Miss Winnie Armstrong, of Campbellford, is guest of Miss May Armstrong, George street.

—Miss Mac Nancarrow, of Campbellford, is visiting friends in town.

—Lindsay Post:—Miss Emily Deyell, of Peterborough, has returned home, after enjoying a pleasant visit with Mrs. David Patterson and other friends in town.

—Mr. F. A. Lount, accountant in Bank of Toronto, leaves to-day to assume the position of manager of the bank in Creemore. He is to be succeeded here by Mr. Browne, of Toronto.

A NAGGING COUGH drives sleep and comfort away. You can conquer it with Allen's Lung Balsam, which relieves hard breathing, pain in the chest and irritation of the throat. Give it freely to the children.

DEMAND CESSATION OF WAR.

(Continued from page 1.)

According to private reports the workmen in several other big cities, notably Kharkoff, where large locomotive works are located, already have completed plans for a general suspension of work. Moreover, reports are current that the workmen, who otherwise would soon be forced back into the shops or starve, have received assurances of financial support from the sources which hitherto have furnished the sinews of war to the Liberal and revolutionary agitation, but have not before been in touch with the labor movement. If the strike becomes general all over Russia, and especially if the railways are involved, it might immediately force the nation to make peace with Japan.

A body of strikers at noon to-day forced their way into the works of the firm of Hopper and compelled 500 men to join the strike. Simultaneously factories and other works were closed throughout the districts adjoining Daniloff street.

OTHER TOWNS FALL INTO LINE.

Kovno, Russia, Jan. 24.—Work has ceased in the railway shops.

Kovno is the capital of a Russian Government of that name, and has about 500,000 inhabitants.

Vilna, Russia, Jan. 24.—A strike has commenced here. The town is quiet.

A MARVELLOUS FLESH PRODUCER! This is the statement of those who have used "The D & L" Emulsion. It is said to be rich and sweet as cream and not unpleasant.

MRS. SARAH COOPER,

"Go West,

Ranch it and rough it and you'll soon get rid of that weak chest and that hacking cough." That is what the doctor said to a young married man with a wife and child to care for and a modest salary to support them on. He *couldn't* go West. Love and duty tied him to his desk in the city.

People don't have to travel to cure coughs or strengthen weak lungs. Dr Pierce's Golden Medical Discovery cures obstinate, deep-seated coughs, bronchitis, bleeding of the lungs, weakness, emaciation and other forms of disease which if neglected or unskillfully treated terminate fatally in consumption.

"I will write you what Dr. Pierce's Golden Medical Discovery has done for me," writes H. Belcher, Esq., of Dorton, Pike County, Ky. "Thirteen years ago I was wounded by a ball passing through my lung. I have had a bad cough almost ever since, with shortness of breath, and it was very easy to take cold; the slightest change of weather would cause the cough to be so bad I would have to sit up in bed all night. Could not eat or sleep at times; was all run down; could not work at all. A few months ago I began using Dr. Pierce's Golden Medical Discovery. Have not used more than two bottles, and now can eat, sleep, and work, and I feel like a new man. I cannot find words to sufficiently recommend Dr. Pierce's Golden Medical Discovery, or tell the good it has done me."

Dr. Pierce's Common Sense Medical Adviser in paper covers is sent *free* on receipt of 21 one-cent stamps to pay expense of mailing *only*. The book has 1008 pages and over 700 illustrations. Address Dr. R. V. Pierce, Buffalo, N. Y.

THE CONSERVATIVES SWEEP THE PROVINCE.

Latest Returns Up to Two O'Clock This Morning Show That Whitney Has Secured 73 Seats While Ross Has 25

BRADBURN ELECTED BY OVER 1250 MAJORITY

The Electors of West Peterborough Turn Down the Ross Government

East Peterborough Has Probably Gone Liberal by a Moderate Majority—Returns not Yet Complete for East.

The elections are over and Whitney has won. It is not a case of the happening of the unexpected, for the defeat of the Ross Government was foreseen by those whose vision was not distorted through party prejudice. Liberals who still regard themselves as such, voted against the Ross party, on account of the corrupt methods which has crept into the so-called Liberal party of the Province. They felt that to purge and purify the party it was necessary that they should sit in opposition for a time at least, so that the barnacles which have accumulated during the 32 years which the Liberals have been in office, may be swept away.

Below we publish complete returns. In several cases the majorities are so close that a recount may make a change, but the general result will not be affected.

In West Peterborough Mr. Bradburn's majority, when the returns are all in, will probably reach 1,300. This will be quite satisfactory to his supporters. Mr. McWilliams put up a brave and manly fight, against fearful odds. Had he not been effectually handicapped by the sins of the Ross Government, he would probably have carried the riding. As it was, he put up a splendid fight, and we have no doubt, under normal conditions, things might have been reversed. We believe a clean election contest has taken place, so far as this riding is concerned, which will, we trust, mean better things for the future.

In the East Riding, Mr. Wm. Anderson's election is conceded. This is largely accounted for from the fact that he is personally very popular. Mr. Moore, the Conservative candidate, was a comparative stranger to many in the riding. Considering this, and also considering the great extent of the territory embraced in East Peterborough, it is not surprising that he was in a substantial minority. The following are the returns so far as heard from up to the time of going to press;

Continued on Page four.

A NEW DEPARTMENT

Mr. A. W. Creasman is Adding House Furnishings

Mr. A. W. Creasman, with his usual entergrise, is adding a new department to his already very complete establishment, and will open out, as soon as the premises are ready, full lines of carpets and house furnishings. Mr. J. Titterton, formerly in charge of the Turnbull Co's carpet and curtain department, will be in charge of the new department.

REVENGE OF A FALLEN QUEEN

The Story of a Postage Stamp Exciting great Interest

DEATH MARCH OF A KING

His Distorted and Mutilated Face Shown on the Little Stamp

Vienna, January 26.—The story of a postage stamp, and the revenge of a fallen queen is the one topic of conversation throughout Servia, Bulgaria and Roumania.

To commemorate King Peter's coronation, the Servian government decided to issue a series of specially designed postage stamps of considerable artistic value and of large size. When the rough design of the stamps, which were to bear side by side the profile of King Peter and his ancestor, Kara George, was approved, the final drawing and engravings were entrusted to a French artist, M. Mouchon.

The result was admired by all. But before the stamps had been in circulation many weeks the government suddenly called in all that remained unsold, and made desperate efforts to collect even single specimens in the hands of private individuals. For when the stamp was held upside down, there appeared clearly to everyone, t he death mask of the murdered King Alexander Obrenovitch. The ghastly face of the dead sovereign was made to appear by the engraver manipulating cleverly the eyebrows, eyes and nose of the two Karageorgevitch profiles.

King Alexander's distorted and mutilated face is formed by a portion of King Peter's head with that of his ancestor Kara George. The nostrils of the two heads together form the eyes, the moustaches make the eyebrows, and the eyebrow and eye of King George form King Alexander's nose and mouth.

It is asserted that the engraver was inspired by the ex-Queen Natalie to "fake" the design and introduce the features of her murdered son.

The "death mask stamps" as they are now called, have undoubtedly made a profound impression in the Servian army and among the uneducated classes. The government's attempt to recall all the stamps proved fruitless, as thousands have been used on letters, and a vast number are held by private individuals in Servia. The government has, however, instructed its agents in Vienna, London, Paris, and Berlin, to visit stamp dealers and speculators and buy up as many of the ill-omened postage labels as possible, regardless of cost.

FIRST HANGING IN 15 YEARS

Colored Man to be Executed in Maryland To-morrow Morning

Cumberland, Md., January 26.—Arrangements have been completed for the hanging here tomorrow of Sidney Johnson, colored. It will be the first hanging here in fifteen years. Johnson was convicted of killing two

OBITUARY

Death of Thomas Mahaffey at the Nicholls Hospital, Tuesday

On Tuesday afternoon a very sad death occurred at the Nicholls Hospital, when Thomas Henry Goldey, passed away after a brief illness. The late Mr. Goldey was an employe of the Street Railway Company, and became ill about Christmas time. He was able to resume work again, however, for a short time, but about two weeks ago he was stricken with a stroke from the effect of which he never recovered.

The deceased gentleman was born in Philadelphia, and had resided in Peterborough for the past 30 years. For about 25 years he was connected with the Third Dragoons. His wife predeceased him seven years ago. Three sons and four daughters are left to mourn the loss of a kind and loving father. They are Edward and Harley of Toronto; Howard of town. Mrs. J. H. Wolstenholm, Mrs. J. A. Wolstenholm, Phyllis and Grace, all of town. Four sisters of deceased resided in the United States.

The funeral will take place from the family residence, East Nicholls Park, this afternoon at 2.30 o'clock and will proceed to the Little Lake cemetery for interment.

A DAY OF RUNAWAYS

Four Runaways Took Place Yesterday in Town

Yesterday was a day of runaways, no less than four occurring in the business centre of the town. The most serious occurred in the morning on George street, where Mr. S. A. Oke's horse, attached to a delivery rig, took fright and started southward. It had only gone a short distance, however, when it encountered another horse and cutter coming north, and into this the runaway steed crashed, upsetting both sleighs and crowding the horse coming north into the sidewalk, and driving the shaft through Miss Delaney's millinery window. A lady who happened to be standing in the doorway of the store had a narrow escape from serious injury, having been helped out of danger in the nick of time. Besides the broken window, the cutter was badly damaged.

The second runaway took place on Water street, but no damage was done.

A team on the market started down Charlotte street after dinner, and pulled up near the Snowden House.

Two other runaways are also reported, no serious damage being done.

FLOCKING TO ONTARIO

Immigrants Pass Through Manitoba and Come to This Province

Mr. T. Southworth, Director of Colonization, Toronto, said that during the past year 673 settlers from the United States came into Ontario through Winnipeg. He considered this significant of the attention which newer Ontario particularly was beginning to attract across the border, as any movement from the States to Winnipeg was usually of settlers intending to remain in Manitoba. Two hundred and twenty settlers came from the United States to Ontario through Montreal during 1904, and the total of overseas immigrants was 34,985. In addition a number of Americans came in via

ELECTION OF OFFICERS

At First Meeting of the New Y. W. C. A. Board

The first meeting of the newly-elected Board of Directors of the Y. W.C.A., for the year 1905, was held on Monday afternoon, and resulted in the re-election of the following officers:—

President—Mrs. Dr. Scott.
Rec.-Sec.—Mrs. R. M. Dennistoun.
Treasurer—Miss E. Morrow.

The Vice-Presidents in charge of the various departments, with their committees were next elected.

Religious Department—Mrs. H. P. Kennedy, 1st Vice-President; Mrs. Rev. Kilgour, Misses L. Best, F. Stewart, M. Chambers, D. Langford, L. Lowry.

Business Department—Miss C. Dickson, 2nd vice-president.

Membership Committee—Miss Detober, convenor; Misses L. Richardson, I. Fisher, E. Hall, K. Martin, E. Taylor, Mrs. G. H. Williamson.

Finance Committee—Mrs. Dr. Morrison, convenor; Mrs. Walsh, Miss E. Morrow.

House Committee—Mrs. Walsh, convenor; Mesdames W. M. Roger, J. Dennistoun, Best, Cressman, Crothers, McPherson, Thompson, Hunter, Waddell, R. R. Hall, Davis, Morrow, Miss Nicholls.

Social Department—Mrs. Nugent, 3rd Vice-President; Mesdames R. M. Dennistoun, Boucher, F. Dixon, Misses M. Higgins, E. Miller, M. Robson, L. Currie, M. J. Barnard, B. Matchett, Bell, convenor; A. Roger, K. Henderson.

Educational Department — Mrs. Garvin, 4th Vice-President, Misses A. Weir, A. Williamson, E. Aldridge, B. Mewry, K. Campbell, Might, M. Erskine.

TRIAL OF ANOTHER CRUISER

Another Fine War Ship to be Added to American Navy

Washington, D. C., January 26. — The new armored cruiser Maryland is to have her official speed trial over the Cape Ann course today. Among naval officers there is much interest in the performance, as it is thought that an attempt may be made to excel the record for her type of warships. The Maryland's contract calls for an average speed of twenty-two knots an hour.

SITUATION AGAIN ALARMING

Turkey Collecting Large Supplies of War Munitions Along Frontier

Constantinople, January 25. — The Bulgarian situation is taking on a sinistre aspect. The vali of Adrianople reports to the Sultan that Bulgaria is erecting block houses and fortifications along the Roumelian frontier. When Abdul Hamid received the information he instructed the war office to follow suit. Turkey is collecting a large amount of war

BABY TOILED IN SWEAT SHOP

Child 18 Months old Trained to Factor Trimmings

New York, January 25.—A baby girl of 18 months is a worker in one of New York's sweatshops.

This is the remarkable story which Doctor A. S. Daniel, of the New York Infirmary for Women and Children, told the Women's Municipal League in her address on "Illegal Sweatshop Work."

The child, she said, had been brought to the infirmary for treatment, and when the mother came to take it away she told the doctor she needed its help in her manufacture of passementerie. The little creature rolled tiny balls in paste, to which the mother attached trimmings, and so contributed 50 cents a week to the family income.

The doctor decried the present tenement house law as ineffective, and said that after the recent raids he found work going on in tenements in Elizabeth street behind locked doors, with lookouts to warn those within of the approach of a stranger.

"A resident inspector in every tenement house could not prevent sweatshop work," the doctor concluded: "the only remedy is the prohibition of tenement-room labor."

AFTERWARDS.

Now that the voting job is o'er.
And likewise, too, the talking,
Some chaps who ran are doubtless

SCENES AT THE OPERA HOUSE AND ON THE STREET

The Newly Elected Conservative Member Conveyed in Triumph Round Town, With Band Playing and Fireworks Illumination

The election of Mr. Whitney and his party to power and the choice by the West Peterborough electorate of Mr. Thomas Evans Bradburn as as their representative in the local legislature, was marked last night by an abundance of demonstration and wild enthusiasm unsurpassed in this riding on any previous event of a political nature. The opera house was packed by an excited and joyous throng at 7.30, eager for the latest election returns, and ever ready to cheer again and again, as the Conservative gains in the Province leaped up in bonds of three and four. The grand climax was reached at 9.15, when the wires flashed the acceptable news that the Conservatives then had a total majority of 48 seats. The scene which followed was one better imagined than described. The surging crowd were simply inebriated by the exuberance of their feelings, and indulged in a demonstrative endorsation of the public voice of the Province, which was irresistably contagious.

The telegraphic despatches were flashed with lime light on a canvas by Mr. R. P. Dormer, and also election cartoons, skilfully drawn by Mr. Redmond Maher. Following we give some of the legends which stimulated the crowd to make known in no uncertain tones that something was doing in the town of Peterborough.

"Conservatives 42, Liberals 13. Yell Boys, yell again." And they did yell with a vengeance.

A picture of Mr. Ross was met with groans. That of Mr. Whitney brought down the house.

"Isn't the Old Man a Corker."

"Whitney and Political Purity."

"Toronto—Over 12,000 Conservative majority."

"E. Victoria—J. Hilliard Carnegie, son of Mr. John Carnegie of town, elected." Wild enthusiasm.

"The People have been watching Ross.

"Ross said he doesn't know the Cap; the Cap doesn't know Ross after to-night."

"East York for the first time in the Riding's history goes Conservative."

"There's a hand at the lever, and it bodes ill for Ross."

"North Renfrew—Conservative majority of 1,100, and it did not cost $4,000."

Mr. Bradburn's picture, with the question, "Who is the best man in Peterborough now.

MARCH OF TRIUMPH.

At nine o'clock, Mr. Bradburn was carried down stairs bodily, and placed in a waiting hack. He was enveloped in Union Jacks, and a broom placed in his hand, emblematic of a clean sweep. Seated with him were, J. J. Lynch, President of the Conservative Association; George W. Bennett, 3rd Vice-President; J. G. M. Wilson, chairman Ward One; R. H. Bradburn and Jas. Kendrey. The conveyance was drawn in triumph by some score of men up George street, along Brock to Water street, along Simcoe to George street again, and down to the opera house, where the successful candidate was once more carried up into the hall. The procession was an illuminated one, and fireworks were in evidence on every hand. The streets resounded again and again with the joyous salvos of the thousands forming the procession, and the 57th Band did its work handsomely. The band also discoursed national and other acceptable music in the opera house. "The Maple Leaf," and "Rule Britannia," were the crowd's special favorites, and were repeated whenever the Conservative gains showed up big.

THE SPEECHES.

Speech making was not indulged in to any great extent, but, the several short addresses given were to the point.

Mr. T. E. Bradburn, the successful candidate, thanked his supporters heartily for the handsome majority rolled up for him, which exceeded his most sanguine expectations. He was grateful to the ladies for their sympathy and their influence. To many Liberals who had also given him their support; to the Young Conservative Club, headed by Mr. R. E. Layfield, who had furnished him with a perfect organization, and to the Review and Times for their journalistic efforts in his behalf.

At 9.20, after the triumphal march Mr. R. F. McWilliams, the defeated Liberal candidate, unexpectedly appeared on the scene, made his way to Mr. Bradburn, and congratulated him in gentlemanly terms on his success at the polls. Mr. Bradburn fittingly responded to this courteous act, and the Conservative workers one and all, crowded around Mr. McWilliams, and voted him a gentleman in the truest sense of the word, against whom not one entertained any personal ill-will. The cry was, "It wasn't you, Rolly, but the Ross Government we were determined to down." The defeated candidate then advanced to the front of the stage, and an unprecedented scene in Peterborough's political history ensued. In the stronghold of his political opponents the Liberal candidate received a tremendous ovation, and was voted a jolly good fellow. Mr. Bradburn then

Mr. McWilliams now as before the campaign. This was the cleanest election that had ever been conducted in West Peterborough. Had I been defeated I should have acted the same as Mr. McWilliams has done to-night. "Three cheers for Rolly. They were given with a vengeance.

Mr. R. F. McWilliams here told the audience that he had been defeated fairly and honorably, and he congratulated his opponent on his success. The campaign had been conducted in a manner alike creditable to Mr. Bradburn, the Town, the Parties and himself. The Conservatives in the Province have won a great victory, but they have been a long time doing it. And he hoped Mr. Whitney would give this Province a record as honorable as that of the Ross Administration. If he were pleased with one thing more than another, it was the fact that Conservatives in refusing him their vote, had always replied, "It's not you, Rolly, we are against, but your party. A perfect chorus of "That's a fact, Rolly." If I can do anything to strengthen Mr. Bradburn in the interests of Peterborough, no party spirit shall hinder me from doing so. (Cheers.) I hope to try again, and next time with better luck.

Mr. Jas. Kendry also made a brief speech, in the course of which he remarked, it's true the people put out the Ross Government. It was the marked ballot which kept the Liberals in power so long, and now Mr. Whitney will give us a secret ballot like that of the Dominion, and an honest government. He quoted that had he had a Young Conservative Club behind him in his election, he would have won out. The Ross Government was the most iniquitous one any country ever had; and they say in England that Ontario is the most corrupt state in the world; but all this will be changed now. I know Mr Bradburn to be one of the men we want to send to Parliament, and on the right side of the speaker we will hear from him (Prolonged applause.)

It will be interesting to note that Hon J. R. Stratton's first majority in 1898 was about 30, and at the last election 1194. Mr. Thomas Evans Bradburn enters the legislature for the first time with a flattering majority of at least between 1250 and 1300.

SETS GIRL'S CLOTHES ON FIRE

Victim of Indianapolis Man's Jealousy Dying in Hospital

Indianapolis, Jan. 26.—Miss Nellie Roberts is believed dying at the city hospital, and John Murphey, her sweetheart, is a fugitive, being charged by the police with having set fire to her clothing while jealous. Young Murphey called upon the girl last night, and the two were heard quarreling. Following a scuffle the girl ran out with her clothing on fire. Murphey has disappeared. The police learned to-day that he has frequently threatened the girl's life.

Medicines Loaded With Alcohol

Think of it! The Danger You Run—Drink Habit is Easily Acquired, But Hard to Cure.

Careful analysis shows that many so-called tonics contain little else but whiskey—the rankest, poorest kind of whiskey.

You may unconsciously be using an alcoholic liquid remedy. Some member of your family may be doing so. Your duty is plain; stop it at once.

The test of a tonic is the permanency of its cure. To become strong you must build up the blood—alcohol weakens it. You must increase your nerve force—alcohol steadily devours it.

Give up the liquid tonic, before you become its slave. The true medicine for the run-down, depressed and nervous is Ferrozone. It is nothing but concentrated cure in tablet form. It stimulates the appetite, aids digestion, fills the blood with iron, builds up in nature's way. Never known to fail.

Whether weak from worry, overwork, thin blood, or ill-nourished nerves, Ferrozone will quickly make you well. It is safe and harmless, undoubtedly the best tonic and rebuilding medicine made. We must recommend you to use Ferrozone if in poor health.

Ferrozone, known as the great food-tonic, costs 50c. per box, or six for $2.50, at all dealers, or by mail from N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U.S.A.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $3 per year, strictly in advance.

PETERBOROUGH, JANUARY 26 1905

THE WAR SITUATION

There are two easily apparent ways through which the present disturbances in Russia are bound to react to the injury of the Czar's ability to prosecute the war in Japan, and in neither of them does the element of a revolution enter—that is another and more serious matter. Russia's ability to raise loans in Paris and Berlin has been, from the first, a strong point in her favor and a weighty argument on the side of those who held with her and against Japan. It is impossible in such a case to know exactly how much of the willingness to subscribe for loans is due to the confidence in the value of the security offered and how much to a realization that earlier investments of a same nature must be protected; however, whatever the cause, Russian loans have been amazingly well received in the past. Whether or not they will be or can be made to appear to be in the future is a very different matter. None realize better than continental investors how largely national industry is security for national indebtedness, and any such preliminary outbreak as that of Sunday bodes no good for invested capital.

But there is a more speedy way of striking a death blow at Russian ambition to carry on the Japanese war to a victorious conclusion, no matter what the cost in lives and gold, and that is by bringing out the workmen employed in the government railroad construction work and on the railroads themselves. If the great commercial artery which alone feeds Kuropatkin with troops and Kuropatkin's troops with supplies, is ever blocked, the option of the Manchurian army is to surrender or starve to death.

RUSSIA'S LIBERTY IN ACTION

From the time of the international invasion of China in the summer of 1900 until the beginning of the present Russo-Japanese war the Russians held Manchuria by fraud and force. Their government violated its pledges outrageously, coerced China into negotiations which would have led to the absolute loss of the province if other powers had not intervened, and also to the exclusion of the allies. Its conduct was such that it evoked a sharp note of protest from Washington.

This Russian policy of bad faith was possibly only because of the weakness and the fears of the Chinese. Now Russia is offended because, as she alleges, these same compliant people are violating neutrality in favor of the Japanese, who happen to be next to them today owing to circumstances over which the Russians have no control. There is a Chinese island off Port Arthur that the Japanese are allowed to use as a naval base; the Chinese army on the border has accepted Japanese officers. Chinese firms have trafficked in Japanese army supplies.

Finally, there is something here not likely to be overwhelmed by the announcement that as China has not given a satisfactory explanation of the breaches of neutrality Russia intends to use complete liberty of action in regard to future abuses. For Russia lost her liberty of action when she lost Port Arthur and her Pacific fleet and when she was jammed back into the stolen territory of Manchuria. She cannot invade Chinese ports and she would weaken herself by attempting to enlarge the theater of war in the north. In a practical view there seems to be very little danger of a general international fracas on this account because of her previous engagements and their tantalizing character. Her liberty of action provokes the smile that is childlike and bland, her seizure of Manchuria, her own coercion of the Chinese leave her without any claim to sympathy on moral grounds.

EDITORIAL COMMENT.

It is to be feared from the way that the temperance people are talking in Ontario that Brother Ross has forgotten the "pass word."

KAISER WAS ANXIOUS

Sat up Late at Night Receiving Reports From St. Petersburg

Berlin, Jan. 26.—Emperor William and the members of his entourage sat up late last night, receiving press and private telegrams from St. Petersburg. The keenest interest prevails here, where Russia is probably better understood than elsewhere on account of nearness and close business relationships. While the outbreak is looked upon as one which proceeded from the hearts of the people, the Foreign Office does not believe that it presages a revolution, because it lacks efficient leadership and is without adequate support among the bulk of the population throughout the Empire. Government control of the telegraph lines and railroads makes co-operation of the discontented impossible. At the time of the French Revolution a man could walk from Bordeaux to Paris, but no one can walk from Odessa to St. Petersburg and partake in the events there. The official view is that, although any friend of Russia must be sorrowful over the internal situation, the Russian Government dares not drop the reins or throw the situation away. The Government, to avoid anarchy, must act stringently.

FLEE TO THE FRONTIER.

St. Petersburg, Jan. 26.—An instance of the perfect military management occurred shortly after one o'clock today, when there was a disturbance on the palace bridge. A bugle rang out and in less than a minute five squadrons of cavalry emerged from neighboring streets at the gallop, charging to the point of alarm. But the few obstreperous half-drunken strikers had already been overpowered, placed in sleighs and taken to jails. The police have closed all the gunsmith's shops, and firearms and other weapons have been removed from the windows and locked up in the cellars.

FALL WAS FATAL

Geo. F. Hall Dies From Injuries Sustained at Hockey Match

Waubaushene, Ont., Jan. 26.—George F. Hall, one of the best-known sportsmen in the country, died on Sunday at Waubaushene from peritonitis, resulting from injuries sustained from a fall on the ice while refereeing a hockey match here. In the early 80's Mr. Hall was known as one of the most enthusiastic cricketers in Canada, being associated with Senator Kirchhoffer, the late Baron von Hugel, W. R. Wadsworth, and others, in the formation of the famous Port Hope eleven. He was one of the players selected from all Canada to make up the team that played in England in '81, when the Canadians won in a closely contested game. Mr. Hall was the second son of the late Joseph Brennan Hall, of Montreal, and a nephew of the late Senator Sidney Smith, of Cobourg, formerly Postmaster-General. Captain V. A. Hall, of the Toronto Field Battery, is a nephew of deceased.

THE DAY'S WORK.

Do thy day's work, my dear,
Though fast and dark the clouds are drifting near,
Though time has little left for hope and very much for fear.

Do thy day's work, though now
The hand must falter and the head must bow,
And far above the falling foot shows the bold mountain brow.

Yet there is left for us,
Who on the valley's verge stand trembling thus,
A light that lies far in the west—soft, faint, but luminous.

We can give kindly speech,
And ready, helping hand to all and each,
And patience to the young around by smiling silence teach

We can give gentle thought,
And charity by life's long lesson taught,
And wisdom, from old faults lived down, by toil and failure wrought.

We can give love, unmarred
By selfish snatch of happiness, unjarred
By the keen aims of power or joy that make youth cold and hard

And if gay hearts reject
The gifts we hold would fain fare on unchecked
On the bright roads that scarcely yield all that young eyes expect.

Why, do thy day's work still.
The calm, deep founts of love are slow to chill;
And Heaven may yet the harvest yield, the work-worn hands to fill.

—All the Year Round.

ATHLETIC WORLD

BY OUR SPORTING EDITOR

Midland, Jan. 21.—The Midland team had the most strenuous game in its history this season last night, when they played in Barrie, a tie game, four all. For the last hour the teams played four men a side, and at the end the visitors had the better of the argument, and had it not been for the wonderful work of Roy Thomas in goal for Barrie, would have won out. He stopped scores of shots from the Midland forward line, the star of which was Whitcroft, who scored three of the goals. The team was pretty badly used up as a result of the game, Whitcroft suffering the most, and he is to-day nursing a broken thumb and other injuries.

The game will be played off next week and there is a possibility that the game may be played in Peterborough. At any rate the Midland team is trying to make arrangements to that effect.

Midland plays in Collingwood their next game, and should win it easily enough.

Kemp was injured last night and had to retire from the game.

SETTLE IN NORTH ONTARIO

Manitoba Does Not Get all the American Settlers—Foreign Immigrants Total 24,072

Northwest Canada is regarded nowadays as the destination of immigrants from the United States. Mr. Thomas Southworth, Director of the Bureau of Colonization for Ontario, therefore considers it a significant fact that 672 American settlers last year came through Winnipeg to Northern Ontario, where they took up land. In addition, 231 American immigrants for New Ontario came in via Montreal. The total number of foreign immigrants arriving in Ontario by way of ocean ports were 24,072. This does not take into account those who came by way of New York and Boston, entering Ontario at points such as Niagara Falls, Brockville and Kingston, of whom there were quite a number, but no record was kept.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

[1] At least six months' residence upon and cultivation of the land in each year during the term of three years.

[2] If the father (or mother, if the father is deceased), or any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same town, township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 20 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Land Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

MAIL CONTRACT

SEALED TENDERS, addressed to the Postmaster General, will be received at Ottawa until Noon, on Friday, the 3rd March, 1905, for the conveyance of His Majesty's Mails, on a proposed Contract for four years, ninety-two times per week each way, between Peterborough and C. P. and G. T. Ry. Stations, from the 1st April next.

Printed notices containing further information as to conditions of proposed Contract may be seen and blank forms of Tender may be obtained at the Post Office of Peterborough and at the Office of the Post Office Inspector at Kingston.

AUTHORS & COX

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

INCORPORATED

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and, we believe, exceedingly profitable investment. Every dollar of stock is guaranteed by twenty year, full paid, gold bond, delivered to purchaser of stock, from an Investment Company that has no interest whatever in the company, but who are disposing of the debentured bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the State Treasurer under which they received their charter, thereby doubly securing the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvellously rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Summer and Jack Mining Co., Limited, Elanco Fountains, South Africa:—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world.

"With the present development of the Monument Mine, I estimate that 100 tons per day can be extracted, which will mill from $15.00 to $22.00 per ton of ore, the estimated cost of mining the ore, delivering and milling, I place at about $4.00 per ton. With increased milling capacity, it is safe to say that the mine can furnish 100 tons of $15.00 ore, which would yield a clear profit of $11.00 per ton, or $1,100 per day (equal to $400,000.00 per annum). Estimated total value of ore in sight, $4,500,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Dr. Brown writes as follows:—

"In regards to the amount of ore available at the mines at Sinaloa, I saw on the dumps several thousand tons, probably 5000 tons would be an under-estimate.

"As to the size of the ore body itself, from what I saw of the geological structure, I think that there is every indication that it will be found to extend underground as far as the out-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish full information to investors.

Stocks—The MARKETS OF THE WORLD—Grains

A SPLENDID PROPOSITION

The Salido Gold and Copper Company

Incorporated under the laws of Arizona, with a capital of $3,oc ooo forever on-assessable divided into shares of $1 each, par value. All investments insured Granite Securities Company.

The "SALIDO GOLD COPPER COMPANY" enterprise offers attractions to the investors of the country, that without thorough investigation, would scarcely seem probable. If only a traction is realized of what any prudent business man in his own affairs would regard as absolutely certain, the enterprise must prove abundantly successful and exceedingly profitable.

SALE OF STOCK

The company will prosecute the work of development with all the diligence that the cash in the treasury will permit and circumstances warrant, and to this end a small amount of the treasury stock is now placed upon the market, in blocks of not less than One Hundred Shares. The par value of the stock is One Dollar per share, fully paid and forever non assessable.

The company reserves the right to advance the price of stock without notice.

REMEMBER

First—That all payments for treasury stock go into the treasury for development work and not into the pockets of the promoters.

Second—There are no salaried officers

Third—The incorporators have put their own good money into this enterprise and being business men, intend to do business along business lines.

Fourth—That this company is honest.

Fifth—If you are thinking of investing in mining stocks this is worthy of your careful investigation.

OTHER PROPERTIES

This Company owns four other Gold and Copper Mines, which title is now in process in the laws of Mexico. As soon as title is perfected, we shall commence to develop them as we certainly expect something very great from these properties. Our assays taken have been of the very best, showing gold and copper from $6.00 to $122. 30 per ton.

I have secured a small block of this stock, which I offer at the following prices: Unguaranteed 40 cents per share, guaranteed 80 cents per share. These prices will only prevail for a short time, as the number of shares for sale at this price is limited. The Shares will then be advanced to 40 cents for the unguaranteed and 80 cents for the guaranteed. I can unhesitatingly recommend this investment to the Canadian public.

W. K. HALL,

FISCAL AGENT, -- -- PETERBOROUGH

Agents wanted in outlying districts, including Toronto.

The California Buckeye Mine

This mine consists of 15 acres of good zinc land, well prospected by drill holes showing forty feet of good pay dirt at a depth of 154 feet.

On the property are hoisting engine, shaft house, ore buckets, Worthington steam pump, air drill, cars and pipes. Over $15,000 have been expended to date, and the proposition itself is a good one so much so that we can personally guarantee an immediate dividend of 8 per cent. this year and 12 per cent. after 1905, with an additional quarterly dividend.

Capital Stock $250,000

Shares, par value $1.00 each. Fully paid up and non-assessable. No Preferred Stock. No bonded indebtedness

The shares are selling at 20 cents each, with a prospect of the price being raised.

The Joplin Daily Globe says that over $10,000.000 worth of zinc and lead were mined in 1904, up to 1st Dec., in the Joplin District. In the California Buckeye Zinc Mine, located in the centre of the Joplin District, it has been demonstrated that the ore body has an average thickness of 42 feet and the runs are 50 feet wide, about 170 feet from the surface.

The rough dirt for the first three months of operation produced zinc ore to the amount of $12 95 per cent., while the average for the district is less than 5 per cent., but for the purpose of being on the safe side, we calculate on only 8 per cent. ore to the ton of dirt, and it shows a profit each day with two shifts of men, at $566.20.

We stand ready to prove every statement made, and if enough stock is subscribed for in this locality a directorship of the company is at the disposal of the subscribers.

Any further information and proofs of earning capacity will be cheerfully supplied.

BATTERED MAINE MAY SAIL AGAIN

Company Formed to Raise the Ill-Fated Battleship From Havana Harbor

TO MAKE A SHOW OF IT

The Undertaking Will be one of the Greatest Engineering Feats on Record

Washington, January 24.—It is probable that teh battleship Maine, which went down in Havana harbor on February 15, 1898, will be raised and possibly made fit for sea service once more

The United States Government, having relinquished all claims to the ship, it becomes the property of the Cuban Government, which has made earnest efforts for some time to secure its removal because it forms a serious obstruction to navigation. The Cuban Government has entered into a contract with Jose D. Wyckoff, of Havana, for the raising and removal of the battleship.

A company has been incorporated, to be known as the United States Battleship Maine Salvage Company, with headquarters at Washington, Mr. Wyckoff is the manager. For the beginning the work has been extended to April 15. 1905, and its completion to April 19. 1906.

As nearly as can be learned from careful examinations of the wreck, about one-third of the battleship at the bow has been seriously injured the other two-thirds remaining in comparatively good condition. It is the purpose of the company first to remove the bodies of the sailors and their personal effects and then, to make the undertaking a financial success, by recovery of all valuable articles, such as arms, cannon, coal machinery, etc., and the uninjured part of the ship itself.

It is also proposed to admit visitors to the work after the cofferdam is pumped out, charging an admission fee, and, after the ship is floated, to exhibit it at the principal ports of the United States. It is proposed to manufacture articles of brass, bronze and copper found on the wreck into mementoes to be sold.

Sufficient material of all kinds will previously be set aside for the erection of the contemplated memorial and placed at the disposal of the memorial committee.

The actual work of raising the great ship will begin very soon.

GERMAN-BRITISH TREATY

Berlin Government Wants to Negotiate a Trade Convention

Berlin, January 25.—The newspapers today contain an officially inspired though definite statement to the effect that Germany has begun negotiations for a new commercial treaty with a "certain nation" with which she has at present only a provisional arrangement.

I am able to announce that England is the country in question. This treaty, if it goes through, will be of great importance, as it will provide for future commercial relations between Germany and Canada and other English colonies.

I am also in a position to say that the new commissioners, on completing the treaty with Great Britain, will go to the United States to endeavor to negotiate a treaty with that country.

BRING BABY TO CHURCH

The Unusual Invitation Extended to His Congregation by a Winnipeg Baptist Pastor

Winnipeg, Jan. 25.—Rev. John McNeill, pastor of the First Baptist Church, extended an out of the ordinary invitation to the opening services of his church. Realizing the difficulties of mother with small children, in the way of church attendance, he invited them to come, not only next Sunday, but on all future Sundays, and bring their babies along. The little ones are to be left in the assembly room, or one of the other rooms in the basement, where they will be taken care of by a committee of the Ladies' Aid Society.

NICHOLAS AND LOUIS

The Czar's Position Compared to That of the French Monarch Before the Reign of Terror

Paris, Jan. 25.—The Temps' St. Petersburg correspondent makes a graphic comparison between the position of Emperor Nicholas II., and King Louis XVI. on the eve of the Reign of Terror. After a careful analysis of the situation the correspondent concludeat hat most of the military forces of Russia will remain loyal to the Emperor, although he foresees a prospect of some of the artillery regiments playing the same role that the regiment of the French Guards took on the fall of the Bastile, at the outbreak of the French Revolution. The correspondent also points out that Emperor Nicholas' withdrawal to Tsarskoe Selo places twenty-one kilometres between him and the excited populace. He is about fourteen miles away.

A Winning Fight

Against Consumption

LARGE DECREASE IN DEATH-RATE SINCE THE OPENING MUSKOKA HOMES FOR CONSUMPTIVES.

1896
"The Consumptive Under Sentence of Death."

Read the following extract from "Globe" editorial, reflecting public opinion in 1896, when it was first proposed to establish a Consumptive Sanatorium in Muskoka:

"One of the difficulties is to remove from the public mind the impression that consumption is incurable, the belief being almost universal that once it has seized hold of its victims all that can be done is to leave them to die. Another of the difficulties, and perhaps the main difficulty, is the question of finances. The maintenance of an hospital for this class of patients would involve more than usual expense. The curative influences are necessarily slow, and patients will require to spend considerable time in the institution if they are to receive any permanent benefit from the treatment. Then there are the great number of afflicted who would desire to avail themselves of the boon a far greater number than could possibly be accommodated.

"These problems will have to be faced, but above them all remains the sorrow and suffering that such an institution would go a great way toward alleviating. There is probably scarcely a reader who does not know of homes where the existence of such an institution would establish hope where now there is nothing but despair. It is difficult to conceive of a more tragic fate than that of the bread-winner who sees the swift approach of death, and yet knows that the destroyer could be vanquished had he but the means to carry him to where climatic conditions are favorable and enable him to remain there long enough to profit by the curative influences.

"Such people are under sentence of death."

1904.—CONSUMPTION FAST BEING STAMPED OUT!

Government Reports Show Decrease of 40 per cent. in 8 years.

Deaths in Ontario Reduced During the Past Three Years from 8,151 to 6,878, notwithstanding an Increasing Population.

IN TEN YEARS, WHY SHOULD THERE BE 100 DEATHS IF NECESSARY MONEY AND HELP BE GIVEN?

Following diagram, giving figures from the Report of the Secretary of the Provincial Board of Health, tells a wonderful story of a decreasing death-rate from consumption since the beginning of our crusade. Note that in the first four years there had been a gradual increase in the death-rate:

Deaths from Tuberculosis in Ontario.	Increase.	Decrease.	Year.	
Not Available.			1896	National Sanitarium Association Formed
3154			1897	Muskoka Cottage Sanatorium opened
3291	137		1898	116 Patients Treated
3405	114		1899	147 Patients Treated
3484	79		1900	189 Patients Treated
3243		241	1901	186 Patients Treated
2694		549	1902	Free Hospital opened 236 Patients Treated
2072		622	1903	321 Patients Treated

—$100,000 has been expended by the National Sanitarium Association in 8 years to maintain and extend its work in Muskoka.

—1,500 Patients have been cared for in these Homes.

—Since the Muskoka Free Hospital for Consumptives was opened in 1902, not a single patient has ever been refused admission because of his or her poverty.

—Much more could be done if only the means were forthcoming. **Will you help?**

Contributions may be sent to SIR WM. R. MEREDITH, KT., 4 Lampert Ave., Toronto, or W. J. GAGE, Esq., 84 Front st. West, Toronto.

A SPLENDID PROPOSITION

Rare Chance to Secure a Paying Investment

THE GOLD COIN MINING COMPANY

has placed a small block of their stock at the disposal of Canadian investors. This stock is sure to rapidly advance in price. The Company is now arranging to instal the power plant and a mill and cyanide plant for the reduction of their ore to a bullion on the property. They have arranged with a Trust Company having assets of $1,500,000 to put up a bond guaranteeing investors the repayment of the full amount invested. This makes investors absolutely safe By no possibility can they lose a dollar

THE GOLD COIN MINING COMPANY was organized November 21, 1902 under the laws of the State of Idaho. The capitalization is one million shares of the par value of one dollar each, fully paid and non assessable; of the 1,000,000 shares, 400,000 have been set aside as treasury stock

THE BOISE BASIN came into prominence shortly after Grimes and his party of prospectors entered the Basin country in 1862; their entrance was into the northern portion, and one discovery of rich placer ground followed another until the news of the rich finds reached the outside world, when a veritable stampede for Boise Basin commenced. towns sprang up and grew together in an incredibly short time; the rush of people to Idaho City made it a place of 20,000 people in 1867, having a business street over a mile long lined with two-story buildings streets and sidewalks filled with people day and night, business and money on every hand and the city bearing the proud distinction of being the capital of the territory of Idaho. Wages ran from $6 to $10 a day and not infrequently forty and fifty men worked on a single placer claim; the clean-up for a day's work in many instances ran close to $5,000; large fortunes were made in a few days by washing the golden sands in a pan, so eager was the quest for the shining metal that the streets of Idaho City were dug up and washed and re-washed, and the soil removed from under the houses and places of business. So extensive was the search for the hidden treasure that not only all of the low ground was worked but the foot of the mountains surrounding the city have been washed away, filling up the lower portions of the basin and extending into the town, where one of the buildings has been buried under the tailings from the numerous placer workings.

LOCATION—The property of the Gold Coin Mining Company is situated in the Gambrinus Mining District, Boise County, Idaho, on the range of mountains between Moore Creek and Elk Creek, which forms a part of the eastern boundary of the famous Boise Basin and into which these mountains are drained The property is located ten miles northeast of Idaho City, from which place there are good wagon roads either to the workings on top of the mountain or to the place of the proposed tunnels in the gulch which crosses the Tunnelsite claim.

THE CLAIMS—The Company owns a group of four contiguous lode mining claims and the Gold Coin Millsite: the names of the lode claims are the Tunnelsite, Blue Bell, Pennsylvania and Homestake, each being a full claim 600 feet wide by 1,500 feet long, excepting the Tunnelsite claim, which is 450 feet wide at the west end and 1,055 feet long. it was necessary to stake the claim in this form on account of joining the Washington property on the south and the Sub Rosa property on the west, these properties being prior locations to the Tunnelsite claim. The four lode claims aggregate nearly 80 acres of rich mineral land.

Further particulars may be had on application to WM. SAILSBURY, Fiscal Agent of the Company Peterborough, Ont., or to

S. E. PHELPS, Secretary,
311 SCHOFIELD BUILDING, CLEVELAND, OHIO.

CATARRH

RUINS HEALTH AND BEAUTY CAUSES THE WEAK TO DIE YOUNG INVARIABLY LEADS TO CONSUMPTION.

Thousands Annualy Cured by Catarrhozone

MR. ARCHIBALD BASS, of New Harbor, writes; 'Catarrhozone proved itself a remarkable remedy in my case. I suffered terribly from catarrh in the throat and my nose was so stuffed up every morning I could hardly draw my breath. The mucous dropped back into my stomach, upset my digestion and kept me sick all the time. Catarrhozone relieved in a short time and cured perfectly."

MRS. W F. BREACH, of Chapman, writes; "I have used a great many catarrh remedies but none of them ever helped like Catarrhozone. It cleared out my nose and throat and stopped a ringing noise in my ears. Catarrhozone is very pleasant and simple to use and many times better than any other catarrh remedy."

MR. LAWRENCE KENNEDY, of New West Annan, says; 'For three years I tried doctors but my catarrh grew worse and worse. I got no relief till I used Catarrhozone. It was not very long in curing me so perfectly that the disease has never returned."

MR. JOSEPH Da ROCHE, one of the most prominent and highly respected citizens of Loggieville, N.B., says; "I used Catarrhozone for a sore throat, cold in the head and head ache. I always felt relief immediately. It cured the discharge from my nose and restored my sense of smell lost through the effects of catarrh."

Catarrhozone is simple, convenient and pleasant. It is warranted to instantly relieve and permanently cure.

Complete outfit consists of a beautiful nickeled hard rubber inhaler and sufficient liquid for recharging to last two months. Costs $1.00 or sample size 25c. Sold by all druggists, or sent by mail to any address if price is forwarded to N. C. Polson & Co, Kingston, Ont., or Hartford Conn., U.S.

TOWN AND COUNTY NEWS

DASHES HERE AND THERE BY TIMES' REPORTERS

"Host, Men, Host"

Cards are out for a smoker to be given by Camp Clan Alpine, Sons of Scotland, in Brock's Hall, over the Palace Cafe on Tuesday evening next.

A Good Service

The street railway is putting up an excellent service, notwithstanding the stormy weather. The cars are generally on time in the morning, the track being kept fairly free from snow by the sweeper.

Missed Their Train

Quite a number of excursionists from Campbellford, who came to see the hockey match here on Tuesday night, failed to get to the station before the train left for home at 11.30, and were obliged to stay all night.

A Sensible Act

An order was issued from the Canadian Pacific management at Montreal that the men in the employ of the system be afforded every facility for polling their votes yesterday. The chief train despatcher, in consequence of the order, at once gave instructions that the freight traffic time be temporarily rearranged, and the movement of trains expedited or retarded as may be found most convenient in order that the train crews might exercise their franchise, irrespective of party. The company adopted a similar policy in the general Provincial election of 1902.

Painter's Union

A very enthusiastic meeting of the Painters' Union was held in their hall on Tuesday evening. Officers were elected, and the auditors audited the books and reported them in good shape, with a large surplus in the treasury. The Union is in a flourishing condition, and has a large membership with prospects for enrolling a number more.

California Excursions.

The Chicago, Union Pacific and North Western Line runs through first class Pullman and Tourist sleeping cars to points in California and Oregon. Personally conducted excursions from Chicago every week. Lowest rates. Choice of routes. Finest Scenery. Special attention given to family parties. For maps, illustrated folders and rates, address B. H. Bennett, General Agent, 2 East King street, Toronto, Ont.

SOCIAL AND PERSONAL

—Dr. Scott delivered an address to the First Aid Class last night at the Y.M.C.A.

—Mr. J. E. Olea is in Montreal making selections for Cressman's semi-ready department.

—Mrs. Jackson and Miss Mowry, Lindsay, who have been the guests of Mrs. D. G. Heathers, Stewart street, leave for home to-day.

—Mrs. J. R. Stratton left for Toronto last evening and will be out Tuesday evening by the Rev. and Mrs. Lewis. The evening was enjoyably spent in music and games.

—The lecture under the auspices of St. Luke's Men's Guild to-morrow evening should be patronized by a large number. It is open to men and women. Mr. R. M. Denniston will speak on "Jean Valjean."

—The first of a series of Penny Readings Entertainments under the auspices of the Strangers Fellowship Club will be held in the Y.M.C.A. Hall to-morrow night, Jan. 27th, at eight o'clock. An interesting program is provided for that evening.

—The Young Men's Guild of George street church will hold an interesting meeting this evening, and a cordial invitation is extended to all young men, whether identified with George street Methodist church or not. These meetings are very enjoyable and are being well attended.

"I thank Dr. Pierce for the kind advice he gave when I wrote to him."

"I am thankful to the friend who first recommended your medicine," writes Mrs. Amelia M. Brook, of Smithfield, Fayette Co., Pa. "We have a twelve pound baby, three weeks old. I took three bottles of 'Favorite Prescription' before baby came, and the time was only one hour and a half. Have had five children, and before this always had a severe time, lasting two or three days, and never was able to do any work for about two months afterward. Now I am doing all the work for four children. My friends say I look better now than ever before. We told one of my sisters to take 'Favorite Prescription,' which she did, and when her child was born the time of suffering was very short. She has better health now than since her marriage, some years ago. We cannot praise Dr. Pierce's medicines enough. I thank Dr Pierce for the kind advice he gave when I wrote to him. Whenever I see other women suffering I tell them about your wonderful medicines."

The benefits resulting from a consultation by letter with Dr. Pierce are testified to by thousands of grateful women who have been made new women by his medical advice and fatherly counsel given absolutely without cost or fee.

Sick and ailing women, especially those suffering from chronic diseases, are invited to consult Dr. Pierce, by letter, *free*. All correspondence is held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Favorite Prescription is the best medicine for the cure of womanly ills. It establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness. It is the best preparative for maternity, giving the mother strength to give her child, and making the baby's advent practically painless.

Dr. Pierce's Favorite Prescription contains no alcohol and is entirely free from opium, cocaine and all other narcotics.

The Common Sense Medical Adviser, 1008 large pages, in paper covers, is sent *free* on receipt of 21 one-cent stamps to pay customs and mailing *only*. Address Dr. R. V. Pierce, Buffalo, N. Y.

ROYAL TEMPLARS

Election of Officers for the Ensuing Term Tuesday Night

There was a large turn out of members at the regular monthly meeting of the Royal Templars on Tuesday evening. Much enthusiasm was displayed during the evening and there was an interesting discussion on the various topics brought before the meeting. The following officers were elected.

Bro. Carey ..... P.C.
B. Fife ..... S.C.
Sister Bennett ..... V.C.
Jas. R. Bell ..... Rec. Sec.
A. E. Dixon ..... Asst. Sec.-Treas.
A. E. Dixon ..... Asst. Sec.-Treas.
Sister E. Matthews ..... Rec.-Sec.
Sister Bennett ..... Herald
B. Bell ..... Asst. Herald
Norman Bell ..... I.G.
A. Peters ..... Chap.
Sister Eva Bennett ..... Organist

The Local Royal Templars are in a flourishing condition. There being a substantial sum in the treasury.

THE LATE EDWARD WRIGHT

Lamented Demise of a Bright and Well Known Young Man

We regret to chronicle the death of Edward Wright, which sad event occurred at the home of his mother, 325 Aylmer street yesterday morning. The deceased was only 19 years of age, and had been a sufferer from consumption. Edward Wright was born in Peterborough and resided here all his life, with the exception of the last two years, during which time he was working in Toronto. He was a well-known young man and a member of the Home Circle. He leaves a mother, four brothers and two sisters to mourn his demise. The brothers are John, residing at 425 Bethune street; Brock, Roy and Albett, at home. The sisters are Miss Ethel Wright, at home, and Mrs. Thos. Lucas, town.

The family have the heartfelt sympathy of a large circle of friends in their double bereavement. Mr. Wright, the father of the deceased, having passed away three weeks ago.

The funeral will take place to-morrow afternoon at 2.30 o'clock, and proceed to the Little Lake cemetery. The services will be conducted by Adjt. Jennings of the Salvation Army.

MEETINGS ARRANGED

PREMIER ROSS MAY RESIGN TO-DAY.

Rumor That He Has Already Sent Resignation to the Lieut-Governor—His Honor Declines to Discuss Matter.

General Feeling Among Ross Supporters is That He Should Resign at Once—Refuses to See Any Newspaper Men.

Toronto, Jan. 27.—Hon. Geo. W. Ross refused to see any newspaper men at all yesterday. About half-past ten he went over to the Buildings, and was busy in his offices, but refused to admit any of the press representatives. Enquiries at his home elicited the information that although Mr. Ross was very tired he was comparatively none the worse for the hard work of the campaign.

It is possible that the Premier will send his resignation to the Lieutenant-Governor to-day. The practice in cases of Government defeat is to continue in office only long enough to close up outstanding accounts and conclude such business as is unfinished and is proper for a defeated Cabinet to transact. It is known that the Government has practically no business in hand which calls for completion. Two weeks ago premonitions of the end were felt at the buildings, and the departments were instructed to get their accounts settled right up to date. Private Secretaries of Ministers had already been given permanent positions, as is the custom with retiring Ministers, and altogether matters are in such shape that the Cabinet can go out at once.

It was rumored yesterday afternoon that Mr. Ross had already sent his resignation to Government House. A reporter asked the Lieut.-Governor as to the truth of the report, and his Honor said; "I can say nothing to the press." Inquiry at the Premier's office was equally fruitless.

The Premier might retain his position until the House has been called, but such action is altogether without precedent. The general feeling amongst Mr. Ross' own supporters is that he should resign immediately.

A prominent Liberal declared; "If I were in Hon. G. W. Ross' place I would hand in my resignation just as quickly as I could get to Government House."

If Mr. Ross does not resign this afternoon it will be because he had decided to hold a Council meeting before doing so. Mr. Dryden was the only member of the Cabinet at the building yesterday morning, but Hon. Mr. Charlton is expected early this afternoon. It is probable that all of them will arrive in the city soon, to look over the final settlement of affairs in their several departments before they formally vacate their seats.

RUSSIAN CZAR IS BADLY SCORED

French Papers Call Him a Brutal Barbarian

HE IS UNFIT TO GOVERN

The Civilized Nations Should Expostulate With Czar Over Massacres

Paris, January 27.—Russian revolutionists in this city continue to watch the situation with grim interest, and are doing their best to keep up the spirit and determination of the strikers by sending sums of money, with promises of more. That this money reaches its destination is certain, for there exists a perfect system of communication between the malcontents inside and outside of Russia.

Pierre Struve, editor of Osvoboshdenie, the independent organ of Russian Liberals, printed in this city, who is the chief of the revolutionary organizations here, expressed disappointment that the powers show no disposition to expostulate with Russia over Sunday's carnage.

"If," he says, "they did so with Lorence to the Kishineff massacres and the Armenian outrages, why not over the St. Petersburg outrage? The Czar has proved himself a barbarian. Why should he be treated with more consideration than the Sultan?

In spite of France's alliance with the Russian Government, the Czar has been heavily scored by the Parisian press. The Temps calls him a "Frail Degenerate," discussing the situation with a freedom it has never before shown in dealing with the officers of the allied nation. Even the Nationalists revile the "cowardly Monarch."

M. Drumont, of the Nationalist Libre Parole, calls him this morning "A courageless body, without a soul." All this is a blow to the Franco-Russian alliance that cannot be exaggerated, the French inheriting strong sympathy for their human fellow creatures placed in the position occupied by these unhappy subjects of Nicholas.

STANDING OF PARTIES

CONSERVATIVES -	70
LIBERALS ELECTED - -	28
CON. MAJ.	42

PREMIER ROSS SAFE IN WEST MIDDLESEX.

He Has a Majority of 75 Votes With One Poll to Hear From—Liberals Charge Use of Corruption

London, Jan. 27.—The returns from West Middlesex are complete, with the exception of one township, Metcalfe, and they make the election of Hon. G. W. Ross certain, his majority ranging from 75 to 100. This is a smaller lead than was anticipated by the friends of the Liberal leader, but it is accounted for by the fact that the Conservatives did everything possible to secure his defeat, supporters of the ex-Premier stating that they have indisputable evidence that bribery and plugging were indulged in. Mr. Ross left his campaign entirely in the hands of his friends, in order that he might address the electors in other parts of the Province, while Mr. Stewart, the Conservative candidate—who, by the way, was the opponent of Mr. W. S. Calvert in the November elections—made a personal canvass from end to end of the riding.

Mr. Stewart is a miller in Strathroy, and is admittedly the strongest candidate the Conservatives could have secured, yet Mr. Ross has a majority of 19 over him in his owntown, which had seldom before gone Liberal. The returns from some of the townships were very disappointing to the Liberals, who attribute their showing to the campaign of slander and misrepresentation, the work of pluggers, and the spending of money in certain sections of the riding.

The result of inquiries made by The Times, both from its correspondents in Ontario and from defeated candidates, would seem to show that the defeat of the Government was not due merely to the independent vote voting for Mr. Whitney, nor to the Liberals refraining from voting because of indifference and the bad weather, but that many Liberals actually overcame their party predisposition and voted against the Administration.

Forest, Jan. 27.—Very full vote polled, probably the largest in the history of the riding. A few Liberals in nearly every division voted against the Government, changing a Liberal majority of one hundred to a Conservative majority of one hundred and thirty. East Lambton Liberals did well, considering the Landslide. Pettypiece.

Toronto Star; Peterborough, Jan. 26.—Several hundred Liberals voted against me, partly because of Government, partly from factional enmity. Other elements swung also. R. McWilliams.

The vote was very close in several constituencies, and stray returns from a single polling booth might easily affect the result. Thus, in Prince Edward, Currie, the Liberals, is credited with a majority of five. Accounts differ as to whether this is the complete result, but it probably is; but a recount might easily have some effect. A despatch received this afternoon is to the effect that in West Huron, which had been considered Liberal, the candidates were tied, but some polls are still out. A recount will be held in Kingston, which gave Pense a majority of 16. In South Norfolk Hon. W. A. Charlton was beaten by 14 votes. R. A. Thompson, the Liberal, is likely to have 50 to spare in North West Worth. Parry Sound gives at least 300 to Gains, the Conservative.

The causes of the defeat are several, among which may be named the long continuance in office of the Liberals, the electoral corruption proven against the party followers, the unpopularity among liquor and temperance people of the temperance platform, and the feeling that Mr. Whitney's party should have a chance. Evidently the vote polled was large, in spite of the adverse weather, and the Government's defeat was largely due to Liberals, many of whom voted against the Administration. No doubt a few also preferred to stay at home than vote, while the whole Conservative vote was polled.

BIG LAND SALE

A Large Purchase of Hudson's Bay Land

Winnipeg, Man., January 27.—All correspondence between the Canadian Northern Railway and the Government relative to the purchase of 256,000 acres of the Hudson's Bay land grant for $1.56 an acre has been presented to the Manitoba Legislature. The correspondence shows that the final agreement was signed and the first payment of $20,000 on 256,000 acres was paid on November 10.

STRICT ORDERS IN GERMANY

Public Pleasure Parties Forbidden in the Strike Districts

Oberhausen, Rhine Province, Prussia, January 27.—Public pleasure parties and entertainments have been forbidden by the police because disorders by the strikers, who in this district number 29,805 men, are feared. Most of the mines have not a man at work. Twenty-eight men out of 2,450 are working in the Prosper pit. The Hoffnungs Steel Works shut down today owing to lack of coal. Several rolling mills continue work, helping out their own stock of coal with English and Belgian coal. Disturbances are expected next Wednesday and Thursday, when the men are paid off.

Ruhfort, Prussia, January 27.—The proprietors of the mines are issuing notices to the workmen to the effect that inasmuch that they have not been at work for three days are dismissed, warned to stay away from the mouths of the shafts and ordered to vacate the company's dwellings.

The Phoenix Iron Works and the Rhenish Steel Works have shut down owing to lack of coal.

Among the metal workers in the concerns still in operation there is a strong agitation for a sympathetic strike.

WEATHER NOTES

Continued cold.

GERMAN COAL STRIKE AFFECTING CANADA

Increase in Price of Steel Will Result in All Probability

VERY LARGE IMPORTATIONS

In Spite of Surtax and High Freights —These Total Considerable Amount

Montreal, January 27.—The strike of the German coal miners is to have a futher effect upon Canadian industrial concerns.

The local steel and iron dealers state that an increase in the price of Canadian steel will, in all probability result. The British product has already materially increased in price, owing to the increased price of English coal, and its action is to be reflected in the Canadian article.

In spite of the surtax and high winter freights, importation of German steel totals a considerable amount annually, especially in certain lines. The result means that certain established iron and steel industries may find it profitable to branch out into further lines which have not previously been developed.

The reports received from Germany show that the strikers have chosen a rather unfavorable time for going out. The German miners have been working at a considerably reduced output, and at the same time the owners have large stocks of coal in reserve. The result is that much suffering is bound to occur, and the owners are bound to reap immense profit. If the Polish element which has been brought in within the last seven or eight years in order to counteract the strength of the German miners, join the strike, the effect will be still farther reaching.

WANT BRITAIN'S HELP

German Strikers are Seeking Aid in England

Essen, January 27. — Reichstager and Berstein, Socialists, and Schroeder, a member of the miners' general committee, started for England yesterday. Their mission is not stated, but some believe that it is to inaugurate a movement among English operatives against mining coal to supply the German market, and thus weakening the fight of the German strikers.

WOMEN BACK GERMAN STRIKERS

Two Thousand Wives Hold Meeting—Mounted Constabulary Called out

Essen, January 27.—According to reports from the official mine bureau of the Dortmund district, embracing most of the strike field, the strikers today numbered 193,438 men, or 2,166 fewer than yesterday.

Two thousand wives of miners met here and determined never to ask their husbands to go to the mines again unless their demands are granted.

Berlin, January 26.—Drafts of police from most of the Prussian cities and detachments of mounted constabulary are being sent into the strike district, but only as a precaution, because no violence is reported.

The Mine Owners' Association, in consequence of the criticism of their refusal to meet the strike representatives, avers that such persons represent only a part of the workmen and possess no discretionary power, thus conferences with them would be purposeless. The strikers answer by quoting the utterances of Emperor William to Herr Grabler, a mine owner, and his associates during the strike of 1899 that even if strikers' delegates represented only a part of the workingmen "that makes no difference, because an attempt to reach an understanding has a high moral value."

TO AVERT BURIALS ALIVE

British Physicians Seek Some Method to Prevent Grewsome Accidents

London, January 27.—The remarkable case of Mrs. Holden, of Hayton, near Rugton, who showed signs of life while being measured for her coffin, has revived in acute form the agitation for adequate precautions against the danger of premature burial, and more stringent regulations in regard to certificates of death.

Dr. Stevenson Hooker, of the London Association for the Prevention of Premature Burial, strongly advocates providing mortuaries, where bodies may be kept for some time at a suitable temperature.

"There is only one infallible test of death," said Dr. Hooker, "and that is the presence of decomposition. One of the chief sources of peril is the practice by medical men of examining the body.

"A doctor is attending a patient who lives six or seven miles away and someone runs to his house with information that the patient is dead. The doctor at once signs a certificate. Such a course should be made illegal."

This view also is held by a well-known Harley street physician, who cited the case within his own experience, in which the danger of a person being buried alive was very near.

"Miss Ethel Matthais, of Hempstead," he said, "was believed to have passed away. The action of the heart apparently had ceased and the pulse was nonsistent.

"She not only is living, however, but is now married and the mother of three children. Yet she was duly certified as dead by a most conscientious physician."

WATCHING MOSCOW

The Eyes of all Russia are Now Turned to the Ancient Capital

St. Petersburg, Jan. 26.—The lack of money and food is already operating against a continuance of the strike. Weeping women are returning to the cigaret factories, pleading to be allowed to resume work, but the managers are afraid to re-open in consequence of the threats of strikers to sack their establishments.

An official note this morning announces that Emperor Nicholas has expressed his thanks to Gen. Trepoff, the new Governor-General of St. Petersburg, for his distinguished and zealous services as chief of police of Moscow.

REVOLUTION UNDER FULL SWAY IN RUSSIA

Strikes are Spreading and Whole Country is Ablaze in Insurrection

THE DEMANDS OF THE REVOLUTIONISTS

The Czar and His Ministers are Proclaimed to be Murderers of the People.

St. Petersburg, January 27. — Everywhere the shock of Sunday's sanguinary crime is reverberating throughout the cities, towns and country. Thanks to the intelligence service of the revolutionists the news is able to spread. Indignation and horror are growing and all society is astir. It looks as if a single day's slaughter would do more to force reforms than fifty years of ceaseless and heroic agitation.

It may be stated with absolute confidence that the spirit of the authorities has suffered a damaging blow.

They are now increasing their means of defence through personal terror rather than because of any lofty or dispassionate sense of duty. They know the nation is against them, and hungers for revenge. They know that almost every nook and corner in St. Petersburg shelters a man or woman eager to exact reprisals for relatives slain.

They are perfectly aware that thousands of Russians are now in a murderous mood, who before were entirely pacific and even devoted to the person of the Czar.

There is little doubt that the revolutionaries will make the most of the Czar's downfall in popular esteem. They are already placarding him as the real author of Sunday's carnage and the real slayer of the people who went forth to meet him in a spirit of devotion.

AN IDOL DEMOLISHED.

This version of the Czar's conduct will find its way into all revolutionary literature and cannot fail to demolish its idol, which has so long commanded the worship of the ignorant Slav world. Then will follow a movement, if it does not come immediately, which no system of military defense and no heartlessness of repression can arrest or modify.

There is evidence that a great revulsion of feeling has taken place among the officers who led the troops on Sunday. They brood over the sickening results of their action and mutter against the policy of the government. When this feeling will take the form of a refusal to shoot the people cannot be said, but it is an element of weakness in the midst of the defenders of absolutism.

NOT LED BY ANARCHISTS.

There is no truth in the statement of the authorities that the demonstrators were led by Anarchists. The leadership is in the hands of men hitherto unidentified with action or remonstrance. They are men who stand for the principles enunciated by the Zemstvos and Municipalities and not for visionary ideas of the political millenium.

FURTHER DISORDERS.

St. Petersburg, Jan. 27.—In several Baltic Province towns there has been considerable disorder, especially in Riga, where the military are in complete possession. In the streets of Helsingfors there was last evening a resumption of the Tuesday night's rioting with bloodshed, some 30 persons being wounded. If a general movement breaks out among the Finns, it is likely to take the form of an armed uprising, as almost every Finn has a weapon in his house.

Sir Charles Hardinge, the British Ambassador, last night received from Capt. Grove, the British Consul at Moscow, confirmation of the Associated Press despatch from Moscow announcing the public posting of a London telegram imputing the disorders to British and Japanese influences, and he will ask for explanations from Foreign Minister Lamadorff today.

GIVE MIRSKY WARNING.

St. Petersburg, Jan. 27.—The proprietors and editors of the principal St. Petersburg newspapers, which are still not published, to-day sent a deputation to visit Prince Mirsky. M. Suvorin, proprietor of the Novoe-Vremya, headed the deputation. He declared on behalf of the press of Russia, as a result of the sanguinary events of the last few days they had reached the positive conclusion that there are now two governments in Russia, one of the Czar, and the other of officials, who, ignorant and careless of the needs of the nation, are incapable of successfully carrying on the war in which they have involved Russia. M. Suvorin added;

"We are deeply convinced of the imperative necessity for summoning the representative heads of all classes and all sections of the community. The Ukase of Dec. 12 promised liberty to the press, but the press to-day remains in the hands of the police censors. Had the Russian press been permitted to set forth the full facts of the workers' agitation, we believe that things would never have come to such a pass that Russian soldiers fired on unarmed Russian people. We know your Excellency is an honest, well-intentioned gentleman. We hope you will repeat our words to his Majesty. We implore him to grant the press freedom to set forth freely and truthfully the events of the last few days."

Prince Mirsky replied; "The Government has taken all necessary measures to restore order and protect property from danger." To this snub he added little, but a polite intimation that the press must continue to submit all reports to the censor.

M. Suverin responded; "I am convinced that the whole Russian people are behind the Liberal movement. The army, which has its roots in the people, will make common cause with them."

Here Prince Mirsky interrupted the speaker, saying, "But the troops fired on the strikers when they were commanded to."

"Yes," replied M. Suverin, "but that will not last long. To-morrow or next week the soldiers and officers will join hands with the people. Then the struggle will be over. If there were even five energetic men in Russia today it would have been easy for them to constitute themselves a Provisional Government."

St. Petersburg, Jan. 27.—The aspect of the city is almost normal this morning, and the feeling is decidedly calmer. Several newspapers have appeared.

Moscow, Jan. 27.—The streets this morning are quiet. The newspapers with the exception of three, have reappeared.

Libau, Russia, Jan. 27.—The workmen here are being compelled to leave the factories and mills by the more militant faction of the strikers. The telegraph lines have been damaged.

Said "Good-Bye" to His Family

Dying of Weakness—Given Up by Doctors as an Incurable and Hopeless Wreck

FERROZONE

SAVED HIS LIFE

After reading the following letter from Mr. H. A. Thurston, of 228 Vermont street east, Indianapolis, Ind., no one will ever doubt the merit of Ferrozone:

"A year ago I took the grippe.
"I was as weak as a child.
"I was no longer able to eat.
"My blood was thin. My cheeks were white and hollow.
"Doctor gave me all kinds of medicine, but none of them brought me strength.
"My friends said I was wasting away with some slow disease, and I bid them good-bye.
"Then I heard of this wonderful Ferrozone.
"After three days it gave me an appetite. I gained strength and became cheerful. Under Ferrozone, I improved steadily, as I was well today. I weigh fifteen pounds heavier than ever before, and feel like a new man.
(Signed) "H. A. Thurston."

The secret of growing strong is solved by Ferrozone. It supplies actual nourishment. It braces you up quick, supplies new energy, brings back the snap and fire of youth. Try Ferrozone, 50c. per box, or six for $2.50, at all dealers in medicine, or Polson & Co., Hartford, Conn., U. S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 3c cents per month, and to outside points at $4 per year, strictly in advance.

English Office—30 Fleet street, London, E.C.

Peterborough, Ontario.

UNION LABEL

PETERBOROUGH, JANUARY 27 1905

THE ELECTION

Probably in the whole history of the country has there been a more significant victory than that recorded on Wednesday. It was a surprise to the Conservatives as well as to the Liberals. No one ever dreamed of a turn over from three or four of a Liberal majority to a Conservative majority of over 40. The significance of this change and the causes which led up to it are subjects of mediation just now by the people of the province.

We may say regarding the causes, the charges of corruption which have been brought home to the government contributed to its defeat more than any other cause. This and the antagonism of the liquor interests and the temperance party, completed the undoing of Mr. Ross. The Times told its readers some weeks ago that the Liberal party had lost the liquor vote as well as the vote of the temperance party, but our local contemporary combatted the statement. The result shows that this journal was right.

Mr. Whitney is now in a position to carry out his pledges, and give us a secret ballot, remove the liquor license business from the realm of politics, as well as introduce other reforms promised during the campaign.

THE WAR SITUATION

When the Czar ruled that the dignity of his beaurocracy was worth more than the loyal support of his people, he willingly or unwillingly declared the end of the war in the Far East. While the revolution at home may and probably will be kept in check yet a little longer by the sabres of the guards and the bayonets of country regiments, the domains of Russia stretch too far to make it safe to continue sending regiment after regiment and battery after battery to the insatiable maw which gapes in Manchuria. Had the Czar seen fit to make the concessions asked by Father Gopon and his followers when, in the first enthusiasm of a righteous cause, they marched to his palace gates that he might hear and render justice, or had his attitude on the purely industrial issues they were raising been such as to encourage them in their innate regard for him as the "father of his people," there would have been behind his armies the power of a newly kindled personal loyalty which would have stopped at no sacrifice. But the Czar saw fit to choose another course and, whatever follows, it is for those for whom he has made this decision to justify it as far as possible.

It is altogether probable, therefore, that either events will be allowed to so mould themselves as to make peace—even a "temporary peace," such as Doubassoff outlined last month—the conditions of which are will become so intolerable as to make any foreign war out of the question. Either of these consummations is doubtless months away, but one or other, according to all indications, is as certain as the doom of the beaurocracy.

CAVAN.

The recent death of Mr. Robert Widdis has removed one of the best known and most highly respected residents of Cavan township.

Deceased was born fifty-eight years ago on the 11th November, on the Widdis homestead. He was married on May 24th, 1876, to Miss Agnes Jane Finley, of the same township.

Mr. Widdis had lived in and about Millbrook all his life and was much respected by all who came in contact with him. He was a consistent member of the Methodist church, Millbrook. Politically he was a Conservative.

There are left to mourn his loss, a widow, five brothers, Messrs. William, James, Edward, Jeffrey and George, and two sisters, Mrs. McCullough, of Manvers, and Miss Mary A., at home.

APSLEY.

—Mr. Gallon was in the village on Friday evening last.

—There was a surprise party at Mrs. Will Lean's on Saturday evening last. The elite of the village formed the number, and it may be remarked, by the way, that that body is as exclusive as "Newport's "Four Hundred."

—The roads in this vicinity are in good condition again, several of the more humane settlers have snowploughed it out in places. May the rest follow the example.

—The Rev. McQuade, of Warsaw, is to preach here on the 12th of February.

WATCHING MOSCOW

The Eyes of all Russia are Now Turned to the Ancient Capital

St. Petersburg, Jan. 26.—The lack of money and food is already operating against a continuance of the strike. Weeping women are returning to the cigaret factories, pleading to be allowed to resume work, but the managers are afraid to re-open in consequence of the threats of strikers to sack their establishments.

An official note this morning announces that Emperor Nicholas has expressed his thanks to Gen. Trepoff, the new Governor-General of St. Petersburg, for his distinguished and zealous services as chief of police of Moscow.

STATE OF SIEGE.

Governor-General Trepoff was in supreme command of the city to-day. Although a state of siege has not been actually proclaimed, it practically exists, the Emperor having conferred upon him as Governor almost absolute power, authorizing him to use the military, gendarmes, and every other agency of the Government to preserve order, placing under his control the Government works and schools, and even empowering him to exile persons who are inimical to peace. During the night hundreds of arrests were made.

TO PRESERVE ORDER.

The only decision of the Government thus far is to preserve order at all costs.

"The Government is living over a volcano, and can do nothing else," said a high official this morning. "Every other consideration must give way to the question of public order. Private advices from all the big cities and towns of Russia indicate that there is excitement everywhere. The red flag demonstrations at Helsingfors, Finland, last night were disquieting, but there is no evidence of a general movement. The appointment of Senator Linder as Secretary of State for Finland, announced Jan. 24, just at this time, is considered to be an unfortunate blunder, and is likely to prove exceedingly distasteful to the Finns."

Although a Finn himself, Senator Linder is exceedingly unpopular owing to his active support of the policy of Russification of the towns of the Baltic provinces.

EYES ON MOSCOW.

Troops are marching through the streets of Riga and Reval, but the eyes of all Russia to-day are fixed on Moscow. The appearance of St. Petersburg is more normal, but no more men have returned to work.

The funerals of many victims of Sunday's tragedy occurred this morning. Pitiful sights were witnessed. In several cases a man and wife carried between them a wooden box containing a child killed.

DEAFNESS CANNOT BE CURED

with local applications, as they cannot reach to seat of disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials, free.

SAW SQUADRONS DAY BEFORE

Captain Wood First Evidence To-day Before the North Sea Commission

Paris, Jan. 27.—The International Commission to inquire into the North Sea incident began hearing witnesses to-day. The meeting of the commission was attended by a score of seamen and fishermen from Hull, giving their session a somewhat nautical aspect.

The first witness was Captain Wood, of the steamer Zeno, plying between Hull and Copenhagen. He said that on the afternoon preceding the occurrences on Oct. 22, he saw two Russian squadrons proceeding westward. The locality was unusual for warships.

Question—Were the warships following the course habitually taken?

Answer—No, they were to the west, and not in the normal course.

The witness added that the squadrons were proceeding at about 12 knots. He did not see any other warships during the voyage.

Vice-Admiral Doubassoff (Russia) cross-examined the witness, and asked what distance the squadrons were outside the usual course.

Capt. Wood answered that the ships were ten to twelve miles from the ordinary route.

ARTICLES FOR SALE

A Graphaphone cheap, with a number of choice records. Apply at Times Book store.

PACKING BOXES. Apply at Times Book store.

SECOND HAND Man's Bicycle for sale. Apply at Times Office.

TYPEWRITER—CALIGRAPH for sale cheap. Apply to P. O. Drawer C., town.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

[1] At least six months' residence upon and cultivation of the land in each year during the term of three years.

[2] If the father (or mother, if the father is deceased), or any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same town, township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Land Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

MAIL CONTRACT

SEALED TENDERS, addressed to the Postmaster General, will be received at Ottawa until Noon, on Friday, the 3rd March, 1905, for the conveyance of His Majesty's Mails, on a proposed Contract for four years, ninety-two times per week each way, between Peterborough and C. P. and G. T. Ry. Stations, from the 1st April next.

Printed notices containing further information as to conditions of proposed Contract may be seen and blank forms of Tender may be obtained at the Post Office of Peterborough and at the Office of the Post Office Inspector at Kingston.

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

INCORPORATED

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and, we believe, exceedingly profitable investment. Every dollar of stock is guaranteed by twenty year, full paid, gold bond, delivered to purchaser of stock, from an investment Company that has no interest whatever in the company, but who are disposing of the debenture bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the State Treasurer under which they received their charter, thereby doubly securing the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvellously rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Simmer and Jack Mining Co., Limited, Elandsfountain, South Africa:—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world.

"With the present development of the Monument Mine, I estimate that 100 tons per day can be extracted, which will mill from $15.00 to $20.00 per ton. The total cost of mining the ore, delivering and milling, I place at about $4.00 per ton. With increased milling capacity, it is safe to say that the mine can furnish 100 tons of $15.00 ore, which would yield a clear profit of $11.00 per ton, or $1,100.00 per day (equal to $100,000.00 per annum). Estimated total value of ore in sight, $2,500,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Dr. Brown writes as follows:—

"In regard to the amount of ore available at the mines at Sinclair, I saw on the dumps several thousand tons, probably 5000 tons would be an under-estimate.

"As to the size of the ore body itself, from what I saw of the geological structure, I think that there is every indication that it will be found to extend underground as far as the out-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish full information to investors.

Stocks—The MARKETS OF THE WORLD—Grains

A SPLENDID PROPOSITION

The Salido Gold and Copper Company

Incorporated under the laws of Arizona, with a capital of $3,oc ooo forever on assessable divided into shares of $1 each, par value. All investments insured Granite Secumties Company.

The "SALIDO GOLD COPPER COMPANY" enterprise offers attractions to the investors of the country, that without thorough investigation, would scarcely seem probable. If only a traction is realized of what any prudent business man in his own affairs would regard as absolutely certain, the enterprise must prove abundantly successful and exceedingly profitable.

SALE OF STOCK

The company will prosecute the work of development with all the diligence that be cash in the treasury will permit and circumstances warrant, and to this end a small amount of the treasury stock is now placed upon the market, in blocks of not less than One Hundred Shares. The par value of the stock is One Dollar per share, fully paid and forever non assessable.

The company reserves the right to advance the price of stock without notice.

REMEMBER

First—That all payments for treasury stock go into the treasury for development work and not into the pockets of the promoters.

Second—There are no salaried officers

Third—The incorporators have put their own good money into this enterprise and being business men, intend to do business along business lines.

Fourth—That this company is honest.

Fifth—If you are thinking of investing in mining stocks this is worthy of your careful investigation.

OTHER PROPERTIES

This Company owns four other Gold and Copper Mines, which title is now in process in the laws of Mexico. As soon as title is perfected, we shall commence to develop them as we certainly expect something very great from these properties. Our assays. aken have been of the very best, showing gold and copper from $6.00 to $122. 30 per ton.

I have secured a small block of this stock, which I offer at the following prices: Unguaranteed 40 cents per share, guaranteed 80 cents per share. These prices will only prevail for a short time, as the number of shares for sale at this price is limited. The Shares will then be advanced to 40 cents for the unguaranteed and 80 cents for the guaranteed. I can unhesitatingly recommend this investment to the Canadian public.

W. K. HALL,

FISCAL AGENT, ... PETERBOROUGH

Agents wanted in outlying districts, including Toronto.

The California Buckeye Mine

This mine consists of 15 acres of good zinc land, well prospected by drill holes showing forty feet of good pay dirt at a depth of 154 feet.

On the property are hoisting engine, shaft house, ore buckets, Worthington steam pump, air drill, cars and pipes. Over $15,000 have been expended to date, and the proposition itself is a good one so much so that we can personally guarantee an immediate dividend of 8 per cent. this year and 12 per cent. after 1905, with an additional quarterly dividend.

Capital Stock $250,000

Shares, par value $1.00 each Fully paid up and non-assessable. No Preferred Stock. No bonded indebtedness

The shares are selling at 20 cents each, with a prospect of the price being raised.

The Joplin Daily Globe says that over $10,000.000 worth of zinc and lead were mined in 1904, up to 1st Dec., in the Joplin District. In the California Buckeye Zinc Mine, located in the centre of the Joplin District, it has been demonstrated that the ore body has an average thickness of 42 feet and the runs are 50 feet wide, about 120 feet from the surface.

The rough dirt for the first three months of operation produced zinc ore to the amount of $12 95 per cent., while the average for the district is less than 5 per cent., but for the purpose of being on the safe side, we calculate on only 8 per cent. ore to the ton of dirt, and it shows a profit each day with two shifts of men, of $566.20.

We stand ready to prove every statement made, and if enough stock is subscribed for in this locality a directorship of the company is at the disposal of the subscribers.

Any further information and proofs of earning capacity will be cheerfully supplied.

ADVERTISE IN THE TIMES

WILL DEPORT ALL STRIKERS

Notice to the Strikers to Resume Work

MAXIM GORKY ARRESTED

The Crisis is Admttied by Vladimer to be Very Acute—Czarevith ill

St. Petersburg, Jan. 27.—A notice was posted this morning at all the works giving the strikers 24 hours to resume their employment, and intimating that those who did not comply would be deported to villages.

MAXIM GORKY ARRESTED.

St. Petersburg, JGn. 27.—The Associated Press has been privately advised that Maxim Gorky, the author and Reform party leader, has been arrested at Riga, whither he had been summoned by the illness of his wife.

CZAREVITCH ILL

New York, Jan. 27.—According to a special cable despatch to the American, dated St. Petersburg, Jan. 25, the infant Czarevitch is seriously ill of pneumonia at Tzarskoe-Selo.

The heir of the Russian throne was taken ill at the Winter Palace last week, and the flight to Tsarskoe-Selo caused complications.

The Czarina is thoroughly alarmed, and telegraphed to London for two nurses. The child is constitutionally nurses. The child is constitutionally weak.

AN ACUTE CRISIS.

New York, Jan. 27.—The American prints the following this morning under a special cable caption;

Palace of the Grand Duke Vladimir.

St. Peterburg, Jan. 25, 1905.

To the New York American, New York, U.S.A.;

Reports sent from St. Petersburg of the occurrences here have been much exaggerated no doubt. We are passing through an acute crisis, but we expect by energetic measures to restore order within a short time.

(Signed) Vladimir.

WOULD TEAR CZAR TO PIECES.

New York, Jan. 27.—The Tribune's Paris correspondent says;

"The feeling throughout France which was slowt o express itself at the first news of the Russian revolution, is now assuming a strong and unmistakeable shape. A few isolated reactionary newspapers, like the Gazette de France, approve Nicholas II. for refusing to appear before the people on Sunday, but with these exceptions the voice of Paris and the departments is unanimous in condemnation of the Czar, who is personally held responsible for the massacres of his people. The Ministerial Matin fiercely blames the Czar. The Socialist papers open subscriptions for the families of the St. Petersburg victims, and publish headlines describing Nicholas the Second as Nicholas the Last" and "The Red Bear."

The mass of French oft he nation is heart and soul with the revolution. There is more sympathy than ever with the Russian nation, but the people are furious with the autocracy. The feeling is such that, should Nicholas to-day visit Paris, where he was acclaimed with such frenzy of enthusiasm in October, 1896, he would in all probability be torn to pieces by a mob.

The Russian Socialist students in Paris express the conviction that the people eventually will win, and that all is up with the autocracy, for, they say, the movement will spread throughout the country, especially to the center and south of Russia, and that with the exception of a few elite regiments at St. Petersburg, the rank and file of the army are with the revolution.

BURIED 167 BODIES.

St. Petersburg, Jan. 27.—Many of the victims of the massacre were buried to-day. Some of the coffins were borne on common carters' sleighs, the mourners following on foot, according to the Russian custom. It was noticeable that in many cases the usual priest and ikon ahead of the procession was absent. No demonstration occurred, but workmen and others stood uncovered in the streets as the little groups passed with the dead.

In the Volkoff Cemetery, beyond the Narva gates, 167 bodies were lowered to their last resting places.

CALL FOR VENGEANCE.

St. Petersburg, Ja. 27.—Father Gopon has issued the following proclamation;

"Brothers and workingmen, whose chalice has been filled with blood;

"We intended to go peacefully to the Czar with a petition on Jan. 22nd. Of this intention we informed his Mameluke Ministers beforehand, requesting them to withdraw the troops and not to hinder us from approaching our monarch. To the Emperor himself I forwarded a letter on January 19th, requesting him to come forth to his people with fateful heart and courageous soul. At the price of our own lives we guaranteed the involability of his person. And what came of it? Innocent blood was none the less shed. The miscreant Czar and his malicious officials, who are robbers of the Treasury and plunderers of the Russian nation, deliberately resolved to beat and massacre our unarmed brothers, their wives and children. The bullets of the Emperor's troops, which at Narva street killed workingmen who were bearing the Emperor's portraits, pierced those portraits and killed our faith in the Czar.

"But we shall wreck vengeance, brothers, on the Czar, accursed by his people, on all his imperial reptilean blood, on his Ministers, and on all pillagers of the ill-starred Russian land. Death to them all. I call upon all who are seriously desirous of helping the hard working Russian people to live and breathe freely to come forward and assist when and how they can. I call upon all thinking men, upon students, upon revolutionary organizations, the social democrats and social revolutionists, to lend a hand. He who is not with the people, is against the people."

WARNS THE STRIKERS.

Kovno, Russia, Jan. 25.—The Governor has issued a proclamation announcing that the general strike at Kovno has been brought about by the threats of a small group of workmen, whose hopes for changes in the factory regulations and an increase of wages cannot, however, be attained by such means. He urges the strikers not to listen to the promptings of the evil-disposed, but to resume work, promising to examine the men's demands, and as far as the men's demands, and as far as possible grant them.

At the same time the Governor warns the strikers that in the event of disturbances in the streets he will take vigorous measures, using armed force if necessary.

AN OPEN LETTER FROM MR. W. J. GAGE.

TORONTO, Can., Dec. 1, 1904.

DEAR FRIEND,

We again come to you with our story of trouble, but a story of surprising and encouraging results.

No apology is necessary; the great work of the National Sanitarium Association, carried on at the Muskoka Cottage Sanatorium and Free Hospital for Consumptives, is now well known.

The 1,500 patients cared for in these two Homes plead for your help.

The large number of lives saved, of those who a few years ago were supposed to be "under sentence of death," gives a right to your sympathy.

In helping to rescue a number great enough to constitute a large prosperous village, the giving back to home and friends a regiment of workers, surely will arouse interest in this work of mercy.

Each patient cared for in our Consumptive Homes, removes a source of danger, so that the life of every citizen in Canada is more secure.

The marvellous decrease of 40 per cent. in three years in the death-rate in Ontario from consumption proves that the fight against this dread disease is no losing one.

The **Muskoka Free Hospital for Consumptives**, for which this appeal is made, without any endowment keeps an open door to all who are poor and sick, as long as a vacant bed remains.

Nearly 400 patients have been cared for in this Hospital since it was opened less than three years ago. This has only been possible because of the continuous stream of gifts that have come to us from every part of Canada.

Remember, too, these were patients that other hospitals as a rule refuse.

Almost every trade and profession has sent its representative, and of every age—from the young schoolboy of 12 to the widowed mother of 60.

$25,000 was received last year by the Trustees of the Free Hospital for Consumptives through contributions and bequests.

$50,000 should be given this year if the Board is to provide for the increased accommodation and maintenance of those pleading for admission.

Where will your money do so much good in bringing health to the sick and protecting the lives of those in your home?

Why should consumption not be stamped out if the needful money and help be forthcoming?

The official Report of the Secretary of the Provincial Board of Health tells a **surprising story**—a story of a winning fight, showing that from 1897 up to 1900 there was a **steady increase** in the death-rate from Tuberculosis.

From 1900 there has been a **large decrease each year**, reducing the death-rate from 3,484 to 2,072 in three years, or **over 40 per cent.** This is all the more remarkable in view of the increase in population.

You have the joy of knowing that your dollar has helped in this merciful work.

The pitiful part of it all is in knowing how many more lives could have been saved if the needful money had been forthcoming to provide additional beds.

Will you not join in this great life-saving work?

Your dollar will bring gladness.

Fifty dollars will keep a sick one for two months; may save a life. Three hundred dollars will endow a bed for a year.

Yours sincerely

H. J. Gage

Rare Chance to Secure a Paying Investment

THE GOLD COIN MINING COMPANY

has placed a small block of their stock at the disposal of Canadian investors. This stock is sure to rapidly advance in price. The Company is now arranging to instal the power plant and a mill and cyanide plant for the reduction of their ore to a bullion on the property. They have arranged with a Trust Company having assets of $1,500,000 to put up a bond guaranteeing investors the repayment of the full amount invested. This makes investors absolutely safe. By no possibility can they lose a dollar

THE GOLD COIN MINING COMPANY was organized November 21, 1902 under the laws of the State of Idaho. The capitalization is one million shares of the par value of one dollar each, fully paid and non assessable; of the 1,000,000 shares. 400,000 have been set aside as treasury stock

THE BOISE BASIN came into prominence shortly after Grimes and his party of prospectors entered the Basin country in 1862; their entrance was into the northern portion, and one discovery of rich placer ground f lowed another until the news of the rich finds reached the outside world, when a veritable stampede for Boise Basin commenced towns sprang up and grew together in an incredibly short time; the rush of people to Idaho City made it a place of 20,000 people in 1867, having a business street over a mile long lined with two-story buildings streets and sidewalks filled with people day and night, business and money on every hand and the city bearing the proud distinction of being the capital of the territory of Idaho. Wages ran from $6 to $10 a day and not infrequently forty and fifty men worked on a single placer claim; the clean-up for a day's work in many instances ran close to $5,000; large fortunes were made in a few days by washing the golden sands in a pan, so eager was the quest for the shining metal that the streets of Idaho City were dug up and washed and re-washed, and the soil removed from under the houses and places of business. So extensive was the search for the hidden treasure that not only all of the low ground was worked but the foot of the mountains surrounding the city have been washed away, filling up the lower portions of the basin and extending into the town, where one of the buildings has been buried under the tailings from the numerous placer workings.

LOCATION—The property of the Gold Coin Mining Company is situated in the Gambrinus Mining District, Boise County, Idaho, on the range of mountains between Moore Creek and Elk Creek, which forms a part of the eastern boundary of the famous Boise Basin and into which these mountains are drained The property is located ten miles northeast of Idaho City, from which place there are good wagon roads either to the workings on top of the mountain or to the place of the proposed tunnels in the gulch which crosses the Tunnelsite claim.

THE CLAIMS—The Company owns a group of four contiguous lode mining claims and the Gold Coin Millsite: the names of the lode claims are the Tunnelsite, Blue Bell, Pennsylvania and Homestake, each being a full claim 600 feet wide by 1,500 feet long, excepting the Tunnelsite claim, which is 450 feet wide at the west end and 1,055 feet long. it was necessary to stake the claim in this form on account of joining the Washington property on the south and the Sub Rosa property on the west, these properties being prior locations to the Tunnelsite claim. The four lode claims aggregate nearly 80 acres of rich mineral land.

Further particulars may be had on application to WM. SAILSBURY, Fiscal Agent of the Company Peterborough, Ont., or to

S. E. PHELPS, Secretary,
311 SCHOFIELD BUILDING, CLEVELAND, OHIO.

Catarrh Cannot be Cured by Dosing

IT IS A LOCAL DISEASE AND IF CURED MUST BE LOCALLY TREATED.

Seven people out of ten suffer from catarrh. There is no lack of medicines, and if dosing would cure, very few cases of catarrh would be found.

You probably have it yourself. How much benefit have you obtained so far from medicine-taking? A little relief is all that you have derived. You have spent lots of money and yet the catarrh is growing worse all the time.

Has it ever occurred to you how desirable and how successful a treatment would be that you could breathe to where the disease existed. Perhaps you have thought about this form of cure but you have been unable to find a remedy that could be pleasantly and safely used.

Try Catarrhozone, it can be broken up by the air and carried in small drops to every part of the breathing organism. It touches the catarrh with healing, that is why it cures.

This healing, balsamic, vegetable substance is so volatile that the air greedily takes up from the inhaler, so antiseptic that it instantly destroys the microbes which produce disease of the breathing organs, and so soothing that it relieves congestion subdues inflammation, and stops mucous discharge.

Plainly Catarrhozone is an ideal remedy for diseases of the throat, lungs and nasal passages If you have catarrh, bronchitis or asthma all are equally curable by Catarrhozone. You have been told why this is so. These diseases are all modifications of an inflammatory condition of the lining membranes of the throat and nasal passages.

Now, bear in mind, you breathe Catarrhozone. Do you not think this is a rational treatment—a certain way of reaching the diseased surfaces which lie so far in the cavity of the body or in the head that they can be reached in no other way.

You cannot possibly fail to obtain quick cure from any of these maladies if you use Catarrhozone.

All dealers in medicine sell Catarrhozone. Trial size, complete outfit, $1.00, which will last two months and is guaranteed to cure permanently. Sent postpaid to any address by N. C. Polson & Co., Kingston, Ont. and Hartford, Conn., U.S.A.

TOWN AND COUNTY NEWS

DASHES HERE AND THERE BY TIMES' REPORTERS

To Our Town Subscribers

Town subscribers who once again are requested to notify us of any irregularities in the delivery of their paper. Regular carrier boys are forbidden to sell the paper. This is a rule which we have to rigidly enforce to protect our customers. We will be obliged to any one who will report to the office the sale of any copy or copies of The Times by our regular route boys.

Their Grateful Thanks

The Times is requested to publish the following from Mr. J. Westlake: We wish to thank the gentlemen who visited the "Ketchecum Lake" cottages this fall, for the sum of money they gave us in making a collection to help to pay off the debt of the Hall's Bridge St. Mathews English Church, also the collection they gave towards the minister's buggy, allowing him to be able to visit the people living far away from churches. They have helped us now several years. We hope now we will soon have the church free from debt, also thanking Mr. H. C. Winch and many Peterborough gentlemen.

—The congregional meeting of St. Andrew's church took place last night and was largely attended.

Carrier Boy Wanted

A reliable boy wanted to carry a route for The Times. Apply at Times Bookstore.

A Good Job

The new power house at Fenelon Falls has been completed, and is now in operation, supplying the village with light. The building is a good one, and reflects the greatest credit on the architect and engineer, Mr. J. E. Belcher, of this town. The plant is the best that money can buy. The surplus power, of which there is considerable, will be sold to manufacturers who locate in the village.

Burns' Anniversary

On Wednesday evening Burn's anniversary was celebrated at Fisher's boarding house, Townsend street. A special dinner was served, at which haggis was a prominent dish. The following were present;—Messrs. A. Slater, who efficently filled the position of chairman, J. Duncan, Frank Mosley, J. Dickson, Jack Wilson, A. Slater, H. Stevens, R. Evans, H. Fisher, T. Hawkins, W. B. Watt, A. Henderson, J. Lyons, and S. Smailes. A pleasent evening was spent in speeches and songs.

—Mr. George W. Taylor, of Bobcaygeon, has been appointed clerk of the Third Division Court of the County of Victoria, in place of Mr. W. C. Morris, who resigned.

LITTLE LOCAL LINES

Doings Here and There by Times Reporters on Their Round

—A blank at the police court yesterday.

—The Legal committee met last night.

—The Shovel Company's factory will be completed in April.

—Wedding invitations printed in latest style at reasonable prices. Times Job Rooms.

—A large number of the new games, "Pit" and "Flinch," now on sale at Times' Bookstore.

—Burns' souvenirs in booklet form handsomely illustrated. On sale today at Times' Bookstore.

—See the big doll the Times Bookstore is selling for 25 cents. Largest doll for the price ever offered.

—Mr. Wm. Anderson's majority in the last election in East Peterborough was 443, and Mr. J. R. Stratton's in West Peterborough 1194.

—Mr. J. E. Adams, and Mr. Walter B. Sparling, of the H. P. Eckardt wholesale grocery firm, Toronto, have decided to open up a wholesale grocery business in the former Blackwell packing house, Cambridge street, Lindsay.

—Lindsay Post; The work of rebuilding and enlarging the steamer Greyhound has been proceeded with steadily all winter by a force of four or five men under the superintendance of Capt. Elliott. The new boat will be ready for launching in the early spring.

C.P.R. TRAIN STALLED

Passengers Remained in Town Over Night the Guests of the Company

Lindsay Post:—The C.P.R. hands met with some difficulty on their new line on Tuesday. The track out of town has no fencing to keep the snow from drifting onto the track, and yesterday, although the regular train had gone through at noon, the C.P.R. train for Toronto, which drift of some four or five feet deep, leaves here at 4.15, got stuck in a located about two miles south of the town. The C.P.R. Company very thoughtfully hired a hotel bus to drive out for the passengers, who numbered some fifteen or sixteen, and had them accommodated at the several hotels in town, where they remained over night, the company paying all expenses. The passengers were taken on to Toronto this morning on the regular.

NEW ELECTION IN SMITH

Richard White, Young's Point, is Disqualified

Proceedings were taken through Donnastouu, Peck, Kerr and Stevenson, to unseat Mr. Richard White, of Young's Point, who was elected to the Smith Council at the recent election. The ground taken, and upon which the application is made, is that Mr. White on the 26th day of December, being the day of nomination, was a school trustee, therefore was disqualified under the recent amendment of the Municipal act, for holding the office of councillor. Mr. White at once resigned from the council.

It is understood that there have been four cases similar to the above in which proceedings were taken and the point involving disqualification was clearly established, resulting in the unseating of the representative in each case. A new election will be necessary in the township of Smith. The turn of affairs will be watched with a great deal of interest on account of the issue which was paramount in the last election.

CARD OF THANKS.

Mr. T. E. Bradburn to the Electors of West Peterborough

To the Electors of West Peterborough:

Gentlemen,—I desire to thank you for the handsome majority by which you have returned me as your representative in the Provincial House. Believe me, that as far as in my power lies, I will endeavor to serve faithfully and honestly your interests as well as the interests of the country.

To my Conservative supporters, who devoted both time and labor to insure my success I offer heartiest thanks. No candidate could have had assistance more freely offered and generously afforded. A new factor in the campaign was the valuable work done by the Young Conservative Club, and I recognise that I am largely indebted to its kind offices for my success.

I know that I received the votes of many Liberals, and that my majority was increased thereby. I appreciate this mark of confidence and offer most hearty thanks in return.

West Peterborough has joined with the Province in an expression of want of confidence in the late government and in an endorsation of the principles put forward by our leader, Mr. Whitney, and which policy as your representative, I shall support.

Again thanking you for favors received, I am,

Yours faithfully,
T. E. BRADBURN.

SOCIAL AND PERSONAL

—Mrs. W. H. Meldrum will receive this afternoon.

—Mrs. W. H. Robertson will receive this Friday, afternoon.

—Mrs. A. R. Lambe, of 400 Sherbrooke street, left yesterday afternoon to spend a couple of weeks in Omemee.

—Mr. C. Dickinson arrived in town from Winnipeg yesterday to commence his duties as accountant at the Bank of Commerce.

—Mr. J. E. Kavanagh, son-in-law of Mr. B. Shortly, Superintendent of Agents for the Metropolitan Life of New York, for the Dominion of Canada and New York State, was in town this week rearranging the Districts, making Peterborough the head centre for this District for this popular company.

—The Times issued 1,000 extra copies yesterday, which were all sold before 10 o'clock.

SECRET WORKER

The Plan Upon Which Coffee Operates

Coffee is such a secret worker that it is not suspected as the cause of sickness or disease, but there is a very sure way to find out the truth.

A lady in Memphis gives an interesting experience her husband had with coffee. It seems that he had been using it for some time and was an invalid.

The physician in charge shrewdley suspected that coffee was the "Worm at the root of the tree," and ordered it discontinued with instructions to use Postum Food Coffee regularly in its place.

The wife says: "We found that was the true remedy for his stomach and heart trouble and we would have gladly paid a hundred times the amount of the doctor's charge when we found how wise his judgment was.

"The use of Postum instead of coffee was begun about a year ago, and it has made my husband a strong, well man. He has gained thirty-five pounds in that time and his stomach and heart trouble have all disappeared.

"The first time I prepared it I did not boil it long enough and he said there was something wrong with it. Sure enough it did taste very flat, but the next morning I followed directions carefully, boiling it for fifteen minutes, and he remarked, 'this is better than any of the old coffee.'

"We use Postum regularly and never tire of telling our friends of the benefit we have received from leaving off the old fashioned coffee." Name given by Postum Co. Battle Creek, Mich.

Look for the little book, "The Road to Wellville," in each pkg.

Miles on Miles

Are walked by the billiard player, as he moves around the table. That is the only exercise many a city man gets. It is this lack of exercise in the strut-in-life of the city, combined with irregular eating and indigestible dishes which tend to make the city man the victim of "stomach trouble."

When there is undue fullness after eating, with belching, sour risings and other distressing symptoms, a prompt use of Dr. Pierce's Golden Medical Discovery will effect a speedy cure. In the most extreme cases of disease of the stomach and other organs of digestion and nutrition, the persistent use of the "Discovery" will result in a complete cure in ninety-eight cases out of every hundred.

"The praise I would like to give your 'Golden Medical Discovery' I cannot utter in words or describe with pen," writes James B. Ambrose, Esq., of 1205½ Mifflin Street, Huntingdon, Pa. "I was taken down with what our physicians said was indigestion. I doctored with the best around here and found no relief. I wrote to you and you sent me a question blank to fill out and I did so and you then advised me to use Dr. Pierce's Golden Medical Discovery. I took three bottles and I felt so good that I stopped—being, as I think, cured. I have no symptoms of gastric trouble or indigestion now."

Dr. Pierce's Common Sense Medical Adviser is sent *free* on receipt of stamps to pay expense of mailing *only*. Send 21 one-cent stamps for paper covered book, or 50 stamps for cloth-bound. Address Dr. R. V. Pierce, Buffalo, N. Y.

REMOVAL

C. Wilhelmy has removed his place of business to No. 453 George Street, next door to the Peterborough Light and Power Company.

Revolution Under Full Sway in Russia.

(Continued from page 1.)

St. Petersburg, Jan. 27.—The authorities, following up the proclamation of last night, are doing everything possible to quiet public alarm. They withdrew the troops from the streets during the night, and not a soldier was in evidence in the centre of the city this morning. In accordance with the promise to protect all workmen who would return to work, however, patrols still encircled the big industrial establishments. Moreover, in order to restore confidence in the situation by direction of the police, the owners of stores took down the boards which they had nailed over their windows and doors in anticipation of riotous attacks. Governor-General Trepoff guaranteeing them against pillage.

The full effect of the Trepoff-Kokosoff proclamation has not yet developed, although early reports indicate that some of the men returned to work this morning. Several of the smaller establishments are reported to have resumed business shorthanded. Knowledge of the existence of the proclamation, however, was not general among the workmen, until they read it on the bulletin boards, where many of them turned away angrily muttering refusals to listen to the Government's promises. Others appeared to hesitate regarding what course to pursue. The workmen appear to lack leadership. If, as the authorities believe, the majority of the workmen resume work, the strike movement will be broken, and then the only thing feared is a recrudescence of bomb throwing. The Government is also encouraged by the comparative quiet at Moscow yesterday, and they hope no serious trouble will occur there.

St. Petersburg, Jan. 27.—At most of the mills and factories where the men appeared for work, the employers decided not to resume till Monday. This is the case with the Russian Westinghouse Company.

ATHLETIC WORLD

BY OUR SPORTING EDITOR

The Belleville Juniors defeated the local Juniors by a score of 7 to 3, on local Juniors by a score of 7 to 3, on the Brock street rink last night.

• • • •

The local seniors will play the Lindsay septette to-night.

Russia on the Baltic Sea. It has a population of about 30,000 souls.

ELECTION AFTERMATH

—The old man Ontario made his mark yesterday.

• • • •

—An esteemed contemporary was unkind enough to remark that Whitney might now take a hot Scotch. This g.f.j. would suggest that Ross is probably more in need of a bracer than his opponent.

• • • •

—The Good Globe cannot be out in the cold as a result of this election campaign, if a number of nice, hot libel suits can keep it warm.

• • • •

—The Times would suggest that Mr. Bradburn, by reason of his having the largest majority of any Conservative candidate outside Toronto, should be honored with a Cabinet position. He would make an ideal Commissioner of Crown Lands, for instance.

• • • •

—And now the local government office holders are turning handsprings.

• • • •

—There will be four Prestons in the House. They sit for South Brant, East Durham, Port Arthur and Rainy River and North Lanark.

SITUATIONS WANTED

A FIRST CLASS experienced cook, having highest reference s, will receive applications for engagement. Address C M., in care of this office.

ADVERTISE IN THE TIMES.

MID-WINTER BARGAIN SALE
OF

Furs and Furnishings

WE are now as deep into the winter as we can hope, fear, or expect. January is the middle month. We have reached the middle of the winter—we have arrived at its deepest depth. Now, two things this store has to say to you in this connection.

VOL XXXIII NO 23 — PETERBOROUGH ONTARIO, SATURDAY JANUARY 28 1905 — PRICE TWO CENTS

JAPS ATTEMPT TO FORCE THE RUSSIANS' RIGHT WING

Fighting Resumed by the Armies in Manchuria After Three Months' Quiet---Russians Claim a Victory, but Reports are Conflicting---The Weather is Intensely Cold and Operations Must be Very Difficult.

Russian headquarters, Huan Mountain, Manchuria, Jan. 27.—Delayed in transmission.—After three months of quietude, the Japanese have resumed activity, attempting to force back the Russian right wing. A stubborn fight began on Wednesday, January 25th, and is continuing to-day, which may be a curtain raiser for the spring campaign.

According to reports the Japanese attack was repulsed and a Russian counter-attack was so energetically pressed that a village within the lower Japanese lines, of strategical importance, was taken. It is rumored that several Japanese guns were taken.

There was no fighting at the centre or on the flanks.

The Japanese advance is believed to have been prompted by the news of the Russian internal troubles, intelligence of which reached the Russian army at dawn.

Following a sudden return of winter weather, cannon began booming far westward, and through the morning fog and mist the Japanese unexpectedly advanced. The riflemen on the Russian right flank were so busily employed on the fighting line that by evening they repulsed the Japanese attack by a brilliant counter-attack. The Japanese at once began to retire, abandoning and setting fire to a village.

Throughout the night and all to-day firing was heard along the line toward the Hun River in the vicinity of the villages of Heksutail and Liudiutun in the centre, the Japanese firing occasional shots to get the range of Russian positions.

The troops all along the line were under arms the night of Wednesday. The skies were lit up by the glare of a conflagration evidently caused by the burning of the village beyond the Shake River south of Lone Tree Hill.

A bitterly cold wind is blowing, snow is falling, and heavy frosts prevail.

General Kuroki's headquarters, Jan. 28.—A heavy and continuous artillery roar has been heard to the westward all day. Apparently the largest engagement since October is being fought. Reports received here are to the effect that the Russian force has crossed the Hun River on the Japanese left wing. A Japanese force advanced against the Russians making an attack.

The fighting must be attended with great suffering from the cold. A snow storm began on Monday, following a long period of remarkable mildness. The temperature is below zero, and the plains are covered with several inches of snow. The ground is too hard for rapid trenching. To-day's move by the Russians is the first important one since General Miatchenko's recent raid.

London, Jan. 28.—The Daily Telegraph's St. Petersburg correspondent asserts that General Kouropatkin has telegraphed to the Emperor that his offensive power is seriously hampered by the obstinate reluctance of his troops from the European Provinces to advance against the enemy. Whilst the Cossacks and Siberians are full of dash, the Europeans argue that now that Port Arthur has surrendered there is no object in continuing the war.

MOSCOW CITIZENS FEAR BLOODSHED

Have Appealed to Czar to Proclaim State of Siege

PROTEST BY BRITISH CONSUL

False Despath Tending to Inflame Feeling Against England Was Posted by Police

Moscow, Jan. 28.—There is complete tranquility within the boundaries of this city, but the people are keeping indoors, owing to the official warning. The strike is spreading gradually, but thus far is confined to the smaller mills. The larger industrial concerns are being guarded in order to prevent the men employed there from being intimidated; but it is the belief that the strike will become general.

A squadron of Cossacks this evening dispersed about 2,000 workmen, who were growing obstreperous, across the Moskva. No fatalities are reported.

The merchants have sent an appeal to the Emperor to avoid bloodshed.

The citizens are alarmed at the prospect of an eruption of hundreds of thousands of workmen, and demand the proclamation of a state of siege. The Moscow garrison numbers about 20,000, but the authorities consider that this is sufficient for present needs, and evidently are determined to avoid bloodshed if possible. They declare they have the situation well in hand.

Capt. Grove, the British Consul, has called upon M. Roudneff, the assistant police master, who is acting in the absence of Chief Volkoff, and requested an explanation of the posted telegram from London alleging that the disturbances at the Russian dockyards and arsenals were due to Anglo-Japanese instigation, that both Great Britain and Japan are spending vast sums of money to prevent the Russian second Pacific squadron from reaching the far east, and adding that "all Russians who strike are therefore in connivance with the enemy."

M. Roudneff produced the original telegram in evidence of good faith. Capt. Grove stated that he would report the matter to the Embassy at St. Petersburg, as he considered that the posting of the alleged telegram imperiled the lives of subjects of Great Britain who are employed in factories here. M. Roudneff assurred him that there was absolutely no cause for apprehension, but assumed the responsibility for the publication, and offered Capt. Grove satisfaction in a duel.

Gen. Trepoff's appointment to the Governor-Generalship of St. Petersburg was a complete surprise here. It is rumored here that Minister of the Interior Sviatopolk-Mirsky may be appointed Governor-General of Moscow.

The proclamation, which, it is announced, was issued by the Emperor's order in its preamble recounts the origin of the recent events, and declares that evil-disposed persons used the workmen as their tools, leading them astray by false and impossible promises. It says:—

"The result of this criminal agitation has been breaches of the peace, involving the inevitable intervention of armed forces. These evil wishers have not been restrained even by the difficulties in which the Fatherland is involved. In a time of trying war, while the workmen, their blind tools, have disregarded the fact that demands are being made in their name which had nothing in common with their needs, besides forgetting that the Government always has shown and ever shows, itself considerate of their needs, and is now ready to listen attentively to their just desire and satisfy them wherever possible.

"To this end the Government requires, above all, the restoration of order and the return of workmen to work, because in times of disturbance the Government's well-intentioned efforts for satisfaction of the workmen's demands, however just, is out of the question."

MOSCOW IN A FOG.

Moscow, Jan. 27.—A curtain of fog hangs over the city this morning and the countless domes and minarets of Moscow are dulled by hoar frost and hardly distinguishable in the gloom. The enormous pile of the Kremlin is dimly silhouetted against the sun's dull red orb. The streets are again almost deserted. All those who enter the Kremlin are subjected to scrutiny by a host of police, but there are not many troops inside the walls, the natural strength of which are sufficient to insure the safety of the sacred treasures within, valued at countless millions. Grand Duke Sergius, the former Governor-General of Moscow, and his family, are occupying the little Nicholas palace.

The garrison remains on the outskirts of the city.

There has been no trouble up to this hour.

The strike has embraced a majority of the printing establishments.

A proclamation of the prefect of Moscow has been posted at the street corners, as follows;

"Under the influence of the threats of evil disposed persons a strike has broken out. I therefore deem it my duty to notify the working population that energetic measures have been taken for their protection agitators. Workmen wishing to resume their occupations can do so without danger."

Work has been suspended at several of the small railroad shops. The waterworks, electric light works, and gas works are guarded by troops and police. An attempt of a large body of strikers to interfere with the employes of the gas works was frustrated.

The Surest Remedy is

Allen's Lung Balsam

It never fails to cure a SIMPLE COLD, HEAVY COLD, and all BRONCHIAL TROUBLES.

Large Bottles $1.00. Medium Size 50c. Small or Trial Size 25c.

Manufactured by all who have tested it.

POLICE COURT

A Couple of Vags Heavily Sentenced Yesterday Morning

Yesterday morning, Frank Meehan again appeared before the Magistrate, charged with vagrancy. He was sent to Central Prison for six months.

Henry Nolan was convicted of a charge of stealing a jack knife and of being a vagrant. He got six months in Central Prison on both charges, to run concurrently.

John Gilligan was charged with vagrancy. He got out of jail on election day. He was ordered to leave town.

FEWER EXHIBITIONS DESIRED

New Method Suggested for Appointing Government Grant

The leading Agricultural Societies of the Province are evincing considerable interest in the suggestions that have been made by Mr. H. B. Cowan, Provincial Superintendent of Agricultural societies, that the number of exhibitions held annually in Ontario should be materially reduced and that Agricultural Societies should receive their grants in proportion to the amounts they expend for agricultural purposes. Such a change would do away with all distinction between the townships and district societies.

The Ontario Fruit Growers' Association has passed a resolution approving of these suggestions and expressing the belief that such a change would result in large sums of money being expended for agricultural purposes. The Executive of the Dominion Shorthorn Breeders' Association, at its annual meeting in Toronto, on January 18th, also passed a resolution approving of these suggestions and stating its opinion that fewer exhibitions would result in larger attendances, as well as a reduction in the undesirable features now so prevalent at many exhibitions.

THERE IS NO SUCH THING as a harmless cough. The trouble goes from bad to worse unless checked. Allen's Lung Balsam cures the worst of colds. It allays inflammation and clears the air passages.

THE NORTH SEA INQUIRY AT PARIS

The Evidence So Far Not Favourable to the Russians

NO JAPS IN THE VICINITY

Vice-Admiral of the Trawling Fleet Gave Same Evidence in Hull

Paris, January 28.—At the session of the International Commission to enquire into the North Sea incident, yesterday Capt. Wood, of the steamer Zero, plying between Hull and Copenhagen, said that previous to the occurrence of Oct. 2 he saw a strange steamer during the afternoon. She appeared to belong to a trans-Atlantic line, and had two masts and one funnel. It was a type of ship not frequently seen in those waters.

Rear-Admiral Beaumont, Great Britain, appeared to be specially interested in this statement, requiring the witness to repeat it.

Geo. Beeching, manager of the trawlers company, presented a miniature model of a trawler. The court examined it minutely and also the signal lamps and flags used by trawlers.

Mr. Beeching lengthily explained the fishing process Admiral Fournier France, mildly remonstrating against extraneous evidence.

Counsel for Great Britain asked;

"On the night in question had any of your boats embarked torpedoes or other engines of warfare?"

Answer—"Not at all."

Question—"Were any Japanese on board?"

Answer—"I never heard them spoken of and never heard a reference to any Japanese warships being in the neighborhood."

Counsel for Russia cross-examined the witness for the purpose of bringing out, if possible, the resemblance of a trawler to a torpedo boat.

Question—"Is it possible to confound a torpedo boat with a trawler without sails?"

Answer—"No, that is impossible."

The witness added that the company at Hull received constant reports from the fleet. No report showed that any strange boat had joined the trawlers.

Wm. Shears, steward, and Thomas Carr, vice-admiral of the trawling fleet, gave testimony practically the same as that given before the Board of Trade investigation. The Russian counsel sought to show that there were discrepancies between their present and former evidence. Shears was positive that there were no Japanese aboard any of the trawlers, and Carr gave a vivid description of the approach of the Russian warships, the play of their search-lights and the cannonading which lasted 25 minutes. When he closed Admiral Fournier, French, complimented him on wearing a medal in recognition of his services in saving lives.

MR. ANDERSON'S MAJORITY

Member For East Peterborough will Have About 100 Majority

The returns from East Peterborough are not yet all in. Up to last night Mr. Anderson had 116 to the good. Two divisions from Chandos have not yet reported, which may reduce it a little.

THE ANNUAL MEETING

Shareholders of the Toronto Savings and Loan Company Meet

The annual meeting of the shareholders of the Toronto Savings and Loan Company, took place yesterday at the head office of the company, Peterborough. Hon. Geo. A. Cox, president, occupied the chair.

The annual report was read by Mr. W. G. Morrow, the Manager, shewing that the affairs of the Company were in a highly satisfactory shape. Want of space prevents us publishing the report to-day. It will appear, however, on Monday.

THE LATE EDWARD COONEY

An old Resident of Peterborough Passes Away

We regret to record the death of Mr. Edward Cooney, which occurred at his residence, Sherbrooke street, yesterday morning at the age of 76 years. Deceased gentleman had been ailing for some time, and death was caused by a general breaking up of the system. He came to Peterborough in 1837 and except for a few years, which were spent by him in Brock, he has lived here ever since. He is survived by his wife and one brother, Mr. Benjamin Cooney.

The funeral will take place on Monday at 2.30 to the Little Lake cemetery.

IMPROVEMENTS IN THE TURNBULL CO'YS

Carpet and Housefurnishing Store—New Windows, New Lighting and New Foyer

This enterprising firm is always making improvements. This season it is the carpet and house-furnishing department, which is to be thoroughly remodelled, with new windows, new lighting, and new fittings. They have also secured the services of Mr. E. White, one of the best house-furnishing men in Ontario. This department, with the new facilities, and under Mr. White's management, will have a more complete range, more up-to-date styles and better service than heretofore.

NOTED VOCALIST COMING

Herr Wilhelmj, a Teacher in Peterborough Conservatory of Music

Regarding a renowned vocal teacher who has been engaged as instructor at the Peterborough Conservatory of Music, and who will also sing at an opening recital to be held early in February, the Globe of Saturday said;—

"Herr Wilhelmj, from the Royal Opera of Schwerin, was the principal artist of last night's "Gesangsverein" concert, and through his magnificent rendering of his selection of songs took the audience by storm. His intonation is perfect and he possesses a voice of rare beauty. In performing some specially difficult variations by Hummel he scored a success rarely achieved by an artist, and such was the impression that the name Wilhelmj will long be in the memory of his appreciative audience.

—Lakefield News. On Monday evening last a bus load of young people from Peterborough drove up to the village and were entertained by Miss Florence Madill, at the residence of her parents, Mr. and Mrs. J. W. Madill.

MIGHT HAVE SAVED IT

A Lot of Trouble From Too Much Starchy Food

A liottle boy of eight years whose parents did not feed him on the right kind of food, was always nervous and suffered from a weak condition of the stomach and bowels. Finally he was taken down with appendicitis and after the operation the doctor knowing that his intestinal digestion was very weak, put him on Grape-Nuts, twice a day.

He rapidly recovered and about two months thereafter, his Father states, "He has grown to be strong, muscular, and sleeps soundly, weighs 62 pounds, and his whole system is in a fine condition of health." Name given by Postum Co., Battle Creek, Mich.

It is plain that if he had been put on Grape-Nuts at an earlier period in his life, and kept from the use of foods that he could not digest, he never would have had appendicitis. That disease is caused by undigested food decaying in the stomach and bowels, causing irritation and making for the growth of all kinds of microbes, setting up a diseased condition, which is the active cause of appendicitis, and this is more marked with people who do not properly digest white bread.

Grape-Nuts is made of the selected parts of wheat and barley and by the peculiar processes of this cooking at the factory, all of the starch is turned into sugar ready for immediate digestion and the more perfect nourishment of all parts of the body, particularly the brain and nerve centres.

Look for the little book, "The Road to Wellville," in each pkg.

A SUCCESSFUL CONCERT

Held in St. Andrew's Lecture Hall Last Evening

The Burns anniversary concert held last evening in St. Andrew's lecture hall, was in every respect successful. The Scottish reader, Miss Elspeth Macdonald, delighted the audience in all her selections and especially in her rendition of "Them Oxen." She received well merited applause, and it is hoped that this is not the last time she will appear before a Peterborough audience.

The chorus work of the choir was well received, and the solos by Misses Bryce and Dawson added much to the pleasure of the evening's entertainment.

Mr. Gilbert Scott also gave a Scotch selection, which was much enjoyed.

ST. ANDREW'S CHURCH

Annual Meeting Showed Prosperity in Church Work

At the annual meeting of St. Andrew's church, which took place on Thursday evening, reports from various church organizations shewed everything to be in a flourishing condition. There is a balance of $370 of receipts over expenditures.

The Session report said that the church life and work had given good cause for encouragement. A survey of the various departments of congregational activity showed there was a strong note of advance and a deepening of the spiritual life. While the work of the Managing Board and the Ladies' Aid Society needed no comment from the Session, the members were of the opinion that the whole congregation recognized that the ever developing work of the young people of St. Andrew's to be its great inspiration and hope.

The Ladies Aid have a membership of 52, being an increase of 30 members.

The W.F.M.S. in their report stated that $166.50, had been raised for mission work during the year.

The Mission Band, the Sunday School, Christain Endeavor, Young Men's Guild, St. Andrew's Guild, Daughters of Erin, and Managers' reports were all read and accepted.

A SPLENDID REPORT

Annual Meeting of the Shareholders of the Dominion Bank

We heartily congratulate the officers and shareholders of the Dominion Bank on the splendid report presented at the thirty-fourth annual general meeting, of the shareholders, which was held at the head office of that institution on Wednesday last. The report is printed in this issue, and no doubt will be carefully perused by the public, many of whom are interested in this progressive bank.

The report shows that the total profits, after making full provision for bad and doubtful debts, amounts to $459,670.01. Adding to this the balance of Profit and Loss Account of the previous year, $474,902.63, there is a total of $934,572 64. From this four quarterly dividends of 2 1-2 per cent. each on the paid-up capital stock were paid, amounting to $300,000, and the sum of $500,000 transferred to Reserve Fund, leaving a balance to be carried forward of $134,572.64. The Reserve Fund now stands at $3,500,000.

The past year evidently has been one of the most prosperous periods in the history of this well-managed institution.

DEAFNESS CANNOT BE CURED by local applications, as they cannot reach to seat of disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials, free.

I. O. F. PRESENTATION

Recording Secretary, Bro. J. W. Buyers Honored by His Brethren on Thursday Night

Thursday night's meeting of Court Chemong 530, I.O.F., was one of exceptional interest. Bro. G. N. Brown, D.H.C.R., by request, was present, and initiated quite a number of new members. The business of the evening being concluded a very pleasant event then took place, when Bro. J. W. Buyers, who has been Recording and Corresponding Secretary of the Court for nine years was presented with a valuable gold mounted fountain pen by his brother officers as a mark of their esteem and respect for himself and his faithful and painstaking efforts in connection with the office he occupied.

Bro. G. N. Brown on behalf of the officers and brethren present, requested Bro. Buyers to come forward. He then made the presentation to Bro. Buyers, remarking at the same time that he trusted that the recipient might live long to use the pen in the interests of his Court. After applause, and the singing of "For he's a jolly good fellow," Bro. Buyers although quite taken by surprise, suitably thanked Bro. Brown and officers and brethern, for their great kindness in presenting him with such a beautiful pen as a mark of their esteem and trusted he would be enabled to use it to good advantage in the interests of the Order. Several of the officers and members made brief addresses and refered in feeling terms to Bro. Buyers long and faithful services.

FREE DUTCH COCOA

A demonstration of Bensdorp's Royal Dutch Cocoa at E. F. MASON & Co.'s north store 419 George-st, on Friday and Saturday this week. Everybody welcome.

Backbone of Strike Broken Strikers Return to Work

Cossaks Charge and Kill and Wound Thirty People ---Father Gopon Said to be Captured.

London, Jan. 28.—A despatch to a news agency from Riga, Russia, filed at 5.30 p.m., says the strikers in the suburban factories there to-day attempted to enter the town, but were opposed by troops, who fired, killing or wounding many persons. The strikers were dispersed.

The encounter occurred near the Tukkum Railroad station. The strikers attacked the troops and attempted to disarm them when the order was given to fire. All the workshops and factories are closed. The strikers are parading the streets and forcing all workmen to join in the procession.

Riga is a seaport town of Russia situated on the Gulf of Riga, 360 miles southwest of St. Petersburg. In population it is the fifth city of the empire, having about 200,000 inhabitants. One half the population is German, the remainder being Russians and Letts in equal parts, with nearly 5,000 foreigners and 2,000 Esthonians. Riga is a great market for the export of timber and flax, as well as for all sorts of cereals, especially oats and is the capital of the Government of Livonia, and the seat of a Governor-General.

THIRTY KILLED OR WOUNDED.

London, Jan. 28.—A despatch to Reuter's Telegram Company from Riga confirms the previous announcement of a collision there between strikers and troops. Thirty workmen were killed or wounded and a subchief of police and two soldiers were mortally wounded.

PAVING STONES THROWN.

Brest, France, Jan. 28. — In the course of a strike manifestation here to-day on the part of dock laborers, paving stones were thrown at the Russian Vice-Consulate, causing some damage.

CONFLAGRATION IN ST. PETERSBURG.

London, Jan. 28.—A despatch from St. Peterburg, timed 9.26 p.m., to a news agency, reports that Pahl's factory and a large cotton mill have been set on fire and are burning fiercely.

A TONE OF PESSIMISM.

London, Jan. 28.—The Paris correspondent at St. Petersburg agrees that things are now comparatively quiet, but note speak in confidence of the future. A tone of pessimism grevails in the telegrams, and most of them are conspicuous by an absence of any attempt to whitewash the authorities. The correspondent of the Journal, who seems to have taken the trouble to investigate matters, is of the opinion that the masters and men would soon come to terms, but the origin of the trouble, he is confident, is elsewhere. He declares it to be purely political, and that is the reason why the present agitation will only come to an end when it is provided that at least partial satisfaction shall be given to the political demands.

WAR IS HAMPERING BUSINESS.

Disgust with the Administration and hatred of everything touching bureaucracy are the motives at the bottom of the dispute. It is useless to seek them anywhere else. He adds that the situation is grave. Already the war is hampering business, and all commerce is suffering.

MEANS DEATH TO FATHER GOPON

The Berlin correspondent of The Times wires;—A statement comes from St. Petersburg that Father Gopon is lying severely wounded in the Alafuseff Hospital. It appears to be believed that upon his recovery he will be tried and under the circumstances sentenced to death for inciting to insurrection.

COWED INTO SUBMISSION.

London, Jan. 28.—Despatches received here this evening indicate that St. Petersburg has been cowed into submission by the despotic policy of the Grand Duke, and that order once more prevails there, the agitation for reform having failed for the present.

THE CANADIAN WINTER GAME.

Peterborough 11, Lindsay Nil.

For the third time this season the local seniors have defeated the Kawartha town septette, and each time the victory was a decisive one, and once at the opening of the hockey season, the Lindsayites scored a victory over the Peterborough seven, but at no game since did the visitors have a look in.

Last night the locals practically had the game cinched from the start, and it was almost impossible for the forward line of the visiting team to get the rubber past the strong defence of their opponents, except when a lift would carry the puck in mid air, down to the Peterborough nets. Wasson certainly had his eagle eye with him, and took care of every thing that came in the vicinity of the nets.

The Lindsay Post can have no hard luck story as the visitors were outplayed at every point.

The ice was in perfect condition, and Referee W. W. Muir of Toronto had the players well in hand from the start, and as a consequence the game was free from roughness. Although a number decorated the fence for minor offences.

• • • •

Peterborough has now practically won their district, and will be in the semi-finals for the intermediate championship.

• • • •

The game commenced sharp on time and the players started in at a fast pace, and some good hockey was exhibited.

For the first quarter of the first half it appeared as if the visitors were going to chase the locals pretty hard, but the boys got going and Morgan shot the rubber in the nets on a pass from Parnell, but it went in from an off-side; however, Cavanah put the lucky one in, and this started the scoring. Morgan followed with another in four minutes, and then came three in succession, as the result of hot shots of Cavanah's. The locals were working in some pretty combinations, attacking the visitors' goal frequently, but a number of shots went wide. Morgan scored as the result of neat combination in which Cavanah and Graham figured, followed by another, Morgan again finding the nets on a pass from Graham. This ended the scoring in the first half, Peterborough 7, Lindsay 0.

SECOND GAME.

When play was resumed in the second half, the rubber immediately travelled into the vicinity of the Lindsay nets, and during the remainder of the game the puck was almost continuously in the visitors' territory, although a few desperate attempts were made to attack the locals' nets, but were frustrated by Crowley or Glover, while Wasson stopped a couple of lifts. In this half the locals scored four, the boys in red, failing to make an impression. The game ended 11 to 0, in favor of Peterborough.

WHY LINDSAY LOST.

Contrary to the pipe dream of the Post man, the Scugog boys did not reverse the score of Monday night, but were handed out a large dose, not even getting a score. Dame again Post.

The visitors lost because they were outclassed in every particular.

• • • •

The Post had the game won. Easy to win on paper.

• • • •

The locals played a better combine than the visitors, especially in the first half, were speedier skaters and better stick handlers.

• • • •

Chris Graham worked like a hero from start to finish. He checked back hard, and always had a big piece of the game, he kept the centre men fed well as the score indicates.

• • • •

Parnell played his position at left wing well, and was always in the game.

Cavanah was at it with his brilliant rushes, and McGuire, in the nets for the visitors, wore that worried look when Bill was in the act of shooting.

• • • •

Morgan played a very effective game, and made good every opportunity. He had his man "all in."

• • • •

Wasson, Glover and Crowley reigned supreme, and intercepted the attacks made by the visitors. Now and again Crowley and Glover allowed Wasson a few hots ones to keep warm.

• • • •

For the visitors Callahan and Coil were the most conspicuous on the forward line, while Irving at point put up a fair game.

• • • •

Following is the line-up;—

LINDSAY.		PETERBOROUGH
	Goal.	
McGuire		Wasson
	Point.	
Reilly		Glover
	Cover-point.	
Irving		Crowley
	Rover.	
Callahan		Cavanah
	Centre.	
Parkins		Morgan
	Right Wing.	
Taylor		Graham
	Left Wing.	
Coil		Parnell

Referee—W. W. Muir Toronto.
Goal Umpires—Peterborough, Jean Hurtubuise; Lindsay, McKee.

• • • •

After the game the Lindsay team were banquetted at McCallum's by the locals.

• • • •

Between 1500 and 2000 people witnessed the game.

LOTS OF VIGOR, NERVE, VITALITY

To Get Bracing Health—Feel Good—Sleep Well—Enjoy Life, Use

FERROZONE

A TRUE NERVE TONIC

When you read the following experience of Mrs. N. E. Peabody, of Trenton, you will realize what enormous benefit sick people get from Ferrozone.

Every woman will recognize in Mrs. Peabody's case symptoms from which she has suffered herself.

AMONG HER TROUBLES WERE

Headaches,	Weariness,
Nervousness,	Weakness,
Palpitation	Loss of Flesh,
Dizzy Spells;	Poor Appetite.

HER STATEMENT.

"I was stricken with nervous disease of the heart and stomach. Violent headaches made life a torture. I was so nervous and weak I could scarcely walk. Work was impossible. I couldn't eat or digest anything. When completely wrecked, Ferrozone restored me. To-day I am vigorous and strong and well."

Thousands of men and women are unable to do work requiring power of body and mind. Let them take Ferrozone. It restores the energy of youth, gives back vital stamina, creates reserve force. No medicine on earth contains such concentrated nourishment. Price 50c. per box, or six boxes for $2.50, at all dealers in medicine, or Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

PETERBOROUGH, JANUARY 28 1905

CLEAN GOVERNMENT

No man ever had a better chance than Mr. Whitney has to give the people the clean government he has promised. His big majority of good men gives him plenty of choice in picking out his advisers, the cabinet ministers. There is plenty of material for the formation of a government of the first class.

In making his choice of ministers Mr. Whitney's hand should be free. Give Mr. Whitney the freest hand. The party has the utmost faith in him, and firmly believes that he will do the right thing. Beside having good cabinet timber he is free from any previous tangling alliance; he has nothing to placate, is responsible for nothing except that which he now takes upon himself; and is absolutely free to work his will.

That Mr. Whitney will take advantage of his excellent position and proceed to observe his promise of clean government to the letter, goes without saying. It is also safe to say that Mr. Whitney will insist upon clean work in all government offices, from the highest to the lowest; that he will not tolerate grafting, dishonesty, or corruption of any sort by any employe of the government, big or little; that he will promptly and severely punish all who attempt to be dishonest in the slightest degree.

The country made a clean sweep of the Ross government, because of its dishonesty and corruption. Mr. Whitney will make a clean sweep of everything in the shape of corruption that Ross leaves behind him.

THE BLOODSHED AT ST. PETERSBURG AND AFTER

All over the civilized world the reports of the Sunday scenes in the streets of the Russian capital will have been read with horror and extreme sadness. It is impossible to resist the feeling that bloodshed might have been avoided, even in the absence of the Czar to receive the petition of his priest-led subjects. The strikers were unarmed, and their wives and children accompanied them to the square of the Winter Palace. And while some of the phrases of the petition were peremptory and, for Russian autocracy, distinctly revolutionary, there was little in the general plans of the leaders of the demonstration to warrant serious fear of violence.

Granting that the Czar could not be expected to welcome a petition inviting him to surrender his absolutism and call into existence a parliamentary government, a more conciliatory and tactful spirit on the part of the authorities would doubtless have induced the strikers to disperse after a vain attempt to carry out their specific purpose without dangerous disturbances of the peace and safety of the city.

But fear and official stupidity, not to say consciousness of guilt, governed the conduct of the authorities, and we know the awful results. The answer to the appeal was butchery of humble and innocent workmen. What effect will the government's action in an emergency to which it was not equal have on the masses of the Russian people, on the peasants who have for ages looked upon the Czar as their "little father," as the one mighty ruler who would do justice to all did he but know their grievances and wrongs, on the working population of the cities, among which, as we know from recent occurrences, the revolutionary propaganda has made considerable headway, on the intelligent and educated elements represented by the zemstvoists and the avowed liberals whom the Czar's manifesto so keenly disappointed?

The bold expressions of Gorky and other intellectual spokesmen of Russia, the protest of the editors against the application of the censorship to the day's events, and the message of Father Gapon himself, the strange of the strikers, would seem to point to defiant resistance rather than submission. A few weeks ago Prince Troubetzkoy, the president of the Moscow zemstvo, frankly told the Czar that what was occurring was not a mere disturbance but a revolution. Were those words prophetic? Are we witnessing the beginning of the end of Russia autocracy, or will the ruthless use of force once more suppress the manifestations of disaffection, initiate another period of reaction and postpone the day of reform and deliverance? No one can answer the question. The world must await the course of events.

THE WAR SITUATION

In spite of censorship and military governors of Cossacks swords and Cossack measures, the politico-industrial revolt has spread in five days from St. Petersburg to the rich manufacturing centres in the south, to Odessa and its suburbs, and its flames are now kindling along the Baltic coast. Five days too late, there is talk of a belated proclamation in which the Czar will chide his rebellious children for the method they chose to make their grievances known and promise that their contentions shall be listened to and their wrongs righted. If the manufacturing interests yield, under imperial pressure, and reduce the hours of labor from eleven to nine, as seems to be outlined in today's despatches, it is too late for the Czar to be given the credit for it. Again, his great opportunity has found him vacillating, temporising, and gone its way.

Petroff, son and nephew of the Petroffs, whose names are still cursed by many Russians, has signalized his entry into power in St. Petersburg by enforcing to its letter the strict censorship regulations which have been abrogated the past year. Consequently no news from St. Petersburg is to be the order of the next few weeks. We know that there have been riots at Reval and Libau, that the admiralty works have been attacked, if not seriously damaged, and we know that the third division for which Rojestvensky is waiting off Madagascar will not sail on January 30th—though we knew that long ago. All the rest has been eliminated at St. Petersburg.

EDITORIAL COMMENT.

Will the Old War Horse of Ontario now be stabled in the Senate?

• • • •

This is where Ontario takes a well-earned rest from politics.

• • • •

In politics tidal waves are very bad for "barnacles."

• • • •

In spite of himself, Whitney is at the head of a coalition—of the voters.

• • • •

Although the Baltic fleet may be in hot water, it may perhaps be thankful that it is not any nearer to St. Petersburg.

• • • •

If Japan cannot lick Russia alone the appearances are that Russia will take heed and help.

A WOODLAND GRAVE

Trapper Finds His Wife Dead in Rockwood, Shanty

Sault, Ste. Marie, Ont., Jan. 26.—While her husband was away hunting Mrs. John Johnson was taken suddenly ill, and died in their hut in the woods a few miles beyond the end of the Algoma Central Railroad. No doctor was within a hundred miles. The husband found her dead with the children grouped around her. He brought the children here yesterday, and placed them in the Shingwauk Home. He started back at once alone, and will bury his wife in a woodland grave by the side of the hut in which they lived. There will be no services. He alone will be present at the burial.

THE WEAK AND DELICATE PEOPLE envy the strong and robust. We are told that "The D-a L" Emulsion builds up solid flesh and that it does not disturb the digestion. Why not ask your druggist about it?

ADVERTISE IN THE TIMES

300 LADRONES LOOT TOWN

Led by 2 Famous Outlaws—Four Hours of Fierce Fighting Against the Bankers Near Manila

Manila, Jan. 29.—Additional details regarding the attack of ladrones on the Town of San Francisco De Malabon last night, in which contract Surgeon J. A. O'Neill was killed, show that the ladrones numbered 300.

They were led by the famous outlaws Montalon and Felizardo, who were aided by two American negroes. The ladrones were armed with 130 rifles. Besides Surgeon O'Neill, one private of the constabulary was killed and three were seriously wounded. The home of former Governor Trias was attacked and his wife and two children abducted.

The municipal treasury was looted of $2,000 and 25 Remington rifles taken by the ladrones. The rebels were dressed in constabulary uniforms, and this fact created considerable confusion.

The scouts and the now have the band surrounded at the Pueblo of Pere Damarinas.

There was four hours of fierce fighting, the complete results of which have not yet been reported.

There is a reason, and the best kind of a reason, why Ayer's Hair Vigor makes the hair grow long and heavy.

It is a hair-food. It feeds the hair and makes it healthy and strong.

Healthy hair grows, keeps soft and smooth, does not split at the ends, and never falls out.

Give Ayer's Hair Vigor to your gray hair and restore to it all the deep, rich color of early life.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

2) If the father (or mother, if the father is deceased), or any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

3) If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same town, township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses [2] [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 3rd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Land Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

INCORPORATED

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and, we believe, exceedingly profitable investment. Every dollar of stock is guaranteed by twenty year, full paid, gold bond, delivered to purchaser of stock, from an investment Company that has no interest whatever in the company, but who are disposing of the debentured bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the State Treasurer under which they received their charter, there by doubly securing the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvellously rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Simmer and Jack Mining Co., Limited, Elandsfountain, South Africa:—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world.

"With the present development of the Monument Mine, I estimate that 100 tons per day can be extracted, which will mill from $18.00 to $20.00 per ton. The total cost of mining the ore, delivering and milling, I place at about $4.00 per ton. With increased milling capacity, it is safe to say that the mines can furnish 100 tons or $15.00 ore, which would yield a clear profit of $11.00 per ton, or $1,100.00 per day (equal to $400,000.00 per annum). Estimated total value of ore in sight, $2,500,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Dr. Brown writes as follows:—

"In regards to the amount of ore available at the mines at Sinclair, I saw on the dumps several thousand tons, probably 5000 tons would be an under-estimate.

"As to the size of the ore body itself; from what I saw of the geological structure, I think that there is every indication that it will tend to extend underground as far as the out-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish full information to investors.

ADVERTISE IN THE TIMES

Stocks—The MARKETS OF THE WORLD—Grains

A SPLENDID PROPOSITION

The Salido Gold and Copper Company

Incorporated under the laws of Arizona, with a capital of $3,oc ooo forever on-assessable divided into shares of $1 each, par value. All investments insured Granite Securities Company.

The "SALIDO GOLD COPPER COMPANY" enterprise offers attractions to the investors of the country, that without thorough investigation, would scarcely seem probable. If only a fraction is realized of what any prudent business man in his own affairs would regard as absolutely certain, the enterprise must prove abundantly successful and exceedingly profitable.

SALE OF STOCK

The company will prosecute the work of development with all the diligence that be cash in the treasury will permit and circumstances warrant, and to this end a small amount of the treasury stock is now placed upon the market, in blocks of not less than One Hundred Shares. The par value of the stock is One Dollar per share, fully paid and forever non-assessable.

The company reserves the right to advance the price of stock without notice.

REMEMBER

First—That all payments for treasury stock go into the treasury for development work and not into the pockets of the promoters.

Second—There are no salaried officers.

Third—The incorporators have put their own good money into this enterprise and being business men, intend to do business along business lines.

Fourth—That this company is honest.

Fifth—If you are thinking of investing in mining stocks this is worthy of your careful investigation.

OTHER PROPERTIES

This Company owns four other Gold and Copper Mines, which title is now in process in the laws of Mexico. As soon as title is perfected, we shall commence to develop them as we certainly expect something very great from these properties. Our assays taken have been of the very best, showing gold and copper from $6.00 to $122. 30 per ton.

I have secured a small block of this stock, which I offer at the following prices: Unguaranteed 40 cents per share, guaranteed 80 cents per share. These prices will only prevail for a short time, as the number of shares for sale at this price is limited. The Shares will then be advanced to 40 cents for the unguaranteed and 80 cents for the guaranteed. I can unhesitatingly recommend this investment to the Canadian public.

W. K. HALL,

FISCAL AGENT, ... PETERBOROUGH

Agents wanted in outlying districts, including Toronto.

The California Buckeye Mine

This mine consists of 15 acres of good zinc land, well prospected by drill holes showing forty feet of good pay dirt at a depth of 154 feet.

On the property are hoisting engine, shaft house, ore buckets, Worthington steam pump, air drill, cars and pipes. Over $15,000 have been expended to date, and the proposition itself is a good one so much so that we can personally guarantee an immediate dividend of 8 per cent. this year and 12 per cent. after 1905, with an additional quarterly dividend.

Capital Stock $250,000

Shares, par value $1.00 each Fully paid up and non-assessable. No Preferred Stock. No bonded indebtedness

The shares are selling at 20 cents each, with a prospect of the price being raised.

The Joplin Daily Globe says that over $10,000,000 worth of zinc and lead were mined in 1904, up to 1st Dec., in the Joplin District. In the California Buckeye Zinc Mine, located in the centre of the Joplin District, it has been demonstrated that the ore body has an average thickness of 42 feet and the runs are 50 feet wide, about 120 feet from the surface.

The rough dirt for the first three months of operation produced zinc ore to the amount of $12 95 per cent., while the average for the district is less than 5 per cent., but for the purpose of being on the safe side, we calculate on only 8 per cent. ore to the ton of dirt, and it shows a profit each day with two shifts of men, of $560.20.

We stand ready to prove every statement made, and if enough stock is subscribed for in this locality a directorship of the company is at the disposal of the subscribers.

Any further information and proofs of earning capacity will be cheerfully supplied.

TO GAIN PEACE BY CIVIL WAR

Russian Government Accused of Fomenting the

AGITATION IN ORDER TO

Have Excuse to Approach Japan. Conservative Circles Admit That War Cannot go on

London, Jan. 27.—The belief in financial and other well-informed circles that the crisis in Russia will soon compel even the Grand Ducal regime to seek peace with Japan grows stronger. The logic of the situation points in this direction as was indicated in last night's despatches to the press on this subject, which were based on the views of a high financial authority. The correspondent is now able to add that the opinion quoted was based also upon definite information, upon which his informants place reliance. It may even be said that those at present controlling the Russian policy were practically convinced of the necessity for bringing the war to a speedy close before the disastrous events of the current week made such a course absolutely imperative. It is hardly to be expected that peace negotiations will be opened to-morrow or next week. Russia will probably make an effort to restore a semblance of order before praying for peace.

On the other hand there are those who believe that the authorities secretly fomented the present uprising, in order to present to the world the spectacle of virtual civil war. Then haughty Russia could say to the enemy, whom she still pretends to despise;—"We are compelled to devote our entire energies to the solution of grave domestic problems. Take Manchuria if the other powers will. Yet you have it. It is not worth more Russian blood." Those holding this view even go so far as to suggest that Father Gopon was an agent provocateur, and express the fear that the Grand Ducal cabal, headed by Vladimir, will depose the Czar and substitute one of its own number. "Who knows," they ask, "whether this has not already been done?" This extreme view is not shared in conservative quarters, but belief that the course of events in Russia makes for peace in the Far East is becoming confident.

PROTEST FROM SOCIETIES.

It will be seen from the following despatch from a St. Petersburg correspondent, timed 9.13 p.m., that the censor does not allow any mention of disturbances in other parts of Russia;—"Last night and to-day, under outwardly quieter conditions, the leading citizens of St. Petersburg sought means to record their abhorrence of the military measures of Sunday, and to consider the other modes adopted by the government for dealing with the agitation. This has been possible only through scientific and professional societies, whose usual proceedings exclude the discussion of political matters. Thus the Economic Society, with 600 members, presided over by M. Schwanbach, administrator of the Department of Agriculture, the Juridical Society, with 800 members, and the Engineers' and Architects' Associations, with a membership of more than a thousand, have already taken skeptical action. The Medical Society, following the example, to-night passed resolutions recording the declaration that the only means of tranquilizing the public mind, guaranteeing the lasting security of citizens, and enabling Russia to maintain the esteem of the civilized world is a convocation of a representative Assembly, endowed with full liberty for discussing public matters and passing resolutions thereon.

"At each gathering it was the general opinion that the appointment of Gen. Trepoff as Governor-General of St. Petersburg, with dictatorial powers, is a provocation. This view was emphasized to-day by the resignation of M. Foulon from the Prefecture, in consequence of his refusal to co-operate with the new regime, which he regards as an unlimited dictatorship, because the Ministry of the interior, to which the new office of Governor-General is nominally attached, is without a head. The bodies mentioned, and also the Society of Advocates, have already endorsed the program of the Zemstvos.

MANY DOMICILIARY VISITS.

"Domiciliary visits under the ordinance of 1881 have been many since Sunday, including numerous lawyers, the authorities maintaining that their society is illegal.

"To-day passed without demonstrations on the streets. A police train this morning took ninety coffins containing corpses of unclaimed victims of Sunday's slaughter inside the city from the Nicholas station to the Volkovo burial grounds fifteen versts distant. The storage sheds of the Moscow Railway are filled with frozen bodies of those killed at the Moscovski, Zastava, and Putiloff Works and other scenes of bloodshed. These will be similarly secretly cleared to-night to avoid funeral demonstrations."

London, Jan. 27.—The Berlin correspondent of the Express cites a story emanating from a good source in St. Petersburg, to the effect that the Czar has been only partially informed of Sunday's doings. But rumors reaching Tsarskoe-Selo while dinner was progressing Sunday evening, his Majesty sprang from his seat, and exclaimed:—"In the name of the saints and the fatherland, tell me the truth. Is there nobody who will tell me the truth."

A Grand Duke who was present tried to calm him with misleading statements.

TROOPS FROM MANCHURIA.

Rome, Jan. 27.—A telegram received to-day from Mukden says it is believed there that some of General Kouropatkin's best troops have been withdrawn, and are now on their way to European Russia, to be used in suppressing the revolution that is believ-

A RIGOROUS CENSORSHIP.

London, Jan. 27.—Among the first acts of Gen. Trepoff, the dictator in St. Petersburg, of the imposition in full vigor of the censorship on all outgoing telegrams, which was suspended almost a year ago. London, and not St. Petersburg, now becomes the headquarters for Russian news. The action of Gen. Trepoff was not unexpected, although it was thought that the government's keen desire to avoid a collapse in Russian securities in the European markets would induce them to permit the free transmission of intelligence. The fear that grave news is suppressed will have a serious influence upon the Continental Bourses.

The operation of the censorship imposes a delay in the transmission of messages averaging four hours. Forwarding news to the German frontier involves a minimum of twenty hours delay. Reliable information must be sent by this route forthwith.

CITIZENS' LIVES UNSAFE.

St. Petersburg, Jan. 27.—The council of the Polytechnic Institute to-day adopted the following resolution;

"One of the members of the faculty of the Polytechnic Institute of St. Petersburg, the student Savinkin, died a violent death, shot on Jan. 22 in the Alexander Gardens. Savinkin was one of the victims of the butchery against a peaceful, unarmed crowd. The council of the institute, being revolted and depressed by the acts of Jan. 22, which prove that in Russia the very lives of peaceable citizens are unsafe, expresses profound indignation on account of the general firing, one of the victims of which was the student Savinkin. The council finds that under the present conditions teaching is absolutely impossible, and resolves:—1 To inform the Minister of Finance of the opinion of the council regarding the events of Jan. 22. 2. To suspend lectures in the institute, and 3. To defray the cost of the funeral of Savinkin."

The students of the institute sent a delegation to the director, declaring their agreement with the resolutions.

BRITISH SYMPATHY.

London, Jan. 27.—The Borough Council of Battersea, London, to-night formally adopted a resolution expressing indignation and abhorrence at the events of Jan. 22, in St. Petersburg and expressing profound sympathy with the workmen of Russia in their efforts to obtain social and political freedom, urging them to maintain the movement until their demands are complied with. It was voted to send a copy of the resolutions to Father Gopon.

A SPLENDID PROPOSITION

Rare Chance to Secure a Paying Investment

THE GOLD COIN MINING COMPANY

has placed a small block of their stock at the disposal of Canadian investors. This stock is sure to rapidly advance in price. The Company is now arranging to instal the power plant and a mill and cyanide plant for the reduction of their ore to a bullion on the property. They have arranged with a Trust Company having assets of $1,500,000 to put up a bond guaranteeing investors the repayment of the full amount invested. This makes investors absolutely safe By no possibility can they lose a dollar

THE GOLD COIN MINING COMPANY was organized November 21, 1902. under the laws of the State of Idaho. The capitalization is one million shares of the par value of one dollar each, fully paid and non assessable; of the 1,000,000 shares, 400,000 have been set aside as treasury stock

THE BOISE BASIN came into prominence shortly after Grimes and his party of prospectors entered the Basin country in 1862; their entrance was into the northern portion, and one discovery of rich placer ground followed another until the news of the rich finds reached the outside world, when a veritable stampede for Boise Basin commenced. Town was sprung up and grew together in an incredibly short time; the rush of people to Idaho City made it a place of 20,000 people in 1867, having a business street over a mile long lined with two-story buildings streets and sidewalks filled with people day and night, business and money on every hand and the city bearing the proud distinction of being the capital of the territory of Idaho. Wages ran from $6 to $10 a day and not infrequently forty and fifty men worked on a single placer claim; the clean-up for a day's work in many instances ran close to $5,000; large fortunes were made in a few days by washing the golden sands on a pan; so eager was the quest for the shining metal that the streets of Idaho City were dug up and washed and re-washed, and the soil removed from under the houses and places of business. So extensive was the search for the hidden treasure that not only all of the low ground was worked but the foot of the mountains surrounding the city have been washed away, filling up the lower portions of the basin and extending into the town, where one of the buildings has been buried under the tailings from the numerous placer workings.

LOCATION—The property of the Gold Coin Mining Company is situated in the Gambrinus Mining District, Boise County, Idaho, on the range of mountains between Moore Creek and Elk Creek, which forms a part of the eastern boundary of the famous Boise Basin and into which these mountains are drained. The property is located ten miles northeast of Idaho City, from which place there are good wagon roads either to the workings on top of the mountain or to the place of the proposed tunnels in the gulch which crosses the Tunnelsite claim.

THE CLAIMS—The Company owns a group of four contiguous lode mining claims and the Gold Coin Millsite: the names of the lode claims are the Tunnelsite, Blue Bell, Pennsylvania and Mountainside, each being a full claim 600 feet wide by 1,500 feet long, excepting the Tunnelsite claim, which is 450 feet wide at the west end and 1,055 feet long: it was necessary to stake the claim in this form on account of joining the Washington property on the south and the Sub Rosa property on the west, these properties being prior locations to the Tunnelsite claim. The four lode claims aggregate nearly 80 acres of rich mineral land.

Further particulars may be had on application to WM. SAILSBURY, Fiscal Agent of the Company Peterborough, Ont., or to

S. E. PHELPS, Secretary,
314 SCHOFIELD BUILDING, CLEVELAND, OHIO.

The Catarrhozone Dry Air Treatment

THE ONLY RATIONAL, SURE CURE FOR CATARRH AND DISEASES OF THE NOSE, THROAT AND LUNGS.

The only natural cure for catarrh is the dry air treatment which effects startling cures without resorting to drugs, dangerous snuff and cocaine mixtures.

Catarrhozone kills the catarrh germs, soothes and heals the sore mucous membrane, clears the air passages of the nose and throat, cures chronic catarrh that has resisted all other treatments.

The reason why Catarrhozone cures is because it really gets at the cause of the disease. No matter how remote or long standing your catarrh may be you can place perfect faith in Ferrozone. It is Nature's Cure composed of the most healing balsamic antiseptics known to medical science. Read the following;

MR. L. MURPHY, well known in West Medford, Mass., writes; "Catarrhozone cured my catarrh, after a score of doctors failed. I used to hawk and spit, my nose was continually stuffed up, and often I was sick at my stomach. Catarrhozone has removed every trace of catarrh from my system."

MISS EMMA PETERS, Highland Grove, N.S., writes; "I am more than pleased with the results from Catarrhozone. It cured me of the worst kind of nose and throat catarrh. Other friends using Catarrhozone are greatly pleased with it and agree that it is the only sure remedy for catarrh they ever used."

Mr. LAWRENCE KENNEDY, of West New Annam, says; "For three years I suffered from catarrh and throat trouble. I tried many remedies but they were of no avail. I got no relief till I tried Catarrhozone. Too much cannot be said of so valuable a medicine. I shall always recommend Catarrhozone to anyone troubled with catarrh; it is a positive cure."

MR. W. W. BEACH, of Chapman, Ont., who suffered for years from "systematic catarrh says; "Catarrhozone is the best remedy I have ever used for catarrh and I have used a lot of them. Catarrhozone was exactly suited to my case."

No intelligent person can doubt the merit of Catarrhozone which receives more praise from Medical Journals, doctors and the public than any other remedy; it is certain to cure every type of catarrh, lung and throat trouble. Two months' treatment, $1.00; sample size 25c. At druggists or by mail from N. C. Polson & Co., Hartford, Conn., U.S., and Kingston, Ont. Refuse a substitute for Catarrhozone.

If you cannot attend our School write for particulars regarding our correspondence course.

THE DOMINION BANK

Proceedings of

The Thirty-fourth Annual General Meeting of the Shareholders

The thirty-fourth annual general meeting of the Dominion Bank was held at the Banking House of the institution, Toronto, on Wednesday, January 25th, 1905.

Among those present were noticed:

Lieut.-Col. Mason, Lieut.-Col. Pellatt, Messrs. Wm. Ince, Wm. Spry, E. B. Osler, M.P., W. D. Matthews, Thos. Walmsley, W. G. Cassels, David Smith, A. R. Boswell, P. Leadley, G. N. Reynolds, A. Foulds, A. A. Jones, H. Gordon MacKenzie, J. Gordon Jones, W. Crocker, J. F. Kavanagh, J. G. Ramsay, W. C. Lee, W. C. Crowther, F. J. Phillips, F. D. Brown, H. B. Hodgins, W. C. Harvey, R. Mulholland, S. Samuel, F. D. Benjamin, J. F. Risley, John Stewart, F. J. Harris, Wm. Davies, A. W. Austin, W. R. Brock, E. S. Hall, Wm. Booth, J. Bruce Macdonald, R. A. Stapells, Wm. Mulock, R. T. Gooderham, Dr. Andrew Smith, John J. Dixon, Chas. Corkshutt, A. E. Webb, T. G. Brough, and others.

It was moved by Mr. W. D. Matthews, seconded by Mr. Wm. Ince, that Mr. E. B. Osler do take the chair, and that Mr. T. G. Brough do act as Secretary.

Messrs. A. R. Boswell and W. G. Cassells were appointed Scrutineers.

The Secretary read the report of the Directors to the Shareholders, and submitted the annual statement of the affairs of the Bank, which is as follows:

To the Shareholders:

The Directors beg to present the following statement of the result of the business of the Bank for the year ending 31st December, 1904:

Balance of Profit and Loss Account, 31st December, 1903...		$474,902 63
Profit for the year ending 31st December, 1904,, after deducting charges for management, etc., and making provision for bad and doubtful debts.....		459,670 01
		$934,572 64

Dividend 21-2 per cent., paid 2nd July, 1904...	75,000 00	
Dividend 21-2 per cent., paid 1st October, 1904...	75,000 00	
Dividend 21-2 per cent., payable 3rd January, 1905	75,000 00	300,000 00
		$634,572 64
Transferred to Reserve Fund.....		500,000 00
Balance of Profit and Loss carried forward.....		$134,572 64

RESERVE FUND

Balance at credit of account 31st December, 1903.....	$3,000,000 00
Transferred from Profit and Loss Account.....	500,000 00
	$3,500,000 00

Property has been purchased at the corner of Bloor street and Dovercourt Road, where an office will shortly be opened.

The Stanstead Branch was closed in July last.

All branches of the Bank have been inspected during the past year.

E. B. OSLER,
President.

Toronto, 25th January, 1905.

The report was adopted, and the thanks of the Shareholders were tendered to the President, Vice-President and Directors for their services, and to the General Manager and other Officers of the Bank for the efficient performance of their respective duties.

The following gentlemen were elected Directors for the ensuing year: Messrs. A. W. Austin, W. R. Brock, T. Eaton, J. J. Foy, K.C., M.P.P., Wm. Ince, Wilmot D. Matthews, and E. B. Osler, M.P.

At a subsequent meeting of the Directors, Mr. E. B. Osler, M.P., was elected President, and W. D. Matthews, Vice-President, for the ensuing term.

T. G. BROUGH,
General Manager.

Toronto, 31st December, 1904.

REMOVAL

C. Wilhelmy has removed his place of business to No. 453 George Street, next door to the Peterborough Light and Power Company.

A Interesting Lecture

Mr. R. M. Dennistoun delivered a very interesting and instructive lecture on Victor Hugo's character in "Les Miserables," "Jean Valjean," in St. Luke's church last night. There was a fair audience present. At the close of the address a cordial vote of thanks was tendered Mr. Dennistoun for the great treat which he afforded those present.

I have disposed of lease of my store and am going out of the grocery business. Big Bargains in groceries will be given as entire stock must be sold.
—GEO. CARTON.

APPLICATIONS FOR PLUMBING INSPECTOR

SEALED APPLICATIONS, addressed to "Chairman Legal Committee, Town Clerk's Office," will be received up to January 31st, 1905, at 4 o'clock, p.m., for the position of Inspector of Plumbing for the Town of Peterborough. State experience, qualifications and salary expected.

S. R. ARMSTRONG,
Town Clerk.

Inspecting the Schools

Yesterday the Property Committee of the Board of Education met at the Central School and looked over some contemplated improvements to the building and fences. Mr. Vincent Eastwood, told The Times that considerable painting had to be done this year. He also added that he was going to resign from the committee, as he would not take $10,000 a year to stand the abuse that was heaped upon him during the past few months. Evidently a job on the Property Committee is no sinecure.

SOCIAL AND PERSONAL

—Mr. A. Yobe, Bridgenorth, was in town yesterday.

—Rev. Father Fitzpatrick was in town yesterday.

—Miss Agnes Coburn, of Lindsay, is the guest of Miss Olive Waller, Charlotte street.

—Miss Bertha Parnell will be the soloist at the popular men's meeting to-morrow at the Y.M.C.A.

Miss Griffin, 420 1-2 George street, has returned home after spending a month in Toronto and Buffalo.

—Capt. Reynolds, of Lakefield, left yesterday for Cuba, where he will spend the winter.

—School Inspector Duncan Walker is in Toronto attending a meeting of the entrance examination board of which he is a member.

—Rev. Father Galvin delivered his very popular lecture, "The Rebellion of 1898 in Ireland," before a large audience in Enniskeen on Thursday.

—The town clerk is advertising for applications for the position of plumbing inspector. Applications will be received up to Tuesday next.

—Hon. Geo. A. Cox was in town yesterday attending the annual meeting of the Toronto Savings and Loan Company.

—Mr. J. Hilliard Carnegie, M.P.P., fresh from his great victory in East Victoria, was in town this week on his way to Toronto.

Lakefield News; We are glad to announce the engagement of Mr. Jno. C. Strickland, son of our esteemed fellow-citizen, Mr. R. C. Strickland, to Miss Henrietta Anderson, daughter of Mr. H. G. Anderson, of Buffalo, N.Y. We extend to Mr. Strickland our heartiest congratulations.

Norwood Register; Miss Kate Garvey of Peterborough visited her cousins here last week. Mr. and Mrs. P. Doris of Peterborough, favored us with a call recently. Mr. Michael and Miss Theresa Curtain of Peterborough, were guests here on Sunday last. Miss Lillie Parker of Ashburnham, gave us a call on Sunday.

An Unpleasant Experience

Lakefield News, On Monday evening last, a young gentleman, accompanied by two young ladies, met with an unpleasant experience whilst driving home from Peterborough. When near Mr. Cullen's residence a deep pitch-hole was encountered with the result that the sleigh was upset and the horse ran away, leaving the occupants on the road. A rig was secured from Mr. Cullen and the party reached home none the worse for the mishap. The horse and rig arrived at the livery barn without any damage being done.

$10 Excursion! to Washington $10

February 10th! Lehigh Valley Railroad Special 10 Day Excursion. Tickets only $10 from Suspension Bridge to Washington and return. Tickets allow stop over at Baltimore and Philadelphia on return trip. Tickets good on "Black Diamond Express" and all regular trains. For tickets and further particulars call on or address Robt. S. Lewis, Canadian Passenger Agent, 10 King Street East, Toronto. Direct and best route from Peterborough to New York and Philadelphia. Grand Trunk and Lehigh Valley.

LITTLE LOCAL LINES

Dashes Here and There by Times Reporters on Their Round

—The country roads are in a direful condition.

—The Fire, Water and Light Committee met last night.

—To-day we will sell superfine quality of writing paper for five cents per quire, or five quires for 20 cents. Times Bookstore.

—Rev. W. J. Jolliffe will commence a course of sermons on the life and character of an Old Testament saint.

—Mrs. Morrow and Messrs. Joseph Legg and R. N. Jolliffe took part in a concert in Norwood last night.

—The Ladies' Literary Association of St. Peter's T.A.S. held its meeting last night, when a good program was presented.

—They are beginning to talk in Chicago about $1.50 for May wheat. An effort should be made to keep the news from the Peterborough bakers.

—Rev. E. A. Langfeldt will deliver a lecture in the town hall, Millbrook on Friday, Feb. 3rd, under the auspices of the Loyal Orange Lodge of that town on "Why am I a Protestant."

SCALD HEAD is a disgusting and obstinate disease, unfortunately frequently in children. The proper treatment includes perfect cleanliness and a generous application of Weaver's Cerate. Mothers will be glad to learn this.

—When you need ink be sure and get Stephen's. For sale at Times Bookstore. We have it in all sizes of stone bottles. Does not freeze like other inks.

—The Faithful Workers' Mission Band has a surplus of about $30 from the lecture by Rev. Mr. Pedley recently given in St. Paul's church under their auspices.

—The Rev. J. J. Wright, missionary from the Klondike, Yukon territory, will give an account of his work there and a description of the country on Sunday evening, 29th, inst., in the Hastings Presbyterian Church.

—The shoe manufacturers of Canada have taken a mean advantage of the newspaper men of the country. At a season of the year when it is impossible to go barefoot they have jumped the price of footwear up ten per cent.

—Help to keep The Times interesting by sending in news items. If you have visitors from a distance, accidents occur, or anniversaries of any kind are celebrated let us know. A postal card can be made to hold a lot of matter. Write plainly and sign your name as a guarantee of good faith.

The distracting headaches from which so many women suffer make life a daily purgatory. If men suffered with headache as women do, business would be almost at a standstill. Does not the fact that women only suffer from these severe headaches suggest that there must be a womanly cause for them?

When the womanly organism is diseased, headache, backache, nervousness and sleeplessness are consequences which are sure to follow.

$500 Reward for Women Who Cannot be Cured.

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors and makers of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay $500 in legal money of the United States, for any case of Leucorrhœa, Female Weakness, Prolapsus, or Falling of Womb which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

WORLD'S DISPENSARY MEDICAL ASSOCIATION, Proprietors, Buffalo, N. Y.

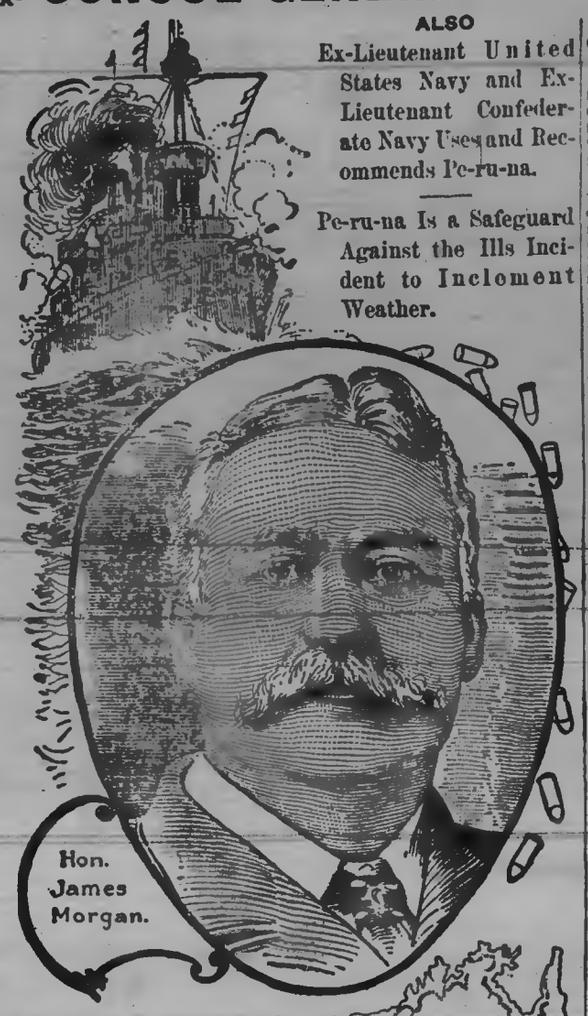
"I took two bottles of your 'Favorite Prescription' and two of the 'Golden Medical Discovery' and am feeling well," writes Mrs. Dan McKenzie, of Leitchy Mines, Cape Breton Co., Nova Scotia. "I had uterine trouble, pain in the side and headache. After taking your medicines I got well. You may publish this or use it in any way you think best, as I cannot speak too highly of Dr. Pierce and his medicines."

FREE. Dr. Pierce's Common Sense Medical Adviser is sent *free* on receipt of stamps to pay expense of customs and mailing *only*. Send 21 one-cent stamps for the book in paper covers, or 50 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

The Ex-CONSUL GENERAL TO AUSTRALIA

ALSO
Ex-Lieutenant United States Navy and Ex-Lieutenant Confederate Navy Uses and Recommends Pe-ru-na.

Pe-ru-na Is a Safeguard Against the Ills Incident to Inclement Weather.



HON. JAMES M. MORGAN, 1765 Twentieth Street, Washington, D. C., Ex-Lieutenant U. S. Navy, Ex-Lieutenant Confederate Navy, and Ex-Consul General to Australia, writes:

Peruna Medicine Co., Columbus, Ohio:

Gentlemen:—"The use of your Peruna as a remedy or cure for catarrh by many of my friends who have been benefited by the same, as well as my own experience as to its efficacy and good tonic properties causes me to recommend it to all persons, and you are at liberty to use this endorsement and my photograph if it will give any force to same."—James M. Morgan.

Catarrh of the Head Which Affected Hearing Cured by Pe-ru-na.

Mr. J. Emile Tanguay, No. 532 John St., Quebec, is Secretary of the Jacques Curling Club of Quebec, one of the leading sporting clubs in the city. Its members are composed of young men of the best families. He writes:

"Last winter I caught a severe cold which developed into a severe case of catarrh of the head, affecting my hearing especially. My eyes ran, my system seemed to be generally clogged up. I was advised by a club friend to try Peruna, and did so at once. To my delight I found a change set in for the better within three days, and in eight days I was entirely well."J. Emile Tanguay.

Mr. Adolph Koehler, President of the North Side Turnverschaft, writes from Clark and Leland Ave., Chicago, Ill.:

"It is with pleasure that I endorse Peruna as a first-class medicine especially for catarrhal affections of the throat and lungs. I have used it with much benefit and several of my friends have been cured of catarrh entirely where Peruna was used."—Adolph Koehler.

"Nothing Better Than Pe-ru-na for Catarrhal Troubles," Says Ex-Congressman C. P. Dorr.

C. P. Dorr, Hotel Johnson, Washington, D. C., Ex-Congressman from West Virginia, writes:

"I can cheerfully recommend Peruna to anyone who wants a safe and permanent cure for catarrh. For throat, lung and catarrhal trouble there is nothing better than Peruna."—C. P. Dorr.

Colds Lead to Chronic Catarrh.

A common cold is acute catarrh, which quickly becomes chronic catarrh if allowed to remain.

Every cold snap leaves in its trail thousands of cases of catarrh, many of whom for want of an effective remedy, will suffer from this disease the rest of their lives.

Is there anything that can be done to prevent all this?

In the first place, Peruna used at the proper time will prevent taking cold. In the second place, Peruna will cure a cold in from two to five days.

Again, Peruna will cure catarrh quickly in the first stages, and finally Peruna will also cure chronic catarrh, if used properly and persistently.

Peruna kept in the house and properly used will therefore not only act as a safeguard against the ailments which result from sudden cold waves, but will also prove a sure remedy for this class of ailments.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Peruna can be purchased at any first-class drug store for $1.00 per bottle.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

NEW JUNK BUSINESS IN PETERBOROUGH

C. Goldman

Manager for H. CARP, Montreal, Begs to announce to the citizens of Peterborough and surrounding district that he has commenced business as dealer in junk of all kinds, and is prepared to pay the highest cash price for

OLD IRON, BRASS, COPPER, ZINC, LEAD, STEEL, PIPE IRON OLD RUBBERS, HORSE HAIR, TAILORS' CLIPPINGS MARBLE, &c., &c.

Junk Yard—339 Aylmer Street. Residence at Cavanagh House, Simcoe Street.

VOL XXXIII NO 24 PETERBOROUGH ONTARIO, MONDAY JANUARY 30 1905 PRICE TWO CENTS

ST. PETERSBURG SOCIETY EXPECT SERIOUS EVENTS

"We're All Anarchists Now" Said Countess to Princess--Strike is Still Spreading and More Disturbance is Looked For.

Berlin, Jan. 30.—Foreign residents of St. Petersburg are beginning to arrive in Berlin to await developments. Some Americans and Englishmen and many Germans who are obliged to remain there to attend to business are sending their families here. The opinion of the arrivals is that the present half-calm is only a period of preparation for greater resistance to the government, and that active smuggling of arms and dynamite is going on across the Austrian frontier.

St. Petersburg society shares the belief that more serious events and even a revolution are impending. The wife of a leading American of St. Petersburg, who has arrived here, relates how a princess, who was expressing the most positive views concerning Governor-General Trepoff to a countess, was interrupted with the remark;

"You talk like an anarchist."

"Are you not one?" replied the princess.

"I think we all are now," said the countess.

Washington, Jan. 30.—United States Consul-General Watts, at St. Petersburg, cabled the state department to-day in regard to the situation in Russia, as follows;

"Strike spreading. Just received a telegram from Warsaw that all work shops are stopped. Vienna railway men joining. Gas works and waterworks are being operated by soldiers."

Moscow, Jan. 30.—The factory inspectors report that 20,000 persons are still out on strike. Work is being resumed, almost all the mills which had been closed, but, on the other hand, some large mills including Prohoroff's, where the men were paid yesterday, have struck.

The situation is not causing alarm, though there is some anxiety regarding possible disturbances to-day.

Warsaw, Jan. 30.—A hundred thousand people are now out on strike. Thus far there have been no disturbances of any importance.

About 100,000 persons have struck at Lods. Telephonic communication with that city has been interrupted by the strikers.

Libau, Russia, Jan. 30.—There were some demonstrations on the part of the strikers during the night, and attempts were made to loot bakeries, but the rioters were dispersed by the troops, who have been reinforced by a regiment from Kovno. Some telegraph poles were cut down, but they have been replaced.

The governor this morning issued a proclamation reminding the workers of the patriotism they displayed on the occasion of the recent visit of Emperor Nicholas, declaring that the strike is the result of the activity of evil disposed revolutionists, who have nothing in common with the workmen, and urging the latter to return to work and not embarrass the country while at war. If they resume employment the governor will help them. Otherwise he will take energetic measures to restore order.

London, Jan. 30.—The accounts of the battle on the Hun River in Manchuria differ so widely that it is difficult to learn just what has taken place. The Russians claim a victory, and the capture of the village of Sandepas, but, on the other hand, the Japanese assert that their advices to Tokio report that the Russians were driven back. Both sides undoubtedly suffered heavy losses in the mid-winter battle.

St. Petersburg, Jan. 30.—A telegram from Chamamutun says the Russians lost 45 officers and 1,000 men killed or wounded at the capture of the village of Sandepas, January 26. The Russians took 102 Japanese prisoners, besides arms, wagons and ammunition.

Gen. Kouropatkin, under date of Jan 25, telegraphed as follows to Emperor Nicholas;—

"The advance has commenced on our right flank against the enemy. We have occupied Khailatosa and Kheigoutaya.

"No details have been received of the losses at Khailatosa and Kheigoutaya, which are seven versts southwest of Sandepas. We occupied Kailatosa without firing, the Japanese being bayoneted. Kheigoutaya was bravely defended, but we finally occupied it at 10 o'clock at night. Our cavalry pursued two regiments of Japan se dragoons, which fled southeastward.

"On our left flank a detachment repulsed the Japanese and occupied a defile between Khandiensan and Expansan. Another detachment sent against the enemy's flank near Hindhecheng forced the Japanese to retire, and captured 200 cattle."

Supplementing the foregoing, General Kouropatkin says;

"From later reports it appears that in capturing these positions we made prisoners of 100 Japanese. We also occupied the Village of Wehei-taitse, on the Hun River, losing 50 men.

"On Jan. 26, our troops continued the offensive against Sandepas. The Japanese attacked our position near the village from the south end southeast, but were repulsed. Our cavalry participated, manoeuvering against the left flank, and attacked the Japanese in the rear. Our force then attacked Sandepas and at 7 p.m., after a desperate fight, with the assistance of sappers we surmounted the strong entrenchments and occupied the Japanese village.

"The same day our troops occupied the enemy's entrenchments at Shakhe, and repulsed the Japanese attempts to retake them."

Gen. Kouropatkin reports that Russian troops at 7 p.m. on Jan. 25, after a desperate fight, occupied the Village of Sandepas, which had been strongly fortified by the Japs.

TWO CHILDREN CREMATED.

Syracuse, N.Y., Jan. 30.—A special from Carthage says;

Two children, aged four years and one week respectively, were burned to death in a house at Wanakena, on the Cranberry Lake Railroad, to-day. John Poulette is a night watchman at a lumber mill. His wife was awakened this morning by smoke and flames in her home. She rushed out in her night clothes, then broke a window and saved three of her children by passing them out of the window to neighbors.

She made several attempts to reach the other two little ones, but was driven back by the flames, and they perished. The mother was badly burned.

$50 A QUART.

Atlantic City, N.J., Jan. 30. — To provide milk for his one-year-old son, George A. Bourgois, one of the best-known attorneys in the State, to-day paid $200 for two quart bottles of milk and he same amount of cream, or at the rate of $50 a quart bottle. Mr. Bourgois lives in Venter, which was completely cut off from this city. On calling up a milk depot, the lawyer found that it would be impossible to deliver milk. He then hired Archie Burrell to get the milk.

Snowdrifts ten feet high in places blocked Burrell's horse and carriage. At times he was obliged to drive to the beach, and his journey, ordinarily three miles, proved to be three times that distance, and occupied more than four hours. But he reached the depot and delivered the milk. Mr. Bourgois gave Burrell a check for $200.

NOT YET RELEASED

Mrs. Cassie L. Chadwick is now Adjudged Bankrupt

Cleveland, Ohio, Jan. 30. — Mrs. Cassie L. Chadwick has been formally adjudged a bankrupt by default in the United States District Court. The creditors will meet and elect a trustee to take charge of her property until it shall be sold. Mrs. Chadwick has been ordered to file a list of all her creditors, together with a schedule of her assets and liabilities within ten days. Mrs. Chadwick has not yet been released from goal.

ACROSS ATLANTIC 70 TIMES

Englishman Says He is Travelling to Cheat the Doctors

New York, Jan 28.—"Traveling to cheat the doctors," is the reason given by John Sharman, of Halifax, Yorkshire, England, who completed his seventy-ninth trip across the Atlantic when he landed yesterday from the White Star liner Arabic.

Mr. Sharman was worried during the last of the Arabic's voyage for fear he would not arrive in time to catch the Umbria, which sails early this morning. Once he arrived on the Oceanic with only nine minutes to spare to get on board the Majestic. Another time he was just in time to run from one incoming steamship to an outgoing one, while they held the gangplank out for him.

OUR INDIAN CHARGE

Morals of the Canadian Indians is Improving

Ottawa, January 30.—According to the annual report of the Indian Department the Indian population last year numbered 107,978, a net decrease of 255 as compared with 1903. The report points out that it is a fallacy to suppose that the Indians are a dying race doomed to extinction before the advance of civilization. Facts and statistics fail to support this view. In every province excepting British Columbia the birth exceeds the death rate. With regard to the marriage bond the report says that while it cannot be denied that considerable looseness exists in respect to this matter, which is by no means confined to the younger provinces or outlying bands in the older provinces on the whole the morality of the Indians up to their light is as good as that of their neighbors and improvement is going on in this as in other directions.

Secret Royal Marriage

London, Jan. 30.—It is stated on good authority that the former Grand Duchess of Hesse was married secretly several weeks ago to her cousin, the Grand Duke Cyril of Russia. It is said that because of the Grand Duchess being a divorcee there was great difficulty in finding a priest of the Greek Church to perform the ceremony, and it is further said that he received $10,000 for his services.

CZAR'S TROUBLES GROW

Everything Points to Great Russian Upheavel

WAR WILL BE THE ORDER

With a View of Creating a Diversion at Home—The World Waits

London, January 30.—The Russian situation grows steadily worse everywhere, except in St. Petersburg, which is prostrate under rigorous military rule. Citizen blood has been shed on the streets of other cities; though Moscow—the dreaded centre of the movement—remains quiet. It must be remembered, however, that Russia cannot at this time stand industrial paralysis. If the workingmen simply go out and stay out, they will produce a state of affairs which must terribly embarrass the Russian Government on the money markets and weaken the support given the army at the front.

The Minister of the Interior and M. De Witte, are, however, still in power, and there is always hope that they may prevail upon the autocracy to try the path of conciliation. The "mailed fist" may be effective at the capital; but it is impossible for an obligarchy to keep a nation at bay forever. This must be apparent to any student of human affairs, who will look at the situation squarely, and not through the distorted glasses of a belated believer in the divine right of monarchs who regards the Czar as "the anointed of God."

Renewed activity in Manchuria, in spite of the severe weather, is probably an attempt to create a diversion. That it will succeed in the present temper of the Russian people, appears very unlikely. They are outspoken in their opposition to the war, and do not regard it as a national struggle at all. The activity at the front means that more troops must be sent there; and it will be an anxious moment when the Government commands regiments of doubtful sentiments to march. Altogether the writing is very less cryptic than it was to begin with; and the world still awaits the unfolding of its meaning.

MR. FOSTER AS A RAILROAD MAN.

Rapid Rise of the New Local District Passenger Agent of the Canadian Pacific Railway.

The recent appointment of Charles B. Foster as successor to the late A. H. Notman, in the post of C.P.R. district passenger agent at Toronto, is another of the frequent reminders of the truth of the saying that he who would succeed in a railway career must begin young, "the younger the better." Mr. Foster can look back upon a record of 13 years spent continuously in the service of the C.P.R., and he is still well under 35 years of age. When it is said that the territory over which he is now called upon to exert supervision extends over all Ontario west of and including Kingston and Sharbot Lake, to Detroit, and also south of North Bay and Detroit City, it can be easily seen that a wide range of responsibility is opened up, and that the post of overseer of all the passenger arrangements for so extensive and largely travelled a district is not a gilded sinecure. The post calls for a man of quick, decisive judgment, almost unlimited executive capacity, and, lastly, tact. To be at the helm in the passenger department of any road, demands these qualities and upon their possession in greater or lesser degree depends the measure of success.

CHARLES B. FOSTER

Mr. Foster's record speaks for itself. He has always been in the atmosphere of passenger tickets and his railway lore is of the concentrated kind. His thirteen years' experience has been all along one line, but, then, that one line is a life study in itself. Getting into a rut in a thing impossible, or nearly so when it comes to the matter of handling passenger transportation. The problems that arise and the contingencies that confront are divers and peculiar, and straighten out the kinds all these gifts above spoken of are required.

Born in Kingston, Kingston County, New Brunswick, Sept. 30, 1871, Mr. Foster entered the C.P.R. passenger department at St. John, N.B., when under 20 years of age, as stenographer. Within 18 months he became senior clerk in that department, and in September, 1893, was promoted to the position of traveling passenger agent. During the six years which followed, Mr. Foster remained, thus accumulating in that time a thorough knowledge of transportation technique, and becoming intimately acquainted with the ins and outs of it, so specially concerned the Maritime Provinces and part of New England. In July, 1899, he was appointed chief clerk in the department at St. John, and was given an opportunity to use in an executive way the knowledge assimilated by him as traveling representative. That he was enabled to do this effectively is shown by the fact that in February, 1902, or two and a half years after becoming chief clerk to the district passenger agent at St. John, he was chosen to fill the latter important position. It gave him charge of territory east of Oldtown, Maine, and Levis, Que., including New Brunswick, Nova Scotia, P. E. I., and Newfoundland. His duties embraced the looking after of the C.P.R. winter Atlantic steamship service, and the summer excursion traffic, neither being a small item.

The death of A. H. Notman, one of the most popular railroad men in Canada, made a gap in the ranks of C.P.R. officials which required an able man to fill. That Mr. Foster was looked to be Mr. Notman's successor was but the forging of another link in a career of the rapid, steady, and consistent progress. After 13 years spent in the Maritime Provinces he was called upon last November to enter a new field, and to deal with problems more complex. It need only be said that his work has already abundantly justified the wisdom of the appointment, and that his personal popularity is no mean factor in the success he is achieving in Toronto.

$10 Excursion to Washington $10

February 10th! Lehigh Valley Railroad Special 10 Day Excursion. Tickets only $10 from Suspension Bridge to Washington and return. Tickets allow stop over at Baltimore and Philadelphia on return trip. Tickets good on "Black Diamond Express" and all regular trains. For tickets and further particulars call on or address Robt. S. Lewis, Canadian Passenger Agent, 10 King Street East, Toronto. Direct and best route from Peterborough to New York and Philadelphia. Grand Trunk and Lehigh Valley

WEATHER NOTES

Continued cold.

MONEY IN ASHES

Bought for 5 Cents a Bushel Here and Sold for 50 in American Centres

The next issue of the Horticulturist, the Government agricultural paper, will show that during the past year 43,392 bushels of hardwood ashes have been purchased by Americans at 5 cents a bushel and shipped to American farmers and produce growers, who pay about 50 cents per bushel. Examination and investigation to obtain the fertilizing qualities of ashes shows that wood ashes contain at least six times as much nutrition as the ordinary fertilizers. The Government will be asked to take some action towards preventing the exportation of wood ashes and other powerful fertilizers.

A CLOSE CALL

Farmer and Wife Nearly Killed by Street Car

A farmer and his wife had a very narrow escape on Saturday morning from being run over by a street car. They were driving west on Simcoe street, the car was going south, and the motor man just got it stopped in time. It was lucky for the farmer that a passenger had hailed the car, for it would have been impossible to stop the car in time, if the power had not already been shut off, and the brake partially on to stop for the lady who had hailed the car. Our farmer friends will have to look up and down the track before they attempt to cross it. It will be too late to avoid a collision after they once get the horses close to the track.

COMMITTED TO GAOL

Head of a House of Refuge Again Emphasized

Havelock Standard; William McCormack, aged about 35 years, who has been living in Havelock, for the past few weeks, but who hails from Devonshire, England, and who has a wife and child there, has been committed to the Peterborough jail for the present, on a charge of insanity.

McCormack, while seated in the reading room of McNicholl's hotel, Havelock, on Sunday, concentrated his gaze on the coals of the fire, and in a few minutes was fast asleep. His condition was seen by the proprietor, and medical aid was summoned, but nothing could be done to awaken the man. On Monday McCormack came out of the cataleptic state but his conversation and other symptoms speedily convinced the medical authorities that he was insane, and he was accordingly committed to the Peterborough jail, temporarily.

This case emphasizes the need of a County House of Refuge, in which cases of this kind could be treated. A jail is not the proper place for the treatment of cases of this kind, and the county should provide a proper place of accommodation of persons afflicted as this man evidently is.

A PROSPEROUS INSTITUTION

Annual Meeting of the shareholders of the Toronto Savings and Loan Company

We congratulate the shareholders of the Toronto Savings and Loan Company over the splendid report submitted at the twentieth annual general meeting of the shareholders, held at the head office of the company 437 George street, on Friday last. The financial statement, which we publish in to-day's issue, reveals a period of marked prosperity, and shows that this popular institution is becoming still more popular every year.

The total earnings are equal to 9.35 per cent. of the total paid-up capital, the gross earnings for the year being $152,600.12. After paying expenses of management and other charges, there remains a net profit balance of $93,487.89. Adding to this the balance forwarded from last year makes a total of $114,628.69. From which dividends at the rate of six per cent. per annum were paid, amounting to $60,000, and $30,000 added to Reserve, which brings this Fund up to $510,000—equal to 50 per cent. of the paid-up capital stock. The balance, $24,628.69 was carried forward to Profit and Loss account.

Taken altogether the report is a most satisfactory one, and shows that the company is being wisely managed. Reference was made to the death of one of the Vice-Presidents of the Company, Mr. Aaron Cox. The report was adopted and the officers for the coming year were elected as follows, —President, Hon. Geo. A. Cox; Vice-President, Mr. Richard Hall; Directors, Messrs. Peter Hamilton, H. J. Lefevre, H. C. Cox, A. L. Davis, D. W. Dumble, Jas. Stevenson and W. G. Morrow.

WINTER EATING RUINS STOMACHS

"Now is the Time You Need Mi-o-na," Says Wm. Madill

Think for a moment of the extra strain you put upon the stomach in the Winter. The hearty food, the exercise and out door life all weaken and strain the stomach, laying the foundation of poor health and suffering.

Chronic stomach troubles, nervous irritability, and serious bowel and kidney diseases have often dated from a week of extra "good living." Nearly everyone is bothered with more or less headaches and backaches, furred tongue, poor appetite, dry, hacking cough, heartburn, spots before the eyes, dizziness or vertigo, sleeplessness, lack of energy, loss of flesh or a general weak, tired feeling.

Now is the time when Mi-o-na is needed to repair the ravages and wastes the hearty eating of Winter has caused in the stomach and digestive system. This is the only known agent that strengthens the stomach and digestive organs, so they can and will readily digest whatever food is eaten. A Mi-o-na tablet taken before each meal will remove all irritation, inflammation and congestion in the digestive organs and so strengthen them that they will extract from the food all that goes to make good rich blood, firm muscle, and a sound, healthy body.

This remarkable remedy goes but 50 cents, and if its use does not restore your full vigor, vitality, and health, Wm. Madill, one of the best known Druggists in this section will refund your money. Unbounded faith like this deserves your confidence.

HEAVY JAPANESE LOSSES REPORTED AT MUKDEN.

Over 1,000 Japs were Wounded in General Engagement -- Oyama Repulses Full Army Corps on the Shakhe River.

While the strike movement continues to spread in Russian cities there have been no disturbances of a serious character and interest is transferred from the internal situation to Manchuria where the armies of Kouropatkin and Oyama are again engaged.

Following a long period of military inactivity it seems that a movement was begun on Jan. 25, and has spread along the extended lines until the fighting has assumed proportions approaching a general engagement. Advices from Japanese and Russian sources are conflicting as to the trend of the fighting, but it appears that on Jan. 25, Gen. Kouropatkin attempted a forward movement and advanced a full corps on his right. Field Marshal Oyama met it by assuming the aggressive and reports that he defeated the Russians at Chenchiehpao.

A Mukden despatch, however, says the Japanese were driven back on their flank for a distance of five miles and were defeated with heavy losses in an attempt to take the famous Lone Tree Hill. On Jan. 26, the fighting extended to the centre and only the extreme eastern end of the line is not involved.

A St. Petersburg despatch says that the Russians lost about one thousand men in the capture of Sandepas, and captured 100 prisoners, besides arms, wagons and ammunition.

Mukden, Jan. 30.—Delayed in Transmission.—A general engagement is progressing. Only the left flank is not involved. The hospitals here and at Harbin have been put in readiness to receive the large numbers of wounded, of whom about 1,000 have already arrived at Mukden. Several hundred Japanese were made prisoners.

The battle commenced on the right flank on Gen. Kouropatkin's initiative. The Japanese were driven back five miles from their advanced positions, defended by the reserve brigades. The fighting extended on January 26 to the centre. The Japanese endeavored to take Lone Tree Hill and other positions, but were driven back with heavy loss.

The men going into battle are well prepared for the weather conditions, being warmly clad and shod, well fed, and in good spirits.

The activity of Gen. Mistchenko's fast-riding cavalry continues. A large Japanese transport train was captured on the extreme right of the west flank.

FIGHTING ALONG THE SHAKHE.

Tokio, Jan. 30.—The long inactivity of the Shakhe River was broken on Jan 25, when Gen. Kouropatkin advanced a full corps from the vicinity of Chengtau. Field Marshal Oyama immediately assumed the aggressive, and engagements occurred at Chenchiehpao and Heikoutai.

Oyama reports that he defeated the Russians at Chenchiehpao. The engagement at Heikoutai was progressing when the field marshal reported. The official telegram does not disclose the object of the Russians, and does not indicate the prospects of a general engagement Oyama's report follows;

"The enemy on the right of the Hun River began activity January 25. Over one corps advanced from the district south of Chengtou towards Heikoutai and Chenchiehpao. Our army assumed the offensive on January 26. Our detachment repulsed a division of the enemy at Chenchiehpao. The Russians retired to Liutiako. Another detachment has been engaging a division of the Russians at Heikoutai since January 26."

TO INVOLVE THE POWERS.

Tokio, Jan. 30.—The note of the Russian government to the powers, calling attention to the alleged violation by China of her declared neutrality, which Russia charges has been at the instance of Japan, has created the impression in official quarters here that the Russians are trying to involve France, China and other powers in the war, so that Russia may take her defeat with greater grace.

RUSSIAN SIDE

Washington, Jan. 30.—Count Cassini said to-night that Russia's note to the powers was prompted by the fact that she had absolute proof that Chinese neutrality was being frequently violated, and that unless China mended her ways and maintained with the assistance of the other neutrals, as well as Russia, an attitude of strict neutrality, the imperial government would be forced to look first to Russia's interests. "It is a reflection on a sane man's intelligence," the ambassador said, "to go into explanations as to why Russia wishes China's neutrality maintained. It is self-evident, and her energetic communication to the powers is but another evidence of the faithful effort she is making in this direction."

RUSSIA IN TURKESTAN.

London, Jan. 30.—The Morning Post's Shanghai's correspondent says that the Chinese government complains that the Russians have occupied Kashgar, the governor of which has appealed to the Chinese Foreign Board to open negotiations for the withdrawal of the Russians.

Kashgar is the most western city in eastern Turkestan, and has the population of 50,000

RUSSIA'S THREAT.

Paris, Jan. 30.—The Tientsin correspondent of the Paris edition of the New York Herald says that Russia has threatened to invade north China and Chinese Turkestan if China continues to discriminate against Russian

JAPS IN DISGRACE.

London, Jan. 30.—The Daily Mail's Port Arthur special correspondent relates in a letter how two Japanese regiments, when ordered to make assaults, were first driven back with terrible losses. On a reserve regiment being ordered to assault, it refused to obey and thus go to inevitable destruction. The major of the regiment then went forward alone and was shot dead. After a while, moved apparently by remorse, the regiment went to the assault, but utterly failed. Afterward they were sent back to Marshal Oyama. Such conduct, without parallel in the Japanese army, recalls an incident at Cold Harbor, when General Grant ordered the second attack.

KOUROPATKIN REPORTS.

St. Petersburg, Jan. 30.—General Kouropatkin has sent this report to the Emperor; "During the evening of Jan. 10, one and a half companies of Japanese infantry and half a squadron of Japanese dragoons were defeated with great loss.

"On Jan. 11, a Japanese company and two squadrons, which were occupying Newchwang, were driven out by our Cossacks, who occupied the place and afterwards pursued the company, defeating it, and inflicting heavy loss. The same night our patrols damaged the railroad line, telegraph line, a train and two locomotives. During these two days our cavalry defeated several small detachments and captured one officer, 14 soldiers and 500 carts with stores. Our casualties were three officers killed and 10 wounded, and 15 soldiers killed and 49 wounded.

"On Jan. 12, our patrols damaged the railroad six miles from Yinkow. At 9 p.m. Jan. 14, a Russian detachment reached Yinkow. Our artillery cannonaded the station, set fire to the stores and stormed the station. The Japanese opened fire with rifle and machine guns, and our men sought shelter in ditches and again attacked, until they reached the railroad line, when a strong force of Japanese cavalry appeared, advancing from Tashiklow. Our forces, being inferior, retired, carrying away nearly all the killed and wounded. The stores at Yinkow were ablaze the whole night."

MINISTERS OPPOSE WITTE.

St. Petersburg, Jan. 30.—At the last meeting of the committee of ministers, President Witte, according to the Russ, emphasized the necessity for the committee discussing and formulating its views on the recent events at the capital. He added that he considered that an inquiry into their causes and the intimation of measures to prevent their recurrence were imperative.

After a brief discussion, however, the committee rejected M. Witte's suggestions on the ground that such action was not within its jurisdiction.

LIBERALS WILL BE BENEFITTED

English Liberal Press on Ontario Elections

London, Jan. 30.—Ontario Liberals get no consolation in their defeat from English Liberals. The Manchester Guardian to-day; "The Ontario Liberal Government had apparently spent all its Liberalism and acquired very undesirable characteristics instead." The Guardian refrains from extolling Whitney, but adds; "The Conservative victory will do the Liberals good, enabling them to shake off the parasitic element which now embarrass them. It will be a good thing also for the Dominion as a whole, for power is now so overwhelmingly in the hands of nominal Liberals that the situation is not healthy politic. Whitney's victory will also be a useful advertisement to all parties that, beyond a certain point, unscrupulous methods and low ideals in politics will not even pay.

ATHLETIC WORLD

BY OUR SPORTING EDITOR

The juniors are billed to play Belleville juniors to-night. This ought to be a keenly contested game as the locals held their opponents down to a score of 1 to 0, on Belleville ice

"Now I Know the Joy of Health."

I am Brimming Over with Vitality —Appetite is Good—I Sleep Well—I Feel Happy.

FERROZONE

Made Me Feel Like New

One of the earliest settlers in the town of Turnbull, Man., is Mr. John W. McNichol. Everybody knows him; knows how poor his health was for years.

Thanks to Ferrozone, Mr. McNichol is a hearty, strong man today. Here is his statement:

"Last spring I was terribly run down.

"I was so completely fagged out I couldn't do any hard work.

"In the morning I was tired—my limbs ached all over.

"Appetite?—I simply didn't have any.

"Nerves?—Yes, nervous and unhappy too.

"I braced up at once after taking Ferrozone. It put new life and vitality into my body. My nerves are strong. I eat heartily. I sleep well. Now I know the joy of health.

JOHN W. McNICHOL."

Won't you take Ferrozone too? It's really a marvellous tonic, some people say there is almost witchery in the way it builds you up. It's concentrated nourishment — that's what Ferrozone is—just one chocolate coated tablet to take three times a day. No other medicine in the world restores so quickly. Price 50c. per box, or six for $2.50, at all dealers, or by mail, from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing materials, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $4 per year, strictly in advance.

UNION LABELLED

PETERBOROUGH, JANUARY 30 1905

MR. WHITNEY'S OPPORTUNITY

Mr. Whitney has been called by the people of Ontario to perform a task which will demand the exercise of a really high order of statesmanship, says the Ottawa Journal. The people have taken him at his word and there is no reason to believe that he will be lacking in fidelity to his trust.

Few men in Canadian public affairs have been given a freer hand. The polling shows that there stand behind him not only the entire force of the Conservative party of the province, but the added strength of thousands of voters who have hitherto borne allegiance to the Liberal party. For all practical purposes, his election is as good as unanimous. He therefore need have no fear. He may apply himself at once to the reforms which he has promised to institute.

He may cleanse the provincial civil service of its corrupt or incapable elements. And having set the administration of the affairs of the province on a clean basis, he may proceed to the development of the material resources of the province; the revision of the laws affecting the rights and privileges of the municipalities, the restriction of the powers of great corporations, so far as they menace the rights of the people at large; the improvement of the educational system of the province; the institution of reforms in the methods of practice in the courts; the strengthening of the provisions for the enforcement of the liquor license laws; the amendment of the election law; the institution of an entirely secret ballot and the general husbanding and encouragement of the material, mental and moral energies of the people of Ontario.

This is Mr. Whitney's task. He is called to it by a remarkable expression of popular confidence, in which Conservatives, Liberals, voters of all shades of political opinion have joined. In the cause of clean government and mainly on that issue he has been honored as few have been in Canadian politics. He is armed by a majority in the Legislature which will enable him to enforce his will, and it is unconceivable that his administration should not render service of inestimable value to the people of Ontario.

THE WAR SITUATION

Two important developments were reported last night from the Manchurian armies, but it is still impossible to assign even a relative value to either. Kuropatkin has attacked in force the Japanese entrenchments in the Hun river, this being either the commencement of a wide flanking movement on the Japanese left or the most elaborate feint which has been made since the about face at Mukden. Nogi and his battle-scarred veterans are expected to be at Oyama's disposal by the end of the month and activity will obviously be easier before than after their arrival. The other development is, however, by far the more important. There is good reason for believing that Kuropatkin has reported to the imperial council that wide-spread disaffection exists in his European regiments and that it is difficult, if not dangerous, to make them bear their share of campaigning. Russia's European regiments are her picked troops, and they alone have so far distinguished themselves in the various engagements. If Father Gopon's teachings have spread to their ranks, Russia's offensive warfare is indeed in a perilous state.

EDITORIAL COMMENT.

Some meddlesome war correspondent will be pointing out that General Stoessel Ross should never have surrendered while he had in stock ten cases of surplus and three barrels of Old War Horse.

• • • •

Now would certainly be a fine time for the Russians to be requested by the civilized world to intervene on behalf of the downtrodden and put a stop to the massacre of Christians in Armenia.

• • • •

Are they trying at St. Petersburg to have the place appear nice and homelike to Stoessel when he comes?

• • • •

Anyway, good Deacon Ross will find it less exciting work reading the papers for a while.

• • • •

That Ontario "machine" is not guaranteed to work in a snowstorm.

• • • •

Now is the time when Whitney's troubles begin to begin.

A SPLENDID MAGAZINE

The Engineering Magazine for February contains two very important articles on the Panama Canal. The first, by General Abbot, shows very clearly that the cry for a sea-level waterway is based on a widely mistaken sentiment and a serious misunderstanding of facts—that it is, indeed, but a revival of de Lesseps' original plan, and would be immensely more expensive and slower to build, more difficult and uncertain to maintain, and more dangerous to navigate, than the type with locks and a summit level as proposed by the preceding commission. The second article is by Mr. C. E. Grunsky, a member of the present Commission, presented under the auspices of Admiral Walker, and is a direct, authoritative statement of the work so far accomplished, the general policy of the Commission, and the organization by which they propose to carry it out.

The principal illustrated features are a review of the Canadian Niagara power development, by Mr. C. B. Smith, who was himself in charge of construction of some of the largest work done; and a companion discussion of the present state of electric-supply from central stations in Great Britain, by Mr. G. L. Addenbrooke. These substantially cover the entire present and future prospects of the most important power-engineering undertakings in the modern world. Mr. William Maude gives a most interesting account of the re-opening of some old placers in Brasil, and of the attendant hydraulic work under strange conditions; Mr. P. R. Moses discusses the economy obtainable by the use of the small sizes of anthracite coal in the power plant; and Mr. R. Emerson describes a working plan for the care, oversight, and control of the small-tool equipment in the shop. The number carries the usual full Review and Index of the Engineering Press. — The Engineering Magazine, New York.

BACK TO WORK

The St. Petersburg Workmen Have Been Forced to Give In

St. Petersburg, Jan. 30.—Although the strikes in Reval, Libau, Kieff, Odessa and a few smaller places are extending, the situation is nowhere acute. An increasing number of workmen are out in Moscow, but there is no general disorder there. The whereabouts of Father Gopon is still a mystery, although it is believed the priest is in Moscow. The Russian capital presents almost a normal appearance, and the authorities are confident that the backbone of the strike has been broken. Some factories and mills already have resumed, and a general resumption of operation is expected to-day.

WILL DISCOURAGE THE OTHERS.

The authorities expect the failure of the strike here will have a discouraging effect upon the workmen in other cities to which the troubles have been spreading, and believe that there is no longer danger of a complete suspension of all the industrial concerns of Russia.

Minister of the Interior Prince Sviatopolk-Mirsky has promised a delegation of editors who called upon him that he will investigate the arrest of several prominent writers who are now confined in the St. Peter and St. Paul fortress, and secure their release as soon as possible.

ALL QUIET AT MOSCOW.

Moscow, Jan. 30.—The day closes with complete quiet, the strikers generally remaining indoors. The Tverskal and other principal thoroughfares have resumed their normal appearance. Several mills are reported to have offered an increase of wages to their employees.

The Associated Press correspondent visited the industrial district to-day and found that no factories were in operation in the whole region south of the river, with the exception of one large establishment, which was amply guarded in order to prevent possible intimidation of workmen, but there was no attempt at such intimidation.

Liverpool, Jan. 30.—At a conference to-day of representatives of labor organizations of the United Kingdom having a total membership of 900,000, resolutions of sympathy with the St. Petersburg strikers were adopted. The conference also inaugurated a relief fund for the benefit of the Russian strikers. Resolutions were also adopted expressing sympathy with the German coal miners.

HAS FORGED A REVOLUTION.

London, Jan. 30.—The more trustworthy newspapers here now recognize that for the time being the St. Petersburg revolt has failed. The Daily Telegraph's despatch says: — "Order under Cossacks reigns in St. Petersburg. The rebellious workmen have been driven back to their posts, hungry and heartless, and both sides are now removing the traces of their recent encounter. Summing up the results, one may say that out of a procession of peaceful workmen the Government has forged a revolution which threatens to be all the more horrible that its manifestation is being suppressed."

A news agency's despatch states that fighting at Riga resulted in 22 being killed, including Assistant Police Commissary Bileff, and that 50 were wounded.

The St. Petersburg correspondent of the Daily Mail telegraphs—"Except that Cossacks still patrol the streets, St. Petersburg to-day is in its normal condition. The political cyclone has shifted to the provinces. Many of the men employed in the smaller factories are returning to work.

Your head is all right, so is your heart

It's your liver that is not all right. And your sick-headaches, biliousness, dizzy spells, indigestion, constipation prove it. Ayer's Pills are regular liver pills. They make wrong livers right. Sugar-coated, all vegetable. Sold for 60 years. J. C. Ayer Co., Lowell, Mass.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

1] At least six months' residence upon and cultivation of the land in each year during the term of three years.

2] If the father (or mother, if the father is deceased), or any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same town, township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses 2, 3 or 4 must cultivate 30 acres of his homestead, or substitute 30 head of stock, with buildings for their accommodation, and have besides 30 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Land Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

INCORPORATED

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and, we believe, exceedingly profitable investment. Every dollar of stock is guaranteed by twenty year, full paid, gold bond, delivered to purchaser of stock, from an investment Company that has no interest whatever in the company, but who are disposing of the debentured bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the State Treasurer under which they received their charter, thereby doubly securing the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvellously rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Simmer and Jack Mining Co:, Limited, Elandsfountain, South Africa:—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world.

"With the present development of the Monument Mine, I estimate that 100 tons per day can be extracted, which will mill from $15.00 to $20.00 per ton. The total cost of mining the ore, delivering and milling, I place at about $4.00 per ton. With increased milling capacity, it is safe to say that the mine can furnish 100 tons of $15.00 ore, which would yield a clear profit of $11.00 per ton, or $1,100 00 per day (equal to $400,000 00 per annum). Estimated total value of ore in sight, $3,500,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Dr. Brown writes as follows:—

"In regards to the amount of ore available at the mines at Sinaiser, I saw on the dumps several thousand tons, probably 5000 tons would be an under-estimate.

"As to the size of the ore body itself, from what I saw of the geological strike ore, I think that there is every indication that it will be found to extend underground as far as the ore-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish full information to investors.

148 Shelby Street, - DETROIT, MICH.

A SPLENDID PROPOSITION

The Salido Gold and Copper Company

Incorporated under the laws of Arizona, with a capital of $3,oc ooo forever on-assessable divided into shares of $1 each, par value. All investments insured Granite Securities Company.

The "SALIDO GOLD-COPPER COMPANY" enterprise offers attractions to the investors of the country, that without thorough investigation, would scarcely seem probable. If only a fraction is realized of what any prudent business man in his own affairs would regard as absolutely certain, the enterprise must prove abundantly successful and exceedingly profitable.

SALE OF STOCK

The company will prosecute the work of development with all the diligence that be cash in the treasury will permit and circumstances warrant, and to this end a small amount of the treasury stock is now placed upon the market, in blocks of not less than One Hundred Shares. The par value of the stock is One Dollar per share, fully paid and forever non-assessable.

The company reserves the right to advance the price of stock without notice.

REMEMBER

First—That all payments for treasury stock go into the treasury for development work and not into the pockets of the promoters.

Second—There are no salaried officers.

Third—The incorporators have put their own good money into this enterprise and being business men, intend to do business along business lines.

Fourth—That this company is honest.

Fifth—If you are thinking of investing in mining stocks this is worthy of your careful investigation.

OTHER PROPERTIES

This Company owns four other Gold and Copper Mines, which title is now in process in the laws of Mexico. As soon as title is perfected, we shall commence to develop them as we certainly expect something very great from these properties. Our assays: ahem have been of the very best, showing gold and copper from $6.00 to $122. 30 per ton.

I have secured a small block of this stock, which I offer at the following prices: Unguaranteed 40 cents per share, guaranteed 80 cents per share. These prices will only prevail for a short time, as the number of shares for sale at this price is limited. The Shares will then be advanced to 40 cents for the unguaranteed and 80 cents for the guaranteed. I can unhesitatingly recommend this investment to the Canadian public.

W. K. HALL,

FISCAL AGENT, -- -- PETERBOROUGH

Agents wanted in outlying districts, including Toronto.

The California Buckeye Mine

This mine consists of 15 acres of good zinc land, well prospected by drill holes showing forty feet of good pay dirt at a depth of 154 feet.

On the property are hoisting engine, shaft house, ore buckets, Worthington steam pump, air drill, cars and pipes. Over $15,000 have been expended to date, and the proposition itself is a good one - so much so that we can personally guarantee an immediate dividend of 8 per cent. this year and 12 per cent. after 1905, with an additional quarterly dividend.

Capital Stock $250,000

Shares, par value $1.00 each Fully paid up and non-assessable. No Preferred Stock. No bonded indebtedness

The shares are selling at 20 cents each, with a prospect of the price being raised.

The Joplin Daily Globe says that over $10,000,000 worth of zinc and lead were mined in 1904, up to 1st Dec., in the Joplin District. In the California Buckeye Zinc Mine, located in the centre of the Joplin District, it has been demonstrated that the ore body has an average thickness of 42 feet and the rens are 50 feet wide, about 170 feet from the surface.

The rough dirt for the first three months of operation produced zinc ore to the amount of $12.95 per cent., while the average for the district is less than 5 per cent., but for the purpose of being on the safe side, we calculate on only 8 per cent. ore to the ton of dirt, and it shows a profit each day with two shifts of men, of $566.20.

We stand ready to prove every statement made, and if enough stock is subscribed for in this locality a directorship of the company is at the disposal of the subscribers.

Any further information and proofs of earning capacity will be cheerfully supplied.

From Saturday's Issue

THE NORTH SEA INQUIRY AT PARIS

The Evidence So Far Not Favourable to the Russians

NO JAPS IN THE VICINITY

Vice-Admiral of the Trawling Fleet Gave Same Evidence in Hull

Paris, January 28.—At the session of the International Commission to enquire into the North Sea incident, yesterday Capt. Wood, of the steamer Zero, plying between Hull and Copenhagen, said that previous to the occurrence of Oct. 2, he saw a strange steamer during the afternoon. She appeared to belong to a trans-Atlantic line, and had two masts and one funnel. It was a type of ship not frequently seen in those waters.

Rear-Admiral Beaumont, Great Britain, appeared to be specially interested in this statement, requiring the witness to repeat it.

Geo. Beecking, manager of the trawlers company, presented a miniature model of a trawler. The court examined it minutely and also the signal lamps and flags used by trawlers.

Mr. Beecking lengthily explained the fishing process Admiral Fournier France, mildly remonstrating against extraneous evidence.

Council for Great Britain asked:

"On the night in question had any of your boats embarked torpedoes or other engines of warfare?"

Answer—"Not at all."

Question—"Were any Japanese on board?"

Answer—"I never heard them spoken of and never heard a reference to any Japanese warships being in the neighborhood."

Counsel for Russia cross-examined the witness for the purpose of bringing out, if possible, the resemblance of a trawler to a torpedo boat.

Question—"Is it possible to confound a torpedo boat with a trawler without sails?"

Answer—"No; that is impossible."

The witness added that the company at Hull received constant reports from the fleet. No report showed that any strange boat had joined the trawlers.

Wm. Shears, steward, and Thomas Carr, vice-admiral of the trawling fleet, gave testimony practically the same as that given before the Board of Trade investigation. The Russian counsel sought to show that there were discrepancies between their present and former evidence. Shears was positive that there were no Japanese aboard any of the trawlers, and Carr gave a vivid description of the approach of the Russian warships, the play of their search-lights and the cannonading which lasted 25 minutes. When he closed Admiral Fournier, French, complimented him on wearing a medal in recognition of his services in saving lives.

ADVERTISE IN THE TIMES.

MOSCOW CITIZENS FEAR BLOODSHED

Have Appealed to Czar to Proclaim State of Siege

Moscow, Jan. 28.—There is complete tranquility within the boundaries of this city, but the people are keeping indoors, owing to the official warning. The strike is spreading gradually, but thus far is confined to the smaller mills. The larger industrial concerns are being guarded in order to prevent the men employed there from being intimidated; but it is the belief that the strike will become general.

A squadron of Cossacks this evening dispersed about 3,000 workmen, who were growing obstreperous, across the Moskva. No fatalities are reported.

The merchants have sent an appeal to the Emperor to avoid bloodshed.

The citizens are alarmed at the prospect of an eruption of hundreds of thousands of workmen, and demand the proclamation of a state of siege. The Moscow garrison numbers about 20,000, but the authorities consider that this is sufficient for present needs, and evidently are determined to avoid bloodshed if possible. They declare they have the situation well in hand.

Capt. Grove, the British Consul, has called upon M. Roudneff, the assistant police master, who is acting in the absence of Chief Volkoff, and requested an explanation of the posted telegram from London alleging that the disturbances at the Russian dockyards and arsenals were due to Anglo-Japanese instigation, that both Great Britain and Japan are spending vast sums of money to prevent the Russian second Pacific squadron from reaching the far east, and adding that "all Russians who strike are therefore in connivance with the enemy."

M. Roudneff produced the original telegram in evidence of good faith. Capt. Grove stated that he would report the matter to the Embassy at St. Peterburg, as he considered that the posting of the alleged telegram imperiled the lives of subjects of Great Britain who are employed in factories here. M. Roudneff assurred him that there was absolutely no cause for apprehension, but assumed the responsibility for the publication, and offered Capt. Grove satisfaction in a duel.

Gen. Trepoff's appointment to the Governor-Generalship of St. Petersburg was a complete surprise here. It is rumored here that Minister of the Interior Sviatopolk-Miraky may be appointed Governor-General of Moscow.

The proclamation, which, it is announced, was issued by the Emperor's order in its preamble recounts the origin of the recent events, and declares that evil-disposed persons used the workmen as their tools, leading them astray by false and impossible promises. It says:—

"The result of this criminal agitation has been breaches of the peace, involving the inevitable intervention of armed forces. These evil wishers have not been restrained even by the difficulties in which the Fatherland is involved. In a time of trying war, while the workmen, their blind tools, have disregarded the fact that demands are being made in their name which had nothing in common with their needs, besides forgetting that the Government always has shown and ever shows itself considerate of their needs, and is now ready to listen attentively to their just desire and satisfy them wherever possible.

"To this end the Government requires, above all, the restoration of order and the return of workmen to work, because in times of disturbance the Government's well-intentioned efforts for satisfaction of the workmen's demands, however just, is out of the question."

AN OPEN LETTER FROM MR. W. J. GAGE.

TORONTO, Can., Dec. 1, 1904.

DEAR FRIEND,

We again come to you with our story of trouble, but a story of surprising and encouraging results.

No apology is necessary for the great work of the National Sanitarium Association, carried on at the Muskoka Cottage Sanatorium and Free Hospital for Consumptives, is now well known.

The 1,500 patients cared for in these two Homes plead for your help.

The large number of lives saved, of those who a few years ago were supposed to be "under sentence of death," gives a right to your sympathy.

In helping to rescue a number great enough to constitute a large prosperous village, the giving back to home and friends a regiment of workers, surely will arouse interest in this work of mercy.

Each patient cared for in our Consumptive Homes, removes a source of danger, so that the life of every citizen in Canada is more secure.

The marvellous decrease of 40 per cent. in three years in the death-rate in Ontario from consumption proves that the fight against this dread disease is no losing one.

The **Muskoka Free Hospital for Consumptives**, for which this appeal is made, without any endowment keeps an open door to all who are poor and sick, as long as a vacant bed remains.

Nearly 400 patients have been cared for in this Hospital since it was opened less than three years ago. This has only been possible because of the continuous stream of gifts that have come to us from every part of Canada.

Remember, too, these were patients that other hospitals as a rule refuse.

Almost every trade and profession has sent its representative, and of every age—from the young schoolboy of 12 to the widowed mother of 60.

$28,000 was received last year by the Trustees of the Free Hospital for Consumptives through contributions and bequests.

$50,000 should be given this year if the Board is to provide for the increased accommodation and maintenance of those pleading for admission.

Where will your money do so much good in bringing health to the sick and protecting the lives of those in your home?

Why should consumption not be stamped out if the needful money and help be forthcoming?

The official Report of the Secretary of the Provincial Board of Health tells a **surprising story**—a story of a winning fight, showing that from 1897 up to 1900 there was a **steady increase** in the death-rate from Tuberculosis.

From 1900 there has been a **large decrease each year**, reducing the death-rate from 3,484 to 2,072 in three years, or **over 40 per cent.** This is all the more remarkable in view of the increase in population.

You have the joy of knowing that your dollar has helped in this merciful work.

The pitiful part of it all is in knowing how many more lives could have been saved if the needful money had been forthcoming to provide additional beds.

Will you not join in this great life-saving work?

Your dollar will bring gladness.

Fifty dollars will keep a sick one for two months; may save a life. Three hundred dollars will endow a bed for a year.

Yours sincerely

W. J. Gage

A SPLENDID PROPOSITION

Rare Chance to Secure a Paying Investment

THE GOLD COIN MINING COMPANY

has placed a small block of their stock at the disposal of Canadian investors. This stock is sure to rapidly advance in price. The Company is now arranging to instal the power plant and a mill and cyanide plant for the reduction of their ore to a bullion on the property. They have arranged with a Trust Company having assets of $1,500,000 to put up a bond guaranteeing investors the repayment of the full amount invested. This makes investors absolutely safe By no possibility can they lose a dollar

THE GOLD COIN MINING COMPANY was organized November 21, 1902. under the laws of the State of Idaho. The capitalization is one million shares of the par value of one dollar each, fully paid and non assessable; of the 1,000,000 shares, 400,000 have been set aside as treasury stock

THE BOISE BASIN came into prominence shortly after Grimes and his party of prospectors entered the Basin country in 1862; their entrance was into the northern portion, and one discovery of rich placer ground followed another until the news of the rich finds reached the outside world, when a veritable stampede for Boise Basin commenced, towns sprang up and grew together in an incredibly short time; the rush of people to Idaho City made it a place of 20,000 people in 1867, having a business street over a mile long lined with two-story buildings streets and sidewalks filled with people day and night, business and money on every hand and the city bearing the proud distinction of being the capital of the territory of Idaho. Wages ran from $6 to $10 a day and not infrequently forty and fifty men worked on a single placer claim; the clean-up for a day's work in many instances ran close to $5,000; large fortunes were made in a few days by washing the golden sands in a pan, so eager was the quest for the shining metal that the streets of Idaho City were dug up and washed and re-washed, and the soil removed from under the houses and places of business. So extensive was the search for the hidden treasure that not only all of the low ground was worked but the foot of the mountains surrounding the city have been washed away, filling up the lower portions of the basin and extending into the town, where one of the buildings has been buried under the tailings from the numerous placer workings.

LOCATION—The property of the Gold Coin Mining Company is situated in the Gambrinus Mining District, Boise County, Idaho, on the range of mountains between Moore Creek and Elk Creek, which forms a part of the eastern boundary of the famous Boise Basin and into which these mountains are drained The property is located ten miles northeast of Idaho City, from which place there are good wagon roads either to the workings on top of the mountain or to the place of the proposed tunnels in the gulch which crosses the Tunnelsite claim.

THE CLAIMS—The Company owns a group of four contiguous lode mining claims and the Gold Coin Millsite: the names of the lode claims are the Tunnelsite, Blue Bell, Pennsylvania and Homestake, each being a full claim 600 feet wide by 1,500 feet long, excepting the Tunnelsite claim, which is 450 feet wide at the west end and 1,055 feet long: it was necessary to stake the claim in this form on account of joining the Washington property on the south and the Sub Rosa property on the west, these properties being prior locations to the Tunnelsite claim. The four lode claims aggregate nearly 80 acres of rich mineral land.

Further particulars may be had on application to WM. SAILSBURY, Fiscal Agent of the Company Peterborough, Ont., or to

S. E. PHELPS, Secretary,
311 SCHOFIELD BUILDING, CLEVELAND, OHIO.

Catarrh Leads to Consumption

The Experience of a Lady in Sydney Who was Cured of Consumption by Inhaling Catarrhozone — This Case Should Warn Others.

"The beginning of my trouble was a cold, just a single cold," writes Mrs. A. V. Thorburn, of Sydney. "I neglected this cold and then I got catarrh. When it became troublesome I took some medicine but it didn't help me. I began to cough a great deal and then consulted a doctor. I was horrified to find I must have had tubercular irritation in my lungs for a year or more. A friend strongly urged me to use Catarrhozone. I conferred with my doctor and he said that lots of fresh air and the frequent use of Catarrhozone would be the proper treatment. I used to cough for at least half an hour in the morning but after using Catarrhozone a few days my cough was much easier. The irritation gradually left my throat and I commenced to get better. I kept up the Catarrhozone treatment and inhaled the medicated air five minutes every hour. I believe this was the means of saving my disease, for I got quite well again in a few months. I have since advised other sufferers from catarrh and lung trouble to use Catarrhozone, and in each case good results were obtained. I attribute my recovery entirely to Catarrhozone, which I can honestly recommend in the strongest way."

The foregoing experience should convince everybody of the evil of allowing Catarrh to develop. To neglect catarrh is ever worse. Carry a Catarrhozone inhaler in your pocket and use it occasionally. It prevents colds, permanently cures every type of catarrh, and is known to be the only remedy that actually kills the germs of consumption.

Catarrhozone is used by 11 Intelligent physicians and is endorsed by thousands of doctors, because it can be relied upon to absolutely cure catarrh, bronchitis, throat and lung trouble. Catarrhozone is simplest, surest and best remedy. Two months' treatment guaranteed to cure. Price $1.00, trial size 25c., at druggists or N. C. Polson & Co., Kingston, Ont., U.S.A., Ayer Hingston, Ont. Refuse a substitute for Catarrhozone and insist on getting it when you ask for Catarrhozone.

WM. PRINGLE

Toronto Savings and Loan Company

The Twentieth Annual Meeting

The Twentieth Annual General Meeting of the Shareholders of the Toronto Savings and Loan Company was held at the Head Office of the Company, number 437 George street, Peterborough, on Friday, the 27th day of January, 1905, at two o'clock, p.m.

The President, Hon. Geo. A Cox, having taken the chair, the Manager, Mr. W. G. Morrow, was requested to act as Secretary to the meeting.

After reading the notice convening the meeting, the Secretary read the Twentieth Annual Report and the accompanying Financial Statement.

DIRECTORS' REPORT

The Directors submit herewith their Twentieth Annual Report, showing the result of the business for the past year, accompanied by the balance sheet, to the 31st of December, 1904.

The gross earnings for the year amounted to $152,600.12, and after the payment of interest on deposits and debentures, expenses in connection with money borrowed or loaned, and all expenses of management, there remained a net profit of $93,487.89. To this amount has been added $21,140.80, the balance carried forward from last year, which makes a total sum for distribution of $114,628.69. This amount has been disposed of in the following manner:

(1) By payment of four quarterly dividends of 1 1-2 per cent. each, equal to 6 per cent. for the year, and amounting to..... $60,000.00

(2) By addition to Reserve Fund..... 30,000.00

(3) By amount carried forward to Profit and Loss Account. 24,628 69

The above addition to the Reserve Fund increases that account to $510,000.00.

All payments maturing during the year on the Company's investments have been most satisfactorily met, and the rentals from the property owned by the Company have also been promptly paid.

The books, accounts and securities of the Company have been carefully examined by the Auditors, and their report is appended to the Financial Statement.

At the close of the year just passed, we were called upon to mourn the loss of one of the Vice-Presidents of the Company, in the person of Mr. Aaron A. Cox, who, up to the time of his decease, took an active part in its affairs, having attended a meeting of the Directors the day previous to his death.

Messrs. Finlayson, Auld & Mackechnie still continue to act as the Company's Representatives in Great Britain.

The Officers and Staff of the Company have performed their respective duties in a highly creditable manner.

W. G. MORROW, Managing-Director.

GEO. A. COX, President.

On motion of the President, Honorable Geo. A. Cox, seconded by the Vice-President, Mr. Richard Hall, the above report was unanimously adopted.

The usual resolutions were passed, after which the following gentlemen were elected Directors for the ensuing year:—President, Hon. Geo. A. Cox; Vice-President, Richard Hall, Esq.; Directors, Peter Hamilton, H. J. LeFevre, H. C. Cox, A. L. Davis, D. W. Dumble, James Stevenson and W. G. Morrow.

FREE DUTCH COCOA

A demonstration of Bensdorp's Royal Dutch Cocoa at E. F. MASON & Co.'s north store 429 George-st, on Friday and Saturday this week Everybody welcome.

MR. ANDERSON'S MAJORITY

He is Elected by a Majority of Over One Hundred

On Saturday a persistent rumor was circulated to the effect that Mr. Anderson's majority had been reduced to 12. It is hardly necessary to state that this is incorrect. Mr. Anderson has 102 votes to his credit, with two places in Chandos to hear from. It is unlikely that these two polling booths will reduce the majority more than 15 or 20.

NEW SUMMER PARK

South End Park with Sport 1 Attraction to be Opened Up

We understand that a park is to be opened up at the south end on the bank of the river, where good, wholesome theatrical and other attractions will be supplied during the summer months. A lot has been purchased on which a suitable building will be erected as soon as the spring opens. Prof. J. H. Ryan, who is staying at the City Hotel, is the promoter. He appears to be the right man in the right place. He has arranged with the Street Railway Company, which will enable him to give the people a good as well as an inexpensive entertainment.

A CHARITY BALL

Will Take Place in Oriental Hotel on Feb. 10th

Arrangements have been completed for a charity ball, which is to take place in the Oriental Hotel on the evening of Feb. 10th.

The following are the patronesses: Mesdames H. D. Burnett, P. Campbell, J. Crane, R. S. Davidson, R. M. Dennistoun, E. Hardley-Wilmot, L. M. Hayes, W. H. Hill, R. R. Hall, J. H. Larmouth, D. J. Lundy, C. B. McAllister, J. R. Stratton, R. B. Rogers, A. H. Stratton.

Mr. A. A. Hollingshead is Honorary Secretary of the committee of gentlemen.

The Gliosna-Marsicano orchestra of four pieces from Toronto, has been engaged to provide music for the event, which promises to be a splendid success.

Route Boys Wanted

A couple of route boys wanted at The Times. We pay $1.00 per week per route, for an hour's work before school in the morning. Apply at The Times Bookstore.

THE STAFF OF LIFE

This Great Family Journal's Great Anxiety for its Contemporaries

Our esteemed local contemporaries devoted considerable space in their Saturday issues to let the public know that the price of beer has been advanced, while the price of bread which also took a sharp upward turn a short time ago, was passed over in comparative silence. This gladdens hopes that it may not be necessary to apply the gold cure to our contemporaries, but while danger lurkes in sparkling liquor, it will do no harm to sound a word of timely warning. We trust the brewers will not see fit to greatly increase the cost of what apparently is regarded by our two contemporaries as more important than the staff of life. The Examiner, whose old-time temperance principles seem to have been forgotten in this age of politics and hot Scotch, says:

"Thus do the necessities of life recede from popular access by going up beyond the reach of short purses. First bread, then eggs, then sugar, then beer. It will be tobacco next. We can do without bread by taking to "Quaker Oats." Sugar is not an absolute necessity. To get eggs we can live in Lindsay—eggs seem to be cheap there, but to think of necessities like beer and tobacco getting out of reach is sad indeed."

LITTLE LOCAL LINES

Readers Here and There by Times Reporters on Th it Round

—The average man enjoys shovelling snow in summer and running a lawn mower in winter.

—The Girl's Guild of All Saints' Church intend holding a pie social on St. Valentine's Day, Feb. 14.

—The proposal to sell unpounded dogs is bound to meet with a "howl" from an anxious owner of lost canines.

—Bobcaygeon Independent: What Peterborough knows what is good for itself. Its bread falls with the butter side up, every time.

—At the meeting of the Victoria County Council Mr. A. E. Stabback of Woodville, was elected as Warden for Victoria county.

—Many of our readers are probably not aware that there are fifty three Sundays in the present year. It begins and ends on Sunday.

—A new post office is to be established in East Emily, about five miles from Omemee. It will be a great convenience to the patrons of Emily cheese factory.

—Rice Lake sportsmen are organizing to fight a syndicate which is endeavoring to secure exclusive fishing and shooting rights in certain parts of the lake.

—The burning of the Royal Hotel in Bobcaygeon is still a mystery, but Mr. G. Hunter has decided to build again at once, so that he may be able to get part of the tourist trade next summer.

—The cradle roll, kindergarten and junior departments of St. Paul's church Sunday school will be entertained to tea from 5 to 7 o'clock this afternoon, and afterwards a program will be rendered. To-morrow the intermediate and senior classes will be entertained.

—Lindsay Post: A number of the "sharp" ones around town have learned a lesson not to go fooling with Senator McHugh as to the result of a vote in Ops. The Senator conceited fifteen of a majority to Mr. Fox—he got thirteen. Some of Mr. Fox's enthusiastic friends wagered he would have all the way from twenty-five to one hundred, and to-day they are sorry. Ops being, the Senator's old home, he usually takes a deep interest in the vote there, and can figure the result out almost to a fraction.

A SPLENDID MAGAZINE

The Engineering Magazine for February contains two very important articles on the Panama Canal. The first, by General Abbot, shows very clearly that the cry for a sea-level waterway is based on a widely mistaken sentiment and a serious misunderstanding of facts—that it is, indeed, but a revival of de Lesseps' original plan, and would be immensely more expensive and slower to build, more difficult and uncertain to maintain, and more dangerous to navigate, than the type with locks and a summit level as proposed by the preceding commission. The second article is by Mr. C. E. Grunsky, a member of the present Commission, presented under the auspices of Admiral Walker, and is a direct, authoritative statement of the work so far accomplished, the general policy of the Commission, and the organization by which they propose to carry it out.

The principal illustrated features are a review of the Canadian Niagara power development, by Mr. C. B. Smith, who was himself in charge of construction of some of the largest work done; and a companion discussion of the present state of electric-supply from central stations in Great Britain, by Mr. G. L. Addenbrooke. These substantially cover the entire present and future prospects of the most important power-engineering undertakings in the modern world. Mr. William Maude gives a most interesting account of the re-opening of some old placers in Brasil, and of the attendant hydraulic work under strange conditions; Mr. P. R. Moses discusses the economy obtainable by the use of the small sizes of anthracite coal in the power plant; and Mr. R. Emerson describes a working plan for the care, overnight, and control of the small-tool equipment in the shop. The number carries the usual full Review and Index of the Engineering Press. — The Engineering Magazine, New York.

REMOVAL

C. Wilhelmy has removed his place of business to No. 453 George Street, next door to the Peterborough Light and Power Company.

DEAFNESS CANNOT BE CURED

with local applications, as they cannot reach to seat of disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials, free.

Are Your Lungs Weak?

Dr. Pierce's Golden Medical Discovery CURES Weak Lungs.

$3,000 FORFEIT

Will be paid by the World's Dispensary Medical Association, Proprietors, Buffalo, N. Y., if they cannot show the original signatures of the individual volunteering the testimonial below, and also of the writers of every testimonial among the thousands which they are constantly publishing, thus proving their genuineness.

"When I commenced taking your medicines, eighteen months ago, my health was completely broken down," writes Mrs. Cora L. Sanderland, of Chaseyville, Calvert Co., Md. "At times I could not even walk across the room without pains in my chest. *The doctor who attended my sand I had lung trouble, and that I would never be well again.* At last I concluded to try Dr. Pierce's medicines. I bought a bottle of 'Golden Medical Discovery,' took it, and soon commenced to feel a little better, then you directed me to take both the 'Golden Medical Discovery' and the 'Favorite Prescription,' which I did. Altogether I have taken eighteen bottles of 'Golden Medical Discovery,' twelve of the 'Favorite Prescription,' and five vials of 'Pellets.' I am now almost entirely well, and do all my work without any pain whatever, and can run with more ease than I could formerly walk."

Dr. Pierce's Pleasant Pellets cleanse and regulate the bowels.

COMPLICATIONS BETWEEN GREAT BRITAIN AND RUSSIA ARE FEARED--BRITAIN SENDS WARNING.

Bloody Grand Duke Valdimir Justifies the Massacres in St. Petersburg and Says Czar Approves --Admits Gopon's Escape.

Special to The Times

New York, Jan 31.—A correspondent of the American in St. Petersburg cables under date of Jan. 30.

His Imperial Highness the Grand Duke Vladimir, the uncle of the Czar, the military dictator of St. Petersburg, and speaking as the personal representative of the Emperor, received the correspondent at the Winter Palace this evening at five o'clock. The Grand Duke was exceedingly cordial and received him in his private library. It is decorated with priceless bronzes and pictures, and is situated on the ground floor of the palace, looking out on the snowy Dvortsoval square, the scene of last Sunday's sanguinary conflict.

The Grand Duke is a handsome, soldierly man, florid of face, and high of forehead. His manner is courteously cordial, but he spoke with great vehemence and dramatic emphasis when discussing the recent crisis. He speaks French and English fluently, but prefered that the correspondent conversed with him in Russian. He said;

"In no city of any country of the world can street revolutions be permitted by the authorities. The foreign newspapers state that I am responsible for last Sunday's events. I am not responsible. I acted only as commander of the St. Petersburg troops.

WILL DO IT AGAIN.

"The shooting by the troops was not planned by anybody. It was done under the ordinary laws of the Empire after the police had failed in their efforts to stop the procession. With extraordinary emphasis, he added;

"The military did their duty only, and they'll do it again if necessary. "It is a mistake to assert, as the foreign press does, that the mob had no warning. The regulation warning given the mob by three blasts of the bugles is in Russia equivalent to a reading of the Riot Act in America. The people of Russia are absolutely unfit for a constitution, and there will be none given. The Emperor is unshakably resolute on that point.

CZAR APPROVES.

"The Emperor has been much grieved by the recent bloodshed, but he recognizes and admits the necessity thereof, and has expressed his determination to resist all revolutionary demands.

"He is determined to grant all proper reforms, but they will come by his own will."

In order to solve the mystery of Father Gopon's whereabouts, I asked the Grand Duke if it was true that Gopon had been arrested or was in a hospital. The Grand Duke answered that he believed Father Gopon had fled abroad, making his escape through Finland. The Grand Duke described Gopon as a "fanatic and eloquent, but lacking capacity.

CALLS IT A LIE.

I asked the Grand Duke if it were true that some of his troops had refused to obey the order to fire on the people on Sunday.

His Imperial Highness banged his fist on the desk and almost shouted. "That is a lie."

I diplomatically asked the Grand Duke if it were true that Sunday's events had practically made him dictator. He replied; "I exercise no political influence. I act only as commander of the troops. The civil power still exists and will be strengthened."

I asked the Grand Duke for his views on any future revolutionary movement, but he declined to express any opinion, but commented approvingly on the fact that the strikers were fired on when rioting.

WILL QUELL REVOLT.

"This is not the proper time for reforms," said the Grand Duke, "and they will not be granted until all disorders has subsided," adding with emphasis;

"The revolt will be quelled by military power, and I approve of that measure."

The Grand Duke scoffed at the reports that the Emperor had left Tsarskoe-Selo.

"He has been there all the week. He was there last Sunday and will remain there. Everybody knows that his Majesty is never in St. Petersburg this month."

WON'T KILL HIM.

The Grand Duke laughlingly showed me a bundle of abusive letters he had received from England. I warned him that I had been informed that St. Petersburg workmen had determined to take his life. At this the Grand Duke said;

"They won't succeed; I'm too careful."

Concluding, the Grand Duke expressed his pride and fullest reliance in the army, saying;

"The soldiers will do their duty."

STRIKERS GO BACK.

St. Petersburg, Jan. 31.—Most of the factories and mills of St. Petersburg are in operation to-day, and the strike, to all intents and purposes, is ended A few large establishments have not yet full resumed operations owing to the official formalities necessary in re-registering their thousands of employes. Some of the workmen at the Putiloff works, where the strike originated, have asked for the celebration of a religious service by the Metropolitan of St. Petersburg before resuming work. "So as to remove the effect of the presence of the unfrocked priest and ex-communicated leader," Father Gopon.

SOME PROTEST.

Some Social Democrats are protesting against the arrests of Friday and Saturday, on the ground that the action taken was a violation of the implied promise contained in the proclamation of the authorities.

The Manufacturer's Association will meet this week to decide the question of paying the wages of the strikers for the time the latter were not at work, but as a number of the works have already paid their unskilled laborers, whose pay day was January 29, half or full time, the rest of the employers probably will decide to pay their workmen at least part of their wages for the time they were out on strike.

NEED PROTECTION.

Warsaw, Russia, Jan. 31. —The streets have been quieter since yesterday evening, but the strike continues in full swing. All places of business are closed.

A proclamation has been issued declaring that the condition of the city requires additional protective measures.

There will be differentiating between those who are forced out against their will and those who are precipitating the strike. The men, it is added, must return to work unconditionally.

MAKE 900 ARRESTS.

London, Jan. 31.—A despatch to the Daily Graphic from Sebastopol says; "In consequence of the gravity of the situation here, the Government has invested the naval and militia commanders with full power to repress disorders. Over 900 arrests have been made."

Prince Gurielly, an officer of the police guard, while driving past the iron works at Batoum, was killed by an unknown man. No arrests have been made.

—Bradburn's majority now stands at 1214, with one place to hear from. There will be no recount in West Peterborough.

THE NORTH SEA INCIDENT IS BEING FULLY EXPLAINED

Special to The Times

Paris, Jan. 31.—The International Commission, inquiring into the North Sea incident at its session to-day, heard two Swedish witnesses, Captain Johnson, and Mate Stromberg, of the cargo boat, Alderbaran. They both testified that a few hours preceding the firing on the British trawlers by the Russian squadron, their boat was attacked in the North Sea by a strange warship, which fired many shots at the Alderbaran, but did not do her serious damage. The stranger disappeared.

Counsel for Russia protested that this testimony was not directly connected with the North Sea incident, but Admiral Fournier, France, President of the Commission, ruled that the testimony was admissable.

Hugh O'Beirne, the British agent, said the strange vessel was the Russian transport Kamtchatka, which mistook the Swedish craft for a torpedo boat; Mr. O'Beirne further declared that the Kamtchatka thereafter sent a wireless message to Vice-Admiral Rokestvensky, notifying him that she had been attacked by a torpedo boat, and Rojestvensky thereupon ordered his squadron to be on the lookout for torpedo boats, which Mr. O'Beirne asserted, caused the North Sea incident.

A Stop Must be Put to the Deliberate Campaign of Inciting Hostility Towards England Among the Czar's People, and British Officials Must Be Respected--Looks Like Deliberate Scheme.

St. Petersburg, Jan. 31.—New complications between Great Britain and Russia are feared on account of the attack on the British Consul and Vice-Consul at Warsaw on Saturday night. Coming on the heels of the placards posted by Assistant Police Chief Roundneff at Moscow charging Great Britain with inciting the revolutions in Russia, the Warsaw incident is likely to arouse an outburst in Great Britain which may again strain relations between the two countries.

Beyond the fact of the attack at Warsaw, resulting in the wounding of the British Vice-Consul, who is now in a hospital, the British Embassy here has no details of the affair, but Sir Charles Hardinge, the British Ambassador, has already delivered a note to the Foreign Minister, Count Lamsdorff, asking for an immediate investigation and explanation, reserving any claims which may be hereafter made, and at the same time asking for the protection of British Consuls throughout the Empire.

By the first train he also despatched Major Napier, the British military attache, to Warsaw, to secure a full report of the circumstances.

Count Lamsdorff replied to Ambassador Hardinge's second note of the subject of the Moscow placards by saying that instructions had been sent to remove all traces of the placards from the streets. It is now learned, however, that similar notices had been posted at Libau and Reval, which led to a renewal of representations on this score. In this connection the appearance of the proclamation of the Holy Synod, instructing the orthodox priests to inform their parishioners that the strike and revolutionary movements were promoted by the external as well as internal enemies of Russia, with the object of embarrassing the military and naval plans, has created something of a flurry among foreigners here, especially the British, who believe them intended to incite hostility. No further action, however, has been taken by either Ambassador Harding or the other foreign representatives.

London, Jan. 31.—The Foreign Office has received a telegram from Consul-General Murray at Warsaw, reporting that himself and Vice-Consul Muculain were charged by Russian cavalrymen engaged in clearing the streets of Warsaw. It appears that Mr. Murray is partially deaf, and probably did not hear the approach of the troopers, and when he subsequently endeavored to make known his personality it was without avail. The Foreign Office has telegraphed to Ambassador Hardinge to make urgent prepresentations at St. Petersburg on the subject.

Terrible Slaughter of Men in the Last Big Battle--Japanese Admit Loss of 5,000 Men and the Russian's Loss was 10,000.

Tokio, Jan. 31.—The casualties during the fighting at Chenchiehpao and Heikoutai are estimated at five thousand on the side of the Japanese and 10,000 on the Russian side.

MISTCHENK WOUNDED.

St. Petersburg, Jan. 31.—A telegram from Huan Mountain states that Gen. Mistchenko has been wounded in the leg. Over 1,000 wounded men are at Mukden.

COMPLETELY FAILED.

General Kuroki's Headquarters, Jan. 29, via Fusan.—The Russian attempt to turn the Japanese left has resulted in a complete failure.

The Russians chose the worst weather of the season, depending upon their familiarity with a snowy country to aid them in their operations.

Their artillery attacks on the Japanese permanent line were, it is thought, a demonstration to prevent the withdrawal of forces for the purpose of reinforcing the Japanese left. All yesterday afternoon and into the night an artillery duel was waged across the Shakhe River. There was much heavy firing from positions where the entrenchments are close.

It has been quiet to-day except on the left. The weather is much milder.

A RUSSIAN SUCCESS?

St. Petersburg, Jan. 31.—Lieut.-Gen. Grippenburg, Commander of the Second Army, has telegraphed to Emperor Nicholas that the Russians have occupied Santatitse. He also reports that Generals Mistchenko and Kondratavitch are wounded.

FRUITS OF VICTORY.

St. Petersburg, Jan. 31.—The Novosti says Secretary Hay's note on the subject of China will be interpreted in different ways.

"We cannot say," the paper adds, "that it promises the belligerents agreeable prospects. If other Cabinets come to an agreement with Washington it may happen that neither Russia nor Japan will get the slightest advantage from the war. Other powers are preparing to set up claims in case peace is declared. Those powers have suddenly conceived a desire to preserve China's integrity and neutrality under any circumstances. Their solicitude comes a little late.

FIGHTING CEASES.

Tokio, Jan. 31.—Russian activity on the Shakhe River seemed to have ceased after the fights at Chenchiehpao and Heikoutai, where the Japanese were victorious. The object of the operations is not clearly understood here, but it is suggested that the Russians either intended to turn the Japanese left and move a heavy force down west of the Liao River, or were seeking to divert attention from some projected operation against the Japanese right.

It is reported that the weather is warmer since January 25, but it is still extremely cold, so that it is impossible to expose the troops at night.

The Tokio press expresses the opinion that General Kuropatkin either ordered the movement to divert attention from the domestic conditions in Russia, or that he had planned to make a fight before Field Marshal Oyama had been heavily reinforced.

Manchurian Army Headquarters, telegraphing yesterday, says;

"There has been no great change in the direction of the right and center armies since the night of Jan. 28, except constant collisions between reconnoitering parties. In the direction of the left army the army keeps up a slow but constant cannonade.

"The enemy's main body at Chenchiehpao and Heikoutai has retreated in the direction of Naiyupoo, which is two miles west of Chengtan and Subfangtai. At a point 10 miles north-west of Chengtan the enemy left many dead."

The details of the fighting at Chenchiehpao and Heikoutai have not yet been reported.

EUROPE IN STATE OF UNREST GREAT UPHEAVEL IMMINENT

Political and Social Conditions on the Continent are Ominous

Strikes Reign Almost Everywhere, With the Result That Industries are Being Paralized.

London, January 31.—This week closes with political and social conditions in Europe more disturbed than at any previous period since the Franco-Prussian war. Russia is battling with incipient revolution; Germany is involved in a coal strike that threatens to extend across the Belgian line and cause enormous industrial and economic loss. In France one ministry has just fallen, and an experiment is to be made with a new one to handle the vexed questions of church and state.

In both Russia and Germany these disturbances are partly industrial and partly political. In Russia the people are assailing disastrous labor conditions which they are convinced can never improve unless both autocracy and bureaucracy are abolished. Hence the Russian strike has become at once political, and has assumed the essential character of revolution, although the revolution thus far has not been marked by general carnage.

In Germany the strikers are casting about for political support. They recognize that the Social Democrat party is the only organization of political force that accords them any sympathy, therefore, the strike practically merges into socialism. It follows that in Russia and Germany alike, the autocratic theory and practice of the government are imperilled. The resulting agitation in political circles extends far beyond the confines of the empires immediately concerned.

In France the ministry has just fallen and some observers fear that in consequence new energy has been given to a combination of parties hostile or indifferent to the democratic republic.

There is a smoldering fire along the Italo-Austrian border; domestic politics in Austria-Hungary constitute a volcano that may break forth at any time, and the Balkan peninsula is threatened with an uprising along with a Turkish campaign of repression, which todays Spectator declares potends "a deplorable catastrophe."

Of course, all this storm may pass without great disaster, but it accounts for the fact that guardians of European peace and order are spending anxious days and nights at their posts.

RUSSIA'S TROUBLES

General strike in St. Petersburg.

Disaffection in the army.

Nihilistic activity at home and abroad.

Ruinous industrial depression.

Crushing effect of heavy taxes.

Growing insolence of the bureaucrats.

Riots in various towns festering to sedition.

Students in all the big cities ripe for revolt.

The war with Japan.

Gross corruption in army and navy.

Demand for representative government.

Oppression of the police system.

Shameful condition of the judiciary.

BLACK CLOUDS HANG OVER RUSSIAN SKIES

Revolutionary Spirit is Expected to Spread to all Parts of Empire

UNREST IN EVERY CLASS

Jews, Finns and Armenians are Ready to Add Faggots to Torch of Insurrection

London, January 31.— Underneath the excitement incident to the fierce rioting and bloodshed, the speculative feature of the Russian situation that is forcing itself on Europe is: To what extent will the revolutionary spirit in the present industrial uprising permeate and govern the masses in the smaller cities and rural Russia?

On this point is believed to hang the immediate future of the empire. With 50,000 troops in St. Petersburg tions that insure their lack of sympathy for the St. Petersburg masses—it is thought a mere industrial strike of any proportions can at least temporarily quelled. Every indication, however, points to deeper causes for the present trouble than dissatisfaction of workingmen with wages and industrial conditions.

GOVERNMENT SEES CAUSES.

Even the Government version, as recited in the Official Messenger, takes cognizance of the deeper causes in this language:

"The agitation of the workmen's association was, however, soon joined by the agitation of revolutionary circles. On the morning of Jan. 21 the workmen's association, led by Father Gopon, appeared with open revolutionary tendencies."

Experts in Russian affairs, therefore, are disposed to minimize the industrial causes proper and to attribute the ferocity and extent of the movement to political causes largely.

Everything possible will be done by the Russian Government to keep accurate knowledge of the horrors of Sunday and Monday from rural Russia. In this direction lies the chief hope of preventing a rapid spread of the uprising. Newspapers in St. Petersburg are tied up by the strike and other means of communication cut off. The revolutionists, on the other hand, will see to it that a correct version of the affairs be disseminated through circulars in spite of government edicts.

SPREAD OF STRIFE SEEMS SURE.

The effect of the general knowledge of the Czar's refusal to receive the petition of the workingmen, in all probability, will be to foment and crystallize the intense revolutionary spirit of the country at large. The Jews rejoice in any prospect of government overthrow. The Finns would prove ready allies of the government's enemies. The Armenians have been for some time on the verge of revolt. And the people at large, in station above the industrial and peasant classes, are galled under official oppression.

The mass of political combustibles is ready for the torch. If the force of the explosion of resentment in St. Petersburg proves sufficient to scatter the burning fagots throughout Russia, a general revolutionary conflagration without doubt will result.

Russia politically is divided into four classes—the nobility; the clergy; merchants; artisans and burghers, and the workingmen and peasants. Numerically the fourth class has given to the revolutionary cause its greatest strength. The workingmen in the cities find their political counterparts in the peasants of the country. One is as thoroughly saturated with the spirit of revolt as the other.

WORSE CONDITIONS IN CAPITAL.

Under the system of oligarchic oppression the screws of tyranny have cut deeply into the toilers of the city of St. Petersburg, where wages are meager and the proportionate cost of living high. Here also the facilities for organization were greatest. The capital city, was, therefore, the spot in which the smoldering volcano of resentment first broke through the confining crust of that oppressive system founded by Peter the Great — the bureaucracy.

In the composition of the St. Petersburg mob the fourth division of political Russia dominates. By representatives of official Russia the rebellionists are termed the "scum." The artisans, members of the different guilds and the [illegible] surrection against autocracy. Not that they do not sympathize, but because they have more at stake. The revolutionary spirit, in fact, stretches from the meanest workman to the court itself, to greater or less degree, and in this fact the functionists find their chief source of dread. With the lowest class in open rebellion, the middle class sympathetic and with able leadership likely to develop from the higher class, Russia's sky hangs heavy.

A PROGRESSIVE COMPANY

Annual Meeting of the North American Life Assurance Co

Elsewhere we publish the twenty-fourth annual statement of the North American Life Assurance Company, which is the best ever presented by that company. The report speaks for itself.

The new insurances procured amount to over $6,500,000, which largely exceeds that of any previous year.

The resources of the company now amount to $6,231,000, consisting of high class securities, the market value of stocks and bonds being considerably in excess of the amount at which they are taken in the statement.

A very satisfactory increase was made in cash income, which exceeded $1,500,000. During the year the payments to policyholders amounted to over $600,000, of which $300,000 was paid for dividends, matured endowments, etc.

The company has a net surplus over and above all obligations of over half a million dollars, which taken in relation to its liabilities shows a wide margin for the safety and future profits of the policyholders.

We congratulate Mr. L. Goldman, the managing director, and officers of the company on the result of the year's operations.

The company is represented in the Peterborough district by Mr. Geo. B. Stevenson, who reports a vastly increased business over previous year.

RUSSIA ORDERS MACHINE GUNS

Government Asks German Makers for 500 Pieces of Ordnance

Berlin, January 31.—The Russian government has ordered the Ludwig Loewe arms factory to supply as soon as possible 500 machine guns.

U. S. Cruiser for San Domingo

New Orleans, Jan. 30.—A Picayune Panama special says considerable excitement has been created on the isthmus by the receipt of orders by the converted cruiser Dixie to proceed at once to the Island of San Domingo, where it was reported fighting had broken out in the streets and become general. This cabled order reached the Dixie late yesterday evening, and at once a message was transferred to Empire, where Col. Wood had received similar orders. These orders were for Col. Wood to proceed at once to Colon with all his force, leaving only a small detachment to guard the Quartermaster's stores on the hill. Early to-day the orders were given to break camp. This command consists of five companies and numbers in all a few over [illegible] officers and men.

ATHLETIC WORLD

BY OUR SPORTING EDITOR

The Lindsay Post has the following to say about Friday night's game;

"Lindsay went down to Peterborough last evening and allowed the Porridge Factory boys to trim 'em up handsome. Probably the zero weather affected our boys, as the score at half time was 7 to zero, and at full time 11 to zero. Deserved it, too, by gum! And now Peterborough will be dreaming of Intermediate championship.

Peterborough's stronghold last evening was in having a cracker-jack of a goal keeper, in Ernie Wasson. He stopped shot after shot, some of which looked like impossible. Irving lifted about ten shots into the goal, but he was in the way of them all. Lindsay boys worked hard and made numerous jabs at the nets, but that was all, they didn't get in. Peterborough has a strong team which will prove a serious obstacle to every visiting team this winter. The victory is theirs because they played a better game. Cavanah and Crowley figuring frequently on the rush and shoot line.

For Lindsay, Taylor and Callaghan were the stars, playing a hard game. They rushed well and checked good. Koyl was not up to the standard, but will be a fast one. Parkins was in the game, but had a hard man to check. Our defence was good at relieving and made a number of good lifts. The trouble with the seniors is that when the puck goes toward their goal, our forwards don't get back fast enough to help the defence in clearing the goal.

The Lindsay players report the best of treatment at the hands of the Peterborough Club—as one player expressed himself, "We were used whiter" The oyster supper was greatly enjoyed and put the boys in good spirits. It is the general impression that the Peterborough players did not play their usual game here 3d January 9th, when the home boys won. However, if Peterborough wins this district we wish them success in their aspirations for the intermediate championship.

• • • •

Keene Badly Beaten.

Campbellford, Jan. 28.—In the Trent Valley League game played to-day, Campbellford defeated Keene by a score of 14 to 5. The score at half time was 7 to 2 in favor of Campbellford. The game was very rough throughout. Mr. Whitny, of Stirling, was referee. The result of the game leaves the T.A.S. and Campbellford tied for the championship of this district. Just when and where the final game will be played off, is not yet known, but the tie will probably be decided the latter end of this week on Lindsay or Port Hope ice.

Baby's Birth a Trying Time

Made Easy if the Mother Prepares Her System With a Bracing Treatment of

FERROZONE

A Womanly Tonic that Uplifts, Vitalizes, and Strengthens.

You immediately experience a real gain in power and strength by using Ferrozone, which is a true nerve and blood tonic. It effects permanent cures unparalleled in the history of medicine.

Ferrozone supplies the essentials of life that are exhausted by over-work, worry, indigestion or high living. It contains just what every run-down system lacks.

By instilling new strength into the blood, Ferrozone benefits the whole body. Digestion improves, the eyes sparkle, the cheeks glow with girlish beauty. Normal powers are restored to the regenerative organs, the nerves are recharged with energy, making the sufferer conscious that direct benefit is resulting from Ferrozone.

There is no greater boon to suffering women than Ferrozone. It charges the system with the snap and fire of youth, builds up firm tissue, rounds out the form until perfect womanhood is attained.

Ferrozone is the one safe tonic for ladies to use, because it contains no alcohol or dangerous drugs. Growing girls, young women, expectant mothers—every female will derive unquestionable benefit from this grand restorative. Prepared only in tablet form, 50c. for a box of fifty tablets or six boxes for $2.50, at all dealers, or N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $4 per year, strictly in advance.

PETERBOROUGH, JANUARY 31 1905

ONTARIO LAND TITLES' ACT

The County of Carleton has under consideration the adoption of the Ontario Land Titles Act. The Ottawa Citizen advocates it as "a much needed reform," and points out the merits of the system. Titles under the act are absolute and cannot be upset in any way. All questions are disposed of as they arise, by the Master of Titles, instead of being left as at present to be determined in the course of future and expensive litigation. The cost of transferring land is greatly lessened. The searching of titles at each change of interest, the most expensive item under the registry system, is entirely done away with. For an elaborate deed under seal is substituted a transfer in for following form:—"I, A.B., the registered owner of the land registered in the office of Land Titles at Ottawa as parcel 150 in consideration of $3,000, paid to me transfer such land to C.D."

This is so simple that anyone of average intelligence may prepare it for himself, and in that way without risk avoid the expense of consulting a lawyer at all. The fee for registration in the Land Titles office in $2, and, if a lawyer is not employed, this will be the total expense, as against a cost of from $12 to $15 under the registry system. In lieu of a deed the purchaser is given a document prepared and signed by the Master of Titles at a cost of $1, certifying that he is the owner of the property. Subsequent dealings with the land are endorsed on this by the master and the same certificate may be thus passed on from party to party indefinitely, without the necessity of a new certificate. Finally, the expense of bringing land under the act is much less that might be imagined, and as it depends on the value of the property, may be accurately gauged beforehand. There is first a payment to the crown of 1-4 of 1 per cent. of the value of the land (i.e., $2.50 per $1,000.) and 1-10 of 1 per cent. of the value of the buildings (i. e. $1 per $1,000.) to serve as an assurance against claims by persons whose interests may have been wiped out by the operation of the act. This is paid once for all when the land is bought in and no similar payment is required at any subsequent time. In an ordinary case, where there is no party claiming an adverse interest in the land, the only other expense is a fee to the master.

A PERIOD OF REST

The large majority cast for Mr. Whitney has one distinct advantage for the members and for the country, that it removes the necessity of opening constituencies by appeal, to Government will not seek more support, having already all that is good for it; while the Opposition could not accomplish anything by the most successful manoeuvres to reduce it. Both parties may accordingly give the election courts a much needed rest, and the public ear a welcome respite from that blessed word "corruption," which has been worked full time, to the necessary awakening of slumberous public conscience, and with the most wholesome effect. Most of the political turmoil of the past seven years has arisen from protests and by-contests necessitated by the narrow line between the parties. Mr. Whitney's big majority removes that necessity. The battle for popular right is over for years to come.

EDITORIAL COMMENT.

After this the Ontario Conservative will always believe that everything comes to him who waits.

• • • •

Advices from Paris, Madrid and Toronto indicate that this is a bad year for Governments.

• • • •

Everything is quiet in St. Petersburg, especially the people who have been shot.

• • • •

No man is getting his picture into the paper these days more than J. P. Whitney.

ANSTRUTHER.

—Two loads of young people went to Mr. Will Tucker's on the night of Jan. 27, and spent a very pleasant evening in dancing and other amusement. Some of the guests were roused out of their beds to attend the party.

—Mr. Martin Hilcox arrived at Mr. Tucker's last night to continue his work, after being away for two days.

—Mrs. Moffat and Miss Effie Staples have returned to Toronto, after a month's visit with their sister, Mrs. Esau Tucker.

APSLEY.

—Mr. Albert Smith still visits on the hill.

—Mr. and Mrs. Wm. Lean were surprised last Saturday evening, when a sleigh load of young people from the village visited them.

—The roads are in a very poor state just now.

—Miss Bertha Hullied is well again, and able to go to church on Sunday nights.

KEEP COOLIES OUT OF S. AFRICA

Rumored in London Also That Parliament Will Dissolve Early Next Coming Session

London, Jan. 31.—Coincident with rumors that the government intends to dissolve parliament early in the coming session comes another report that it is intended to stop further importation of coolies into South Africa. Lord Teynham, presiding at a meeting of a big Rand Company, publicly announced his fear that such was the case, and the rumor caused depression in Kaffirs on the stock exchange.

Being interviewed afterwards, Lord Teynham said he had good reasons to believe the rumor was well founded. He supposes that if it is so it is in anticipation of a general election, the coolie question having greatly embarrassed the government candidates at recent by-elections.

In connection with the dissolution rumors, it is a curious fact that as many as seventy-eight ministerial members of parliament already have announced their intention to retire at the next general election.

Their names, published to-day, include many prominent men, like Sir Michael Hicks-Beach, the Right Hon. C. T. Ritchie, Sir W. H. Walrond and Sir John C. R. Colomb. Most of these will quit parliament.

Others, like Winston Churchill, are leaving the Unionist for the Liberal ranks on the fiscal controversy.

BODY FOUND IN HIGH PARK

Unknown Man About Fifty Years of Age Commits Suicide Near Pavilion

Toronto, Jan. 30.—Saturday afternoon, Mounted Policeman Tinsley found the body of an unidentified man about 45 yards from the road leading to the pavilion in High Park. A 32-calibre revolver was clutched in the right hand, and the wound in the mouth showed where the bullet had gone.

Deceased was between 45 and 50 years of age. He was dressed in a dark brown suit and wore a black cloth cap with a peak. He carried a gold filled cheap watch, which had stopped at 12 o'clock. The body was frozen stiff, so he must have been lying there for some time.

The body was removed to the morgue, and Chief Coroner Johnston was notified.

The Police Gazette Sporting Annual

The Police Gazette Sporting Annual for 1905 has just been issued, and this year it is better and handsomer than ever. It fairly bristles with facts and contains records of baseball, bicycling, trotting, jumping, football, racing, aquatics, and all athletic sports. The main feature of the book, however, is the pugilistic records, and many pages are devoted to that popular branch of sport. The little volume is made doubly attractive by its high-class illustrations and photos of all the champions. It is authentic and reliable, and stands to-day an authority on the subject upon which it treats.

WILD WOOLLESS SHEEP

A Strange Little Isle Where Thousands Run

San Francisco, Jan. 30.—Wild sheep by the thousand, and of a strange species, inhabit the little Island of Socorro, 300 miles off the coast of Lower California.

Captain Limbridge of the Josephine which arrived yesterday, said:—

"Socorro Island lies in latitude eighteen north, and the Government Survey officials have stated that it is without water. I found fresh water in abundance. There are thousands of wild sheep there. They are of small stature, and have no wool on their sides.

"Socorro is an island of volcanic origin, and the vegetation is so thick that it is almost impenetrable. The trees are alive with mocking birds and parrots. I found a deserted old adobe hut that must have been built many years ago. The island has been uninhabited by humans, I believe, for more than a score of years."

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

1] At least six months' residence upon and cultivation of the land in each year during the term of three years.

2] If the father (or mother, if the father is deceased), or any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same town, township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses 2, 3 or 4 must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 30 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the End of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Land Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

PRICE MAKERS

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

INCORPORATED

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and we believe, exceedingly profitable investment. Every dollar of stock is guaranteed by twenty year, full paid, gold bond, delivered to purchaser of stock, from an investment Company that has no interest whatever in the company, but who are disposing of the debentured bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the State Treasurer under which they received their charter, thereby doubly securing the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvellously rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Simmer and Jack Mining Co., Limited, Elandsfountain, South Africa:—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world.

"With the present development of the Monument Mine, I estimate that 100 tons per day can be extracted, which will mill from $13.00 to $20.00 per ton. The total cost of mining the ore, delivering and milling, I place at about $4.00 per ton. With increased milling capacity, it is safe to say that the mine can furnish 100 tons of $15.00 ore, which would yield a clear profit of $11.00 per ton, or $1,100 per day (equal to $400,000.00 per annum). Estimated total value of ore in sight, $2,500,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Dr. Brown writes as follows:—

"In regards to the amount of ore available at the mines at Silverton, I saw on the dumps several thousand tons, probably 5000 tons would be an under-estimate.

"As to the size of the ore body itself, from what I saw of the geological structure, I think that there is every indication that it will be found to extend underground as far as the out-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish full information to investors.

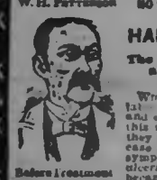
BLOOD DISEASES

If you inherited or contracted any Blood Disease you are never safe unless the virus or poison has been eradicated from the system. At times you see alarming symptoms, but live in hopes no serious results will follow. Have you any of the following symptoms? Sore throat, ulcers on the tongue or in the mouth, hair falling out, aching pains, itchiness of the skin, sores or blotches on the body, eyes red and smart, dyspeptic stomach, sexual weakness—enlarged glands. Don't trust to luck. Don't ruin your system with the old fogy treatment—mercury, potash and patent medicines, which suppress the symptoms for a time only to break out again when happy in domestic life. Don't let quacks experiment on you. Our NEW METHOD TREATMENT is guaranteed to cure you. OUR GUARANTEES ARE BACKED BY BANK BONDS that the Blood of Men or Women will never poison. Thousands of patients have been already cured by our NEW METHOD TREATMENT for over 20 years, and no return of the disease. No experiment, no risk—not a "patch up," but a positive cure. The worst cases solicited.

W. H. PATTERSON — NO NAMES USED WITHOUT WRITTEN CONSENT. — W. H. PATTERSON



Before Treatment

After Treatment

HAD BLOOD POISON 12 YEARS

The New Method Treatment Cured Him after Drugs, Mercury, Hot Springs, &c., all failed.

Wm. H. Patterson, of Saginaw, Mich., relates his experience: "I do not like notoriety and especially of this kind, but I feel I owe this much to Drs. K. & K. for the great good they have done me. I had a serious blood disease when 14 years of age. The skin and blood symptoms gradually developed. Pimples and ulcers formed, running sores broke out, hair became loose, pains in the bones and joints, dyspeptic stomach, foul breath, itchy skin, etc. It is needless for me to say I tried doctors. I grew to HATE the power of one. I visited them twice a year, four months each time. It helped me temporarily, but in six months after returning home I was as bad as ever. Finally a Doctor friend of mine advised me to see Drs. Kennedy & Kergan. He said he had known of them for over 20 years, and as they made a specialty of these diseases and treated the worst cases by the hundred they ought to be expert in curing them. I was afraid of advertising doctors, but I took his advice. They agreed to treat me under a guarantee or no pay. I investigated their financial standing and found they were perfectly responsible, so I commenced the new method Treatment. The eruptions disappeared in two weeks the bone pains in four weeks and in four months I was entirely cured. Yes, sir, I can recommend the New Method Treatment for Blood and Skin Diseases."

DRS. KENNEDY & KERGAN

140 SHELBY STREET, - DETROIT, MICH.

A SPLENDID PROPOSITION

The Salido Gold and Copper Company

Incorporated under the laws of Arizona, with a capital of $3,oc ooo forever on-assessable divided into shares of $1 each, par value. All investments insured Granite Securities Company.

The "SALIDO GOLD COPPER CC MPANY" enterprise offers attractions to the investors of the country, that without thorough investigation, would scarcely seem probable. If only a fraction is realized of what any prudent business man in his own affairs would regard as absolutely certain, the enterprise must prove abundantly successful and exceedingly profitable.

SALE OF STOCK

The company will prosecute the work of development with all the diligence that he cash in the treasury will permit and circumstances warrant, and to this end a small amount of the treasury stock is now placed upon the market, in blocks of not less than One Hundred Shares. The par value of the stock is One Dollar per share, fully paid and forever non-assessable.

The company reserves the right to advance the price of stock without notice.

REMEMBER

First—That all payments for treasury stock go into the treasury for development work and not into the pockets of the promoters.

Second—There are no salaried officers

Third—The incorporators have put their own good money into this enterprise and being business men, intend to do business along business lines.

Fourth—That this company is honest.

Fifth—If you are thinking of investing in mining stocks this is worthy of your careful investigation.

OTHER PROPERTIES

This Company owns four other Gold and Copper Mines, which title is now in process in the laws of Mexico. As soon as title is perfected, we shall commence to develop them as we certainly expect something very great from these properties Our assays. aken have been of the very best, showing gold and copper from $6.00 to $122. 30 per ton.

I have secured a small block of this stock, which I offer at the following prices: Unguaranteed 40 cents per share, guaranteed 80 cents per share. These prices will only prevail for a short time, as the number of shares for sale at this price is limited. The Shares will then be advanced to 40 cents for the unguaranteed and 80 cents for the guaranteed. I can unhesitatingly recommend this investment to the Canadian public.

W. K. HALL,

FISCAL AGENT, - - - - PETERBOROUGH

Agents wanted in outlying districts, including Toronto.

The California Buckeye Mine

This mine consists of 15 acres of good zinc land, well prospected by drill holes showing forty feet of good pay dirt at a depth of 154 feet.

On the property are hoisting engine, shaft house, ore buckets, Worthington steam pump, air drill, cars and pipes. Over $15,000 have been expended to date, and the proposition itself is a good one- so much so that we can personally guarantee an immediate dividend of 8 per cent. this year and 12 per cent. after 1905, with an additional quarterly dividend.

Capital Stock $250,000

Shares, par value $1.00 each Fully paid up and non-assessable, No Preferred Stock. No bonded indebtedness

The shares are selling at 20 cents each, with a prospect of the price being raised.

The Joplin Daily Globe says that over $10,000.000 worth of zinc and lead were mined in 1904, up to 1st Dec., in the Joplin District In the California Buckeye Zinc Mine, located in the centre of the Joplin District, it has been demonstrated that the ore body has an average thickness of 42 feet and the runs are 50 feet wide, about 170 feet from the surface.

The rough dirt for the first three months of operation produced zinc ore to the amount of $12 95 per cent., while the average for the district is less than 5 per cent., but for the purpose of being on the safe side, we calculate on only 8 per cent. ore to the ton of dirt, and it shows a profit each day with two shifts of men, of $566.20.

We stand ready to prove every statement made, and if enough stock is subscribed for in this locality a directorship of the company is at the disposal of the subscribers.

Any further information and proofs of earning capacity will be cheerfully supplied.

CZAR'S TROUBLES GROW

Everything Points to Great Russian Upheavel

WAR WILL BE THE ORDER

With a View of Creating a Diversion at Home—The World Waits

London, January 30.—The Russian situation grows steadily worse everywhere, except in St. Petersburg, which is prostrate under rigorous military rule. Citizen blood has been shed on the streets of other cities; though Moscow—the dreaded centre of the movement—remains quiet. It must be remembered, however, that Russia cannot at this time stand industrial paralysis. If the workingmen simply go out and stay out, they will produce a state of affairs which must terribly embarrass the Russian Government on the money markets and weaken the support given the army at the front.

The Minister of the Interior and M. De Witte are, however, still in power, and there is always hope that they may prevail upon the autocracy to try the path of conciliation. The "mailed fist" may be effective at the capital; but it is impossible for an obligarchy to keep a nation at bay forever. This must be apparent to any student of human affairs, who will look at the situation squarely, and not through the distorted glasses of a belated believer in the divine right of monarchs who regards the Czar as "the anointed of God."

Renewed activity in Manchuria, in spite of the severe weather, is probably an attempt to create a diversion. That it will succeed in the present temper of the Russian people, appears very unlikely. They are outspoken in their opposition to the war, and do not regard it as a national struggle at all. The activity at the front means that more troops must be sent there; and it will be an anxious moment when the Government commands regiments of doubtful sentiments to march. Altogether the writing is very less cryptic than it was to begin with; and the world still awaits the unfolding of its meaning.

$60 A QUART

Atlantic City, N.J., Jan. 30. — To provide milk for his one-year-old son, George A. Bourgois, one of the best-known attorneys in the State, to-day paid $200 for two quart bottles of milk andt he same amount of cream, or at the rate of $60 a quartbottle.

Mr. Bourgois lives in Ventor, which was completely cut off from this city. On calling up a milk depot, the lawyer found that it would be impossible to deliver milk. He then hired Archie Burrell to get the milk.

Snowdrifts ten feet high in places blocked Burrell's horse and carriage. At times he was obliged to drive to the beach, and his journey, ordinarily three miles, proved to be three times that distance, and occupied more than four hours. But he reached the depot and delivered the milk. Mr. Bourgois gave Burrell a check for $200.

TWO CHILDREN CREMATED

Syracuse, N.Y., Jan. 30.—A special from Carthage says;

Two children, aged four years and one week respectively, were burned to death in a house at Wanakena, on the Cranberry Lake Railroad, to-day. John Poulette is a night watchman at a lumber mill. His wife was awakened this morning by smoke and flames in her home. She rushed out in her night clothes, then broke a window and saved three of her children by passing them out of the window to neighbors.

She made several attempts to reach the other two little ones, but was driven back by the flames, and they perished. The mother was badly burned.

LIBERALS WILL BE BENEFITTED

English Liberal Press on Ontario Election

London, Jan 30.—Ontario Liberals get no consolation in their defeat from English Liberals. The Manchester Guardian today, "The Ontario Liberal Government had apparently spent all its Liberalism and acquired very undesirable characteristics instead." The Guardian refrains from extolling Whitney, but adds; "The Conservative victory will do the Liberals good, enabling them to shake off the parasitic element which now embarrass them. It will be a good thing also for the Dominion as a whole, for power is now so overwhelmingly in the hands of nominal Liberals that the situation is not healthy. Public Whitney's victory will also be a useful advertisement to all parties that, beyond a certain point, unscrupulous methods and low ideals in politics will not even pay.

NOT YET RELEASED

Mrs. Cassie L. Chadwick is now Adjudged Bankrupt

Cleveland, Ohio, Jan. 30. — Mrs. Cassie L. Chadwick has been formally adjudged a bankrupt by default in the United States District Court. The creditors will meet and elect a trustee to take charge of her property until it shall be sold. Mrs. Chadwick has been ordered to file a list of all her creditors, together with a schedule of her assets and liabilities within ten days. Mrs. Chadwick has not yet been released from goal.

Those for Whom the

MUSKOKA FREE HOSPITAL FOR CONSUMPTIVES

Is Built

Not a single patient has ever been refused admission to the Muskoka Free Hospital for Consumptives because of his or her poverty.

Since the Hospital was opened in April, 1902, nearly 400 patients have been cared for.

Would Have to be Sent Free.

H. J. Pettypiece, M.P.P., Forest, Ont.: "There is a young lad in town, named Kenneth Levitt, aged seven years, showing the very first signs of consumption, and Dr. McCordie, who is attending him, recommends that he be sent to the Sanatorium. He would have to be sent to the Free Hospital, as his mother says she could not pay more than $1 per week. They asked me to write to you. Do you think he can be admitted?"

No Means to Pay.

L. H. Cascadden, M.D., Douglas, Ont.: "I have a patient in whom pulmonary tuberculosis is just developing, and who has no means of her own to pay for treatment, or at any rate only a small fee in a hospital. I think the treatment at the Sanatorium would help her, and as she has no home I have advised her to seek admission in your institution. Will you kindly send me conditions governing admission?"

A Widow With Small Means.

Mrs. Readwin, Hamilton, Ont.: "I am a widow with one little girl, aged 11 years; my age is 30 years. I am troubled with tuberculosis. I have been doctoring for some time, and my physician has advised me to go to Muskoka. I am not left with very much means, so will you kindly let me know the full particulars, and what is the lowest fees you would charge me a week."

Family Supported by Church and Neighbors.

S. J. Ewing, Alliston, Ont.: "While in Gravenhurst the other day I called at the Hospital re a young man named Arthur Armstrong, of this town who was sick with pneumonia about ten or eleven months ago. Since then he has not been able to work. The family are supported by the church and neighbors. What can you do to admit him?"

No greater work of faith has been undertaken in any country. For its support the Hospital is dependent on the generosity of the people of this Dominion.

Contributions, large or small, will help, and may be sent to SIR WM. R. MEREDITH, Kt., 4 Lamport Ave., Toronto, or W. J. GAGE, Esq., 54 Front St. West, Toronto.

A SPLENDID PROPOSITION

Rare Chance to Secure a Paying Investment

THE GOLD COIN MINING COMPANY

has placed a small block of their stock at the disposal of Canadian investors. This stock is sure to rapidly advance in price. The Company is now arranging to instal the power plant and a mill and cyanide plant for the reduction of their ore to a bullion on the property. They have arranged with a Trust Company having assets of $1,500,000 to put up a bond guaranteeing investors the repayment of the full amount invested. This makes investors absolutely safe. By no possibility can they lose a dollar

THE GOLD COIN MINING COMPANY was organized November 21, 1902 under the laws of the State of Idaho. The capitalization is one million shares of the par value of one dollar each, fully paid and non assessable; of the 1,000,000 shares. 400,000 have been set aside as treasury stock

THE BOISE BASIN came into prominence shortly after Grimes and his party of prospectors entered the Basin country in 1862; their entrance was into the northern portion, and one discovery of rich placer ground followed another until the news of the rich finds reached the outside world, when a veritable stampede for Boise Basin commenced. towns sprang up and grew together in an incredibly short time; the rush of people to Idaho City made it a place of 20,000 people in 1867, having a business street over a mile long lined with two-story buildings streets and sidewalks filled with people day and night, business and money on every hand and the city bearing the proud distinction of being the capital of the territory of Idaho. Wages ran from $6 to $10 a day and not infrequently forty and fifty men worked on a single placer claim; the clean-up for a day's work in many instances ran close to $5,000; large fortunes were made in a few days by washing the golden sands in a pan, so eager was the quest for the shining metal that the streets of Idaho City were dug up and washed and re-washed, and the soil removed from under the houses and places of business. So extensive was the search for the hidden treasure that not only all of the low ground was worked but the foot of the mountains surrounding the city have been washed away, filling up the lower portions of the basin and extending into the town, where one of the buildings has been buried under the tailings from the numerous placer workings.

LOCATION—The property of the Gold Coin Mining Company is situated in the Gambrinus Mining District, Boise County, Idaho, on the range of mountains between Moore Creek and Elk Creek, which forms a part of the eastern boundary of the famous Boise Basin and into which these mountains are drained The property is located ten miles northeast of Idaho City, from which place there are good wagon roads either to the workings on top of the mountain or to the place of the proposed tunnels in the gulch which crosses the Tunnelsite claim.

THE CLAIMS—The Company owns a group of four contiguous lode mining claims and the Gold Coin Millsite: the names of the lode claims are the Tunnelsite, Blue Bell, Pennsylvania and Homestake, each being a full claim 600 feet wide by 1,500 feet long, excepting the Tunnelsite claim, which is 450 feet wide at the west end and 1,055 feet long. it was necessary to stake the claim in this form on account of joining the Washington property on the south and the Sub Rosa property on the west, these properties being prior locations to the Tunnelsite claim. The four lode claims aggregate nearly 80 acres of rich mineral land.

Further particulars may be had on application to WM. SAILSBURY, Fiscal Agent of the Company Peterborough, Ont., or to

S. E. PHELPS, Secretary,
311 SCHOFIELD BUILDING, CLEVELAND, OHIO.

CATARRH

Don't Drug the Stomach — Breathe Nature's Remedy, Catarrhozone — Both Pleasant and Easy to Use. A Guarantee of Cure goes with it.

Catarrhozone always cures because it reaches the cause of the disease quickly and thoroughly. Its healing vapor penetrates the minutest air cells of the nasal passages, throat and lungs. It attacks the cause of the disease direct, and doesn't work in a round about way through the stomach.

The antiseptics in Catarrhozone kill the germs that cause catarrh. It clears the nostrils, cures headache and foul breath. It prevents droppings in the throat, allays inflammation. Catarrhozone now.

Be certain in Catarrhozone to remove and cure that doctogue, ministers and public speakers keep it as their standby for coughs, colds, catarrh and throat trouble. Because it lasts so long it is cheap, and as it is sure to cure even the poorest can afford to buy it.

Mrs. J. A. Morris, of Perth, Ont., writes, "I cannot withhold my testimony for Catarrhozone. It cured my daughter of chronic catarrh and I therefore heartily recommend it to all sufferers. No house should be without Catarrhozone."

Why not use Catarrhozone? It cures colds in a few hours, and no case of catarrh can withstand it. Catarrhozone cures by the inhalation of medicated air which goes to all parts of the lungs, throat and breathing organs. A pleasant, certain, quick cure follows the use of Catarrhozone, which is guaranteed under all conditions to cure catarrh in any part of the system.

Two months' treatment, hard rubber inhaler and extra liquid costs only one dollar; sample size 25c. Sold by all druggists or by mail from N. C. Polson & Co., Kingston, Ont., or Hartford, Conn., U.S.A. Ormation, heals sore spots and running at the nose.

To Purchase a Big Stock

Mr. B. Laster, the enterprising Simcoe street general merchant, leaves to-day for St. Thomas, to attend a big sale of bankrupt stock in that city. Mr. Laster intends to purchase the entire stock if he can get it at the right price. It is valued at $30,000.

Farmers' Institutes

The Farmers' Institute meetings will begin throughout the province this week. A large percentage of the old speakers have been secured, and a number of new ones. The increase is necessitated by the fact that, owing to the postponement of the meetings until after elections, they will be crowded into a shorter period of time than usual. The speakers will all devote some attention to forestry, in the endeavor to impress upon the farmers the necessity of following a definite plan looking to the preservation of their woodlots. Superintendent Putnam has had a large number of charts prepared, illustrating the most desireable types of the different kind of farm elements, and these will be supplied to the speakers for use at the m

Dominion Council Y.W.C.A.

Globe: A meeting of the Executive Committee of the Dominion Council of the Young Women's Christain Associations of Canada was held Saturday morning. The reports of Miss S. Little, B.A., General Secretary; Miss A. C. Macdonald, B.A., Foreign Secretary in Japan, and Miss L. Lucas, B.A., showed marked progress in the association work in many parts of Canada. An association has recently been organized at the Macdonald Institute, Guelph, and in Columbian College, New Westminster, B.C., making in all 24 college associations. The new city associations at Stratford has received special help this month in the further organization of its work. A resolution of deep sympathy with the Hon. G. A. Cox and the members of his family was passed. The late Mr. Cox was a generous friend of the Dominion association work and was especially interested in the Peterborough Association.

Died at the Hospital

On Sunday morning at the Nicholls Hospital, the death occurred of Geo. Blackburn, in his 60th year. The deceased had been a resident of the town for about four years, and was employed in the C.G.E. Works. He had been living with Mr. Geo. Scott, 164 Aylmer street. The late Mr. Blackburn had been in poor health for some time, but was not taken seriously ill until last week. He has no relatives in this country, but has a sister living in Bermuda. The funeral took place from the hospital yesterday afternoon to the Little Lake cemetery.

LITTLE LOCAL LINES

Doctors Here and There by Times Reporters on Their Round

—The committee of the whole council met last night.

—Peterborough is rapidly becoming a centre for wholesale houses.

—The Chief of Police has a small note book, in a brass case, at the station, awaiting an owner.

—The George Street Epworth League propose to purchase a new piano for use in the lecture room of the church. The church organ is also to be overhauled and improved.

—It is reported that the Bank of Nova Scotia, is negotiating for the Crown Hotel property, with a view to opening a branch here.

—At St. Peter's Cathedral on Sunday, His Lordship Bishop O'Connor read an interesting statement of the finances for the year just closed. The amount realised from the Sunday collections during 1904 was $3,976. Extensive improvements had been made to the cathedral and the grounds which had cost $1,820. These had been paid for out of current receipts, leaving a balance of $2,156.

SOCIAL AND PERSONAL

—Mr. Wilfrid Gainer, of Ingersoll, is visiting friends in town.

—Miss Nugent, Lindsay, is the guest of her uncle and aunt, Mr. and Mrs. John Nugent.

—Mr. H. W. Hood, of Montreal, spent Sunday in town, the guest of his brother, Mr. R. McGill Hood.

—Miss Lena Plouffe, daughter of Ald. Moise Plouffe, Ottawa, who has been visiting Miss Maggie Morber, has returned home.

—Mr. and Mrs. J. Everet Oles have given up their home on Stewart St., and have taken up their residence in Fleming Terrace.

—Mrs. Brodigan, who has been the guest of her daughter, Mrs. Oles, Fleming Terrace, leaves for her home in Toronto to-day.

—Mr. Edward Green, 328 Water street, celebrated his 79th birthday yesterday, and received the congratulations of many friends.

—Mr. Albert Chambers has accepted a position in Colborne, and left on Saturday. His many friends in Peterborough will wish him success.

—Mr. C. Donovan, Hamilton, has accepted a position in The Times' bindery. Mr. Donovan is a university student, and is helping himself through college.

—Mr. R. F. Choate, of Toronto, has accepted a position on the reportorial staff of the Examiner. He succeeds Mr. R. N. Jolliffe, who will go to Toronto to pursue a special course in vocal training.

—Mr. R. McGill Hood, 525 George street, left yesterday for Rossland and other western points in the interests of the Standard Cap Co., of Toronto. He will be absent three months.

—Mr. William D. Staples, M.P., of Macdonald, Manitoba, spent Sunday in town, the guest of Dr. R. F. Morrow. Mr. Staples is an old Manvers boy, and has many friends in Peterborough, who were pleased to see him.

—Mr. C. Dickinson, of Winnipeg who succeeds Mr. Edgar Jarvis as accountant in the local branch of the Bank of Montreal has arrived in town and assumed his duties. Mr. R. O. Hayward, of Toronto Junction, has also joined the staff as savings bank ledger keeper.

POLICE COURT

Harold Pamphelon, a Usurper, Before the Magistrate Yesterday

At the Police Court yesterday, Harold Pamphelon, alias "Slick" Redmond, appeared in answer to the charge of obtaining $1 in money, and a quantity of oats and hay under false pretences, from Wm. Cornish, a local livery man. He was arrested in Cavanville. The local police had been informed that a man answering to the description of Pamphelon was in that village and P. C. McGinity drove down yesterday and got his man. He confessed that he was the person wanted in Orillia, but he has not the white spot in his eye as described in the letter from Orillia. He was remanded until Thursday.

A case of selling liquor during prohibited hours was dismissed.

ST. JOSEPH'S HOSPITAL

Debt on Building Now Reduced to About $2,000

Our Roman Catholic friends are to be congratulated on the fact that the debt of St. Joseph's Hospital which was over $4,000 in 1904, has been reduced to $2,091. This is most encouraging and shews that this most deserving institution is being liberally supported.

ANDERSON BY 118

Last Wednesday's Vote Gives Him the Lead —The Official Figures

Mr. H. Morrow, returning officer for the East riding made official announcement yesterday as to the result of the polling in the election of Wednesday last. The figures show that Mr. Anderson has a majority of 118. There were seven rejected, one spoiled and two rendered ballots.

BOARD OF EDUCATION

Mr. J. J. Hartley will Likely be Re-Elected Chairman for 1905

The inaugural meeting of the Board of Education will be held to-morrow evening at seven o'clock. No business will be transacted beyond the appointment of a chairman and the election of committees for the year.

It is said that Mr. J. J. Hartley, who has so acceptably filled the position of chairman will be re-appointed

TO RESIDE IN TORONTO

Mr. and Mrs. A. L. D vis Going to the Queen City To Live

The whole community will sincerely regret to learn that Mr. and Mrs. A. L. Davis have decided to take up their residence with Senator Cox, in Toronto. It is pleasing to know that the ex-Mayor's interests in Peterborough will not be disturbed, and that he will be a frequent visitor to Peterborough.

THREE NEW CARS

Will Arrive Shortly for the Peterborough Radial Railway Co.

The Peterborough Radial Railway Company have recently bought three new cars, which will arrive in town in a few years. One car is from Cleveland, and two from Ottawa.

With the three new carriages the equipment of the road will consist of eight closed cars, one open car and two trailers. The company will in all likelihood buy three or four more trailers for use next summer.

SPORTING ITEMS

(Continued from page 1.)

The Port Hope juniors defeated the Peterborough juniors last night. This puts the locals out of the running for the Junior O.H.A. championship.

• • • •

The City League games on Thursday night promise some very exciting hockey. Considerable interest is being manifested in the games as the rivalry between the opposing teams is very keen. The Karnots and Farriers have each four victories to their credit, and a hard game is looked for. The Colonials and Verniers will also play the same evening.

• • • •

The following hockey fixtures have been arranged for this week. This list does not include the regular practises of the Peterborough and T.A.S. teams—

Monday, 8.15, Junior O.H.A., Peterborough vs. Port Hope; 10 to 11, Farriers.

Tuesday, 5.45 to 6.45, Aberdeens; 10 to 11, McWilliams' Clear Grits vs. Y.M.C.A.

Wednesday, 5.45 to 6.45 Karnots; 10 to 11, Uptown Hustlers vs. Y.M.C.A.

Thursday, 5.45 to 6.45, Hickey's Terriers vs. Beats' Happy Thoughts; 8 p.m., City League games, Farriers vs. Karnots, 9p to 10, Colonials vs. Verniers, 10 to 11, St. Andrew's Guild vs. St. Andrew's Guards.

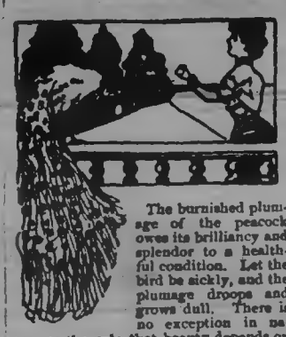
Friday, 10 to 11, Wm. Hamilton's office vs. Pattern shop.

Saturday, 10.30 to 11.30, C. G. E. Machinists.

• • • •

BASKETBALL.

You should see the basketball game between Albert College and Peterborough Y.M.C.A. Boys' Club, Friday evening, Feb. 3rd, at 8 o'clock. The boys are getting in good practice, and expect to play a strong game. The team is made stronger by the addition of A. Hodgson. Basketball is the best indoor game, that is, apart from ice hockey. Everybody enjoys a good fast game of basketball. Be up and cheer for Peterborough on Friday evening. There will be music and gymnastics between the halves. Y.M.C.A. gymnasium, 8 p.m. Admission, 15 cents.



The burnished plumage of the peacock owes its brilliancy and splendor to a healthful condition. Let the bird be sickly, and the plumage droops and grows dull. There is no exception in nature to the rule that beauty depends on health.

Women who see their beauty waning rarely associate the external change with failure of the womanly health. They do not understand the close relation of the general physical health to the health of the delicate womanly organism, until after being cured of womanly diseases by the use of Dr. Pierce's Favorite Prescription they find the color returning to the cheek and the flesh to the body.

"Favorite Prescription" establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness.

"Several years ago I was very poorly," writes Mrs. May Erley, of Sylvia, Kans., "so weak I could hardly walk across the floor, and at times suffered severely. I took two bottles of Dr. Pierce's Favorite Prescription and got well and hardy—gained twelve pounds in two months and was the picture of health. Your medicines have cured me. Almost everybody I meet says, 'You look so much better than you have for several years; you look well now.'"

"Favorite Prescription" makes weak women strong, sick women well. Accept no substitute for the medicine which works wonders for weak women.

Dr. Pierce's Pleasant Pellets are a lady's laxative. Nothing equals them for gentleness and thoroughness.

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL XXXIII NO 26 PETERBOROUGH ONTARIO, WEDNESDAY FEBRUARY 1 1905 PRICE TWO CENTS

CONDITIONS GENERALLY GROWING MORE SERIOUS

Situation Throughout Poland Growing Desperate--Starving Populace Raids Shops and Clashes with the Troops.

Tokio, Feb. 1.—It is believed that the loss of Heikoutai weakens the Russian position, and probably will compel a material change in the Russian front in that vicinity, Heikoutai will be strongly defended by the Japanese, who are now occupying the Russian works.

As the ground is frozen, it is practically impossible to construct new works.

St. Petersburg, Feb. 1.—A telegram from Schiatun, dated Jan. 29, states that the Russian losses from Jan. 25 to Jan. 28 were 10,000, but that the percentage of dead were small

The Japanese losses were very heavy. Over 300 were made prisoners.

London, Feb. 1.—A despatch to the Japanese Legation from Tokio dated to-day, says Field Marshal Oyama reports that the Russians have left 1,200 dead on the field since January 25.

Tokio, Feb. 1.—The Japanese yesterday captured off Hokkaido Island, Northern Japan, the British steamer Wyefield, loaded with contraband for Vladivostock.

St. Petersburg, Feb. 1.—The Associated Press telegrams from Manchuria do not indicate developments of importance since General Grippenberg's orders to abandon the advance. The Japanese yesterday made a demonstration in the eastern district, but apparently it was not serious. The operations on the Russian right will probably not occasion further heavy fighting at present unless the Japanese determine to follow up their counter offensive movements, which is not likely in view of despatches from Mukden, saying the cold is more intense, thus rendering the movements of large bodies on either side well-nigh impossible One result of the bitter cold has been to greatly increase the morality among the wounded.

Military critics do not express approval of General Kuropatkin's offensive, the Novoe Vremya declaring it was a failure, and the Russ saying it was neither a reconnaissance in force nor a demonstration, hence it could only have been undertaken to capture a strategical point, and this object was not justified by events.

Mukden, Feb. 1.—Delayed in transmission.—Constant streams of wounded men are arriving here from the right flank, including Lt.-Gen. Mistchenko, who is in excellent spirits, and is receiving visitors. According to the official army organ the wounded number 3,500. The cold is intense, and the condition of the wounded causes the greatest anxiety because the exposure of their wounds to the frost induces gangrene Preventive precautions have been taken but the wounded are suffering the greatest pain.

The Japanese are taking good care to see that the Russian rank and file are not left uninformed regarding the disturbances in Russia. They are carrying on a regular campaign to spread sedition and discouragement among the troops. Letters are daily thrown within the Russian lines declaring that all Russia is aflame with riot and revolt, arguing that the soldiers are shedding their blood in vain, and calling on them to surrender or desert. The soldiers eagerly read and discuss these communications, especially accounts of the events at St. Petersburg, Jan. 22nd. The sincere hope is expressed on all sides that the Russian nation will forego internal differences and not play into the hands of the Japanese.

TO CUT THEM OFF.

General Oku's Headquarters, Jan. 31, via Fusan, delayed in transmission.—Yesterday afternoon, the Japanese began a fierce bombardment with artillery and musketry along the whole line. The firing was kept up until midnight, and was resumed at dawn to-day, continuing until noon. The Russian reply was feeble.

A movement of the Japanese left wing for the purpose of surrounding and cutting off the Russians in the neighborhood of Pokowtai is progressing slowly, as the resistance is stubborn.

Should the Russian force be cut off it will result in leaving General Kuropatkin's right flank unprotected.

REVOLT OF ARMY REVOLUTIONISTS HOPE

Insurrection is Vain if Czar's Troops Remain Loyal

PEOPLE ARE WITHOUT ARMS

American Officer Discusses the Situation in Russia—Peasantry Helpless

Washington, January 31.—A United States army officer, who formerly served at St. Petersburg as attache to the American Legation, but is now in St. Louis, says that whether this disturbance in Russia will assume revolutionary proportions and result in the overthrow of the autocracy by the people, rests entirely on the loyalty of the Czar's immense standing, army.

Although the embers of a great revolution seemingly are smouldering in various strongholds of the vast Empire, this officer says that the iron grip of the Czar on the pulse of Russian life is too strong for the lower classes to throw off without the aid of the army.

"The case of the laborers is helpless as it now stands," he continued, "as the people cannot fight without arms, and it is impossible for them to get them, as well has the Government provided against such an emergency. The rules regulating the admission of rifles and arms of any description into the Empire are the strictest promulgated by the Ministers of the Czar, and the enforcement is just as rigid. A permit must be secured before a single rifle can be imported, and a very good excuse has to be given before this is issued.

"Of course, the workingmen now striking may continue to break open the gun stores in the cities as they have done in several instances, but the arms they could secure in this manner would not count for a drop in the bucket.

"Their only chance is to break open the Government armories and factories, but I do not believe that this could ever be accomplished, so well guarded are these institutions.

"Any further fights between the mob and the troops at St. Petersburg will result in the same manner as the bloody one of a few days ago, for no men can stand unarmed before an organized and disciplined force and fight successfully.

GUARDS ARE PICKED MEN.

"The soldiers in St. Petersburg are selected from all parts of the Empire for their immense stature, and are known as the Guards. There are three army corps of these in what is called the District of St. Petersburg, or the city and land immediately surrounding it. This means that there are from 30,000 to 40,000 picked men, armed with the most improved weapons, on guard all the time.

"So far as I know," continued the speaker, "they are all loyal to the Czar, and will shoot down the mob as long as he orders. The Russian soldier is trained from the first to do as he is ordered, blindly and without hesitation. It is a habit with him, and although the privates all come from the peasant class, the discipline is too strong for any chance of insubordination.

"The officers of the guards are all nobles or members of the nobility. Titles are frequent in this division of the army, as this is the crack part of the organization. The men are divided into regiments according to physical characteristics, as for instance, one regiment is known as the "snub-nose regiment," every member of which has the turned-up nasal organ.

"In addition to this the city is easily guarded, the streets being laid out with regularity. With the force at their disposal, the Ministers of the Czar could flood the city with soldiers in a few minutes and hold the entire population powerless.

CZAR CONTROLS TELEGRAPH.

"The entire lack of telegraphic communication makes concerted action impossible on the part of the revolutionists. The Government controls all wires and could mobilize troops at any point desired in a short time. The revolutionists would, therefore, be placed at a disadvantage and could be defeated at one place after another, without having an opportunity to concentrate their forces.

"Moscow is practically the same, being more strongly fortified if anything than St. Petersburg. All the other Russian cities have large garrisons in them, and in no case have the people an opportunity to get arms.

"There is only one chance for the peasants, and that is the disloyalty of the army. Russia can mobilize a fighting force of from 300,000 to 400,000 men in war times, and any disaffection in this body would result in the end of the Empire.

"I don't look for anything of this kind, however, and believe that the report that one regiment laid down arms is not true. Revolts are constantly going on in St. Petersburg, but are easily quelled. This one, I believe, to be the worst that has yet confronted the rulers.

"The Cossacks do not use whips holding leaden pellets, as reported, in striking the people. Their whips are for use on their ponies, and are made only of three leather thongs.

"The Japanese war may have changed conditions in Russia to some degree since I was there. It would take extraordinary events to rouse the workingmen sufficiently to make their resistance formidable, however, owing to their stolid natures. I look to see the disturbances quelled as others have been before them."

Allen's Lung Balsam

The best Cough Medicine.

ABSOLUTE SAFETY should be rigorously insisted upon when buying medicine, for upon that depends one's life. ALLEN'S LUNG BALSAM contains NO OPIUM in any form and is safe, sure, and prompt in cases of CROUP, COLDS, deep-seated COUGHS. Try it now, and be convinced.

THE COUNTY COUNCIL.

Mr. Wm. T. Buck Elected Warden for 1905

HE IS UNANIMOUS CHOICE.

Mr. Buck Has Been Member of the Council for Six Years — Will Make an Efficient Warden.

At the inaugural meeting of the County Council held yesterday, Mr. William T. Buck was unanimously elected to the position of Warden of the County of Peterborough for the year. The following members fyled the necessary declaration of office and took their seats; Messrs. Samuel Stinson and H. Garbutt, Smith; Thos. Webster, Dummer; Dennis Moloney, Douro; John Menogue, Chandos; Robert Shaw, Harvey; F. J. Johnston and John Deyell, Otonabee; W. T. Buck, Norwood; James Andrews, of Asphodel.

The clerk, Mr. E. M. Elliott, called for nominations for Warden. Councillor Johnston moved, and Councillor Moloney seconded, that Councillor W. T. Buck be Warden for the year 1905.

This was the only name mentioned, and it was unanimously received, the clerk therefore declaring Mr. Buck as the choice of the Council.

The new Warden, after donning his robes of office, took the presiding chair, amid applause. He expressed his appreciation of the honor that had been conferred upon him, and said he would endeavor to perform the duties of the office to the best of his ability. He asked their co-operation toward that end, in order that affairs might be carried on in the very best interests of the county and town.

The Council now took up regular business

COUNTY RATES.

A communication was read from the treasurer of Chandos, enclosing the sum of $196 for county rate. A Smaller letter was received from Havelock, stating that the village county rate, amounting to $282.28 had been duly forwarded.

A notification was received from the United Counties of Northumberland and Durham stating that $49.50 had been paid to Peterborough County for repairs to Wallace Point bridge.

Letters were read, notifying Council that the amount paid by the Treasurer of Asphodel for County rate was $2,536.85; from Lakefield, $654.83; from Otonabee, $5,622.70; Douro, $2,364.40. The amount paid by the town for County purposes was $4,382.67; Victoria County, for Pigeon Creek bridge $823.12; Dummer's County rate amounted to $1,642.09. These were referrred to the Finance Committee.

A statement from the Executors of the late Mrs. Foley was referred to the Finance Committee.

AUDITORS.

On motion of Mr. Menogue seconded by Mr. Shaw, Mr. T. G. Eastland was appointed one of the auditors.

On motion of Mr. Shaw, seconded by Mr. Maloney, Mr. W. H. Cassement, of Lakefield, was also appointed one of the auditors.

On motion of Mr. Shaw, seconded by Mr. Menogue, the Whole Council was appointed a committee to strike the Standing Committees for the year, with Mr. Shaw as chairman.

SCHOOL GRIEVANCE

Mr. John McConkey, of School Section No. 9, Smith, addressed the Council, stating that he had a grievance. A teacher, Mr. Armstrong, without certificate, had been engaged because of impossibility to get any other. The inspector, Mr. Brown, had held that if they continued to keep the teacher they would have to forfeit the Government grant. Mr. Armstrong was a first-class teacher, and it was impossible to secure any other to take his place. Mr. McConkey complimented the Council on their unanimous selection of Warden. He had known him for many years as a thorough gentleman.

Another speaker, Mr. Isaac Elliott, explained to the Council that he had said he would rather pay $5 out of his own pocket than lose Mr. Armstrong. This had been spoken of as a bribe toward the inspector, but the speaker could not see it in that light.

Mr. McConkey said that he frequently heard of the $5 referred to by Mr. Elliott and said he did not think it could be regarded as a bribe. The school section wanted justice nothing more.

Mr. Brown, in explaining the matter, said it was his duty to carry out the law. The trustees of the section had been duly warned to get a properly qualified teacher; they had been too late in advertising and knew this young man had no certificate—in fact never taught in this County with a certificate, but in Victoria. He was a good penman, but there were other more important qualifications to be expected of teachers. Mr. Brown said he had given the trustees warning in 1903, and because of this he did not consider it advisable to grant a permit.

Mr. McConkey held that they had advertised in the local and Toronto papers and received several applications, but the teachers were later engaged elsewhere and it was impossible to secure others in time. Mr. Brown, notwithstanding this, had said he would furnish names of teachers.

The matter was finally referred to the Committee on Schools.

The Council adjourned to go into Committee of the Whole.

—The brick work on the Peterborough Tool and Shovel Company's factory will be started this week by the contractor, J. J. Hartley. The job is to be completed in April and operations will be resumed.

TO STOP SALE OF BEER

If Made From Malt or Hops Will not Be Prohibited

Ottawa, Feb. 1.—Ralph Smith, M. P. for Vancouver, will present a petition to the House asking for a change of legislation in connection with the importation of beer. The petition asks that all lager beer made in Canada or imported into Canada be manufactured from malt and hops only, and that the manufacture or importation of larger beer made from any other ingredients be absolutely prohibited.

JAMES L. HUGHES FOR THE CABINET

Rumor That He Will be Offered the Portfolia for Education

SAYS THE TORONTO STAR

Brother of the Member for North Victoria May Become Cabinet Minister

Toronto, January 31.—The Toronto Star says: The question of who will receive the portfolios of the new Ontario Cabinet is a problem of never-failing interest in the Conservative clubs.

The slate-makers are still busy, and this morning the possibility of Mr. Jas. L. Hughes being appointed Minister of Education, found considerable backing. The position of Minister of Education has until now been assigned to Mr. Whitney, but now the prognosticators seem to be changing their opinion. It is pointed out that Mr. Whitney has taken no particular interest in educational affairs. The reason for believing that he would take charge of the Educational Department was not so much his fitness or liking for the portfolio, as the lack of other prominent members qualified for the position. It is confidently thought that Mr. Whitney will consult his own feeling largely in selecting his Ministers, and will, therefore, favor those who have stood by him for years past. Should this be the case, the new Cabinet will be remarkably short of special ability. The introduction of an "outside man" has already been hinted at, and Mr. Hughes has in previous years been considered a likely man for the position of Minister of Education should a change in Government take place.

IF CZAR FALLS THEN REGENCY

Consul Baron Schlippenbach Explains the Russian Succession

Chicago, January 31.—Baron Albert A. Schlippenbach, Russian Consul in Chicago, thus explains the details of the succession to the throne of the Romanoffs in case Nicholas II. should fall a victim to the revolutionists In the event of the Czar's death his infant son would succeed him, but actual government would be vested in a regency, in which Grand Duke Vladimir and the Empress Alexandra would figure prominently. If the child should die Grand Duke Michael Alexandrovitch a younger brother of the Czar, will be the lawful heir. Next to him stands Grand Duke Vladimir, with Cyril, his oldest son, and his heirs, and Boris, his next eldest son, and his heirs.

NO REASONABLE MAN expects to cure a neglected cold in a day. But time and Allen's Lung Balsam will overcome the cold and stave off consumption. Cough will cease and lungs be eased as a new order.

RUSSIA'S OTHER PERIL

German Military Men Say to Defeat Japan she Must Put More Men in the Field

Berlin, Feb. 1.—German military men declare that if Russia has any hope of defeating the Japanese she must put 250,000 additional troops in the field at once. In the present state of Russian public opinion the Czar's government dares not withdraw a single regiment of the regular army for services in the far east. According to German military opinion, to obtain 250,000 men, Russia would have to call up the reserves, but their mobilization at the present moment would be fraught with the gravest danger to the government and the autocracy regime. Much difficulty has, of course, been experienced in getting peasants to join the colors during the past few months, and it is considered that any fresh orders for anything approaching a general mobilization would be a signal for a general uprising of the reserves.

CHURCH SIDES WITH THE CZAR

Holy Synod Issues Rebuke of the Russian Rioters

St. Petersburg, Jan. 31.—The Holy Synod has addressed the following circular to the orthodox with reference to recent events.

"At the moment when all should have stood united for the protection of the Fatherland, strikes broke out in the capital and other towns. Incited by enemies at home and abroad, tens of thousands of the orthodox gave up work, determined forcibly to obtain rights which, they alleged, had been trampled under foot. Many peaceful citizens were deprived of bread, and many of their comrades uselessly forfeited their lives. Those who led them astray had in their midst a criminal priest, who impudently disdained his sacred vow and is now before the ecclesiastical court. He was not ashamed to give into the hands of workmen he had deceived the holy cross and pictures and the Church banners which he had forcibly taken from a chapel, in order, under the protection of the sacred relics, so dear to the faithful, to lead men to disturbances and some even to death.

CAUSED BY RUSSIA'S ENEMIES.

"The most grievous fact is that the disturbances were caused and brough about by Russia's enemies, brough about by Russia's enemies, and that considerable sums of money were received to create civil war, and by drawing men from their work, to prevent the due despatch of land and sea forces to the far east and supplying the active army with all its needs. Russia's enemies are striving to shake down her pillars of orthodoxy and autocracy, without which Russia would come to ruin.

"What a grief it is that orthodox people should rise against the lawful power and against one another, while their brothers are fighting in the far east and the Emperor and Empress are endeavoring to alleviate the sufferings of the wounded."

The circular concludes with adjuring the people to render obedience to the Emperor and the authorities. "Let the clergy," it says, "admonish their flocks to keep the peace. Let those in power seek the truth and defend the oppressed. Let the rich do good, and let the workers obey God's commands and beware of false counsellors, who are the associates or are in the pay of the enemy and desirous of bringing Russia to ruin."

THE CANADIAN WINTER GAME.

The following players will leave for Port Perry to-day where they play the team of that place to-night;—

Goal—Wanson.
Point—Glover.
Cover-point—Crowe.
Rover—Cavanah.
Centre—Morgan.
R. Wing—Parnell.
L. Wing—Graham.
W. A. McCord will referee.

• • • •

Lindsay Won at Home.

Lindsay, Jan. 31.—The Lindsay Hockey Club was changed considerably for the game here with Port Perry last night, and it proved a success, the home team winning by 8 to 5. It was a very fast contest. Dennison and Stewart played well for Port Perry, while Lindsay's cover-point and Taylor played star hockey for Lindsay.

• • • •

Another Professional.

Brantford, Jan. 31.—Frank Clifton, who has been playing on the forward line of the local intermediates so far this season, has received a good offer from the Canadian Soo hockey team, and left to join them. Clifton is one of the fastest forwards in the business, and undoubtedly will make good at the Soo.

• • • •

First Round of Semi-Finals.

The following semi-finals in the intermediate series will be played on he dates mentioned;—

Winner of Group No. 2, Peterborough, at winner of Group No. 1, Smith's Falls, Monday, Feb. 6th.

Winner of Group No. 1, at winner of Group No. 2, Friday, February 10.

Winner of Group No. 3, Markham or Newmarket, at winner of Group No. 4, Orangeville or Owen Sound, Wednesday, February 8th.

Winner of Group No. 4, at winner of Group No. 3, Friday, February 9th.

Winner of Group No. 5, Grimsby or Welland, at winner of Group No. 1, Berlin or Galt, Wednesday, Feb. 8th.

Winner of Group No. 11, at winner of Group No. 5, Friday, February 10th.

Winner of Group No. 6, Victoria Harbor or Midland, at winner of Group No. 7, Parry Sound, Tuesday, February 7th.

Winner of Group No. 7 at winner of Group No. 6, Friday, February 10th.

Winner of Group No. 9, Gore Bay or Little Current, at winner of Group No. 8, Themalon, Friday, February 3rd.

Winner of Group No. 8, at winner of Group No. 9, Tuesday, February 7th.

Winner of Group No. 11, Woodstock, at winner of Group No. 12, Goderich or Clinton, on Tuesday, February 7th.

Winner of Group No. 12 at winner of Group No. 11, on Friday, February 10th.

• • • •

Play Off in Lindsay.

The secretary of the T.V.L. has ordered the tie game between the T. A.S and Campbellford to be played off in Lindsay on Friday evening. A special train will be run from Campbellford, and it is expected that a large number of Peterborough people will avail themselves of the opportunity to see the game.

• • • •

The Grass Hoppers challenge the B. A.C. to a game of hockey as soon as the rink can be obtained.

• • • •

There will be a lively time at the City League games to-morrow night. Both the Farriers and Karnots are determined to win, and a hot game is assurred. Mr. W. Cavanah has consented to act as referee.

• • • •

On Saturday afternoon at the Y. M.C.A. rink, the Young Eagles will play the Ringers. The game will be a warm one.

• • • •

The Up-Town Hustlers challenge the West Enders, Barrie's Bedelias or Hickey's Terriers, and the furnished line-up of the Hustlers is as follows;—

Goal—R. Hillier.
Point—H. Miller.
Cover-point—F. Bullor.
Rover—T. Pentland.
Centre—E. Morrbet.
Right—M. Robinson.
Left—E. Saunders.
Spare—A. Mann.

• • • •

The standing of the clubs in this district is now;—

PHILLIPS' TEAM LOOKS GOOD

Manitoba Critics Pick Hat Portage to Win the Championship and Come East After the Stanley Cup

Winnipeg, Jan. 31.—Which Manitoba League team will go east after the Stanley Cup is the chief topic of conversation. Winnipeggers would like to see the Rowing Club, but the candid ones admit that they would stand no show against the husky Rough Riders. Portage la Prairie have a fair team, but have now lost Kent and Baird, although they claim they have imported better men, and will

Continued on Page Four.

KOUROPATKIN'S POSITION IS MUCH WEAKENED.

Material Change in the Russian Front Must Follow the Japs' Recent Success -- They Admit Losing 10,000 Men.

St. Petersburg, Feb. 1.—The latest reports from Warsaw depict the situation throughout Poland as increasingly serious. Minor collisions between the troops and police and the populace continue to swell the number of dead. Trade and industry are completely at a standstill, and the presence of thousands of idle workmen who are starving and desperate adds a factor of the greatest danger which is not present to the same extent in St. Petersburg, where the Government orders for war purposes have kept the factories busy.

HAVE BAD NEWS.

The American vice-consul at Warsaw, Witold Fouchas, telegraphs that many stores have been pillaged by mobs, and that the shops and factories are closed. Those who are not willing to walk out are compelled to join the strike by threats. Mr. Fouchas saw no improvement in the situation up to last night, and reported the receipt of bad news from Lodz and Radom.

It is conservatively estimated that the number of killed or wounded at Warsaw is about one hundred.

LOST MARKET.

The rioting in Poland will largely affect the economic situation. The factories at Warsaw, Lodz, Petrokoff and other industrial centers in Poland, have been compelled to gradually reduce their output and decrease their working forces since the outbreak of the war, which has almost entirely closed the Siberian and Manchurian markets. The results there have been that thousands of workmen have been thrown out of employment for many months past, furnishing a horde of hungry, dissatisfied, desperate men among whom the news from St. Petersburg produced an outburst of a riotous and incendiary spirit It is feared that a large proportion of those thousands may be utilized by the revolutionary organizations in Poland, which is the hotbed of Socialism, and the movement may develop a purely political character, though there is no indication so far of any co-operation on the part of the intelligent class of the Polish population, which is averse to a revolutionary movement.

TWICE WARNED.

The Nashashirn, a Liberal newspaper of St. Petersburg, which has received a second warning from Governor-General Trepoff, in a moderate tone, raises the legal point in connection with the firing of January 20, that the law required the police to exhaust all means to preserve order before calling on the troops, and the Nashashirn claims that this was not done before the military began firing.

TO SAVE GORKY.

London, Feb. 1.—The Berlin correspondent of the Times says; "A petition to the Russian Government to release Maxim Gorky has been started by the Berliner Tageblatt and the Goethe Association and extensively signed. A similar movement has been started in Vienna, and efforts are being made to enlist the effective support of the leading men of letters in France. In view of the proportions the movement is assuming, and of the apparent urgency of the case, I recommend the matter to the attention of Englishmen and the English-speaking world."

FOUGHT THE TROOPS.

London, Feb. 2.—The Daily Mail's Warsaw correspondent telegraphs; "The street railway service here has been partly resumed with soldiers riding before and behind the cars. Street fighting continues, and the mob is growing in dangerous fashion. There have been frequent collisions between the people and soldiers. Revolutionists attacked the troops with revolvers and knives. The principal disturbances to-day occurred in Nowiswiat street, a leading business thoroughfare.

"At 11 o'clock Sunday night a regiment of infantry marched thither from Smolna street, when somebody fired on them, whereupon the troops were ordered to form a square and fire from four sides.

WOMEN ATTACK.

"The Wola district is held by an enormous body of troops. A mob of desperate and hungry women tried to thrust soldiers' bayonets aside to get at the bakery. The guard proved good-natured and avoided hurting the women. I am accustomed to the sight of misery, but the haggard, starving wretchedness of these women always will haunt me. Even now the slightest weakening of the military would result in an immediate recrudescence of violence. Many rioters who have been arrested were found to be armed with long knives and a uniform kind of revolver, confirming reports that the revolutionary party some time back succeeded in smuggling thousands of revolvers.

"Food is almost unprocurable, and bread is at famine prices. The ambulances are busy day and night.

"God help Warsaw!"

MORE KILLING DONE.

Warsaw, Feb. 1.—Several persons were killed and many were injured in encounters with the troops and police in various parts of this city yesterday.

The first Aid Society has suspended operations, telephonic communications are interrupted, and the conditions throughout Warsaw are such that it has been impossible thus far to ascertain the number of victims.

By order of the chief of police the doors of houses are kept closed, and are only opened to admit people living on the premises.

Two additional regiments of infantry and two regiments of dragoons have arrived here.

PETERBOROUGH, FEBRUARY 1 1905

WAS A GREAT SUCCESS

ENTERTAINMENT GIVEN BY THE CENTRAL SMITH DAIRY COMPANY

Splendid Programme in Temperance Hall Thursday Night 26th. Instant—Mr. R. C. Somerville's Address

The annual entertainment of the Central Smith Dairy Co. was held in the Temperance Hall on Thursday and was a grand success, the hall being filled to its utmost capacity. Mr. T. D. Young, President, took the chair in the absence of Mr. D. Derbyshire, M.P., who was unable to attend.

Mr. Young's address was very encouraging to the Patrons, and pointed out to them the necessity of working together and keep up the good name of the factory, which was now among the leading factories on the Board.

MR. SOMERVILLE'S ADDRESS.

Mr. N. G. Somerville, of Brockville, gave an interesting address. The speaker said he was greatly delighted to see such a large gathering of men, women and children present. I wish to convey to you, said Mr. Somerville, Mr. Derbyshire's regret at not being able to be with you, and he wished me to say to you to go right on doing the good work they had been doing.

Our Dairy business was too great to think lightly of, as we, as Canadians, exported in 1904 $41,000,000 worth of dairy produce. I do not propose to come before you as a practical farmer, as I am not, but I am a farmer's son, and I am proud of it, as everyone who is raised on a farm should be, as it is the best occupation under the heavens today. If you will note the change in the farmer who has a family of boys now to a few years ago. The brightest boys are now kept on the farm and the dullest ones sent to college to make doctors or lawyers out of them.

A successful farmer must be intelligent in order to have the best results, and try and do better each year and improve each year from his own experience. We, in Brockville, as Mr. Young has referred to, have been lying on our oars and have not made the progress this year that Belleville and Peterborough sections have done, but I can assure you that in 1905 we are going to make the finest cheese in Canada.

You know that in all sections there are some cheese made, which are not the finest, and these cheese hurt our reputation as Canadian cheese, one man or factory cannot build up a nation. It is only by standing together and co-operating that we can accomplish this end, that we so much desire.

Now get a good herd of cattle of any breed you choose as there is good and bad in all breeds. See that the teats, body and udder are well eration of milking. Milk with clean, dry hands, strain immediately, and remove to a pure atmosphere, cool down to a temperature of sixty degrees, stir while cooling, and cover perfectly air tight if you will. This method will enable your cheesemaker to get the best quality of cheese as well as a better yield and if you are paying by the Babcock test, as I am told you are, you will find profitable. An improvement was made by Mr. Publow this last season by selecting the best milk coming to the factory and selecting the off-flavored and grassy milk and placing them in a vat separately. In the case of the good milk it took 10 1-4 lbs. to make a lb. of cheese and in the other case it took 14 1-4 lbs., a gain of 4 lbs. Does this not mean dollars and cents to you?

I am pleased to see so many covered stands in this section. See that your cows have plenty of good water and deliver your milk in good cool condition. Call in and see that your cheesemaker is doing his duty and keeping everything neat and clean. At this season of the year I call your attention to the matter of cool curing. By these charts one cheese cured at a temperature of from sixty to eighty degrees shrunk three pounds and one ounce, the other at a temperature of 58 degrees shrunk one pound one ounce, a saving of two pounds. This on your factory's output for the season would amount to a great deal. In 1902 at the four government cool curing rooms we were able to save in shrinkage alone on 2,070,996 lbs. of cheese, 31,403 lbs. worth $3,139.44. In 1904, on 3,758,276 lbs. 46,022 lbs., worth $4,813.66 and the quality worth 1-4 of a cent per lb. more.

A vote of thanks was tendered Mr. Somerville and the boys of the Ontario Bank.

ANNUAL REPORT.

Following is the report of Central Smith factory, 1904, which was presented last Thursday evening.

CREAMERY.

Creamery started November 16th, and closed April 30th.	
Number of patrons	80
Number of lbs. of milk delivered	591,581
Number of lbs. of butter manufactured	25,327
Average price per lb. butter	19 37-100
Average lbs. milk to 1 lb. butter	23 37-100
Amt. paid for manuf. butter	$ 823 11
Amt. paid for butter-milk	38 52
Amt. paid to patrons	4,083 54
Gross value of milk	4,905 17

CHEESE, (Autumn).

Factory opened May 2nd, and closed November 2nd.	
Number of patrons	80
Number lbs. milk delivered	2,450,881
Number lbs. of cheese manuf.	
Average price per lb. cheese	8 32-100
Average lbs. milk to 1 lb. cheese	10.90
Amt. paid for manuf. cheese	$ 2,228 88
Amt. paid for whey	942 43
Amt. paid for patrons	16,319 49
Gross value of milk	19,090 80
Milk delivered Saturday nights:	
Amt. of milk delivered	50,195
Amt of butter manuf'g	2,097
Amt. paid for manuf'g	$ 68 15
Amt. paid to patrons	309 31
Amt. paid for butter-milk	7 10
Gross value of milk	384 56

Total aggregate business for the year, $24,440.53. Total increase from 1903, $5,089.65.

PROGRAM.

"The Maple Leaf Forever," by G. H. Graham.

Time, for fruit social.
Addresses by Rev. Mr. Whitelaw and Rev. Mr. McKinnon.
Solo, by Mr. Sawers, of the Ontario Bank, Peterborough.

AUSTRIA MAY OCCUPY FRONTIER

Vienna Means Report Three Army Corps are Being Mobilized

Vienna, January 31.—A Lemberg newspaper, the Kurjer Lwowski, publishes a rumor that the Russian revolution will lead to Austrian occupation of the frontier under the pretext of pacification. Three army corps are being mobilized in Galicia. Six million crowns are ready for necessary expenses.

Breslau, Prussia, January 31. — A curious story comes from Beuthen, Prussia, near the Polish frontier, that the garrison there is exercised sometimes during the day and sometimes at night in sudden alarms for the defense of the Prussian frontier, with the object of being prepared to prevent a violation of the frontier should the disorders in Russian Poland make headway.

Beef Trust Loses

Washington, Jan. 31.—The Supreme Court of the United States to-day decided the case of the United States v. Swift and Company, known as the beef trust case, charging conspiracy among the packers to fix prices on fresh meats, etc. The opinion was handed down by Justice Holmes, and affirmed the decision of the court below, which was against the packers.

NERVOUS, IRRITABLE people are very trying to live with, we speak feelingly; to all such we recommend "The D & L" Emulsion. It is prescribed by the leading physicians

KEENE.

—The Keene Curling and Skating Rink Co.'s first carnival was held on Friday, Jan. 27th. It was very successful, and the usual pleasant time was spent by all. The costume list contained the following costumes, and the prizes were awarded as follows.

Miss	Nellie Drummond	Aunt Sally
"	Bessie Read	Kitchen Maid
"	Jennie Weir	Gipsy Princess
"	Susie Moore	Dutch Girl
"	Sadie Kempt	Rose Bush
"	Laura McFarlane	Magazines
"	Nellie Read	Dutch Girl
"	Katie Skinner	Japanese Girl
"	Lyla Drummond	Mother Goose
"	Lillie Bell	Grecian Lady
"	Isabel McIntyre	Good Luck
"	Irene Shaw	Japan Maid
"	Mary Miller	Aunt Jemima
"	Jean Humphries	Snow Flake
"	Jean Campbell	Clowness
"	Jennie Nelson	Malinda Styker
"	Bella Drummond	Aunt Dutch
"	Ella Boyle	Night
Mr	Geo. Read	Jack of Hearts
"	R. E. Skinner	Clown
"	Ormond Weir	Irish Peasant
"	Fred Taylor	Biker
"	W. A McIntyre	Japanese
"	Jas. A. Campbell	R. M. C.
"	Roland Weir	Country Jim
"	Thomas Campbell	Little Lord Fauntl oy
"	Jno. J. Fitzner	Private

The prize winners were:

Best dressed lady (fancy), Miss Boyle; best dressed lady (comic), Miss Mary Miller; best dressed gent (fancy), Mr. Wm. A. McIntyre; best dressed gent (comic), Mr. Jos. Elmhirst; best dressed girl (fancy), Miss Katie Skinner; best dressed girl (comic), Miss Laura McFarlane; best dressed boy (fancy), Master Tom Campbell; best dressed boy (comic), Master Rollie Weir.

The date of the next and last Carnival of the season is February 17th.

—The Keene hockey team went to Campbellford on Saturday, January 28th, and were defeated by 13 to 3. When they arrived in the town they were met by an angry rabble, who wanted to know what they meant by allowing the T.A.S. to beat them. They said you want them to win the district. On commencing the game Campbellford team began to slash, and were known to break three and four sticks on a Keene man as he passed the rubber down thorugh them. They had a referee who did not understand the game, and who, if he had done so, was too frightened to carry it out. The spectators kept rushing on the ice and threatening to mob the Keene boys. After the game the boys were followed to the hotel, and from there to the station. The boys say it was one of the most disgraceful sights they ever witnessed. Well, boys, you know the old saying. "Can anything good come out of Nazareth?" thus can anything but dirt come from Campbellford. They were always known for kickers. The mainstay of their filth is Shannon, who knows nothing else. When the time comes for the draw to be played between the T.A.S and the rot of Campbellford, the Keene seven with many supporters will be there. I would not give much for Shannon's chances if he is ever caught outside of his own little ash pit. Why not play the game in Keene? I am sure the T.A.S. are willing to do so, as are also the people of this village.

The Canadian Northwest

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

1] At least six months' residence upon and cultivation of the land in each year during the term of three years.

2] If the father (or mother, if the father is deceased), or any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same town, township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses [2] [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Land Agents in Manitoba or the Northwest Territories.

W. W. CORY, Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

AUTHORS & COX

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

INCORPORATED

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and profitable investment. Every dollar of stock is guaranteed by twenty year, full paid, gold bond, delivered to purchaser of stock, from an Investment Company that has no interest whatever in the company, but who are disposing of the deben ured bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the State Treasurer under which they received their charter, thereby doubly securing the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvellously rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Sumner and Jack Mining Co., Limited, Elandsfountain, South Africa:—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world.

"With the present development of the Monument Mine, I estimate that 100 tons per day can be extracted, which will mill from $15.00 to $20.00 per ton. The total cost of mining, sorting, development and milling, I place at about $4.00 per ton. With increased mining capacity, it is safe to say that the mine can furnish 100 tons of $15.00 ore, which would yield a clear profit of $11.00 per ton, or $1,100.00 per day (equal to $100,000.00 per annum). Estimated total value of ore in sight, $2,500,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Dr. Brown writes as follows:—

"In regards to the amount of ore available at the mines at Sinclair, I saw on the dumps several thousand tons, probably 5000 tons would be an under-estimate.

"As to the size of the ore body itself, from what I saw of the geological structure, I think that there is every indication that it will be found to extend underground as far as the out-croppings on the south side of the gulch. This would mean as ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish full information to investors.

VARICOCELE CURED

NO NAMES USED WITHOUT WRITTEN CONSENT.

Confined to His Home for Weeks.

"Heavy work, severe straining and evil habits in youth brought on a double varicocele. When I worked hard the aching would become severe and I was often laid up for a week at a time. My family physician told me an operation was my only hope—but I dreaded it. I tried several specialists, but soon found out all they wanted was my money. I commenced to look upon all doctors as little better than rogues. One day my boss asked me why I was off work so much and I told him my condition. He advised me to consult Drs. Kennedy and Kergan, as he had taken treatment from them himself and knew they were square and skilful. He wrote them and got the New Method Treatment for me. My progress was somewhat slow and during the first month's treatment I was somewhat discouraged. However, I continued treatment for three months longer and was rewarded with a complete cure. I could only earn $12 a week in a machine shop before treatment, now I am earning $21 and never lose a day. I wish all sufferers knew of your valuable treatment.
HENRY C. LOCUST.

HAS YOUR BLOOD BEEN DISEASED?

BLOOD POISONS are the most prevalent and most serious diseases. They sap the very life blood of the victim and unless entirely eradicated from the system will cause serious complications. Beware of Mercury. It only suppresses the symptoms—our NEW METHOD positively cures all blood diseases forever.

YOUNG OR MIDDLE-AGED MEN.—Imprudent acts or later excesses have broken down your system. You feel the symptoms stealing over you. Mentally, physically and vitally you are not the man you used to be or should be. Will you heed the danger signals?

READER Are you a victim? Have you lost hope? Are you intending to marry? Has your blood been diseased? Have you any weakness? Our New Method Treatment will cure you. What it has done for others it will do for you. CONSULTATION FREE. No matter who has treated you, write for an honest opinion Free of Charge. BOOKS FREE—"The Golden Monitor" (Illustrated), on Diseases of Men.

NO NAMES USED WITHOUT WRITTEN CONSENT. PRIVATE. No names on boxes or envelopes. Everything confidential. Question List and cost of treatment FREE for Home Treatment.

DRS. KENNEDY & KERGAN

Cor. Mich. Ave. and Shelby St., Detroit, Mich.

A SPLENDID PROPOSITION

The Salido Gold and Copper Company

Incorporated under the laws of Arizona, with a capital of $3,000,000 forever non-assessable divided into shares of $1 each, par value. All investments insured Granite Securities Company.

The "SALIDO GOLD COPPER COMPANY" enterprise offers attractions to the investors of this country, that without thorough investigation, would scarcely seem probable. If only a fraction of what any prudent business man in his own mind would regard as absolutely certain, the enterprise must prove abundantly successful and exceedingly profitable.

SALE OF STOCK

The company will prosecute the work of development with all the diligence that the cash in the treasury will permit and circumstances warrant, and to this end a small amount of the treasury stock is now placed upon the market, in blocks of not less than One Hundred Shares. The par value of the stock is One Dollar per share, fully paid and forever non-assessable.

The company reserves the right to advance the price of stock without notice.

REMEMBER

First—That all payments for treasury stock go into the treasury for development work and not into the pockets of the promoters.

Second—There are no salaried officers.

Third—The incorporators have put their own good money into this enterprise and being business men, intend to do business along business lines.

Fourth—That this company is honest.

Fifth—If you are thinking of investing in mining stocks this is worthy of your careful investigation.

OTHER PROPERTIES

This Company owns four other Gold and Copper Mines, which title is now in process in the laws of Mexico. As soon as title is perfected, we shall commence to develop them as we certainly expect something very great from these properties. Our assays: ores have been of the very best, showing gold and copper from $6.00 to $122.30 per ton.

I have secured a small block of this stock, which I offer at the following prices: Unguaranteed 40 cents per share, guaranteed 80 cents per share. These prices will only prevail for a short time, as the number of shares for sale at this price is limited. The Shares will then be advanced to 40 cents for the unguaranteed and 80 cents for the guaranteed. I can unhesitatingly recommend this investment to the Canadian public.

W. K. HALL,

FISCAL AGENT, ... PETERBOROUGH

Agents wanted in outlying districts, including Toronto.

The California Buckeye Mine

This mine consists of 15 acres of good zinc land, well prospected by drill holes showing forty feet of good pay dirt at a depth of 154 feet.

On the property are hoisting engine, shaft house, ore buckets, Worthington steam pump, air drill, cars and pipes. Over $15,000 have been expended to date, and the proposition itself is a good one—so much so that we can personally guarantee an immediate dividend of 8 per cent. this year and 12 per cent. after 1905, with an additional quarterly dividend.

Capital Stock $250,000

Shares, par value $1.00 each Fully paid up and non-assessable. No Preferred Stock. No bonded indebtedness

The shares are selling at 20 cents each, with a prospect of the price being raised.

The Joplin Daily Globe says that over $10,000,000 worth of zinc and lead were mined in 1904, up to 1st Dec., in the Joplin District. In the California Buckeye Zinc Mine, located in the centre of the Joplin District, it has been demonstrated that the ore body has an average thickness of 42 feet and the runs are 50 feet wide, about 170 feet from the surface.

The rough dirt for the first three months of operation produced zinc ore to the amount of $12.95 per cent., while the average for the district is less than 5 per cent., but for the purpose of being on the safe side, we calculate on only 8 per cent. ore to the ton of dirt, and it shows a profit each day with two shifts of men, of $566.20.

We stand ready to prove every statement made, and if enough stock is subscribed for in this locality a directorship of the company is at the disposal of the subscribers.

Any further information and proofs of earning capacity will be cheerfully supplied.

From Yesterday's Issue

BLACK CLOUDS HANG OVER RUSSIAN SKIES

Revolutionary Spirit is Expected to Spread to all Parts of Empire

UNREST IN EVERY CLASS

Jews, Finns and Armenians are Ready to Add Faggots to To ch of Insurrection

London, January 31.— Underneath the excitement incident to the fierce rioting and bloodshed, the speculative feature of the Russian situation that is forcing itself on Europe is: To what extent will the revolutionary spirit in the present industrial uprising permeate and govern the masses in the smaller cities and rural Russia?

On this point is believed to hang the immediate future of the empire. With 50,000 troops in St. Petersburg—most of them drawn from sections that insure their lack of sympathy for the St. Petersburg masses—it is thought a mere industrial strike of any proportions can be at least temporarily quelled. Every indication, however, points to deeper causes for the present trouble than dissatisfaction of workingmen with wages and industrial conditions.

GOVERNMENT SEES CAUSES.

Even the Government version, as recited in the Official Messenger, takes cognisance of the deeper causes in this language:

"The agitation of the workmen's association was, however, soon joined by the agitation of revolutionary circles. On the morning of Jan. 21 the workmen's association, led by Father Gopon, appeared with open revolutionary tendencies."

Experts in Russian affairs, therefore, are disposed to minimize the industrial causes proper and to attribute the ferocity and extent of the movement to political causes largely.

Everything possible will be done by the Russian Government to keep accurate knowledge of the horrors of Sunday and Monday from rural Russia. In this direction lies the chief hope of preventing a rapid spread of the uprising. Newspapers in St. Petersburg are tied up by the strike and other means of communication cut off. The revolutionists, on the other hand, will see to it that a correct version of the affairs be disseminated through circulars in spite of government edicts.

SPREAD OF STRIFE SEEMS SURE.

The effect of the general knowledge of the Czar's refusal to receive the petition of the workingmen, in all probability, will be to foment and crystallise the intense revolutionary spirit of the country at large. The Jews rejoice in any prospect of government overthrow. The Finns would prove ready allies of the government's enemies. The Armenians have been for some time on the verge of revolt. And the industrial and peasant classes, are galled under official oppression.

The mass of political combustibles is ready for the torch. If the force of the explosion of resentment in St. Petersburg proves sufficient to scatter the burning fagots throughout Russia, a general revolutionary conflagration without doubt will result.

Russia politically is divided into four classes—the nobility; the clergy; merchants; artisans and burghers, and the workingmen and peasants. Numerically the fourth class has given to the revolutionary cause its greatest strength. The workingmen in the cities find their political counterparts in the peasants of the country. One is as thoroughly saturated with the spirit of revolt as the other.

WORSE CONDITIONS IN CAPITAL.

Under the system of oligarchic oppression the screws of tyranny have cut deeply into the toilers of the city of St. Petersburg. Here wages are meager and the proportionate cost of living high. Here also the facilities for organisation were greatest. The capital city, was, therefore, the spot in which the smoldering volcano of resentment first broke through the confining crust of that oppressive system founded by Peter the Great — the bureaucracy.

In the composition of the St. Petersburg mob the fourth division of political Russia dominates. By representatives of official Russia the rebellionists are termed the "scum." The artisans, members of the different guilds and the burghers have taken no appreciable part in the insurrection against autocracy. Not that they do not sympathize, but because they have more at stake. The revolutionary spirit, in fact, stretches from the meanest workman to the court itself, to greater or less degree, and in this fact the reactionists find their chief source of dread. With the lowest class in open rebellion, the middle class sympathetic and with able leadership likely to develop from the higher class, Russia's sky hangs heavy.

MAIL CONTRACT

SEALED TENDERS, addressed to the Postmaster General, will be received at Ottawa until Noon, on Friday, the 3rd March, 1905, for the conveyance of His Majesty's Mails on a proposed Contract for four years, nine times per week each way, between Peterborough and C. P. and C. T. Ry. Stations, from the 1st April next.

Printed notices containing further information as to conditions of proposed Contract may be seen and blank forms of Tender may be obtained at the Post Office of Peterborough and at the Office of the Post Office Inspector at Kingston.

G. C. ANDERSON,
Superintendent.

Post Office Department.
Mail Contract Branch.
Ottawa, 12th January, 1905.

AN OPEN LETTER FROM MR. W. J. GAGE.

TORONTO, CAN., Dec. 1, 1904.

DEAR FRIEND,

We again come to you with our story of trouble, but a story of surprising and encouraging results.

No apology is necessary; the great work of the National Sanitarium Association, carried on at the Muskoka Cottage Sanatorium and Free Hospital for Consumptives, is now well known.

The 1,500 patients cared for in these two Homes plead for your help.

The large number of lives saved, of those who a few years ago were supposed to be "under sentence of death," gives a right to your sympathy.

In helping to rescue a number great enough to constitute a large prosperous village, the giving back to home and friends a regiment of workers, surely will arouse interest in this work of mercy.

Each patient cured for in our Consumptive Homes, removes a source of danger, so that the life of every citizen in Canada is more secure.

The marvellous decrease of 40 per cent. in three years in the death-rate in Ontario from consumption proves that the fight against this dread disease is no losing one.

The **Muskoka Free Hospital for Consumptives**, for which this appeal is made, without any endowment keeps an open door to all who are poor and sick, as long as a vacant bed remains.

Nearly 600 patients have been cared for in this Hospital since it was opened less than three years ago. This has only been possible because of the continuous stream of gifts that have come to us from every part of Canada.

Remember, too, these were patients that other hospitals as a rule refuse.

Almost every trade and profession has sent its representative, and of every age—from the young schoolboy of 12 to the widowed mother of 60.

Trustees of the Free Hospital for Consumptives through contributions and bequests.

$60,000 should be given this year if the Board is to provide for the increased accommodation and maintenance of those pleading for admission.

Where will your money do so much good in bringing health to the sick and protecting the lives of those in your home?

Why should consumption not be stamped out if the needful money and help be forthcoming?

The official Report of the Secretary of the Provincial Board of Health tells a **surprising story**—a story of a winning fight, showing that from 1897 up to 1900 there was a **steady increase** in the death-rate from Tuberculosis.

From 1900 there has been a **large decrease each year**, reducing the death-rate from 2,484 to 2,072 in three years, or **over 40 per cent.** This is all the more remarkable in view of the increase in population.

You have the joy of knowing that your dollar has helped in this merciful work.

The pitiful part of it all is in knowing how many more lives could have been saved if the needful money had been forthcoming to provide additional beds.

Will you not join in this great life-saving work?

Your dollar will bring gladness.

Fifty dollars will keep a sick one for two months; may save a life. Three hundred dollars will endow a bed for a year.

Yours sincerely

GREAT COUNTRY GRAND CHANCES GLORIOUS CLIMATE

A SPLENDID PROPOSITION

Rare Chance to Secure a Paying Investment

THE GOLD COIN MINING COMPANY

has placed a small block of their stock at the disposal of Canadian investors. This stock is sure to rapidly advance in price. The Company is now arranging to instal the power plant and a mill and cyanide plant for the reduction of their ore to a bullion on the property. They have arranged with a Trust Company having assets of $1,500,000 to put up a bond guaranteeing investors the repayment of the full amount invested. This makes investors absolutely safe. By no possibility can they lose a dollar.

THE GOLD COIN MINING COMPANY was organized November 21, 1902, under the laws of the State of Idaho. The capitalization is one million shares of the par value of one dollar each, fully paid and non-assessable; of the 1,000,000 shares, 400,000 have been set aside as treasury stock.

THE BOISE BASIN came into prominence shortly after Grimes and his party of prospectors entered the Basin country in 1862; their entrance was into the northern portion, and one discovery of rich placer ground followed another until the news of the rich finds reached the outside world, when a veritable stampede for Boise Basin commenced. towns sprang up and grew together in an incredibly short time; the rush of people to Idaho City made it a place of 20,000 people in 1867, having a business street over a mile long lined with two-story buildings, streets and sidewalks filled with people day and night, business and money on every hand and the city bearing the proud distinction of being the capital of the territory of Idaho. Wages ran from $6 to $10 a day and not infrequently forty and fifty men worked on a single placer claim; the clean-up for a day's work in many instances ran close to $5,000; large fortunes were made in a few days by washing the golden sands in a pan; so eager was the quest for the shining metal that the streets of Idaho City were dug up and washed and re-washed, and the soil removed from under the houses and places of business. So extensive was the search for the hidden treasure that not only all of the low ground was worked but the foot of the mountains surrounding the city have been washed away, filling up the lower portions of the basin and extending into the town, where one of the buildings has been buried under the tailings from the numerous placer workings.

LOCATION—The property of the Gold Coin Mining Company is situated in the Gambrinus Mining District, Boise County, Idaho, on the range of mountains between Moore Creek and Elk Creek, which forms a part of the eastern boundary of the famous Boise Basin and into which these mountains are drained. The property is located ten miles northeast of Idaho City, from which place there are good wagon roads either to the workings on top of the mountain or to the place of the proposed tunnels in the gulch which crosses the Tunnelsite claim.

THE CLAIMS—The Company owns a group of four contiguous lode mining claims and the Gold Coin Millsite: the names of the lode claims are the Tunnelsite, Blue Bell, Pennsylvania and Homestake, each being a full claim 600 feet wide by 1,500 feet long, excepting the Tunnelsite claim, which is 450 feet wide at the west end and 1,055 feet long: it was necessary to stake the claim in this form on account of joining the Washington property on the south and the Sub Rosa property on the west, these properties being prior locations to the Tunnelsite claim. The four lode claims aggregate nearly 60 acres of rich mineral land.

Further particulars may be had on application to WM. SAILSBURY, Fiscal Agent of the Company Peterborough, Ont., or to

S. E. PHELPS, Secretary,
311 SCHOFIELD BUILDING, CLEVELAND, OHIO.

Fine Weather Gives Relief from Catarrh

But Never Cures it Because the Germs are Still Alive Though Inactive. First Kill the Germs Then You'll be Really Cured.

Catarrh germs are carried into the throat and lungs by the air we breathe. In the same way the remedy must be applied. To be effectual the cure must be breathed, for otherwise it can't get where the germs really are.

Mix your germ-killing medicine with air, breathe it right into all the little air cells where the catarrh really is, then you'll get cured quickly. This is exactly the way Catarrhozone acts. You inhale its medicated vapor to the very source of the disease. It destroys the cause of the inflammation, kills all the microbes that develop when the lining membranes become diseased. Besides this Catarrhozone is a wonderful healer. Every sore spot is rebuilt with new healthy tissue. All the poisonous secretions that have been putrifying the system are driven out. No trace of catarrh remains after Catarrhozone has been used.

Why don't you use Catarrhozone? Its the simplest thing in the world to use, and so sure to cure permanently that you really can't afford to be without it.

MISS E. M. PETERS is known by every resident in the pretty town of Highland Grove. She was cured by Catarrhozone of systematic catarrh and says; "For three years before I commenced using Catarrhozone I was continually bothered by a congested condition of my nose and throat. I was sneezing and coughing all the time and really never felt well. I perservered with Catarrhozone and was rewarded by being entirely cured. My recovery prompted others in this locality to use Catarrhozone, and many of them have had remarkable cures from using it."

MISS LOUISE MURPHY a well known society belle residing at 22 Monument St., Medford, writes; "Kindly forward me three outfits of Catarrhozone which I have found most valuable for catarrhal affections of the nose and throat. Catarrhozone cured me of weak lungs and really saved me from consumption. I am recommending Catarrhozone above all other treatments, knowing what great curative powers it possesses. I know others who have also benefitted by Catarrhozone."

Catarrhozone is perfectly harmless and may be used with perfect safety by the most delicate infant. Instead of deadening the stomach with drugs, it sends the healing vapor along with the air you breathe into every air cell and passage of the nose, throat, lungs and bronchial tubes. Catarrhozone can't fail, it's sure to cure. If not satisfied you can have your money back for the asking. Two months' treatment, hard rubber inhaler and extra bottle of inhalant costs $1.00, sample size 25c. By mail to any address if price is forwarded to N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont., Can

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 80 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence courses.

Girl Wanted

A girl with some experience wanted at The Times bindery, to feed ruling machine. Apply at Times Bookstore.

A Sad Message

On Monday Mr. A. B. Cunningham, Reid street, received a telegram conveying the sad intelligence of the death of his mother, Mrs. William Cunningham, in Alliston. The deceased lady had been ailing for some time but her death was not expected. Only a few weeks ago the deceased's daughter died. Mr. and Mrs. Cunningham left for Alliston yesterday morning to attend the funeral.

May Prove Fatal

Another stabbing affray in the Italian settlement on Bethune street occurred last evening, and may prove fatal. Some trouble arose among the occupants of the house, who are all Italians, which ended in a fight, and as a result the usual stabbing affray occurred, one of the Italians being stabbed in the abdomen. The wounded man was conveyed to the hospital, and is in a serious condition.

C. P. R. Telegraphers Arbitration

The Grand Trunk telegraphers have been informed that they may expect the delivery of the finding of the arbitrators on or about February 1. A representative of the press in conversation with a well-known telegrapher last night, was informed that the men are sorry that their differences were ever submitted to arbitration. They point to the fact that the C.P.R. telegraphers declared they had nothing to arbitrate, and that they are receiving remuneration fully 20 per cent. better than their fellow operators on the Grand Trunk. The die has been cast, however, and whatever may be the finding of the arbitrators the telegraphers must accept as final.

EXTRA POSTAL SERVICE

A Second Mail to Fraserville to be Instituted

The Post Office Department at Ottawa have authorized an immediate increase in the mail service to Fraserville. In future they will have two mails a day instead of one. The people of the village and vicinity have reason to thank Mr. R. R. Hall, M.P., for this much needed accommodation.

THE OFFICIAL MAJORITY

Mr. T. F. Bradburn's Lower Row Stands at 1174 Majority

Yesterday Mr. Sheriff Hall made out the official returns for West Peterborough. They show that Mr. T. F. Bradburn has been elected as the riding's representative in the Legislature by a majority of 1174. The only townships in which Mr. McWilliams obtained a majority of the votes polled were Galway, Cavendish and Harvey, the total being 68. There were 30 rejected ballots, six spoiled and 5 tendered.

A PLEASANT AT HOME

Camp Clan Alpine Give a Successful Concert

Last night Camp Clan Alpine, No. 36, Sons of Scotland, gave a very enjoyable and successful at home and smoker, in their hall, over the the Palace Cafe. The "clan" was out in all its strength, headed by Chief J. J. MacPherson.

A good program of songs and music made the night a very enjoyable one.

Although only a young society in Peterborough, the camp has grown to be quite a large institution. The officers are: J. J. MacPherson, chief; Alex. Gregg, chieftan; F. R. J. MacPherson, secretary; J. M. Brooks, treasurer.

CENTRAL CHARITY BOARD

Aid Given to End of Year Amounted to Over $2500.00

The Central Charity Board met on Monday evening. There were present —Messrs. H. Rush, chairman; Rev. Father McColl, Geo. Cochrane, R. C. Braund, Wm. Yelland, Jos. Batten, J. D. Collins, F. W. Miller, Rev. E. A. Langfeldt, Wm. Kemp and Wm. Fowler.

The following accounts were ordered to be paid:—

Jas. R. Bell	$6.00
R. H. Leary	1.00
D. Hellegbem	7.00
A. Armstrong	25
H. Edmison	50
E. Flaherty	1.00
A. Allison	6.00
W. Bradshaw	4.00
White & Gillespie	8.00
Waller & Co.	4.00
Review Co.	6.50
R. C. Braund	2.00
F. F. Mason & Co.	9.00
C.P.R. Co.	2.50
W. H. Hamilton	7.00
J. J. Lynch	2 00
T. B. Manisee	4.00
M. H. Halpin	4.00
Ormond & Walsh	5.50
J. C. Sullivan	2.00
F. J. R. Mitchell	3.00

After considering several applications the Board adjourned to meet on Monday, Feb. 13th, 1905.

A PRETTY HOME WEDDING

Happy Nuptials of Miss Gertrude Mary Blewett and Mr. George G. Henderson

On Wednesday, January 25th, a very pretty wedding took place at the residence of Mr. M. Blewett, Smith Township, when his youngest daughter, Gertrude May, was married to Mr. Geo. G. Henderson, of Lakefield. The ceremony was performed by Rev. L. McKinnon, of Gilmour Memorial church, in the presence of about fifty guests. The wedding march was played by Miss Alice Hunter, niece of the groom.

The bride was attired in cream silk trimmed with chiffon and sequins. The pretty little flower girl, Miss Gertrude G. Middleton, niece of the bride, was also dressed in cream silk, and carried a basket of flowers. The bride's bouquet was of white roses. Among the many beautiful presents received by this popular young couple was a china tea set from Mr. Geo. Hoseborough, uncle of the bride.

A dainty wedding breakfast was partaken of by the guests, after the ceremony, after which Mr. and Mrs. Henderson left for their new home in Lakefield.

THE NEW WARDEN

As foreshadowed by The Times a few days ago, Mr. Wm. T. Buck, of Norwood, was elected warden of the County of Peterborough for the year 1905. Mr. Buck was born in the County, Asphodel township being his birthplace. He has been six years a member of the County Council, having previous to this been a member of the Council of his native township as Councillor for four years and as Reeve for two terms. It is needless to add that his record was of the best.

The Times extends its heartiest congratulations to Mr. Buck on his elevation to the highest office in the gift of the county.

COST OF GAS PRODUCTION

Montreal Experts Place it at Fifteen to Twenty-Six Cents

Some time ago The Times investigated the cost of the manufacture of gas, and secured some valuable information relating to this matter. In Hamilton, Mr. Hall, City Assessment Commissioner, was appointed by the council to investigate and report. He stated that gas from coal costs from 30 to 40 cents per 1,000 feet.

From Montreal comes the statement that reports on the cost of gas production have been made to the city council by the deputy city surveyor and the boiler inspector. The estimates of these experts place the actual cost of production at from fifteen to twenty-six cents a thousand feet, which could be supplied to consumers at 65c. the first year, 48c. after the tenth year and 33c. after the twentieth year.

In Peterborough we pay $1.00 and $1.25 per 1,000 feet for gas. It must be remembered that there is a big difference between gas made from coal and from oil. The latter is much the cheapest. We get the latter here. Surely this is a matter for the Council to deal with.

AN IMPORTANT INDUSTRY

Annual Meeting of the Peterborough Cold Storage Company

There were almost one hundred shareholders present at the annual meeting of the shareholders of the Peterborough Cold Storage and Provision Company, Limited, which took place on Wednesday last in the Foresters' Hall, George street.

Statements were received from the old directors and the auditors indicating a flourishing state of affairs.

The election of directors then took place and resulted in the following gentlemen being chosen. — Messrs. D. Comstock, Kendal; Geo. Best, Port Hope; J. W. Martyn, Canton; A. Jackson, Kendal, and N. Wilson, Port Hope.

The old board of directors consisted of M. Carton, president; Jas. Middleton, Wm. Anderson, Dr. Jeffs and J. W. Miller.

After the election of officers a proposal was considered in reference to extending the powers of the company to the manufacture of sugar. The matter was thoroughly discussed and the proposal was looked upon favorably by a number of the shareholders. It is probable that some arrangement may be arrived at whereby all the shareholders may be satisfied. Those desiring to withdraw from the company may do so after satisfying certain conditions.

The new officers are;

President—D. Comstock.

Vice-Pres.—Geo. Best.

Sec.-Treas.—J. W. Martyn.

REMOVAL

C. Milhelmy has removed his place of business to No. 453 George Street, next door to the Peterborough Light and Power Company

LITTLE LOCAL LINES

Doings Here and There by Times Reporters on Their Round

—The Board of Works met last night.

—Winter seems to be trying on its old-fashioned duds.

—Large variety of valentines to choose from at Times Bookstore.

—T. A. Frost, tinsmith, of Hastings, has made an assignment to L. F. Clarry.

—Otonabee Lodge, I.O.F., will hold a "smoker" in their rooms on Monday, February 13th.

—The inaugural meeting of the Board of Education will take place at the Secretary's office this evening.

—After a snowstorm, a sidewalk looks spotlessly white and clean. Then we clean it, and it looks dirty.

—Slaughter prices in rocking horses. Also all games at greatly reduced prices to clear during this month. Times Bookstore.

—The Board of Health will meet this morning at 11 o'clock when Dr. Bingham, M.H.O., will present his annual report.

—It is all very well to tell the Ontario civil service that the battle is over. They fear that the "firing" is just about to begin.

—Dr. C. H. Amys of Ashburnham, has purchased the practice of the late Dr. Pigeon, and will move into the residence occupied by the late doctor in the course of a short time.

—The Sarah McLelland Waddell scholarship in theology at Queen's University, Kingston, value $120, has been awarded to C. E. Kidd, of Prospect, Ont. J. D. MacKinnon, Lake Ainslie, N.S., has won the James Anderson bursary, $35, for the best sermon preached in Gaelic.

—In St. Paul's church yesterday it was announced that the members of the congregation would be called upon during the next few days in connection with the proposal to wipe out the church debt of $4,000 within the next three years. Subscribers to the liquidation fund will be asked to make their payments in three annual installments.

Demonstration of Benedorpe Cocoa in grocery store from Monday till Saturday.

P. A. DUTTON

Phone 304. 418-420 George Street

—A north end citizen was arrested last night for non-support of his wife and family.

The Pace That Tells.

In the six day bicycle races the pace tells terribly at the end. Man after man falls out exhausted. The victor wabbles wearily over the line. In the business race it's the same. Man after man drops out exhausted. The successful man is often a dyspeptic, unable to enjoy success. When the stomach is diseased there is not enough nutrition assimilated to sustain the body and repair the daily waste of tissues. The result is weakness, leading to collapse.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It enables the perfect assimilation of food by which the body is built up with sound, healthy flesh.

"I have taken one bottle of Doctor Pierce's Golden Medical Discovery for indigestion and liver complaint," writes Mr. C. M. Wilson, of Yadkin College, Davidson Co., N. C. "Have had so bad spells since I commenced taking your medicine—in fact, have not felt like the same man. Before I took the 'Golden Medical Discovery' I could not eat anything without awful distress, but now I can eat anything I wish without having unpleasant feelings. Last summer our baby was teething and was so poor he was almost a skeleton. We gave him your 'Golden Medical Discovery' and now he is as healthy and well as any child. I will speak a good word for your medicine whenever I have an opportunity."

Dr. Pierce's Pellets cure sick headache.

SOCIAL AND PERSONAL

—ExWarden Hunter took in the inaugral meeting of the County Council yesterday.

—The many friends of Mrs. O. Mowry, will regret to learn of her serious illness.

—Miss Hettie Read, of Millbrook, who has been in town for a few days, returned home yesterday.

—Mrs. J. Colin Grant, 65 Sorauren avenue, Toronto, is the guest of her parents, Mr. and Mrs. J. L. Hughes.

—Mrs. Griffin W. Jones will receive on the first and third Fridays at her home, 18 Belmont avenue.

—Mr. Robert Todd, son of Mr. R. J. Todd, of 456 Aylmer street, arrived home yesterday from Winnipeg, after an absence of about six months.

AN UGLY FAMILY of skin diseases is the one generally described by the word Eczema. In all its forms it resists ordinary treatment, but is completely cured by Weaver's Cerate used in connection with Weaver's Syrup.

ATHLETIC WORLD

BY OUR SPORTING EDITOR

(Continued from page 1.)

surprise the talent yet, but no one takes them very seriously. They will, however, win the majority of their games. The team that looks good to the impartial observer is the Rat Portage Thistles. The betting is 2 to 1 that they win the championship and even money that they lift the cup. They have won their home games by 14 to 2 and 10 to 4, beat the Vics in Winnipeg 5 to 1, and lost to Rowere 3 to 2. The latter game was a fluke, however. They had four-fifths of the play, and shot ten times to the Rowers' once, but the magnificent defence work of the winners combined with luck, won them the game. The Thistles are a husky team, very fast, expert stick-handlers, and check back well. One Winnipeg spectator described them as the fastest bunch on skates. They can take and give body-checking, and are in the pink of condition. They play a very clean game, and try to avoid being ruled off. They are developing a fast combination. Toronto people know how fast Tom Phillips is. Griffis is faster, as is Bellefeuille, their cover-point, while Hooper and McGimsie are nearly Phillips' equals. They can throw five men on the forward line, as Griffis is a star cover-point, and interchanges with Bellefeuille quite often. Tiercoux in goal needs no mention, while Mat Brown at point plays a steady game.

• • • •

The first of the final games for the senior championship of the O. H. A. will be played in Toronto, at the Mutual Street Rink, on Saturday, Feb. 18. Marlboros will meet the winners of the eastern groups, who will be known next week. The return game will be played Wednesday, Feb. 22, at the Eastern winner's.

From a Keene Correspondent.

—The Keene hockey team went to Campbellford on Saturday, January 28th, and were defeated by 13 to 5. When they arrived in the town they were met by an angry rabble, who wanted to know what they meant by allowing the T.A.S. to beat them. They said you want them to win the district. On commencing the game Campbellford team began to slash, and were known to break three and four sticks on a Keene man as he carried the rubber disc thorugh them. They had a referee who did not understand the game, and who, if he had done so, was too frightened to carry it out. The spectators kept rushing on the ice and threatening to mob the Keene boys. After the game the boys were followed to the hotel, and from there to the station. The boys say it was one of the most disgraceful sights they ever witnessed. Well, boys, you know the old saying; "Can anything good come out of Nazareth?" this can anything but dirt come from Campbellford. They were always known for kickers. The mainstay of their filth is Shannon, who knows nothing else. When the time comes for the draw to be played between the T.A.S. and the rot of Campbellford, the Keene seven with many supporter's will be there. I would not give much for Shannon's chances if he is ever caught outside of his own little sash pit. Why not play the game in Keene? I am sure the T. A.S. are willing to do so; so are also the people of this village.

BIG BATTLE IN PROGRESS.

Kouropatkin Trying to Force the Greatest Battle in History--To Avenge Port Arthur.

General Oku's Headquarters, Jan. 27, noon, via Tien-Tsin, Feb. 2.—Delayed in transmission.—After three months' inaction there is now a prospect that the armies of Gen. Kuropatkin and Field Marshal Oyama will soon join in what will likely prove the greatest battle oft he war. For some days past the Russians have been quietly massing troops on General Oku's left, evidently preparatory to an attempt at a turning movement.

For three days past a heavy artillery fire has been kept up by the Russians on General Oku's left, running to-day towards the centre, The Japanese have not replied to the cannonade, awaiting an attack by the Russians who have been heavily reinforced. It is believed now that they have numerous divisions along the Shakhe River.

The Japanese force also has been increased, and everything now seems ready for the greatest conflict yet recorded in the history of the present war.

WANT TO AVENGE PORT ARTHUR

The move on the part of the Russians seems to indicate a desire to strike soon in a desperate attempt to avenge the fall of Port Arthur. Probably the revolutionary outbreak in Russia has determined General Kuropatkin to make a desperate effort to gain a victory before the outbreak in Russia becomes known to the army.

The utter failure of the recent cavalry raid by the Russians on the railway shows the futility of further attempts of the kind. With the ground so solidly frozen, troops on the advance would have great difficulty in entrenching to secure the slightest cover. The advantage of the situation would be entirely on the side of the army on the defensive.

With the thermometer at zero and the ground covered with snow, a battle when fought would be over a great plain where the south sun can be of no advantage to either side.

OYAMA'S MODEST REPORT.

Tokio, Feb. 2.—Field Marshal Oyama, reporting yesterday, says that the Russians bombarded his centre and right wing on January 30, and sent small bodies of infantry to attack the Japanese outposts, where they were repulsed. On the same day heavy Russian guns fiercely shelled Fiyental and Chenchiehpao.

On Jan. 31, the Russians bombarded Chenchiehpao, Lapati and Litzuntun and two companies of infantry attacked Chenchiehpao, advancing from the south end of Peitailsu. The Japanese repulsed them.

On January 30, two companies of Russian infantry unsuccessfully attacked Yatsupao, two miles northwest of Chenchiehpao, and two battalions of Russian infantry and a regiment of cavalry failed in an attack on Tutaitsa.

Field Marshal Oyama, in reporting the wounding of Lieut.-Gen. Mitschenko, which he had learned of from some Russian prisoners, characterized Gen. Mitschenko's attacks upon the Japanese flank as brave.

MIKADO THANKS HIS HEROES.

Tokio, Feb. 2.—Admiral Togo returns to his flagship on Feb. 4. The immediate naval plans are not disclosed.

The Emperor has issued a rescript to Field Marshal Oyama's army, thanking the troops for defeating a superior Russian force in the recent battle. Oyama, responding, says the men fought desperately day and night in intensely cold weather.

THE RUSSIAN REPORT.

Mukden, Jan. 31.—Via Tien Tsin, Feb. 2.—Canneading on the centre and right commenced again to-day. The Russian army has re-occupied its old positions, having returned from Sandepas.

The main events in the interior of Russia have been published in the official army paper so that the troops to a certain extent realize the present conditions, but the plans for the army are known to be entirely independent of home events as the reasons given by the commanders for retiring fully explain the army's movements and show them to have been independent of the weather.

A large part of the wounded are being cared for at Mukden, where the hospital and trains are filled and the Red Cross Corps is active.

St. Petersburg, Feb. 2.—General Kuropatkin, in despatches dated January 29 and January 30, reports that the Japanese losses in the recent fighting were heavy, many being bayoneted and sabred. The total number of Japanese prisoners already exceeds 300.

A. Mukden despatch says; Regarding the first reports of large Russian losses, it is now said that a considerable portion of the first corps and General Stakelberg, its commander, have rejoined the main body of the army and retired to their old positions.

The Novoe Vremya prints what appears to be a professional digest of the telegrams received by the general staff concerning Gen. Grippenberg's operations, from which it seems that the Russians rolled up all the Japanese positions on the Liao-Yang-Sinminting road except at Sandepu, which is the Japanese main left pivot. Failing to carry Sandepu, Gen. Gripenberg fell back on the left of the Hun River, but he was not pursued. He is now established on the Hun River, having turned the enemy's flank.

NEW ASSESSMENT ACT

The New Act is a Very Long Step in Advance

EASIER FOR THE ASSESSOR

The New Law is Simple--It Covers the Whole Ground, and Should Prove a Decided Improvement

The assessment of Peterborough, as well as elsewhere throughout the Province, will be made upon an entirely new basis this year, except as it affects real property. The abolition of the personal tax and the substitution of the business tax gives added importance to the fundamental principle of all taxation—the levy on land values. The assessment of the real property now becomes the basis for the assessment of a merchant's personality. For instance, a retail merchant, who is assessed for the premises occupied by his business at $5,000, will have a business assessment of 25 per cent. of the said assessed value, or $2,000. His business tax, therefore, is on this $5,000, which, at 20 mills on the dollar, would be $40. Thus any business man can ascertain for himself with very little trouble exactly the amount of taxes chargeable against his business, subject, of course, to any future increase in realty.

Under the new Act the merchant is not concerned at the approach of the assessor. He is not called upon to submit a statement of his assets and liabilities. Nor is he asked any questions regarding the particulars of his business. The assessor simply enters his name as a retailer, after which his business assessment becomes automatically fixed. The same method applies to the distiller, the brewer, the wholesaler, the manufacturer, the departmental store, the coal and wood dealer, the publisher, in fact, all engaged in business pursuits. Their ratings, however, vary from 25 per cent. to 150 per cent. But no one who is engaged in ubsiness can be assessed for less than $250. It is not pretended that this system is equitable from a basis of wealth. In fact it cannot be, for the reason that a percentage of the assessed value of the land is taken as the business assessment in lieu of the value of personal property. But it has this advantage, that no one escapes, and all contribute more or less to the burden of assessment. While there are evident inequalities under the new system the old law was worse in that respect, and exceedingly difficult of application.

The changes in the income assessment are even more drastic, and the experts say will yield a greatly increased revenue. It cities of 10,000 population and over the annual income derived from personal earnings, or from a pension, gratuity, or retiring allowance is exempt to the extent of $1,000, but when the individual is not a householder, according to the assessment roll, the exemption on income received from any source other than personal earnings, income derived from interest, divirived from interest, dividends, stocks, or from any other source whatever, is assessable on the full amount. The effect of this is to make the dividends from all financial corporations such as banks, insurance, loan and trust companies liable on the full amount as against the resident shareholders in Ontario. This provision makes up for the loss now sustained by practically the non-assessment of the income of these companies.

Professional men have been made the object of a double assessment in order to get from those who have large incomes a fair contribution for general purposes. The members of the legal and medical professions, the dentists, civil or electric engineers, surveyors, architects and others, are subject first to a business assessment, irrespective of what the income may be. If the income derived is beyond the amount of the business assessment, then the amount of the income in excess of the business assessment is the basis of the assessment, subject to the statutory exemptions. Thus no ubsiness man will escape taxation, and no less an amount than $250 shall constitute a business assessment.

Such a complete change in principle requires a good deal of careful study by the assessors of the Province. Especially in the larger cities will the work be important, for by them the Provincial assessors will be greatly influenced. The Act is not satisfactory to everybody, of course, ubt the assessment experts regard it as an improvement, and to the ordinary citizen it has that appearance.

FOR NEW ONTARIO

Thirty Thousand Applications For Free Land Grants

Toronto, February 1.—Over 30,000 applications for free land grants have been made under the veterans' act, and 12,000 certificates authorising the holders to select locations have been issued. Up to the present, however, not more than 4,000 man have taken up locations. Every man has four years in which to make a selection after the date of receiving his certificate.

RUSSIAN SUPPLIES BLOCKED

Cannot Be Sent Beyond Lake Baikal Because of the Snow

London, February 2.—According to a Tokio despatch to the Daily Telegraph, Russian supplies from the interior are concentrated at Lake Baikal, owing to the fact that the railway east of that point is blocked by snow.

Vladivostok, it is added, is now isolated on the land side as well as the sea front.

The same correspondent says it is reported that orders have been placed in England for several large warships for Japan.

Steel King Will Not Invest in New Hotel Because He Declines to Lend His Name or Money to Liquor Trade

Pittsburg, Feb. 1.—Mr. Andrew Carnegie has refused to have anything to do with improvements in Pittsburg which would bring him into even remote connection with the liquor traffic.

The head of a large concern in Pittsburg has just returned from New York, where he went to see Mr. Carnegie about erecting a hotel here larger than any one in the city, but he was told by Mr. Carnegie, while he thought such a building would make great returns financially, he would have nothing to do with it, since it would be necessary to have a liquor license in the hotel, and he would not lend his name or money to anything connected with the trade.

A BANK RADICAL

Hamar Greenwood Claims That Most Colonies Like Mine-off in Sympathy With Liberals

London, Feb. 2.—Mr. Lloyd-George, speaking at York last night, referred to Mr. Hamar Greenwood, the Liberal candidate for York, as a brilliant colonial who is "championing liberty in York." The Yorkshire Herald, referring to this says that Mr. Lloyd-George had not had time to ascertain that the people of York only find in Mr. Greenwood a very ordinary specimen of a Radical who poses as a representative of the colonies, and misrepresents them every time he speaks.

Mr. Greenwood, in his speech, said it seemed strange to claim that the colonies were Conservative in their sympathies. What was more, it was

Royal Baking Powder

25 cents a half pound can

Royal Baking Powder is made from pure grape cream of tartar, and is absolutely pure.

Royal Baking Powder assures wholesome food; it makes the best biscuits, cakes and all hot-breads; it protects the family from the danger of alum and other injurious substitutes.

Royal Baking Powder saves time, saves butter, flour and eggs; saves health.

JAPAN'S ONLY PEACE TERMS.

Tokio, February 2.—From an authoritative source it is learned that the following are approximately the terms that will be demanded by Japan in any negotiations for peace. The Japanese Government will not propose these terms, considering that for many reasons, notably that of prestige, the request for peace must come from Russia. Once this request is made, the Japanese will be quite willing to treat along the lines here indicated, which they consider will safeguard the vital interests at stake and satisfy the claims of justice involved.

Japan will insist upon handing back to Chinese administration the whole of the three provinces of Manchuria. The evacuation of Manchuria by the Russian troops she considers has been guaranteed already by the international pledges given by Russia in the past. Without this evacuation Japan would have to maintain permanently a garrison of several hundred thousand men in North Korea to safeguard her interests there. Any possibility of Russia massing troops in Manchuria would mean that the making of peace would be simply impossible.

NEARLY 50,000 MEN LOST.

Terrible Slaughter Around Sandepas, Russians Continue Pounding the Japanese Position.

London, Feb. 2.—The Daily Telegraph's Tokio correspondent says the Russian casualties in the engagements from January 25 to January 29 are now estimated at between 36,000 and 42,000, and those of the Japanese at 7,000.

St. Petersburg, Feb. 2.—General Kuropatkin, in despatches dated Jan. 29 and Jan. 30, reports that the Japanese losses in the recent fighting were heavy, many being bayoneted and sabred. The total number of Japanese prisoners already exceeds 300.

The Russian losses Jan. 28 among the advance posts were five officers and fifty men.

The Russians continue to successfully bombard Sandepas, where many Japanese have been frozen to death

Chefoo, Feb. 2.—Thirty-six refugees from Port Arthur were lost off the Miatao Islands, Jan. 28th, the junk in which they were passengers striking a rock. The information is brought by other refugees.

Seventeen junks with refugees reached Chefoo to-day. The China Navigation Company's steamer picked up about fifty refugees along the coast.

Mukden, Feb. 2.—Delayed in transmission.—Constant streams of wounded men are arriving here from the right flank, including Lieut.-Gen. Mistchenko, who is in excellent spirits and is receiving visitors. According to the official army organ, the wounded number 3,500. The cold is intense and the condition of the wounded causes the greatest anxiety, because the exposure of their wounds to the frost induces gangrene. Preventive precautions have been taken, but the wounded are suffering the greatest pain.

The Japanese are taking good care to see that the Russian rank andfile are not left uninformed regarding the disturbances in Russia. They are carrying on a regular campaign to spread sedition and discouragement among the troops. Letters are daily thrown within the Russian lines declaring that all Russia is aflame with riot and revolt, arguing that the soldiers are shedding their blood in vain and calling on them to surrender or desert. The soldiers eagerly read and discuss these communications, especially accounts of the events at St. Petersburg, Jan. 22. The sincere hope is expressed on all sides that the Russian nation will forego internal differences and not play into the hands of the Japanese.

This morning the Japanese advanced on the Russian left, drove in the cavalry screen, and bombarded the outlying hills. The Russians moved up reinforcements, repulsed the Japanese, and drove them out of a village they had occupied.

Military critics do not express approval of General Kuropatkin's offensive. The Novoe Vremya declaring it was a failure and the Russ saying it was neither a reconnaissance in force nor a demonstration; hence it could only have been undertaken to capture a strategical point, and this object was not justified by events.

Tokio, Feb. 2.—The Japanese yesterday captured off Hokkaido Island, northern Jan, the British steamer Wyefield, loaded with contraband for Vladivostok.

London, Feb. 2.—Special despatches from St. Petersburg repeat rumors of negotiations with German and American firms for building Russian warships. The Standard publishes a report current at Glasgow that orders for two Russian battleships have been placed with Clyde and Barrow builders.

The Russian Government is reported to be cancelling orders recently placed in Birmingham. The nature of these orders is not revealed, but, presumably, it is war material and machinery. Gun barrels have advanced almost 100 per cent. during the past few weeks. Birmingham has heavy export orders for hoops and rods. Export trade for iron and steel is very promising.

WILL BUILD NEW CHURCH

Methodists are Anxious to Have a Church in South End

On Tuesday evening a meeting was held in the Y.M.C.A. parlor to consider the advisability of erecting a new Methodist church in the south end of the town. There were present representatives from the three Methodist churches in town. Rev. Messrs. Dr. Crothers, W. J. Jolliffe and J. G. Lewis; Messrs. D. W. Dumble, A. W. Crossman, W. G. Ackerman, B. F. Ackerman, Dr. Morrison, W. G. Morrow and Ald. Batten.

A lengthy discussion was held and after careful consideration it was resolved that a new church should be built, owing to the rapid increase in population in the south end. A committee consisting of Messrs. Morrow, Ackerman and Porter was appointed to secure a suitable site. The committee will report at a meeting to be held next Tuesday evening. The committee is composed of Messrs. B. F. Ackerman, H. C. Stabler, W. G. Morrow, A. W. Crossman, G. Carton and A. B. Cunningham.

As Charlotte street church is quite unable to supply the demands for pews it is intended that this scheme shall be pushed with vigor. Several new streets are being opened up south of Romaine street, and it is thought that considerable building will be done thereon next summer. New families are constantly coming in and many will require church accommodation.

Route Boys Wanted

A couple of route boys wanted at The Times. We pay $1.00 per week per route, for an hour's work before school in the morning. Apply at The Times Bookstore.

A girl with some experience wanted at The Times bindery, to feed ruling machine.

RUSSIANS IN TOWN

Several are at Work in our Midst and are Good Citizens

Duringt he past few months a dozen or more Russians have taken up their residence in Peterborough. Most of them are from the Polish provinces, and are of the better class. They are rapidly becoming acquainted with the language, and will, no doubt, make good citizens.

In Montreal a night school has been opened for these people, and to their credit be it known that they are working hard to master the English language. In Peterborough we know of two young Russians who are studying with children every night, in order to master the first principles of the language. Such people deserve to succeed.

NEW ELECTION IN SMITH

Mr. Richard White Will Again be a Candidate For Council

The Times had a call this week from Mr. Richard White, of Young's Point, who was elected to the Council of Smith in January, and who subsequently resigned on account of having been a member of a School Board in the township on nomination day. Although Mr. White's membership of the School Board expired two days after he was nominated for the Council, his election was not legal, under the law, and hence a new election will have to be held.

It is not likely that there will be any opposition as Mr. White's friends and supporters throughout the township will see that he is returned. The nomination will take place at Bridgenorth on Monday next, February 6th, and if a poll is necessary, which is exceedingly unlikely, it will be held a week later.

CHRISTIAN SCIENCE THEORY

A Humorous Story Which has a Very Sharp Point

Yesterday an esteemed subscriber handed the following to The Times for publication, vouching for the truth of the incident. It is interesting to observe how native logic will triumph over inculcated dogma.

There is a family in Peterborough who are firm believers in Christian Science, and, naturally enough, the children of these persons became a great deal imbued with the doctrine held by their parents. One of these children, a little girl of four or five years, was left with an aunt, a non-believer. During the course of the afternoon the little girl fell down the stairs, and as the accident evidently caused her great pain, she wept bitterly.

"The aunt, having in mind the youngsters training, asked:

"'Are you hurt, dear?'

"'No, 'm, responded the little girl, 'I'm not hurt.'

"'Then,' continued the aunt, not without a trace of wicked enjoyment, 'why do you cry?'

"'Because I'm mad.'

"'And why?'

"'I'm mad because I can't feel that I ain't hurt.'"

COUNTY COUNCIL

STANDING COMMITTEES WERE SELECTED FOR THE YEAR.

Mr. Johnston in Charge of Finance—Mr. Maloney will Look After Roads and Bridges.

The County Council went into session yesterday morning at 10.30. All of the members were present.

The minutes of Tuesday's meeting were read and confirmed.

THE COMMITTEES.

Mr. Shaw presented the report of the Committee appointed to strike the standing committees which recommended as follows—

1.—That the Committee on County Property be composed of Messrs. Johnston, Maloney, Stinson, Webster and Deyell, with Mr. Deyell as chairman.

2.—The Committee on Appointments to office, be composed of Messrs. Menogue, Webster, Johnston, Andrews and Shaw, with Mr. Menogue as chairman.

3.—The Committee on roads and bridges be composed of Messrs. Johnston, Garbutt, Stinson, Shaw, Menogue, Deyell, Andrews, Maloney and Webster, with Mr. Maloney as chairman.

4.—The Committee on Schools be composed of Messrs. Webster, Andrews, Garbutt, Johnston, Deyell and Maloney and that Mr. Garbutt be chairman.

5.—The Committee on Petitions be composed of Messrs. Johnston, Garbutt, Menogue, Shaw, Webster and Stinson and that Mr. Shaw be chairman.

6.—The Committee on Printing be composed of Messrs. Shaw, Johnston, Menogue, Stinson and Andrews and that Mr. Andrews be chairman.

7.—The Finance Committee be composed of Messrs. Johnston, Garbutt, Stinson, Shaw, Menogue, Deyell, Andrews, Maloney and Webster with Mr. Johnston as chairman.

8.—The Equalization and Assessment be composed of Messrs. Johnston, Garbutt, Shaw, Menogue, Deyell, Andrews, Stinson, Maloney and Webster, with Mr. Webster as chairman.

9.—The Joint Committee be composed of Messrs. Menogue, Andrews, Stinson, Maloney, Johnston and Shaw and Mr. Stinson be chairman.

The report was adopted.

Mr. Wm. Spencer, of Enniamore, addressed the Council asking that his peddlars' license be granted free of charge. The matter was referred to the Finance Committee.

The Council adjourned to go into Committee.

LOW DEATH RATE IN PETERBOROUGH

The Average is About Nine Per Thousand

REPORT OF DR. BINGHAM.

Medical Health Officer Points Out Many Advan ages Enjoyed By the Town.

The Board of Health met yesterday morning at the Town Clerk's office. There were present Messrs. R. Neill, Wm. Eyres, Geo. Schneider and Dr. Burnham.

Mr. Neill on motion took the chair.

The minutes of the previous meeting were read and confirmed.

The following accounts were received and referred to the Medical Health Officer to report;—

St. Joseph's Hospital $27.00
Ormond & Walsh 11.60

THE DOCTOR'S REPORT.

Dr. Bingham presented his annual report as follows;—

Gentlemen,—In making out the annual report it is a pleasure to state that the health of the town during the past year was in many respects highly satisfactory. No fatal scourge of infectious disease visited the town during the year, and the infectious diseases which made their appearance were of a mild type, except the few unfortunate cases which proved fatal.

The number of diphtheria patients reported, 75; deaths, 9.

The number of scarlet fever patients reported, 28; the deaths, 2.

The number of deaths reported from all causes, 180. This makes 12 per thousand of the population, which is considered a low mortality rate for any town or city.

Many of these deaths occurred in the hospitals here, and in strictness should not be reckoned with the mortality of the town, as the patients had been brought in from outside points. If these were deducted the rate would be about 9 in the thousand.

The diseases which caused the fatal issue were tuberculosis, heart disease, pneumonia, cancer, diphtheria, dropsy, appendicitis, Bright's disease, apoplexy, old age, typhoid fever, anaemia, paralysis, scarlet fever, bronchitis, abscess and inflammation of the brain.

The amount of sanitary work done during the year greatly exceeded that of any previous year. The inspection of wells, the inspection of premises, the enforcement of all the important provisions of the Health Act, afforded your Sanitary Inspector and Health Officer all the work they could do. It is also due to the citizens to say that they did all they could to assist us in the sanitary work of the town, and it is only fair to add that the influence of your Sanitary Inspector in carrying out the provisions of the Health Act was of the greatest importance.

The scavenger work of the town was done during the year by a large and efficient staff of men. Doctors, gentlemen take up the mal-odorous profession as a means of livelihood, while others engage in the business irregularly and without portfolio. The following are some of the causes of disease which we have to a certain extent under our control;—Sewer gas, bad air, bad water, bad food, bad conduct and bad sanitary conditions in the home. These are all prolific causes of disease, which with intelligence can be avoided.

In respiration the lungs give out a large amount of carbonic acid gas which in a confined space poisons the air and renders it unfit to be breathed again. Hence the necessity of large sleeping apartments, which should be filled with fresh air and sunshine every day. In addition to the causes of disease already mentioned, some add the mosquito and the house fly. The mosquito injects the germ of malaria into our veins, and the house fly, with sponge feet, collects the invisible germs of disease and spreads them over our food.

In closing this brief report we would take the opportunity of enumerating some of the uncommon material advantages enjoyed by the town —a salubrious air, an abundant water supply, an extensive sewerage system, unlimited railroad facilities, numerous wealthy industries, where thousands get employment, an excellent street car service and the night made brilliant by the light and power companies. All these advantages, together with a law abiding population of fifteen thousand may well entitle Peterborough to an honorable position among the fair cities of the Dominion.

J. BINGHAM, M.H.O.

It was moved by Dr. Burnham and seconded by Mr. Eyres that the report be adopted and forwarded to the Provincial Board as the report of the Board.—Carried.

Dr. Gray was heard in regard to the use of anti-toxin in cases of diphtheria. Dr. Gray was opposed to its use. On motion the matter was referred to the M.H.O. to report.

Sullen, Discontented, Morose, Low Spirited

Brace Up—Vitalize Nerves and Blood With

FERROZONE

The Effect is Instant - Makes You Soap and Dance With Vitality

Your appetite is gone.

What little you eat brings no satisfaction.

You're getting blue and melancholy—you can't rest or sleep.

Nervous prostration is staring you in the face.

Your unstrung nerves can only be nourished back to health by a nerve tonic like Ferrozone. It cures weakness of the inner nerves, gives vitality and strength to the blood and nervous system, makes all the organs work in harmony.

The following experience of Mrs. D. P. Courtland, of Myrtle, proves the prompt action of Ferrozone.

"I had no nerve strength.

"My appetite was poor and my system was out of order.

"I felt weak and dispirited, was tired out the whole day long.

"Did Ferrozone help me?

"It gave me strong nervous system, a good appetite, and abundance of health."

Ferrozone contains concentrated nourishment you can't get in any other way. No other medicine benefits so quickly. 50c. per box or six boxes for $2.50, at all dealers in Medicine, or Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $4 per year, strictly in advance.

UNION LABEL

PETERBOROUGH, FEBRUARY 2 1905

THE PROCESS OF RETIREMENT

If before its retirement the Ross government is recommending a series of appointments it is to be borne in mind that if any reasonable objection is to be made to these appointments they may be prevented, says the Ottawa Journal. They might be refused by the Lieut.-Governor in the beginning. If they were approved by him they might still be rescinded by the incoming ministry. In that case the Lieut.-Governor's position would be that his constitutional advisers had accepted responsibility to the Legislature for their action and that the Legislature was responsible to the people. We fancy that Hon. G. W. Ross and his ministers may have no desire to affront the popular will by exercising any important function of government before laying down office. But even if they had such a desire, there is sufficient constitutional provision for the prevention of any great raid upon the rights of the people.

The precedents for the immediate retirement of ministeries after defeat at the polls is of relatively recent standing. It is something less than a third of a century since in Britain the practice was that the defeated ministry should carry on the government until its defeat had been actually accomplished in Canadian politics. And of more recent years, it has been thought that ample courtesy demanded that a defeated ministry should not be hustled out of office before its members should have had time to pack up their private papers.

The latest Canadian precedent, that of 1896, is that Sir Charles Tupper was defeated at the polls on June 23, and that Mr. Laurier was not installed in office till July 11. In the meantime the Tupper government has been active in the passing of orders-in-council. Many of these were approved without question by Lord Aberdeen. Certain others he declined to approve, and it was not until Sir Charles had become cognisant of the fact that his power to carry on the government had ceased that Mr. Laurier was called in. After that, several of Sir Charles Tupper's orders-in-council were rescinded.

So that there need be no great alarm if Hon. G. W. Ross does not immediately tumble out of the parliament buildings. Even if he had the will to do any harm here, which we fancy he has not, he will be subjected to a sufficient check.

CONFIDENCE IN WHITNEY

The Montreal Gazette remarks on the result of the election that it was not merely a condemnation of electoral corruption. It was more. It was a definite expression of the opinion that it is the duty of the government of the day to maintain the purity of the ballot and to do everything in its power to render

word among all the other provinces of the Dominion. The resources of the Government must no longer be employed to minimize electoral crimes and save their perpetrators from deserved punishment. The law must be enforced regardless whether it affects friend or foe.

Mr. Whitney comes into power with a majority behind him which will enable him to do all this. He will be judged largely by the record he makes in this connection. That he will be equal to it there is every reason to believe. That he will give the people good, honest government is assured by his record as a public man, and by the records of those whom it is likely he will associate with him in the task committed to his charge.

FEBRUARY CANADIAN MAGAZINE

The Valentine month causes The Canadian Magazine to publish a valentine story and a valentine poem in its February issue. The illustrated features are also timely. Just when the future of the North-West is prominently before the public, an illustrated article on "The Northland of Canada," and another entitled "How to Save the Yukon," are seasonable. The former is accompanied by some rare photographs of the Eskimo portion of our population, with plans and pictures of their iglus or snowhouses. "The Marchioness of Donegal," the only Canadian Marchioness in the peerage, is the subject of a short article with several illustrations. Harvey P. Dwight, the President of the Great Northwestern Telegraph Co., is the celebrity of the month. "A Visit to Genoa" is beautifully illustrated. "Is Great Britain Preparing for War?" is one of the more serious articles. Professor Cappon's second paper on "Roberts and the Influences of His Time," is another. F. C. Wade's version of Jean Louis Legare's story of "The Surrender of Sitting Bull" is an important contribution to Canadian history. There is an instalment of the new serial, "The Builders," a story of the War of 1812, and short stories by W. Victor Cook, E. S. Kirkpatrick and Virna Sheard. The departments are as varied and as interesting as usual.

SMITH TOWNSHIP COUNCIL

New School to be Built for Section Number 12

The Smith Council met at Bridgenorth on Monday last, pursuant to adjournment; all the members present, the reeve in the chair. The minutes of the last meeting were read and confirmed.

The trustees of S. S. No. 12, having applied to have debentures issued for building a school in that section, for the sum of $400, it was moved by Mr. Garbutt and seconded by Mr. Graham, that a bylaw to authorise the issue of debentures for the sum of $400 for the erection of a school house in S. S. No. 12, Smith, be read a first time.—Carried.

On motion of Mr. Graham, seconded by Mr. Northey, the council went into committee of the whole on the second reading of the bylaw, Mr. Garbutt in the chair.

On motion of Mr. Garbutt, seconded by Mr. Graham, the bylaw was read a third time and passed. The debentures and coupons were then regularly signed by the reeve and clerk.

Moved by Mr. Graham, seconded by Mr. Northey, that the following claims be paid, viz.: R. H. Leary, livery hire to deliver ballot boxes, $2; E. D. Yound, goods to Mrs. Godfrey, $5; John Bell, work on road, $1.50; John Chittick, for polling booth, $5; Jopling Bros., goods to Mrs. Smith, $9.16; Municipal World, for assessors guide, 50c.

After verbally appointing overseers of highways, pound keepers and fence viewers for the current year, the council adjourned to meet on February 6th.

NORTH MONAGHAN

On Monday evening the death occurred at her home in North Monaghan, of Frances Maria, the wife of Mr. R. W. Baker, after an illness of about four months, during which time she suffered from a gradually weakening disease, but she bore the pain incidental to it with exemplary patience.

Deceased was born in England 28 years ago, and came to Canada in 1895, and has lived in this vicinity ever since. Prior to her marriage she lived with Mr. Thos. Allum.

She was married last January to her now bereaved husband.

She was a very active and useful member of Bethany Tabernacle, and was greatly beloved by all who knew her. She is survived by three brothers, one who lives in England, and two reside in Alberta, N.W.T.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system.

CHARGE NOT PROVEN

Pickering Magistrate Discharges Four Defendants

Pickering, Feb. 1.—The charge of conspiracy preferred against Messrs. William Stanley, Lorne Squires, William Vanstone, and Wilfrid O. Law, by Mr. N. C. Brown, in connection with the South Ontario bribery case, was dismissed here yesterday afternoon by Magistrate Parker. The perjury charges against Messrs. Law, Stanley and Squires were not pressed, and the defendants were accordingly discharged on that matter also.

Over 250 people from the village and countryside had huddled into the hall to hear the argument on the evidence, and the decision. Mr. T. C. Robinette, K.C., representing the accused four men, contended it was not enough for Brown to say that the transaction with Law did not occur. Two other witnesses corroborated Law, and drunkenness was no excuse. As to why he had done the act openly at the hotel he may not have been a good handler of funds, and bungled the job. As far as the charge of conspiracy went, the men should be discharged.

WAS THEIR AGREEMENT?

Col. Farewell, County Crown Attorney, said that the "drunkenness" feature of the case was important, when it was considered how Brown became drunk. Brown had sworn that he did not bribe anyone at any time, and his evidence had not been shaken. It was not necessary that the defendants should have got together. It was sufficient to show there had been an agreement. All made the same kind of a charge, and they probably had the same purpose in view. They had all been together, and their declarations were made as soon as it was possible for them to be made, and the story was published immediately.

Magistrate Parker thought it would have been better had the case been taken before some other magistrate. As a worker for the party, he had thought it would have been wise for counsel to take it elsewhere. But he had kept the case constantly before him, and took some pains to divest himself of any neighborly partiality. There had been no corroboration of the statement that Brown had a certain sum of money when he left home, but he intended to accept all the statements made. Certain witnesses had received money which had been placed in the hands of responsible parties. The question arose, "Where did the money come from?" and he had nothing to enlighten him on that point. He failed to be convinced that there was conspiracy to any extent, or at all, except on circumstantial evidence, which was very remote. He, therefore, declined to commit the prisoners on the charge of conspiracy against Mr. Brown. The perjury case was then proceeded with, and the charge dismissed also.

DAUGHTER OPERATED UPON

Princess Victoria Suffering From Appendicitis—Is Doing Very Well

London, Feb. 1.—The Princess Victoria, daughter of King Edward, underwent an operation for appendicitis at Buckingham Palace, yesterday morning. The operation was performed by Sir Frederick Treves, surgeon-in-ordinary to the King.

A bulletin subsequently issued says: "The circumstances of the operation were favorable. The Princess bore it very well, and is progressing very satisfactorily."

The Princess, who has been ill for some time, came to London, January 27 to prepare for the operation. She was born in 1868.

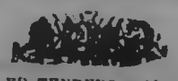
No Breakfast Table complete without

EPPS'S

An admirable food, with all its natural qualities intact, fitted to build up and maintain robust health, and to resist winter's extreme cold. It is a valuable diet for children.

COCOA

The Most Nutritious and Economical.



SEALED TENDERS addressed to the undersigned, and endorsed, "Tender for Stable, Kingston, Ont.," will be received at this office until Friday, February 17, 1905, inclusively, for the construction of a stable for "B" Battery at Kingston, Ont.

Plans and specification can be seen and forms of tender obtained at this Department and at the office of Arthur Kilis, Esq., Architect, Kingston, Ont.

Persons tendering are notified that tenders will not be considered unless made on the printed form supplied, and signed with their actual signatures.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the party tendering decline to enter into a contract when called upon to do so, or if he fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
FRED. GELINAS,
Secretary.

Department of Public Works,
Ottawa, January 21, 1905.

Have you a friend who has a hard cold? Then tell him about Ayer's Cherry Pectoral. Tell him how it cured your hard cough. Tell him why you always keep it in the house. Tell him to ask his doctor about it. Doctors have known the formula for over sixty years. J. C. Ayer Co., Lowell, Mass.

The Canadian Northwest

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

1] At least six months' residence upon and cultivation of the land in each year during the term of three years.

2] If the father (or mother, if the father is deceased), or any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler has obtained entry for a second homestead the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same town, township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses [2] [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 30 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Land Agents in Manitoba or the Northwest Territories.

W. W. CORY, Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

RUBBER STAMPS

B. CAIRNS RUBBER STAMPS

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

INCORPORATED

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and we believe, exceedingly profitable investment. Every dollar of stock is guaranteed by twenty year, full paid, gold bond, delivered to purchaser of stock, from an Investment Company that has no interest whatever in the company, but who are disposing of the debentured bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the State Treasurer under which they received their charter, there by doubly securing the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvellously rich in gold.

Following is the opinion of C. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Summer and Jack Mining Co., Limited, Klondyke Fountain, South Africa:—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world.

"With the present development of the Monument Mine, I estimate that 100 tons per day can be extracted, which will mill from $15.00 to $30.00 per ton. The total cost of mining the ore, delivered and milling, I place at about $4.00 per ton. With increased milling capacity, it is safe to say that the mine can furnish 100 tons of $15.00 ore, which would yield a clear profit of $11.01 per ton, or $1,100.00 per day (equal to $100,000.00 per annum). Estimated total value of ore in sight, $2,500,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Dr. Brown writes as follows:—

"In regards to the amount of ore available at the mines at Sinclair, I saw on the dumps several thousand tons, probably 5000 tons would be an under-estimate.

"As to the size of the ore body itself, from what I saw of the geological struc ure, I think that there is every indication that it will be found to extend underground as far as the out-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish full information to investors.

NERVOUS DEBILITY

OUR NEW METHOD TREATMENT will cure you and make a man of you. Under its influence the brain becomes active, the blood purified so that all pimples, blotches and ulcers heal up, the nerves become strong as steel, so that nervousness, bashfulness and despondency disappear; the eyes become bright, the face full and clear, energy returns to the body, and the moral, physical and sexual systems are invigorated; all drains cease—no more vital waste from the system. The various organs become natural and manly. You feel yourself a man and know marriage cannot be a failure. We invite all the afflicted to consult us confidentially and free of charge. Don't let quacks and fakirs rob you of your hard-earned dollars. WE WILL CURE YOU OR NO PAY.

☞NO NAMES USED WITHOUT WRITTEN CONSENT.

THREATENED WITH PARALYSIS.

Peter E. Summers, of Kalamazoo, Mich., relates his experience:

"I was troubled with Nervous Debility for many years. I lay it to indiscretion and excesses in early youth. I became very despondent and didn't care whether I worked or not. I imagined everybody who looked at me guessed my secret. Imaginative dreams at night weakened me—my back ached, had pains in the back of my head, hands and feet were cold, tired in the morning, poor appetite, fingers were shaky, eyes blurred, hair loose, memory poor, etc. Numbness in the fingers set in and the doctor told me he feared paralysis. I took all kinds of medicines and tried many first-class physicians, wore an electric belt for three months, went to Mt. Clemens for [illegible] but received little benefit. While under treatment at Mt. Clemens I was induced to consult Drs. Kennedy & Kergan. Though I had lost all faith in doctors. Like a drowning man I commenced the New Method Treatment and it saved my life. The improvement was like magic—I could feel the vigor going through my nerves. I was cured mentally, physically and sexually. I have cast them away entirely and will continue to do so."

CURES GUARANTEED OR NO PAY.

We treat and cure VARICOCELE, STRICTURE, NERVOUS DEBILITY, BLOOD DISEASES, URINARY COMPLAINTS, KIDNEY AND BLADDER DISEASES.

CONSULTATION FREE. BOOKS FREE. If unable to call write for a Question Blank for Home Treatment.

DRS. KENNEDY & KERGAN

148 SHELBY STREET, DETROIT, MICH.

A SPLENDID PROPOSITION

The Salido Gold and Copper Company

Incorporated under the laws of Arizona, with a capital of $3,000,000 forever non-assessable divided into shares of $1 each, par value. All investments insured Granite Securities Company.

The "SALIDO GOLD-COPPER COMPANY" enterprise offers attractions to the investors of the country, that without thorough investigation, would scarcely seem probable. If only a fraction is realized of what any prudent business man in his own affairs would regard as absolutely certain, the enterprise must prove abundantly successful and exceedingly profitable.

SALE OF STOCK

The company will prosecute the work of development with all the diligence that the cash in the treasury will permit and circumstances warrant, and to this end a small amount of the treasury stock is now placed upon the market, in blocks of not less than One Hundred Shares. The par value of the stock is One Dollar per share, fully paid and forever non assessable.

The company reserves the right to advance the price of stock without notice.

REMEMBER

First—That all payments for treasury stock go into the treasury for development work and not into the pockets of the promoters.

Second—There are no salaried officers

Third—The incorporators have put their own good money into this enterprise and being business men, intend to do business along business lines.

Fourth—That this company is honest.

Fifth—If you are thinking of investing in mining stocks this is worthy of your careful investigation.

OTHER PROPERTIES

This Company owns four other Gold and Copper Mines, which title is now in process in the laws of Mexico. As soon as title is perfected, we shall commence to develop them as we certainly expect something very great from these properties. Our assays, taken have been of the very best, showing gold and copper from $6.00 to $122.30 per ton.

I have secured a small block of this stock, which I offer at the following prices: Unguaranteed 40 cents per share, guaranteed 80 cents per share. These prices will only prevail for a short time, as the number of shares for sale at this price is limited. The shares will then be advanced to 50 cents for the unguaranteed and 80 cents for the guaranteed. I can unhesitatingly recommend this investment to the Canadian public.

W. K. HALL,

FISCAL AGENT, ... PETERBOROUGH

Agents wanted in outlying districts, including Toronto.

The California Buckeye Mine

This mine consists of 15 acres of good zinc land, well prospected by drill holes showing forty feet of good pay dirt at a depth of 154 feet.

On the property are hoisting engine, shaft house, ore buckets, Worthington steam pump, air drill, cars and pipes. Over $15,000 have been expended to date, and the proposition itself is a good one—so much so that we can personally guarantee an immediate dividend of 8 per cent. this year and 12 per cent. after 1905, with an additional quarterly dividend.

Capital Stock $250,000

Shares, par value $1.00 each Fully paid up and non-assessable. No Preferred Stock. No bonded indebtedness

The shares are selling at 20 cents each, with a prospect of the price being raised.

The Joplin Daily Globe says that over $10,000,000 worth of zinc and lead were mined in 1904, up to 31st Dec., in the Joplin District. In the California Buckeye Zinc Mine, located in the centre of the Joplin District, it has been demonstrated that the ore body has an average thickness of 42 feet and the runs are 50 feet wide, about 170 feet from the surface.

The rough dirt for the first three months of operation produced zinc ore to the amount of $12.95 per cent., while the average for the district is less than 5 per cent., but for the purpose of being on the safe side, we calculate on only 8 per cent. ore to the ton of dirt, and it shows a profit each day with two shifts of men, of $566.20.

We stand ready to prove every statement made, and if enough stock is subscribed for in this locality a directorship of the company is at the disposal of the subscribers.

Any further information and proofs of earning capacity will be cheerfully supplied.

CHURCH SIDES WITH THE CZAR

Holy Synod Issues Rebuke of the Russian Rioters

St. Petersburg, Jan. 31.—The Holy Synod has addressed the following circular to the orthodox with reference to recent events.

"At the moment when all should have stood united for the protection of the Fatherland, strikes broke out in the capital and other towns. Incited by enemies at home and abroad, tens of thousands of the orthodox gave up work, determined forcibly to obtain rights which, they alleged, had been trampled under foot. Many peaceful citizens were deprived of bread, and many of their comrades uselessly forfeited their lives. Those who led them astray had in their midst a criminal priest, who imprudently disdained his sacred vow and is now before the ecclesiastical court. He was not ashamed to give into the hands of workmen he had deceived the holy cross and pictures and the Church banners which he had forcibly taken from a chapel, in order, under the protection of the sacred relics, so dear to the faithful, to lead men to disturbances and some even to death.

CAUSED BY RUSSIA'S ENEMIES.

"The most grievous fact is that the disturbances were caused and brought about by Russia's enemies, brought about by Russia's enemies and that considerable sums of money were received to create civil war, and by drawing men from their work, to prevent the due despatch of land and sea forces to the far east and supplying the active army with all its needs. Russia's enemies are striving to shake down her pillars of orthodoxy and autocracy, without which Russia would come to ruin.

"What a grief it is that orthodox people should rise against the lawful power and against one another, while their brothers are fighting in the far east and the Emperor and Empress are endeavoring to alleviate the sufferings of the wounded."

The circular concludes with adjuring the people to render obedience to the Emperor and the authorities. "Let the clergy," it says, "admonish their flocks to keep the peace. Let those in power seek the truth and defend the oppressed. Let the rich do good, and let the workers obey God's commands and beware of false counsellors, who are the associates or are in the pay of the enemy and desirous of bringing Russia to ruin."

SOME SECRETS OF PATENT MEDICINES

The History Of the Origin of Many of These Remedies Has Been Peculiar.

VISIT TO A LABORATORY

Process of Manufacture as Seen in an Establishment Known as Buffalo's Seventh Wonder.

If we could trace the origin of the many things which enter into our daily life we would doubtless be greatly surprised at what we would learn. In some instances we would find that they had their beginning in mere accident. In other cases we would find that they originated in some stroke of genius. In still others we would find that they are the direct outgrowth of patience and persistence. In others we would discover that some article which is of constant and almost universal use was known to only the few until some man decided to give what he knew to be of great benefit to the whole world.

The history of the origin of proprietary, or as they are more commonly known, patent medicines, has in some instances been peculiar. For instance, a certain tonic which is dispensed at all soda water fountains and is found most refreshing by thousands of persons, and which is used constantly by many brain workers, was originated by a Harvard professor. It was found to be so beneficial that this professor afterward determined to put it upon the market in shape for use by all who desired. The result has been that not only is this tonic used with benefit by almost untold numbers but the professor's family is in receipt of a large income from the sale. There is certainly nothing wrong in this. The professor conferred a benefit upon mankind and he was surely entitled to reap the reward of his labors.

Many other patent medicines have a similiar history. For instance, again, Dr. Pierce's Family Medicines—known throughout the world as the "Favorite Prescription" and the "Golden Medical Discovery"—were first used by Doctor Ray V. Pierce, in his private practice, with great success. He finally determined that he could do more good to suffering humanity by placing them on public sale where they could be obtained without the expense of a physician's prescription, than he could by simply retaining them in private practice. And so he defied the ethics of his profession, which deny physicians the right to advertise, and he is now known as not only the proprietor of one of the best of the many patent medicines but as one of the world's greatest advertisers. Because he has been a liberal patron of the newspapers for over one-third of a century, Dr. Pierce has never suffered any in the estimation of his fellow townsmen at Buffalo, where his mammoth establishment is located, for they have given him many honors, sent him to Congress and State Senate, and he is recognized as a progressive and public-spirited citizen.

Many attacks have been made upon patent medicines of late. For some reason certain persons have felt themselves called upon to decry their use, to throw doubt upon their efficacy, to question their honesty as well as the honor of those who have spent a lifetime in perfecting them and making their value known to the public. But in answer to these attacks an investigation was demanded and it will prove that these medicines which for nearly sixty years have been household words in thousands of homes, and which have proved their value in countless cases, are not only worthy of the confidence reposed in them, but that they are the most meritorious medicines of the age.

The Pierce Medicines are made of roots and herbs and barks of known and tried properties. These are gathered in the woods and fields by experts and are brought to Dr. Pierce's establishment in large quantities. There are bins and bins of these roots and herbs and barks, ready for the use of the chemists when needed. Let us suppose that it is time to make up a quantity of the "Favorite Prescription." The necessary ingredients are taken from the storage bins and carried to the mill, where they are ground. Then they are taken to the laboratory, where they are mixed in the proper proportions and put to steep in great vats containing 800 gallons. This laboratory is just as cleanly as a woman's kitchen. All the machinery is run by electricity and there is entire absence of anything to create dust and dirt. When these ingredients have been properly combined the medicine is rapidly bottled, the bottles corked and sealed, then labled, then wrapped and then packed for shipment to almost every point in the world.

Another interesting department in this establishment is that devoted to printing the familiar little yellow covered memorandum books which bear the Pierce name. Something like 65,000 of these are printed and sent out every day. The hospital, or Invalids' Hotel, is patronized by hundreds of sufferers from various ills who come there because they are assured of the most scientific treatment. A large staff of specialists is maintained in connection with this hospital and for the purpose of caring for the immense number of inquiries which come constantly from all directions concerning the writers' ailments. Each letter of this sort goes to the proper specialist and receives his individual care from the beginning to the end. No business such as is done at this Buffalo establishment could have on honorable and successful record of nearly forty years if it were conducted on any other basis. Honesty and honor count in the patent medicine business, as in all others.

RUSSIA'S OTHER PERIL

German Military Men Say to Defeat Japan She Must Put More Men in the Field

Berlin, Feb. 1.—German military men declare that if Russia has any hope of defeating the Japanese she must put 250,000 additional troops in the field at once. In the present state of Russian public opinion the Czar's government dares not withdraw a single regiment of the regular army for services in the far east. According to German military opinion, to obtain 250,000 men, Russia would have to call up the reserves, but their mobilization at the present moment would be fraught with the gravest danger to the government and the autocracy regime. Much difficulty has, of course, been experienced in getting peasants to join the colors during the past few months, and it is considered that any fresh orders for anything approaching a general mobilization would be a signal for a general uprising of the reserves.

IF CZAR FALLS THEN REGENCY

Consul Baron Schlippenbach Explains the Russian Succession

Chicago, January 31.—Baron Albert A. Schlippenbach, Russian Consul in Chicago, thus explains the details of the succession to the throne of the Romanoffs in case Nicholas II. should fall a victim to the revolutionists. In the event of the Czar's death his infant son would succeed him, but actual government would be vested in a regency, in which Grand Duke Vladimir and the Empress Alexandra would figure prominently. If the child should die Grand Duke Michael Alexandrovitch a younger brother of the Czar, will be the lawful heir. Next to him stands Grand Duke Vladimir, with Cyril, his oldest son, and his heirs, and Boris, his next eldest son, and his heirs.

A SPLENDID PROPOSITION

Rare Chance to Secure a Paying Investment

THE GOLD COIN MINING COMPANY

has placed a small block of their stock at the disposal of Canadian investors. This stock is sure to rapidly advance in price. The Company is now arranging to instal the power plant and a mill and cyanide plant for the reduction of their ore to a bullion on the property. They have arranged with a Trust Company having assets of $1,500,000 to put up a bond guaranteeing investors the repayment of the full amount invested. This makes investors absolutely safe By no possibility can they lose a dollar

THE GOLD COIN MINING COMPANY was organized November 21, 1902, under the laws of the State of Idaho The capitalization is one million shares of the par value of one dollar each, fully paid and non assessable; of the 1,000,000 shares 400,000 have been set aside as treasury stock

THE BOISE BASIN came into prominence shortly after Grimes and his party of prospectors entered the Basin country in 1862; their entrance was into the northern portion and one discovery of rich placer ground followed another until the news of the rich finds reached the outside world, when a veritable stampede for Boise Basin commenced, towns sprang up and grew together in an incredibly short time; the rush of people to Idaho City made it a place of 20,000 people in 1867, having a business street over a mile long lined with two-story buildings streets and sidewalks filled with people day and night business and money on every hand and the city bearing the proud distinction of being the capital of the territory of Idaho. Wages ran from $6 to $10 a day and not infrequently forty and fifty men worked on a single placer claim; the clean-up for a day's work in many instances ran close to $5,000; large fortunes were made in a few days by washing the golden sands in a pan; so eager was the quest for the shining metal that the streets of Idaho City were dug up and washed and re-washed, and the soil removed from under the houses and places of business So extensive was the search for the hidden treasure that not only all of the low ground was worked but the foot of the mountains surrounding the city have been washed away, filling up the lower portions of the basin and extending into the town, where one of the buildings has been buried under the tailings from the numerous placer workings

LOCATION—The property of the Gold Coin Mining Company is situated in the Gambrinus Mining District, Boise County, Idaho, on the range of mountains between Moore Creek and Elk Creek, which forms a part of the eastern boundary of the famous Boise Basin and into which these mountains are drained The property is located ten miles northeast of Idaho City, from which place there are good wagon roads either to the workings on top of the mountain or to the place of the proposed tunnels in the gulch which crosses the Tunnelsite claim.

THE CLAIMS—The Company owns a group of four contiguous lode mining claims and the Gold Coin Millsite: the names of the lode claims are the Tunnelsite, Blue Bell, Pennsylvania and Homestake, each being a full claim 600 feet wide by 1,500 feet long, excepting the Tunnelsite claim, which is 450 feet wide at the west end and 1,055 feet long; it was necessary to stake the claim in this form on account of joining the Washington property on the south and the Sub Rosa property on the west, these properties being prior locations to the Tunnelsite claim. The four lode claims aggregate nearly 80 acres of rich mineral land.

Further particulars may be had on application to WM. SAILSBURY, Fiscal Agent of the Company Peterborough, Ont., or to

S. E. PHELPS, Secretary,
311 SCHOFIELD BUILDING, CLEVELAND, OHIO.

Consumption Can Be Cured

A Powerful and Effective Destroyer o Disease Germs Discovered Which Cures Consumption

The ravages of consumption which for years have terrorized the modern world will no longer continue to cut off our population by thousands. Science has at last produced a remedy which not only can be readily applied to the lungs, but also kills every trace of bacilli in the throat, bronchial tubes, and air passages of all the breathing organs.

The name of this marvellous antiseptic about which the doctors are talking so much is Catarrhozone, the ozonated air cure. The vapor is more soothing than the air of pine woods, and its healing properties are without limit.

Through a skilfully devised inhaler the sufferer is enabled to breathe this fragrant medicated vapor into the most minute air cells of the lungs. It is so destructive to microbic life that the tubercular germs are rapidly killed and prevented from ever returning. Congestion and inflammation are relieved, coughing stops, all disagreeable symptoms are quickly cured by Catarrhozone.

So simple is Catarrhozone that anyone can use it. So certain to cure lung and throat troubles that it is prescribed by not less than twenty thousand doctors in United States and Canada. One well known authority who has made a life long study of consumption, has the following to say; "Catarrhozone is certainly a true specific for white plague. I find that its healing vapor readily spreads all through all the breathing organs passing over probably not less than one thousand square feet of mucous surface at a single inhalation. It is a perfect germicide and destroys tubercular germs with wonderful certainty. Catarrhozone is entitled to rank among the great medical discoveries of the age."

No matter how often you have been disappointed with other remedies you must not be discouraged. In Catarrhozone you will find new hope. What it has done before it can do again. Your case is not worse than others it has cured. Therefore if properly used you can also be cured by Catarrhozone. Two months treatment $1.00. At druggists or by mail from N. C. Polson & Co., Hartford, Conn. U.S.A., or Kingston, Ont. Refuse any substitute for Catarrhozone—only the genuine can cure.

TOWN AND COUNTY NEWS

DASHES HERE AND THERE BY TIMES' REPORTERS

Lost

On Wednesday evening at six a pair of gold rimmed eye glasses on way from Cordage Works, between Aylmer and Charlotte streets. Finder will be rewarded by leaving same at this office.

Illness of Col. Deacon

Lindsay, Feb. 2—Lieut.-Col. Deacon has suffered a stroke of paralysis, and is in a serious condition. He was with the British army in the Crimean war, is a retired officer of the local militia, a member of the Board of Education, and for 18 years has been police magistrate of the County of Victoria. He is 78 years old.

Our Energetic Member

Mr. R. R. Hall, the energetic member from West Peterborough, is losing no time in looking after the interests of his constituents. Already he has secured a daily mail to Fraserville, and has also secured assurances from the Postmaster-General that the Peterborough Post Office is to be greatly improved almost at once.

California Excursions.

The Chicago, Union Pacific and North Western Line runs through first class Pullman and Tourist sleeping cars to points in California and Oregon. Personally conducted excursions from Chicago every week. Lowest rates. Choice of routes. Finest Scenery. Special attention given to family parties. For maps, illustrated folders and rates, address B. H. Bennett, General Agent, 2 East King street, Toronto, Ont.

The attendance at the
Peterboro Business College
larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 90 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have fresh prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence course.

W. H. SHAPLEY

Will Erect Gallery

The Board of Managers of St. Andrew's church are contemplating the erection of a large gallery in that edifice to provide additional seating accommodation. The gallery will be horse shoe shape and will be built on three sides of the edifice. The gallery will afford the needed accommodation.

Died in Oregon

Yesterday, Mr. Benjamin Cooney, town, received a letter from Salem, Oregon, containing the sad intelligence of the death of his son, William, who passed away on January 10th in that far off State. He was 42 years of age, and was born in Peterborough and lived here for a number of years prior to his removal to the west, where he has lived ever since.

A George St. Collision

On Tuesday two sleighs loaded with ice, which was being hauled from the Little Lake, collided with a street car on George street, near McDonald's mill. One sleigh was broken and the ice scattered on the road, and the other was not so badly injured. The accident was caused by the deep snow, preventing the heavily laden sleighs to turn out enough to clear the car.

A PAINFUL ACCIDENT

Master Carlyle Potter, the nine-year-old son of Rev. J. G. Potter, when coming down the stairs of the West Ward school tripped and fell, breaking the bone in his right limb near the hip. He was taken home, where the bone was set by Drs. Greer and Eastwood, and afterwards was removed to the Nicholls hospital, where at a late hour last night he was resting well.

To Manufacture Sugar

The Mail and Empire says: The Peterborough Cold Storage and Provision Company has decided to go into the manufacture of beet sugar. Those shareholders who object to the move will have the opportunity to withdraw their stock. The company has shareholders throughout the whole Midland District, some of whom opposed the sugar beet proposal. D. Comstock, Kendal, is the new president; George Best, Port Hope, will be vice-president, and J. W. Merton, Canton, Secretary-treasurer.

Railways are Obdurate

The C.P.R., G.T.R. and I.C.R. have refused to accommodate the Toronto Board of Trade request for special rates for a "traders' week" by which merchants might be induced to go to the city to make purchases during that limited period. Such a concession, the railways argue, could also be demanded by other cities if it was once made, and when a similar scheme was planned for New York City other cities appealed to the inter-state commerce commission to prevent the threatened diversion of trade. Peterborough tried it with the railways in reference to cheap Saturday fares, but their efforts were not successful.

Injured by Sleigh

What might have been a serious accident happened on Tuesday afternoon when several little girls were enjoying a ride on a sleigh at the corner of Brock and George streets. A daughter of Mrs. Byrne fell off as the sleigh went into a pitch-hole and the hind runner passed over her body. No bones were broken but the little girl was badly bruised and a physician had to be called to attend to her injuries. She will be confined to the house for some time as her injuries are very painful, although not serious. Parents should take warning by this and forbid their children to jump on sleighs. It is a dangerous practice, and it is a wonder that there are not more accidents of this kind.

ANOTHER MUSICAL FESTIVAL

Good Programme Arranged by Salvation Army Band

The Salvation Army Band will give another of their excellent Musical Festivals tonight. The last one was enjoyed by all who were present, and this one promises to be a still better one. A number of the children and young people will take part, and this will make it more interesting. The following program will be rendered:

Opening exercises, Adjt. Jennings.
Selection, "Banner March," full Band.
Recitation, "Without Beer," Fred Jennings.
Reading, Mary Blogg.
Cornet solo, Dept. Bandmaster Northcott.
Vocal solo, Bandsman Payton.
Dialogue, "In Life's Great Harvest Field."
Selection, "Norwegian," full Band.
Recitation, "Conquering Grace," Ethel Wright.
Instrumental selection on organ, Pearl Payton.
Vocal solo, Bandsman Gandy.
Bar bell drills, Children.
Reading, "As We Forgive," J. Vincent.
Selection, "Prince of Peace," full Band.
God Save The King.

REMOVAL

C. Wilhelmy has removed his place of business to No. 453 George Street, next door to the Peterborough Light and Power Company.

MR. STRATTON HAS RETIRED

Emphatic Denial That Mr Covets Seat at Ottawa

Yesterday the Mail and Empire announced that Hon. J. R. Stratton contemplated entering the Dominion Parliament before the end of the present year, and that he would find a seat in East Peterborough, Mr. Finlay, the present member making way for him.

Mr. Stratton, in his own paper, states that there is no truth in the statement, and that he has no intention of again entering the political arena. The Times would like to see Mr. Stratton in Ottawa, as representative of East Peterborough, because we believe he would be a good man for the job, and would do much not only for his own constituency, but also for this town of Peterborough. We need strong men at Ottawa, who are able to impress upon the Government the necessity that exists for the early completion of the canal. It means to us that East Peterborough

W. G. FERGUSON, CHAIRMAN BOARD OF EDUCAUION.

BOARD MET IN INAUGURAL SESSION LAST NIGHT

The Standing Committees Struck — John Crane Chairman of Property Committee — H. P. Kennedy, Chairman of Building Committee.

The Board of Education met in inaugural session last night, when there were present:—Messrs. John Crane, J. J. Hartley, Wm. Pringle, W. H. Hill, Dr. Burnham, Jas. Stevenson, Robert Hays, W. G. Ferguson, L. M. Hays, Harry Morgan, Dr. Morrison, H. P. Kennedy, B. F. Ackerman, F. J. Jameson and R. B. Rogers.

CHAIRMAN ELECTED.

Secretary G. W. Morrow called the meeting to order, and asked for the election of a chairman for 1905.

The first ballot declared Mr. W. G. Ferguson chairman for the ensuing year.

Mr. W. G. Ferguson, on assuming his office as Chairman of this important body, thanked the Board heartily for the honor conferred upon him, and said he would in all his official actions keep in view the best interests of education in Peterborough—and the maintenance of its present high standard.

Mr. Ferguson has been a valuable member of the Board of Education for 15 years, during which time his colleagues have on more than one occasion manifested their appreciation of his services and worth by naming him as their chairman. Mr. Ferguson has heretofore always declined the honor with thanks, and would have done so last night had the Board not positively refused to take a second ballot.

STANDING COMMITTEES.

The following gentlemen were appointed a committee to strike the Standing Committees:—Messrs. Hartley, Morrison, Hays, Burnham and W. H. Hill.

This committee recommended that the Standing Committees be as follows:

Property Com.—Messrs. Crane, Stevenson, Morgan, Hartley, Jameson and P. Hamilton. Mr. Crane, chairman.

Finance Com.—Messrs. Hays, Fair, Ackerman, Eastwood and Burnham. Mr. Hays, chairman.

Building Com.—Messrs. Kennedy, Morrison, Crane, Hartley, Hays and Rogers. Mr. Kennedy, chairman.

Supervision Com.—Messrs. Pringle, Morrison, Kennedy, Hill and Rogers. Mr. Pringle, chairman.

Com. on Appointments—The Whole Board. Mr. Hill, chairman.

The above committees were endorsed by the Board, and each committee elected its own chairman as specified above.

The Board then adjourned.

DEATH OF MR. JAS. EAKINS.

Demise of an Old And Esteemed Resident of the Town.

We exceedingly regret to be obliged to chronicle the demise of Mr. James Eakins, which sad event took place at the family residence, George street north, last night about 7.30. Mr. Eakins was stricken with typhoid fever about four months ago, and when this had run its course, pleurisy set in. Everything that medical skill could do was without avail, and he passed quietly away as above.

Mr. Eakins was about 65 years of age, and had been for over forty years a trusted and esteemed employe of the Dickson Company, beginning his service with the late Mr. Samuel Dickson, when about 20 years of age. By his integrity and untiring energy he gradually worked his way up to the position of superintendent of camps and operations in the woods, a position which he held until his death. Of a kindly disposition, Mr. Eakins was greatly liked by those under him. He was a man of sterling character and of high honor. He leaves a wife and two daughters to mourn the death of a loving husband and kind and indulgent father.

The Times joins in extending to the bereaved family its sincere sympathy in their irreparable loss.

The funeral will take place on Friday afternoon. No flowers.

LINDSAY BUSINESS DEAL

The Rathbun Co.'s Interests in This District Disposed of to Lindsay Gentlemen

Lindsay Post:—It will be of interest to the business community to learn that one of the largest business enterprises of its kind in our town has changed ownership. The Rathbun Company has disposed of their entire business interests in Lindsay to a newly organized company, to be known as Baker & Bryans, Limited.

Mr. Baker has been the agent of the Rathbun Company since they began operating in this section, with Lindsay as a centre, some eighteen years ago, and under whose enterprising and successful management the business of the agency has developed to such an extent that in itself it is one of the most important concerns in our midst. With Mr. Baker in the new departure is associated Mr. Robert Bryans, our well known townsman, who until recently was a heavily interested in a similiar kind of business. It is needless for us to say one word as to the business capacity and enterprise of either of these gentlemen. They are as well known and highly appreciated by all classes of citizens as anyone can desire to be.

The new company has purchased all the limits, manufacturing and freighting plant, storehouses, yards and stock, and with the energies of the new management concentrated, the abundant success of Baker & Bryans, Limited, is assured.

I have disposed of lease of my store and am going out of the grocery business Big Bargains in groceries will be given as entire stock must be sold. —GEO. CARTON.

Lewis, Canadian Passenger Agent, 10 King Street East, Toronto. Direct and best route from Peterbor-

Baby Costs Too Much

When the price paid is the mother's health and happiness. The father doesn't realize as he romps with the child what years of wifely suffering must be set against the baby's laughter.

Chronic invalidism is a high price to pay for the painful joy of maternity, yet it is at such a cost that many a woman becomes a mother. Such a price is too much because it is more than nature asks.

By the use of Dr. Pierce's Favorite Prescription maternity is made practically painless, and a quick convalescence is assured in almost every case.

$500 Reward for Women Who Cannot be Cured.

The proprietors and makers of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay $500 in legal money of the United States, for any case of Leucorrhea, Female Weakness, Prolapsus, or Falling of Womb which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

"There are thousands of sick women dragging out a weary, miserable existence, who would be well and happy did they but have my experience with Dr. Pierce's Favorite Prescription," writes Mrs. Annie Leaman, Lady Commander Star of Bethlehem, Lodge No. 27, of 305 Jackson Street, Atlanta, Ga. "Four years ago I was nearly dead with inflammation and ulceration. I endured daily untold agony, and life was a burden to me. I had used medicines internally and externally until I had made up my mind that there was no relief in sight for me. A friend of mine endorsed your 'Favorite Prescription,' and I determined then to give it a trial. It took patience and perseverance for I was in a bad condition, and had to use your medicine for nearly four months before I was cured, but what a pleasure it being to go from despair to happiness, from misery to the delightful, exhilarating feeling that only health brings. I would not change back for a thousand dollars. Your 'Prescription' is a grand medicine. I wish every sick woman would only try it and be convinced."

Dr. Pierce's Favorite Prescription contains no alcohol and is entirely free from opium, cocaine and all other narcotics.

The dealer who offers a substitute for "Favorite Prescription" does so to gain the little more profit paid on the sale of less meritorious medicines. His profit is your loss; therefore, accept no substitute. Dr. Pierce's Pellets regulate the bowels.

LITTLE LOCAL LINES

Dashes Here and There by Times Reporters on Their Round

—The band was at the Brock street rink last night.

—The police have a lady's bracelet for which they want an owner for.

JAPANESE TROOPS WITH-DRAWING FROM SANDEPAS

The Horrors of a Winter Campaign Graphically Told--Troops Hurled Themselves Against the Defences --Story of the Battle.

St. Petersburg, Feb. 2.—Gen. Kuropatkin, telegraphing under date of January 30, says Sandepas was that day set on fire by the Russian artillery.

In a telegram, dated January 31, the Commander-in-Chief reports a continuance of a successful bombardment of Sandepas, and says that Russian balloonists had noticed that a portion of the Japanese garrison had been withdrawn during the day.

The General mentions a number of minor attacks and counter-attacks at outposts, villages and passes already reported in the Associated Press despatches.

St. Peterburg, Feb. 3.—From the reports of the General Staff it is not clear yet whether the fighting on the Hun River is ended. The Russians continue the bombardment of Sandepas, and apparently a strong force of Russians is between Sandepas and Shakpu to check the Japanese who seem to be trying to use their former turning movement across the Hun river. Nothing has been heard of the Russian movement against the Japanese right.

Russian headquarters, Husn Mountain, Feb. 1.—The five days' combat, which will be known as the battle of the Hun River, was fought on a plain broken only by southern amethyst mountains around Yental, the solitary eminence of which is the Liaoyang tower of bloody memory.

The bright glare of the sun, reflected from a dazzling expanse of snow was painful to the eyes, and it was with difficulty that one could follow here and there black streaks marking the Russian columns or wavering skirmish lines dashing against what resembled dull grey rocks, but which in reality were the villages of Lidintoun and Tanlepu, and the extensive hamlet of Sandepas, bastioned by Chinese defences and converted by the Japanese into veritable fortress surrounded with wire entanglements and earthworks. Exposed to intense cold, the mounds of earth had become impenetrable.

For five days Russian soldiers unavailing buried themselves against the defences, and field artillery pounded them until the frosty air reverberated with the thunder of cannon, the din of bursting shells and the rattle of musketry. The gunners actually wept with despair at their impotence. Mortar batteries came up at a gallop, in the hope of demolishing the fortification. Night and day the stream of shells was poured against the earthworks but without effect. The men seemed indifferent to hunger or cold, which latter was of arctic intensity. Their fingers, hands and feet were benumbed, while stinging snow and dust blined them. The slightest wound caused excruciating pain. Warm blood no sooner exuded from lacerated flesh than it began to freeze.

The wounded could not be left exposed, for if they did not receive attention within an hour they died. The surgeons, their assistants and nurses were almost powerless in the bandaging of wounds, for they were obliged to wear leather gloves or mittens in order to resist the cold. The men seemed to be living again the horrors of the winter campaign of 1812 against the French. Everything that could be done was done, but man was powerless in the face of nature, which heaped tortures upon the troops and defeated the well-thought-out plan of the commander.

The battle yielded no practical result.

Tokio, Feb. 3.—Field Marshall Oyama reporting yesterday, says that the Russians bombarded his centre and right wing on January 30, and sent small bodies of infantry to attack the Japanese outposts, where they were repulsed. On the same day heavy Russian guns fiercely shelled Piyentai and Chenchpao.

On Jan. 31, the Russians bombarded Chenchiehpao, Lapati and Litaipantan, and two companies of infantry attacked Chenchiehpao, advancing from the south near Peitailzu. The Japanese repulsed them.

On January 30, two companies of Russian infantry unsuccessfully attacked Yatzupao, two miles northwest of Chenchiehpao, and two battalions of Russian infantry and a regiment of cavalry failed in an attack on Tutaitza.

Field Marshal Oyama, is reporting the wounding of Lieut.-Gen. Mitschenko, which he had learned of from some Russian prisoners, characterised General Mitschenko's attacks upon the Japanese flank as brave.

The total failure of the recent Russian movement is seen in the announcement sent from Mukden, a Russian centre, that the troops of General Kuropatkin have fallen back to their original positions. It is presumably that Marshal Oyama, having now been reinforced by the whole of General Nogi's army, except the fraction needed to garrison Port Arthur, will soon take the aggressive in his turn, with a view of enveloping his antagonist. The neutrality of Chinese territory having been violated by the Russian General Mistchenko in his recent raid southward to Newchwang, the Japanese may now hold themselves at liberty to move troops northward through the region west of the Liao River, to the eastern bank of which their left flank extends.

It is pointed out, however, by a writer in the Speaker, that a minor difficulty before the Japanese lies in the matter of artillery. Hitherto in every battle they have had a great superiority in the number of their guns, though not in the pieces themselves. Siege artillery that has been used before Port Arthur is mostly worn out by this time, though some of it may have been brought up to the line. In this Russia, although ill-organized and very slow to move, has an inexhaustible supply.

General Kuropatkin reports that he has succeeded in setting Sandepas on fire, and a St. Petersburg report states that balloonist noticed that a portion of the Japanese garrison has withdrawn. However, if in a movement in which eight or nine army corps, each of which at its full strength would contain 25,000 men, General Kuropatkin could not take and hold Sandepas, it is unlikely that he would be able to achieve success with his bombardment. On the other hand, Marshal Oyama claims to have practically everywhere driven the Russians back, while he gives great credit to General Mitschenko's cavalry for the gallantry of their attacks upon the Japanese flank as brave.

STRANGE DISAPPEARANCE

Thomas Gemmell Disappears on Wednesday at Noon

About eight months ago, Mr. Thos. Gemmell came to Peterborough from Scotland, and has since been employed by the C.G.E. Works as an engineer. He is unmarried and about 70 years of age, and about two weeks ago, he went to board at Mr. David Sanderson's, 168 Park street. Shortly after this he lost his situation at the Works, which seemed to worry him greatly. He talked of leaving town and going to Toronto, and said he had his trunk packed. On Wednesday he appeared in a very strange mood, and as he was leaving the house at noon, he told Mrs. Sanderson that he was going to a funeral. She enquired whose funeral it was, and he answered that it was his own. He left the house, and no trace can be found of him since. He had no friends in this country, and grave fears are entertained as to what has become of him.

FUNERAL OF MRS. STANLEY

Largely Attended by Many From a Distance:

The funeral of the late Mrs. Geo. Stanley, daughter of Mrs. Samuel Long, Sophia street, who passed away in Brainerd, Minn., took place yesterday afternoon to the Little Lake cemetery. The funeral services were conducted by Rev. E. A. Langfeldt.

The following members of the family from outside places attended the obsequies:—Mrs. Henry Lindsay, Rochester, N.Y., Mrs. Thomas Bisch, Geneva, N.Y.; Mrs. Owen O'Rourke, Fessenden, Ont.; Mrs. John White, of Norwood, who are sisters, and Messrs. George Stanley, the bereaved husband; F. D. Long, of Park Rapids, Manitoba, and Alex. Long and Geo. Long, who are brothers of the late Mrs. Stanley. Mrs. Geo. Crawford, another sister, lives in Ireland, and Mr. Robert Long, a brother, is in Missouie, Montana.

ATHLETIC WORLD

BY OUR SPORTING EDITOR

The city league matches last night were hotly contested. The first games between the Karnots and Farriers was a stubborn contest from start to finish, and the Farriers had to work hard for their victory, winning out by a score of 4 to 3. The half-time score being 2—0 in favor of the victors.

For the Farriers, Squires at cover-point put up a strong defence game. Long, Smith and Nichols were stars on the forward line. For the Karnots, Kingscote turned aside some hot ones, Dormer at point played his position well, and intercepted many dangerous attacks. On the forward line, Campbell and Gilman showed up well. Mulhern was also conspicuous. W. Cavanah officiated as referee, and made the boys play hockey. Only two players were penalized. Grose of the Karnots, and Squires of the Farriers.

Following is the line-up:

KARNOTS.		FARRIERS
	Goal.	
Kingscote		Thornton
	Point.	
Dormer		Belleghem
	Cover-point.	
Quinn		Squires
	Rover.	
Mulhern		Long
	Centre.	
Campbell		Simpson
	Right Wing.	
Gilman		Nicholls
	Left Wing.	
Grose		Smith

SECOND GAME.

The second game between the Colonials and Verniers, was won by the former team by 3 goals to 2. Score half-time 2—2.

W. Parnell gave good satisfaction as referee.

Following is the line-up:—

COLONIALS.		VERNIERS
	Goal.	
McCoy		Fitzpatrick
	Point.	
P. Frost		Henderson
	Cover-Point.	
Henry		Angelsey
	Rover.	
McWilliams		McGrath
	Centre.	
Rosiffe		Delaney
	Right Wing.	
Folley		Mulligan
	Left Wing	
Callahan		Miller

* * * *

Considerable amusement was caused at a ladies' hockey match at Leicester, England, recently. During the progress of the game the spectators were delighted with one of the players who exhibited unusual speed and resource, and frequently got her side out of difficulties. But there was a sudden trig, the skirt went wrong, and still worse, a dainty wig dropped from the head of the player. Then it was disclosed the "lady" was a man. It appears one of the teams turned up a player short when a gentleman said his sister would give them assistance, and she turned out with the regulation skirt and jersey with the addition of a wig.

* * * *

Berlin, Feb. 2.—An offer of $30 a week and board secured Oliver Seibert's signature to a contract to play hockey at the Canadian Soo for the balance of this season. He left for that place to-day, and expects to be at the Soo six weeks.

* * * *

The game between Smith's Falls and Peterborough scheduled for February 10, will probably be played on February 9th, in order that it may not interfere with the Bal Poudre.

* * * *

The sudden death game in the Trent Valley League between Campbellford and the T.A.S. ordered for to-night, has been called off, Campbellford having refused to play either in Lindsay or in Peterborough.

YACHTING.

Glasgow, Feb. 2.—If Sir Thomas Lipton carries out present plans he will build three yachts and select the fastest one to race forr the America's Cup in 1906. Sir Thomas is in communication with all designers who may be seriously reckoned with in this connection. He has got one set of plans from Linton Hope for a racer of a most extreme and exaggerated type. These are under his consideration, and while considering them he is also in communication with Alfred Mylne, and with George Bernett, successor to the late George. L. Watson, to see what they can promise on more conservative lines. Sir Thomas is this time going to make the battle of his life, and its experiment will cost him a great deal of money. He cares nothing about the expense, and will attack for the cup as never before. His three boats will be radical.

THE ENQUIRY INTO THE NORTH SEA INCIDENT.

Why The Russian Ships Ran Away --Afraid of Another "Attack" in the North Sea.

Paris, Feb. 3.—A continuance of the cross-examinations of the Russian officers at to-day's session of the International Commission, enquiring into the North Sea incident, developed considerable feeling, and several sharp exchanges of remarks. Captain Clado particularly criticized the hostile attitude of the British press. He said Vice-Admiral Rojestvensky had written a private letter, severely condemning the British press, using one phrase which Captain Clado said he considered necessary to withhold.

Baron Taube, the Russian judicial adviser, remarked that it was doubtless some strong seafaring expression.

Captain Clado replied; "I will not say the phrase was strong, but it was bitter."

Captain Clado referred to an alleged mis-statement that Russian torpedo boats remained upon the scene without rendering aid to the trawlers. He declared that no such torpedo boats remained.

Hugh O'Beirne, agent of Great Britain, said he had heretofore refrained from asking a delicate question, namely, why none of the Russian ships remained to give assistance after knowing that peaceful fishing boats had been struck.

Captain Clado answered that Admiral Rojestvensky had fully explained that he did not consider the injuries to the fishing boats were serious, whereas the squadron having just escaped from an attack by torpedo boats it was desireable to withdraw the squadron so soon as possible from the vicinity of such attacks.

Admiral Beaumont, Great Britain, closely questioned the witness as to who gave the order to fire, Captain Clado saying it was Admiral Rojestvensky.

Lieut. Ellis, of the Russian battleship Alexander III., also maintained his testimony on cross-examination.

RUSSIANS FIRED ON EACH OTHER.

It is stated that the real truth of the affair is that the Russians on the Kamchatka mistook the fishermen's green rockets for Japanese signals, altered her course, and went blunder ing into the west squadron, where she met the Aurora. They signalled each other, but as they were working from two different code books they did not understand each other, and the Kamchatka opened fire on the Aurora. The first shot struck on the starboard bow, killing the first officer and three others. The Aurora returned the fire, but with light deck guns, chiefly one-pounders. It was a shot from these guns that killed the captain of the Crane, and the man Smith, and finally sunk the boat. Altogether eleven men were killed and nineteen wounded on board the Aurora. The dead, with the exception of a priest, were buried at sea somewhere off Goodwin Sands. The other was buried at Vigo, and three men who died later of their wounds were buried at Tangier. The weak point of the case before the commission of inquiry is that there are no officers of the Aurora present.

An Insult to Uncle Sam.

Venezuela to Feel the Force of the American Navy--A Rupture with President Castro Imminent--Another Little War.

New York, Feb. 3.—According to Washington advices to the World, despatches received at the State Department yesterday from United States Minister Bowen at Caracas indicate that a rupture with Venezuela is imminent.

Mr. Bowen's patience is at last exhausted, and he has recommended that he be recalled and that diplomatic relations with Venezuela be severed. He says that the attitude of the Castro Government remains uncompromising to the last degree and that he can see no encouraging indications of a peaceable settlement of the American claims. He advises that force be applied as the only means of bringing President Castro to terms, and that as the first step a formidable naval demonstration be made at La Guaira, the port of Caracas. Mr. Bowen's report was also sent to the President, and soon afterwards Mr. Roosevelt had a long conference with Secretary Hay, who is ill at his home. What conclusion was reached could not be learned, but the importance of the subject was proved by the fact that the President himself carried the despatches to Mr. Hay's home.

AN INSULT TO UNCLE SAM.

The plan for teaching Castro a vigorous lesson was completed weeks ago, but the President decided to defer its execution until after the adjournment of Congress. The plan includes a naval demonstration, which will immediately be followed by seizure of Customs houses which will be held until all the American claims have been satisfactorily adjusted. Chief among the claims which Mr. Bowen has been trying for months to have settled, and which are entirely independent of those disposed of by the agreement for the arbitration of the claims of all the Powers, is the claim of the Asphalt Trust, which contends that it has arbitrarily been dispossessed of its concession. Ten days ago President Castro went into the country on the plea that he needed a rest. This was construed by Mr. Bowen and the other diplomats as an insult, and nothing since has occurred to change their view of the incident. Mr. Bowen has been unable to make any headway with General Ybarra, the new Minister of Foreign Affairs.

$10 Excursion to Washington $10

February 10th! Lehigh Valley Railroad Special 10 Day Excursion. Tickets only $10 from Suspension Bridge to Washington and return. Tickets allow stop over at Baltimore and Philadelphia on return trip. Tickets good on "Black Diamond Express" and all regular trains. For tickets and further particulars call on or address Robt. S. Lewis, Canadian Passenger Agent, 10 King Street East, Toronto. Direct and best route from Peterborough to New York and Philadelphia.

CARNEGIE FOR THE CABINET

Popular Member For East Victoria May Become Minister

It would appear that Mr. J. H. Carnegie, the popular member of the Legislature for North Victoria, may enter the new Whitney Cabinet as Minister of Agriculture. Some years ago, at a meeting up north at which Mr. Whitney and Mr. Carnegie were present, the former, in speaking of Mr. Carnegie, is reported to have referred to him as the future Minister of Agriculture when he selected his Cabinet. The people have not forgotten this, and now look to Mr. Whitney to fill the promise then made.

"Mr. J. H. Carnegie, a successful farmer, who has been a patient student of agriculture in its broad sense, and who always took a prominent part in the House in discussions pertaining to the farm, is still the favorite for Minister of Agriculture, although the friends of several others, including Messrs. Fox, Kidd, Monteith, Sutherland and Macdiarmid, are pressing their claims. Mr. Carnegie had a long consultation in private with the Premier-elect yesterday."

The Times can tell Mr. Whitney that there is no Cabinet appointment he could make that would be more satisfactory to the people of this part of the Province than the selection of Mr. Carnegie for a portfolio.

A FINE MUSICAL ORGANIZATION

All Good Citizens Should Encourage our Splendid Band

It is well worth while encouraging the band-music spirit of the community; for the instinct which underlies love of band music is wholesome, and its cultivation helpful both to the intellectual and spiritual being. It may seem odd to urge the promotion of band interests as a moral agency in a town; and yet it is indisputably true that the existence of an efficient, well-ordered band is one of the strongest counter-attractions to questionable amusements and those sources of unhealthy recreation which the public are bound to seek and adopt, unless diverted. The band, to be sure, is much more than a diversion—it is an educator, a refining influence, a stimulator of dormant faculties, an awakener of slumbering forces, which properly directed make for the knowledge and culture of the individual, the community, the race. Among the greatest musicians the world has possessed have been bandsmen; to bandsmen music owes many of its notable triumphs over false conceptions and perverted tastes in the conservation and advancement of the divine art and in the rightful interpretation of the Harmonies of the Masters.

But apart from the ethical view, a good band is a good advertisement for a town which believes in hanging its banners on the outer wall. Hamilton, for instance, is perhaps as much known for its 13th Band as for its alleged mountains, while Ottawa would probably have no designation apart from the Capital were it not for the music made by its splendid Band of the Foot Guards, which so delighted the people of Peterborough during a visit paid us last summer. Taking the case of Peterborough, why should it not be an object to add to its manufacturing and commercial reputation, the distinction of possessing a crack band? A good band makes money for a town, if not for itself. The engagements abroad bring the town into notice; its wins in competitions excite the applause of the outside world. All of which is practically, tangibly, profitable and helpful.

By all means, now that a first-class Band has come into possession of Peterborough, let the citizens respect it, cherish it, and hear it — which means that they should support it financially as well as praising it and applauding its performances. A good Band does not grow spontaneously, nor exist miraculously.

HOW'S THIS?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Props., Toledo, O.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by their firm.

West and Truax, Wholesale Druggists, Toledo, O.

Walding, Kinnan & Marvin, Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Price 75c. per bottle. Sold by all Druggists. Testimonials free.

LIQUOR LICENSE LAW TO BE ALL CHANGED

New Government to Place Entirely New Law on Statute Book

WILL BE STRINGENT AND WILL BE ENFORCED

This is the Prevailing Opinion Amongst Leading Conservatives in Toronto--Will be Amongst First Acts.

It is evident that one of the first acts of the new government will be the new measure dealing with the sale of intoxicating liquor. For some time the temperance advocates in the Province have been agitating for the abolition of the bar, the treating system and drinking in clubs. It is for this reason that the present license law has not been receiving the amount of adverse criticism to which it is ordinarily accustomed, and when it undoubtedly deserves. The prohibitionists did not agitate for an amendment of the Act, believing it was impossible to put patches of new cloth on old garments without making the garments worse than ever. They deemed the whole licensing system awert away, they depended on the promise of Premier Ross to accomplish this, and when he "hedged" many of them aided in turning him out of power. The News thinks it is extremely unlikely that Mr. Whitney will favor the radical proposals of the temperance men, but it is more than likely he will make an investigation into the working of the license law, and bring in either a number of important amendments or else an entirely new measure.

THE POPULATION CLAUSE.

Undoubtedly there is room for improvement, for the law professes to do a number of things which it does not accomplish. For instance, it is supposed that there is a statutory number of drinking places in comparison with the population. In cities, towns and incorporated villages three tavern licenses are allowed for the first 1,000 of population, and for every additional six hundred an additional license is allowed. But there are so many restrictions and riders to this that it is really inoperative. Moreover, one crying evil is that the townships are not included, and the result is that the full number of licenses may be granted in the incorporated village or town, and as many as the commissioners like may be granted in that part of the township immediately outside of the boundaries of the town. This helps to make the clause inoperative.

But even in the cities, towns and villages the population standard does not seem to have any effect whatever. For instance St. Catharines has 20 licenses more than the law permits; if Toronto had as many in proportion the thirsty souls of this city could choose from over 600 bars. As a matter of fact the number of licenses in Toronto is only 150.

It will be seen therefore, that the parts of this Act establishing the population basis have no practical use whatever. If it is a good thing to have such a basis there is room here for reform.

THE THIRD OFFENCE CLAUSE.

Another objection has to do with the operation of the penalty clauses, particularly the one relating to third offences. The law says that when a license-holder is convicted of violating the law for the third time within two years his license shall be

Continued on Page Two.

THE COUNTY COUNCIL

Asked to Contribute to Gravenhurst Sanitorium

WEDNESDAY AFTERNOON.

The Council resumed its open session at 2.30 p.m. Wednesday afternoon, and the first matter claiming the attention of the Council was a matter brought up by Mr. Humphries of Asphodel, who addressed the Council with reference to the Free Consumptive Hospital at Gravenhurst. Mr. Humphries proposed that two or three free cots be established by the County Council for the use of patients from this County, or in case they were vacated by patients from the other parts of the province. He considered this a most worthy cause, and instanced the case of his neice, who was ill and the doctors advised that she should be sent to Gravenhurst. She stayed there three months, and at the end of that time she was much improved, but she stayed there for six months, and at the end of that time she came home and has been perfectly well ever since which is now nine months ago, and the doctor says that she will probably never be affected again with it. Mr. Humphries said that in Peterborough County there are between 50 and 60 persons who are affected with the disease, and many of them are not able to pay anything for their maintenance at the Hospital. He thought that the amount required was so small that no one would feel it in the slightest. He asked the Council to give this matter its most serious consideration.

At the conclusion of Mr. Humphries' address, Mr. D. W. Dumble, who happened to be present, asked the Council to hear Mr. J. W. Bennett, who also happened to be at the session, and who was thoroughly conversant with the Sanatorium.

At the request of the Council, therefore, Mr. Bennett addressed the members and gave his personal experience in the Sanatorium. He thought that there was no institution in Canada that deserved greater support than that of Gravenhurst. The cost of a free cot at the Hospital for a year was $200, which might seem large until the conditions are understood, and it must be remembered that the diet is costly, and the cost of operating the Hospital for various reasons is high.

The value of the institution rested almost solely upon the treatment and Mr. Bennett said that if the trouble were taken to provide this treatment at their homes, the patients could be successfully treated. But the trouble is that unless one goes to the Hospital he will not take the treatment afforded at the Hospital in his home.

There was no trouble to cure the disease if it were taken in time, but the great danger is that the disease is not looked after at an early stage.

Mr. Bennett stated that contrary to the general impression the disease was not hereditary.

Mr. Dumble added a few words to strongly urged the Council to accede to the request made by Mr. Humphries. It could not be urged that the Council in voting money to an outside institution, because there is only the one for the whole province, and there are patients there from all parts of Ontario, and all are treated alike. He believed the whole community would sustain the Council in making any grant which they might see fit.

Mr. Shaw moved that the matter be referred to the Finance Committee.

Mr. G. W. Hatton next addressed the Council on behalf of the Peterborough Law Association, and asked the Council to grant a sum of money to provide furnishing the Law Library. Mr. Hatton said that the Association paid each year towards the maintenance of the library about $150, and the Ontario Law Association pays about $270 each year, but the expenditure of this money is limited by certain restrictions, and the money received has been devoted to the purchase of books, and the Library at present was insured for $3,000. He quoted from the report of the inspector, in which reference was made to the local association, and he suggested that a floor covering and some comfortable chairs be provided, and these improvements Mr. Hatton asked for.

While the local members of the association might put up with the conditions themselves, it was somewhat galling to them to have to introduce the visiting members of the profession to a room as bare and as uninviting as that of the library here.

There was danger of having the grant given by the Ontario Association withdrawn if after having had their attention called to the inadequate premises no remedy is provided, and he hoped that this would not be so, because he hoped that the Council would see fit to make the grant asked for.

Mr. Dumble endorsed the words of his colleague and said that this was really a public matter, and it was an economy. If the lawyers were good men and knew their business, and did not bungle things, the sessions of the County Court were shortened. The Council had always used the Law Association well in the past and he had no doubt that when the needs of the association were known, they would make the grant asked for.

Mr. Bennett added a few words to those of the former speakers and thanked the Council for the system of electric lighting that had been installed and hoped that the request would be granted.

The matter was referred to the Committee on County Property, and the Council adjourned to ten o'clock on Thursday morning.

THURSDAY MORNING.

The Council met in Committee this morning and devoted the early morning session to the work of the different committees.

California Excursions.

The Chicago, Union Pacific and North Western Line runs through first class Pullman and Tourist sleeping cars to points in California and Oregon. Personally conducted excursions from Chicago every week. Lowest rates. Choice of routes. Finest Scenery. Special attention given to family parties. For maps, illustrated folders and rates, address R. Limbs Ached With Weakness

Cheeks Were Sunken and Pale—Appetite Poor—Sleep Hard to Obtain

FERROZONE

Made a New Woman of Mrs. Clarence Agustus of Walkerville

When you want to get over weakness and sleeplessness without stopping work, use Ferrozone. It is the one sure remedy that brings lasting health at once.

Try Ferrozone and notice how much better you will feel. Mrs Clarence Augustus, of Windsor, writes:

"My weakness was chronic.

"It seemed to invade every organ of my body.

"My cheeks were sunken and pale.

"I had no appetite, and slept very poorly.

"Since using Ferrozone I am like a new being. I am strong, have no more aches or weak spells.

"Ferrozone is indeed a grand tonic."

It's the nourishment in Ferrozone that makes you feel good. It puts life into the blood, energy into the nerves, makes you dance and snap with new found health; try Ferrozone, 50c. per box, or six boxes for $2.50; at all dealers in medicine, or Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Western Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $4 per year, strictly in advance.

UNION LABEL

PETERBOROUGH, FEBRUARY 3 1905

MR. WHITNEY'S FIRST DUTY

Within a few days Mr. Whitney will undoubtedly be called upon to form a Cabinet. This will be the supreme test of his leadership. We quite agree with The News that if he blunders now he may find it difficult to regain his footing. If he organizes a Cabinet which from the outset commands the respect and confidence of the Province he will prove his fitness for leadership and greatly improve his position even with his political opponents. We do not intend to busy ourselves with the nomination of candidates for Cabinet positions nor do we assume to dictate to the responsible leader of a triumphant party. The responsibility is his and the business of an independent journal is to hold political leaders to their responsibilities and to judge as fairly as they may the motives and merits of their performances. But of this Mr. Whitney may be certain: He will create as much friction and heart-burning by selecting weak and incompetent Ministers as will be occasioned if he should form a very strong governing combination. He cannot hope to satisfy all the aspirants for office, and he had better disappoint the weaker and less desirable candidates, than for the sake of temporary comfort and convenience set aside those better qualified for Ministerial positions. For our part, we have a good deal of confidence that Mr. Whitney understands the situation and that in the construction of his Cabinet the Province will not be disappointed.

PRESCOTT ELECTION

Returning Officer Declares Labrosse Elected by Four

Ottawa, Feb. 2.—The official declaration for Prescott was: Labrosse, 2,008; Evanturel, 2,004; majority for Labrosse, 4.

The first return gave Mr. Evanturel a majority of 4, but a deputy-returning officer came forward, and made an affidavit that he had made a mistake of 4 in his poll book, and the sheriff accepted this. Mr. Evanturel claims that the sheriff had no right to accept this affidavit, and has applied for a recount. This will take place in all probability on Monday next.

Mr. Evanturel attributes his defeat—if he is defeated—to an alliance between the Labrosse Liberals and the Conservatives. He had, he says, the support of two-thirds of the French Liberals, but the English Liberals joined the Conservatives to oppose him. Further, he was not in his riding until nomination day, and to this lack of attention he attributes the loss of three or four hundred votes.

California Excursions.

The Chicago, Union Pacific and North Western Line runs through first class Pullman and Tourist sleeping cars to points in California and Oregon. Personally conducted excursions from Chicago every week. Lowest rates. Choice of routes. Finest Scenery. Special attention given to family parties. For maps, illustrated folders and rates, address B. H. Bennett, General Agent, 2 East King street, Toronto.

LIQUOR LICENSE LAW TO BE ALL CHANGED

(Continued from page 1.)

summarily taken away. It is not often that such a course is taken. In fact, there have been two cases during the last year which were disregarded. Very often the commissioners allow the license-holder time to dispose of his license to someone else before the law is put in motion against him. He obtains the full value for the good-will of the license and in reality does not suffer at all.

One way in which this abuse could be reformed would be to make the license as well as the license-holder responsible. In that case conviction for a third offence would cancel the license itself. There is a strong feeling also in some quarters that the penalty now provided for a third offence should apply to a second offence.

THE SALE TO MINORS.

There is an abuse concerning the provision forbidding the sale of liquors to minors. The law now says that no license-holder shall sell to anyone under 21 years old, but there is a saving clause which protects the seller. The clause is: "This subsection shall not apply where such liquor is supplied to a person under 21 years of age upon the written order of his parent, guardian, or master." The result has been that convictions under this section have been found impossible.

RIGHTS OF RESIDENTS.

Another provision which Mr. Whitney will make will be as to the rights of residents living near a saloon. In Montreal, for example, a majority of the electors in any polling subdivision may prevent the granting of a license in that subdivision. Here the wishes of the people have but very little weight with the commissioners.

The News says that in Toronto the license fee is generally regarded as much too low. Four hundred and fifty dollars is thought to be ridiculous for a privilege which can be sold in the open market for at least $10,000. A graduated scale of prices more in accord with local conditions in each municipality is required.

While these are only a few defects of the Act which are pointed out by reformers, they suffice to show that reform is absolutely necessary in the law itself. As to the administration there can be no question that the need is still greater.

A BAD ADMINISTRATION.

According to the present system, there is a Board of License Commissioners appointed for each electoral district, to hold office for a year. The office is honorary, but the appointments are regarded as part of the patronage of the Government member, or unsuccessful candidate for the riding. He submits the names to the Provincial Secretary, and the appointments are made simply by the approval of the Lieutenant-Governor, and without an Order-in-Council. For each Board there is a License Inspector appointed, who is not removable except for cause. His salary averages between $500 and $600 per annum, and he performs the duties in addition to his regular work. His appointment is also a part of the patronage, but is confirmed by Order-in-Council. The difficulty is that almost invariably the Commission is not only favorable to the liquor men, but is composed of politicians desirous of conserving the liquor vote to the Government. The tradition concerning the appointment of Commissioners is that one member must be a liquor man, one a temperance man, and the third a Roman Catholic. In the majority of instances care has been taken to select a Roman Catholic who is favorable to the liquor interest.

COMPLAINT AGAINST INSPECTORS

During the past year many complaints have been received by the Provincial Secretary concerning the inspectors, and five or six of them have been dismissed for laxness in their duty. It is not remarkable that some of them are lax, for, as a rule, they are engaged in some private business such as real estate, commission work or auctioneering. For men in such positions to make themselves obnoxious to the liquor men would mean in many cases a distinct money loss, besides, perhaps, the ill will of the Commissioners. It is a remarkable thing that in the face of these conditions the number of convictions in Ontario during the past year was not far from 500, but of these there were very few third offences. The total fines collected in 1903-04 amounted to $16,559, and the expenses incident to the enforcement of the law, including salaries, etc., made a total of $67,899. It is a notable fact that during the past two years there has been a distinct increase in the income from fines.

THE NEW LAW.

Two propositions are made in order to enforce the law: One is that all License Commissioners be abolished, and the four or five electoral districts put in charge of one "big man" who would have full charge of the issuance of the licenses, and the enforcement of the provisions of the Act. These inspectors should be paid a good salary, so that they could devote their whole time to the work. Another proposal is that the present Boards of Commissioners be retained, but that four or five Provincial Inspectors should be appointed to see that the local inspectors do their duty.

Mr. Whitney proposed some time ago that the Commissions should be appointed automatically, and should consist of the County Judge, the County Warden, and a third man appointed by the Government. The only objection to this is that the Government would not be sufficiently responsible for the enforcement.

There are 101 license districts in the Province, which makes 303 commissioners and 101 inspectors.

SPEAKS OF RUSSIA'S NEEDS

Land Reform the Solution of all Economic Problems

New York, Feb. 2.—Tolstoi the Russian author's views on the recent bloodshed in St. Petersburg are given in this despatch from Michael Davitt the Irish leader, to the American, dated Moscow, Jan. 31:

"I arrived at Moscow this morning and almost immediately after my arrival received from the hands of the correspondent at Yasnaya, 200 miles from here, the first interview granted by the great leader Tolstoi, to any newspaper man, American or European, since the outbreak of the present crisis.

"I have seen the Countess Tolstoi, who informs me that her husband is much upset by the recent happenings in Russia. The reports that he is dangerously ill that have been cabled are not borne out by her statement, though he is far from well.

FORCE IS NO REMEDY.

"Count Tolstoi's statement to the correspondent is as follows: 'The news from St. Petersburg is shocking, but I have not as yet received a full account of the awful events. I have been inundated with telegrams from newspapers and individuals all over the world requesting an expression of my views on these events. It is impossible to give an adequate answer to such an important question in a few words.

"'Furthermore, I have at different times expressed my views on such questions as of a people trying by force to better their condition.

ALL GOVERNMENTS ROBBERS.

"'Under the influence of recent events I have made sundry notes which will later serve as a basis of a comprehensive article on the subject. The tenor of these notes is this: "All Governments, whether monarchical, constitutional, or republican, are nothing more than organized institutions, which, themselves being immune from punishment, have the power to punish others, to plunder and to rob.

"'Neither the working classes nor the intelligent classes of Russians are true exponents of the real desires and needs of the people.

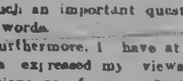
LAND REFORM THE REMEDY.

"'The program which they submit to the Government is not the program of the people. Those elementary measures which they demand of the Government—such as freedom of person, freedom of speech, and freedom of conscience, etc., though essential conditions for a life of culture, do not touch the problem of the crying need of the people, which lies solely in the nationalization and communism of land.

"'On this point neither the working man nor the educated classes raise the cry, nor do we hear any such cry from the peoples of other countries, despite the apparent freedom of these countries. In other countries there exists the so-called independent press, but its independence is only apparent.

"'We have only to observe the fate which attended the plan advocated by Henry George for the nationalization of land.

"'The only possibility of a change in the general policy of civilization lies in perfecting the individual morally and religiously. Then through the development of the individual, through moral improvement, through inculation of real respect for others, through hatred of force, cruelty and injustice will disappear."



SEALED TENDERS addressed to the undersigned, and endorsed, "Tender for Stable, Kingston, Ont.," will be received at this office until Friday, February 17, 1905, inclusively, for the construction of a stable for "B" Battery at Kingston, Ont.

Plans and specification can be seen and forms of tender obtained at the Department and at the office of Arthur Ellis, Esq., Architect, Kingston, Ont.

Persons tendering are notified that tenders will not be considered unless made on the printed form supplied, and signed with their actual signatures.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the party tendering decline to enter into a contract when called upon to do so, or if he fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
FRED. GELINAS,
Secretary.

Department of Public Works,
Ottawa, January 31, 1905.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

Put on Ayer's and be proud of your hair

A little pride is a good thing. Then why be contented with thin, scraggly hair? faded, gray hair? Put on Ayer's Hair Vigor and have long, thick hair; beautiful hair, without a single gray line in it. Keep young. Have a little pride. J. C. Ayer Co. Lowell, Mass.

The Canadian Northwest

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

1] At least six months' residence upon and cultivation of the land in each year during the term of three years.

2] If the father (or mother, if the father is deceased), or any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same town, township, or an adjoining or corresponding township.

A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 20 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 20 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Land Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

SEALS, PRICE MARKERS

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

INCORPORATED

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and, we believe, exceedingly profitable investment. Every dollar of stock is guaranteed by twenty year, full paid, gold bond, delivered to purchaser of stock, from an Investment Company that has no interest whatever in the company, but who are disposing of the debenture bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the State Treasurer under which they received their charter, there by doubly securing the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvellously rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Simmer and Jack Mining Co., Limited, Klandsfountain, South Africa:—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world.

"With the present development of the Monument Mine, I estimate that 100 tons per day can be extracted, which will mill from $15.00 to $20.00 per ton. The total cost of mining the ore, delivering and milling, I place at about $4.00 per ton. With the increased milling capacity, it is safe to say that the mine can furnish 100 tons of $15.00 ore, which would yield a clear profit of $11.00 per ton, or $1,100.00 per day (equal to $400,000.00 per annum). Estimated total value of ore in sight, $2,500,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Dr. Brown writes as follows:—

"In regards to the amount of ore available at the mines at Sinclair, I saw on the dumps several thousand tons, probably 5000 tons would be an under-estimate.

"As to the size of the ore body itself, from what I saw of the geological structure, I think that there is every indication that it will be found to extend underground as far as the out-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish full information to investors.

VARICOCELE & STRICTURE

No other disease is so prevalent among men as Varicocele. As it interferes with the nutrition of the sexual organs it produces weakness, loss of semen through the urine, decay of the organs, pains in the loins, aching in the back, nervousness, despondency, bashfulness, palpitation of the heart, constipation, and a combination of these results in complete LOSS OF MANHOOD. Thousands of young and middle-aged men are troubled with STRICTURE. If you have reason to believe you are afflicted with it, don't neglect it. It will ruin you. Don't let doctors experiment on you by cutting, stretching or tearing it. Our NEW METHOD TREATMENT dissolves the stricture tissue, hence it disappears and can never return. We cure Varicocele and Stricture without operation or loss of time. The treatment may be taken at home privately. Send for our Free Illustrated Book on VARICOCELE and STRICTURE. WE GUARANTEE TO CURE OR NO PAY.

Kidneys & Bladder

All sexual complaints affect these organs. Hence the kidneys are a great source of disease. Have you aching or weakness over the small of the back, tendency to urinate frequently, deposit in urine, coldness of hands or feet, a drowsy feeling in the morning. Don't neglect your kidneys. Our NEW METHOD TREATMENT is guaranteed to cure any disease of these organs or no pay.

No Names Used Without Written Consent.

O. W. Rowe, of Jackson, Mich., says: I had varicocele in the secondary stage and two strictures of 8 years' standing. I was operated on twice, undergoing great suffering, but only got temporary relief. I was finally advised to try the NEW METHOD TREATMENT of Drs. K. & K. The enlarged veins disappeared in six weeks, the stricture tissue was removed in eight weeks and my sexual energy and vitality restored so I was a man in every respect. I recommend you doctors with my whole heart."

CURES GUARANTEED. NO CURE NO PAY.

Before Treatment. After Treatment.

We treat and cure Nervous Debility, Lost Manhood, Varicocele, Stricture, Blood Diseases, Kidney and Urinary Complaints. Consultation Free. Books Free. Write for Question List for Home Treatment.

Drs. KENNEDY & KERGAN

148 SHELBY STREET, DETROIT, MICH.

A SPLENDID PROPOSITION

The Salido Gold and Copper Company

Incorporated under the laws of Arizona, with a capital of $3,000,000 forever non-assessable divided into shares of $1 each, par value. All investments insured Granite Securities Company.

The "SALIDO GOLD-COPPER COMPANY" enterprise offers attractions to the investors of the country, that without thorough investigation, would scarcely seem probable. If only a fraction is realized of what any prudent business man in his own affairs would regard as absolutely certain, the enterprise must prove abundantly successful and exceedingly profitable.

SALE OF STOCK

The company will prosecute the work of development with all the diligence that the cash in the treasury will permit and circumstances warrant, and to this end a small amount of the treasury stock is now placed upon the market, in blocks of not less than One Hundred Shares. The par value of the stock is One Dollar per share, fully paid and forever non-assessable.

The company reserves the right to advance the price of stock without notice.

REMEMBER

First—That all payments for treasury stock go into the treasury for development work and not into the pockets of the promoters.

Second—There are no salaried officers.

Third—The incorporators have put their own good money into this enterprise and being business men, intend to do business along business lines.

Fourth—That this company is honest.

Fifth—If you are thinking of investing in mining stocks this is worthy of your careful investigation.

OTHER PROPERTIES

This Company owns four other Gold and Copper Mines, which title is now in process in the laws of Mexico. As soon as title is perfected, we shall commence to develop them as we certainly expect something very great from these properties. Our assays: ation have been of the very best, showing gold and copper from $6.00 to $122.30 per ton.

I have secured a small block of this stock, which I offer at the following prices: Unguaranteed 40 cents per share, guaranteed 80 cents per share. These prices will only prevail for a short time, as the number of shares for sale at this price is limited. The Shares will then be advanced to 40 cents for the unguaranteed and 80 cents for the guaranteed. I can unhesitatingly recommend this investment to the Canadian public.

W. K. HALL,

FISCAL AGENT, PETERBOROUGH

Agents wanted in outlying districts, including Toronto.

The California Buckeye Mine

This mine consists of 15 acres of good zinc land, well prospected by drill holes showing forty feet of good pay dirt at a depth of 154 feet.

On the property are hoisting engine, shaft house, ore buckets, Worthington steam pump, air drill, cars and pipes. Over $15,000 have been expended to date, and the proposition itself is a good one—so much so that we can personally guarantee an immediate dividend of 8 per cent. this year and 12 per cent. after 1905, with an additional quarterly dividend.

Capital Stock $250,000

Shares, par value $1.00 each Fully paid up and non-assessable, no Preferred Stock. No bonded indebtedness

The shares are selling at 20 cents each, with a prospect of the price being raised.

The Joplin Daily Globe says that over $10,000,000 worth of zinc and lead were mined in 1904, up to 1st Dec., in the Joplin District. In the California Buckeye Zinc Mine, located in the centre of the Joplin District, it has been demonstrated that the ore body has an average thickness of 42 feet and the runs are 50 feet wide, about 120 feet from the surface.

The rough dirt for the first three months of operation produced zinc ore to the amount of $12.95 per cent., while the average for the district is less than 5 per cent., but for the purpose of being on the safe side, we calculate on only 8 per cent. ore to the ton of dirt, and it shows a profit each day with two shifts of men, of $566.20.

We stand ready to prove every statement made, and if enough stock is subscribed for in this locality a directorship of the company is at the disposal of the subscribers.

Any further information and proofs of earning capacity will be cheerfully supplied.

MR CARNEGIE DRAWS THE LINE

Steel King Will not Invest in New Hotel Because He Declines to Lend His Name or Money to Liquor Trade

Pittsburg, Feb. 1.—Mr. Andrew Carnegie has refused to have anything to do with improvements in Pittsburg which would bring him into even remote connection with the liquor traffic.

The head of a large concern in Pittsburg has just returned from New York, where he went to see Mr. Carnegie about erecting a hotel here larger than any one in the city, but he was told by Mr. Carnegie, while he thought such a building would make great returns financially, he would have nothing to do with it, since it would be necessary to have a liquor license in the hotel, and he would not lend his name or money to anything connected with the trade.

A RANK RADICAL

Homar Greenwood Claims That West Colonials are Like Himself in Sympathy With Liberals

London, Feb. 2.—Mr. Lloyd-George, speaking at York last night, referred to Mr. Homar Greenwood, the Liberal candidate for York, as a brilliant colonial who is "championing liberty in York." The Yorkshire Herald, referring to this says that Mr. Lloyd-George had not had time to ascertain that the people of York only find in Mr. Greenwood a very ordinary specimen of a Radical who poses as a representative of the colonies, and misrepresents them every time he speaks.

Mr. Greenwood, in his speech, said it seemed strange to claim that the colonies were Conservative in their sympathies. What was more, it was absolutely untrue; the self-governing colonies were rank Radical.

RUSSIAN SUPPLIES BLOCKED

Cannot Be Sent Beyond Lake Baikal Because of the Snow

London, Feburary 2.—According to a Tokio dispatch to the Daily Telegraph, Russian supplies from the interior are concentrated at Lake Baikal, owing to the fact that the railway east of that point is blocked by snow.

Vladivostok, it is added, is now isolated on the land side as well as the sea front.

The same correspondent says it is reported that orders have been placed in England for several large warships for Japan.

FOR NEW ONTARIO

Thirty Thousand Applications For Free Land Grants

Toronto, February 1.—Over 30,000 applications for free land grants act, and 12,000 certificates authorizing the holders to select locations have been issued. Up to the present, however, not more than 4,000 men have taken up locations. Every man has four years in which to make a selection after the date of receiving his certificate.

CHRISTIAN SCIENCE THEORY

A Humorous Story Which has a Very Sharp Point

Yesterday an esteemed subscriber handed the following to The Times for publication, vouching for the truth of the incident. It is interesting to observe how native logic will triumph over inculcated dogma.

There is a family in Peterborough who are firm believers in Christian Science, and, naturally enough, the children of these persons became a great deal imbued with the doctrine held by their parents. One of these children, a little girl of four or five years, was left with an aunt, a non-believer. During the course of the afternoon the little girl fell down the stairs, and as the accident evidently caused her great pain, she wept bitterly.

"The aunt, having in mind the youngster's training, asked:

"'Are you hurt, dear?'

"'No, 'm, responded the little girl, 'I'm not hurt.'

"'Then,' continued the aunt, not without a trace of wicked enjoyment, 'why do you cry?'

"'Because I'm mad.'

"'And why?'

"'I'm mad because I can't feel that I ain't hurt.'"

RUSSIANS IN TOWN

Several are at Work in the Mines and are Good Citizens

During the past few months a dozen or more Russians have taken up their residence in Peterborough. Most of them are from the Polish provinces, and are of the better class. They are rapidly becoming acquainted with the language, and will, no doubt, make good citizens.

In Montreal a night school has been opened for these people, and to their credit be it known that they are working hard to master the English language. In Peterborough we know of two young Russians who are studying with children every night, in order to master the first principles of the language. Such people deserve to succeed.

Girl Wanted

A girl with some experience wanted at The Times bindery, to feed ruling machine. Apply at Times Book store.

$400,000 has been expended by the National Sanitarium Association in eight years to maintain and extend its work.

Since the work began, the death-rate in Ontario from consumption has decreased 40 per cent.

In the past three years, the deaths in the province have fallen from 3,484 to 2,072.

These are the figures given in the report of the Secretary of the Provincial Board of Health.

Rare Chance to Secure a Paying Investment

THE GOLD COIN MINING COMPANY

has placed a small block of their stock at the disposal of Canadian investors. This stock is sure to rapidly advance in price. The Company is now arranging to instal the power plant and a mill and cyanide plant for the reduction of their ore to a bullion on the property. They have arranged with a Trust Company having assets of $1,500,000 to put up a bond guaranteeing investors the repayment of the full amount invested. This makes investors absolutely safe By no possibility can they lose a dollar

THE GOLD COIN MINING COMPANY was organized November 21, 1902, under the laws of the State of Idaho The capitalization is one million shares of the par value of one dollar each, fully paid and non assessable; of the 1,000,000 shares 400,000 have been set aside as treasury stock

THE BOISE BASIN came into prominence shortly after Gilmore and his party of prospectors entered the Basin country in 1862; their entrance was into the northern portion and one discovery of rich placer ground followed another until the news of the rich finds reached the outside world, when a veritable stampede for Boise Basin commenced towns sprang up and grew together in an incredibly short time; the rush of people to Idaho City made it a place of 20,000 people in 1867, having a business street over a mile long lined with two-story buildings streets and sidewalks filled with people day and night business and money on every hand and the city bearing the proud distinction of being the capital of the territory of Idaho. Wages ran from $6 to $10 a day and not infrequently forty and fifty men worked on a single placer claim; the clean-up for a day's work in many instances ran close to $5,000; large fortunes were made in a few days by washing the golden sands in a pan, so eager was the quest for the shining metal that the streets of Idaho City were dug up and washed and re-washed, and the soil removed from under the houses and places of business So extensive was the search for the hidden treasure that not only all of the low ground was worked but the foot of the mountains surrounding the city have been washed away, filling up the lower portions of the basin and extending into the town, where one of the buildings has been buried under the tailings from the numerous placer workings

LOCATION—The property of the Gold Coin Mining Company is situated in the Gambrinus Mining District, Boise County, Idaho, on the range of mountains between Moore Creek and Elk Creek, which forms a part of the eastern boundary of the famous Boise Basin and into which these mountains are drained The property is located ten miles northeast of Idaho City, from which place there are good wagon roads either to the workings on top of the mountain or to the place of the proposed tunnels in the gulch which crosses the Tunnelsite claim.

THE CLAIMS—The Company owns a group of four contiguous lode mining claims and the Gold Coin Millsite: the names of the lode claims are the Tunnelsite, Blue Bell, Pennsylvania and Homestake, each being a full claim 600 feet wide by 1,500 feet long, excepting the Tunnelsite claim. which is 450 feet wide at the west end and 1,055 feet long. it was necessary to stake the claim in this form on account of joining the Washington property on the south and the Sab Rosa property on the west, these properties being prior locations to the Tunnelsite claim. The four lode claims aggregate nearly 80 acres of rich mineral land.

Further particulars may be had on application to WM. SAILSBURY, Fiscal Agent of the Company Peterborough, Ont., or to

Lung, Throat and Catarrhal Troubles

MARVELLOUS DISCOVERY THAT HAS DELIGHTED ALL CANADA BY ITS PROMPT CURES

This method that has proved successful through its enormous advantages of being pleasant and free from the danger of creating the drug habit employs dry air as the carrying agent.

By this method every part of the breathing apparatus is bathed by a medicated air. Germs which excite this trouble are immediately destroyed. Sore and tender spots are healed and the congested surfaces restored to normal condition.

This method of treatment is known as Catarrhozone, and has obtained a footing never attained by any other remedy for the many diseases affecting the respiratory tract.

Catarrhozone is fragrant, healing, balsamic, pleasant as the air of the pine woods and more active as a healing agent than anything hitherto discovered. It contains neither cocaine nor any of those irritating substances which really increase the congestion and add to the difficulty, instead of curing as Catarrhozone so quickly does.

MRS. BINT BROWN, of Tenecape, N.S., had lung trouble and catarrh. She took cough mixtures but they made her sick. Then she used an atomizer, but after resorting without benefit to poultices and numerous other remedies, she tried Catarrhozone. "I used Catarrhozone Inhaler," she writes, "five minutes every hour, and soon recognized it was going to cure. I could feel the soothing medicated air spreading through the air passages of the throat, and it touched the sore spots in the lungs that other remedies failed to reach. Catarrhozone seemed to go just where it was needed most, and soon put a stop to my cough. It restored me to perfect health, and I am convinced that no cough, cold or catarrh can exist where Catarrhozone is used."

The complete Catarrhozone outfit contains a large bottle of inhalant, sufficient to keep recharging the inhaler for two months. It costs $1.00 and is guaranteed to cure; sample size 25c. Sold by all druggists or sent direct to your home by mail if price is forwarded to N. C. POLSON & Co., Kingston, Ont., or Hartford, Conn., U.S.A.

TOWN AND COUNTY NEWS

DASHES HERE AND THERE BY TIMES' REPORTERS

To-night's Band Concert

We ask our readers not to forget the band concert this evening. It is hoped that there will be a bumper house. Let the people show their appreciation of the band by turning out in large numbers this evening.

Route Boys Wanted

A couple of route boys wanted at The Times. We pay $1.00 per week per route. For an hour's work before school in the morning. Apply at The Times Bookstore.

Mr. Eakins' Funeral

The funeral of the late Mr. James Eakins, the particulars of whose death appeared in yesterday's Times will take place this afternoon at 2.30 from the family residence, 296 George street. Service will be held at two o'clock.

Lost

On Wednesday evening at six a pair of gold rimmed eye glasses on way from Cordage Works, between Aylmer and Charlotte streets. Finder will be rewarded by leaving same at this office.

Lowest in Canada

There were 190 deaths in Peterborough during 1904, according to the annual report of Dr. Bingham, medical health officer, which we published yesterday. Exclusive of those from outside points who passed away in the hospitals here, the death rate is about nine in the thousand. This is possibly the lowest of any town in Canada.

The attendance at the
Peterboro Business College
larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 80 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

WHY IS THIS THE BEST TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence courses.

AN IMPORTANT MEETING

Will be Held by the Council Next Monday Evening

On Monday evening next the Council will be called upon to decide several important questions. The new industry which was discussed at the last meeting of the Committee of the Whole, will be dealt with and also the appointment of a plumbing inspector. The matter of assessors will receive attention, and the appointments recommended by the Committee of the Whole at a former meeting, will be withdrawn.

POST OFFICE IMPROVEMENTS

Mr. R. R. Hall, our Popular Member Has Been Successful

The badly congested condition of the post office is likely to be remedied at once. Mr. R. R. Hall, M.P., has taken the matter up with the Postmaster General at Ottawa, insisted that something be done without delay. The result is that the work of improving the office will be begun in the near future.

It is proposed to remove the partition at the door leading into the office for registering letters, and also the postmaster's private office, and making a public opening on Water street at the north east corner of the building. Two extra wickets are to be put in and the floorspace for the general public greatly increased.

This will at once relieve the congestion, and afford all the facilities for the transaction of business.

BANK OF NOVA SCOTIA

Has Definitely Decided to Open a Branch in Peterborough

Mr D. Waters, inspector of agencies for the Bank of Nova Scotia, was again in town on Wednesday, in connection with the opening of a branch of that institution in Peterborough. When seen by The Times, Mr. Waters, who was registered at the Snowden House, stated that the bank had decided to open here, and would make a formal announcement in regard to it in the course of a few days.

The bank has not yet, we understand, secured premises, notwithstanding reports to the contrary.

To The Times, Mr. Waters said that the bank would not employ a local man as manager, but would use their own staff entirely.

FORESTERS ANNUAL CARNIVAL FEBRUARY 14TH

The Event of the Season Will Take Place This Night

The 57th annual carnival, under the auspices of Court Peterborough, C.O.F., will be held on Tuesday, Feb. 14th, at the Brock street rink. A good list of prizes will be given for fancy dress and comic costumes, and the prospects are that the event will surpass even the successes of former years. The 57th Band will furnish music for the occasion and there will doubtless be a large number of skaters in costume. This will probably be the only fancy dress carnival of the season here, and from past successes it is safe to assume that the Foresters will provide an evening of pleasure for the hundreds who will want to attend this event of the season.

Further particulars will be given later.

Police Court

At the police court yesterday morning Arch. Menzies was found guilty of being drunk and disorderly, and was fined $2 and $2.25 costs, or 10 days in jail. He took the days. Fred Thibault, charged with being drunk, was assessed $2. He paid the fine.

A BEAR ADMIRAL

Of the Navy Gives Some Points on Coffee.

A naval officer of all men has a chance to become an expert on coffee and when he talks about it, naturally knows somewhat of his subject.

A certain famous (now retired) Rear Admiral whose name can be given by mail on request, says:

"I have travelled thus wide world over from the Arctic to the Antarctic, and have drank the best coffees ever grown on this continent, or in the East, made by the best chefs, and am expert coffee maker myself.

"Of late I noticed that there was something wrong in my dietary and that I was suffering from dizziness immediately after my coffee. I was becoming sadly constipated, something unusual for me. I was averse to thinking that coffee was giving me so much inconvenience, but I thought perhaps it would be best to reduce its strength, but it made no perceptible change in my feelings.

"At last I thought I would venture to try Postum Food Coffee, a preparation that I often laughed at, as I read its advertisements, so I purchased a small package and followed the direction explicitly and prepared my first cup. I was surprised to find that so far as taste was concerned it was alright; besides it has a satisfactory feeling. The next morning I found that my bowels were moved normally, and as in days when I was younger and in the prime of life. Next thing I noticed that when I sat down to my morning paper and later to my mail that my head and mind were clearer than they had been for a long time, and I had no feeling of depression and lassitude. No one could have made me believe that a change from coffee to so simple a liquid food could have produced such a rapid and marked change in a person's condition. It is now about three months since I began to use Postum. I have never hankered after coffee. I do not want to use it, for I am in excellent condition, no constipation, no indigestion, no dizziness, no fullness, and in fact feel like a new man and I attribute it to the change wholly, and I may say that I feel stronger than I did three months ago, and at my age, 70, strength is a much needed thing. In short since I abandoned coffee I am better natured, better conditioned, and better pleased than I have been for a long time. The experiment I made with Postum cost me fifteen cents, the beneficial results obtained cannot be calculated in dollars and cents. It takes a little more time to make Postum Coffee than ordinary coffee, but I count the difference in time as naught in comparison with the benefits gained. I think I shall try Grape-Nuts next."

Look in each package for the famous 17 day Battle Creek Sanitarium offer.

MR. BODDY TO RETIRE

The Popular C.P.R. Ticket Agent Has Sent in Resignation

The many friends of Mr. T. E. Boddy, the genial town ticket agent of the C.P.R. will regret to learn that he has decided to retire from the service of the company, and will leave town about March 1st.

Mr. Boddy has been in the employ of the C.P.R. in Peterborough for about 18 years, and during this period has made many friends. We will too has made many friends. He will remove to Streetsville, where he will spend the summer on a fruit farm at Mrs. Boddy's old home.

During his residence in Peterborough, Mr. Boddy has by his kindly manner and genial disposition, became very popular, and he will carry with him to his new home the very best wishes of the entire community.

NEW JUNK BUSINESS

Mr. C. Goldman, Opens an Office on Aylmer Street.

Mr. C. Goldman, an enterprising gentleman, who understands all about the value of different kinds of junk, has opened up an office at 339 Aylmer street. He represents H. Carp, Montreal, and proposes to engage several rigs for the business here. He will purchase old iron, brass, copper zinc, old rubbers, horse hair, etc. Mr. Goldman understands the business thoroughly, and is confident that a great deal of money can be realized from many things which are considered worthless. He has paid as high as $25 per hundred pounds for horse hair which is used in the manufacture of a certain kind of brush which is quite valuable. Clippings of cloth and tailors' scraps can be converted into material as good as new. Mr. Goldman is a gentleman of honorable business methods, and refuses to have anything to do with individuals who appropriate goods and seek to dispose of them to the junk dealer.

HEADS BEGINNING TO FALL

Already the Political Axe is at Work in Peterborough

This great family journal is informed that the political axe has already begun its work of decapitation in Peterborough, and that already one head is in the basket. This is, after all, not an unexpected event. Having enjoyed the sweets of office for many years, it is not unreasonable that those who have been sitting out in the cold should want to come in. This g.f.j. is opposed to the spoils system, as it exists in the "land of the free and the home of the Colorado potato bug." But we think, in this case at least, public sentiment will uphold the action of the authorities. It is said that one of the chief reasons for the change was that the retiring official practised nepotism, by appointing a distant relative, in the person of Mr. Sam. Campbell, as his assistant. He that as it may, the fact that Sam was on duty more or less is said to be established beyond question.

The official referred to is Mr. Snowden, whose political "pull" has been so strong that he for years has held the position, against all comers, of inspector of fisheries on the creek, below Charlotte street to the river. This g.f.j. was informed that Mr Wm. Croft, who has been a life long Tory, succeeds Mr. Snowden, and will enter upon his duties as soon as the seals of office are in his possession. This great family journal congratulates Mr. Croft on his appointment.

REMOVAL

C. Wilhelmy has removed his place of business to No. 483 George Street, next door to the Peterborough Light and Power Company.

LITTLE LOCAL LINES

Dashes Here and There by Times Reporters on Their Round

—The Warden's banquet will take place this evening.

—The skating rinks are being well patronized this winter.

—Wedding invitations and "At Home" cards printed, latest styles, Times Printing Co.

—The local minstrels have got to work again, and expect to appear behind the footlights in a couple of months.

—John Kennedy, of Pontypool, has been elected Warden of the united counties of Northumberland and Durham.

—The men putting in the underground telephone wires, had a group photo taken at Whiten's studio this week.

—Why do without a fountain pen when you can get the New "Rival" for only one dollar at Times Bookstore. Best pen ever offered for the money. Gold point and a guarantee with every pen.

—The regular meeting of the Chosen Friends will be held this evening in the S.O.E. Hall. Mr. W. J. McCamon, of Belleville, Past Grand Master, will be present. A full attendance is requested.

—Hear Louis Mandel, the expert mandolin soloist at the 57th band concert this evening in the Opera House, also the double vocal quartette from the musical comedy, "Under Southern Skies."

—Mr. Aaron Comstock and the Canadian Pacific Railway are the only two ratepayers who have wiped out their part of the cost for granolithic walks in a lump payment. The others have extended it over 20 years.

—Lindsay Post: Mr. Ted Kavanagh, proprietor of the Phelan House, Peterborough, was in town yesterday buying horses. He secured ten fine animals, for which he paid $1,700. A very fine team was supplied by Mr. Eph. Evans, of Yelverton, the other five were bought from Mr. John McMillan, who lives near Port Perry. "Ted." says there are still lots of good horses in the country—one has only to offer the proper price to bring them out.

Division Court Appointments

Mr. J. A. A. Raizenne of St. Eugene has been appointed clerk of the Third Division Court of the United Counties of Prescott and Russell, vice L. J. Lebrosse, M.P.P., resigned. The latter, it will be remembered, defeated Hon. Mr. Evanturel in the recent election. Howard Chester of Coldwater has been appointed clerk of the Tenth Division Court of Simcoe County, and E. M. York and J. A. Woll of Veronsha have been appointed clerk and bailiff respectively of the Division Court of the United Counties of Lennox and Addington.

BAD BLOOD

Reveals itself in many ways. Sometimes the impurities in the blood mark and mar the skin with blotches, pimples, boils or other eruptions. Sometimes the result of bad blood is rheumatism or a debilitated condition which is popularly described as "feeling played out, hardly able to drag myself around."

The impurities and poisons which corrupt the blood, clog the liver and cloud the skin are removed by the use of Doctor Pierce's Golden Medical Discovery. It does more than eliminate the poisons; it increases the activity of the blood-making glands so that there is an increased supply of pure, body-building blood. It brightens the eyes, cleanses the skin, and gives new, physical energy.

Accept no substitute for Dr. Pierce's Golden Medical Discovery.

"I thank God for the good your medicines have done me," writes Mr. James M. Stevenson, of Mineral, Tuscarawas Co., Ind., Box 92. "I was not well for two years. My throat was always sore, head ached, and back ached nearly all the time. My weight was 135 pounds. I was taken sick with typhoid fever, and when the fever left me I had such a pain in my left side I could not breathe without pain. I thought I must die. My wife went to the drug store and procured a bottle of Dr. Pierce's Golden Medical Discovery and a vial of his 'Pleasant Pellets.' I discontinued the use of my doctor's medicine and began with the 'Golden Medical Discovery' and 'Pellets.' I at once began to feel better; the pain soon left my side and I could breathe with ease. In a week or so I felt so good I could not stay in the room. I began to walk about the streets; I felt better each morning. After a month's use of the medicine I was well. That was over a year ago. Now I weigh 184 pounds and feel better than ever in my life."

Dr. Pierce's Pleasant Pellets cure constipation.

I have disposed of lease of my store and am going out of the grocery business. Big Bargains in groceries will be given as entire stock must be sold. —GEO. CARTON.

SOCIAL AND PERSONAL

—Mr. C. B. McAllister will not receive this afternoon.

—Miss Loretta Booth has returned home after spending a month with friends in Fonda, N.Y.

—Miss Mae Nancarrow, who has been visiting friends in town, returned to her home in Campbellford, yesterday.

—The Times had a fraternal visit yesterday from Mr. George Lytle, editor and proprietor of the Lindsay Watchman-Warder, who was down with the curlers for the day.

—Mr. C. T. Hopwood, and wife, of Winnipeg, are at the Oriental. Mr. Hopwood is on a combined business and pleasure trip, and when in Toronto was present at his parents' 56th wedding anniversary. Mr. Hopwood was some years ago an employe of Mr. Robert Fair.

—At the regular weekly testimony service in the Church of Christ Scientist, on Tuesday night, an interesting address was delivered by Mr. McEwan, a traveller, from Kingston, on the great help Christain Science had been to him.

PRESCOTT ELECTION

Returning Officer Declares Labrosse Elected by Four

Ottawa, Feb. 2.—The official declaration for Prescott was: Labrosse, 2,008; Evanturel, 2,004; majority for Labrosse, 4.

The first return gave Mr. Evanturel a majority of 4, but a deputy-returning officer came forward, and made an affidavit that he had made a mistake of 4 in his poll book, and the sheriff accepted this. Mr. Evanturel claims that the sheriff had no right to accept this affidavit, and has applied for a recount. This will take place in all probability on Monday next.

Mr. Evanturel attributes his defeat—if he is defeated—to an alliance between the Labrosse Liberals and the Conservatives. He had, he says, the support of two-thirds of the French Liberals, but the English Liberals joined the Conservatives to oppose him. Further, he was not in his riding until nomination day, and to this lack of attention he attributes the loss of three or four hundred votes.

BRIDGE ACROSS DETROIT RIVER

Interesting State of Affairs Now Reached in This Connection

M. C. R. MAY BUILD TUNNEL

In This Event the G. T. R. May Proceed Itself With Construction of a Bridge

Montreal, January 3.—An interesting condition of affairs has developed in respect of the obstacle offered to transportation by the Detroit river which separates the cities of Detroit and Windsor.

Up to the resent time all the through trains, whether passenger or freight, have had to be transferred by barges from one side of the river to the other, and this process, particularly during the winter season, has been attended by not a little difficulty.

A solution of the problem had been offered, in the proposal that a bridge between the two points should be erected jointly, by all the railway companies doing business between the two countries—the G. T. R., the C. P. R., the Michigan Central and the Pere Marquette.

For several years new negotiations looking toward the building of the bridge in question have been under way, but, until recently, with no apparent indications of advancement. It had been generally supposed that the railways interested, within the past year, had come more closely together, because when officials were approached on the subject they invariably assumed an optimistic tone.

Now comes a report from Detroit that the Michigan Central has under contemplation the construction of a tunnel between Detroit and Windsor, on its own responsibility, and independently of the other companies with which it was supposed to have been co-operating. Additional interest is given to this report from the fact that a meeting of the chief railway and steamboat officials interested was held in Detroit only last week, when the entire question of the bridge was fully discussed.

MAY PROCEED WITH CONSTRUCTION.

While General Manager Hays, of the G. T. R., upon his return from the West would say nothing as to the outcome of the meeting, maintaining a reticence which has characterized the officials of all other lines in the deal, it was learned on reliable authority at the head office of the company in this city, today, that, should the Michigan Central carry out its announced intention, the G. T. R. will proceed itself with the construction of the bridge that has been so long contemplated.

A very critical situation is thus engendered, so far as the railways doing business between Detroit and Windsor are concerned. Should the Michigan Central persist in its independent stand the other lines will have to take steps to maintain themselves in the vanguard of traffic operations at that point. This can only be done by the construction of a second tunnel, or the erection of the bridge that has been before the public for a number of years.

Some indications of the plan to be followed by the Michigan Central in this connection has been given. Prominent engineers are said to have been at work sinking pits for some time. The Michigan Central rights of way on both sides of the river will be used for the approaches of the tunnel and there will be no change in the present terminals. Electric locomotives are to be used and the entire equipment will be the finest that engineering skill can devise. Construction will begin, it is said, in the near future.

The Two Victories

Mr. J. H. Carnegie's majority is 1,061. East Victoria is evidently well satisfied with its old representative. In West Victoria Mr. Fox, the Conservative candidate, has a majority of 153. Both of the above are official.

EXPORT DUTY ON CANADIAN WHEAT

Proposition Made at Board of Trade Excites Much Discussion

EFFECT ON THE FARMER

Claimed That the Wider the Market Is the Better the Development of the West

Montreal, January 3.—The speech delivered at the Board of Trade annual meeting by Mr. Robert Meighen, in which he advocated the placing of an export duty on wheat on the ground that with such a duty imposed, milling industries would spring up in the West and the farmwould therefrom reap a direct benefit, has excited considerable comment on 'Change and elsewhere.

Mr. Meighen's statement that the increasing of the milling business in Canada by such means is desirable is meeting with much discussion.

"Just talk that to the farmers of the North-West and you'll have a revolution," said Mr. James Carruthers. "It is to the interests of the farming community to have as wide a market for their grain as is possible, and any curtailing of it would be a direct blow at them. I think the proposal of Mr. Meighen, to benefit some few people, would mean to tax the whole farming community."

"Wheat and grain is not like other raw products. We compete in England with Russia, Australia, the United States and numerous other countries. Just as soon as we raise the price of our wheat there, the English miller is going to buy the other countries' products. Where will we be?"

Mr. Alexander McFee spoke strongly on the proposal. "It is absurd," he said. "It is nothing more than an admission by Mr. Meighen that the Canadian millers cannot export their flour as cheaply as those of the United States can do. We have been doing all we can for them in the way of cheapening railway and other forwarding facilities, but when they ask that we shall tax ourselves to put money in their pocket thye are asking too much.

"The wider the market Canada has the better it will be for her. The Canadian market has been little better than a close preserve for the English miller. The new trade with the United States gives the farmer another string to his bow and should not be restricted. No Government dare put an export tax on wheat."

It is well known that Mr. W. H. Maldrum, Peterborough's prominent miller, holds similar views.

TERRITORIAL AUTONOMY

A Calgary Delegation Will Present Its Views to the Government

Calgary, N.W.T., February 3.—At a largely attended mass meeting last night, the following citizens were named to go to Ottawa to protect Calgary's interests in the location of a capital and the division of new provinces; Mayor W. M. Davidson, Dr. Stewart, Charles Stewart, Major Walker, W. H. Cushing, R. J. Hutchings, Dr. Roleau.

Telegrams were sent to Sir Wilfrid Laurier and Hon. Clifford Sifton, protesting against naming any town or city as the provincial capital that is seeking for permanent honors. The Calgary delegates take the position that the division of the electoral district should be left to the Provincial Government. It is hoped here that Banff can be named temporarily as the capital.

Dr. Brett accompanies the Calgary delegates to advocate the interests of Banff. It is maintained here that there is an excess of population south of Red Deer, hence on a popular vote or plebiscite, the capital must come to Calgary.

Royal Baking Powder is the most economical thing in the kitchen.

THE INDEPENDENT PRESS OF CANADA

The President of the Canadian Press Association, in his annual address, spoke as follows regarding the independence of the press:

"Speaking personally, I have never been able to see what any journal has to gain by being avowedly Liberal or Conservative. Its appeals is thus confined to one half of the community, when it might appeal to the whole community. As a purely business proposition, it seems to me to be obviously unsound. A journal published in the interests of the people, except when these two interests coincide. It seems like doing a piece of work with one hand, when two might be used. Personally, I have been sorry to see so many excellent journalists entering the Legislature or the House of Commons, as party representatives. The journals which these men edit at once lose much of their independence and virility. This is a lamentable situation, but perhaps the present difficulty will pass away as a more independent spirit grows among the people, and as party allegiance is less blindly and strictly enforced. From the standpoint of the public welfare, there is just as little justification for a marriage of partyism and journalism. The mission of the press is to inform, to educate, to guide public opinion, and to remove public misunderstandings, whether local, national or international. The party journal aims to inflame passions rather than soothe them; it appeals to prejudice more often than to reason; it attempts to prevent that mutual knowledge of each other which clarifies judgment. It may not affect the journalistic alertness, enterprise and energy of the publisher or editor, but it seriously limits his field of usefulness as a citizen placed in a position of tremendous responsibility."

THE RUSSIANS FORCED TO ABANDON SUPPLY STATION

On the Sea of Japan--An Artillery Duel on Proceeding Around Sandiapu--Frozen Corpses Found.

New York, Feb. 4.—A Wonson Corea despatch to the Herald dated Tuesday, via Seoul, Wednesday, says;—The Russian supply station at Tenchian has been abandoned, the Russian troops having retired northward to Songchin, after destroying the telegraph line. It is rumored that they will move further north soon. Russia's elaborate preparations for a campaign on this coast have apparently been abandoned.

RUSSIANS FOUND HUNDREDS OF FROZEN CORPSES

Of Japanese Wounded Who Had Tried to Crawl off From Ghenhatin Pass---The Appearance of These Corpses was Frightful.

Tainkhetchen, Manchuria, Delayed in transmission.—The Japanese offensive in the neighborhood of Tainkhetchen, fourteen miles southeast of Tainkhetchen, has been beaten off. The Japanese left their killed and carried off a couple of hundred wounded. The Russians subsequently found a large number of frozen corpses of Japanese wounded who had tried to crawl off from Chenhatin Pass. The appearance of these corpses was frightful. The bodies were scantily clad.

THE JAPANESE ATTACK AT SANDIAPU FAILED

Were Unsuccessful in Their Attempt to Drive Off the Russians and ths Indications Are That They Will Abandon Sandiapu At Once.

Mukden, Feb. 4.—Delayed in transmission.—After the Russian bombardment of Sandiapu yesterday the Japanese tried to drive them off, but failed. The indications are that the Japanese will abandon Sandiapu. The usual artillery duel is proceeding at the centre. Ten Japanese battalions which attacked the Russian left were repulsed with heavy losses.

The latest returns of the Russian losses during the recent fighting show that 13,000 men were killed or wounded, General Kondratovitch being among the latter.

Gen. Oku's Headquarters, via Tientsin, Feb. 3.—Japanese field surgeons and field hospitals have accomplished a triumph, according to statistics obtained by the Associated Press from the chief surgeon of General Oku's army. There have been in the entire army since the landing on May 6, only forty deaths from disease. The figures show that up to Dec. 1, there were treated 24,642 cases of disease. Of these 40 result ed fatally, 18,578 patients recovered, 5,609 were sent to Japan, and the remainder were undergoing treatment when the figures were complied. It is believed that these figures are unequalled in the history of warfare. There were only 183 cases of typhoid and 342 of dysentery, while of beri-beri there were 5,070. The other cases of disease were not serious.

The casualties in General Oku's army from May 6 to December 19 were; killed, officers 210, men 4,917; wounded, officers 742, men 20,837; missing, officers 4, men 402. Sixteen per cent. of the wounded died, 19 per cent. recovered in the field and 65 per cent. were sent to Japan. Eighty-five per cent. of the wounds were inflicted by rifle shots, 8 per cent. by artillery, and 7 per cent. by cold steel. The largest percentage of recoveries was in the cases of chest wounds. Most of the recoveries were due to the small calibre of the rifle bullets.

St. Petersburg, Feb. 3.—The Admiralty having definitely committed itself to the policy of rebuilding and greatly increasing the size of the navy, although the detailed program has not yet been completed, is already being besieged by foreign firms anxious to secure contracts. Those firms are having little success, however, as only a single French firm has thus far obtained a contract for a large ship.

Several other contracts may be awarded, but the Admiralty has decided, instead of placing contracts abroad to attract foreign capital to Russia for the erection of new yards with the general purpose of encouraging and creating a vast ship-building industry at home, which eventually will render the country completely independent of country completely independent of foreign builders. In this matter the Admiralty is displaying a friendly disposition towards the United States, and there is reason to believe that the Admiralty has already received an offer from American capitalists to embark in the enterprise on the condition of obtaining a sufficiently large contract. Chas. M. Schwab's approaching visit is believed to be directly connected with this proposition.

A CARGO OF TORPEDO BOATS

London, Feb. 3.—A despatch from Paris to the Times says:—There is curiosity in shipping circles at Antwerp over the arrival in a steamer from New York of ten torpedo boats, which were shipped in sections by an American firm for transmission to Sebastopol. The Japanese Consul asked his Government for instructions.

AN ENJOYABLE EVENT

Ladies of Murray Street Baptist Church Give a Banquet

On Thursday evening the ladies of the Murray street Baptist church gave a very enjoyable banquet to the choir, the teachers and officers of the Sabbath School, and friends. After the banquet, Mr. E. B. Edwards, Superintendent of the Sabbath School took the chair, and a very enjoyable program, consisting of speeches and music was introduced.

Solos were rendered by Mrs. Miller and Miss Florence Hall, and short addresses were given by Dr. Scott, Mr. Hodgson of the Collegiate Institute, Mr. Geo. Lee, Mr. C. B. Routley, Mr. J. P. Cunningham, Rev. F. J. Scott, Dr. Bagshaw, Mr. G. K. Martin, T. E. Matthews, Mr. Hooker, and several others.

WHEN YOUR JOINTS ARE STIFF and your muscles are sore from cold or rheumatism, when you sprain or bruise yourself, Perry Davis' Painkiller will take out the soreness and fix you right in a jiffy.

A PLEASING EVENT

Presentations and Addresses at Meeting of Daughters of England

At the close of the regular meeting of the Daughters of England on Wednesday night, the members presented Dr. Young, the society's popular physician, with a beautiful gold locket, suitably engraved for his faithful services as Medical Officer of the Order during the last seven years. The following address accompanied the presentation, the address being read by Mrs. J. Booth, and the presentation being made by Mrs. Torey;—

Peterborough, Feb. 2nd, 1905.
Lady Lansdowne, No. 22.

To Dr. Young.—We, the members of the Daughters of England, desire to express and show to you congratulations for your special services performed to the members. We can hardly express to you Sir, our many thanks for your valuable duties and your prompt attention in the past and we hope it will not cease while Medical Officer. We ask you to accept the small token of our best respect hoping you will ever stand by the society in the future.

Signed on behalf of the officers and members of the lodge.

The doctor responded in a very suitable manner, thanking the ladies for their gift and the kindness shown to him for his services.

The Society also presented the Worthy Past President, Mrs. Booth with a beautiful parlor lamp and the following address;—

Peterborough, Feb. 2nd, 1905.
Lady Lansdowne, No. 22.

To the Worthy Past President, Sister Booth,

Dear Sister,—We, the members of the Daughters and Maids of England, wish to express to you our gratitude and thanks for the many acts of kindness shown to us by you during your term of President. But we feel that we cannot express our thanks as we should for your faithful services and prompt attendance as President. We ask you to accept this gift as a token of the love and esteem which we hold for you, and we hope that you will be as faithful in the future as in the past and that you will ever stand by the society and its members.

Signed on behalf of the officers and members of the lodge.

Sister Booth thanked the officers and members for their kindness toward her and assured them that as far as possible she would be as faithful to the society as in the past.

A short program was rendered and refreshments served after which the meeting was closed by the singing of the National Anthem.

BLOOD KILLS GERMS

Good Blood Made By Good Food.

If one can surely turn food into good red blood it will combat any and every disease known and conquer completely more times than the disease will win.

Any physician will tell you that good rich blood and plenty of it is the best germicide known and surely and safely cures disease when medicines fail, so the effort of the doctor is to give food that digests and quickly makes blood.

No food ever discovered will do this as certainly as Grape-Nuts, which is predigested at the pure food factories where it is made.

One of the many illustration is that of tuberculosis, which refuses to yield to medicine but must give way to good blood. A man from Philadelphia writes:

"I have been fighting tuberculosis for some years and with a weak stomach was losing ground slowly every year. I had tried all kinds of food, and finally got so far along with the disease that my stomach, liver, kidneys, bowels and lungs were affected. My stomach got to a point where it would retain no food food but peptionized milk and I was down to 90 lbs. in weight. The doctors said about two years ago that I had but a month or two more to live. About that time I was put on Grape-Nuts and cream. It never showed the first sign of coming up, but agreed from the start and in a few days I began to feel increased strength so I kept on, with the result that the healthy blood has driven the disease from every organ of my body except the lungs and is slowly driving it from them. I have gained greatly in vitality and strength and added 20 lbs. to my weight. If I can keep on as I have been, it seems clear that I will get entirely well, thanks to old Dame Nature, whose work was made possible by food I could digest." Name given by Postum Co., Battle Creek, Mich.

Look in each package for the famous little book, "The Road to Wellville."

DESPERATE FIGHTING IN A FIERCE SNOWSTORM.

The Battle of Heikoutai Ended in Complete Failure of Russian Attempt to Turn Japanese Flank

Gen. Oku's headquarters, Jan. 30, via Tien-Tsin, Feb. 4.—Delayed in transmission.—The Russian attempt to turn General Oku's left flank has proved a failure. Following on the failure of recent cavalry raids down the railway, this it is thought by the Japanese, will probably persuade the Russians to await in the future the Japanese attacks. The attempt, even with the bombardment of other portions of the line, or a cavalry movement around the flank, was doomed to failure from the start. The Japanese were at Heikoutai, but withdrew its small force from there and allowed the Russians to occupy the positions until they could move over enough men to make its re-capture certain. The re-occupation of this position was easily accomplished, although the loss was heavy. The casualties have not yet been reported, but it is believed they will amount to fully 3,000.

RUSSIANS HAD ENORMOUS FORCE

The Russians had five divisions engaged at Heikoutai and in that direction. They were driven back by less than two Japanese divisions. Over 100,000 men were engaged in the Russian demonstration against Japanese positions immediately east of Heikoutai, a force strong enough to have been successful, as only about one Japanese division was sent against them. The Russian loss is estimated at over 4,000, although prisoners say that one regiment was practically annihilated. The Japanese loss is placed at only 200, due to the fact that they remained in their trenches while the Russians were forced to cross open ground, solidly frozen, where the construction of shelter trenches was impossible.

FIGHTING IN ZERO WEATHER.

The ground being covered with snow was naturally a great disadvantage to the attacking force, as it was plainly visible against the white background for a long distance. The Japanese suffered the same disadvantages in the re-capture of Heikoutai. The weather was very cold during the fighting, the minimum being six degrees below zero and the maximum 14 degrees above zero.

The Russians did not retreat north, but retired well out of range, with no sign of further activity. During the fighting the left wing of the Japanese army was heavily reinforced from the Russian positions along the whole front. The Japanese made only a feeble reply.

OYAMA SENDS MORE DETAILS.

Tokio, Feb. 4.—Field Marshal Oyama reports that the extreme Japanese left holds a line along the Hun River with its extreme left established on the right bank. The main body of the Russians after their defeat at Heikoutai retired across the Hun River and occupied Nieuyupao, Shufangtai, and a portion of Changtan. On Wednesday the Russians began constructing defensive works in the neighborhood of Shufangtai, Chungchiawopeng and Changtan. Russian cavalry patrols were seen on Wednesday along the line of Tzuyuta, Pipaotzu and Yuhpaotasu. The Russians made a series of small attacks on the right army and the left flank of the left army, but were repulsed in each instance.

A BATTLE IN DRIVING SNOW.

Details of the fighting from January 25 to January 29, which Field Marshal Oyama officially designates as the battle of Heikoutai, shows that the operations were more extensive, the forces engaged larger and the fighting more desperate than the first reports indicated. The Japanese casualties totalled 7,000. According to the Japanese estimate, the Russians lost over 10,000. The army fought in a driving snow. It was bitterly cold and difficult to see. A night attack delivered early in the morning brought success to the Japanese.

A Russian division surrounded and attacked Nankoutai on Jan. 25. Field Marshal Oyama reports that the garrison, though outnumbered, made a stubborn resistance and retired at night under cover of darkness to Kuchengtzu. In the meantime, Field Marshal Oyama, warned of the attack, ordered an advance fort he purpose of re-taking Heikoutai. It was snowing and the movements of the troops were delayed.

SOME PHASES OF THE BATTLE.

On Jan 26, about noon, while the attack on Heikoutai was developing, a report reached the Japanese headquarters that another division of Russians, advancing from Changtan, had surrounded Chenchiehpao, and also that an independent and smaller body of Russians were operating west of Chenchiehpao, threatening the left flank of the Japanese force moving against Heikoutai, which had deployed from Sumapao westward of Heikoutai. It was originally planned to deploy from Sumapao to Taopao, but it was found that the Russians posed a line from Heikoutai to Taopao. The Japanese, therefore, deployed to Sumapao and Wuchiatzu and attacked Heikoutai and Taopao.

TWO SCHOOL INSPECTORS.

MR. H. C. MANN TO ASSIST MR. J. COYLE BROWN

County to be Divided, the Assistant Taking the East Riding

An important change in regard to the inspection of schools is to be made by the County Council. The duties have become so onerous that one man can not attend to it.

For 34 years Mr. James Coyle Brown has had charge of the schools of the county, and during that period he has done his duty faithfully. There are at present about 120 schools in the country, and this means a large territory to cover by the inspector. Mr. Brown has been an energetic official. It is understood that the committee in charge of educational matters in the Council will now recommend the appointment of Mr. H. C. Mann, of Fenelon Falls as assistant inspector. Mr. Mann is a native of Smith township, and taught for some time there before taking a college course and going to Fenelon. He is qualified by education and ability for the position. The proposal of the Council is to allot the East riding to the assistant, while Mr. Brown will continue to act in the West riding. The salary attached to the inspectorship is at present in the vicinity of $1,700, and this, it is understood, will be divided equally between the two inspectors. The county gives a sum equivalent to that paid by the Government, fixed on a basis of so much per school.

The recommendations embodying the change will be made to the Council presented to-day.

YESTERDAY'S SESSION.

The County Council went into session at 10.30 yesterday morning with Warden Buck in the chair, and all of the members present.

The minutes of last meeting were read and confirmed.

The Warden announced that he had received word from Mr. T. G. Eastland that he would be unable to accept the position of auditor, and it would be necessary to appoint another. On motion of Mr. Andrews, seconded by Mr. Webster, Mr. J. L. Squires, of Norwood, was appointed auditor.

The Council adjourned to go into Committee of Whole.

ATHLETIC WORLD

BY OUR SPORTING EDITOR

Port Perry defeated Lindsay last night by 12 to 3. This makes Peterborough champions of this district.

* * * *

The seniors will play their first semi-final game in Smith Falls on Monday night. The return game will be played here on Thursday night.

O'Brien's "Never Wins" would like to arrange a game with Barrie's Bedelias.

ANOTHER FATAL CONFLICT AT LODZ.

Warsaw, Russian Poland, Feb. 4.—Serious disorders broke out this morning at Lodz, 75 miles from Warsaw, where 25,000 men are striking. Some of the employes of a lace factory attempted to return to work, and the remainder forcibly prevented them. A strong military patrol was summoned and attacked and fired at the strikers, who replied with revolver shots. It is reported over the telephone that the firing was continued at one o'clock this afternoon.

Strikes were started this morning in the coal districts of Dombrowa and Sosnovice. It is feared they will have a serious effect on the industrial situation generally. Warsaw, Lodz and other important manufacturing centres are being entirely dependent for their coal supply on those districts.

According to the best information obtainable, the official list of persons killed during the disturbances here contains over three hundred names, in addition to many unidentified bodies lying at the Ring vault in the cemetery. The latter will be buried to-night.

A group of soldiers outside a liquor store last night fired on passersby without warning, killing a shopkeeper and wounding another man.

Lodz, Russian Poland, Feb. 4.—In a conflict between troops and strikers at the Kounitzer factory, here today, the former fired killing six persons and wounding 43. Shooting also occurred at the Keller lace factory.

ALLEN'S LUNG BALSAM

Cures Coughs, Colds, Croup, Bronchitis, Grippe

Awful Palpitation, Dizzy, Faint, Weak

You Have a Weak Heart and Poor Nerves — Instant Death May Overtake You.

With weak heart and exhausted nerves, you are living in the very shadow of death.

Think what it would mean to your family if you were to be taken today!

You can't afford to risk it any longer. Get Ferrozone at once and make your heart strong and well.

Ferrozone has helped many a man to live a strong, useful life, and will do likewise for you.

Mrs. E. J. Brooks, of Berlin, says:

"My nerves were weak and I was irritable and cross.

"My heart palpitated like an engine and everything faded away.

"I was subject to dizziness and fainting.

"After using Ferrozone I gained strength. My appetite improved. I slept well. The heart trouble disappeared.

"Ferrozone made me well."

You will never know what real good health means until you take Ferrozone. It gives strength, endurance and energy to every organ of the body; try Ferrozone, 50 cents per box or six for $2.50, at all dealers in medicine, or Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 35 cents per month, and to outside points at $4 per year, strictly in advance.

UNION LABEL

PETERBOROUGH, FEBRUARY 4 1905

CHILD IMMIGRANTS

Mr. J. J. Kelso, superintendent of Neglected and Dependent Children in Ontario, has a good word to say for the Old Country waif. Mr. Kelso's whole time is taken up with looking after this class of children and he knows whereof he speaks. There is a false impression abroad, he says, regarding these children. They are mostly all carefully reared and trained for years before they are sent out here. During the past few years he has personally inspected two or three hundred of them immediately after their arrival in Ontario and has found them to be children of whom any country might well be proud. It is said that the demand for these children is simply astonishing, there being at least five applicants for every child that is placed out. Help is so scarce in the country and there are so many little things that boys and girls can do to assist, that they are made welcome. Mr. Kelso says. He denies that the children are ill-treated by the farmers and others who adopt them. The work for the protection of the children is so well known that few cases of abuse occur. These children can all read and write before coming here, so that they cannot be called illiterate. As to their character and conduct, Mr. Kelso says: "Taking a record of five hundred boys who have passed through the industrial schools during the past six years, not one to my knowledge was brought out from England, and out of eighty boys in the Ontario Reformatory when that institution was abolished only two belonged to the class of English children." We are free to confess that this gives us an entirely different impression of these youngsters from what generally obtains. It has been the custom to place most of the blame for youthful ramalities in this Province on the Barnardo and other boys. It is now the Ontario-bred boy's turn to clear himself.

ANOTHER BRITISH PROBLEM

The British Government has much to investigate, and it investigates much. For instance; it has been investigating the deterioration of certain classes of the population, as indicated by the large percentage of rejections among recruits for the army, and has accumulated an array of interesting material. The committee, which consisted of eight able experts, concluded that deterioration was not general, but was confined certain classes. Dr. Eichols, the inspector of schools, said that in physical degeneracy the children in the poorer schools of London and the large towns betray a most serious condition. But he felt that there was every reason to anticipate rapid amelioration of physique so soon as improvement occurs in external conditions, particularly as regards food, clothing, overcrowding, cleanliness, drunkenness and the spread of practical knowledge of home management. All evidence pointed to rapid improvement, bodily and mental, in the worst districts, so soon as they are exposed to better circumstances.

Among the serious injuries to the public health was considered the pollution of the atmosphere by smoke. This caused much disease and physical deterioration by its direct effect on lungs and skin. In Manchester, for instance, the filthiness of the atmosphere made people who value cleanliness most unwilling to ventilate their dwellings. Its effects in killing nearly all vegetation and in otherwise contributing to the general gloom led Mr. Justice Day to explain the prevalence of drunkenness by saying that "to get drunk is the shortest way out of Manchester."

The drink evil, of course, occupies a prominent place among the causes of degeneration. A most deplorable phase was the fact that drinking habits among women were certainly growing, factory labor being a predisposing cause. It appeared that one fruitful cause of deterioration was constant tea drinking.

WHY BUSINESS MEN FAIL

The young man who contemplates embarking in business will do well to study the rocks and shoals upon which thousands of enterprises are annually wrecked. An earnest understanding of these things will serve as a chart and compass and enable him, unforeseen disasters being barred, to successfully weather whatever storms may come his way.

The causes of many of last year's failures were found in the individual, while many also were traceable to causes over which he did not have full control. The greatest factor in bringing about disaster was lack of capital, or its dangerous equivalent, the attempt to do a larger business than the capital in hand justified. Behind this was the desire to get rich quickly, and the result was that to this one cause alone is traced one-third of the year's business casualties.

Next to that comes incompetence, due to poor selection of vocation, poor judgment or management, or actual unfitness for the business entered upon. From one-fourth to one-fifth of all failures are attributable to this.

Thus, out of eleven heads, under which commercial agencies group failures, two are responsible for more than half of the shipwrecks, and both of these are found in the individual and not in conditions that he can not control.

The chances of success in business are rather dubious when entered upon by a man not equipped with the proper capital and the necessary understanding of the nature of his undertaking. But these things being granted, and add perseverence, hard work and good habits, the chances for failure are so small as to be not worth taking into account.

APSLEY.

—Election day was a very cold one, with a high north-east wind blowing. It is said that such winds are very depressing and doctors tell us that it has been known to affect the health to a certain extent. People who are ill very often take a change for the worse, if there is a north-east wind blowing. Some of our electors, however, who were seemingly in their usual health, took a change for the worse on Jan. 25th.

—What doth the Scotch proverb say: "There's no fool to an old fool."

—Miss Amy Booth, daughter of C. R. D. Booth, Esq., Reeve of Burleigh and Anstruther, spent a few days in Apsley last week, the guest of Miss Flora Eastland.

—Miss Fanny Bullied passed through Apsley last Friday evening on the way home from Lakehurst, where she was visiting her sister, Mrs. D. Weir,

—Sister Magdalene gave a Christmas tree to the children of the village on Wednesday evening last. On account of the severe cold many could not go, but those who ventured out enjoyed themselves thoroughly.

—Miss Myrtle Hales spent a few days in the village with her friend, Miss Hattie Eastland, last week.

—Mr. Bruce Reid, of South Burleigh, was in the village on Thursday last.

—A surprise party wended its way up to Mr. Wm. Tucker's last Thursday night. They had a splendid time and arrived home again to the tune of 6 o'clock, a.m. The party consisted of Mr. and Mrs. Will Lean, Mr. and Mrs. Tom Lean, the Misses Eastland, Miss Myrtle Hales, Sarah Gerrard, Miss Annie McIlvena and Miss Maggie, John Shairp, Harry Smith, Ab. Henry, Hurrell Eastland, Willie Bullied, Dan Lean, Aubrey Smith, Din Callaghan.

—Dr. Bell is "at home" to his old Liberal friends on every other night during the week.

—Mr. Will Scott has left the village, where he has been working, having heard that he was required at home.

PUTS NEW LIFE INTO YOU! A strong statement, but it is borne out by facts by those who have taken "The D & L" Emulsion; write Miss Black, Supt. Grace Hospital, Toronto, and ask her what she thinks of it.

Direct and best route from Peterborough to New York and Philadelphia. Grand Trunk and Lehigh Valley

CAUGHT IN THE FLAMES

Two Men Perished While Endeavoring to Rescue Their Coats

Montreal, Feb. 4.—Two men were instantly killed and cremated this morning in a fire which broke out in the premises of the Montreal Hide and Calfskin Company, at 752 Frontenac street. There was wool all around the store spread to dry. This caught fire, and the flames spread rapidly. The employes fled in all directions, thirty of them dropping out of the second storey windows, and reaching safety by outside staircases. An Englishman named P. Zimler, and a Russian named Louis Schnare, rushed back into the building to recover their coats. A moment later the roof fell in, and nothing more was seen of them. When the firemen arrived they were told that everyone had escaped, but after the return blow had sounded and the fire reels had gone back to their respective stations a foreman returned and said that two men had gone back to get their coats. The firemen were instructed to search for the bodies, which were found and taken to the morgue. The loss on the stock and plant amounted to about $40,000, covered by insurance to the extent of $20,000.

SEALED TENDERS addressed to the undersigned, and endorsed, "Tender for Stable, Kingston, Ont.," will be received at this office until Friday, February 17, 1905, inclusively, for the construction of a stable for "B" Battery at Kingston, Ont.

Plans and specification can be seen and forms of tender obtained at the Department and at the office of Arthur Kilis, Esq., Architect, Kingston, Ont.

Persons tendering are notified that tenders will not be considered unless made on the printed form supplied, and signed with their actual signatures.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the party tendering decline to enter into a contract when called upon to do so, or if he fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
FRED. GELINAS,
Secretary.

Department of Public Works,
Ottawa, January 31, 1905.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

MAIL CONTRACT

SEALED TENDERS, addressed to the Postmaster General, will be received at Ottawa until Noon, on Friday, the 3rd March, 1905, for the conveyance of His Majesty's Mails, on a proposed Contract for four years, ninety-two times per week each way, between Peterborough and C. P. and G. T. Ry. Stations, from the 1st April next.

Printed notices containing further information as to conditions of proposed Contract may be seen and blank forms of Tender may be obtained at the Post Office of Peterborough and at the Office of the Post Office Inspector at Kingston.

G. C. ANDERSON,
Superintendent.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

[1] At least six months' residence upon and cultivation of the land in each year during the term of three years.

[2] If the father (or mother, if the father is deceased), or any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same town, township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 30 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Offices in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Land Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

Slip Sockets, Ball Bearing Knee Joints, and all the latest improvements.

AUTHORS & COX

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

INCORPORATED

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and, we believe, exceedingly profitable investment. Every dollar of stock is guaranteed by twenty year, full paid, gold bond, delivered to purchaser of stock, from an Investment Company that has no interest whatever in the company, but who are disposing of the debentured bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the State Treasurer under which they received their charter, there by doubly securing the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvellously rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Simmer and Jack Mining Co., Limited, Klondsfountain, South Africa:—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world.

"With the present development of the Monument Mine, I estimate that 100 tons per day can be extracted, which will mill from $15.00 to $20.00 per ton. The total cost of mining the ore, delivering and milling, I place at about $4.00 per ton. With the increased milling capacity, it is safe to say that the mine can furnish 100 tons of $15.00 ore, which would yield a clear profit of $11.00 per ton, or $1,100.00 per day (equal to $400,000.00 per annum). Estimated total value of ore in sight, $2,500,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Dr. Brown writes as follows:—

"In regards to the amount of ore available at the mines at Sinclair, I saw on the dumps several thousand tons, probably 5000 tons would be an under-estimate.

"As to the size of the ore body itself, from what I saw of the geological structure, I think that there is every indication that it will be found to extend underground as far as the out-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish full information to investors.

UNLESS CURED

THE MASTER SPECIALISTS OF AMERICA

We know the diseases and weaknesses of men like an open book. We have been curing them for 30 years. We have given our lives to it, and thousands upon thousands of men restored to Vigorous Vitality are today living monuments to the skill, knowledge and success of Drs. Kennedy & Kergan. We never hold out false hopes, we never undertake a case we cannot cure. We have made so thorough a study of all the diseases of men—of Varicocele, Stricture, Blood Poisons, Hydrocele, Nervous Debility, Paralysis, Bladder, Urinary and Kidney Diseases, General Weakness, Loss of Vitality, and have cured so many thousands of cases that if there is a cure for YOUR disease you will find it here. When we undertake a case there is no such thing as failure. We charge nothing for consultation and our knowledge, skill and experience are at your service. We will explain to you How and Why We Can Cure You; why the diseases of men require the knowledge and skill of Master Specialists. We do not require to experiment with your case as we know from experience in treating thousands of cases exactly what to prescribe for your symptoms. Don't be discouraged if you have treated without success with Quacks, Fakirs, Electric Belts, Free Trials, etc. You must get cured—and Doctors alone can cure you. Our New Method System of treatment has stood the test for 25 years—why should it fail in your case. Should your case prove incurable you need not pay us a dollar. We refer you to any Bank in this city as to our financial standing. If you cannot call write for a Question Blank for Home Treatment. Consultation Free. Booklets sent Free.

DRS. KENNEDY & KERGAN

148 SHELBY STREET, DETROIT, MICH.

A SPLENDID PROPOSITION

The Salido Gold and Copper Company

Incorporated under the laws of Arizona, with a capital of $3,oc ooo forever on-assessable divided into shares of $1 each, par value. All investments insured Granite Securities Company.

The "SALIDO GOLD-COPPER CC MPANY" enterprise offers attractions to the investors of the country, that without thorough investigation, would scarcely seem probable. If only a fraction is realized of what any prudent business man in his own affairs would regard as absolutely certain, the enterprise must prove abundantly successful and exceedingly profitable.

SALE OF STOCK

The company will prosecute the work of development with all the diligence that be cash in the treasury will permit and circumstances warrant, and to this end a small amount of the treasury stock is now placed upon the market, in blocks of not ess than One Hundred Shares. The par value of the stock is One Dollar per share, fully paid and forever non-assessable.

The company reserves the right to advance the price of stock without notice.

REMEMBER

First—That all payments for treasury stock go into the treasury for development work and not into the pockets of the promoters.

Second—There are no salaried officers.

Third—The incorporators have put their own good money into this enterprise and being business men, intend to do business along business lines.

Fourth—That this company is honest.

Fifth—If you are thinking of investing in mining stocks this is worthy of your careful investigation.

OTHER PROPERTIES

This Company owns four other Gold and Copper Mines, wh ch title is now in process in the laws of Mexico. As soon as title is perfected, we shall commence to develop them as we certainly expect something very great from these properties. Our assays: ahse have been of the very best, showing gold and copper from $6.00 to $122. 30 per ton.

I have secured a small block of this stock, which I offer at the following prices: Unguaranteed 40 cents per share, guaranteed 80 cents per share. These prices will only prevail for a short time, as the number of shares for sale at this price is limited. The Shares will then be advanced to 40 cents for the unguaranteed and 80 cents for the guaranteed. I can unhesitatingly recommend this investment to the Canadian public.

W. K. HALL,

FISCAL AGENT, ... PETERBOROUGH

Agents wanted in outlying districts, including Toronto.

The California Buckeye Mine

This mine consists of 15 acres of good zinc land, well prospected by drill holes showing forty feet of good pay dirt at a depth of 154 feet.

On the property are hoisting engine, shaft house, ore buckets, Wort h-ington steam pump, air drill, cars and pipes. Over $15,000 have be en expended to date, and the proposition itself is a good one—so much so that we can personally guarantee an immediate dividend of 8 per cent. this year and 12 per cent. after 1905, with an additional quarterly dividend.

Capital Stock $250,000

Shares, par value $1.00 each Fully paid up and non-assessable. No Preferred Stock. No bonded indebtedness

The shares are selling at 20 cents each, with a prospect of the price being raised.

The Joplin Daily Globe says that over $10,000.000 worth of zinc and lead were mined in 1904, up to 1st Dec., in the Joplin District. In the California Buckeye Zinc Mine, located in the centre of the Joplin District, it has been demonstrated that the ore body has an average thickness of 42 feet, and the runs are 50 feet wide, about 170 feet from the surface.

The rough dirt for the first three months of operation produced zinc ore to the amount of $12.95 per cent., while the average for the district is less than 5 per cent., but for the purpose of being on the safe side, we calculate on only 8 per cent. ore to the ton of dirt, and it shows a profit each day with two shifts of men, of $566.20.

We stand ready to prove every statement made, and if enough stock is subscribed for in this locality a directorship of the company is at the disposal of the subscribers.

Any further information and proofs of earning capacity will be cheerfully supplied.

SLEIGHING PARTY MET SAD FATE

Seven Women Killed by a Passing Train—L ft Helpless on Crossing

Hornellsville, N.Y., Feb. 4.—A passengert rain on the Pittsburg, Shawmut and Northern Railroad to-night crashed into a sleigh containing a party of 13 women, killing seven of them and seriously injuring the remaining six. Some of the latter are in a precarious condition. The accident occurred near Arkport early this evening. The sleigh was one of three, carrying a party from the Universalist Church of this city.

The Dead; Mrs. Mary Gillette, Mrs. Charles Thomas, Mrs. Eugene Shaw, Mrs. Joseph Hallett, Mrs. C. C. Gravse, Mrs. Bert Moore, Mrs. Ruth Patchen.

The wounded: Mrs. Boughton, Mrs. F. R. Rowley, Mrs. Coates, Mrs. Bond, Mrs. Fred Green, Mrs. Wallace Clark.

The members of the Ladies' Aid Society of the Universalist Church went to the Baldwin farmhouse, near Arkport, to spend the afternoon. It was nearly dark when they started to return to the city. The occupants of the leading sleigh saw the train approaching as they neared the Shawmut crossing. The driver urged his horses ahead, and the sleigh passed over in safety. The women in the first sleigh attempted to warn those following of the danger, and they did succeed in directing their attention to the rapidly approaching train. The driver pulled up his horses, but he could not check the heavy bobsled quickly enough, and when it came to a standstill the box of the sleigh was directly across the railroad track. The pilot of the engine struck the sleigh with terrific force, reducing it to splinters, and hurling the women in all directions. Every women on the sleigh was killed or injured.

The other members of the part hurried back to the assistance of their unfortunate companions, and the train was stopped and backed up to the crossing. The sight was appalling. It seemed impossible that any occupant of the sleigh could have escaped death. Bodies lay along the track for a distance of 100 yards, and great crimson stains upon the white surface of the snow told too plainly that some of the women had received mortal injury. The bodies of the dead were placed upon the train, and the injured were tenderly laid upon improvised cots in the baggage car. The train then proceeded to Hornellsville. The news of the accident had been telephoned to the city from a farmhouse near the crossing, and hundreds of friends and relations of the unfortunate women were waiting at the station. The scenes were heart rending. The dead were at once taken to the morgue, and the injured were placed in ambulances and taken to the Marcy Hospital.

REPLY TO WORKINGMEN

Czar Orders Them to go Back to Work and Promises Reforms.

St. Petersburg, Feb. 4.—The Czar to-day made the following reply to a deputation of workingmen who were received by him in the Tsarskoe-Selo Palace;—

"I have summoned you in order that you may hear my words from myself and communicate them to your companions. The recent lamentable events, with such sad, but inevitable results, have occurred because you allowed yourself to be led astray by traitors and enemies to our country. Then they induced you to address a petition to me on your needs, they desired to see you revolt against me and my Government. They forced you to leave your honest work at a period when all Russian workmen should be laboring unceasingly in order that we might vanish our obstinate enemy. Strikes and disgraceful demonstrations led the crowds to disorders which obliged, and always will oblige the authorities to call out troops. As a result, innocent people were victims. I know that the lot of the workmen is not easy. Many things require improvement, but have patience.

"You will understand that it is necessary to be just towards your employers and to consider the condition of our industries. But to come to me as a rebellious mob in order to declare your wants is a crime. In my solicitude for the working classes, I will take measures which will assure that everything possible will be done to improve their lot and secure an investigation of their demands through legal channels. I am convinced o the honesty of the workmen and their devotion to myself and I pardon their transgressions. Return to your work with your comrades, and carry out the tasks allotted to you. May God assist you.'

10 King Street W. Toronto

ADVERTISE IN THE TIMES.

AN OPEN LETTER FROM MR. W. J. GAGE.

Toronto, Can., Dec. 1, 1904.

DEAR FRIEND,

We again come to you with our story of trouble, but a story of surprising and encouraging results.

No apology is necessary; the great work of the National Sanitarium Association, carried on at the Muskoka Cottage Sanatorium and Free Hospital for Consumptives, is now well known.

The 1,500 patients cared for in these two Homes plead for your help.

The large number of lives saved, of those who a few years ago were supposed to be "under sentence of death," gives a right to your sympathy.

In helping to rescue a number great enough to constitute a large prosperous village, the giving back to home and friends a regiment of workers, surely will arouse interest in this work of mercy.

Each patient cared for in our Consumptive Homes, removes a source of danger, so that the life of every citizen in Canada is more secure.

The marvellous decrease of 40 per cent. in three years in the death-rate in Ontario from consumption proves that the fight against this dread disease is no losing one.

The Muskoka Free Hospital for Consumptives, for which this appeal is made, without any endowment keeps an open door to all who are poor and sick, as long as a vacant bed remains.

Nearly 400 patients have been cared for in this Hospital since it was opened less than three years ago. This has only been possible because of the continuous stream of gifts that have come to us from every part of Canada.

Remember, too, these were patients that other hospitals as a rule refuse.

Almost every trade and profession has sent its representative, and of every age—from the young schoolboy of 12 to the Trustees of the Free Hospital for Consumptives through contributions and bequests.

$60,000 should be given this year if the Board is to provide for the increased accommodation and maintenance of those pleading for admission.

Where will your money do so much good in bringing health to the sick and protecting the lives of those in your home?

Why should consumption not be stamped out if the needful money and help be forthcoming?

The official Report of the Secretary of the Provincial Board of Health tells a surprising story—a story of a winning fight, showing that from 1897 up to 1900 there was a **steady increase** in the death-rate from Tuberculosis.

From 1900 there has been a **large decrease each year,** reducing the death-rate from 3,484 to 2,072 in three years, or **over 40 per cent.** This is all the more remarkable in view of the increase in population.

You have the joy of knowing that your dollar has helped in this merciful work.

The pitiful part of it all is in knowing how many more lives could have been saved if the needful money had been forthcoming to provide additional beds.

Will you not join in this great life-saving work?

Your dollar will bring gladness.

Fifty dollars will keep a sick one for two months; may save a life. Three hundred dollars will endow a bed for a year.

Yours sincerely

W. J. Gage

THE GOLD COIN MINING COMPANY

has placed a small block of their stock at the disposal of Canadian investors. This stock is sure to rapidly advance in price. The Company is now arranging to instal the power plant and a mill and cyanide plant for the reduction of their ore to a bullion on the property. They have arranged with a Trust Company having assets of $1,500,000 to put up a bond guaranteeing investors the repayment of the full amount invested. This makes investors absolutely safe By no possibility can they lose a dollar

THE GOLD COIN MINING COMPANY was organized November 21, 1902. under the laws of the State of Idaho The capitalization is one million shares of the par value of one dollar each, fully paid and non assessable; of the 1,000,000 shares. 400,000 have been set aside as treasury stock

THE BOISE BASIN came into prominence shortly after Grimes and his party of prospectors entered the Basin country in 1862; their entrance was into the northern portion and one discovery of rich placer ground followed another until the news of the rich finds reached the outside world, when a veritable stampede for Boise Basin commenced, towns sprang up and grew together in an incredibly short time; the rush of people to Idaho City made it a place of 20,000 people in 1867, having a business street over a mile long lined with two-story buildings streets and sidewalks filled with people day and night business and money on every hand and the city bearing the proud distinction of being the capital of the territory of Idaho. Wages ran from $6 to $10 a day and not infrequently forty and fifty men worked on a single placer claim; the clean-up for a day's work in many instances ran close to $5,000; large fortunes were made in a few days by washing the golden sands in a pan; so eager was the quest for the shining metal that the streets of Idaho City were dug up and washed and re-washed, and the soil removed from under the houses and places of business So extensive was the search for the hidden treasure that not only all of the low ground was worked but the foot of the mountains surrounding the city have been washed away, filling up the lower portions of the basin and extending into the town, where one of the buildings has been buried under the tailings from the numerous placer workings

LOCATION—The property of the Gold Coin Mining Company is situated in the Gambrinus Mining District, Boise County, Idaho, on the range of mountains between Moore Creek and Elk Creek, which forms a part of the eastern boundary of the famous Boise Basin and into which these mountains are drained The property is located ten miles northeast of Idaho City, from which place there are good wagon roads either to the workings on top of the mountain or to the place of the proposed tunnels in the gulch which crosses the Tunnelsite claim.

THE CLAIMS—The Company owns a group of four contiguous lode mining claims and the Gold Coin Millsite: the names of the lode claims are the Tunnelsite, Blue Bell, Pennsylvania and Homestake, each being a full claim 600 feet wide by 1,500 feet long, excepting the Tunnelsite claim. which is 450 feet wide at the west end and 1,055 feet long: it was necessary to stake the claim in this form on account of joining the Washington property on the south and the Sab Rosa property on the west, these properties being prior locations to the Tunnelsite claim. The four lode claims aggregate nearly 80 acres of rich mineral land.

Further particulars may be had on application to WM. SAILSBURY, Fiscal Agent of the Company Peterborough, Ont., or to

S. E. PHELPS, Secretary,

Consumption is Not Hereditary

It is No Handed Down From Generation to Generation but is Simply "Caught" by the Germs Getting Into Your Lungs Cured by Catarrhozone

Consumption was formerly believed by some to be due to poverty of the blood. By others it was supposed to be hereditary. Both these beliefs are incorrect.

If the disease passes through several members of the same family it is because the germs get into the clothes, bedding, furniture and carpets that are in general use.

These germs find their way into the air, are inhaled, lodge themselves securely in the throat and lungs were they rapidly increase, and soon claim another victim.

The only remedy that has cured a genuine case of Consumption is Catarrhozone. Its germ killing vappr is inhaled into every air cell and air passage of the head, throat and lungs, and creates a healthy condition of these organs in which disease germs cannot live.

It is impossible for consumption to make headway is the soothing antiseptic vapor of Catarrhozone is inhaled a few times daily into the lungs. The cause of the disease (germ life) is at once removed, the inflamed mucous surfaces are healed, and a lasting cure effected.

Catarrhozone is breathed right into the lungs. By its soothing influence the soreness caused by coughing is removed. The cough becomes less severe and soon ceases all together. Catarrhozone aids expectoration, quiets the nerves, and lends to the patient a large measure of comfort.

Consumptives are strongly urged to use Catarrhozone as immediate relief always follows. It is a direct method of treatment, and is endorsed by the highest medical authorities everywhere. The balsamic vapor reaches the lungs and respiratory tracts in a speedy manner that no medicine taken into the stomach can do.

Catarrhozone is just as good as a change of climate, equally pleasant and cheaper. It can be used at home at any hour of the day or night and never causes inconvenience or bother.

The complete Catarrhozone outfit contains two months treatment and costs only $1.00. It is a perfect boon to consumptives and their surrounding friends. You cannot afford to miss the benefit of Catarrhozone and should order it today. Sold by all druggists or by mail from N. C Polson & Co., Kingston, Ont., or Hartford, Conn., U.S.A.

Lakefield's Railway Business

Following is a statement of the gross earnings of the Lakefield station for the year 1904, as published in the News:—Passengers, $4,682; inward freight, $40,683; outward freight $64,736; total $110,046. This shows a big increase over 1903, the earnings of that year being:—Passengers, $4,258; inward freight, $34,123; outward freight, $42,499; total $80, 880. For the year 1902 the earnings were: —Passengers, $4,466; inward freight, $26,207; outward freight $38,149; total $67,822. We doubt if there is a place in Ontario the same size of Lakefield, that can make as good a showing.

REMOVAL

C. Wilhelmy has removed his place of business to No. 483 George Street, next door to the Peterborough Light and Power Company

The attendance at the

Peterboro' Business College

larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 90 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School

The Canal Outlet

Hon. Mr. Emmerson, in reply to Mr. Ward, in the House of Commons stated a few days ago that no reports have yet been received by his department in reference to the surveys in connection with the Trent Valley Canal between Rice Lake and Port Hope, Rice Lake and Cobourg, and Rice Lake and Trenton, which are not finished. Col. Ward was informed by Mr. Emmerson that surveys were being made of the Trent Valley Canal route for exits by way of Port Hope, Cobourg and Trenton. The general conduct of the surveys was under the direction of Mr. R. J Walsh, C.E., Mr. G. L. Law was conducting the Port Hope and Cobourg surveys, and Mr. S. E. Patterson, the Trenton survey.

Carnegie For the Cabinet

Lindsay Post; Mr. J. H. Carnegie, M.P.P. for East Victoria, is mentioned as a possible choice for Minister of Agriculture in the Whitney Cabinet. We know of no one in the ranks of Mr. Whitney's supporters who would be likely to fill that important position better than Mr. Carnegie, and we trust there is a foundation for the report. Mr. Carnegie is a gentleman who, while a stout Conservative, like his father before him, is as popular among the Liberals in the House as he seems to be in his own riding, and in addition is a successful farmer along scientific methods and a man of culture and education. It may not be generally known that Mr. John Carnegie, his father, represented Peterborough in the Dominion Parliament in '67 the year of Confederation, and was a desk mate of the late Thomas Matchett, of this town, who was then member for South Victoria.

HOW'S THIS?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Props., Toledo, O.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by their firm.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Price 75c. per bottle. Sold by all Druggists. Testimonials free.

Hall's Family Pills are the best.

LITTLE LOCAL LINES

Dashes Here and There by Times Reporters on Their Round

—The Finance Committee met last night

—The consecration of Rev. Father D. S. Scollard as Bishop of the new diocese of Sault Ste. Marie, will take place in St. Peter's Cathedral, Peterborough, on Friday, Feb. 24th.

—The town of Berlin is hit pretty hard by the new Assessment Act. The personalty tax of its fifty-five manufacturers, amounting to $411,000, is cut off, and in other ways the revenue will be reduced.

—The assessors will shortly be on their rounds. One of their duties is to enter the names of manhood franchise voters—young men who are of age and are not assessed on real estate or otherwise. It is the duty of every good and patriotic citizen to see that the assessor has the name of every young man entitled to vote

—Lent begins this year on the 8th of March and ends on the 23rd of April. The last possible date that Easter may occur is April 25, and it is only at long periods that Easter falls as late as that. In 1886 Easter came on April 25, and it will not again fall upon that date until 1942. Easter has not fallen on April 23 since 1848, and after this year will not fall on that date until 1916.

—It's a trifle early in the season to talk about boating, says the Lindsay Post, but it will interest our readers to know that next season the Esturion will in all probability make but one round each day between Bobcaygeon and Lindsay but two trips will be run between Lindsay and our famous summer resort, Sturgeon Point. This with the excellent service given by the Coboconk boat, and promised by the owners of the new steamer Greybound, should satisfy all needs.

Lindsay Post: In yesterday's issue we announced that the Bick property on Lindsay street, offered for sale yesterday under mortgage by Auctioneer Lennon, had been withdrawn, owing to the reserve bid not being reached. We learn that a few minutes after Mr. Lennon made that announcement he was induced to continue, and the bidding ran up from $2,700 to $3,450, at which figure Mr. J. S. Knapman, of Peterborough, secured the property.

—Norwood Register; Mr. H. J. H. Fife, builder and contractor of this place, and his staff of workmen, have just finished putting up a long season's work in the building line. The buildings erected were mostly in the country and reach $25,000 in value. In answer to our scribe's query as to the prospects for next season, Mr. Fife said that next season's operation promised to exceed in value that of last year by considerable as the contracts already booked footed up to $20,000. The work is nearly all in the country. Mr. Fife is now enjoying a well earned holiday with friends in Western Ontario before entering upon the season's work.

THE WARDEN'S BANQUET

PLEASANT EVENING SPENT LAST NIGHT IN LONG'S PARLORS

Warden Buck Entertains the Members of the County Council and Others

Last night Warden Buck entertained the members of the County Council and county officials to a dinner at Long's Palm Parlors. The chair was occupied by Warden Buck, who had Mr R. R. Hall, M.P., on his right and Mr. Hughes-Charles on his left. The vice chair was ably filled by the popular County Clerk and Treasurer, Mr. E. M. Elliott. The following gentlemen sat around the board, County Councillors, John Monogue, Thos Johnston, Samuel Stinson, H. Garbutt, John Doyell, D. Moloney, Thos Webster and James Andrews. Also Messrs. J.E. Belcher, County Engineer, ex-Wardens, Thos. Hunter and Geo. W. Fitzgerald, County Solicitor, E. A Peck, F. J. Bell, and representatives of the local papers.

After the good things provided had been disposed of, the Chairman proposed the usual patriotic toast "The King," which was drunk with enthusiasm.

"The House of Commons and Legislative Assembly," was proposed by Mr. E. A. Peck, in a neat and felicitous speech, and ably responded to by Mr. R. R. Hall, M.P.

"The Municipal Corporations," proposed by Mr. Robert Shaw, and responded to by gentlemen present.

"The County of Peterborough," proposed by Mr. F. J. Bell, and responded to by the Warden and others.

"Our Banking Institutions," proposed by Mr. James Andrews and responded to by Mr. Hughes-Charles.

"The Warden," proposed by Mr. D Moloney and responded to by the Chairman, after all joined in singing "He's a jolly good fellow."

"The Press," proposed by Mr. John Monogue, and acknowledged by representatives present.

The proceedings were concluded by singing "God Save the King."

POLICE COURT

Italians Charged with Assisting Murtoo to Escape

At the Police Court yesterday morning Harold Phampelon was again up on the charge of obtaining money under false pretences. The case, which had a bearing on Monday last, was remanded till next Monday.

Alphonso Manzi, Ciceri De Palma, and Fabiano Marfeso were charged with assisting Pamphilo Marfeso, who is connected with Tuesday's stabbing affray, to escape. They were remanded for a week.

WE MUST GO from heated rooms to the cold outer air, and the change sets us coughing. Curing winter colds is not hard if you take Allen's Lung Balsam.

REPORT NOT CORRECT

Story Regarding the C. G. Electric Works Works in Montreal

A despatch to the Globe from Montreal says;

"The Montreal plant of the Canadian General Electric Company, it is announced, will be shut down in April, and the equipment moved to Peterborough, because the cost of power is one-third greater in Montreal than it is in Peterborough. It is further pointed out that lower factory costs follow very low cost of power, and the company look to effect an economy of fully 20 per cent. in these costs as compared with Montreal."

The report is incorrect inasmuch as the works in Montreal have not been operated since last spring.

MARK THIS DISTINCTION: A purely local disease of the skin, like barber's itch, is cured by Weaver's Cerate alone. But where the blood is loaded with impurity, as in Salt Rheum, Weaver's Syrup also should be used.

I have disposed of lease o. my store and am going out of the grocery business. Big Bargains in groceries will be given as entire stock must be sold. —GEO. CARTON.

SEPARATE SCHOOL BOARD

First Meeting of the New Board of the Year 1905

The regular meeting of the Separate School Board was held on Wednesday evening, all the members being present. Mr. Jas. Murty was elected chairman of the Board for the year 1905.

Rev. Father McColl was re-appointed as Superintendent of Schools.

Mr. John Corkery was re-appointed secretary-treasurer.

Mr. M. L. Hayes was re-appointed the High School Trustee.

Messrs. Thos. Duigan and Harry Carveth, were appointed auditors.

The Standing Committees for the year were named as follows:

Finance—Messrs. Henry, Lane and Ball.

School Management—Messrs. Hickey, Burns and Hourigan.

Property—Messrs. Carveth, Primeau and Gamlin.

The first named on each committee is the chairman.

The minutes of the last meeting were read and adopted.

Several accounts were received and referred to the Finance Committee.

The reports of the attendance for the month of January were received.

	On roll	Av.
Central School	212	199
Convent	250	202
Lake street	197	170
	659	571

The financial statement of the receipts and expenditures for the year 1904 was presented:

Receipts

Town treasurer	$6,410.00
Provincial treasurer	479 00
Rural municipalities	111.50
Bank of Toronto, overdraft	425 97
	$6,426.47

Payments.

Salaries	$4,513.50
Insurance	40.00
Printing	31.36
Interest	98.85
Water	37.58
Supplies	138.89

Bank of Toronto	141.91
Miscellaneous	47.13
	$6,136 47

The reports were referred to the auditors.

Supplies asked for the schools by the several principals were referred to the Property Committee.

The Board then adjourned.

A DELIGHTFUL BAND CONCERT.

Given by the 57th Regimental Band Last Night

The concert given by the 57th Regimental Band last evening under the direction of Mr. Rupert Glidden, was a success in every sense of the word.

The numbers given received much applause, and a number of encores were responded to. The playing of Mr. Lewis Mendle on the mandolin, was enjoyed by all, and evoked much enthusiasm.

Following is the program;

PART ONE.

1—March ..."Uncle Sammy," Holtsman
2—Overture ... "Zampa" Herold
3—Notolette ..."K m ...Viv an Gray (A Japo. Rhapsodie)
4—Cornet Solo "Nauksg Polka"..... Hartmann
Mr. Gliddon.
5—Characteristic "A Kansas Two-Step Prior

PART TWO.

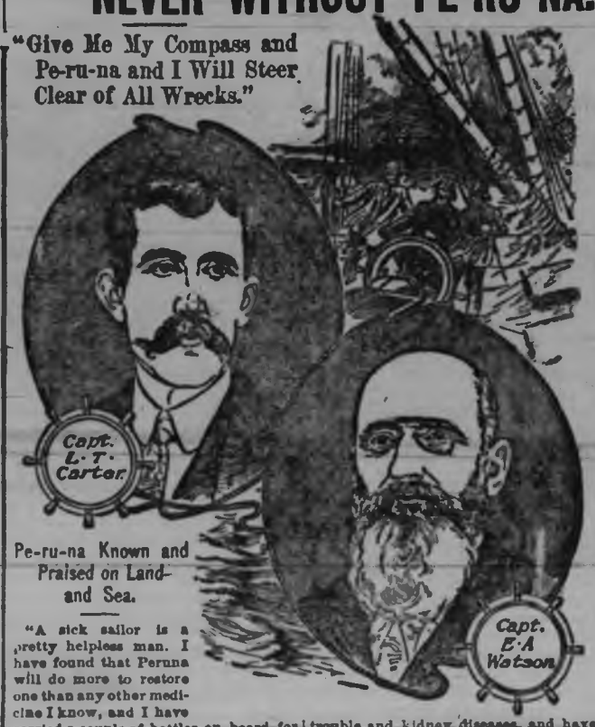
1—Reminiscences of all Nations... ... Godfrey
As played by His Majesty's Grenadier Guards' Band.
2—Vocal. Double Quartette. "Aaume From the Musical Comedy, "Under Southern Skies."
3—The Turkish Patrol ... "Michaelis
4—Mandolin Solo ... ...Mascagni Lewis Mendle.
5—Selections from Wang ... ... Morse From DeWolfe Hopper's Latest Success.

"GOD SAVE THE KING."

—The customs receipts for January show an increase of $1,118 46 over those of the same month last year.

CAPTAINS ON MANY SEAS NEVER WITHOUT PE-RU-NA.

"Give Me My Compass and Pe-ru-na and I Will Steer Clear of All Wrecks."



Pe-ru-na Known and Praised on Land and Sea.

"A sick sailor is a pretty helpless man. I have found that Peruna will do more to restore one than any other medicine I know, and I have carried a couple of bottles on board for many seasons. Seven years ago Peruna cured me of bronchial trouble in a few weeks and gave me such new life and nerve force that I certainly believe in telling you of it.

"Give me my compass and Peruna and I will steer clear of wrecks of all kinds and land in port safe and well with vessel and men."—Capt. L. T. Carter, 129 10th Avenue, Pensacola, Florida.

Capt. E. A. Watson, M. E., 48 Elisabeth street, Ottawa, Ont., writes:

"Peruna has my heartiest endorsement. If there is any place that you are helpless when ill it is on board a steamer, at sea, miles away from any assistance. Sometimes two or three of my men would be sick at one time and seriously cripple the force, but since we have learned of the value of Peruna, by taking a few doses they recuperate very quickly. We use it for colds, lung trouble and kidney diseases, and have also found it very fine for la grippe.

"Peruna is always one of the most important supplies of my steamer."—E. A. Watson.

With a bottle of Peruna aboard sailors have a remedy on which they can rely.

Commodore U. S. Navy.

Commodore Somerville Nicholson, of the United States Navy, in a letter from 1837 R St., N. W., Washington, D. C., says:

"I unhesitatingly recommend Peruna to all persons suffering from catarrh."—S. Nicholson.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

ROSS GOVERNMENT WILL DIE TO-DAY--PREMIER-ELECT WHITNEY SENT FOR BY EX-PREMIER ROSS

SENSATIONAL ADMISSION BY A BRITISH MINISTER--GERMANY A FOE TO BE WATCHED

Great Britain Must Guard the North Sea — Civil Lord of the Admiralty Tells the Nation That German Nation is a Source of Danger--The Recent Redistribution of Great Britain's Naval Force.

London, February 6.—A speech delivered in the Hampshire village of East Leigh on Thursday, by Mr. Arthur Hamilton Lee, Civil Lord of the Admiralty, has created a sensation.

In dealing with the recent redistribution of Great Britain's naval forces, Mr. Lee frankly declared that Great Britain had not so much to keep her eyes on France and the Mediterranean, but had to look with anxiety, though not with fear, towards the North Sea, and the fleets had been so distributed as to enable them to deal with any danger in that direction, should it unfortunately occur.

If war unhappily should be declared, he continued, under existing conditions, the British navy would get its blow in first before the other side had time to read in the papers that war had been declared.

He maintained that "by recent naval reforms Great Britain's strength as a naval fighting power had been practically doubled during the past few weeks."

The speech, which was delivered at a railway dinner, in no wise political in character, is commented upon in some of the London morning newspapers as exceedingly indiscreet, and likely to be resented by Germany, at which it evidently pointed. The Daily Chronicle suggests that Premier Balfour should muzzle his Civil Lord of the Admiralty.

Mr. Lee is well known in Canada, having been professor of strategy and tactics at the Kingston Military College from 1893 to 1898, when he was transferred to Washington as military attache to the British Embassy. He was British military attache to the United States army during the Spanish War, and was elected to the House of Commons in 1900.

CATTLE EMBARGO AND ITS REMOVAL

Canadian Shipper Pleased at Declaration of Campbell-Bannerman

IMPORTS FROM THE U. S.

Claimed Removal Will Stop Shipment of American Cattle From Canadian Ports

Montreal, January 6.—The announcement of Sir Henry Campbell-Bannerman that he favors the abolishing of the present embargo on cattle, has met with considerable favor among the cattle exporters of this city.

Their enthusiasm is not altogether a *selfish one*, for one gentleman pointed out that with the removal of the embargo a considerable source of their revenue will disappear, which results from the forwarding per Canada of American western cattle.

The believe, however, that the resulting stimulus to trade will so boom Canadian exports that the deficiency will be made up.

Regarding several recent utterances of Mr. Henry Chaplin, an ex-minister of agriculture, and one of the foremost defenders of the British agriculturist as to the danger to Canadian cattle from those imported from the States, the local authorities are inclined to repudiate this accusation.

Not only are the Canadian cattle the healthiest in the world, but the examination of such herds as may enter the country is very strict. Some time ago the importation of cattle from Mexico was attended by the introduction of a certain fly, which killed off the cattle very quickly. The Canadian government at the very first notice of this, immediately took steps to prevent the dissemination of the pest.

They point out that the condemnation was an unjust one in the first place and that the British and Irish farmer under the guise of the embargo are enjoying simply a species of protection. When they clamor against the removal of the embargo, they are speaking against free trade.

LUCKY JAPANESE PRISONERS

Russian Accounts Describe Their Condition as Heavenly

St. Petersburg, Feb. 4. — Thomas Smith, United States Vice Counsul at Moscow, has gone to Medved to investigate the condition of the Japanese prisoner there at the request of the Japanese Government Newspaper accounts from Medved report that the prisoners are living in a sort of heaven.

Great Triumph of Japanese Surgeons

DOUBLE TRACKING OF GRAND TRUNK

Small Portion in Western Ontario Remains to be Carried out

SURVEYS FOR THE G. T. P.

Mr. F. W. Morse States That There are no Further Developments in This Regard

Montreal, January 6.—The G. T. R. is now figuring on the double tracking of that portion of its system in Western Ontario, lying between Kingscourt Junction and Komoka, which, with the exception of some short stretches where the engineering problems have not yet been figured out, is the only part of the system between Chicago and Montreal that has not already been double tracked.

Work upon that part of the line mentioned will be commenced early in the coming spring. It is only a distance of some twenty miles and no difficulties are anticipated in carrying the undertaking to a successful completion within a very limited space of time.

Upon this work of double tracking, which, when completed, will stretch for a distance of some 840 miles, the G. T. R. company has already spent several millions of dollars, having now under its control the longest double tracked system in the world directed by one management.

The completion of this undertaking closes an interesting chapter in the history of rehabilitation of the G. T. R., which commenced with the accession of Mr. Charles M. Hays to the general managership some eight years ago, and has continued with very little cessation up to the present time.

THE PORTLAND ROUTE.

In this connection it may be mentioned that, notwithstanding rumors to the contrary, there is very little likelihood of the G. T. R. double tracking its line between St. Johns, Que., and Portland. It is pointed out by those at the head office that are in a position to know that the Portland route is of very little service from a freight standpoint during the summer months, as all the commercial business picked up in Canada is shipped via steamers from Montreal and Quebec.

There are no further developments in the surveys for the Grand Trunk Pacific. This announcement is made on the authority of Mr. Frank W. Morse, the general manager of the system. Alluding to the report from Vancouver that four new lines had been in the field for a year; he said that the conditions with reference to the surveys had not changed, and that there was nothing new to add.

NUMBER OF PASSES.

It is apparent to all at the head office that there must be a number of passes through the Rocky Mountains north of the existing transcontinental line, but whether these are capable of use for railway purposes is a question that Mr. Morse, provided he has the information, is not at present at liberty to make known.

The most recent report from Vancouver is to the effect that there will be a number of routes through the Rocky Mountains, from which to choose. The gradients on the eastern sides of the passes, to which allusion has been made, are said to be easy, and by no means so difficult on the western side as to induce disappointment. Some of the country never before visited by white men is spoken of as promising. The final route to be selected will depend, it is alleged, on the report of the engineers mentioned. But these are assertions that Mr. Morse would not confirm.

BOND-HAY TREATY

Prospects Now Favor Ratification of the Reciprocity Agreement Between Newfoundland and the States

Washington, Feb. 6.—The Hay-Bond Reciprocity Treaty between this country and Newfoundland has been revived as a result of negotiations which have been progressing for some months.

Premier Bond has agreed to make some important concessions to American trade which will, it is said, meet many objections which the New England fishing interests had raised to the original treaty.

These concessions have been sent to Senator Lodge, who will offer them as amendments to the treaty. Mr. Lodge announced these facts to the Senate Committee on foreign relations and on his request the next meeting of the committee will be devoted to a consideration of the subject.

ATHLETIC WORLD

BY OUR SPORTING EDITOR

The following players will go to Smith's Falls this morning when they will play the team of that place in the first round of the semi-finals:

Goal—Wasson.
Point—Glover.
Cover-point—Crowley.
Rover—Cavanah.
Centre—Morgan.
R. Wing—Parnell.
L. Wing—Graham.

* * * *

In all future matches goals will count, not matches.

* * * *

Will Play Off Here.

The O.H.A. has ordered Belleville and Cobourg juniors to play off their tie game here on Wednesday night. The winner of this game will be champions of district No. 2.

* * * *

An exciting game of hockey was played on Saturday night at the Y. M.C.A. rink, between the Wringers and Junior Eagles, resulting in a victory for the former by 5 to 2. The star player of the Wringers was Hefferman, and for the Eagles was Carl Hayes. The game was a fast one, the boys handling their sticks well and making some excellent shots on the goal. Referee R. Sheehy.

* * * *

Some few games have already been played in the second round of the O.H.A. But the round will be entered upon in real earnest the coming week. Two games are scheduled in the senior semi-final series. On Tuesday, Feb. 7, Morrisburg m et either Smith's Falls or Frontenacs. The game will be played at either Kingston or Smith's Falls, probably at Kingston, as the Frontenacs look like winners from Smith's Falls. On the following Friday night, Feb. 10, the return game will be played at Morrisburg.

The final games for the championship of Ontario will be played on Feb. 18 and Feb. 22. At Toronto on Saturday, Feb. 18, the Marlboros, who obtained a bye in the semi-finals, will meet the winner of the semi-finals, either Morrisburg, Smith's Falls or Frontenacs. The return game will be played out of Toronto on the following Wednesday. The last and deciding match will thus be either at Morrisburg, Smith's Falls or Kingston. On Feb. 18, Queen's are scheduled to play Varsity at Toronto in the senior intercollegiate hockey series. It will thus be seen that the first of the senior final O.H.A. games will conflict with the intercollegiate series, both games being listed for the same day.

In the intermediate series, Peterborough play at Smith's Falls to-day, Feb. 6, and on Thursday, Feb. 9, the return game will be worked off at Peterborough. Markham play at Orangeville Wednesday, Feb. 8, and the final between these two teams takes place at Markham Feb. 10. Grimsby or Welland must settle their district in time to play Berlin at the latter place Wednesday, Feb. 8. The return game in this series will be played on Feb. 10. Victoria Harbor play in Parry Sound Feb. 7, and at Victoria Harbor on Feb. 10. Gore Bay and Thessalon play the last of their second-round games at Gore Bay on Feb. 7. Woodstock goes to Goderich for Feb. 7, and on Feb. 10 play the final in Woodstock.

In the junior series Cobourg play at Queen's III. next Wednesday, and on Friday night Queen's III. come to Cobourg. Uxbridge meet the Parkdale A. A. juniors at the Mutual street rink on Tuesday, Feb. 7. The return games takes place at Uxbridge on Feb. 10. St. Andrew's College and Gravenhurst play their final at Toronto, Friday, the 10th. The Owen Sound Wellingtons meet Meaford at Owen Sound Friday night.

It will thus be seen that the second round will be concluded by the end of this week, and in another week the finals will be off. The continuous cold weather has expedited the Hockey Association very much. As a result, there have been few—only one—postponed games. The hockey season will thus close early. The senior series first round in Toronto—though a winner has been picked—has not yet closed. Two games yet remain, one on Feb. 8 between the Argonauts and St. Georges, and one on Feb. 11 between the Argonauts and Waverleys.

It is said that Ross will lead the Ontario Opposition for a while. After all his work, he probably wants

All Business Put Through Ross Ready To Get Out Awaits Man From East.

Last Cabinet Meeting Held Saturday Afternoon, But All Formalities Not Gone Through With --The New Cabinet.

Toronto, Feb. 6.—The new government will be sworn in to-day if Mr. Whitney is then in the city. He has been communicated with by Hon. G. W. Ross, who desires that there shall be no time intervening between the laying down of the seals of office by himself and the taking of them up By his successor. On Mr. Whitney, then, depends just when the resignation of the Premier will be handed to the Lieutenant-Governor.

A Cabinet meeting was held on Saturday afternoon, when the loose ends of business were closed up. There is nothing to be done now but vacate the offices.

When Mr. Ross hands his written resignation to the Lieutenant-Governor at Government House to-day, he will recommend that Mr. Whitney be asked to form a Government. The Lieutenant-Governor will summon Mr. Whitney from the Queen's Hotel and entrust him with the duties of Government, and it is expected that Mr. Ross will remain in the gubernatorial residence to congratulate the new Premier.

Mr. Whitney will probably hand the names of his Cabinet to the Lieutenant-Governor to-day. This is not imperative, but he has had ten days to select his colleagues, and the general opinion is that he has communicated with each of them and secured their consent. If his colleagues are in the city they will at once be summoned to Government House, where the oath of office will be administered by Mr. Capreol, clerk of the executive council. The oaths are entered in a book containing the oaths of every Cabinet Minister who ever held office in Ontario.

The next proceeding is to execute the commissions. The Attorney-General's commission is signed by the Deputy Attorney-General, and the Lieutenant-Governor; the commission of the Provincial Secretary is signed by the Assistant Provincial Secretary and the Lieutenant-Governor, and all the others by the Lieutenant-Governor, the Attorney-General and the Assistant Provincial Secretary.

The new Cabinet, being duly installed, will take charge of their departments. The seats held by the Cabinet will become vacant automatically, and one of the first acts of the new administration will be to call for the writs for the by-elections after fixing the dates. While they are without seats in the Legislature the Cabinet may proceed with the business of the Province. It is quite unlikely that opposition will be offered to any of the new Ministers.

The first administration was that of John Sandfield Macdonald, taking office in 1867 and continuing until December, 1871, when it was defeated by the administration of Hon. Edward Blake. The Blake administration lasted from December, 1871, to Oct. 31, 1872. On the abolishment of dual representation Mr. Blake, who held a seat in both the Dominion and locals parliaments, resigned the premiership to devote his whole attention to federal politics, and was succeeded by Sir Oliver Mowat. Sir Oliver held office from Oct. 31, 1872, to July 9, 1896. The Hardy ministry took office July 25, 1896, and Mr. Hardy resigned on Oct. 17, 1899, owing to ill health. On Oct. 21, 1899, Hon. G. W. Ross was sworn in.

THE RETIRING CABINET.

Hon. George W. Ross—Sworn in as Minister of Education, Nov. 23, 1883; as Premier and Treasurer, Oct. 17, 1899.

Hon. Richard Harcourt—Sworn in as Provincial Treasurer, Sept. 16, 1890; as Minister of Education, Oct. 21, 1899.

Hon. John Dryden—Sworn in as Minister of Education, Sept. 16, 1890.

Hon. F. R. Latchford—Sworn in as Commissioner of Public Works, Oct. 21, 1899; as Attorney-General, Nov. 22, 1904.

Hon. A. G. Mackay—Sworn in as Commissioner of Crown Lands, Nov. 22, 1904.

Hon. G. P. Graham—Sworn in as Provincial Secretary, Nov. 22, 1904.

Hon. W. A. Charlton—Sworn in as Commissioner of Public Works, Nov. 22, 1904.

Hon J. M. Gibson—Sworn in as Secretary and Registrar, Jan. 18, 1899; as Commissioner of Crown Lands, July 21, 1896; as Attorney-General, Oct. 21, 1899; as Minister without portfolio, Nov. 22, 1904.

Hon. F. E. A. Evanturel—Sworn in as Minister without portfolio, Nov. 22, 1904.

The names of the Cabinets since confederation are as follows;

THE SANDFIELD MACDONALD MINISTRY.

Hon. John Sandfield Macdonald, Attorney-General.

Hon. John Carling, Commissioner of Agriculture and Minister of Public Works.

Hon. Stephen Richards, Commissioner of Crown Lands.

Hon. Matthew Crooks Cameron, Provincial Secretary.

Hon. Edmund Burke Wood, Treasurer.

THE BLAKE MINISTRY.

Hon. Edward Blake, President of the Council.

Hon. Adam Crooks, Treasurer.

Hon Alex. Mackenzie, Provincial Secretary.

Hon. Archibald McKellar, Commissioner of Agriculture and Public Works.

Hon. Richard William Scott, Commissioner of Crown Lands.

Hon. Alex. Mackenzie, Treasurer.

Hon. Peter Gow, Provincial Secretary.

THE MOWAT MINISTRY.

(Oct. 25, 1872—July 9, 1896).

Hon. Oliver Mowat, Premier and Attorney-General.

Hon. Adam Crooks, Treasurer, and Minister of Education.

Hon. C. F. Fraser, Provincial Secretary and Commissioner of Public Works.

Hon. T. B. Pardee, Provincial Secretary and Commissioner of Crown Lands.

Hon. S. C. Wood, Provincial Secretary and Treasurer.

Hon. A. S. Hardy, Provincial Secretary and Commissioner of Crown lands.

Hon. James Young, Treasurer.

Hon. A. M. Ross, Treasurer.

Hon. Richard Harcourt, Treasurer.

Hon. G. W. Ross, Minister of Education.

Hon. J. M. Gibson, Provincial Secretary.

Hon. Charles Drury, Minister of Agriculture.

Hon. John Dryden, Minister of Agriculture.

Hon. E. S. Bronson, without portfolio.

THE HARDY MINISTRY.

(July 25, 1896—Oct. 17, 1899).

Hon. Arthur Sturgis Hardy, Q.C., Attorney-General.

Hon. John M. Gibson, LL.D., Commissioner of Crown Lands.

Hon. William Harty, Commissioner of Public Works.

Hon. W. D. Balfour, Secretary and Registrar.

Hon. Elihu J. Davis, Secretary and Registrar.

Hon. Richard Harcourt, Q.C., Treasurer.

Hon. G. W. Ross, Minister of Education.

Hon. John Dryden, Minister of Agriculture.

Hon. E. S. Bronson, without portfolio.

Mr. Balfour died.

THE ROSS MINISTRY.

(Oct. 21, 1899.)

Hon. Geo. W. Ross, LL.D., Premier

Hon. J. M. Gibson, LL.D., Attorney-General.

Hon. Elihu J. Davis, Commissioner of Crown Lands.

Hon. F. R. Latchford, K.C., Commissioner of Public Works.

Hon. J. R. Stratton, Secretary and Registrar.

Hon. Richard Harcourt, K.C., Minister of Education.

Hon. John Dryden, Minister of Agriculture.

Hon. J. T. Garrow, without portfolio.

Hon. Wm. Harty, without portfolio.

Mr. Garrow was appointed a judge, and Mr. Harty died in Jan. 1903. On Nov. 18, 1904, Hon. J. R. Stratton resigned and on the 23rd Mr. Ross announced the re-organization of his Cabinet. Hon. J. M. Gibson retired from the portfolio of Attorney-General, and was succeeded by Hon. F. R. Latchford. Hon. E. J. Davis retired from the Crown Lands Department, and was succeeded by Hon. A. G. Mackay. Hon. W. A. Charlton became Minister of Public Works. Hon. Mr. Gibson and Hon. Mr. Evanturel, became Ministers without portfolios. The general election of Jan. 25 resulted in the overwhelming defeat of the re-organized Cabinet, five ministers, Dryden, Latchford, Gibson, Charlton and Evanturel being among the beaten. The resignation of Premier Ross will be handed to the Lieutenant-Governor on Monday.

ARTILLERY FIGHT IS NOW ON

Russ n Dead Buried After Battle of Heikoutai

Russian Headquarters, Huan Mountain, Manchuria, Feb. 5—Delayed in transmission.—The artillery engagement has been resumed on the Russian right.

ALSO ON THURSDAY.

Tokio, Feb. 5.—Manchurian Headquarters telegraphing under date of Feb. 3, says;

"On Thursday, Feb. 2, the enemy's artillery bombarded from several points on our right wing. Otherwise the situation is unchanged. In the direction of our centre at 12.30 Friday morning, Feb. 3, one company of the enemy's infantry attacked our outposts from the Mukden road, and later another section was attacked in the neighborhood of Wanchiayuantsu. Both attacks were repulsed.

"In the direction of our left the enemy has been attacking in the neighborhood of Lialiaku since the morning of Feb. 2. Their force, which consisted of the first and the fifth rifle brigades, were driven back towards Changtan. The enemy's losses are estimated at 700. We witnessed the removal of over three hundred dead.

"The Russian dead already interred after the battle of Heikoutai, in the neighborhood of Sumapao alone number 900."

PLENTY OF WATER FOR ALL PURPOSES

Flow of River Never Was Better Than at Present

WATER BEING CONSERVED

Much Credit Due to the New Superintendent, Mr. J. H. McClellan, Who is Responsible for the Present Satisfactory State of Water Supply

The water power supplied by the Otonabee River is as valuable to Peterborough as a soft coal mine at our door. It is, therefore, not surprising that the people of this town are very much interested in anything that has to do with the supply or regulation of the flow of water down our great power producing stream. Last fall the cry for rain was general. The streams throughout the country and eastern states were never before known to be so low. Mills and factories were forced to suspend operations in all directions for want of water. Our own manufacturers became very much alarmed lest the Otonabee should give out, and fail to furnish sufficient water to drive the machinery depending on it. We all know what shortage of water would mean. It would force the closing of practically all the industries of the town, and at the same time plunge us in utter darkness. Our street cars would fail to move and the printing presses cease to revolve. We think the fact that no lack of water was felt for a single instant, during the period referred to above, should set forever at rest the croaking of those who still proclaim that there is not sufficient water for the canal, and, therefore, the canal is sure to be a failure.

It is pleasing to note that, under the careful supervision of Canal Superintendent, J. H. McClellan, the regulation of the water has been as near perfect as it is possible to have it. The Times interviewed the power users, and here is what they say:

Continued on Page four.

40,000 Men On Strike.

Forcibly Drag Their Bosses to Place of Meeting ---The Progress of the Campaign in the East---Gen. Stoessel Defends Honor.

Sosnovice, Feb. 6.—About 40,000 men are now out on strike. At a meeting of strikers to-day the men forcibly dragged officials belonging to the management of various concerns to the place of meeting. All the speakers insisted on the preservation of order. The men's demands include a minimum wage of 75c. a day, eight hours to constitute a day's work, various reforms in factory management and old age pensions. After the meeting 12,000 strikers marched six miles to the Dombrevad district in perfect order, but everywhere persuading workmen to strike. This afternoon strikers went to the railway station of Streshemeshis, seized and bound the officials, wrecked the station buildings, and stopped trains in both directions.

GENERAL STOESSEL DEFENDS HONOR.

Colombo, Ceylon, Feb 6.— General Stoessel, the former commander of Port Arthur, and the Russian officers and others accompanying him, arrived here to-day from Japan, by way of Shanghai, on board the French Line steamer Australian.

In an interview, the General denied the statements published to the effect that Port Arthur was surrendered prematurely. He was especially indignant at the statements made by a London newspaper on January 25, in a despatch from Pekin, that there were at the time of the surrender 25,000 able-bodied men in Port Arthur capable of making a sortie, hundreds of officers, all well nourished, plenty of ammunition, the largest magazine being untouched and full to the roof, and that there was an ample supply of food for three months even if no fresh supplies were received.

The General characterized these statements as unjustified and not supported by facts.

COULD NOT HAVE LASTED LONG

Col. Reiss, who was among the negotiators of the surrender of the fortress, said;

"The garrison could not have held out a moment longer. It would have been murder. Only fifteen roubles ($7.50) remained in the military treasury out of a million and a half ($750,000) at the commencement of the siege. Four hundred men were dying daily in the hospitals, principally from wounds and scurvy. Gen. Kondratenko was the hero of the siege."

Col. Reiss further declared that the Japanese were "admirable soldiers, but poor in the use of bayonet, compared with the Russians and the

General Stoessel and others of his party will transhipp at Port Said for Odessa.

BULLETINS.

Berlin, Feb. 6.—The statement made in a despatch from London that Emperor William considers this an opportune moment for Great Britain and Germany to unite in an effort for peace in the far east is treated by the Foreign Office here as being merely a variation of an old phantasy, quite without semblance of foundation.

Colombo, Ceylon, Feb. 6.—Gen. Stoessel, the former commander of Port Arthur, and the Russian officers and others accompanying him arrived here to-day from Japan by way of Shanghai on board the French line steamer Australian.

St. Petersburg, Feb. 6.—It is believed in military circles here that the succession of Lieut.-Gen. Myleff to the command of the second army of Manchuria does not necessarily mean that the position of second in command in the far east has devolved on him.

St. Petersburg, Feb. 6.—Army officers here confirm the report that Gen. Gripenberg is in ill-health and that he was seriously ill a year before his appointment to the command of the second army of Manchuria.

HOW'S THIS?

Toiled to Hard and Broke Down

Nerves Went to Smash—Could not Sleep—Work was Impossible

FERROZONE

Gave Me New Vital Energy—Nourished Me Back to Good Health

Perhaps you are in poor health? But work must be done, and there is no chance to take a rest.

Never mind the rest—it won't be necessary if you use Ferrozone. It builds up the system, enriches the blood, strengthens the nerves, makes you feel like new at once. No medicine in the world is so powerful in restoring health writes C. F. Sommerville, of Weymouth.

"I was weak and miserable.

"I toiled too hard at my business and broke down.

"My nerves went to smash, I couldn't sleep, and simply had to give up everything.

"Did Ferrozone help me?

"Well, I think it saved my life! It gave me new vital energy, nourished me back to permanent good health. No better tonic is made than Ferrozone."

All physicians recommend Ferrozone because it is absolutely certain to give strength to those that use it. 50c. per box, or six boxes for $2.50, at all dealers in medicine, or Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

UNION LABEL

PETERBOROUGH, FEBRUARY 6 1905

ANOTHER DIP INTO THE FALLS

Two new 10,000-horse power turbines have been installed by the Canadian Power Company, and the time when Niagara shall cease to run is brought that much nearer.

You, with your love of the beautiful, cry "Shame!" You ask why commercialism should be allowed to destroy the world wonder, where millions have marveled and been brought in thought closer to the Power that rules the universe.

And Commercialism says: "Here is the best and cheapest power the world knows going to waste. It will turn the wheels of a thousand factories; it will run railroads and light cities." There is logic on both sides of the question. It is a fact that what has been done and is planned to be done will sound the doom of Niagara Falls.

But there is a bigger question. The falls are public property. By rights they belong to no one man or set of men. And yet the public has gotten little or nothing out of the commercial transformation of this great torrent.

Private capital is now invested in ten companies that have diverted much of the water from the falls. The average citizen has been blessed with little, if any, reduction of travelling expenses, notwithstanding that the falls furnish the power for his trolley line.

Last year a "grab" bill was introduced in the New York legislature. Had it become a law little would have been left of Niagara to attract sightseers. The bill was fought tooth and nail by New York newspapers, and, backed by public sentiment, they were victorious. The measure is to be again pressed and a still stronger fight to be made to rob the people.

Only aggressive vigilance will prevent the grandest natural spectacle in this country becoming a curse and a scandal.

EDITORIAL COMMENT.

It is now established, at any rate, that Ontario will not hang a man for one "Hot Scotch."

• • • •

It is said that Rose will lead the Ontario Opposition for a while. After all his work, he probably wants to have a little fun himself.

• • • •

Now that the Russian revolution has for a time been staved off, Wall Street will regain confidence and resume the business of calling the lambs.

THE OLD RED CRADLE

(A Song Asked For.)

Take me back to days when the old red cradle rocked—
In the sunshine of years that have fled;
To the good old trusty days when the door was never locked,
And we judged our neighbor's truth by what he said.
I remember of my years had numbered almost seven,
And the old red cradle stood against the wall;
I was youngest of five and two were gone to heaven—
But the old red cradle rocked us all.

By its side father paused with a little time to spare,
And the care lines would soften on his brow;
Ah! 'twas but a little while that I knew a father's care
But I fancy in my dreams I see him now.
And if there e'er came a day when my cheeks were flushed and hot—
When I did not mind my porridge or my play,
I would clamber up its side and the pain would be forgot
When the old red cradle rocked away.

Aye, it cradled one and all, brothers, sisters in it lay,
And it gave me the sweetest rest ever knew;
But tonight the tears will flow and I let them have their way—
For the passing years are leaving me alone.
By my mother it was rocked when the evening meal was laid
And again I seem to see her as she smiled,
When the rest were all in bed 'twas then she knelt and prayed
By the old red cradle and her child.

But the cradle long ago has gone and the burdens that it bore—
One by one have been gathered to the fold,
But the flock is incomplete, for it numbers only four—
With a dear one now left straying in the cold.
Heaven grant again we may in each others arms be locked,
Where no bitter tears of parting ever fall;
God forbid that one be lost that the old red cradle rocked—
For the dear old red cradle rocked us all.

Chorus:

Rocking, rocking, gently rocking, in time with the tick—
Of the clock on the wall;
One by one the seconds marking—
The old red cradle rocked us all.

KEENE

—One of the old residents of Keene passed away on Thursday about 2.30 o'clock, p.m., in the person of Mrs. John Gall. The deceased was stricken with paralysis about 8.30 a.m. The funeral took place on Saturday afternoon at 2 o'clock, the service being held in the Presbyterian church, of which she has been a member for a number of years.

—Miss Daisy Jackson, of Peterborough, who has been visiting Miss J. Plunkett, returned to her home on Wednesday.

—Miss Mary Wedlock has returned from a month's visit in Toronto.

—Several parties are busily engaged taking out ice.

—Mr. John McLaughlin and Mr. F. W. Burnham left on Thursday morning for a visit to the former's son, Mr. J. H. McLaughlin, of Columbus, Ohio.

—The Foresters held their annual oyster supper on Friday evening in the Town Hall. It was, as usual, a decided success.

—Three rinks of curlers form Peterborough played a friendly game here on Friday afternoon; the visitors winning by 4 shots. Great excitement prevailed throughout the game. The rinks were as follows:

Peterborough.		Keene.

BOND-HAY TREATY

Prospects Now Favor Ratification of the Reciprocity Agreement Between Newfoundland and the States

Washington, Feb. 6.—The Hay-Bond Reciprocity Treaty between this country and Newfoundland has been revived as a result of negotiations which have been progressing for some months.

Premier Bond has agreed to make some important concessions to American trade which will, it is said, meet many objections which the New England fishing interests had raised to the original treaty.

These concessions have been sent to Senator Lodge, who will offer them as amendments to the treaty. Mr. Lodge announced these facts to the Senate Committee on foreign relations and on his request the next meeting of the committee will be devoted to a consideration of the subject.

PRAISES FOR UNCLE SAM

AMBASSADOR CHOATE IN HIGH FAVOUR IN LONDON

Britain and the United States are on Most Friendly Terms.

London, Feb. 6.—The English press continues to ring with high praise of Ambassador Choate, announcement of whose intended retirement has been received with a feeling of genuine regret that is absolutely without precedent. The following paragraph from the current issue of "Black and White" is a fair sample of the friendly sentiment that has found expression in newspapers and periodicals throughout the country:

"In all the long line of distinguished men who have filled the post of American Ambassador at the Court of St. James, none has enjoyed a wider popularity than Mr. Choate, and none will be missed and regretted more sincerely on this side of the Atlantic when in the course of a few months he presents, as he has decided to do, his letters of recall. We, in England have come to regard the American Ambassador as much more than a diplomatist. He is, in a way, a public institution, and the part that he plays in our social life is almost as active and intimate as if he were one of our public men. On all sorts of ceremonial occasions and celebrations the American Ambassador is invited to deliver orations, which are invariably models of felicity, and which are unchilled by that formality and reserve imposed by tradition on the utterances of other diplomatists. The art of apt and graceful speech has been cultivated to a high degree of perfection in the States, but none of Mr. Choate's predecessors has excelled him in its practice; and his withdrawal from our midst will indeed be a sensible loss to many sides of our social activity. Of his qualities as a diplomatist it is possible to speak quite as highly, for during his residence in England several anxious questions between the United States and Great Britain have come up for adjustment, and their settlement has been due in no small measure to his exertions. He understood the English people, and he liked them as much as they liked him; and it should be some satisfaction to him to know that he returns to his own country having helped to bring about a better understanding between the two English-speaking nations than has ever before in their history prevailed."

Russians Retreated

On January 27 the Russians pressing the Japanese right wing temporarily retreated. The freed force re-enforced the Japanese centre. The attack on Heikoutai was resumed on January 27. A covering force was sent to protect the right flank, rear, and also the left flank of the Japanese force operating at Chenchiehpao. Another covering force protected the extreme left.

The Canadian Northwest

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

2) If the father (or mother, if the father is deceased), or any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence, prior to obtaining patent may be satisfied by such person residing with the father or mother.

3) If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same town, township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses 2, 3 or 4 must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 30 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Land Agents in Manitoba or the Northwest Territories.

W. W. CORY, Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

SEALS, PRICE MARKERS

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

INCORPORATED

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and, we believe, exceedingly profitable investment. Every dollar of stock is guaranteed by twenty year, full paid, gold bond, delivered to purchaser of stock, from an investment Company that has no interest whatever in the company, but who are disposing of the debentured bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the State Treasurer under which they received their charter, there by doubly securing the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvellously rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Summer and Jack Mining Co., Limited, Elandsfountain, South Africa:—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world.

"With the present development of the Monument Mine, I estimate that 100 tons per day can be extracted, which will mill from $15.00 to $20.00 per ton. The total cost of mining the ore, delivering and milling, I place at about $4.00 per ton. With increased milling capacity, it is safe to say that the mine can furnish 100 tons of $15.00 ore, which would yield a clear profit of $11.00 per ton, or $1,100.00 per day (equal to $400,000.00 per annum). Estimated total value of ore in sight, $3,800,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Mr. Brown writes as follows:—

"In regards to the amount of ore available at the mines at Sinclair, I saw on the dumps several thousand tons, probably 5000 tons would be an under-estimate.

"As to the size of the ore body itself, from what I saw of the geological structure, I think that there is every indication that it will be found to extend underground as far as the out-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish full information to investors.

BLOOD DISEASES CURED

Drs. K. & K. Established 25 Years.

Before Treatment.

After Treatment.

NO NAMES USED WITHOUT WRITTEN CONSENT.

He was surprised at how the sores healed—"I took your New Method Treatment for a serious blood disease with which I had been afflicted for twelve years. I had consulted a score of physicians, taken all kinds of blood medicine, visited Hot Springs and other mineral water resorts, but only got temporary relief. They would help me for a time, but after discontinuing the medicines the symptoms would break out again—running sores, blotches, rheumatic pains, looseness of the hair, swellings of the glands, palms of the hands scaling, itchiness of the skin, dyspeptic stomach, etc. I had given up in despair when a friend advised me to consult you, as you had cured him of a similar disease 8 years ago. I had no hope, but took his advice. In three weeks' time the sores commenced to heal up and I became encouraged. I continued the New Method Treatment for TWO MONTHS and at the end of that time every symptom had disappeared. I was cured 7 years ago and no signs of any disease since. My boy, three years old, is sound and healthy. I certainly can recommend your treatment with all my heart. You can refer any person to me privately, but you can use this testimonial as you wish."

W. H. S.

DRS. KENNEDY & KERGAN

Cor. Michigan Ave. and Shelby St., Detroit, Mich.

A SPLENDID PROPOSITION

The Salido Gold and Copper Company

Incorporated under the laws of Arizona, with a capital of $3,oc 000 forever on-assessable divided into shares of $1 each, par value. All investments insured Granite Secusities Company.

The "SALIDO GOLD-COPPER COMPANY" enterprise offers attractions to the investors of the country, that without thorough investigation, would scarcely seem probable. If only a fraction is realized of what any prudent business man in his own affairs would regard as absolutely certain, the enterprise must prove abundantly successful and exceedingly profitable.

SALE OF STOCK

The company will prosecute the work of development with all the diligence that be cash in the treasury will permit and circumstances warrant, and to this end a small amount of the treasury stock is now placed upon the market, in blocks of not ess than One Hundred Shares. The par value of the stock is One Dollar per share, fully paid and forever non-assessable.

The company reserves the right to advance the price of stock without notice.

REMEMBER

First—That all payments for treasury stock go into the treasury for development work and not into the pockets of the promoters.

Second—There are no salaried officers.

Third—The incorporators have put their own good money into this enterpr se and being business men, intend to do business along business lines.

Fourth—That this company is honest.

Fifth—If you are thinking of investing in mining stocks this is worthy of your careful investigation.

OTHER PROPERTIES

This Company owns four other Gold and Copper Mines, wh ch title is now in process in the laws of Mexico. As soon as title is perfected, we shall commence to develop them as we certainly expect something very great from these properties. Our assays taken have been of the very best, showing gold and copper from $6.00 to $122. 30 per ton.

I have secured a small block of this stock, which I offer at the following prices: Unguaranteed 40 cents per share, guaranteed 80 cents per share. These prices will only prevail for a short time, as the number of shares for sale at this price is limited. The Shares will then be advanced to 40 cents for the unguaranteed and 80 cents for the guaranteed. I can unhesitatingly recommend this investment to the Canadian public.

W. K. HALL,

FISCAL AGENT, PETERBOROUGH

Agents wanted in outlying districts, including Toronto.

CONSERVATIVE MINING

Those who are interested in a genuine mine, no wildcat scheme—one on which a dividend is guaranteed by one of the most prominent banking and broking firms in the west—

8 Per Cent. for 1905 and 12 Per Cent. . . . the Next Year . . .

As there is only a small amount of the stock left at 20 cents a share the buyers will participate in the appreciation of stock value, the price will be raised to 25 cents within 30 days

The First Dividend Will be Paid in April

THE CALIFORNIA BUCKEYE MINE

is a Zinc Mine, with outcroppings of lead and will prove a bonanza to its shareholders, and the value of it is guaranteed by a responsible firm of bankers.

Capital Stock - - $250,000.00

Shares, par value, $1.00 each. Fully paid up and non-assessable. No PREFERRED STOCK. NO BONDED INDEBTEDNESS.

BRIDGE ACROSS DETROIT RIVER

Interesting State of Affairs Now Reached in This Connection

M. C. R. MAY BUILD TUNNEL

In This Event the G. T. R. May Proceed Itself With Construction of a Bridge

Montreal, January 3.—An interesting condition of affairs has developed in respect of the obstacle offered to transportation by the Detroit river which separates the cities of Detroit and Windsor.

Up to the present time all the through trains, whether passenger or freight, have had to be transferred by barges from one side of the river to the other, and this process, particularly during the winter season, has been attended by not a little difficulty.

A solution of the problem had been offered, in the proposal that a bridge between the two points should be erected jointly, by all the railway companies doing business between the two countries—the G. T. R., the C. P. R., the Michigan Central and the Pere Marquette.

For several years new negotiations looking toward the building of the bridge in question have been under way, but, until recently, with no apparent indications of advancement. It had been generally supposed that the railways interested, within the past year, had come more closely together, because when officials were approached on the subject they invariably assumed an optimistic tone.

Now comes a report from Detroit that the Michigan Central has under contemplation the construction of a tunnel between Detroit and Windsor, on its own responsibility, and independently of the other companies with which it was supposed to have been co-operating. Additional interest is given to this report from the fact that a meeting of the chief railway and steamboat officials interested was held in Detroit only last week, when the entire question of the bridge was fully discussed.

MAY PROCEED WITH CONSTRUCTION.

While General Manager Hays, of the G. T. R., upon his return from the West would say nothing as to the outcome of the meeting, maintaining a reticence which has characterized the officials of all other lines in the deal, it was learned on reliable authority at the head office of the company in this city, today, that, should the Michigan Central carry out its announced intention, the G. T. R. will proceed itself with the construction of the bridge that has been so long contemplated.

A very critical situation is thus engendered, so far as the railways doing business between Detroit and Windsor are concerned. Should the Michigan Central persist in its independent stand the other lines will have to take steps to maintain themselves in the vanguard of traffic operations at that point. This can only be done by the construction of a second tunnel, or the erection of the bridge that has been before the public for a number of years.

Some indications of the plan to be followed by the Michigan Central in this connection has been given. Prominent engineers are said to have been at work sinking pits for some time. The Michigan Central rights of way on both sides of the river will be used for the approaches of the tunnel and there will be no change in the present terminals. Electric locomotives are to be used and the entire equipment will be the finest that engineering skill can devise. Construction will begin, it is said, in the near future.

ANOTHER FATAL CONFLICT AT LODZ

Warsaw, Russian Poland, Feb. 4—Serious disorders broke out this morning at Lodz, 75 miles from Warsaw, where 25,000 men are striking. Some of the employes of a lace factory attempted to return to work, and the remainder forcibly prevented them. A strong military patrol was summoned and attacked and fired at the strikers, who replied with revolver shots. It is reported over the telephone that the firing was continued at one o'clock this afternoon.

Strikes were started this morning in the coal districts of Dombrowa and Sosnovice. It is feared they will have a serious effect on the industrial situation generally. Warsaw, Lodz and other important manufacturing centres are being entirely dependent for their coal supply on those districts.

According to the best information obtainable, the official list of persons killed during the disturbances here contains over three hundred names, in addition to many unidentified bodies lying at the Rieg vault in the cemetery. The latter will be buried to-night.

A group of soldiers outside a liquor store last night fired on passersby without warning, killing a shopkeeper and wounding another man.

Lodz, Russian Poland, Feb. 4.—In a conflict between troops and strikers at the Kounitzer factory, here today, the former fired killing six persons and wounding 48. Shooting also occurred at the Keller lace factory.

The Two Victories

Mr. J. H. Carnegie's majority is 1,081. East Victoria is evidently well satisfied with its old representative. In West Victoria Mr. Fox, the Conservative candidate, has a majority of 158. Both of the above are official.

Those for Whom the

MUSKOKA FREE HOSPITAL FOR CONSUMPTIVES

Is Built

"Not a single patient has ever been refused admission to the Muskoka Free Hospital for Consumptives because of his or her poverty.

Since the Hospital was opened in April, 1902, nearly 400 patients have been cared for.

Would Have to be Sent Free.

H. J. Pettypiece, M.P.P., Forest, Ont.: "There is a young lad in town, named Kenneth Levitt, aged seven years, showing the very first signs of consumption, and Dr. McCordie, who is attending him, recommends that he be sent to the Sanatorium. He would have to be sent to the Free Hospital, as his mother says she could not pay more than $1 per week. They asked me to write to you. Do you think he can be admitted?"

No Means to Pay.

L. H. Casaddan, M.D., Douglas, Ont.: "I have a patient in whom pulmonary tuberculosis is just developing, and who has no means of her own to pay for treatment, or at any rate only a small fee in a hospital. I think the treatment at the Sanatorium would help her, and as she has no home I have advised her to seek admission in your institution. Will you kindly send me conditions governing admission?"

A Widow With Small Means.

Mrs. Readwin, Hamilton, Ont.: "I am a widow with one little girl, aged 11 years; my age is 30 years. I am troubled with tuberculosis. I have been doctoring for some time, and my physician has advised me to go to Muskoka. I am not left with very much means, so will you kindly let me know the full particulars, and what is the lowest fee you would charge me a week."

Family Supported by Church and Neighbors.

S. J. Ewing, Alliston, Ont.: "While in Gravenhurst the other day I called at the Hospital re a young man named Arthur Armstrong, of this town who was sick with pneumonia about ten or eleven months ago. Since then he has not been able to work. The family are supported by the church and neighbors. What can you do to admit him?"

No greater work of faith has been undertaken in any country. For its support the Hospital is dependent on the generosity of the people of this Dominion.

Contributions, large or small, will help, and may be sent to SIR WM. R. MEREDITH, KT., 4 Lamport Ave., Toronto, or W. J. GAGE, Esq., 84 Front St.

A SPLENDID PROPOSITION

Rare Chance to Secure a Paying Investment

THE GOLD COIN MINING COMPANY

has placed a small block of their stock at the disposal of Canadian investors. This stock is sure to rapidly advance in price. The Company is now arranging to instal the power plant and a mill and cyanide plant for the reduction of their ore to a bullion on the property. They have arranged with a Trust Company having assets of $1,500,000 to put up a bond guaranteeing investors the repayment of the full amount invested. This makes investors absolutely safe. By no possibility can they lose a dollar

THE GOLD COIN MINING COMPANY was organized November 21, 1902, under the laws of the State of Idaho. The capitalization is one million shares of the par value of one dollar each, fully paid and non assessable; of the 1,000,000 shares, 400,000 have been set aside as treasury stock

THE BOISE BASIN came into prominence shortly after Grimes and his party of prospectors entered the Basin country in 1862; their entrance was into the northern portion and one discovery of rich placer ground followed another until the news of the rich finds reached the outside world, when a veritable stampede for Boise Basin commenced, towns sprang up and grew together in an incredibly short time; the rush of people to Idaho City made it a place of 20,000 people in 1867, having a business street over a mile long lined with two-story buildings streets and sidewalks filled with people day and night business and money on every hand and the city bearing the proud distinction of being the capital of the territory of Idaho. Wages ran from $6 to $10 a day and not infrequently forty and fifty men worked on a single placer claim; the clean-up for a day's work in many instances ran close to $5,000; large fortunes were made in a few days by washing the golden sands in a pan; so eager was the quest for the shining metal that the streets of Idaho City were dug up and washed and re-washed, and the soil removed from under the houses and places of business. So extensive was the search for the hidden treasure that not only all of the low ground was worked but the foot of the mountains surrounding the city have been washed away, filling up the lower portions of the basin and extending into the town, where one of the buildings has been buried under the tailings from the numerous placer workings

LOCATION—The property of the Gold Coin Mining Company is situated in the Gambrinus Mining District, Boise County, Idaho, on the range of mountains between Moore Creek and Elk Creek, which forms a part of the eastern boundary of the famous Boise Basin and into which these mountains are drained. The property is located ten miles northeast of Idaho City, from which place there are good wagon roads either to the workings on top of the mountain or to the place of the proposed tunnels in the gulch which crosses the Tunnelsite claim.

THE CLAIMS—The Company owns a group of four contiguous lode mining claims and the Gold Coin Millsite: the names of the lode claims are the Tunnelsite, Blue Bell, Pennsylvania and Homestake, each being a full claim 600 feet wide by 1,500 feet long, excepting the Tunnelsite claim, which is 450 feet wide at the west end and 1,055 feet long: it was necessary to stake the claim in this form on account of joining the Washington property on the south and the Sub Rosa property on the west, these properties being prior locations to the Tunnelsite claim. The four lode claims aggregate nearly 80 acres of rich mineral land.

Further particulars may be had on application to WM. SAILSBURY, Fiscal Agent of the Company Peterborough, Ont., or to

S. E. PHELPS, Secretary,
311 SCHOFIELD BUILDING, CLEVELAND, OHIO.

Powerful Healing Effective Cure

FOR COLDS, COUGHS, CATARRH BRONCHITIS AND ASTHMA

mply Inhale Catarrhozone ; it Cures Because it Goes where the Disease Actually Is.

These diseases cannot be cured by stomach medicines; they must be treated locally. Catarrhozone is inhaled to the very source of the trouble, and gives the diseased membranes local treatment with the strongest, most-healing antiseptics known.

After one trial of Catarrhozone you will wonder how you ever lived without it. Nasty colds in the head it cures in an hour; coughs are stopped in two hours, and catarrh and bronchitis are relieved at once. Nothing could be simpler or more pleasant than to inhale the fragrant vapor of Catarrhozone. Nothing is half so certain to cure your trouble permanently.

Nor is proof of Catarrhozone's merit lacking, for it is endorsed more strongly by the medical profession than any other remedy. Its superiority to-day is unquestioned, and its sale by far exceeds that of any other two remedies on the market. Why? Because it does what is claimed for it—cures permanently those who use it for any disease of the breathing organs.

Mr. S. E. MacAuley, the well-known attorney of Portland, endorses Catarrhozone in the following letter. "I am anxious to make known that after three years' suffering from weak throat and catarrh, I have been cured by Catarrhozone. I was treated by many doctors of wide reputation. I have used scores of different remedies. I have suffered everything catarrh entails, and I am convinced that no medicine is so sure to cure as Catarrhozone, which did me untold good and completely eradicated this awful disease from my system."

Complete outfit, guaranteed to cure cents $1, sample size 25c. At all druggists or N. C. Polson & Co., Kingston, Ont., or Hartford, Conn., U.S.A. Beware of substitutes and insist on getting Catarrhozone when you ask for it.

Girl Wanted

A girl with some experience wanted at The Times bindery, to feed ruling machine. Apply at Times Book store.

Police Court

At the police court on Saturday morning a young man was charged with vagrancy. He was remanded until Tuesday. Two young men were charged with being drunk and disorderly on Jan. 20th. Both pleaded guilty and were fined $2 and costs, totalling $7.20 each, which was paid.

The Advance in Sugar

Mr. Hugh Blain, the well known Toronto wholesale grocer, made some interesting statements respecting the recent advance in the price of sugar. "The annual consumption of sugar in Canada is 400,000,000 pounds," he remarked, "which is practically two cents a pound higher than last year, which means an advance of $8,000,000 that the people of Canada must pay for sugar." Mr. Blain went on to explain that for many purposes the Canadian beet sugar was the most economical.

The Reds and Blues

Interest has already begun to increase in the Red and Blue membership contest, after members, which opens at the Y.M.C.A. on Monday evening at eight o'clock. No better men could have been selected as leaders, than Mr. R. J. P. Dormer, the hustling chairman of the Membership Committee, who champions the Blues, and Mr. G. L. Johnston, the aggressive Social Department chairman, who we are sure he will be able to lead the Reds to victory. It is a time for every Y.M.C.A. man to get to work.

The attendance at the

Peterboro Business College

larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 80 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence courses.

A Pleasant Surprise

A very pleasant gathering took place on Friday evening last at the residence of Mr. and Mrs. Thomas Hooper, Otonabee, near Downer's Corners, when about 25 friends gathered at the house and took them by surprise, and spent the evening with them. Needless to say they were heartily welcomed and a pleasant evening was spent in games, music, etc. Refreshments were served by the visitors and about one o'clock the company dispersed. The team was kindly provided by Mr. David Chamberlain of Douro.

Tom Marks Shot

Tom Marks, the well-known actor, now playing at Prince Albert, Ont., was accidentally shot in the foot by a 22-calibre revolver in the Prince Albert Hotel. The bullet struck an eyelet in his shoe and glanced off, flowing through the foot a couple of inches, and embedding itself in the fleshy part. The weapon was in the pocket of Corp. Spaulding, of the N.W.M.P., who had a few hours previously taken it from a drunken man. The victim is getting along favorably, and will be able to resume his work in a few days.

Oats in Demand

Bobcaygeon Independent;—The Dickson Company furnishes a surprising market for oats, the quantity consumed at their seven camps being remarkable. Four teams of the company have been steadily cadging since early fall, and at present there are a little contingent of farmers drawing oats. The average load is a hundred bushels, the bushel being 34 pounds, and the teams take two days to a trip and return. The price paid here is 33c. and when purchased at the camp 41c. are allowed. The crop was a fairly good one last season, and present prices give the farmers a satisfactory margin.

Rugby Boys Entertained

The Peterborough Rugby Club were hospitably entertained at the home of Mr. and Mrs. C. C. Graham, Grand Central Block on Friday evening last. The affair took the form of a complimentary banquet to the Club by Mr. Graham, who has held the office of Secretary-Treasurer for the past two years. A banquet was provided and the evening spent in speeches and songs. A feature of the evening was the presentation to the members of the team, of a large group picture of the team of 1904. The boys all expressed their sincere thanks to Mr. and Mrs. Graham for the hospitality extended them, and the evening was brought to a close with the singing of the National Anthem.

WILL CELEBRATE MARCH 17TH

Entertainment and Concert Being Arranged by T.A.S.

St. Peter's Total Abstinence Society will celebrated the 17th of March this year by a concert and entertainment in the Opera House. The society has secured the services of Mr. Ruthven McDonald, the popular basso, who has always been a favorite in Peterborough, and a member of the celebrated coterie of entertainers the Fox family has also been engaged. The celebration of the 17th of March is always looked forward to with great interest by members and friends of the T.A.S.

SCHOOL OF INSTRUCTION

One Likely to be Established Here for Officers of 57th Regt.

It is quite probable that a provisional school of instruction in infantry drill for officers, non-commissioned officers and men will be started in Peterborough within the next two or three weeks. All the junior officers and non-commissioned officers will be expected to attend to qualify for their several ranks. The course of instruction will cover six weeks. An officer from Stanley Barracks, Toronto, and a drill instructor will be detailed to instruct the school.

$10 Excursion to Washington $10

February 10th! Lehigh Valley Railroad Special 10 Day Excursion. Tickets only $10 from Suspension Bridge to Washington and return. Tickets allow stop over at Baltimore and Philadelphia on return trip. Tickets good on "Black Diamond Express" and all regular trains. For tickets and further particulars call on or address Robt. S. Lewis, Canadian Passenger Agent, 10 King Street East, Toronto. Direct and best route from Peterborough to New York and Philadelphia, Grand Trunk and Lehigh Valley

HAS REFUSED THE JOB

Mr. Wm Croft will not Accept the Proffered Position

On Saturday Mr. Wm. Croft, the veteran curler, called on The Times and said that he would, under no condition, accept the position of fishery overseer on the creek. He desires this great family journal to make the fact known to the world. When pressed for his reasons for refusing a good thing, Mr. Croft said that the waters had been completely fished out, and, after a pause, he added, "to provide food for the boarders of the Snowden House." This is a serious charge, and, had it been made during the election campaign, would doubtless have wiped Mr. Ross's little band in the Legislature completely out. But, with that generous and kindly nature peculiar to Mr. Croft, the facts were suppressed, greatly to the advantage of the Grits.

In the meantime this g.f.j. is requested to state that fishing permits will be issued as usual by Mr. Snowden, to all disciples of the late lamented Izaak Walton who may desire to fish in these waters, regardless of race, creed, color or nationality.

THE TOWN ASSESSORS.

A BIG ROW OVER THE RECENT APPOINTMENT

Council Asked to Appoint Mr. Thos. B. McGrath, and Dismiss Mr. John Kincaid

There is likely to be a big row at the meeting of the Town Council this evening, when an attempt will be made to dismiss Mr. John Kincaid, one of the newly appointed assessors, and appoint Mr. T. B. McGrath in his place. As our readers are aware, the Council decided to have two assessors this year, paying them a salary of $500 each, instead of four, as heretofore. Messrs. John Kincaid and Thos. McKee were given the position, and had practically entered upon their duties. The appointment seemed to be quite satisfactory to the ratepayers generally. It appears, however, that Mr. Hendrick, who is a Roman Catholic, and who was an applicant for the position, backed by the Church to which he belongs, has been able to bring influence to bear on the Council, with the result that he is to replace Mr. Kincaid. It is said that the matter is practically settled, the members of the Council having been given to understand that they must make the change. It is claimed by our Roman Catholic friends that they are entitled to what they ask, evidently forgetting that this is not a religious matter at all.

The matter has been worked very quietly, in order not to excite any sectarian feeling. It is hoped that it will pass through the Council without discussion, but this can hardly happen. It is possible, rather than raise any sectarian feeling in the community, that the Council may decide to go back to the old system of four assessors. The Town would suggest that one commissioner be appointed, at a salary of say $1,000. This would be, to our mind, infinetely better than two, as there would then be no divided responsibility. We would respectfully suggest the names of Mr. J. J. Hartley, and Mr. J. J. McBain, either of whom would perform the duties pertaining to the office without "fear, favor or affection," and in the interests of the whole community, regardless of race or creed.

THE STOMACH IN WINTER

Hearty Food Puts Extra Strain on This Important Organ

Winter is a little more than half over, and the results of its hearty food are shown in the variable appetite, nausea, heartburn, sallow skin, furred tongue, headache, backache and sleeplessness. The stomach has been overworked, the nervous system is unstrung, the blood is in bad condition, the digestive organs are tired out.

It is at this season of the year that Mi-o-na, the only remedy known that gives strength to the stomach and digestive organs, is of especial value.

Mi-o-na is not a hit-or-miss cure, but is an unusual combination of remedies that makes it infallible in restoring health to the stomach and digestive system. It overcomes any acid condition that may be present in the stomach and intestines, soothes and heals the irritated mucous membrane, has a stimulating effect on the solar-plexus, and combines peculiar properties that strengthen the nerves of the stomach, and puts the whole digestive system in so healthy, clean and sweet a state that fermentation of the food cannot exist, any disease germs in the stomach will be destroyed, and the digestive system will be so strengthened that it will extract from the food all the elements that make solid bone, firm muscle, and pure blood. It is a guaranteed cure for all diseases of the stomach, excepting cancer.

The guarantee on Mi-o-na is given by one of our best known Druggists, Wm. Madill, who agrees to refund the price, 50 cents, should Mi-o-na not give perfect satisfaction. Ask him to show you the guarantee he gives with every package.

I have disposed of lease of my store and am going out of the grocery business Big Bargains in groceries will be given as entire stock must be sold. —GEO. CARTON.

PLENTY OF WATER FOR ALL PURPOSES

(Continued from page 1.)

Mr. W. H. Meldrum, manager of Otonabee Power Co.: "We are well pleased with the way the water on the Otonabee has been handled. Although great drouth existed throughout the country, there was no lack of water in the river."

Mr. H. O. Fisk, of the Peterborough Light and Power Co., and electrician for the Cereal Co. and the Street Railway Co.: "The water in the river has been very satisfactory during last fall and this winter. We have had no trouble whatever in keeping our machinery going."

Mr. Adam Hall, president of the Cordage Co.: "We have had a good supply of water during the winter and last fall. Mr. McClellan's management of the flow of the Otonabee is most satisfactory. There is no scarcity of water, if it is properly conserved in the great natural reservoirs to the north, and this fact is now, for the first time, I believe, being splendidly demonstrated."

Mr. T. F. Matthews, chairman of the Water Commissioners: "The water in the river has been kept fairly even during the past few months. We have no complaints to make."

Mr. John Carnegie, Auburn Power Co.: "I have found the flow of water very even. We have had no trouble through lack of water at our power house."

When a superintendent for the canal was appointed by the government, many people were of opinion that the position was a sort of a sinecure—that there was little responsibility and little to do. This is a mistake. The position is a most important one, and has a great deal to do with the future of Peterborough and the entire district through

When a woman gives up it is because she has gone to the utmost limit of strength and endurance. It is a marvel how women will stagger on under the daily household burdens when the whole body is racked with pain.

For the nervous, run-down condition which so many women experience, as a result of overstrain in household cares, there is no medicine can equal Dr. Pierce's Golden Medical Discovery. It strengthens the weak stomach by curing diseases of the organs of digestion and nutrition. It purifies the blood of poisons which cause rheumatism and other painful diseases. It nourishes the nerves, and builds up the body with sound, healthy flesh.

There is no alcohol in "Golden Medical Discovery" and it is entirely free from opium, cocaine and all other narcotics.

Accept no substitute for the "Discovery." There is nothing "just as good" for weakness, nervousness and debility.

"I want the whole world to know what Dr. Pierce's medicines have done for me," writes Miss Helen Hardgrove, of Bangs-Knox Co., O. "I had many of the ills of woman's life. My lungs and throat troubled me besides, and I had rheumatism. About a year ago I had to give up work I was so bad. I had heard so much about your medicine I thought I would try it. I took four bottles of your 'Golden Medical Discovery' and 'Pellets,' and by the time I had taken half of the first bottle I began to gain, and kept on getting better. And now I have no more of my old ailments and am entirely cured of rheumatism. I feel like a new woman."

Dr. Pierce's Common Sense Medical Adviser is sent *free* on receipt of stamps to pay expense of customs and mailing *only*. Send 21 one-cent stamps for the book in paper covers, or 50 stamps for cloth binding. Address Dr. R. V. Pierce, Buffalo, N. Y.

gratulate the Honorable the Minister of Railways and Canals on the appointment of Mr. McClellan, which we said at the time, was a good one, and the truth of which is now distinctly apparent.

LITTLE LOCAL LINES

Dashes Here and There by Times Reporter on Their Round

—Board of Education will meet this evening.

—At St. Andrew's church this evening Rev. Mr. Eder of Cooke's church, Toronto, will address the young people.

—Mr. R. M. Denmistoun will give a lecture at a meeting of the Men's Guild of All Saints' church this evening. All the members of the church are invited.

—Lindsay Post; Cutting has stopped on the limits up north and the logs are being hauled to the dumps as speedily as possible. The weather conditions are most favorable.

—Three handsome churches will be built in Peterborough this summer—the new All Saints' edifice, the Park street Baptists' new structure and the Methodist church—and all in the rapidly growing south end of the town.

DUTTON'S MARKET,

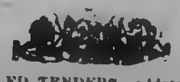
—Mr. James Regan, who is home from Atlin, B.C., on a prolonged visit, left on Saturday for New York city, where he will remain a couple of weeks.

—Mr. and Mrs. H. P. Kennedy, accompanied by their charming little son, Max, left on Saturday for Toronto, where they will remain until spring at the Queen's Hotel. Mr. Kennedy will spend three days a week in Peterborough until Mrs. Kennedy's return in April.

Route Boys Wanted

A couple of route boys wanted at The Times. We pay $1.00 per week per route, for an hour's work before school in the morning. Apply at The Times Bookstore.



SEALED TENDERS addressed to the undersigned, and endorsed, "Tender for Stable, Kingston, Ont.," will be received at this office until Friday, February 17, 1905, inclusively, for the construction of a stable for 'B" Battery at Kingston, Ont.

Plans and specification can be seen and forms of tender obtained at this Department and at the office of Arthur Ellis, Esq., Architect, Kingston, Ont.

Persons tendering are notified that tenders will not be considered unless made on the printed form supplied, and signed with their actual signatures.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the party tendering decline to enter into a contract when called upon to do so, or if he fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
FRED. GELINAS,
Secretary.

Department of Public Works,
Ottawa, January 21, 1905.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

VOL XXXIII NO 31 — PETERBOROUGH ONTARIO, TUESDAY FEBRUARY 7 1905 — PRICE TWO CENTS

AN APOLOGY TO BRITAIN

STRIKERS CALMED DOWN

Except in Poland, Where Trouble is Spreading ---Count Lamsdorff Repudiates the Anglophobic Placards of Moscow Officials.

St. Petersburg, Feb. 7.—There does not seem to be any appreciable change in the industrial situation, except in Poland. At Lodz, a few factories were enabled to partially resume work this morning through the return of some of the employes. The majority of the strikers there, however, are still out, and attempts are being made to prevent workmen from returning to their employment. Soldiers are guarding the factories, and they do not permit malcontents to enter. No disturbances are reported to have occurred. Advices from Kalisz say the strike situation there is serious. There are continuous conflicts between the military and the strikers. Twenty of the latter have been killed, and many strikers and others wounded.

At Batoum, in Caucasia, with the exception of one factory, which is partially working, all the factories and oil wells and many warehouses and shops are closed. The prices of foodstuffs have risen there. Patrols manage to maintain order among the crowds in the streets, but traffic is suspended. The Samtredi railway station and several miles of the railway have been wilfully damaged.

The workmen to the number of 4,000 in the car shops here have drawn up a manifesto declaiming the delegation that was put forward as representing them in the deputation when visited Emperor Nicholas at Tsarskoe Selso on Wednesday, Feb. 1. They assert these men were selected by the employers and were not representative of the workmen. The employes of one or two two other factories may follow suit; but the workmen in general are inclined to stand by the deputation.

BRITISH COMPLAINTS ANSWERED

Col. Napier, the British military attache, who was sent to Warsaw to investigate the alleged attacks by Russian Hussars on British Consul-General Murray and Mr. Muckukain, the Vice-Consul, has returned to St. Petersburg to report to the Embassy. The incident is regarded as closed. Mr. Murray having frankly declared that the attacks were only such as might happen to any person on the streets at such times.

Foreign Minister Lunsdorff in an official note to Sir Chas. Hardinge, the British Ambassador, has formally disavowed the action of Deputy Chief of Police Roudneff, of Moscow, in posting a placard asserting that the strikes were assisted with money from Japanese and British sources with the purpose of crippling the arsenals and other Government works.

PRESENT SITUATION IN CZAR'S DOMAINS

Russian Living in Montreal Gives Opinions Regarding Conditions

GENERAL TREND OF EVENTS

Thinks a New Chapter is Opening in the History of the Russian Nation

Montreal, February 6.—Mr. Charles Dubin, a former officer of the Russian navy, was seen by a reporter. Speaking of the present situation in the Czar's Dominions, Mr. Dubin said:

"All the recent despatches indicate now more clearly and forcibly than ever that the general trend of events there has, at last, forced its way to the opening of a new chapter in Russian history, and that the people are now on the eve of realisation of their long-cherished hopes of a more liberal form of government.

"When the present situation of the internal affairs in Russia are considered the wonder is how the beauocracy and all the excesses of absolutism could exist and be tolerated by the people of Russia even so long.

"A year ago this date all the diplomacy of the Imperial Government in Russia failed to avert the dreadful collision in the Far East with an Asiatic nation, which, before that collision occurred, was rated as a third class power.

"This disastrous war with Japan was the greatest blunder committed by the Czar's Government, and the first results of this great blunder were that the people of Russia began to realise at once all the weakness, incapacity, and corruption of their Government, or at least, of the officials directly responsible for this war.

"It is no longer a secret that all the horrors and butchery of this great conflict in the Far East were originated by a clique of some six men in Russia. Under the auspices of Grand Dukes, headed by the Czar's favorite, M. Bezobrazoff and Admiral Alexieff, this small clique obtained some valuable timber concessions in Northern Corea, and on the Yalu. But not being satisfied with that and trying to further their personal interests there, these men did not hesitate to intrigue among the Russian, Corean, and Japanese Governments, causing Russian troops to be sent to them for their assistance in an imaginary trouble.

"This intrigue for the sake of personal gain for the Czar's own representative in the Far East and of some other highest officials in the Empire started the trouble with Japan, which trouble soon led to the fiercest of battles of war between the two countries. The final outcome of this war is as yet uncertain, but the Russians have already lost so heavily that all their possible future gains in this war will hardly compensate them for one half of their losses sustained so far.

"And yet, men like Alexieff were put at the head of the Government in Russia, representing the Czar, and committing all the atrocities in his august name, including the robbery and waste of treasury and sacrificing of thousands of human lives. But there are many such men like Alexieff in Russia, who attain great power, but proving themselves incompetent, corrupt and intrigue-loving will soon drop out of favor and go down in disgrace."

QUEER ACCIDENT NEAR UTICA

A Locomotive Exploded and Wrecked Two Trains

Utica, N.Y., Feb. 7.—One of the strangest wrecks in the history of railroad in this section occurred at Whitesboro, three miles west of this city, at an early hour this morning.

Train 23, the western express, was drawn by an engine known as the Pacific type. As this engine was passing train 30, the Buffalo special, eastbound, the westbound engine exploded. The full force of the explosion was felt in the second car of the eastbound train, as the westbound engine was directly opposite that car when the explosion occurred.

TWO TRAINS WERE WRECKED.

Both trains were running at what may be called full speed, and from the effects of the explosion and the upheaval of the wrecked engine and the car which was opposite at that moment, the coaches were thrown from the tracks in both directions. Both trains were well filled with passengers, and the west-bound train is known as one of the best trains on the road for sleeping car passengers.

Royal Baking Powder

45 CENTS a pound can AT ALL GROCERS

25 cents a half pound can

Royal Baking Powder is made from pure grape cream of tartar, and is absolutely pure.

Royal Baking Powder assures wholesome food; it makes the best biscuits, cakes and all hot-breads; it protects the family from the danger of alum and other injurious substitutes.

NOW AT MADAGASCAR

Baltic Fleet is Anchored off the North West Coast

London, February 7.—Advices from Port Louis, Mauritius, are to the effect that the Russian Baltic fleet commanded by Admiral Rojestvensky, is anchored off the French Island of Nossibe, off the north-west coast of Madagascar.

ON VERGE OF MUTINY

Sailors of Baltic Fleet are Likely to Rebel

London, February 7.—According to the Odessa correspondent of the Daily Mail the crews of the Black Sea fleet are on the verge of a second mutiny, chiefly owing to thirty-eight of their comrades being sentenced to death as ringleaders in the previous outbreak. Numbers of revolutionary pamphlets have been found on the warships. Some of them were concealed in loaves of bread which had been supplied as rations. Revolutionary agents were never more active than they are in the South of Russia today.

TRIPLETS NINE TIMES

Parents Will Receive President Roosevelt's Congratulations

Washington, February 5.—President Roosevelt will be introduced next week to the father and mother of 27 children, and it is expected he will present them with an autograph photograph.

George W. Dunvile, the father, is but 43 years old, and his wife 38. They live at Yanton, South Dakota. They expect to arrive here on a visit next week, and the Senators and representatives will take them to the White House.

The 27 children are nine sets of triplets. Twenty-four of them are boys and three are girls. The children will not be here.

NEW ANGLO-GERMAN TREATY EXPECTED

All Classes of German Politicians Prepared for it

CHAMBERLAIN'S INFLUENCE

Germans are Convinced That Preference Will Win and Will Force Their Hand

London, February 7.—Berlin telegrams indicate that all shades of German politicians are convinced that it is necessary to conclude an Anglo-German commercial treaty in the near future, as a sequel to the new German treaties just concluded with most European countries, under which British manufactures are rigorously excluded from continental markets. They declare that the British imperial reciprocity movement is bound to succeed sooner or later and that Germany will then be forced to come to terms with her best customers, namely, England, Canada and the other Colonies. The existing Anglo-German treaty expires on December 31, 1905.

WARNED BY DESERTER

Pole Told Japanese Russians Were Going to Attack

London, February 7.—A despatch to the Telegraph from Tokio says that a Polish deserter reached the Japanese lines on January 23, and warned them of the impending attack by the Russians. It is asserted that owing to transport difficulties the Russian troops are getting only two pounds of black bread and a basin of soup daily.

NIHILISTS PLAN ACTION AT ONCE

Conclave in St. Petersburg Issues Flaming Manifesto to Chiefs

St. Petersburg, February 7.—I hear from an undoubted revolutionary source that a nihilistic conclave was held in the small hours of this morning. There was a fierce altercation over the expediency of immediate action, a stout minority contending that the brotherhood, equally with the strikers, was cowed in the failure of the response to annihilate. The nihilists resolved to call for action after midnight Sunday.

A flaming manifesto was drafted, and copies were conveyed to district chiefs for distribution among sworn chiefs are to meet to assign each trusted desperado a place, a victim, a bomb and a knife.

The same informant says he knows Father Gopon was arrested and is in a monastery, where the synod will deal with him.

The Czar is reported nervous and breaking down fast in silence and tears.

Not Satisfied With Verdict

Amherstburg, Ont., Feb. 7.—It is said that relatives of Russell Barrett, the young engineer who was found dead in Toronto, will insist on an investigation, despite the finding of the coroner's jury, that "Death was purely accidental." It is alleged that three persons, who accompanied him to the lodging house, where he was last seen alive, are missing.

WEATHER NOTES

RUSSIANS HOPE FOR VICTORY

Anxiety of Officials is Described as Somewhat Pathetic

A DEMOCRATIC AUTOCRAT

The British War Office is now Criticized for Issuing a Short Rifle

London, February 7.—Private letters from St. Petersburg picture the pathetic anxiety with which the Czar and those about him await day after day the news of that crowning victory in the Far East, which no military expert outside of Russia believes that Gen. Kuropatkin will ever send. Even one military success on the Hun River might divert popular attention from the terrible domestic wounds of Russia, and once more rally the Russian people whole-heartedly around the flag.

Authorities differ as to whether feeling that diversion, the Czar is really nerving himself to bow before the storm, becoming not of course a Citizen Romanoff, but a King John with a Magna Charta. Dr. Dillon, who often has proved the best informed of English correspondents in Russia, announces in the Daily Telegraph that the Czar actually has signed a ukase this week, entrusting M. Witte with a commission to initiate large and comprehensive reforms, including possibly even the coming of the representative assembly. If this indeed be true, Russia is on the eve of a final dethronement of Czardom or at least the conception of it preached by the man who formed Nicholas' mind, namely M. Pobiedonostseff. But the probability is that these large expectations are the unwitting exaggerations of mere minor administrative reforms and bribes to the work people in the shape of shorter hours, better wages, pensions and so, into which the Czar's ministers are believed to be dragooning the manufacturer.

In truth the Czar's idea is still believed to be what he calls a democratic autocracy, which in practice, means the denial of constitutional changes tempered by efforts at conciliation by surface reforms to be framed and executed by the bureaucracy itself. By such painful paths Russian reformers are being driven to apply to their own desperate case the reflection that over and over again in European history national defeat in war only has sufficed to secure constitutional liberties.

BOARD OF EDUCATION

Met in Regular Session Last Night and Transacted Business

The Board of Education met in regular session last night, when there were present:—Messrs. John Crane, J. J. Hartley, Wm. Pringle, W. H. Hill, Dr. Burnham, Jas. Stevenson, Robert Fair, W. G. Ferguson, chairman, L. M. Hays, Harry Morgan, Dr. Morrison, B. F. Ackerman, F. J. Jameson and R. B. Rogers.

The minutes of the previous meeting were read and confirmed.

COMMUNICATIONS.

A communication was received from John Lacheur, janitor of the South Central school, applying for an increase of salary.

FINANCE COMMITTEE REPORT.

Mr. Belcher submitted plans of new Collegiate Institute.

TENDERS ACCEPTED.

The tenders of the Chamberlain Brick for furnishing 6 cords of sand, beach and maple wood at $5 a cord was received. The tender of Darcy Dunlop to furnish 10 cords green cedar at $3.35 a cord was also received. Wood to be delivered where specified.

SOCIAL GATHERING

Reception in St. Andrew's Lecture Hall Last Night was a Very Successful Affair

The reception held last evening in St. Andrew's lecture hall was in every sense highly successful, about 150 being present. It was under the auspices of the social department of the Christain Endeavor. A committee undertook to introduce all strangers, accompanying them to the reception room, which has been recently fitted up, where light refreshments were served.

After an hour spent in pleasant intercourse, the programme was begun, Mr. Stewart Ferguson, President of the Society, occupied the chair, and opened with prayer, the Pastor reading the scripture lesson, after which, Miss Bella King sang in sweet voice "The Two Cities." Mr. J. C. Miller followed with a rousing selection on the cornet, accompanied by Mrs. Mowat at the piano. Mrs. Rebill then rendered an appropriate solo. Mr. Miller and Mrs. Rebill also gave selections at the close, which were highly appreciated. The Rev. Alex. Esler, of Cooke's church, Toronto, was then called upon, and gave a very powerful and inspiring address on The "Formation, Building Up, and Usefulness of a Good Character." Mr. Esler's address was listened to with great attention in his comparing the attainments of Christain character with the many objects that form the pursuit of many to-day, and urged upon all young people, the necessity of taking interest in the work of the church.

It was moved by Mr. W. C. Forman, seconded by Mr. F. E. Kerr that a vote of thanks be tendered the Rev. Mr. Esler for his able address.

AN IMPORTANT CONVENTION

Annual Meeting of the Fair's and Exhibitions Association

Matters vitally affecting the interests of the Agricultural Societies of the Province will be discussed at the annual convention of the Fairs' and Exhibitions' Association, which will be held in Toronto, February 14th and 16th. A great majority of the societies have appointed delegates to this convention in order that they may have an opportunity of expressing their views on the subjects under discussion.

The most important subjects which will come up for discussion are: "Should Horticultural Societies be separated in the Agricultural and Arts Act from Agricultural Societies?" "Should the number of Agricultural Societies be reduced?" "How many fall exhibitions should be allowed in each county?" "The best method of reducing the number of fall exhibitions." "Should the distinction between township and district societies be abolished and the societies receive their grants in proportion to the amounts they expend for agricultural purposes?" "Should the Government grant be withheld from societies that permit games of chance at their exhibitions?" "Should the Legislature be asked to vote a special appropriation to assist in stamping out games of chance at Agricultural exhibitions?"

Other subjects of a general nature which will be considered, include: "Ownership of Stock by Agricultural Societies." "Spring Stallion Shows." Supt. H. R. Cowan will present his report of fairs work in the Province during the year.

Owing to the importance of the subjects the convention this year will last three days instead of two as usual. Reduced rates have been secured over all the railways.

ATHLETIC WORLD

BY OUR SPORTING EDITOR

The Peterborough seniors won their first game of the semi-finals at Smith's Falls last night by 5 goals to 3. The half time score being 3—3.

* * * *

Too Old for Junior.

The inquiry into the age of Wilfrid McLean, of the Port Hope juniors, showed the sub-committee of the O. H.A., that he was not qualified to play in that series. The certificate from the Registrar-General's office made him a year older than the affidavit sent in by the Port Hope Club, and purporting to have been signed by his father. When this fact was pointed out to the Port Hope Club the lame reply came that there was an error, due to the fact that the lad's father signed the declaration in blank. At Saturday's meeting the game of January 17, in which he played for Port Hope against Belleville, was awarded to Belleville. This makes the group standing a tie between Cobourg and Belleville, and it was ordered that these teams play off to-night and Wednesday. The case of the Port Hope Club will be reported to the full Executive for an investigation as to what officers are responsible for the error. The fact that this ineligible player did not take part in the games against Cobourg, which is a nearby town, and might know more than Belleville, will have some bearing on the question of whether this was a case of error or an intentional case of cheating.

* * * *

Phillips' Team Won.

Winnipeg, Feb. 6.—Two senior hockey matches were played Saturday night. At Portage la Prairie the Winnipeg Rowing Club and Portage la Prairie played to a tie, midnight ending the game 4 to 4. At Hat Portage the Rats defeated the Winnipeg Victorias 12 to 4.

* * * *

Westmounts Beat Shamrocks.

Montreal, Feb. 6.—Westmounts and Shamrocks played the scheduled match in the C.A.H.L. championship series on the Arena ice Saturday night and the match resulted in favor of the Westmounts by a score of 8 to 3.

M'KEE AND M'GRATH APPOINTED ASSESSORS.

The Council Approved of the Appointment of an Assessment Commissioner, But Thought it Wise to Leave Such Action Over Till Another Year.

Evidently considerable public interest had been aroused in the appointment of assessors or an assessment commissioner for the town, for on entering the Council Chamber last night the press were astonished by the sight of a crowded house, a most unusual occurrence at the City Fathers' regular monthly meetings. An air of expectancy appeared to pervade the audience, who evidently looked for more or less warm discussion on the recommendation of the Committee of the Whole that Messrs. McKee and McGrath be the assessors for this year. As a matter of fact, the Aldermen in session stood by their action as a committee, the only issue raised being whether it would not be advisable to commence assessing under the new act by means of an assessment commissioner, a system which has been productive of the most satisfactory results wherever adopted, in insuring to the ratepayers a more equable assessment than heretofore found possible where two or more assessors have done the work. While the Council as a whole admitted the indisputable benefits to be derived from the appointment of a commissioner, the majority apparently hesitated to take that step this year for fear that one man might not thoroughly master all the details of the amended Assessment Act, and thus commit blunders which would entail serious cause for complaints on the ratepayers' part. The result of a lengthy consideration of this question was that Messrs. Thos McKee and T. B. McGrath secured the appointments as assessors at a salary of $500 each, and they will have four months in which to master the new act before commencing their work of assessing.

THE REPORT.

The following report, of which clause two deals with the question of assessors, was submitted by Ald. Hicks:—

Gentlemen.—Your Committee of the Whole Council beg leave to report and recommend as follows;—

1. That two assessors be appointed to do the assessing of the town this year.

2. That Thomas McKee and T. B. McGrath be appointed assessors at a salary of $500 each and that their duties commence immediately after the passing of the by-law appointing them.

3. That the charge for the past year to the granolithic walks for engineering be three per cent. and to the sewers five per cent.

4. That 25 per cent. of the cost of the concrete mixer be charged to granolithic sidewalks constructed in 1904.—Carried.

5.—That the Chairman of the Board of Works and the Mayor be authorized to have the concrete mixer fitted up for the season's work.

All of which is respectfully submitted.

This report was adopted as read.

THE BY-LAW.

Subsequently, a by-law to confirm the appointment of Messrs. McKee and McGrath was fathered by Ald. Hicks and its second reading was the signal for discussion.

Ald. Johnston took exception to the appointment on the ground that with the inexperience of the new act, Peterborough should make a parallel stride in the way of progress and reform by appointing an assessment commissioner, who he argued could give more time to the work, better judgment and a more equalisation of the value of property than attainable from two or more assessors. He thought that a commissioner with an assistant would prove satisfactory, after which an assistant might be dispensed with. Under the old system the work was done by contract, by men following other avocations, and it was naturally a secondary consideration with them. Peterborough boasts of being a city in point of importance, than why not follow the example set by sister cities. And if we want to get good work done we must pay good prices for it. He believed the Court of Revision's work would be considerably lightened by the appointment of a commissioner, who would attend to all cases of appeal.

Ald. Crowe was heartily in sympathy with Ald. Johnston's views. He added that citizens for a number of years past have found fault with the manner in which the work has been done, and he thought that now the new act is in force, Peterborough should amend her system of assessing by appointing a commissioner. But he could not see the wisdom of having two assessors. We might as well have four. A number of heavy ratepayers had assured him they were anxious for a change on the lines advocated by him and Ald. Johnston. Such a change would benefit workingmen, who could have any adjustments made by a commissioner instead of having to appear before a court of revision.

Ald. Begley thought the appointment of a commissioner a serious question, on which he had not received sufficient enlightment to take a firm stand one way or the other. It would be a serious matter were blunders made in the assessment. He argued that if but two assessors were appointed now for this year, Peterborough would gain a real point toward a commissioner next year.

Ald. Hicks could not see the difference between appointing a commissioner and an assistant, and two assessors. He certainly held that with the new act coming into force it would be better to trust our assessment in the hands of two of the four experienced men named than to one inexperienced commissioner.

Ald Adams agreed with Ald. Hicks. He said the committee had been actuated by no other motive than those in the best interests of the town in agreeing on their report. They felt the work would be too much for one man this year, in view of the fact that the act has been radically changed. Two assessors could work satisfactorily together, and two heads are better than one. Heretofore, there has existed a feeling that when assessors were sent out in pairs the assessment of the different wards had not been on an equal basis. Two men assessing the whole town would bring the same experience and judgment to bear in all wards alike, with more satisfactory results on the whole. This was the strongest reason for the appointmen tof two men. The committee are satisfied that they have taken the right step now and that the town will be satisfied after the work is done.

His Worship—"The appointments were made in committee by ballot, and perfectly independent of any considerations but those in the best interests of the town. There had undoubtedly been good cause for complaint in the method of assessing in the past. For instance, No. One Ward has paid every dollar of bonuses to the new industries through increased taxation."

The clause appointing the assessors above named, then carried.

Later on during the second reading, Ald. Adams moved, seconded by Ald. Hall, that the assessors prepare plans for their guidance, showing each lot and subdivision.

This was put in the shape of an amendment, and gave rise to considerable discussion.

Ald. Adams urged that such action would be the first work of a commissioner.

Ald. Johnston—"You don't think the assessors are going to study up the new act, prepare plans and do the assessing for the paltry sum of $500 each?"

Ald. Adams—"The plans would not be expensive ones, simply rough drafts and I am satisfied to pay any additional cost connected therewith."

Ald. Johnston—"My idea of a plan, would be a carefully prepared one for future as well as for present use."

Ald. Mason agreed with Ald. Adams' motion, although he thought the town should furnish these plans, which might possibly be secured at a low figure from the insurance companies.

Ald. Adams replied that he referred to rough plans on cardboard, such as are used by the Town Engineer.

His Worship remarked that one of the objects in appointing two assessors at $500 each instead of four at $400 each, was to make it worth their while to study the new act. He did not, however, approve of the plans suggested.

Ald. Begley—"If such plans would enable the assessors to do their work properly, they would be worthy their money to save the howl that has arisen past years over the assessing."

Ald. Hall here remarked that two lots of his in the south end had been skipped for three years. They got lost entirely, and he had to pay the expense of hunting them up, to say nothing of the fines for arrearage.

Ald. Tovey did not think it fair to bring this question of plans on the assessors at this juncture. It had not been advocated in committee, and he thought the Council should act on the square in the matter. The assessors have no need of plans so long as they give measurements of a lot both ways as heretofore.

Ald. Adams—"I beg of the gentleman who last spoke to withdraw his remarks as to doing things on the square. The Council were actuated only by a desire to act in the best interests of all concerned." He knew of plenty of lots which had been missed by the assessors, and should the preparations of plans entail expenditure on the assessors, he would be first to remunerate them.

Ald. Tovey—"I have nothing to withdraw. That question of plans is outside the idea in view when this by-law was prepared."

Ald. Crowe agreed with Ald Adams' suggestion. The motion, however, ought to read, "To have plans prepared." The Engineer is not here for his health; let him prepare the plans. Ald. Crowe did not think it necessary to go to college to study the new act; there are but half a dozen pages referring to the amendment.

His Worship here moved in amendment, seconded by Ald. Tovey, that the clause under discussion be carried without being amendment.

This was lost on a vote of five for, and seven against. Ald. Adam's motion that the assessors prepare plans was then carried.

The assessors will commence assessing the town on the first of July, and their work is to be completed by Oct. 1st.

The by-law was fathered by Ald. Hicks, seconded by Ald. Mason.

Continued in to-morrow's issue.

Cup Holders Won.

Ottawa, Feb. 6.—By a score of 14 to 4, Ottawa easily defeated the Montagnards of Montreal in a championship hockey match on Saturday night. The Montagnards did some very nice stick handling and pretty skating, but at no time were they entitled to be classed as Stanley Cup players. They were rather timid at first, but wakened up afterwards, and did fairly good work. At the first half, the score stood 4 to 0, but in the second, the visitors made four successful trips on the net, and the game ended 14 to 4.

Weary Shop Girls Pale, Tired Women

You Feel "Draggy," Lifeless, Nervous, Never Rested

FERROZONE

Will Make You Feel Like New - It Vitalizes, Tones and Strengthens

The best medicine for restoring virility and strength is Ferrozone.

The time to take Ferrozone is when you first feel tired, and when appetite fails, when nerves get irritated.

Its record is marvelous—it makes you feel strong and sturdy, brings health that outlasts old age. Mrs. Mary McLong, of Harbor Bouche, Nova Scotia, writes:

"Ferrozone built me up.

"Before using it I scarcely knew what good health meant.

"I was just as miserable and weak as any woman could be.

"Tired from morning till night, bothered by trifles, unceasingly nervous.

"The first box of Ferrozone improved my blood, gave me appetite. In a short time I was like a new person. Now I rejoice in abundant good health."

Get Ferrozone. It will make an unexpected improvement in your looks, your feeling, your health. 50c. per box, or six for $2.50. By mail from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $4 per year, strictly in advance.

CHURCHES AND THEATERS

Every little while some preacher deplores what he believes to be the fact that the theaters are more successful in securing audiences than the church.

Is it true? It may be doubted if in any given city more persons attend the theater than go to the churches. And all things considered it may be said that the churches succeed better than the theaters.

The theater has these advantages: It changes its actors and its performances frequently. It is always presenting something new. The church has the same message and the same men in the pulpit from Sunday to Sunday. And yet the churches are filled.

In another important feature the theater has the advantage. It advertises thoroughly and successfully. A large percentage of its earnings go into modern advertising. Seldom does the church spend a dollar for advertising; or if it does spend a little money it is injudiciously spent.

And yet the church draws.

There must be a reason. There is a reason. The church ministers to a great human need. It appeals to what is highest and best in life. A great vacum requires to be filled. A great longing clamors to be satisfied. Men and women realize that they are three-fold beings and that to cultivate body and mind alone is only two-thirds of culture. The man whose spiritual life is atrophied may not feel this, but the normal man does. This is the church's opportunity and the reason for its existence.

The church makes a mistake when it fails to advertise. It has the best thing in the world. The demand is already created. There can be no substitution. It has a monopoly. Therefore it should advertise.

The church also makes a mistake when it permits its ministers to whine about church attendance and call attention to the success of the theater and other "worldly" entertainments. You never catch a theater manager deploring a small house. He never whines in public. He talks big houses. And works for them. And gets them.

The church is doing very well. Indeed when one considers its methods it does surprisingly well.

Not Satisfied With Verdict

Amherstburg, Ont., Feb. 7.—It is said that relatives of Russell Barrett, the young engineer who was found dead in Toronto, will insist on an investigation, despite the finding of the coroner's jury, that "Death was purely accidental." It is alleged that three persons, who accompanied him to the lodging house, where he was last seen alive, are missing.

THE COUNTY COUNCIL

COUNTY FATHERS FINISHED THEIR WORK SATURDAY MORNING

Finance Committee's Report Adopted—The Various Finances in the Report—Children's Aid Society and Horticultural Society Remembered.

The County Council went into session on Saturday morning shortly after 10 o'clock, with Warden Buck in the chair, and all the members present. The minutes of the last meeting were read and confirmed.

PETITIONS.

Mr. Shaw presented the report of the Committee on Petitions, which recommended as follows:

1.—Your Committee recommends that a petition be forwarded to the Dominion Government requesting the amendment of all charters granted to Telephone Companies so as to declare that the poles, etc., of such companies shall not be hereafter erected on the streets of a municipality without the consent of the Council thereof.

2.—Your Committee recommends that a petition be forwarded to the Dominion Government to take over the control of the Long Distance Telephone systems in the Dominion.

3.—Your Committee endorses the suggestion of the Council of the County of York in favor of securing legislation placing authority to regulate and govern the speed of motor vehicles on highways in the hands of Municipal Councils, and that the members of the Legislature from the County be requested to assist in securing such legislation.

The report was adopted.

FINANCE.

Mr. Johnston presented the report of the Finance Committee, which recommended as follows:

That a grant of $200 be given to the Children's Aid Society.

That the application of the Peterborough Agricultural Society for a grant be laid over until the June session of the Council.

That the Treasurer be required to forthwith collect all moneys due to the County from any source.

That the Warden and Chairman of this Committee be empowered to grant such assistance as they consider reasonable towards the expense of maintaining at the Muskoka Consumptive Sanitorium any person or persons resident in the County who are unable to themselves bear the full expense.

That the application of Mr. Flood for an additional grant of $12.00 be referred to the Joint Committee.

That 100 notices be procured and furnished the caretaker of the Chemong Bridge, offering a reward of $10.00 to persons furnishing evidence securing the conviction of persons doing any injury to the bridge, scattering sand or gravel thereon, or breaking into the tool house or tool chests of the County.

That the claim of Mr. John K. Galvin for damages by loss of cattle on Pigeon Creek Bridge be referred to the Joint Committee for consideration.

That no action be taken upon the application of Mr. George Cochrane for an increase of salary.

That Constables be requested to see that the provisions of the bylaw licensing, regulating and governing hawkers and peddlars and other bylaws of the County be complied with.

That the Clerk procure and supply each Constable with a pair of handcuffs.

That the Clerk be instructed to have 100 copies of the Powers of Constables printed and furnished to them, and to the County Councillors.

That bylaw No. 781, as amended by bylaw No. 844, be further amended by reducing the license fee for persons carrying baskets, hawking and peddling on foot or with a push cart from $25 to $10.00 and that a bylaw be passed to give effect to this amendment.

That T. W. Gall, Wm. Spencer, H. Y. Cross and Andrew Chatten be granted one horse peddlar's licenses free for the year 1905.

That 12 copies of the Municipal World for 1905 be procured for the members of the Council, the Clerk and the Solicitor.

That the usual grant of $75.00 be given to the Peterborough Horticultural Society for 1905.

A bylaw was passed confirming the above.

The report was adopted.

OTHER BUSINESS.

Mr. Webster introduced a bylaw authorizing the head and treasurer of the Council to borrow $20,000 to meet current expenses. The bylaw was passed.

On motion of Mr. Shaw, seconded by Mr. Andrews, Messrs. John Davidson, of Norwood, S. W. E. Hill, of Lakefield, and D. Walker and the County Inspector were appointed a County Board of Examiners to examine teachers and give certificates in accordance with the statutes on that behalf.

Mr. John Monogue made a request, on behalf of Burleigh Township, for a grant of $25 towards building a bridge from Burleigh bridge to Burleigh wharf. A motion in accordance with the request carried.

A bylaw was passed fixing regulations with regard to peddlars throughout the County.

The Council adjourned.

OUT OF HOCKEY LEAGUE

Manager Swiggin not Popular in Professional Hockey Circuit at Home or Abroad

Calumet, Mich., Feb. 4.—Notwithstanding this week's defeats at the Soo, the pennant for the first season of the International Hockey League will come to the Calumet Club. The local team has distanced all competitors, having shown superior play in all except four contests. While not so heavy as some of the teams, the Calumet line-up is faster and has developed some wonderful combination work.

It is generally understood that there will be a change in the make-up of the league next season. Chicago will undoubtedly have a team if the sporting men of that city construct a large covered ice rink. Pittsburg will not be in the league next season unless there is a change in the management of the Duquesne Gardens of that city. Manager McSwiggan is neither popular at home or in the remainder of the circuit, and as a result the Pittsburg Club has been a poor drawing card in the Michigan towns and at home. Pittsburg was a great hockey city two years ago, but the sport declined owing to the unpopularity of the management. The three Michigan clubs will be in the league next year, and it is expected that great efforts will be made to secure teams in Montreal or Ottawa.

There have been a number of new men signed the last few days by the clubs that stand toward the bottom of the list. Didier Pitre, who played with the Nationals of Montreal, has been signed by the American "Soo" and has greatly strengthened the team. He played coverpoint with the Nationals, but is acting as rover with the "Soos."

Considerable difficulty has been experienced by the league magnates in securing efficient referees. Efforts were made to get "Chaucer" Elliott of Kingston, Ont., but he refused to come. Bob Meldrum refused all overtures. For the two games between Calumet and Portage Lake, Dr. Lionel King of Caro, Mich., was secured. He was captain of the Queen's College team of Kingston, Ont., a few years ago, and was at that time one of the fastest forwards in the game. He gave satisfaction in the local games, which were witnessed by the greatest crowds—4,300 and 4,000 each—of the season. Excursion rates prevailed on all railways and visitors came from all parts of Michigan and as far away as Milwaukee and Chicago.

From present indications Calumet will go through the season without a change in the line-up. Negotiations were on for several men, but all failed. Marshall, the crack wings of the Montreal Wanderers, was offered a fine salary, but refused at the last minute. Phillips, a clever player who was with the famous Rat Portage Club last winter, would not come. Johnson could not be secured, and will remain in Winnipeg. Blatchford of the Montreal Wanderers and Cowell of Kingston, refused all offers. A. B. Hannah, a fast Monckton, B.C. hockeyist, also refused to come.

SNUBBED BY JEFFRIES

Has Still His Uncle to Proud Of Him as a Boy—He Can Fight

Jim Jeffries has snubbed his great uncle, or rather his father's uncle, a retired preacher named S. P. Breadoon, who at this age of 80 is still spry and vigorous. The old gentleman called at Jeffries' hotel in Lincoln, Neb., the other day, and after sending up his card he waited patiently downstairs for more than an hour. Then the wrath of the great uncle knew no bounds, for he burst forth in comment of this nature.

"The big bruiser evidently thinks I am some cheap relative who wants to sponge on him for theatre tickets. I wouldn't go to his show if he paid me for it, and I wanted to see him on his father's account. This prize fighting is dirty business, and I had no right to expect better treatment from him. But there is no doubt that he can fight! He must have inherited it from his grandmother, my own sister, for she was a woman of unusual physique, and as strong and muscular as any man I ever saw, but I guess the family has degenerated. Still, Jeff can fight!"

And the great-uncle swelled up with evident pride as he hurried from the hotel.

The Canadian Northwest

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

2) If the father (or mother, if the father is deceased), or any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

3) If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same town, township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses 2, 3 or 4 must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 3rd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Land Agents in Manitoba or the Northwest Territories.

W. W. CORY, Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

SEALS, PRICE MARKERS

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

—INCORPORATED—

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and, we believe, exceedingly profitable investment. Every dollar of stock is guaranteed by twenty year, full paid, gold bond, delivered to purchaser of stock, from an Investment Company that has no interest whatever in the company, but who are depositing of the debentured bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the State Treasurer under which they received their charter, there by doubly securing the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvellously rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Simmer and Jack Mining Co., Limited, Klondyke, South Africa:—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world.

"With the present development of the Monument Mine, I estimate that 100 tons per day can be delivered, which will cost from $15.00 to $20.00 per ton. The total cost of mining the ore, delivering and milling, I place at about $4.00 per ton. With increased milling capacity, it is safe to say that the mine can furnish 100 tons of $15.00 ore, which would yield a clear profit of $11.00 per ton, or $1,100.00 per day (equal to $400,000.00 per annum). Estimated total value of ore in sight, $2,500,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Dr. Brown writes as follows:—

"In regards to the amount of ore available at the mines at Sinclair, I saw on the dumps several thousand tons, probably 5000 tons would be an under-estimate.

"As to the size of the ore body itself, from what I saw of the geological structure, I think that there is every indication that it will be found to extend underground as far as the out-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish full information to investors.

STRICTURE AND KIDNEY DISEASE CURED.

G. B. WRIGHT.

"I had stricture for eleven years. It finally brought on Bright's Disease of the Kidneys. I had an uncomfortable shooting pain in the groin and feeling as though something was in the urethra. My back was weak and I could scarcely stoop over. Urine was full of sediment. Had a desire to urinate frequently. Family doctors, so-called specialists, patent medicines, electric belts, all failed. I was discouraged. I had spent hundreds of dollars in vain. Finally I consulted Drs. Kennedy & Kergan as the last resort. I had heard a great deal about them and concluded from the fact that they had been established over 25 years that they understood their business. I am delighted with the results. In one week I felt better and in a few weeks was entirely cured. Have gained sixteen pounds in weight."
G. B. WRIGHT, Lansing.

DRS. KENNEDY & KERGAN
Cor. Michigan Ave. and Shelby St., Detroit, Mich.

A SPLENDID PROPOSITION

The Salido Gold and Copper Company

Incorporated under the laws of Arizona, with a capital of $3,0c 000 forever on-assessable divided into shares of $1 each, par value. All investments insured Granite Securities Company.

The "SALIDO GOLD-COPPER COMPANY" enterprise offers attractions to the investors of the country, that without thorough investigation, would scarcely seem probable. If only a fraction is realized of what any prudent business man in his own affairs would regard as absolutely certain, the enterprise must prove abundantly successful and exceedingly profitable.

SALE OF STOCK

The company will prosecute the work of development with all the diligence that be cash in the treasury will permit and circumstances warrant, and to this end a small amount of the treasury stock is now placed upon the market, in blocks of not ess than One Hundred Shares. The par value of the stock is One Dollar per share, fully paid and forever non-assessable.

The company reserves the right to advance the price of stock without notice,

REMEMBER

First—That all payments for treasury stock go into the treasury for development work and not into the pockets of the promoters.

Second—There are no salaried officers.

Third—The incorporators have put their own good money into this enterpr se and being business men, intend to do business along business lines.

Fourth—That this company is honest.

Fifth—If you are thinking of investing in mining stocks this is worthy of your careful investigation.

OTHER PROPERTIES

This Company owns four other Gold and Copper Mines, wh ch title is now in process in the laws of Mexico. As soon as title is perfected, we shall commence to develop them as we certainly expect something very great from these properties. Our assays taken have been of the very best, showing gold and copper from $6.00 to $122. 30 per ton.

I have secured a small block of this stock, which I offer at the following prices: Unguaranteed 40 cents per share, guaranteed 80 cents per share. These prices will only prevail for a short time, as the number of shares for sale at this price is limited. The Shares will then be advanced to 40 cents for the unguaranteed and 80 cents for the guaranteed. I can unhesitatingly recommend this investment to the Canadian public.

DOUBLE TRACKING OF GRAND TRUNK

Small Portion in Western Ontario Remains to be Carried out

SURVEYS FOR THE G. T. P.

Mr. F. W. Morse States That There are no Further Developments in This Regard

Montreal, January 6.—The G. T. R. is now figuring on the double tracking of that portion of its system in Western Ontario, lying between Kingscourt Junction and Komoka, which, with the exception of some short stretches where the engineering problems have not yet been figured out, is the only part of the system between Chicago and Montreal that has not already been double tracked.

Work upon that part of the line mentioned will be commenced early in the coming spring. It is only a distance of some twenty miles and no difficulties are anticipated in carrying the undertaking to a successful completion within a very limited space of time.

Upon this work of double tracking, which, when completed, will stretch for a distance of some 840 miles, the G. T. R. company has already spent several millions of dollars, having now under its control the longest double tracked system in the world directed by one management.

The completion of this undertaking closes an interesting chapter in the history of rehabilitation of the G. T. R., which commenced with the accession of Mr. Charles M. Hays to the general managership some eight years ago, and has continued with very little cessation up to the present time.

THE PORTLAND ROUTE.

In this connection it may be mentioned that, notwithstanding rumors to the contrary, there is very little likelihood of the G. T. R. double tracking its line between St. Johns, Que., and Portland. It is pointed out by those at the head office that are in a position to know that the Portland route is of very little service from a freight standpoint during the summer months, as all the commercial business picked up in Canada is shipped via steamers from Montreal and Quebec.

There are no further developments in the surveys for the Grand Trunk Pacific. This announcement is made on the authority of Mr. Frank W. Morse, the general manager of the system. Alluding to the report from Vancouver that four new gangs had been in the field for a year; he said that the conditions with reference to the surveys had not changed, and that there was nothing new to add.

NUMBER OF PASSES.

It is apparent to all at the head office that there must be a number of passes through the Rocky Mountains north of the existing transcontinental line, but whether these are capable of use for railway purposes is a question that Mr. Morse, provided he has the information, is not at present at liberty to make known.

The most recent report from Vancouver, however, says that there will be a number of routes through the Rocky Mountains from which to choose. The gradients on the eastern sides of the passes, to which allusion has been made, are said to be easy, and by no means so difficult on the western side as to induce disappointment. Some of the country never before visited by white men is spoken of as promising. The final route to be selected will depend, it is alleged, on the report of the engineers mentioned. But these are assertions that Mr. Morse would not confirm.

ARTILLERY FIGHT IS NOW ON

Result a Dead Buried After Battle of Heikoutai

Russian Headquarters, Huan Mountain, Manchuria, Feb. 5.—Delayed in transmission.—The artillery engagement has been resumed on the Russian right.

ALSO ON THURSDAY.

Tokio, Feb. 5.—Manchurian Headquarters telegraphing under date of Feb. 3, says;

"On Thursday, Feb. 2, the enemy's artillery bombarded from several points on our right wing. Otherwise the situation is unchanged. In the direction of our centre at 12.30 Friday morning, Feb. 3, one company of the enemy's infantry attacked our outposts from the Mukden road, and later another section was attacked in the neighborhood of Wanchiayuantsu. Both attacks were repulsed.

"In the direction of our left the enemy has been attacking in the neighborhood of Lialiaku since the morning of Feb. 2. Their force, which consisted of the first and the fifth rifle brigades, were driven back towards Changtan. The enemy's losses are estimated at 700. We witnessed the removal of over three hundred dead.

"The Russian dead already interred after the battle of Heikoutai, in the neighborhood of Sumapao alone number 900."

St. Petersburg, Feb. 4. — Thomas Smith, United States Vice Consul at Moscow, has gone to Medved to investigate the condition of the Japanese prisoner there at the request of the Japanese Government. Newspaper accounts from Medved report that the prisoners are living in a sort of heaven.

Those for Whom the

MUSKOKA FREE HOSPITAL FOR CONSUMPTIVES

Is Built

Not a single patient has ever been refused admission to the Muskoka Free Hospital for Consumptives because of his or her poverty.

Since the Hospital was opened in April, 1902, nearly 400 patients have been cared for.

Would Have to be Sent Free.

H. J. Pettypiece, M.P.P., Forest, Ont.: "There is a young lad in town, named Kenneth Levitt, aged seven years, showing the very first signs of consumption, and Dr. McCordle, who is attending him, recommends that he be sent to the Sanatorium. He would have to be sent to the Free Hospital, as his mother says she could not pay more than $1 per week. They asked me to write to you. Do you think he can be admitted?"

No Means to Pay.

L. H. Cascadden, M.D., Douglas, Ont.: "I have a patient in whom pulmonary tuberculosis is just developing, and who has no means of her own to pay for treatment, or at any rate only a small fee in a hospital. I think the treatment at the Sanatorium would help her, and as she has no home I have advised her to seek admission in your institution. Will you kindly send me conditions governing admission?"

A Widow With Small Means.

Mrs. Readwin, Hamilton, Ont.: "I am a widow with one little girl, aged 11 years; my age is 30 years. I am troubled with tuberculosis. I have been doctoring for some time, and my physician has advised me to go to Muskoka. I am not left with very much means, so will you kindly let me know the full particulars, and what is the lowest fees you would charge me a week."

Family Supported by Church and Neighbors.

S. J. Ewing, Alliston, Ont.: "While in Gravenhurst the other day I called at the Hospital re a young man named Arthur Armstrong, of this town who was sick with pneumonia about ten or eleven months ago. Since then he has not been able to work. The family are supported by the church and neighbors. What can you do to admit him?"

No greater work of faith has been undertaken in any country. For its support the Hospital is dependent on the generosity of the people of this Dominion.

Contributions, large or small, will help, and may be sent to SIR WM. R. MEREDITH, Kt., 4 Lamport Ave., Toronto, or W. J. GAGE, Esq., 84 Front St.

Rare Chance to Secure a Paying Investment

THE GOLD COIN MINING COMPANY

has placed a small block of their stock at the disposal of Canadian investors. This stock is sure to rapidly advance in price. The Company is now arranging to instal the power plant and a mill and cyanide plant for the reduction of their ore to a bullion on the property. They have arranged with a Trust Company having assets of $1,500,000 to put up a bond guaranteeing investors the repayment of the full amount invested. This makes investors absolutely safe By no possibility can they lose a dollar

THE GOLD COIN MINING COMPANY was organized November 21, 1902. under the laws of the State of Idaho The capitalization is one million shares of the par value of one dollar each, fully paid and non assessable; of the 1,000,000 shares. 400,000 have been set aside as treasury stock

THE BOISE BASIN came into prominence shortly after Grimes and his party of prospectors entered the Basin country in 1862; their entrance was into the northern portion and one discovery of rich placer ground followed another until the news of the rich finds reached the outside world, when a veritable stampede for Boise Basin commenced, towns sprang up and grew together in an incredibly short time; the rush of people to Idaho City made it a place of 20,000 people in 1867, having a business street over a mile long lined with two-story buildings streets and sidewalks filled with people day and night business and money on every hand and the city bearing the proud distinction of being the capital of the territory of Idaho. Wages ran from $6 to $10 a day and not infrequently forty and fifty men worked on a single placer claim; the clean-up for a day's work in many instances ran close to $5,000; large fortunes were made in a few days by washing the golden sands in a pan; so eager was the quest for the shining metal that the streets of Idaho City were dug up and washed and re-washed, and the soil removed from under the houses and places of business So extensive was the search for the hidden treasure that not only all of the low ground was worked but the foot of the mountains surrounding the city have been washed away, filling up the lower portions of the basin and extending into the town, where one of the buildings has been buried under the tailings from the numerous placer workings

LOCATION—The property of the Gold Coin Mining Company is situated in the Gambrinus Mining District, Boise County, Idaho, on the range of mountains between Moore Creek and Elk Creek, which forms a part of the eastern boundary of the famous Boise Basin and into which these mountains are drained The property is located ten miles northeast of Idaho City, from which place there are good wagon roads either to the workings on top of the mountain or to the place of the proposed tunnels in the gulch which crosses the Tunnelsite claim.

THE CLAIMS—The Company owns a group of four contiguous lode mining claims and the Gold Coin Millsite: the names of the lode claims are the Tunnelsite, Blue Bell, Pennsylvania and Homestake, each being a full claim 600 feet wide by 1,500 feet long, excepting the Tunnelsite claim. which is 450 feet wide at the west end and 1,055 feet long: it was necessary to stake the claim in this form on account of joining the Washington property on the south and the Sab Rosa property on the west, these properties being prior locations to the Tunnelsite claim. The four lode claims aggregate nearly 80 acres of rich mineral land.

Further part culars may be had on application to WM. SAILSBURY, Fiscal Agent of the Company Peterborough, Ont., or to

S. E. PHELPS, Secretary,
311 SCHOFIELD BUILDING, CLEVELAND, OHIO.

Advertising in The Times will bring Results

Deadly "La Grippe"

Or Epidemic Influenza is Caused by an Air Germ. The Most Scientific Remedy is Catarrhozone.

Two years ago, the medical journals commented widely on the marvellous success of Catarrhozone, which assisted very largely in stamping out the epidemic raging at that time. Cases that had resisted all other treatment were at once relieved and through the great healing powers of Catarrhozone further progress of the malady was arrested.

It is doubtful whether in the whole range of medicine a more lasting cure can be found. If a patient has any warning of the approach of La Grippe he has only to inhale the germ killing vapor of Catarrhozone a few times daily and escape entirely.

Even as a preventive of colds and catarrh it is a wise precaution to always carry a Catarrhozone Inhaler in your pocket. At the first shiver or sneeze you can ward off an impending attack by merely inhaling a few breaths of Catarrhozone Fatal consequences can often be averted in this way. The inhaler is beautifully finished and made entirely of hard rubber. It can be conveniently carried in the vest pocket ready for use in church, at work, in the theatre, street car, anywhere, at any time. The complete Catarrhozone outfit contains a large bottle of inhalant, sufficient to keep recharging the inhaler for two months. It costs $1.00 and is guaranteed to cure. Sold by all druggists or sent direct to your home by mail if the price is forwarded to N. C. Polson & Co., Kingston, Ont., or Hartford, Conn. U.S.A.

TOWN AND COUNTY NEWS

DASHES HERE AND THERE BY TIMES' REPORTERS

Girl Wanted

A girl with some experience wanted at The Times bindery, to feed ruling machine. Apply at Times Book store.

Westward, Ho!

Mr. J. D. Flavelle and his sturdy knights of the broom and stones, have left Lindsay to participate in the Winnipeg Bonspiel. Lindsay gave them a rousing send-off.

Remember St. Valentine

The Times Bookstore has the most complete line of Valentines in town, suitable for lovers, boys, girls or mothers-in-law. All prices.

Addition to our Staff

Mr. C. H Clementi, well known to many of our readers, has accepted a position on The Times staff. "Cope" will be glad to call on persons interested in news, advertising or subscribing.

Police Court

At the police court yesterday morning Harold Phampelon, who was remanded on Friday on a charge of obtaining money under false pretences, was allowed to go. He has several more serious charges against him in Lindsay, where he will be taken to stand trial.

Death of Mr. Archie Mitchell

Yesterday a former resident of Peterborough, Mr. Archie Mitchell, died at his home in Fergus, Ont. Mr. Mitchell was formerly with Sutcliffe & Son, and late on the staff of Richard Hall & Son. Funeral takes place at Fergus on Wednesday at 2.30.

Mr. Boddy's Successor.

Mr. William McIlroy, C.P.R. town ticket agent at Galt, will succeed Mr. T. E. Boddy as C.P.R. ticket and telegraph agent here. Mr. Boddy's resignation takes effect on March 1st. Mr. McIlroy, his successor, is a very popular young man, and has been agent at Galt for several years. He is a St. Thomas boy and has won promotion solely on his merit and efficiency.

larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 80 per cent. of these graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our

A Long Tramp

Messrs. John J. Murphy, Halifax, N.S.; C. C. Mallock, Ottawa, S. Burgwall, Port Hope, and Alfred Thompson, Cobourg, registered Saturday evening at the Snowden House. These gentlemen have tramped many hundred miles on snow shoes through the wilds of Northern Ontario. They came here direct from Lindsay, and yesterday drove to Rice Lake where they will again don the snow shoes.

An Important Meeting

The Times is requested to state that the annual meeting of the Canadian Association for the Prevention of Consumption will be held in Ottawa on the 15th March next. The afternoon will be devoted to the routine business of the Association. In the evening a lecture will be delivered by Dr. Adami, of Montreal, on some phase of the crusade against consumption. His Excellency the Governor-General will preside on the occasion.

The Bachelor Club

A very enjoyable evening was spent by the Bachelor Club on Saturday, when the members met at Long's Parlours to hold their annual meeting, and at the same time elect officers for the year and receive reports. The following gentlemen will guide the destines of the club for the ensuing year;

President—E. M. Best.
Vice-President—R. N. Jolliffe.
Secretary-Treasurer—J. W. Wood.
Additional member of the executive—Mr. S. S. Moore.

A number of new members were received into the club after the usual formality.

ANNUAL MEETING

The Lock Company Shareholders Meet and Elect Officers

At the annual meeting of the shareholders of the Peterborough Lock Manufacturing Company, held yesterday afternoon, the following officers were elected for the ensuing year;—

President—Hon. J. R. Stratton.
Vice-President—A. L. Davis.
Directors—W. G. Morrow, T. H. Fortye, and Wm. Irwin.

The company paid the usual dividend of six per cent., and carried a good sum to rest account.

DEATH OF MRS. JOHN GALL

A Well Known Keene Lady Dies From Stroke of Appoplexy

Mrs. John Gall, widow of the late John Gall, who for many years owned the Victoria Hotel in Keene, died on Friday from appoplexy. About eight o'clock in the morning she was stricken while dressing, and never recovered consciousness. She died about 2 p.m. Mrs. Gall was 83 years old, and was born in Scotland. Mr. John Drummond, Otonabee, is a brother, and the proprietor of the old Drummond House in Keene was also a brother.

The funeral took place on Saturday, to Keene cemetery, and was largely attended.

OUR GREAT RAILWAY

Progress of the C. P. R. Noted in all Directions

The C.P.R. directors propose, it is stated to spend upwards of $4,000,000 in improvements this year. The larger part will be given over to the west. Five hundred miles of new standard rails will be laid between Montreal and Vancouver during the year. Bridges will be replaced and renewed, grades improved and terminal facilities increased. In every way possible the intention is to work towards the shortening of the passenger time tables on the main stretches, and to add to the equipment for handling freight in general and wheat from the west in particular.

LEARY'S LIVERY SOLD

McCollum Bros., of Orillia, Purchase Mr. Leary's Business.

Alderman R. H. Leary has disposed of his livery business to McCollum Brothers of Orillia, who are to take possession in a few days. It is said that the price paid is in the neighborhood of $30,000. Messrs. McCollum Bros. are well and favorably known throughout the Orillia district, where they conduct a large livery business.

Mr. Leary will take a year's rest, going south for a time, and also visiting the Western country. He will continue to reside in Peterborough, which will be pleasing news to his many friends here.

SHOOTING ON RICE LAKE

Petitions Against Any Exclusive Privilege to Visitors Being Largely Signed

On Saturday last Messrs. John Dunsdale and Edmund Foley, of Keene, were in town, and called on The Times regarding the proposal to give certain parties exclusive rights on Rice Lake for fishing and hunting. The residents and ratepayers of the vicinity have a decided objection to any such concession being granted and with this object in view are circulating petitions, which are being largely signed, to the Minister of Public Works.

These petitions set forth the fact that shooting in these waters has not been protected as it should have been and regret that the sale of ducks is allowed. The petitioners will ask the minister to prohibit the sale of ducks and not to grant license to any party for exclusive shooting, but reserve it to them, as is undoubtedly their right. The petitioners agree to do all in their power to see that the law is not infringed in any way.

—The George Street Girls' Guild will meet at the parsonage to-night at 8 p.m.

A SAD DEATH

Demise of Mr. Arthur Hobson at St. Joseph's Hospital Last Night

A very sad death occurred at St. Joseph's Hospital last night about seven o'clock, when the demise of Arthur Hobson occurred. The circumstances surrounding his death are very sad, the young man having no relatives in this country. The deceased was 25 years of age, and came from England five years ago, having resided in Peterborough about one year, coming here from Toronto. He was married about nine months ago, since which time he has been unable to work owing to some internal disease. While in Toronto he was a member of St. George's Lodge Sons of England, but since living in Peterborough, his incumberances, owing to illness and not being able to work, prevented him sustaining his membership, and at the time of his death was without means and his wife, who is in a state of pregnancy, is left destitute.

At a meeting of Lansdowne Sons of England Lodge, last night, it was decided to give assistance, and also communicate with the Grand's Lodge in Toronto, to which he formerly belonged. Mr. Allan, proprietor of the C.P.R. Hotel, has kindly consented to take charge of the funeral arrangements. Any assistance from those feeling disposed to do so will be gratefully received.

The funeral will take place this afternoon at four o'clock from Bellegham's undertaking establishment.

SIX MONTHS FINANCES

Those of Otonabee Lodge Show Most Creditable Record

The semi-annual statement of receipts and expenditures of Otonabee Lodge, No. 13, I.O.O.F. for term ending Dec. 31st., 1904, has been issued. The present total membership is 174 and the financial report presents the following creditable record—

Cash in treasurer's hands Dec. 31, 1904	$4,278.92
Capital account, furniture and regalia, Dec. 31	1,200.00
Total assets of lodge	$5,478.92
Sick benefits	215.42
Receipts ending Dec. 31... ...	655.75
Working expenses	294.27

The hall has been refurnished throughout, during the past year, and it is now claimed to be one of if not the finest, Lodge Rooms in Canada; expenses in connection with the same being $1,671.28; Otonabee Lodge paying her apportioned share $835.64. The Past Grands of Otonabee Lodge are;—

Wm. Clurton, P.G.; R. W. Bell, M. D., P.G.M.; F. Henderson, Jas. Stevenson, T. Workman, Mr. Mowry, J. Mathieson, G. J. Farly, W. F. Green, R. M. Roy, T. Armstrong, J. Nugent, C. H. Huffman, J. A. McGill, F. D. Mackay, W. J. Patterson, J. Mills, S. R. Armstrong, D. G. Armstrong, A. Rutherford, J. A. Tully, J. Edgecumbe, D. F. Yarnold, Wm. Quinn, J. W. Miller, H. Morgan, A. Rose, W. D. Jewett, F. J. Might, J. M Gemmell, W. J. Squires, E. B. Clegg, W. Comstock, W. A. Lewis, R. J. Matchett, W. R. G. Higgins, J. T. O. Lang, W. S. Robinson, F. Wise.

LITTLE LOCAL LINES

Dashes Here and There by Times Reporter On Their Round

—The gas house carbonater is to be cleaned to-night. Let there be light.

—Architect Blackwell reports work on the new Y.W.C.A. to be progressing satisfactorily.

—A meeting of the County Orange Lodge will be held in the Orange Hall this evening at 7.30 o'clock.

—The annual meeting of the officers of the 57th Battalion will be held at the mess rooms on Tuesday, Feb. 14th.

—Mr. R. M. Deamstoun delivered his lecture on "Jean Valjean" before All Saints' Young Men's Guild last night.

—Lindsay's Board of Works, is now wearing its "Thinking Cap." Purchasing a new sweeping machine causes a perfect fit.

—The Peterborough Industrial Exhibition will hold their annual meeting in the Council Chamber to-morrow at 2.30 p.m.

—The monthly business meeting of St. Luke's Men's Guild will be held in the club room, 127 Hunter street this evening at 8 p.m.

—The annual meeting of the Albany Club will take place on Monday evening next, when the election of officers will take place.

—A large number of invitations have been sent out for the Charity Ball which will be held at the Oriental Hotel on Friday evening next.

—The Ladies' Aid Society of the Charlotte street Methodist church, will hold their annual meeting in the parlor of the church this afternoon.

—Olivero Cupido, the Italian, who was stabbed in the affray on Simcoe street on Tuesday night, is reported as doing well, and his recovery is looked for.

—The Never Learn Club will hold their next assembly in Foresters' Hall to-morrow night. Those who received invitations for the last dance are invited to attend without further invitation.

—Peterborough again heads the list. It is our pleasing task to report that Miss Lillian Moore, daughter of Mr. D. H. Moore, has successfully passed the Piano Examination at the Toronto Conservatory of Music, heading the class, and taking first class honors. Miss Moore is a pupil of Miss Alice Roger, of the Peterborough Conservatory of Music.

SOCIAL AND PERSONAL

—Mr. R. R. Hall, M.P., left last night for Ottawa.

—An old resident, Mr. Joseph Armstrong, has left town. Henceforth he will reside in Manitoba.

—Mr. J. H. Smith, of the Wm. Hamilton Manufacturing Co., left yesterday on a business trip to Ottawa, Quebec, Sherbrooke and Philadelphia.

—Mr. and Mrs. Storey are visiting in town. Mr. Storey now handles the throttle on a C.P.R. engine, and resides at Rat Portage.

—Mr. George Dauaty, Sherbrooke street, town, left on Saturday for Halifax, where he will embark on the steamer Ionian on Monday on a visit to friends in England.

—Messrs. Jack Shannon, W. Lockart, and M. Isbister, of Sarnia, with the Misses Ida Shannon and Maggie [illegible] are visiting friends in

How to Help Your Girls.

The anxious mother of the family oftentimes carries the whole burden of responsibility so far as the home medication of common ailments of the girls or boys are concerned. The cost of the doctor's visits are very often too great for consideration. At such times the mother is invited to write to Dr. R. V. Pierce, of Buffalo, N. Y., for medical advise, which is given free. Correspondence is held strictly confidential.

$500 REWARD FOR WOMEN

WHO CANNOT BE CURED.

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors and makers of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay $500 in legal money of the United States, for any case of Leucorrhea, Female Weakness, Prolapsus, or Falling of Womb which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

WORLD'S DISPENSARY MEDICAL ASSOCIATION, Proprietors, Buffalo, N. Y.

Take Dr. Pierce's Pleasant Pellets instead of any other laxative.

—Mrs. A. E. Ames, daughter of Hon. Geo. A. Cox, is convalescent and her many friends will be pleased to learn her strength permits that she should return from London to Toronto to her home.

—Mr. R. J. Choate of Toronto, son of Mr. A. F. Choate, of Warsaw, takes the place, until recently so well filled by Mr. R. N Jolliffee, of reporter on the Examiner. Mr. Jolliffe has decided to take up music as a profession.

AN IMPRESSIVE CEREMONY

A Large Number of Young Ladies Make Church Vows

On Sunday afternoon at St. Peter's Cathedral an impressive service took place, when a large number of young women were received into the Sodality of the Blessed Virgin. The candidates marched from the sacristry of the church around the edifice. They bore lighted tapers and occupied the seats on either side of the centre aisle. His Lordship Bishop O'Connor, preached an eloquent and appropriate sermon, urging the young ladies to emulate the virtues and attributes of the mother of Christ. The ladies repeated the act of consecration, which was read by His Lordship, after which the medals and badges were presented. His Lordship was assisted in the ceremony by Rev. Father McColl and Dr. O'Brien.

THE THIRD SQUADRON TO SAIL TO JOIN THE BALTIC FLEET.

Russia Terribly in Earnest in Her Efforts to Regain Control of the Sea--New Battleships.

One Year Ago To-day the Japanese Fleet Attacked Port Arthur and Crippled Russia.

London, Feb. 9.—It was just a year ago yesterday since war broke out between Japan and Russia. The news was announced to the world when the Official Messenger of St. Petersburg announced that the Japanese Minister had broken off negotiations and had left the Russian capital. A year ago to-morrow and Japan had struck her first sudden and unexpected blow, which by paralysing her enemy's fleet decided, not the campaign indeed, but the course which the campaign should take, and gave her from the first moment the practical command of the sea. On February 8th last year the Japanese fleet, under the command of Admiral Togo, approached the Russian fleet, which under the command of AdmiralStarck, was lying outside of Port Arthur under the guns of the fortress, when the Japanese torpedo-boats attacked and "holed" the battleships Retvisan and Cesarevitch and the cruiser Pallada. The following day the Japanese fleet opened fire, and the battleship Poltava, and cruisers Diana, Novik and Askold were damaged. Since then the Russians have been steadily driven backward from Manchuria, Port Arthur has fallen, and after a year's operations the two armies find themselves concentrated around Mukden, with the strong possibility of the Russians being eventually driven from there.

The abandonment of the Russian campaign in northeast Korea is foreshadowed by the news that the Cossacks have burned all the stores before retiring from Songchin. This port on the Sea of Japan was an important store point, and the Russians have now abandoned it altogether, and probably gone northwest in the direction of Harbin.

Active work is going on at Cronstadt to complete for service a battleship and some cruisers that are there, which will form the second division of the third Russian Pacific squadron. The first division of this squadron, as was previously announced, will leave Libau in the middle of February, but Admiral Rojestvensky will be unable to wait for it, as he will have to cross the Indian Ocean before the monsoon season, which begins in March.

While the official reason given for the departure of General Gripenberg from the seat of war is ill-health, another story is that he exceeded General Kuropatkin's orders and needlessly sacrificed thousands of men in the recent movement on the Hun River, and that General Kuropatkin therefore demanded his recall. As to General Kuropatkin himself, the War Office profess to have no information regarding his reported resignation.

London, Feb. 8.—The charge d'affaires of the Russian Embassy stated this afternoon that there is no basis for the renewed rumors of peace prospects. The Russian attitude, he declared, had not changed. Peace could not be considered under the present conditions.

Tokio, Feb. 8.—The situation on the Shaltse and Hun Rivers is unchanged. A small force of Russians attacked Sanchiatzu last Saturday, but was repulsed. The Russians shelled various portions of the Japanese centre also on Sunday.

St. Petersburg, Feb. 8.—Telegraphing under date of Feb. 5, General Kuropatkin reports as follows; "A Russian detachment marched to Santaits, 12 miles southwest of Sibombay. The Japanese at Santaits and Saodameng were repulsed. The Russian losses were insignificant.

"The Japanese assumed the offensive along the line to Chuanchuantse today. Several of their batteries advanced, but the Russian artillery repulsed them."

General Mylolf, commander of the Eighth Army Corps, has been appointed to replace General Grippenberg in command of the Second Manchurian Army.

The same widespread and high-placed influences which agitated for Gen. Kuropatkin's removal after the battle of Liaoyang are now endeavoring to induce the Emperor to accept his tendered resignation. It is suggested that either Grand Duke Nicolas Nicolaievitch, a cousin of the Emperor, who commands the Russian cavalry; General Sakharoff, Minister of War; or Gen. Linovitch, commanded the First Army in Manchuria, be appointed to succeed General Kuropatkin as commander-in-chief.

A PECULIAR CASE

A Farmer Who should Have Been a Detective

St. Catharines, February 8. — A peculiar hoof mark in the snow was what landed John Russel, Arthur Krick, and a young woman, Jessie Freisman, in the Lincoln county gaol on Friday. The trio, who are residents of Caister, are charged with nothing less than the theft of a beehive, full of bees. The bees were owned by Emerson J. Winslow, of Gainsborough township, and both they and the hive have disappeared as thoroughly as if they had never existed. Winslow found one of his hives gone on the morning of January 20th. There was a fresh cutter track in the snow. Winslow noticed that one of the horse's hoofs left a peculiar mark. He decided that it was a case where he could exercise his detective instincts; so he went to Dunnville, a town near by, and enquired at all the livery stables if they had a horse with a peculiarly shaped hoof. One man said he had. The hoof of the horse, it was found, corresponded exactly with the footprint in the snow at Winslow's. Winslow found out from the liveryman that John Russell, Arthur Krick and Jessie Freisman had hired the horse and a cutter to drive to their uncle's farm, which is a little beyond Winslow's, on the night of January 19th. Winslow and the liveryman examined the bottom of the cutter and found dead bees in it. Dead bees were also found in the snow on the road. Winslow swore out a warrant for the three young persons, and they were arrested and brought here Saturday. They pleaded not guilty before Judge Carman in the afternoon.

They will be tried on Wednesday. As they cannot get bail they had to go to gaol.

DIES OF WORRY

President Beckwith was to be Chief Witness Against Mrs. Chadwick

Oberlin, O., February 7.—C. T. Beckwith, president of the defunct Citizens' National Bank, of this city, died at 10.45 Sunday night after two days of unconsciousness. Death resulted directly from heart trouble. Mr. Beckwith was about 65 years old. On December 14 last the federal grand jury in Cleveland returned five indictments against Beckwith upon the charge of violating the national banking laws in the connection with the loans made to Mrs. Cassie L. Chadwick by the Citizens' National Bank of Oberlin.

From the day of his arrest Beckwith's health failed rapidly, as a result of worrying over his troubles. He frequently declared during his illness that he wanted to die. For several days prior to his death he refused to take food in any form.

may materially affect the causes of forgery and conspiracy to misapply bank funds, now charged against Mrs. Chadwick. It was expected that Beckwith would be the star witness in both federal and common pleas courts.

DUMB MAN RECOVERS SPEECH

Silent Ten Years, His Voice Returns at Christian Science Meeting

Owosso, Mich., February 8.—Dumb for ten years, Albert Gibson, a traveling man, suddenly recovered his power of speech while at a Christian Science meeting. While on the road in 1895 Mr. Gibson was stricken speechless by a throat disease. The Christian Science congregation will hold thanksgiving services next Sunday to celebrate his recovery.

CHINA OPENLY PRO-JAPANESE

Japan's Successes Have Marked Effect on the Peking Government

Peking, February 8—Japanese successes have had a marked effect on the Chinese. Pro-Japanese sentiments are more openly expressed than ever by the Chinese Government. The Chinese are placing very large orders for arms and ammunition. Cash payment for these has caused surprise, considering the condition of Chinese finances.

Japanese influences, moreover, predominate in all branches of the Chinese Government.

LEADING RUSSIANS FOR PEACE

Personages Surrounding Emperor Said to Be Ready to End War

St. Petersburg, February 8.—I have some grounds for believing that the desirability of peace with Japan has been seriously debated by the personages who surround, without leading the Emperor, and that in principle they are unanimously in favor of peace, but that the practical question of ways and means has not been discussed.

The number of state dignitaries who ten days ago were in favor of continuing the war to the bitter end has diminished very considerably and many of them are now convinced advocates of peace.

It is said, however, that nobody is willing to approach the Emperor with definite proposals or even to mention the matter until General Kuropatkin has won at least one victory

HAD THE SHIPS BUT NO NAVY

Russia's Antiquated System Discussed in Britain

RUSSIAN A POOR SAILOR

Policy Was That Dash and Initiative of Personnel was Locked up

London, February 8.—One of the most distinguished naval architects in the kingdom, Mr. Cussman Lawrence, writes as follows to The Express, on the subject of torpedo boat destroyers: "At the outbreak of the war between Russia and Japan I told those of my friends who asked my opinion that Russia had ships, but no navy, while Japan had both. By this I meant to say that the natural conditions of the two countries had given to Japan alone, of the two combatants, the hardy, seafaring population which is the real navy. If there be any truth in this statement of the case then it must be also true, generally, that the right policy in naval warfare must be to multiply the opportunities for the display of seamanship in the available officers and men. The wrong policy must be to look up the dash and initiative of your personnel in big ships.

"The Russian ships, with no effectually seasoned and trained personnel, have been counted over and over again as if they could be fairly compared with Japanese or French or British ships, in forgetfulness of what it is that makes an engine of war on the seas. It is on the seamen that everything depends.

BEFORE SUPREME COURT

Supreme Court Will Settle Two Important Questions

Ottawa, February 7. — Application will be made to the Supreme Court on the 21st instant, to fix a date for the hearing of two cases referred to that body by the Federal Government. One of the cases in question is to determine whether the Dominion has the right to establish ferries between a province and any foreign country and to grant an exclusive right for the establishment of such ferries.

The second is for the purpose of finding out whether the Dominion Parliament had the right to enact the provisions set forth in the first section of last year's Railway Act, viz.: "That agreement by a railway company with its employes should not relieve the railway company from liability for personal injury sustained by any workmen."

LAZY OLD SORES, painful and disfiguring, will not linger long after treatment with Weaver's Cerate has been begun. If the cerate smart reduce it with sweet oil or lard, and cleanse the blood with Weaver's

The Ross Government Resigned Yesterday Afternoon.

EX-PREMIER ROSS WILL STAY IN THE ASSEMBLY.

Toronto, Feb. 8.—Last night Mr. Ross made a statement in regard to his resignation and future action. He said that, although the elections were disappointing, he looked forward with much pleasure to relief from the cares of office, and accepted the decision of the electors cheerfully.

He expressed appreciation of the energy and tact with which the Liberal candidates conducted the last campaign, and also of the generous support given by the Liberal party to himself and colleagues under somewhat trying circumstances. No leader could have had a more loyal ex-ministry following, and this, Mr. Ross said, was to him a very pleasant reflection after so many years of public service. The same remark applied to his colleagues, some of whom had been members of three different Administrations, and from all of whom Mr. Ross parted with regret.

On the Opposition side of the House Mr. Ross said he hoped still to have some influence in shaping legislation and in forming public opinion. To serve his native Province in any capacity was a privilege he greatly prized, and his retirement from office would not in any way abate his interest in the Liberal party or in the prosperity of the Province, for which that party had done so much in the last 34 years.

STARVATION NOW GRIMLY THREATENS

Whole Resources of Manchuria Will Soon be Exhausted

MUST DEPEND ON RAILROAD

Troops, it is Said, Are Already Living From Hand to Mouth—May Cross Into China

Paris, February 8. — Information reaches me that anxiety prevails in those quarters responsible for supplying the Russian army in Manchuria as to the provisioning of the troops in April and May.

The fact is that the whole resources of Manchuria will be exhausted. There will be no harvest this year, and none of last year's crops will be left. Neither will there be any cattle.

Three months' stores were burned at Liao-Yang and Mukden and half a million troops will be dependent on the supplies forwarded by the Manchurian Railway.

The army, it is said, is already living from hand to mouth.

temptation to cross the Liao River

Some apprehension is felt lest the into the fertile region on China immediately on the other side of it should prove irresistible to Gen. Kuropatkin's army.

ATHLETIC WORLD

BY OUR SPORTING EDITOR

Peterborough Two Goals Ahead.

Smith's Falls, Ont., Feb. 8. — The Smith's Falls "Micmacs," winners of Group No. 1 in the Intermediate O. H.A., were defeated here to-night by Peterborough, winners of Group No. 2, by a score of 5 to 3.

The Peterborough team certainly presented a husky bunch compared with their opponents, and when lined up against them looked as though they might have "walked away," with the game, but they found themselves up against as tough a proposition as they have yet met. The score at half-time was 3-all.

In the second half, despite the fact that Smith's Falls played a hard and strenuous game and their forwards followed up the rubber with deliberate and scientific precision, Peterborough managed to net two more by neat combination play, and it was by the mere indomitability of the Peterborough's defence that the Micmacs were unable to swell their score.

Both goalkeepers stopped some shooters in superb style, and the work of Peterborough's defence was phenomenal. Chancer Elliott officiated as referee, and gave entire satisfaction all round the board. He kept them down to the game from start to finish, and, as a result, it was a fast, clean, and exceedingly interesting and exciting exhibition.

Following is the line-up;—

Peterborough—		Smith's Falls
	Goal.	
Wasson		Mersau
	Point.	
Glover		Lee
	Cover-point.	
Crowley		Hammond
	Rover.	
Cavanah		Poulin
	Centre.	
Morgan		Dunn
	Right Wing.	
Parnell		Armstrong
	Left Wing.	
Graham		Gallipeau

• • • •

Smith's Falls will play the seniors the return match here on Thursday night.

• • • •

Belleville, Feb. 8.—Cobourg and Belleville Juniors played here to-night in the first of their home-and-home games. The game was not a good exhibition, and the winners, unless they improve, will not travel far in the next rounds. The teams scored two goals each in the first half and neither side scored in the second. W. S. Hancock of Toronto, was a first-class referee. The teams were;

Belleville 2—Goal, Holton; point, Townsend; cover, Cauley; rover, Pepper; center, Allen; right wing, Weller; left wing, Hamilton.

Cobourg, 2—Goal, Flesch; point, Moffatt; cover, Smith; rover, Robertson; center, White; right wing, Dabney; left wing, Barr.

BASEBALL.

There is talk of arranging a new league comprising Port Hope, Cobourg, Oshawa, and Bowmanville, this season. If such a league is arranged the old Midland League will go out of business as Lindsay and Peterborough will be the only teams left.

• • • •

THE RING.

San Francisco, Cal., Feb. 7.—Young Corbett and Battling Nelson agreed last night to fight on February 22th at Woodward's Pavilion, with the understanding that the winner will be allowed to fight Britt. The men agreed to battle at the same weight which prevailed in their previous meeting, 130 pounds at six o'clock. The referee has not yet been selected but will most likely be Jack Welch.

• • • •

CURLING.

Winnipeg, Man., Feb. 7. —Montreal Collingwood, Lindsay, and Toronto Parkdale rinks arrived yesterday afternoon for the Manitoba bonspiel, and were met by a delegation of local curlers at the station. They were given a drive, about the city and to-night were entertained by the Granite and Thistle Clubs.

The entry for the bonspiel exceeds that of last year, 142 rinks entering and there may be others when the Grand Challenge draw is made this evening at the semi-annual meeting of the Manitoba branch.

Curling starts to-morrow, and there will be 100 games carled for the first day. The severe weather of the past week has abated, and it looks as though there will be good weather for the 'spiel.'

• • • •

LACROSSE.

Brantford, Feb. 7.—There is one streak of light dawning upon the senior O.L.A. situation in this city, and, after all, Brantford may have a senior team for 1905.

A movement is on foot to reorganize the senior series on a different basis of gate receipts. It is proposed to give the visiting teams 40 per cent. and the home teams the remaining 60 per cent.

In this way the big gates in Toronto can be made of some assistance to teams which come from the smaller centers of population such as Brantford and St. Catharines. The idea is by no means a new one, and is generally regarded as fair.

A prominent sporting man said today; "The idea of 40 per cent. and 60 per cent. divisions of gates is practically the only way I see of Brantford having senior lacrosse this year. We are right up against it, but, in my opinion, the thing can be worked out all right this way."

TWO PLEASING ADDRESSES

Rev. Mr. Ketchen and Mr. B. F. McWilliams Speak at St. Paul's

There was a large turn-out last night at the Lecture Room of St. Paul's church, to hear Rev. H. B. A. Ketchen and Mr. B. F. McWilliams address the Young Men's Guild. Mr. Ketchen spoke on "My First Sermon," and Mr. McWilliams on "My First Campaign." It is needless to say the speakers did full justice to their respective subjects, and kept the audience in good humor from start to finish. This great family journal is able to understand how a minister can see the humorous side of his first attempt at pulpit oratory, but in the case of a defeated political candidate, there is little to laugh at—from his standpoint. It is the other fellow who usually wears the smile. However, the fact that Mr. McWilliams is not afraid to describe his experience in a losing political fight, is the best proof that he will live to be on the winning side.

At the conclusion of the addresses refreshments were served.

AFRAID TO GO TO WORK.

Lodz, Russian Poland, Feb. 7.—The factories were opened this morning, but scarcely any of the workmen appeared. At one factory the men worked until lunch time, and then left and refused to return, saying they did not want to be killed by a bullet from the street fired through the door. Another factory abruptly ended work.

The situation appears to be growing worse, and a critical time is expected on Thursday, the date on which some of the largest manufacturers have decided to pay their employes the balance of their wages, dismiss them and shut down the mills indefinitely.

The strikers are becoming more aggressive. This morning they forcibly entered a mill and destroyed the machinery.

Batoum, Caucasus, Feb. 7. — The strike situation here is growing worse. Business is practically at a standstill, although some steamers have succeeded in getting away. Food is becoming more scarce. The military Governor has issued a proclamation, warning the inhabitants

ENORMOUS COST OF MODERN WAR

Thirty Millions in Shells Fired Into Port Arthur

TWO MILLIONS PER DAY

Is the Estimated Cost of the War in the East—How Long Will the Two Nations Stand the Strain?

London, January 8.—In a general way it is known that in the struggle between Japan and Russia there has been unprecedently lavish expenditure of ammunition, but details of certain phases of the war almost stagger the belief of those who are fairly familiar with the use of projectiles, great and small, in other conflicts of modern times. It appears that never before were so many bullets required to kill a soldier, never before so much steel, iron and powder to bombard a fortress or fight a naval engagement.

An authority asserts that in the siege of Port Arthur the Japanese thousands of shells into that fortress, at the average cost of $24 in gold for every shot. It is reckoned that the heavy gun bombardment cost $30,000,000. On the average the guns used discharged twenty times their own weight in metal. And probably not more than one shell in every two hundred killed or wounded any one. About one Russian shell in every four hundred hit a Japanese target.

In the same siege some forty million bullets were fired from rifles. It is certain that for every soldier killed on either side at least his own weight of metal was fired. Modern rifle bullets are not much thicker than a lead pencil, and they have wonderful penetrating force, but they are discharged at such distances that it takes a vast number of them to kill a man, in the average tests of war. One veteran correspondent estimated that in the battle of Liao Yang the Russians fired about 8,000 bullets for every Japanese they hit. Kuropatkin's men used at least 50,000,000 projectiles in that long battle.

In the light of such facts it is easy to understand why the best authorities believe the cost of the war in progress, taking both sides together, is not less than $2,000,000 a day, a million for each nation, if Russia's greater share were averaged with Japan's much smaller outlay. No other civilized powers could wage so great a war at any such cost. No wonder that finance ministers are advocates of international peace, almost without exception!

RECEPTION LAST NIGHT

A Good Programme at the Park Street Baptist Church Mission

A very enjoyable evening was spent last night at the Park street Baptist church, when the Ladies' Mission Circle of the Park street Baptist church entertained a large number of ladies and gentlemen. Their guests were treated to an excellent medley of songs, music and a sketch by five people arrayed in suitable character costume. A most instructive address was given by Miss Coleman, Superintendent of the Nicholls Hospital; her subject was "Mission Work in New York," special reference being made to nursery once being made to nursing of and among the poorer classes; Miss Coleman's treatment of her subjects showed a thorough acquaintance with them and the power of presenting them to an audience in an intelligent manner.

The Rev. A. H. Brace addressed the assemblage illustrating his remarks by the medium of a blackboard. Refreshments served to all present, completed a very enjoyable evening.

The voluntary collection made will be devoted to Home and Foreign Missions.

SISTER ST. CECELIA is a well-known and respected lady of St. Joseph Orphan Home, Ottawa, and she unhesitatingly says that "The D & L Emulsion is a splendid medicine for this delicate and growing children.

Premier Lunched With the Lieutenant - Governor — Other Ministers Drove to Government House for the Farewell.

PREMIER WHITNEY NOW IN CHARGE.

Big Demonstration in Honor of the Premier-Elect will be Held in Massey Hall Toronto, To-night.

Toronto, Feb. 7.—The Ross Government of Ontario handed in its resignation early this afternoon. The Premier, Hon. Geo. W. Ross, lunched with his Honor the Lieutenant-Governor, and shortly after two o'clock, Hon. John Dryden, Hon. W. A. Charlton, Hon. A. G. McKay, and Hon. George P. Graham drove down from the Parliament Buildings and paid respects to the Lieutenant-Governor. In this way the resignation was accomplished.

Mr. Whitney has already been communicated with, and is expected here by train this afternoon. He will probably be summoned to the Government House immediately upon his arrival, and his action after that will depend entirely upon his own wishes. If he is prepared to submit to his honor the names of the members of his Cabinet, and they are in the city, the new Government may be sworn in to-day. Otherwise the ceremony will be postponed until to-morrow.

The ceremony may take place at the Government House or at the Parliament Buildings, just as Mr. Whitney desires. When the Ministers have been sworn in, and the commissions issued, appointing them to their different portfolios, their seats become vacant, and warrants will be issued for their re-election.

The incoming Ministers have to subscribe their names to three different oaths, the oath of allegiance, the oath of a member of the Executive Council, and the oath of office. In the oath of allegiance the Minister sincerely promises and swears to be faithful and bear allegiance to his Majesty King Edward VII. The principal points in the oath of a member of the Executive Council are that he will keep secret the deliberations of the Council, and, when taking part in these deliberations, he will faithfully, honestly, and truly declare his mind and opinion, to the honor and benefit of the King's Majesty and the good of his subjects.

In the oath of office he duly and faithfully swears that he will fully and faithfully, and to the best of his skill and knowledge, execute the trusts and powers reposed in him in whatever he may be appointed to fill.

The demonstration in honor of Mr. Whitney will take place as arranged to-night in Massey Hall, there being a preliminary torchlight procession from the Queen's Hotel. Ald. McGhie will preside in his capacity as President of the Central Conservative Association, and Ald. Geary will tender a congratulatory address to the Premier.

The route of the parade will be; York to King, King to Yonge, Yonge to Shuter, to Massey Hall.

Special arrangements are being made for the illumination of the parade at the various turning points.

An orchestra will play in the Hall from seven o'clock until the evening, from seven o'clock until the meeting opens.

The ground floor will be reserved for torch-bearers, and the first gallery for ladies and their escorts. The second gallery will be open to the public.

ANNUAL MEETING OF COUNTY ORANGE LODGE.

The annual meeting of the County Orange Lodge of West Peterborough, was held last evening in the Orange Hall, Simcoe street, where a very successful meeting was held, most of the lodges in the county being well represented.

The following officers were elected;—

Bro. J. W. Stewart—District County Master.

Bro. John C. Waldie—District County Master.

Bro. Robert Weir—County Chaplain.

Bro. W. H. G. Armstrong — County Secretary.

Bro. Col. J. W. Miller—County Financial-Secretary.

Bro. Ald. Joseph Batten — County Treasurer.

Bro. Wm. E. Bartley—County Director of Ceremonies.

Bro. M. E. Weir—Lecturer.

Bro. E. Everett—Dep. Lecturer.

Bro. Wm. Brumwell—Deputy Lecturer.

The above officers were duly installed by W. Bro. J. B. McWilliams, P.C.M. and Past Junior Dep. Grand Master of Eastern Ontario.

FOR INTERNAL AND EXTERNAL applications we have found Perry Davis' Painkiller of great value and we can recommend it for colds, rheumatism or wounds and bruises. — Christian Era. Avoid substitutes.

The news was announced to the world when the Official Messenger of St. Petersburg announced that the Japanese Minister had broken off negotiations and had left the Russian capital. A year ago to-morrow and Japan had struck her first sudden and unexpected blow, which by paralyzing her enemy's fleet decided, not the campaign indeed, but the course which the campaign should take, and gave her from the first moment the practical command of the sea. On February 8th last year the Japanese fleet, under the command of Admiral Togo, approached the Russian fleet, which under the command of AdmiralStarck, was lying outside of Port Arthur under the guns of the fortress, when the Japanese torpedo-boats attacked and "holed" the battleships Retvisan and Cesarevitch and the cruiser Pallada. The following day the Japanese fleet opened fire, and the battleship Poltava, and cruisers Diana, Novik and Askold were damaged. Since then the Russians have been steadily driven backward from Manchuria, Port Arthur has fallen, and after a year's operations the two armies find themselves concentrated around Mukden, with the strong possibility of the Russians being eventually driven from there.

The abandonment of the Russian campaign in northeast Korea is foreshadowed by the news that the Cossacks have burned all the stores before retiring from Songchin. This port on the Sea of Japan was an important store point, and the Russians have now abandoned it altogether, and probably gone northwest in the direction of Harbin.

Active work is going on at Cronstadt to complete for service a battleship and some cruisers that are there, which will form the second division of the third Russian Pacific squadron. The first division of this squadron, as was previously announced, will leave Libau in the middle of February, but Admiral Rojestvensky will be unable to wait for it, as he will have to cross the Indian Ocean before the monsoon season, which begins in March.

While the official reason given for the departure of General Gripenberg from the seat of war is ill-health, another story is that he exceeded General Kuropatkin's orders and needlessly sacrificed thousands of men in the recent movement on the Hun River, and that General Kuropatkin therefore demanded his recall. As to General Kuropatkin himself, the War Office profess to have no information regarding his reported resignation.

London, Feb. 8.—The charge d'affaires of the Russian Embassy stated this afternoon that there is no basis for the renewed rumors of peace prospects. The Russian attitude, he declared, had not changed. Peace could not be considered under the present conditions.

Tokio, Feb. 8.—The situation on the Sha-ho and Hun Rivers is unchanged. A small force of Russians attacked Sandiatzu last Saturday, but was repulsed. The Russians shelled various portions of the Japanese centre also on Sunday.

St. Petersburg, Feb. 8.—Telegraphing under date of Feb. 5, General Kuropatkin reports as follows: "A Russian detachment marched to Santaits, 12 miles southwest of Sibombay. The Japanese at Santaits and Saodamang were repulsed. The Russian losses were insignificant.

"The Japanese assumed the offensive along the line to Chuanchuantse today. Several of their batteries advanced, but the Russian artillery repulsed them."

General Myloff, commander of the Eighth Army Corps, has been appointed to replace General Grippenberg in command of the Second Manchurian Army.

The same widespread and high-placed influences which agitated for Gen. Kuropatkin's removal after the battle of Liaoyang are now endeavoring to induce the Emperor to accept his tendered resignation. It is suggested that either Grand Duke Nicolas Nicolaievitch, a cousin of the Emperor, who commands the Russian cavalry; General Sakharoff, Minister of War; or Gen. Linevitch, commanded the First Army in Manchuria, be appointed to succeed General Kuropatkin as commander-in-chief.

A PECULIAR CASE

A Farmer Who should Have Been a Detective

St. Catharines, February 6. — A peculiar hoof mark in the snow was what landed John Russel, Arthur Krick, and a young woman, Jessie Freisman, in the Lincoln county gaol on Friday. The trio, who are residents of Caister, are charged with nothing less than the theft of a beehive, full of bees. The bees were owned by Emerson J. Winslow, of Gainsborough township, and both they and the hive have disappeared as thoroughly as if they had never existed. Winslow found one of his hives gone on the morning of January 20th. There was a fresh cutter track in the snow. Winslow noticed that one of the horse's hoofs left a peculiar mark. He decided that it was a case where he could exercise his detective instincts; so he went to Dunnville, a town near by, and enquired at all the livery stables if they had a horse with a peculiarly shaped hoof. One man said he had. The hoof of the horse, it was found, corresponded exactly with the hoof-print in the snow at Winslow's. Winslow found out from the liveryman that John Russell, Arthur Krick and Jessie Freisman had hired the horse and a cutter to drive to their uncle's farm, which is a little beyond Winslow's, on the night of January 19th. Winslow and the liveryman examined the bottom of the cutter and found dead bees in it. Dead bees were also found in the snow on the road. Winslow swore out a warrant for the three young persons, and they were arrested and brought here Saturday. They pleaded not guilty before Judge Carman in the afternoon.

They will be tried on Wednesday. As they cannot get bail they had to go to gaol.

ALLEN'S LUNG BALSAM

will positively cure deep-seated COUGHS, COLDS, CROUP.

A 25c. Bottle for a Simple Cold.
A 50c. Bottle for a Heavy Cold.
A $1.00 Bottle for a Deep-seated Cough.
Sold by all Druggists.

DIES OF WORRY

President Beckwith was to be Chief Witness Against Mrs. Chadwick

Oberlin, O., February 7.—C. T. Beckwith, president of the defunct Citizens' National Bank, of this city, died at 10.45 Sunday night after two days of unconsciousness. Death resulted directly from heart trouble. Mr. Beckwith was about 65 years old. On December 14 last the federal grand jury in Cleveland returned five indictments against Beckwith upon the charge of violating the national banking laws in the connection with the loans made to Mrs. Cassie L. Chadwick by the Citizens' National Bank of Oberlin.

From the day of his arrest Beckwith's health failed rapidly, as a result of worrying over his troubles. He frequently declared during his illness that he wanted to die. For several days prior to his death he refused to take food in any form.

DUMB MAN RECOVERS SPEECH

Silent Ten Years, His Voice Returns at Christian Science Meeting

Owen Sound, February 6.—Dumb for ten years, Albert Gibson, a travelling man, suddenly recovered his power of speech while at a Christian Science meeting. While on the road in 1896 Mr. Gibson was stricken speechless by a throat disease. The Christian Science congregation will hold thanksgiving services next Sunday to celebrate his recovery.

CHINA OPENLY PRO-JAPANESE

Japan's Successes Have Marked Effect on the Peking Government

Peking, February 8.—Japanese successes have had a marked effect on the Chinese. Pro-Japanese sentiments are more openly expressed than ever by the Chinese Government. The Chinese are placing very large orders for arms and ammunition. Cash payment for these has caused surprise, considering the condition of Chinese finances.

Japanese influences, moreover, predominate in all branches of the Chinese Government.

LEADING RUSSIANS FOR PEACE

Personages Surrounding Emperor Said to Be Ready to End War

St. Petersburg, February 8.—I have some grounds for believing that the desirability of peace with Japan has been seriously debated by the personages who surround, without leading the Emperor, and that in principle they are unanimously in favor of peace, but that the practical question of ways and means has not been discussed.

The number of state dignitaries who ten days ago were in favor of continuing the war to the bitter end has diminished very considerably and many of them are now convinced advocates of peace.

It is said, however, that nobody is willing to approach the Emperor with definite proposals or even to mention the matter until General Kuropatkin has won at least one victory

HAD THE SHIPS BUT NO NAVY

Russia's Antiquated System Discussed in Britain

RUSSIAN A POOR SAILOR

Policy Was That Dash and Initiative of Personnel was Locked up

London, February 8.—One of the most distinguished naval architects in the kingdom, Mr. Cornman Lawrence, writes as follows to The Express, on the subject of torpedo boat destroyers: "At the outbreak of the war between Russia and Japan I told those of my friends who asked my opinion that Russia had ships, but no navy, while Japan had both. By this I meant to say that the natural conditions of the two countries had given to Japan alone, of the two combatants, the hardy, seafaring population which is the real navy. If there be any truth in this statement of the case then it must be also true, generally, that the right policy in naval warfare must be to multiply the opportunities for the adaptay of seamanship in the available officers and men. The wrong policy must be to look up the dash and initiative of your personnel in big ships.

"The Russian ships, with no effectually seasoned and trained personnel, have been counted over and over again as if they could be fairly compared with Japanese or French or British ships, in forgetfulness of what it is that makes an engine of war on the seas. It is on the seamen that everything depends.

BEFORE SUPREME COURT

Supreme Court Will Settle Two Important Questions

Ottawa, February 7. — Application will be made to the Supreme Court on the 21st instant, to fix a date for the hearing of two cases referred to that body by the Federal Government. One of the cases in question is to determine whether the Dominion has the right to establish ferries between a province and any foreign country and to grant an exclusive right for the establishment of such ferries.

The second is for the purpose of finding out whether the Dominion Parliament had the right to enact the provisions set forth in the first section of last year's Railway Act, viz.: "That agreement by a railway company with its employes should not relieve the railway company from liability for personal injury sustained by any workmen."

LAZY OLD SOREN, painful and disfiguring, will not linger long after treatment with Weaver's Cerate has been begun. If the cerate smart reduce it with sweet oil or lard, and cleanse the blood with Weaver's

The Ross Government Resigned Yesterday Afternoon.

EX-PREMIER ROSS WILL STAY IN THE ASSEMBLY.

Toronto, Feb. 8.—Last night Mr. Ross made a statement in regard to his resignation and future action. He said that, although the elections were disappointing, he looked forward with much pleasure to relief from the cares of office, and accepted the decision of the electors cheerfully.

He expressed appreciation of the energy and tact with which the Liberal candidates conducted the last campaign, and also of the generous support given by the Liberal party to himself and colleagues under somewhat trying circumstances. No leader could have had a more loyal or disinterested following, and he [illegible] reflection over so many years of public service. The same remark applied to his colleagues, some of whom had been members of three different Administrations, and from all of whom Mr. Ross parted with regret.

On the Opposition side of the House Mr. Ross said he hoped still to have some influence in shaping legislation and in forming public opinion. To serve his native Province in any capacity was a privilege he greatly prized, and his retirement from office would not in any way abate his interest in the Liberal party or in the prosperity of the Province, for which that party had done so much in the last 34 years.

Premier Lunched With the Lieutenant - Governor — Other Ministers Drove to Government House for the Farewell.

PREMIER WHITNEY NOW IN CHARGE.

Big Demonstration in Honor of the Premier-Elect will be Held in Massey Hall Toronto, To-night.

Toronto, Feb. 7.—The Ross Government of Ontario handed in its resignation early this afternoon. The Premier, Hon. Geo. W. Ross, lunched with his Honor the Lieutenant-Governor, and shortly after two o'clock, Hon. John Dryden, Hon. W. A. Charlton, Hon. A. G. McKay, and Hon. George P. Graham drove down from the Parliament Buildings and paid respects to the Lieutenant-Governor. In this way the resignation was accomplished.

Mr. Whitney has already been communicated with, and is expected here by train this afternoon. He will probably be summoned to the Government House immediately upon his arrival, and his action after that will depend entirely upon his own wishes. If he is prepared to submit to his honor the names of the members of his Cabinet, and they are in the city, the new Government may be sworn in to-day. Otherwise the ceremony will be postponed until to-morrow.

The ceremony may take place at the Government House or at the Parliament Buildings, just as Mr. Whitney desires. When the Ministers have been sworn in, and the commissions issued, appointing them to their different portfolios, their seats become vacant, and warrants will be issued for their re-election.

The incoming Ministers have to subscribe their names to three different oaths, the oath of allegiance, the oath of a member of the Executive Council, and the oath of office. In the oath of allegiance the Minister sincerely promises and swears to be faithful and bear allegiance to his Majesty King Edward VII. The principal points in the oath of a member of the Executive Council are that he will keep secret the deliberations of the Council, and, when taking part in these deliberations, he will faithfully, honestly, and truly declare his mind and opinion, to the honor and benefit of the King's Majesty and the good of his subjects.

In the oath of office he duly and faithfully swears that he will fully and faithfully, and to the best of his skill and knowledge, execute the trusts and powers reposed in him in whatever he may be appointed to fill.

The demonstration in honor of Mr. Whitney will take place as arranged to-night in Massey Hall, there being a preliminary torchlight procession from the Queen's Hotel. Ald. McGhie will preside in his capacity as President of the Central Conservative Association, and Ald. Geary will tender a congratulatory address to the Premier.

The route of the parade will be; York to King, King to Yonge, Yonge to Shuter, to Massey Hall.

Special arrangements are being made for the illumination of the parade at the various turning points.

An orchestra will play in the Hall from seven o'clock until the evening, from seven o'clock until the meeting opens.

The ground floor will be reserved for torch-bearers, and the first gallery for ladies and their escorts. The second gallery will be open to the public.

STARVATION NOW GRIMLY THREATENS

Whole Resources of Manchuria Will Soon be Exhausted

MUST DEPEND ON RAILROAD

Troops, it is Said, Are Already Living From Hand to Mouth—May Cross Into China

Paris, February 8. — Information reaches me that anxiety prevails in those quarters responsible for supplying the Russian army in Manchuria as to the provisioning of the troops in April and May.

The fact is that the whole resources of Manchuria will be exhausted. There will be no harvest this year, and none of last year's crops will be left. Neither will there be any cattle.

Three months' stores were burned at Liao-Yang and Mukden and half a million troops will be dependent on the supplies forwarded by the Manchurian Railway.

The army, it is said, is already living from hand to mouth.

temptation to cross the Liao River Some apprehension is felt lest the into the fertile region on China immediately on the other side of it should prove irresistible to Gen. Kuropatkin's army.

ATHLETIC WORLD

BY OUR SPORTING EDITOR

Peterborough Two Goals Ahead.

Smith's Falls, Ont., Feb. 8. — The Smith's Falls "Micmacs," winners of Group No. 1 in the Intermediate O H.A., were defeated here to-night by Peterborough, winners of Group No. 2, by a score of 5 to 3.

The Peterborough team certainly presented a husky bunch compared with their opponents, and when lined up against them looked as though they might have "walked away," with the game, but they found themselves up against as tough a proposition as they have yet met. The score at half-time was 3-all.

In the second half, despite the fact that Smith's Falls played a hard and strenuous game and their forwards followed up the rubber with deliberate and scientific precision, Peterborough managed to net two more by neat combination play, and it was by the mere indomitability of the Peterborough's defence that the Micmacs were unable to swell their score.

Both goalkeepers stopped some scorers in superb style, and the work of Peterborough's defence was phenomenal. Chancer Elliott officiated as referee, and gave entire satisfaction all round the board. He kept them down to the game from start to finish, and, as a result, it was a fast, clean, and exceedingly interesting and exciting exhibition.

Following is the line-up:—

Peterborough—		Smith's Falls
	Goal.	
Wasson		Mereau
	Point.	
Glover		Lee
	Cover-point.	
Crowley		Hammond
	Rover.	
Cavanah		Poulin
	Centre.	
Morgan		Dunn
	Right Wing.	
Parnell		Armstrong
	Left Wing.	
Graham		Gallipeau

• • • •

Smith's Falls will play the seniors the return match here on Thursday night.

• • • •

Belleville, Feb. 8.—Cobourg and Belleville juniors played here to-night in the first of their home-and-home games. The game was not a good exhibition, and the winners, unless they improve, will not travel far in the next rounds. The teams scored two goals each in the first half and neither side scored in the second. W. S. Hancock of Toronto, was a first-class referee. The teams were;

Belleville 2—Goal, Holton; point, Townsend; cover, Cauley; rover, Pepper; center, Allen; right wing, Welsh; left wing, Hamilton.

Cobourg, 2—Goal, Flesch; point, Moffatt; cover, Smith; rover, Robertson; center, White; right wing, Doherty; left wing, Barr.

BASEBALL.

There is talk of arranging a new league comprising Port Hope, Cobourg, Oshawa, and Bowmanville, this season. If such a league is arranged the old Midland League will go out of business as Lindsay and Peterborough will be the only teams left.

• • • •

THE RING.

San Francisco, Cal., Feb. 7.—Young Corbett and Battling Nelson agreed last night to fight on February 29th at Woodward's Pavilion, with the understanding that the winner will be allowed to fight Britt. The men agreed to battle at the same weight which prevailed in their previous meeting, 130 pounds at six o'clock. The referee has not yet been selected but will most likely be Jack Welch.

• • • •

CURLING.

Winnipeg, Man., Feb. 7. —Montreal Collingwood, Lindsay, and Toronto Parkdale rinks arrived yesterday afternoon for the Manitoba bonspiel, and were met by a delegation of local curlers at the station. They were given a drive, about the city and to-night were entertained by the Granite and Thistle Clubs.

The entry for the bonspiel exceeds that of last year, 142 rinks entering and there may be others when the Grand Challenge draw is made this evening at the semi-annual meeting of the Manitoba branch.

Curling starts to-morrow, and there will be 100 games carded for the first day. The severe weather of the past week has abated, and it looks as though there will be good weather for the 'spiel.'

• • • •

LACROSSE.

Brantford, Feb. 7.—There is one streak of light dawning upon the senior O.L.A. situation in this city, and, after all, Brantford may have a senior team for 1905.

A movement is on foot to reorganize the senior series on a different basis of gate receipts. It is proposed to give the visiting teams 40 per cent. and the home teams the remaining 60 per cent.

In this way the big gates in Toronto can be made of some assistance to teams which come from the smaller centers of population such as Brantford and St. Catharines. The idea is by no means a new one, and is generally regarded as fair.

A prominent sporting man said today: "The idea of 40 per cent. and 60 per cent. divisions of gates is practically the only way I see of Brantford having senior lacrosse this year. We are right up against it, but, in my opinion, the thing can be worked out all right this way."

TWO PLEASING ADDRESSES

Rev. Mr. Ketchen and Mr. R. F. McWilliams Speak at St. Paul's

There was a large turn-out last night at the Lecture Room of St. Paul's church, to hear Rev. H. B. A. Ketchen and Mr. R. F. McWilliams address the Young Men's Guild. Mr. Ketchen spoke on "My First Sermon," and Mr. McWilliams on "My First Campaign." It is needless to say the speakers did full justice to their respective subjects, and kept the audience in good humor from start to finish. This great family journal is able to understand how a minister can see the humorous side of his first attempt at pulpit oratory, but in the case of a defeated political candidate, there is little to laugh at—from his standpoint. It is the other fellow who usually wears the smile. However, the fact that Mr. McWilliams is not afraid to describe his experience in a losing political fight, is the best proof that he will live to be on the winning side.

At the conclusion of the addresses refreshments were served.

AFRAID TO GO TO WORK.

Lods, Russian Poland, Feb. 7.—The factories were opened this morning, but scarcely any of the workmen appeared. At one factory the men worked until lunch time, and then left and refused to return, saying they did not want to be killed by a bullet from the street fired through the door. Another factory abruptly ended work.

The situation appears to be growing worse, and a critical time is expected on Thursday, the date on which some of the largest manufacturers have decided to pay their employes the balance of their wages, dismiss them and shut down the mills indefinitely.

The strikers are becoming more aggressive. This morning they forcibly entered a mill and destroyed the machinery.

Batoum, Caucasia, Feb. 7. — The strike situation here is growing worse. Business is practically at a standstill, although some steamers have succeeded in getting away. Food is becoming more scarce. The military Governor has issued a proclamation, warning the inhabitants

ENORMOUS COST OF MODERN WAR

Thirty Millions in Shells Fired Into Port Arthur

TWO MILLIONS PER DAY

Is the Estimated Cost of the War in the East—How Long Will the Two Nations Stand the Strain?

London, January 8.—In a general way it is known that in the struggle between Japan and Russia there has been unprecedently lavish expenditure of ammunition, but details of certain phases of the war almost stagger the belief of those who are fairly familiar with the use of projectiles, great and small, in other conflicts of modern times. It appears that never before were so many bullets required to kill a soldier, never before so much steel, iron and powder to bombard a fortress or fight a naval engagement.

An authority asserts that in the siege of Port Arthur the Japanese thousands of shells into that fortress, at the average cost of $24 in gold for every shot. It is reckoned that the heavy gun bombardment cost $30,000,000. On the average the guns used discharged twenty times their own weight in metal. And probably not more than one shell in every two hundred killed or wounded any one. Almost every Russian shell in every four hundred hit a Japanese target.

In the same siege some forty million bullets were fired from rifles. It is certain that for every soldier killed on either side at least his own weight of metal was fired. Modern rifle bullets are not much thicker than a lead pencil, and they have wonderful penetrating force, but they are discharged at such distances that it takes a vast number of them to kill a man, in the average tests of war. One veteran correspondent estimated that in the battle of Liao Yang the Russians fired about 3,000 bullets for every Japanese they hit. Kuropatkin's men used at least 50,000,000 projectiles in that long battle.

In the light of such facts it is easy to understand why the best authorities believe the cost of the war in progress, taking both sides together, is not less than $2,000,000 a day, a million for each nation, if Russia's greater share were averaged with Japan's much smaller outlay. No other civilized powers could wage so great a war at any such cost. No wonder that finance ministers are advocates of international peace, almost without exception!

RECEPTION LAST NIGHT

A Good Programme at the Park Street Baptist Church Mission

A very enjoyable evening was spent last night at the Park street Baptist church, when the Ladies' Mission Circle of the Park street Baptist church entertained a large number of ladies and gentlemen. Their guests were treated to an excellent medley of songs, music and a sketch by five people arrayed in suitable character costume. A most instructive address was given by Miss Coleman, Superintendent of the Nicholls Hospital; her subject was "Mission Work in New York," special reference being made to nursery once being made to nursing of and among the poorer classes; Miss Coleman's treatment of her subjects showed a thorough acquaintance with them and the power of presenting them to an audience in an intelligent manner.

The Rev. A. H. Brace addressed the assemblage illustrating his remarks by the medium of a blackboard. Refreshments served to all present, completed a very enjoyable evening.

The voluntary collection made will be devoted to Home and Foreign Missions.

SISTER ST. CECELIA is a well-known and respected lady of St. Joseph Orphan Home, Ottawa, and she unhesitatingly says that "The D A L-Emulsion is a splendid medicine for thin, delicate and growing children.

ANNUAL MEETING OF COUNTY ORANGE LODGE.

The annual meeting of the County Orange Lodge of West Peterborough, was held last evening in the Orange Hall, Simcoe street, where a very successful meeting was held, most of the lodges in the county being well represented.

The following officers were elected:—

Bro. J. W. Stewart—District County Master.

Bro. John C. Waldie—District County Master.

Bro. Robert Weir—County Chaplain.

Bro. W. H. G. Armstrong — County Secretary.

Bro. Col. J. W. Miller—County Financial-Secretary.

Bro. Ald. Joseph Batten — County Treasurer.

Bro. Wm. E. Bartley—County Director of Ceremonies.

Bro. M. E. Weir—Lecturer.

Bro. B. Everett—Dep. Lecturer.

Bro. Wm. Brumwell—Deputy Lecturer.

The above officers were duly installed by W. Bro. J. B. McWilliams, P.C.M. and Past Junior Dep. Grand Master of Eastern Ontario.

FOR INTERNAL AND EXTERNAL applications we have found Perry Davis' Painkiller of great value and we can recommend it for colds, rheumatism or wounds and bruises. — Christian Era. Avoid substitutes.

SANTAL-MIDY

MOTHERHOOD WEAKNESS

Is Promptly Overcome — Health and Vigor Permanently Restored

FERROZONE

Cures all Ailments From which Women Suffer

Many women suffer untold torture from nervous debility caused by disorders of the feminine organs. Day by day they grow worse, but from a false sense of modesty they shrink from using a good remedy like Ferrozone. And it would cure them.

Nothing renews weak women like Ferrozone. It brings back lost nerve force, supplies new vital energy, increases the blood supply.

No restorative so potent and prompt as Ferrozone has ever been discovered. You feel its uplifting effect at once. Your spirits rise, you gain in power and cheerfulness, feelings of weakness and despondency disappear.

No woman can remain sick or miserable if she uses Ferrozone. It goes direct to the seat of trouble, puts a stop to functional irregularities, and so establishes buoyant, robust health. Being free from alcohol, and dangerous drugs, Ferrozone can be used by young and old with absolute safety. Prepared in tablet form, fifty to the box; price 50c., or six boxes for $2.50, at all dealers, or N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ontario.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $2 per year, strictly in advance.

UNION LABEL

PETERBOROUGH, FEBRUARY 8 1905

BEWARE OF DAMAGING THE SIDEWALKS

ANY PERSON SO DOING IS LIABLE TO A FINE OF $50.

The Council Sidetrack the Plumbing Inspector By-law for Further Consideration. Peterboro Will not Have Free Postal Delivery, but Improvements Will be Made in the Post Office.

On Monday night the City Fathers met in committee on the question of appointing assessors prior to convening in open session. Subsequently they entered the Council Chamber and settled down to public work at 9 o'clock, continuing in session till 11.30. So much business was taken up that The Times found it imperative to carry over the following portion of its report till today's issue:

The Council met in regular session Monday, when there were present: His Worship, Mayor Henry Best in the chair, and Aldermen Johnston, Begley, Mason, Crowe, Hicks, Tovey, Scott, Adams, McIntyre, Batten, Adams and Leary.

The minutes of the preceding meeting were confirmed as type-written and distributed.

A WARNING.

A by-law to provide for the preservation of granolithic walks passed its several readings. Under this by-law an ax or other similar instrument must not be used to remove ice. No person shall dump heavy boxes or barrels on these walks. A fine of not more than $50 will be imposed for infringing this by-law.

GRANT OF $200.

Ald. Mason introduced a by-law to grant $200 to the Children's Aid Society, which passed its several readings.

RAILWAY SIDING.

Ald. Hicks submitted a by-law to permit the C.P.R. to construct a siding across Rink street, between Stewart and Bethune streets to the Shovel Factory. This passed its several readings.

NEW ARMORY.

A by-law to authorize the execution of an option in favor of the Minister of Public Works for a site for an armory in Peterborough, passed its several readings.

INSPECTOR OF PLUMBING.

Ald. Mason submitted his by-law to appoint an inspector of plumbing, the second reading of which was referred back to the Committee of the Whole Council, in connection with the question of sewerage inspection.

Mr. Duncan McGregor in making this appointment, and in an address to the Council, pointed out the urgent need of such an officer, to raise the sanitary condition of the town to a satisfactory standard.

SURVEY OF RIVER FRONT.

Ald. Adams submitted a by-law respecting the survey of the reserve along the River Otonabee, in the Town of Peterborough. This passed its several readings. Alfred J. Cameron did the work. $75 of the cost of this survey has already been paid, and another $75 will pay for the whole work.

FIRE, WATER AND LIGHT.

Ald. Johnston submitted the following:

Gentlemen,—Your Fire, Water and Light committee beg leave to report as follows:

1. That your committee authorize the chairman to sell two of the gray horses and one bay horse in the fire department for $375, and to purchase three horses to take their place, the horses purchased to be paid for on the order of the chairman of this committee, and we recommend that this be approved.

2. We also authorized the chief of the Fire Department to rent a suitable horse required for the fire hall until the team was purchased.

3. We recommend that an account from R. Parnall for $21.06 for services as relief teamster in the fire hall be paid.

4. We recommend that as John Montgomery was off duty owing to having been injured by an accident, the treasurer be authorized to pay him his wages due on Jan. 15th last.

5. We recommend that the following supplies, asked for by the Fire Brigade, be procured; 6 smoke masks, 2 hydrant keys, 6 hose keys, 6 rubber coats, 6 pairs rubber boots, 1 crow bar, 20 2 1-2 inch hose washers, 1 pitch fork, 2 keys to fit hydrants at Cereal Works, 1 set of new wheels for hose waggon, 400 feet new hose, 1 dresser and wash stand for Mr. Wainwright's room, 2 white spreads for firemen's beds, and 12 hose hangers for hose tower. Also that the bedrooms and other rooms be cleaned as needed.

All of which is respectfully submitted.

The report was adopted as read.

BOARD OF WORKS.

Ald. Adams submitted the following report:

Gentlemen,—Your Board of Works beg leave to report and recommend as follows:

1. That the term for the completion of Mr. John Robson's sewer contract be extended to May 15th, 1905, and be paid 85 per cent. on the work completed, provided he obtains the consent thereto of his sureties to the satisfaction of the Town Solicitor or procures a bond covering the whole work and this variation from Wm. Snowden and Vincent Eastwood, the bond to be in form approved by the Town Solicitor.

2. That the request of R. W. F. E. Davidson for permission to connect his house with the sewer to be built on Antrim street be granted provided he pays the whole cost of the work and that the connection be made at a junction and not at a manhole.

3. That the Town Engineer be instructed that in future no private sewer connections be made at manholes in the sewer.

4. That the Peterborough Radial Railway Co. be permitted to make two drainage connections with the sewer to drain their derailing device on Lock street, provided the drainage is found to be necessary, the company to carry the drains to connections in the sewer and to deposit with the Treasurer $2.00 for inspection.

5. That tenders for 3500 bbls., more or less, of cement be advertised for, on the same specifications as were used last year.

All of which is respectfully submitted.

The report was adopted as read.

STREET OPENING.

Ald. Adams reported as follows:

Gentlemen,—Your Street Opening committee beg leave to report and recommend that the Town Solicitor be asked to write to all property owners owning land required for opening George street south to Lansdowne street and north to Hilliard street and obtain such agreements or options as may be necessary, good to May 15th next.

The report was adopted as read.

LEGISLATION.

Ald. Scott submitted the following:

Gentlemen,—Your Legal committee beg leave to report and recommend as follows:

1. That the Town Solicitor be instructed to give notice of the intention of the Council to apply for Legislation for the following purposes: To confirm a Bylaw to aid the Peterborough Cereal Co.; to confirm a Bylaw to aid the Peterborough Shovel Co.; to confirm a Bylaw to authorize the borrowing of $3,000 to pay for alterations in the heating apparatus in the Central Public School; to confirm the purchase from the Roman Catholic Episcopal Corporation of the sites for the Armory and the Collegiate Institute and the conveyance to the Dominion Government and the Board of Education of the respective sites; to authorize the changing of the method of paying for the construction of granolithic sidewalks from the local improvement system to a general tax; to confirm debenture Bylaws passed recently and to incorporate the Town as a City.

2. That Robert G. Sturgeon be appointed Inspector of Plumbing at a salary of $800 per annum, he to be required to devote his whole time to the duties of the office, and to be provided with a horse and buggy by the Town.

3. That upon a new option being obtained from the Roman Catholic Episcopal Corporation for Lots 4, 5 and 6, n. Murray, w. George streets, and Lots 4, 5, and 6, s. McDonnel, w. George, at the price of $30,000, an option be given by the Town to the Dominion Government of Lots Nos. 3, 4, 5 and 6, n. Murray, w. George streets, for an Armory site and of the right to use Lots 5 and 6, s. McDonnell, w. George streets, for drill purposes for the sum of $10,000.

All of which is respectfully submitted.

The report was adopted as read.

COURT OF REVISION.

Ald. Scott submitted the following report:

Gentlemen,—Your Court of Revision beg leave to report and recommend that John Calvert having paid $1.00 dog tax in error for a tenant, and the tenant having taken out a tag for the dog, the $1.00 be remitted to Mr. Calvert, and that a cheque be issued for that purpose.

All of which is respectfully submitted.

The report was adopted as read.

FINANCE REPORT.

Ald. Mason submitted the following report:

Gentlemen,—Your Finance committee beg leave to report and recommend as follows:

1. That the Chairman and the Town Solicitor be authorized to enquire in Toronto as to the best form in which to issue instalment debentures to meet the requirements of the market and that the Treasurer be authorized to pay their expenses.

2. That the expenses of the Chairman of the Board of Works in attending at Ottawa with the deputation that waited on members of the Dominion Government in regard to the control of streets by municipalities be paid.

3. That in order to keep a check on the purchase of supplies, the Chairman of each department issue orders for such supplies as are needed for his department, and that the Town will not be responsible for purchases made without a written order from the head of the department.

4. That the Chairman and Ald. Adams be authorized to re-arrange the method of keeping the vouchers of the Corporation.

5. That the waterworks debentures authorized by Bylaw No. 1117 be issued as asked by the Water Commissioners, namely to provide $6000 on April 1st, $5000 on July 1st, and 5000 on Sept. 1st.

6. That the Peterborough Radial Railway Co. be sent an account for the expense of flooding their skating rink.

7. Recommending that a number of accounts be paid.

8. That the Treasurer be authorized to pay for the use of the premises for polling booths at the late election for the Legislative Assembly in accordance with a certificate from Mr. James A. Hall, Returning Officer.

The report was adopted as read.

COMMUNICATIONS.

From Alfred Cameron, Ontario Land Surveyor, saying that he estimated the survey of the reserve along the river front at about $150, which includes $75 already paid for work which will be used now.—Received.

From Duncan McGregor, suggesting that the office of Plumbing Inspector be paid on the following basis: The Town to pay $300 a year, and that a small fee of $1.50 be charged on each contract of $50 and under; $4.00 on each contract of $200 and under, and an additional $1 on every $100 or fraction thereof over $200.—Received.

From a number of citizens, asking that the Council call a meeting for Thursday evening, 9th instant, to consider with members of the medical profession and the Board of Health the establishment of a sanitarium for the treatment of tuberculous patients.—Received.

From ratepayers, asking that an electric light be placed at the corner of Stewart and Dalhousie streets.—Board of Works.

From Andrew T. Thompson, advising Council that application will be made for the incorporation of the Georgian Bay and Seaboard Railway at the present session of the Dominion Parliament.—Received.

From W. G. Morrow, enclosing a copy of the School Board estimates for 1905.—Received.

From R. R. Hall, M.P., enclosing a letter from the Deputy Postmaster General, and stating that the plans for improved facilities at the Postoffice here had been approved of. These improvements will include a new set of boxes, three delivery wickets, and two entrances to the Post office. These changes will be put into effect as speedily as possible.—Received.

From G. E. Whiten, asking the

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some person to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

[1] At least six months' residence upon and cultivation of the land in each year during the term of three years.

[2] If the father (or mother, if the father is deceased), or any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same town, township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1905.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Land Agents in Manitoba or the Northwest Territories.

W. W. CORY, Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

INCORPORATED

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and, we believe, exceedingly profitable investment. Every dollar of stock is guaranteed by twenty year, full paid, gold bond, delivered to purchaser of stock, from an Investment Company that has no interest whatever in the company, but who are disposing of the debentured bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the State Treasurer under which they received their charter, there by doubly securing the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvellously rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Simmer and Jack Mining Co:, Limited, Klondyke Mountains, South Africa:—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world.

"With the present development of the Monument Mine, I estimate that 100 tons per day can be extracted, which will mill from $15.00 to $20.00 per ton. The total cost of mining the ore, delivering and milling, I place at about $4.00 per ton. With the increased milling capacity, it is safe to say that the mine can furnish 100 tons of $15.00 ore, which would yield a clear profit of $11.00 per ton, or $1,100.00 per day (equal to $400,000.00 per annum). Estimated total value of ore in sight, $2,500,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Alden P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Dr. Brown writes as follows:—

"In regards to the amount of ore available at the mines at Sinclair, I saw on the dumps several thousand tons, probably 5000 tons would be an under-estimate.

"As to the size of the ore body itself, from what I saw of the geological structure, I think that there is every indication that it will be found to extend underground as far as the out-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish full information to investors.

DRS. KENNEDY & KERGAN

148 Shelby Street, - DETROIT, MICH.

A SPLENDID PROPOSITION

The Salido Gold and Copper Company

Incorporated under the laws of Arizona, with a capital of $3,oc ooo forever non-assessable divided into shares of $1 each, par value. All investments insured Granite Securities Company.

The "SALIDO GOLD-COPPER COMPANY" enterprise offers attractions to the investors of the country, that without thorough investigation, would scarcely seem probable. If only a fraction is realized of what any prudent business man in his own affairs would regard as absolutely certain, the enterprise must prove abundantly successful and exceedingly profitable.

SALE OF STOCK

The company will prosecute the work of development with all the diligence that he cash in the treasury will permit and circumstances warrant, and to this end a small amount of the treasury stock is now placed upon the market, in blocks of not ess than One Hundred Shares. The par value of the stock is One Dollar per share, fully paid and forever non-assessable.

The company reserves the right to advance the price of stock without notice.

REMEMBER

First—That all payments for treasury stock go into the treasury for development work and not into the pockets of the promoters.

Second—There are no salaried officers

Third—The incorporators have put their own good money into this enterpr se and being business men, intend to do business along business lines.

Fourth—That this company is honest.

Fifth—If you are thinking of investing in mining stocks this is worthy of your careful investigation.

OTHER PROPERTIES

This Company owns four other Gold and Copper Mines, wh ch title is now in process in the laws of Mexico. As soon as title is perfected, we shall commence to develop them as we certainly expect something very great from these properties. Our assays taken have been of the very best, showing gold and copper from $6.00 to $122. 30 per ton.

I have secured a small block of this stock, which I offer at the following prices: Unguaranteed 40 cents per share, guaranteed 80 cents per share. These prices will only prevail for a short time, as the number of shares for sale at this price is limited. The Shares will then be advanced to 40 cents for the unguaranteed and 80 cents for the guaranteed. I can unhesitatingly recommend this investment to the Canadian public.

PRESENT SITUATION IN CZAR'S DOMAINS

Russian Living in Montreal Gives Opinions Regarding Conditions

GENERAL TREND OF EVENTS

Thinks a New Chapter is Opening in the History of the Russian Nation

Montreal, February 6.—Mr. Charles Dubin, a former officer of the Russian navy, was seen by a reporter. Speaking of the present situation in the Czar's Dominions, Mr. Dubin said:

"All the recent despatches indicate now more clearly and forcibly than ever that the general trend of events there has, at last, forced its way to the opening of a new chapter in Russian history, and that the people are now on the eve of realisation of their long-cherished hopes of a more liberal form of government.

"When the present situation of the internal affairs in Russia are considered the wonder is how the bureaucracy and all the excesses of absolutism could exist and be tolerated by the people of Russia even so long.

"A year ago this date all the diplomacy of the Imperial Government in Russia failed to avert the dreadful collision in the Far East with an Asiatic nation, which, before that collision occurred, was rated as a third class power.

"This disastrous war with Japan was the greatest blunder committed by the Czar's Government, and the first results of this great blunder were that the people of Russia began to realise at once all the weakness, incapacity, and corruption of their Government, or at least, of the officials directly responsible for this war.

"It is no longer a secret that all the horrors and butchery of this great conflict in the Far East were originated by a clique of some six men in Russia. Under the auspices of Grand Dukes, headed by the Czar's favorite, M. Bezobrazoff and Admiral Alexieff, this small clique obtained some valuable timber concessions in Northern Corea, and on the Yalu. But not being satisfied with that and trying to further their personal interests there, these men did not hesitate to intrigue among the Russian, Corean, and Japanese Governments, causing Russian troops to be sent to them for their assistance on an imaginary trouble.

"This intrigue for the sake of personal gain for the Czar's own representative in the Far East and of some other highest officials in the Empire started the trouble with Japan, which trouble soon led to the fiercest of battles of war between the two countries. The final outcome of this war is as yet uncertain, but the Russians have already lost so heavily that all their possible future gains in this war will hardly compensate them for one half of their losses sustained so far.

"And yet, men like Alexieff were put at the head of the Government in Russia, representing the Czar, and committing all the atrocities in his august name, including the robbery and waste of treasury and sacrificing of thousands of human lives. But there are many such men like Alexieff in Russia, who attain great power, but proving themselves incompetent, corrupt and intrigue-loving will soon drop out of favor and go down in disgrace."

QUEER ACCIDENT NEAR UTICA

A Locomotive Exploded and Wrecked Two Trains

Utica, N.Y., Feb. 7.—One of the strangest wrecks in the history of railroad in this section occurred at Whitesboro, three miles west of this city, at an early hour this morning.

Train 23, the western express, was drawn by an engine known as the Pacific type. As this engine was passing train 30, the Buffalo special, eastbound, the westbound engine exploded. The full force of the explosion was felt in the second car of the eastbound train, as the westbound engine was directly opposite that car when the explosion occurred.

TWO TRAINS WERE WRECKED.

Both trains were running at what may be called full speed, and from the effects of the explosion and the upheaval of the wrecked engine and the car which was opposite at that moment, the coaches were thrown from the tracks in both directions. Both trains were well filled with passengers, and the west-bound train is known as one of the best trains on the road for sleeping car passengers.

NIHILISTS PLAN ACTION ATONCE

Conclave in St. Petersburg Issues Flaming Manifesto to Chiefs

St. Petersburg, February 7.—I hear from an undoubted revolutionary source that a nihilistic conclave was held in the small hours of this morning. There was a fierce altercation over the expediency of immediate action, a stout minority contending that the brotherhood, equally with the strikers, was cowed in the failure of the response to annihilate. The nihilists resolved to call for action after midnight Sunday.

A flaming manifesto was drafted, and copies were conveyed to district chiefs for distribution among sworn chiefs are to meet to assign each trusted desperado a prince, a victim, a bomb and a knife.

The same informant says he knows Father Gopon was arrested and is in a monastery, where the synod will deal with him.

The Czar is reported nervous and breaking down fast in silence and tears.

Those for Whom the

MUSKOKA FREE HOSPITAL FOR CONSUMPTIVES

Is Built

Not a single patient has ever been refused admission to the Muskoka Free Hospital for Consumptives because of his or her poverty.

Since the Hospital was opened in April, 1902, nearly 400 patients have been cared for.

Would Have to be Sent Free.

H. J. Pettypiece, M.P.P., Forest, Ont.: "There is a young lad in town, named Kenneth Levitt, aged seven years, showing the very first signs of consumption, and Dr. McCordie, who is attending him, recommends that he be sent to the Sanatorium. He would have to be sent to the Free Hospital, as his mother says she could not pay more than $1 per week. They asked me to write to you. Do you think he can be admitted?"

No Means to Pay.

L. H. Cascadden, M.D., Douglas, Ont.: "I have a patient in whom pulmonary tuberculosis is just developing, and who has no means of her own to pay for treatment, or at any rate only a small fee in a hospital. I think the treatment at the Sanatorium would help her, and as she has no home I have advised her to seek admission in your institution. Will you kindly send me conditions governing admission?"

A Widow With Small Means.

Mrs. Readwin, Hamilton, Ont.: "I am a widow with one little girl, aged 11 years; my age is 30 years. I am troubled with tuberculosis. I have been doctoring for some time, and my physician has advised me to go to Muskoka. I am not left with very much means, so will you kindly let me know the full particulars, and what is the lowest fees you would charge me a week."

Family Supported by Church and Neighbors.

S. J. Ewing, Allistop, Ont.: "While in Gravenhurst the other day I called at the Hospital on a young man named Arthur Armstrong, of this town who was sick with pneumonia about ten or eleven months ago. Since then he has not been able to work. The family are supported by the church and neighbors. What can you do to admit him?"

No greater work of faith has been undertaken in any country. For its support the Hospital is dependent on the generosity of the people of this Dominion.

Contributions, large or small, will help, and may be sent to Sir Wm. R. Meredith, Kt., 4 Isamport Ave., Toronto, or W. J. Gage, Esq., 84 Front St. West, Toronto.

A SPLENDID PROPOSITION

Rare Chance to Secure a Paying Investment

THE GOLD COIN MINING COMPANY

has placed a small block of their stock at the disposal of Canadian investors. This stock is sure to rapidly advance in price. The Company is now arranging to instal the power plant and a mill and cyanide plant for the reduction of their ore to a bullion on the property. They have arranged with a Trust Company having assets of $1,500,000 to put up a bond guaranteeing investors the repayment of the full amount invested. This makes investors absolutely safe. By no possibility can they lose a dollar

THE GOLD COIN MINING COMPANY was organized November 21, 1902, under the laws of the State of Idaho. The capitalization is one million shares of the par value of one dollar each, fully paid and non assessable; of the 1,000,000 shares, 400,000 have been set aside as treasury stock.

THE BOISE BASIN came into prominence shortly after Grimes and his party of prospectors entered the Basin country in 1862; their entrance was into the northern portion and one discovery of rich placer ground followed another until the news of the rich finds reached the outside world, when a veritable stampede for Boise Basin commenced, towns sprang up and grew together in an incredibly short time; the rush of people to Idaho City made it a place of 20,000 people in 1867, having a business street over a mile long lined with two-story buildings streets and sidewalks filled with people day and night business and money on every hand and the city bearing the proud distinction of being the capital of the territory of Idaho. Wages ran from $6 to $10 a day and not infrequently forty and fifty men worked on a single placer claim; the clean-up for a day's work in many instances ran close to $5,000; large fortunes were made in a few days by washing the golden sands in a pan; so eager was the quest for the shining metal that the streets of Idaho City were dug up and washed and re-washed, and the soil removed from under the houses and places of business. So extensive was the search for the hidden treasure that not only all of the low ground was worked but the foot of the mountains surrounding the city have been washed away, filling up the lower portions of the basin and extending into the town, where one of the buildings has been buried under the tailings from the numerous placer workings

LOCATION—The property of the Gold Coin Mining Company is situated in the Gambrinus Mining District, Boise County, Idaho, on the range of mountains between Moore Creek and Elk Creek, which forms a part of the eastern boundary of the famous Boise Basin and into which these mountains are drained. The property is located ten miles northeast of Idaho City, from which place there are good wagon roads either to the workings on top of the mountain or to the place of the proposed tunnels in the gulch which crosses the Tunnelsite claim.

THE CLAIMS—The Company owns a group of four contiguous lode mining claims and the Gold Coin Millsite: the names of the lode claims are the Tunnelsite, Blue Bell, Pennsylvania and Hementahe, each being a full claim 600 feet wide by 1,500 feet long, excepting the Tunnelsite claim, which is 450 feet wide at the west end and 1,055 feet long: it was necessary to stake the claim in this form on account of joining the Washington property on the south and the Sub Rosa property on the west, these properties being prior locations to the Tunnelsite claim. The four lode claims aggregate nearly 80 acres of rich mineral land.

Further particulars may be had on application to WM. SAILSBURY, Fiscal Agent of the Company Peterborough, Ont., or to

S. E. PHELPS, Secretary,
311 SCHOFIELD BUILDING, CLEVELAND, OHIO.

You Take It Mixed With Air

A Powerful Destroyer of Disease Germs Which Cures Every Type of Catarrh Bronchitis and Throat Trouble.

Ever since Adam the air of the Pine woods has been known to possess marvellous healing properties. In fact doctors claim that people living in the balsamic atmosphere of the woods never contract consumption or catarrh.

A new remedy that embraces all the healing curative powers of the pine woods has at last been realized. It contains the balsams, the ozone and many other antiseptics that make it an absolute cure for all catarrhal diseases.

For years doctors have been looking for just such a remedy and claim the newly discovered Catarrhozone is the most effectual, the most scientific cure for catarrh, bronchitis and winter ills, they have ever met.

So powerfully healing is Catarrhozone that simple colds in the head and coughs can be cured in less than an hour. Chronic catarrh is eradicated from the system in the most thorough manner. It doesn't matter whether the catarrh affects the nose, throat or stomach, it can be completely driven from the system by using fragrant healing Catarrhozone.

The remotest parts of the lungs and air passages often contain germs of catarrh and consumption which cannot be reached by ordinary treatments. But the searching vapor of Catarrhozone carries its antiseptic healing power direct to those isolated spots. So thoroughly does Catarrhozone reach all diseased surfaces that it cures for all time, and no relapse need ever be feared.

"My nose was so stuffed up from catarrh that I could not breathe except through my mouth," writes John D. Perkins, a well known merchant in Hamburg. "My breath was horribly offensive and my digestion was completely knocked out. I used Catarrhozone and was cured in two weeks. I wouldn't take five thousand dollars for the benefit and good health I received from Catarrhozone which I can recommend as a certain, absolute cure for catarrh."

Two months' treatment costs $1.00; sample size, 25c. At druggists or by mail from N. C. Polson & Co., Hartford Conn., U.S.A. and Kingston, Ont. Catarrhozone always cures—refuse a substitute, and insist on getting Catarrhozone when you ask for it.

Girl Wanted

A girl with some experience wanted at The Times bindery, to feed ruling machine. Apply at Times Book store.

Remember St. Valentine

The Times Bookstore has the most complete line of Valentines in town, suitable for lovers, boys, girls or mothers-in-law. All prices.

An Interesting Address

Last night Rev. J. J. Wright delivered a very interesting lecture in St. Andrew's church, under the auspices of the Young Men's Guild, on the "Life of Napoleon." The address was instructive and was thoroughly enjoyed by those present.

Progress and Enterprise

Owing to the continuous increase of patronage, and shrewd foresight as to their future business, the Peterborough Radial Railway Company, ordered more cars a short time since. Two of these cars, made in Cleveland, Ohio., will probably arrive in time to help out the rush of next Saturday's traffic. It is expected that these cars will be in keeping with the excellent rolling stock now so ably managed. The railway people are certainly keeping their promises to the public, and the people seem to know a good thing when they find it.

DUTTON'S MARKET

See our Grocery Window for Bargains.

R. A. DUTTON
Phone 204. 418-420 George Street

The attendance at the Peterboro Business College larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 90 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence courses.

Seven Cases of Smallpox

The Provincial Health Department was notified Saturday of seven cases of smallpox in Hanmer Township, Nipissing. Dr. R. W. Bell, inspector of the department, left for the place Saturday to see that the local authorities are doing all that is required, and to give them any necessary assistance. There are no particulars as to the outbreak.

Look Out, Boys!

The Chief of Police is up in arms against those boys who seem to consider they hold a mortgage on the sidewalks. We think pedestrians will not get into mourning, if hockey sticks, with small boys attached thereto, are confined to their practice in other localities. It is one of the least pleasing surprises to suddenly run one's eye into a hard chunk of ice, propelled by the stick of an enthusiastic hockey boginner.

St. John's New Rectory

At a meeting of the Vestry of St. John's church held Monday night, the committee previously appointed to advise the vestry as to the most appropriate site for the new rectory, recommended that the structure be erected at the corner of Sheridan and Brock streets, facing north and west. This recommendation was unanimously adopted. The following gentlement were appointed a Building Committee; Dr Boucher, chairman, and Messrs. R. M. Denniston and H. Rokh. Mr. J. E. Belcher will prepare the plans and specifications for the new rectory.

Who Owns the Bridges?

Yesterday Warden Buck accompanied by the County Council, left for the Capital on a mission of importance to this county. Their object is to request the Minister of Railways and Canals to lay before the Government the advisability of Government control of such swing bridges, on the Trent Valley Canal system, as are now owned by the Counties of Peterborough, Northumberland and Durham. The petitioners ask that act of maintenance and incidental expenses in connection with these swing bridges be assumed by the Government.

IT PAYS TO ADVERTISE

Over a Dozen Answers to a Want Ad in The Times

Mrs. R. A. Hamilton, 495 Aylmer street, advertised in The Times for a servant, and in response to the notice in these columns received a dozen replies the first couple of days. This is only one of the many similar cases. Everybody reads The Times.

LITTLE LOCAL LINES

Bushes Here and There by TimesjReport rs on Their Round

—Next Tuesday will be St. Valentine's Day.

—Cobourg is the latest applicant for the canal outlet.

—The Times Bookstore for genuine bargains in fancy goods and stationery.

—Wm. Flood under the title "Vag" retired for a week yesterday. In the interim his address will be care of Castle Nesbitt.

—If you are lonesome and getting tired of things in general an easy cure will be effected by your joining the Y.M.C.A.

—Mr. D. W. Dumble will deliver an address before the Young Men's Guild this evening at the George street church on "Commercial Law."

—The 57th Band will run the second of their series of popular concerts Friday, February 17th. There will be an entire change of program.

—The curlers are considering the matter of running an excursion to Toronto next week, when they will meet several of the city clubs.

—At the regular prayer service in Charlotte street church this evening the representatives from the congregation to the Quarterly Official Board for the coming year will be elected.

—Medical Health Officer Dr. Bingham states that there is not a single case of diphtheria or scarlet fever in town at the present time. This shows that our town is healthy and our water is good.

—Lent begins this year on the 8th of March and ends on the 23rd of April. Easter will be on the 23rd of April. The last possible date that Easter may occur is April 25th, and it is only at long periods that Easter falls as late as that. In 1886 Easter came on April 25th and it will not again fall upon that date until 1942. Easter has not fallen on April 23rd since 1846, and after this year will not fall upon that date until 1916.

SOCIAL AND PERSONAL

—Mr. Fred O'Connor is home on a visit from Montreal.

—Miss Edna Lemon, of Toronto, is a guest of Miss Ethel Tully, McDonnel street.

—Mr. R. Phillips, one of Havelock's most progressive business men was in town on Monday.

—Mr. Wm. O'Brien, the genial clerk of Douro, was in town yesterday, and dropped in to see The Times.

—Mr. Fred Matachke, of Cleveland, is visiting at his home on Dublin street.

—Mrs. Harry Hooper and her little daughter, Miss Erma, Pontypool, are the guests of Miss Chambers, Water street.

—Rev. J. C. Davidson left yesterday for Toronto to attend the quarterly meeting of the standing committees of the Synod. He will be absent all the week.

—Mr. J. J. Turner, jr., Mr. A. Kingdon, and Miss L. Stewart are the delegates of St. Luke's Sunday School at the Church Sunday Schools' Convention of the Diocese of Toronto in session to-day and to-morrow.

—Mr. G. V. Clements, an old Peterborough boy, writes that he is recovering from illness in St. Anthony's Hospital, Oaklahoma City. He will shortly leave that city for Southern Texas, where he will spend the balance of the winter and visit Peterborough next June.

—Mr. Louis T. Best who was formerly with H. H. Edmison here, but who has been lately residing in Sarnia and employed with the Clement Drug Company of that place, has purchased the drug business of the Taylor Drug Company, of Kingston. Mr. and Mrs. Best and child have moved from Sarnia to Kingston and their many friends in town will wish

WHY DID THE COUNCIL CHANGE FRONT?

In the Matter of Appointing Assessors They Say That T. B. McGrath's Seniority Entitled Him to the Position.

Considerable speculation is rife in town as to just how it happened that John Kincaid was appointed one of two assessors at one meeting of the Committee of the Whole Council, and turned down at a subsequent session. Yesterday this journal was besieged by enquiries as to the causes which led to so radical a change of front on the part of our City Fathers. Of course, being excluded from the meetings in question, it is impossible for the press to vouch for the accuracy of the many rumors in circulation; but so far as The Times can learn from what it considers a most reliable source, the official decapitation of Mr. Kincaid occurred in this manner; At the first meeting of the Council in Committee, Thos. McKee and John Kincaid were appointed assessors, in so far as the powers of that committee were concerned; the committee's recommendation would have to be adopted by Council in regular session for a finality. Three aldermen were absent from that meeting, but made a point of being present at the subsequent one, when Aldermen Johnston and Crowe advocated the appointment of an Assessment Commissioner, and asked that the whole question be re-opened. This was acquiesced in on a unanimous vote, the whole Council being present. Ald. Begley, who was absent from the first meeting, then inquired why it was that T. B. McGrath, who had been one of the four assessors annually appointed for years past, had been ignored, and argued that his seniority of the four named as desireable and experienced men in the important duties required of them by the town, would justify the Council in appointing him this year, even were but two assessors engaged. A pretty lengthy discussion here ensued, resulting in John Kincaid being turned down in favor of T. B. McGrath. His Worship insisted on the votes being recorded by ballot in both instances.

The fact of three Aldermen being absent from the first committee meeting furnished argument in favor of re-opening the question at the second meeting when all were present.

With all respect tot he wisdom of our City Fathers, a large number of ratepayers offer the opinion that in ignoring John Kincaid, they have rejected the services of the best of the bunch.

WEDDING BELLS

Nuptials of Mr. Jos. Lynch and Miss Maud Kelly

At 5.30 yesterday morning a very quiet and interesting wedding was solemnized at St. Peter's Cathedral by Rev. Dr. O'Brien, when Miss Maud Kelly, daughter of Mr. Daniel Kelly was made the bride of Mr. James Lynch, a popular young druggist of town.

The bride was attired in a handsome travelling suit of brown, and was attended by her sister Miss Laura Kelly. The groom was supported by Mr George Lynch. After a dainty wedding breakfast had been served at the home of the bride, the happy couple left on the morning train for a trip to New York. On their return Mr. and Mrs. Lynch will reside on Charlotte street.

The Times unites with their many friends in wishing Mr. and Mrs. Lynch many years of wedded happiness

HURRY UP!

Everywhere one hears that expression "hurry up!" It is a genuine Americanism expressive of the "rush" in which we live. Nothing is swift enough for us. We race against steam and lightning and find them slow. We grudge the time given to eating, and rush through meals as though life depended upon our haste.

Life does depend on our haste, but not in that sense. Look at the obituary columns of the papers and see how many prominent men are carried away by "stomach trouble," "acute indigestion" and other related diseases. Their lives have in general been sacrificed to the haste and rush of business which overlooked the fact that food can only nourish the body when digested and assimilated and that the digestive and assimilative processes *can't be hurried*.

Dr. Pierce's Golden Medical Discovery, cures diseases of the stomach and the associated organs of digestion and nutrition. The source of all physical strength is food, properly digested and perfectly assimilated. By enabling the perfect digestion and assimilation of food "Golden Medical Discovery" increases and enriches the blood supply and sends new strength to every organ of the body.

"I was at one time as I thought almost at death's door," writes Mr. J. S. Bell, of Leander, Van Buren Co., Iowa. "I was confined to my house and part of the time to my bed. I had taken quantities of medicines but they only seemed to feed the disease; but I must say that 'Golden Medical Discovery' has cured me, and to-day I am stouter than I have been for twenty years. I am now forty-three years old."

FREE. Dr. Pierce's Medical Adviser sent *free* to you on receipt of stamps to pay expense of customs and mailing *only*. Send 21 one-cent stamps for cloth-bound book, or 21 stamps for paper-covered to Dr. R. V. Pierce, Buffalo, N. Y.

A FORGETFUL CONSTABLE

A Man on His Way to Peterborough Has a Close Call

A man named White, who was on his way to Peterborough from the west, walked into Police headquarters in Lindsay on Friday last, and asked for a night's lodgings. He was placed in the lock-up by Chief Newcom, who forgot all about his man until Sunday forenoon, when his outcries and beating about his place of confinement attracted the notice of Driver Bell, of the fire department. During all that time White had nothing to eat, and only such water as he could get out of the heating radiator. If he had been in the inner cell of the lock-up he could not have been heard and might easily have perished, for the chief had entirely forgotten him.

MAN'S THING

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

Concluded from page 2.

privilege of taking a photo of the Council.

From R. M. Denniston, secretary Children's Aid Society, asking for a renewal of the grdant made to this institution, and extending thanks for past assistance.—Received.

From Denniston, Peck, Kerr and Stevenson, solicitors for the Board of Education, asking the Council to close the option given by the Bishop of Peterborough for the site for the new Collegiate Institute. The letter submitted that the Town must take initiate steps in the matter, since it was through them that negotiations were carried on with the Dominion Government, and not with the Board of Education.—Legal committee.

The Town Engineer submitted his annual report in detail of monies expended under his supervision.—Board of Works.

From J. H. Smythe, claiming $40 damages for injury to a new cutter through the snow being piled too close to the street railway track on Carlotte street.—Legal Committee to report.

From Wm. Taylor, asking refund of peddlar's license.—License Committee.

From W. J. Green, Tax Collector, submitting a statement of taxes collected during month of January, amounting to $630.09, with $28.55 interest on same.—Received.

From the Peterborough Light and Power Co., asking that they be not taxed for electric lights, poles, wires in Ashburnham, and the street railway barn, as under contract with the Town they are not committed to any taxes but the $400 pole rental.—Franchise committee.

From J. S. Richardson, asking refund of $10, peddlar's license.—License committee.

From the Canadian Fire Underwriter's Association, asking that the necessary precautions be taken to ensure the fire-fighting apparatus being in good order.—Fire, Water and Light committee and the Water Commissioners.

From R. R. Hall, M.P., asking that the petition for all monies due from the Dominion Government for the armories site, be secured from the official corporation at as early a date as possible, so that he may bring the matter before the Hon. Mr. Hyman.—Referred to the Town Solicitor.

MONTH AFTER MONTH a cold sticks, and seems to tear holes in your throat. Are you aware that even a stubborn and long-neglected cold is cured with Allens Lung Balsam?

No Breakfast Table complete without

EPPS'S

An admirable food, with all its natural qualities intact, fitted to build up and maintain robust health, and to resist winter's extreme cold. It is a valuable diet for children.

HOW JAPAN HAS DRIVEN RUSSIA OUT OF KOREA

Review of Over Seven Months Land Fighting in the East

FIVE GREAT VICTORIES IN SUCCESSION

Japanese Troops Everywhere Successful--Kuropatkin May Finally be Forced to Surrender

Headquarters of Oku's Army, Manchuria, January 9.—It is now more than seven months since the land fighting in the Russo-Japanese war began and now the armies seem to have settled down to await for warmer weather before continuing the fighting. Of course one never can tell when trouble will begin, for no matter what the plans of one army may be there are always the plans of the enemy to reckon on.

During these seven months the Japanese have done marvelously well, although they have not accomplished all that it was hoped they would accomplish.

ALL HOPES NOT REALIZED.

But during those months the Japanese have accomplished much more than a year ago, people who were not in close touch with Japan and the Japanese preparations would have believed they could accomplish.

The war on land practically opened May 1 with the battle of Antung and the crossing of the Yalu river from Korea into Manchuria. This was accomplished with little difficulty by Gen. Kuroki and his army, who have since pushed on across the mountains of Manchuria, defeating the Russians at different places and gradually their desperate counter attacks at Motien Ling pass and other places. Today Gen. Kuroki's army forms a part of the main Manchurian army of invasion, after marching over nearly 300 miles of the most difficult country in Manchuria, meeting the enemy and defeating them a number of times and not losing a single battle.

FIVE VICTORIES IN A ROW.

In May Gen. Oku's army landed on the Liao-Tung peninsula and since then has won or helped to win five great battles without defeat. This ern movement of the force under army effectually checked the south-Gen Kuropatkin which had been directed to relieve Port Arthur, and has now driven it back to within a few miles of Mukden itself. Every time the two armies came in touch the Japanese were victorious and the Russians were forced to retire still further until they finally reached the place where they had spent many weeks in preparing a series of earthworks and defences which are, it is believed, much more elaborate than any the Russians have before occupied.

In the meantime Gen. Nozzu, with one division, landed at Ta-Ke-Shan, on the Korean gulf side of the Liao-Tung peninsula, about midway between Dalny and the mouth of the Yalu, and, defeating small bodies of Russian on the way, marched across the country to Rai-Cheng, where he formed a junction with Gen. Oku's army.

RAIN SAVED THE RUSSIANS.

When Gen. Oku's army had driven the Russians back from Nanshan onto Port Arthur itself, after one of the most desperate battles of modern times, Gen. Nogi's army landed at Talien-Wan bay, Dalny having been occupied after Nan-Shan, and

DECLARED HUSBAND DEAD

But He Is Alive and Well in Toronto—Wanted Insurance

Toronto, Feb. 9.—Although William Skelton's wife has declared before a notary public that her husband is dead, he is still in the land of the living, his address at the present time being the Workingmen's Home, 59 Frederick street, Toronto. Mr. Skelton appeared in the flesh before an incredulous press representative at the above address yesterday morning.

Mrs. Skelton, who lives at Locklin, near Lindsay, Ont., has asked Dr. Radford, coroner, for a certificate to the effect that a man killed on the C.P.R. track, six miles west of Galt, on Nov. 3, last, was her husband. Enclosed with the letter of application was the statutory declaration that she had examined a photograph of the deceased, and had identified the remains as those of her husband. She said she wished to apply for certain insurance on her husband's life in an English company, and the certificate of death from the Coroner was necessary.

SON INTERFERED.

On the strength of the sworn testimony of the wife, it is possible that the Coroner would have given the certificate, had he not received a letter from William Owen Skelton, a son of William. Young William lives at 291 Lippincott street, Toronto, and when he read in the papers the account of his mother's action, he wrote to Dr Radford, acquainting him of the circumstance that his father was not dead, but living in Toronto. A few days later the Coroner received an official notification to that effect from Deputy Chief Stark, of the Toronto Police Force.

Skelton, sr., who is fifty-two years of age, during the interview, said he came out from England with his family about four years ago, and for a year they all lived with his wife's brother, E. Osborne, on the farm at Locklin

IMMENSE GAIN IN RAILWAY MILEAGE

Trackage in the Dominion is 19,611 Miles, an Increase for the Year

NEW LINE IS IN PROSPECT

Grand Trunk Pacific Enterprise Will Add Much to Total Within a Few years

Ottawa, Feb. 9.—According to the compilation of railway statistics which has been completed by the railway department of the Dominion Government, the mileage of steam railways in Canada on June 30 last was 19,611, showing an increase of more than 500 miles over the preceding year. This also represents a paid-up capital, including all subsidies, of $1,186,546,918, which is an increase of $46,000,000 over 1903.

Within a comparatively short space of seven years or less the Grand Trunk Pacific system will be completed and in operation, which alone will add over 3,000 miles more of railroad to the total in Canada. This system probably will be the last great transcontinental railway to be built on this continent, and with its completion Canada will have three roads running from ocean to ocean—the Canadian Pacific, the Canadian Northern, now in course of construction by the Mackenzie & Mann interests, and the Grand Trunk Pacific. The latter, however, will be the first trans-continental line to be built continuously on the American continent from the Atlantic to the Pacific, and will be exceeded in length by only the great Russian trans-Siberian military road, which is over 4,000 miles long.

SURVEYING PARTIES OUT.

Many survey parties are scattered over the eastern section of the Grand Trunk Pacific, which is being constructed by the Dominion Government forming a chain of engineering camps extending from Quebec to Lake Winnipeg. These survey parties are living under canvas on the bleak and uninhabited stretches of the hinterland country, pursuing their arduous work under great difficulties in subarctic winter conditions, making life an adventurous one and full of danger and hardship.

The gross earnings of the Canadian steam railways last year were $109,219,496. Out of the 23,640,765 passengers carried during the year there were only twenty-five killed, as compared with fifty-three in 1903. Of electric railways in Canada in 1904 there were 767 miles in operation, representing a capital of $80,453,609, and of the 181,089,998 passengers carried by the electric roads during the year only ten people were killed, being twenty-eight less than in the year previous.

The medical superintendent of the leper hospital at Tracadie, New Brunswick, in his report to the department here, states that the register of the institution shows the names of fifteen inmates, ten males and five females. He also reports that leprosy is rapidly decreasing.

COMPILES LEPER HISTORY.

For several years, under instructions from the director general of public health, the superintendent has been compiling a record from all available sources of the history of the lepers from the first known cases, the local conditions connected with them, their origin, nativity, etc. As a result of careful investigation he is more and more convinced of the communicability of leprosy through contagion.

One case is cited from the records. A young woman, whose father was leprous, and who herself developed the disease after marriage, had for some time in her employ a servant girl. This girl married a young man who, like herself, was free from any family taint of leprosy. After her marriage she became leprous, and, with her husband went to live in the same house with her husband's brother and his family. One of this brother's children afterward became a leper, and four more of the children subsequently became affected and died in the Lazaretto at Tracadie.

The record of the trade and commerce of Canada for the last fiscal year, as shown by the report just presented to Parliament, is a continuation of the story, sat old in the reports for the several preceding years, of increases in the aggregate trade of the country and of general prosperity. The total imports of merchandise was $243,590,019. Of this amount $61,724,616, or 25 per cent. came from Great Britain, and $143,-910,578, or about 59 per cent. came from the United States. The former country, however, took 58 per cent. of Canada's exports of merchandise and the United States 33 per cent. the total exports being $211,056,678.

POLICE COURT

A Well Merited Rebuke — Information Wanted

A well-merited rebuke was administered yesterday yesterday morning by Acting Magistrate, H. Rush to a delinquent charged with non-support of his wife. It seems that the party, although loaded with explanations as to his conduct, is not altogether a stranger to another kind of load. He promised to do better in future, and, taken at his word, was allowed to go.

The Chief of Police is in receipt of a communication from Mrs. Frank Forbay, Ithaca, N.Y., in which she asks information concerning the Harris family, and particularly about [illegible] who is wanted by her

MR. WHITNEY ANNOUNCES NAMES OF HIS COLLEAGUES IN THE MINISTRY

NEW GOVERNMENT HAS BEEN FORMED.

Toronto, Feb. 9.—The new Whitney Cabinet was formed yesterday morning, and the official announcement was made by Mr. Whitney shortly after 12 o'clock, when the new Premier had been to Government House and formally submitted the list to his Honor the Lieutenant-Governor. The new Ministry were sworn in at 4.30 in the afternoon as follows;

MR. WHITNEY'S CABINET

Prime Minister and Attorney-General, J. P. Whitney, K. C., Dundas.
Minister of Crown Lands, J. J. Foy, K.C., South Toronto.
Provincial Treasurer, Col. Matheson, South Lanark.
Minister of Education, Dr. Pyne, East Toronto.
Minister of Agriculture, Nelson Monteith, South Perth.
Commissioner of Public Works, Dr. Reaume, North Essex.
Provincial Secretary, W. J. Hanna, West Lambton.
Ministers Without Portfolios; Dr. Willoughby, East Northumberland; Adam Beck, London, Major Hendrie, West Hamilton.
Speaker of the House, J. W. St. John, West York.

The statement by Premier Whitney that a change would be made in the portfolio of Attorney-General in a few months, and the fact that a Minister of Mines is to be appointed, probably means that several changes will be made. The portfolio of Mines will go to one of the gentlemen now in the Cabinet without portfolio, probably to Hon. Mr. Hendrie. If the Premier and Mr. Foy were merely to change departments, they would likely have rather taken their permanent places at the start, and it looks to the man on the street asthough the present arrangement had been made to satisfy one or two of the holders of portfolios who will be given appointments later on, thus opening the way for a general shift, and the bringing in of the men who will form the permanent Cabinet.

MRS. CHADWICK CAN NOT BE CONVICTED

So Claim the Counsel of Woman of Frenzied Finance

ACCOUNT WAS OVERDRAWN

But Lawyers Claim There Was No Conspiracy—The Carnegie Forgeries

Cleveland, Ohio, February 7.— Mrs Chadwick's counsel are confident she cannot be convicted. Mrs. Chadwick was indicted first in the Federal Court for violating the United States banking laws. It was charged that she conspired with President C. T. Beckwith and Cashier A. B. Spear, of the Citizens' National Bank, Oberlin, to misapply the funds of the bank and that she aided and abetted them in such acts. The fact is that she issued cheques on the bank and obtained New York bills of exchange from it, when there was no money to her credit in the bank to meet the orders. In other words her counsel say she overdrew her account and the bank officials permitted her to do so.

The lawyers say that to prove Mrs. Chadwick guilty, it must first be proved there was a conspiracy on the part of Beckwith and Spear to misapply the funds. Their friends believe that instead of misapplying funds, these officers were trying to save the funds of the bank. Toward the end, in their desperation to preserve Mrs. Chadwick's credit and save their bank, they permitted her to overdraw her account, but that was not conspiracy.

In the county court Mrs. Chadwick is charged with forging and uttering three notes all payable to herself. Andrew Carnegie's name was signed to them. Mrs. Chadwick enjoined upon the bank officers the greatest secrecy and warned them not to raise any money on the notes, as Carnegie would never forgive her for such an act. The actual forging of the documents, it is contended, it will be almost impossible to prove. No one saw the actual writing done and handwriting experts always differ. Mrs. Chadwick's attorneys assert there was no uttering or offering of the Carnegie notes with intent to fraud.

THE BANK OF NOVIA SCOTIA.

It is now definitely decided that the Bank of Nova Scotia will open up a branch in Peterborough as soon as the premises can be fitted up. The offices now occupied by the collector of Taxes and the Town Engineer have been secured and will be immediately turned into palatial banking premises.

The Bank of Nova Scotia while not the largest, is about the strongest bank in Canada, the Rest account being much larger than the original capital, the latter being $2,000,000 and the Rest $2,200,000 with an annual dividend to shareholders of 10 per cent.

While the head office of the bank is in Halifax, the office of the General Manager, Mr. H. C. McLeod, is in Toronto, and there are branches all over Nova Scotia and the other Maritime Provinces, with others scattered through all the provinces of the Dominion. They also have branches in Newfoundland, West Indies and in the United States.

The bank was established in 1832, and is now 73 years old. It has renewed its youth during the last few years, and is now more progressive than ever. We draw the attention of our readers to the seventy-third annual report in another column.

The placing of a fifth bank agency in town is another step forward in Peterborough's progress. In a year or so, we will have to take over the [illegible]

WELCOMED IN OTTAWA

The Minister's Reply was Favorable to Peterborough's Request

Hon. Mr. Emmerson cordially welcomed the Peterborough, Northumberland and Durham County Councillmen, who went to Ottawa to try and persuade the Government to bear the maintenance of the swing bridges at Wallace Point, The Locks, Chemong, Gannon's Narrows and Pigeon Creek. After the usual congratulatory and social amenities had been observed, Messrs. Holland, Asbury, Donaldson, Cavan, Peck and Belcher, of town, presented their plea to the Minister. Hon. Mr. Emmerson gave the deputation a very patient and interested hearing and after asking for local and fiscal particulars promised to comply with their request.

THE INDEPENDENT FARM MUTUAL FIRE INSURANCE COMPANY

From the financial statement of the above company appearing elsewhere in this issue, we observe that it began business last April, and has secured since then the substantial income of $47,876.41. The organization expenses have all been paid, as also a dividend out of $7,456.55 surplus revenue, and the company has carried forward $5,431.56 cash, in addition to $4,598.41 of unmatured premium notes, making a total for reserve of $10,030.02, which is certainly an excellent record in a year particularly unfortunate in fire losses.

The head office of the company is at 24 King street west, Toronto, and is under the presidency and management of Mr. Chas. C. VanNorman, who is interested in a number of other successful financial and industrial institutions. Mr. Wm. M. Gray is superintendent.

The company's subscribed capital is $125,000, 10 per cent. paid up. The total security to policy holders amounts to $135,032.02.

This young company and its management is to be congratulated upon its present position, worthily entitling it to the confidence of the insuring public.

PETERBORO' INDUSTRIAL FAIR.

Annual Meeting Yesterday and Election of Officers

The annual meeting of the Peterborough Industrial Fair Association, took place yesterday afternoon in the Council Chamber. President D. Hughes Charlesa occupied the chair, and submitted the report of the directors, which was approved. The report showed that the sum of $2,250 had been paid in prizes, and that a balance remained in the treasurer's hands of $514.21. The following officers were elected for the ensuing year.

Honorary President—T. E. Bradburn, M.L.A.
President—D. Hughes-Charles.
First Vice-President—Alex. Elliott.
Second Vice-President—R. M. Elliott.
Honorary Members—Hon. Geo. A. Cox, John Finlay, M.P., Wm. Anderson, M.P.P., J. W. Flavelle, R. A. Morrow, E. R. Wood, H. Waddell, Robt. Stuart, Rev. E. A. Langfeldt, Fathers McColl, Fitzpatrick and Phelan.
Directors—Wm. Irwin, Robert Fair, K. Eardley-Wilmot, R. J. Munro, J. M. Brooks, G. W. Fitzgerald, D. Mooney, H. C. Winch.

COMMITTEE OF MANAGEMENT.

Races—Messrs. Alex. Elliott, R. J. Munro and Wm. Irwin.
Horses "Light" — Messrs. Fitzgerald, Munro and Irwin.
Horses "Heavy"—Messrs. Mooney and Hunter.
Cattle—Messrs. Kennedy and Tarbutt.
Sheep and Swine—Mr. Robert Vance.
Poultry—Mr. J. K. Galvin.
Agricultural Products and Garden Vegetables—Messrs. Mooney and Hunter.
Fruit—Mr. R. J. Munro.
Fine Arts—Messrs. Robert Fair and Wm. Irwin.
Dairy and Horticulture—Mr. G. W Fitzgerald.
Domestic Manufacturers — Messrs. Robert Fair and Wm. Irwin.
General Superintendent—Mr. E. M. Elliott.

WEATHER NOTES

Some Surprises in the Distribution of the Portfolios--Swearing in Took Place at the Government House Yesterday Afternoon.

Changes Likely to be Made In A Few Months Hence.

Premier Takes the Portfolio of Attorney-General and Mr. Foy That of Crown Lands---J. W. St. John Will Be Speaker.

Toronto, Feb. 8.—Awaiting the arrival of the hour when in the twinkling of an eye they should be changed from simple citizens to Ministers of His Majesty's Government in the Province of Ontario, a number of prominent Conservatives foregathered at the Queen's Hotel this morning to attend on the pleasure of their leader, Hon. J. P. Whitney.

The Premier immediately after breakfast summoned Mr. J. Londale Capreol, clerk of the Executive Council, and on his arrival he was in consultation with Mr. Whitney for some time. He brought with him the blue book in which are entered all the oaths administered to Executive Councilors. It was learned after the conference that Mr. Capreol was to return about 11.30 o'clock, and that the ceremony of swearing in the Ministers would take place at Government House at 4.30 this afternoon.

Crowded together in a "square circle" in the west corner of the rotunda, for all the world like a double row of sparrows on the telegraph wires, sat "the elect" of the Conservative party. They were; Messrs. St. John, Muscambell, Willoughby, Matheson, Foy, Hendrie, Pyne and Beck. Others came later, and on the wall over their heads the good old motto, "This is My Own, My Native Land," twisted in acrobatic art.

WHAT A DIFFERENCE.

Gravity sat upon their countenances, for evidently to them it was a highly solemn occasion. In past days such a gathering of the faithful in such a gathering of the faithful in the Queen's rotunda would have smiled to a love feast of commercial travelers in a smoking car on Friday night. Laughter and lie-swapping would have marked the meeting, and the rich bass of the St. John cachinnation would have shook the rafters of the famous old hostelry. But this morning there were no stories of the ships of James Conmee, the political Mrs. Malaprop, no reference was made to the stump speeches of bucolic orators, nor to the merry campaign tricks played on concession and side line in the "rare old, fair old golden days" of Opposition. As a matter of fact, the solemnity was so impressive that the little group of statesmen looked very like a class of school boys who had been caught playing truant.

The analogy was complete when Hon. J. P. Whitney, well groomed, urbane, and dignified, came down the stairway and gazed with fatherly sternness upon the aggregation. The "boys" shrunk visibly and a "Please teacher, it wasn't me" from any one of them would not have been surprising. Mr. Whitney allowed his eagle eye to wander down the double line of huddled politicians; it rested on Mr. J. W. St. John. He beckoned; Mr. St John rose, and, rubbing the palms of his hands on his trousers, followed his leader—not to the woodshed—but to Mr. Whitney's room. For several minutes the interview lasted and as there were no cries heard, it can be imagined that Tacher Whitney employed moral suasion rather than the more effective, though old-fashioned plan of administering corporal punishment. It is certain that there was a genuine look of relief on Mr. St. John's face when he rejoined his fellows. Mr. Muscambell was the next sufferer, and he was followed in succession by Dr. Willoughby, Col. Matheson, Mr. Foy, Mr. Hendrie and Dr Pype. Mr. Beck, of London, did not have a private conference with Mr. Whitney, at least not this morning. No doubt he conferred with his leader last night, when the other members of the Cabinet saw the Premier.

CONFERENCE HELD.

After the individual conferences all the prospective Ministers were invited in a body to Mr. Whitney's room, where they were in conference for nearly an hour. It was a few minutes before noon when the Premier came downstairs, his overcoat buttoned to the throat. He stopped for a moment in the rotunda to inform the reporters that he was bound for Government House to submit the names of his Ministers to His Honor the Lieutenant-Governor for approval, and that he would return soon. Less than half an hour passed when he again reached the hotel, and the newspaper men were invited to his room. His official statement was to the effect that he had submitted the names of his Ministers to his Honor, and that he had been pleased to approve of them. He then read the list, which appears in this issue, and said that he expected that Mr. St. John would be the Speaker of the new Legislature. He also expected that in the course of a few months, Mr. Foy would take over the Attorney-Generalship with a view to law reform.

A question as to the appointment of a Minister of Mines brought from the Premier the announcement that such a Department would be constituted at the next session and a Minister appointed then.

Mr. Whitney was unable to say at what date the by-elections would be held, but they would be very soon. The time would probably be set at the first meeting of the Cabinet. Nothing was known yet concerning the date of the session.

FLEET WILL CRUISE

Second Cruiser Squadron Will Visit American Shore

London, Feb. 9.—The second cruiser squadron, commanded by Rear-Admiral Prince Louis of Battenberg, will be inspected by the King off Portsmouth at the end of the month, and it will then start on a cruise of several months, with the object of showing the British flag in distant waters. The squadron will visit American ports among others.

The exact date and details of the squadron's cruise in American waters have not been decided, but it will follow a three months' cruise in the Mediterranean. Captain Stockton, the American naval attache, expects to receive shortly the itinerary from the Admiralty, and after that will take up the matter with the Navy Department at Washington.

MORE JEWS FOR CANADA

Colonies for Manitoba and the West are Coming

London, Feb. 9.—Negotiations are said to be proceeding between Lord Rothschild and the Canadian immigration authorities for the formation of great Jewish colonies in Manitoba and the North-West.

THE CANADIAN WINTER GAME.

Smith's Falls will play the return game of the semi-finals here to-night, and this should prove a fast and exciting game. The visitors claim that they played in hard luck in their last game and were coming down determined to redeem themselves. The local bunch are certainly playing great hockey, and are confident that they will impress upon the Smith's Falls aggregation that they have no claim for the championship. It will be a corker of a game, and a bumper house is assured. A contingent of enthusiastics of the Falls are expected to accompany the visitors. Tickets for the games can be had at Sanderson's jewelry store or at Clarke's Fur store. Following will be the line-up:—

Peterborough—		Smith's Falls
	Goal.	
Wasson		Meresu
	Point.	
Glover		Lee
	Cover-point.	
Crowley		Hammond
	Rover.	
Cavanah		Paulin
	Centre.	
Morgan		Dunn
	Right Wing.	

Victoria Harbor won at Parry Sound, Tuesday night by a score of 10 to 6.

• • • •

Woodstock lost at Goderich by a score of 6 to 4.

• • • •

Campbellford and the T.A.S. will play off their tie game at Cobourg to-morrow night. Mr. George Brown of Port Hope will be referee.

• • • •

The "Mc-Macs" of Smith's Falls will be here to-night to play the return game with the locals. It will be a speedy contest, and a fight from start to finish for supremacy. Get your tickets for the game early as there will be a crowded house.

Sell out to Chicago

Brantford, Feb. 9.—Mr. N. D. Neill, President of the American Machine Telephone Company announced yesterday that the company had sold their American rights to the Lorimer Telephone Company, a Chicago organization, capitalized at $10,000,000. The company retain their [illegible]

Broken and Sad Weary of Life

Grou d to the Dus: With Weakness—Too Nervous to Sleep —A Pitiable Wreck

FERROZONE

Braced — Invigorated, Toned and Strengthened

Men and women, married or single, whether old or young, will find abundance of health in Ferrozone. It completely vitalized Mrs. F. Levine, a well-known resident of Point Alexander, Ont., who writes;

"I was on the verge of nervous prostration. When I got up in the morning I had to force myself to go to work.

"I felt blue and depressed, took no real comfort out of life.

"Dragging weakness and lack of spirit seemed to be killing me.

"How I wished for strength!

"Kind Providence brought Ferrozone to my notice and I commenced to take it. The change was wonderful. I picked up every day. Strength developed, appetite increased. I grew cheerful and strong. Ferrozone made me feel like a woman. My cure is complete and I recommend it as an unsurpassed."

The one medicine that's sure to lift you from a weak, miserable condition is Ferrozone. 50c. per box, or six for $2.50, at all dealers in medicine, or Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $3 per year, strictly in advance.

English Office—St Fleet street, London, E.C.

UNION LABEL

PETERBOROUGH, FEBRUARY 9 1905

WORLD'S FIRST BILLIONAIRE

The New York Commercial is a conservative financial journal. It has a tendency to underestimate rather than to exaggerate. And that paper states that in a few years the fortune of John D. Rockfeller will be fully $1,000,000,000, and that the oil king's present income is $6,000,000 a month.

As far as the actual possession of the money is concerned, the public is not harmed. The gold is not locked up. It has not been buried. The dollars are in circulation and passing through the hands of the butcher and baker and farmer and manufacturer.

And Mr. Rockfeller cannot eat them nor wear them, nor ward off disease and old age with them. So far as he is personally concerned, and beyond the million or two that he spends annually in gratifying hobbies and in actual living expenses, those dollars might as well be as much old junk, for all the real good they do him.

But they do represent power. They do make it possible for one man to say who shall work and who shall starve, who shall engage in business and who shall not be allowed to compete in the markets of the world. They make it possible to control legislation as well as the finances of the country. By centralizing industry and hogging opportunity they force an increase in the number of those who must work for wages and decrease the number of those who would embark in business for themselves.

There are wise men in the United States who see in this coming billionaire and what he represents a greater danger that has ever been known before, and who believe that it can only be curbed by one of two methods: Legislation rigidly enforced, or revolution.

The last must not be. And while the world awaits the peaceful solution of this great problem the fortune that is too great for the human mind to comprehend is growing.

ONTARIO SCHOOLS

The Ottawa Journal (Independent), says: "An interesting report comes from Toronto to the effect that Mr. Whitney may possibly himself take the portfolio of education in the cabinet he is forming. We do not know whether there is any foundation for the idea, but rumor illustrates the fact of a general feeling existing that the question of education in Ontario has not been properly attended to, and that one paramount duty of the incoming Conservative administration will be to overhaul the Ontario educational system thoroughly. Ontario, unlike some other provinces, has always seemed willing to pay liberally to improve educational facilities. If anything has fallen short, it has not been the generosity of the people when good reason has been shown for expenditure. Whatever public money is needed for education—for in the common schools—Mr. Whitney can rely upon being justified by the people in using, if it be spent with intelligence."

EDITORIAL COMMENT.

If the plot thickens in Russia the Baltic fleet may be tempted to capture some small island and start a commonwealth of its own.

• • • •

The Quebec parent is discovering that too many children do not always make a happy parent.

HOW JAPAN HAS DRIVEN RUSSIA OUT OF KOREA

(Continued from page 1.)

took up the investment of Port Arthur. This was done so quietly that no one knew that the change had been made and that Gen. Oku had turned his army north to meet Gen. Kuropatkin and the army he was taking south to relieve Port Arthur. When the two armies met, it was for a battle royal. Near the village of Te-Li-Tsu the Russians had hastily fortified a position and from this position they were driven after a very hard-fought battle, retreating in such disorder that the Japanese shot down the retreating soldiers by the hundred, more than 2,000 Russian dead being left on the field. Only the fact that a heavy downpour of rain came on late in the afternoon and delayed the Japanese in getting up their guns prevented the entire annihilation of the Russian force.

OCCUPATION OF NEWCHWANG.

This was on June 15. After waiting for a few days the army continued its advance slowly, and on July 9 occupied the important Chinese town of Kai-Ping, with very little resistance, the main force of the Russians retiring to Ta-Chi-Chiao, where the railway line running to Yin-Kow, or Newchwang, branches off from the main line of the Manchurian railway. There the army rested and prepared for the next fight.

On July 22 the advance began and the Russians were gradually forced back, until on July 25 they were driven out of their positions on the hills just to the south of the village of Ta-Chi-Chiao, and finally out of the village itself.

The next day a force was sent to the west and occupied Yin-Kow or Newchwang, as it is usually called. Thus the Japanese obtained a second port of entry for their supplies and the transport problem for stores from Japan was practically solved.

JUNCTION FORMED WITH NODZU.

It was not until July 31 that another move was made and the next day the army occupied Hai-Cheng without opposition. Here a junction was formed with Gen. Nodzu's army, which had reached that point from Takushan. Gen. Oku furnished Gen Nodzu with another division and preparations were made for the advance on Liao-Yang. This was the objective point of the whole movement from the time of the landing of the three big armies. Nodzu had, come through as was expected; would Kuroki be able to do the same? All reports showed that he was well on his way, slowly driving in the Russian advance positions and gradually sweeping around, to the northward in an effort to take Kuropatkin on the flank.

BATTLE OF LIAO-YANG.

The advance of the second army began August 24, and two days later the advance came in touch with the Russians a few miles south of An-Shan-Tien, a small village which lies in a narrow pass between two very high hills and commands the main highway. On August 26 there was a small fight and all preparations were made for a big battle the next day. But the next day it rained in torrents almost and the whole landscape was blotted out in a dense mist. So the battle was postponed until the next day. On the 27th it was found that the Russians had abandoned An-Shan-Tien and had fallen back on a line of hills about three miles south of Liao-Yang, leaving only a small rear guard consisting of a little infantry and one battery of artillery in the hills just north of An-Shan-Tien. The Japanese rushed this position, drove the infantry back and captured the guns.

FOUGHT TWO DAYS AND TWO NIGHTS.

This was in the morning, and before the next night the Japanese had advanced across the plain and were well up to the Russians' new position on the line of hills called by the Chinese Shu-Sham-Pe.

At daylight next morning the fight began and lasted all that day and night and all the next day and night. On the second day the Japanese obtained a footing on the eastern end of the range and that was the beginning of the end. On the morning of September 1 the whole range was in the possession of the Japanese. That day was spent in resting, and the next day the troops began the slow but steady advance on Liao-Yang. The armies commanded by Gen. Oku and Gen. Nodzu closed in on the town and after two days' hard fighting

KUROKI HAD HARD TIME.

In the meantime Gen. Kuroki had been having a hard time on the Russian left flank. He had moved up along the Taitse river and was there met by the overwhelming force of Russians. For three or four days his men were forced to fight desperately against much greater numbers in order to hold the position. Finally by a clever maneuver a part of Kuroki's force was pushed across the Taitse near Yen-Tai and the Russians were forced to withdraw, perhaps not defeated, but clearly outmaneuvered. It was a cleverly executed bit of business and for not preventing it the Russian general, Orloff, was recalled and dismissed from the service.

FACE TO FACE AT THE SEA.

As soon as possible the Japanese moved on to a point just north of the Yen-Tai coal mines, while Kuropatkin withdrew his forces across the Hun river. Then came the required delay for the bringing up of fresh men and supplies and then followed Kuropatkin's unsuccessful attempt to drive the Japanese back, which resulted in the Japanese moving forward some ten miles, fighting every inch of the ground, and finally establishing themselves firmly along the south bank of the Sha river.

This brief summary of the work of the three armies during seven months proves the original statement that the Japanese have never been defeated and that the Russians have not once been successful.

HOW'S THIS?

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

[1] At least six months' residence upon and cultivation of the land in each year during the term of three years.

[2] If the father (or mother, if the father is deceased), or any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same town, township, or an adjoining or corresponding township.

A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 40 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1905.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the North-west Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Land Agents in Manitoba or the North-west Territories.

W. W. CORY, Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

INCORPORATED

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and, we believe, exceedingly profitable investment. Every dollar of stock is guaranteed by twenty year, full paid, gold bond, delivered to purchaser of stock, from an Investment Company that has no interest whatever in the company, but who are disposing of the debentured bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the State Treasurer under which they received their charter, there by doubly securing the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvellously rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Simmer and Jack Mining Co., Limited, Klaskfountain, South Africa:—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world.

"With the present development of the Monument Mine, I estimate that 100 tons per day can be extracted, which will mill from $15.00 to $20.00 per ton. The total cost of mining the ore, delivering and milling, I place at about $4.00 per ton. With increased milling capacity, it is safe to say that the mine can furnish 100 tons of $15.00 ore, which would yield a clear profit of $11.00 per ton, or $1,100 00 per day (equal to $400,000 00 per annum). Estimated total value of ore in sight, $2,500,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Dr. Brown writes as follows:—

"In regards to the amount of ore available at the mines at Silverton, I saw on the dumps several thousand tons, probably 5000 tons would be an under-estimate.

"As to the size of the ore body itself, from what I saw of the geological structure, I think that there is every indication that it will be found to extend underground as far as the out-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish full information to investors.

BLOOD DISEASES

If you inherited or contracted any Blood Disease you are never safe unless the virus or poison has been eradicated from the system. At times you see alarming symptoms, but live in hopes no serious results will follow. Have you any of the following symptoms? Sore throat, pimples on the tongue or in the mouth, hair falling out, aching pains, itchiness of the skin, sores or blotches on the body, eyes red and smart, dyspeptic stomach, sexual weakness—enlarged glands. Don't trust to luck. Don't ruin your system with the old fogy treatment—mercury, potash and potent medicines, which suppress the symptoms for a time only to break out again when happy in domestic life. Don't let quacks experiment on you. Our NEW METHOD TREATMENT is guaranteed to cure you. OUR GUARANTEE ARE BACKED BY BANK BONDS that the Blood or Skin disease will never return. Thousands of patients have been already cured by our NEW METHOD TREATMENT for over 20 years, and no return of the disease. No experiment, no risk—not a "patch up," but a positive cure. The worst cases solicited.

W. H. PATTERSON NO NAMES USED WITHOUT WRITTEN CONSENT. W. H. PATTERSON

HAD BLOOD POISON 12 YEARS

The New Method Treatment Cured Him after Drugs, Mercury, Hot Springs, &c., all failed.

Before Treatment

Wm. H. Patterson, of Saginaw, Mich., relates his experience: "I do not like notoriety and especially of this kind, but I feel I owe this much to Drs. K. & K. for the great good they have done me. I had a serious blood disease when 24 years of age. The skin and blood symptoms gradually developed. Pimples and ulcers formed, running sores broke out, hair became loose, pains in the bones and joints, dyspeptic stomach, foul breath, itchy skin, etc. It is needless for me to say I tried doctors. I grew to hate the looks of one. I visited Hot Springs twice for four months each time. It helped me temporarily, but in six months after returning home I was as bad as ever. Finally a Doctor friend of mine advised me to see Drs. Kennedy & Kergan. He said he had known of them for over 20 years, and as they made a specialty of these diseases and treated the worst cases by the hundred they ought to be expert in curing them. I was afraid of advertising doctors, but I took his advice. They agreed to trust me today a guarantee or no pay. I investigated their financial standing and found they were perfectly responsible, so I commenced the new method Treatment. The symptoms disappeared in two weeks, the pimples in four weeks and in four months I was entirely cured. Yes, sir, I recommend the New Method Treatment for Blood and Skin Diseases."

After Treatment

CURE GUARANTEED OR NO PAY.

Consultation Free. Books Free. If unable to call, write for a Question Blank for Home Treatment

Drs. KENNEDY & KERGAN

148 SHELBY STREET, - DETROIT, MICH.

A SPLENDID PROPOSITION

The Salido Gold and Copper Company

Incorporated under the laws of Arizona, with a capital of $3,oc ooo forever on-assessable divided into shares of $1 each, par value. All investments insured Granite Securities Company.

The "SALIDO GOLD-COPPER COMPANY" enterprise offers attractions to the investors of the country, that without thorough investigation, would scarcely seem probable. If only a fraction is realized of what any prudent business man in his own shirs would regard as absolutely certain, the enterprise must prove abundantly successful and exceedingly profitable.

SALE OF STOCK

The company will prosecute the work of development with all the diligence that he cash in the treasury will permit and circumstances warrant, and to this end a small amount of the treasury stock is now placed upon the market, in blocks of not ess than One Hundred Shares. The par value of the stock is One Dollar per share, fully paid and forever non-assessable.

The company reserves the right to advance the price of stock without notice.

REMEMBER

First—That all payments for treasury stock go into the treasury for development work and not into the pockets of the promoters.

Second—There are no salaried officers.

Third—The incorporators have put their own good money into this enterpr se and being business men, intend to do business along business lines.

Fourth—That this company is honest.

Fifth—If you are thinking of investing in mining stocks this is worthy of your careful investigation.

OTHER PROPERTIES

This Company owns four other Gold and Copper Mines, wh ch title is now in process of the laws of Mexico. As soon as title is perfected, we shall commence to develop them as we certainly expect something very great from these properties. Our assays taken have been of the very best, showing gold and copper from $6.00 to $122.30 per ton.

I have secured a small block of this stock, which I offer at the following prices: Unguaranteed 40 cents per share, guaranteed 80 cents per share. These prices will only prevail for a short time, as the number of shares for sale at this price is limited. The Shares will then be advanced to 40 cents for the unguaranteed and 80 cents for the guaranteed. I can unhesitatingly recommend this investment to the Canadian public.

W. K. HALL,

FISCAL AGENT, ... PETERBOROUGH

Agents wanted in outlying districts, including Toronto.

CONSERVATIVE MINING

These who are interested in a genuine mine, no wildcat scheme—one on which a dividend is guaranteed by one of the most prominent banking and broking firms in the west—

8 Per Cent. for 1905 and 12 Per Cent. . . . the Next Year . . .

As there is only a small amount of the stock left at 20 cents a share the buyers will participate in the appreciation of stock value, the price will be raised to 25 cents within 30 days

The First Dividend Will be Paid in April

THE CALIFORNIA BUCKEYE MINE

a Zinc Mine, with outcroppings of lead and will prove a bonanza to its shareholders, and the value of it is guaranteed by a responsible firm of bankers.

Capital Stock - - $250,000.00

Shares, par value, $1.00 each. Fully paid up and non-assessable. No PREFERRED STOCK. NO BONDED INDEBTEDNESS.

Buy now before the advance of 20 per cent. is made

From Yesterday's Issue

ENORMOUS COST OF MODERN WAR

Thirty Millions in Shells Fired Into Port Arthur

TWO MILLIONS PER DAY

Is the Estimated Cost of the War in the East—How Long Will the Two Nations Stand the Strain?

London, January 8.—In a general way it is known that in the struggle between Japan and Russia there has been unprecedently lavish expenditure of ammunition, but details of certain phases of the war almost stagger the belief of those who are fairly familiar with the use of projectiles, great and small, in other conflicts of modern times. It appears that never before were so many bullets required to kill a soldier, never before so much steel, iron and powder to bombard a fortress or fight a naval engagement.

An authority asserts that in the siege of Port Arthur the Japanese thousands of shells into that fortress, at the average cost of $24 in gold for every shot. It is reckoned that the heavy gun bombardment cost $30,000,000. On the average the guns used discharged twenty times their own weight in metal. And probably not more than one shell in every two hundred killed or wounded any one. About one Russian shell in every four hundred hit a Japanese target.

In the same siege some forty million bullets were fired from rifles. It is certain that for every soldier killed on either side at least his own weight of metal was fired. Modern rifle bullets are not much thicker than a lead pencil, and they have wonderful penetrating force, but they are discharged at such distances that it takes a vast number of them to kill a man, in the average tests of war. One veteran correspondent estimated that in the battle of Liao Yang the Russians fired about 3,000 bullets for every Japanese they hit. Kuropatkin's men used at least 50,000,000 projectiles in that long battle.

In the light of such facts it is easy to understand why the best authorities believe the cost of the war in progress, taking both sides together, is not less than $2,000,000 a day, a million for each nation, if Russia's greater share were averaged with Japan's much smaller outlay. No other civilized powers could wage so great a war at any such cost. No wonder that finance ministers are advocates of international peace, almost without exception!

A PECULIAR CASE

A Farmer Who Should Have Been Detective

St. Catharines, February 8.—A peculiar hoof mark in the snow was what landed John Russel, Arthur Krick, and a young woman, Jessie Freeman, in the Lincoln county gaol on Friday. The trio, who are residents of Quister, are charged with nothing less than the theft of a beehive, full of bees. The bees were owned by Emerson J. Winslow, of Gainsborough township, and both they and the hive have disappeared as thoroughly as if they had never existed. Winslow found one of his hives gone on the morning of January 20th. There was a fresh cutter track in the snow. Winslow noticed that one of the horse's hoofs left a peculiar mark. He decided that it was a case where he could exercise his detective instincts; so he went to Dunnville, a town near by, and enquired at all the livery stables if they had a horse with a peculiarly shaped hoof. One man said he had. The hoof of the horse, it was found, corresponded exactly with the hoofprint in the snow at Winslow's. Winslow found out from the liveryman that John Russell, Arthur Krick and Jessie Freiman had hired the horse and a cutter to drive to their uncle's farm, which is a little beyond Winslow's, on the night of January 19th. Winslow and the liveryman examined the bottom of the cutter and found dead bees in it. Dead bees were also found in the snow on the road. Winslow swore out a warrant for the three young persons, and they were arrested and brought here Saturday. They pleaded not guilty before Judge Carman in the afternoon.

They will be tried on Wednesday. As they cannot get bail they had to go to gaol.

DIES OF WORRY

President Beckwith was to be Chief Witness Against Mrs. Chadwick

Oberlin, O., February 7.—C. T. Beckwith, president of the defunct Citizens' National Bank of this city, died at 10.45 Sunday night after two days of unconsciousness. Death resulted directly from heart trouble. Mr. Beckwith was about 65 years old. On December 14 last the federal grand jury in Cleveland returned five indictments against Beckwith upon the charge of violating the national banking laws in the connection with the loans made to Mrs. Cassie L. Chadwick by the Citizens' National Bank of Oberlin.

From the day of his arrest Beckwith's health failed rapidly, as a result of worrying over his troubles. He frequently declared during his illness that he wanted to die. For several days prior to his death he refused to take food in any form.

The death of President Beckwith may materially affect the causes of forgery and conspiracy to misapply bank funds, now charged against Mrs. Chadwick. It was expected that Beckwith would be the star witness in both federal and common pleas courts.

DUMB MAN RECOVERS SPEECH

Silent Ten Years, His Voice Returns at Christian Science Meeting

Owosso, Mich., February 8.—Dumb for ten years, Albert Gibson, a traveling man, suddenly recovered his power of speech while at a Christian Science meeting. While on the road in 1895 Mr. Gibson was stricken speechless by a throat disease. The Christian Science congregation will hold thanksgiving services next Sunday to celebrate his recovery.

AN OPEN LETTER FROM MR. W. J. GAGE.

Toronto, Can., Dec. 1, 1904.

Dear Friend,

We again come to you with our story of trouble, but a story of surprising and encouraging results.

No apology is necessary: the great work of the National Sanitarium Association, carried on at the Muskoka Cottage Sanatorium and Free Hospital for Consumptives, is now well known.

The 1,500 patients cared for in these two Homes plead for your help.

The large number of lives saved, of those who a few years ago were supposed to be "under sentence of death," gives a right to your sympathy.

In helping to rescue a number great enough to constitute a large prosperous village, the giving back to home and friends a regiment of workers, surely will arouse interest in this work of mercy.

Each patient cared for in our Consumptive Homes, removes a source of danger, so that the life of every citizen in Canada is more secure.

The marvellous decrease of 40 per cent. in three years in the death-rate in Ontario from consumption proves that the fight against this dread disease is no losing one.

The **Muskoka Free Hospital for Consumptives**, for which this appeal is made, without any endowment keeps an open door to all who are poor and sick, as long as a vacant bed remains.

Nearly 400 patients have been cared for in this Hospital since it was opened less than three years ago. This has only been possible because of the continuous stream of gifts that have come to us from every part of Canada.

Remember, too, these were patients that other hospitals as a rule refuse.

Almost every trade and profession has sent its representative, and of every age—from the young schoolboy of 12 to the widowed mother of 60.

Trustees of the Free Hospital for Consumptives through contributions and bequests.

$50,000 should be given this year if the Board is to provide for the increased accommodation and maintenance of those pleading for admission.

Where will your money do so much good in bringing health to the sick and protecting the lives of those in your home?

Why should consumption not be stamped out if the needful money and help be forthcoming?

The official Report of the Secretary of the Provincial Board of Health tells a **surprising story**—a story of a winning fight, showing that from 1897 up to 1900 there was a **steady increase** in the death-rate from Tuberculosis.

From 1900 there has been a **large decrease each year**, reducing the death-rate from 3,484 to 2,072 in three years, or **over 40 per cent.** This is all the more remarkable in view of the increase in population.

You have the joy of knowing that your dollar has helped in this merciful work.

The pitiful part of it all is in knowing how many more lives could have been saved if the needful money had been forthcoming to provide additional beds.

Will you not join in this great life-saving work?

Your dollar will bring gladness.

Fifty dollars will keep a sick one for two months; may save a life. Three hundred dollars will endow a bed for a year.

Yours sincerely

Rare Chance to Secure a Paying Investment

THE GOLD COIN MINING COMPANY

has placed a small block of their stock at the disposal of Canadian investors. This stock is sure to rapidly advance in price. The Company is now arranging to instal the power plant and a mill and cyanide plant for the reduction of their ore to a bullion on the property. They have arranged with a Trust Company having assets of $1,500,000 to put up a bond guaranteeing investors the repayment of the full amount invested. This makes investors absolutely safe. By no possibility can they lose a dollar

THE GOLD COIN MINING COMPANY was organized November 21, 1902, under the laws of the State of Idaho. The capitalization is one million shares of the par value of one dollar each, fully paid and non assessable; of the 1,000,000 shares, 400,000 have been set aside as treasury stock

THE BOISE BASIN came into prominence shortly after Grimes and his party of prospectors entered the Basin country in 1862; their entrance was into the northern portion and one discovery of rich placer ground followed another until the news of the rich finds reached the outside world, when a veritable stampede for Boise Basin commenced, towns sprang up and grew together in an incredibly short time; the rush of people to Idaho City made it a place of 20,000 people in 1867, having a business street over a mile long lined with two-story buildings streets and sidewalks filled with people day and night business and money on every hand and the city bearing the proud distinction of being the capital of the territory of Idaho. Wages ran from $6 to $10 a day and not infrequently forty and fifty men worked on a single placer claim; the clean-up for a day's work in many instances ran close to $5,000; large fortunes were made in a few days by washing the golden sands in a pan; so eager was the quest for the shining metal that the streets of Idaho City were dug up and washed and re-washed, and the soil removed from under the houses and places of business. So extensive was the search for the hidden treasure that not only all of the low ground was worked but the foot of the mountains surrounding the city have been washed away, filling up the lower portions of the basin and extending into the town, where one of the buildings has been buried under the tailings from the numerous placer workings

LOCATION—The property of the Gold Coin Mining Company is situated in the Gambrinus Mining District, Boise County, Idaho, on the range of mountains between Moore Creek and Elk Creek, which forms a part of the eastern boundary of the famous Boise Basin and into which these mountains are drained. The property is located ten miles northeast of Idaho City, from which place there are good wagon roads either to the workings on top of the mountain or to the place of the proposed tunnels in the gulch which crosses the Tunnelsite claim.

THE CLAIMS—The Company owns a group of four contiguous lode mining claims and the Gold Coin Millsite: the names of the lode claims are the Tunnelsite, Blue Bell, Pennsylvania and Homestake, each being a full claim 600 feet wide by 1,500 feet long, excepting the Tunnelsite claim, which is 450 feet wide at the west end and 1,055 feet long; it was necessary to make the claim in this form on account of joining the Washington property on the south and the Sab Rosa property on the west, these properties being prior locations to the Tunnelsite claim. The four lode claims aggregate nearly 80 acres of rich mineral land.

Further particulars may be had on application to WM. SAILSBURY, Fiscal Agent of the Company Peterborough, Ont., or to

S. E. PHELPS, Secretary,
311 SCHOFIELD BUILDING, CLEVELAND, OHIO.

Lung, Throat and Catarrhal Troubles

Cold in the Head Cured Quickly if You Breathe Fragrant, Healing

Catarrhozone

The ordinary method of treating catarrh by the stomach is a very indirect way and, as experience has demonstrated, a very useless method to employ.

Fragrant, healing Catarrhozone, is breathed, the air, laden with minute particles of this healing balsamic liquid, spreads itself over the whole area of inflammation.

It reaches the very root of disease instantly destroying by its antiseptic properties the germ life which excites and maintains the disease. Its soothing and healing action is at once apparent to the whole diseased surfaces. It cures quickly and it cures permanently.

We affirm that no proprietory medicine has ever brought forth from the people as many voluntary testimonials as Catarrhozone has received.

MRS. M. J. WHITNEY, Clay Street, Topeca, Kan., was cured of nasal catarrh, and say, "I owe Catarrhozone an immense debt of gratitude. It cured me of the most disagreeable catarrh after many doctors had pronounced my case incurable. I do not cough any more, my breath is sweet, and my respiration regular since using Catarrhozone.

MRS. JAMES TWEEDIE, of Jas Bridge, says; "For years my daughter doctored for catarrh. She had dropping in the throat, hawking, nausea, and could not sleep at night. The first days use of Catarrhozone benefitted and it cured so the catarrh never returned."

MR. R. SHELDON, of Leamington, Ont., says; "For two years I unsuccessfully sought a remedy to cure my son of catarrh but permanent results were not attained until Catarrhozone was used. It cured my little boy like magic and he has been quite free from catarrh ever since."

REV. D. R. SMITH, of Whitehead, N.S., says; "Catarrhozone permanently cured me of chronic catarrh of the nose and throat from which I suffered for many years, I heartily recommend Catarrhozone."

MR. R. McCALLUM, of Spring Brook, Ont., says; "A sample of Catarrhozone benefitted me more than years of treatment with doctors, and by using the dollar outfit I was completely cured in a few weeks. I recommend Catarrhozone as the most satisfactory cure for catarrh on the market. Every word said for it is true."

MR. S. T. WRIGHT of Stands Mills Ont., says; "I had a bad attack of sore throat, with inflamed tonsils and sore chest. I inhaled Catarrhozone and it cured my trouble. I greatly admire its pleasant and soothing effect."

MR. JAMES FERGUSON, of Perth, Ont., writes:—"I have used Catarrhozone for sore throat and cold in the head and find it a good remedy. I highly recommend it."

MISS CLARA B. COLBY, of London, Ont., writes;—"I had a continuous cold in the head for years, and never used anything giving such quick results as Catarrhozone. I am delighted at last to find a remedy that positively cures colds. I strongly advocate Catarrhozone; it cures every time."

Catarrhozone cures without drugs and disagreeable medicine. It is Nature's cure—soothing, healing and pleasant to use. You simply inhale the medicated vapor of Catarrhozone through a Catarrhozone Inhaler and get cured quickly. Two months treatment costs only one dollar. It can be sent by mail and used right at home any time during the night or day. Sold by druggists or by mail from N. C. Polson & Co., Kingston, Ont., or Hartford, Conn., U.S.A.

TOWN AND COUNTY NEWS

DASHES HERE AND THERE BY TIMES' REPORTERS

A Useful Annual

We have to acknowledge with thanks the receipt of a very useful and pretty vest pocket annual from the Copland Brewing Company of Toronto. It contains much information about sports, and as this is, in somewhat of a game old sport, it will be greatly prized and found to be very useful.

The Charity Ball

Great interest is being taken in the Charity Ball, which is to be held in the Oriental Hotel to-morrow night. The dry goods men report that "Sweet Charity is unlocking the pockets of many fathers of coming debutants. Further colors will be added to the "Bal Poudre" by the 57th Regimental officers, who have decided to attend in uniform.

A Good Scheme

An enterprising merchant in town has inaugurated a new departure in mercantile procedure. Instead of slaughtering certain lines of goods and recouping himself by making up the loss in other high priced articles, Mr. Tuck, of the Co-operative Grocery, Corner George and Brock streets, sells all goods at a price that just divides his profit with his customer and looks to make up the seeming loss by increased trade.

BIRTH

DARCY—At Burleigh Falls on Jan. [illegible]

An Itinerant Hospital

Messrs. J. J. Turner & Son, showed yesterday in their George street window, an interesting proof that it is not necessary to erect a building in which to isolate people who are unfortunate enough to be stricken down by infectious disease. Their exhibit is a model, on small scale, of a tent just fitted to comply with the requirements of infection. It is made of satin, the exterior measurement is 15x30 feet, and the interior 14x29, its side wall being six feet high. Mr. Turner reports that very great satisfaction is being given by these tents, which are now being used all over Canada, and even quite a number in the U.S. They are being officially recognised by the Ontario and British Columbia Government Boards of Health. This minature hospital was shipped last night to Toronto to the Toronto General Hospital.

An Interrupted Runaway

Yesterday afternoon the horses attached to Mr. W. H. Hamilton's delivery sleigh took fright at something when standing in front of Mr. Roy's residence. They seemed to be pressed for time and desirious of attending to urgent business in the south portion of the town, however after colliding with a horse and cutter belonging to Mr. William Fowler, which stood at the corner of Simcoe and Water streets, they had the temerity to try conclusions with the Police Station fountain. The large iron fountain succumbed in the first round, but the horses went no further. Mr. Hamilton's horses were slightly injured, but Mr. Fowler's horse escaped safely after taking a header into the snow bank. Mr. Fowler's cutter is in fit condition for the junk shop or match factory, and the fountain will be out of business until further notice.

NEW TOWN OFFICES

Tax Collector and Town Engineer Will Have to Move

The deal has been finally consummated whereby the Bank of Nova Scotia takes immediate possession of the offices now occupied by Tax Collector Green and the Town Engineer. These last named officials will be removed to premises over Mr. C. Brown's store, on Simcoe street, where suitable offices are shortly to be equipped and suitably furnished. It is unnecessary to say that the new Bank offices are to be fitted up in the most complete and modern manner. The new Manager's name is not to be revealed for a few days yet, but those in the confidence of the general management assert that the prospects of business for the latest competitor in Peterborough banking circles are unusually bright. On the other hand, how about climbing stairs every time a citizen has to hand over his hard earned shekels to the Tax Office?

SOCIAL AND PERSONAL

—Rev. Mr. Major is in Toronto.

—Miss Edna Ackerman leaves today to visit her friends in Galt.

—Messrs. Geo. and J. Ricaby of town, were in Lindsay, Monday.

—Ald. R. E. Leary left yesterday to visit his relatives in Owen Sound.

—Mrs. K. Hardly-Wilmot has returned to town after an extended visit to Galt.

—W. Irvin, Peterborough, was registered at the Quinte Hotel, Belleville yesterday.

—Miss G. Pollard, of town, left yesterday for a round of visits in Lindsay and Omemee.

—Mr. J. B. Douglas, of the Douglas shoe store is in Montreal this week buying his spring stock.

—Mr. William Anderson, M.L.A., looking hale and hearty, was in town yesterday on business.

—Mr. Jas Kendry, ex-M.P., was reported last night as being somewhat better after his attack of grippe.

—Miss Ilene Fair, daughter of Mr. Robert Fair, has gone to Millbrook, to visit her relatives in that village.

—Mrs. (Rev.) J. G. Potter has changed her reception day. She will be at home on Thursdays from this date.

—Master Walter Tuck, son of Mr. W. R. Tuck, was compelled to return to the Nicholls Hospital. The Times hopes for a speedy recovery.

Mr. A. R. J. Hall left yesterday for Texas, where he joins a party of railway engineers representing Canadian capitalists, who are building a railway in that state.

—We are pleased to state that Mr. T. E. Bradburn, M.L.A., was sufficiently recovered from his recent indisposition to come to town and attend to business yesterday.

—Many of our local sportsmen will be sorry to hear of the death of Mr. Roddy Pringle, one of the most prominent and upright sportsmen in Canadian turf circles. Mr. Pringle died Sunday evening at the Queen's Hotel, Toronto.

WINTER MEAT EATING

The Poor Stomach's Tale of Woe. Just How Mi-o-na is Needed.

At this season of the year thousands of people are already showing the ill symptoms that are sure to result from the usual winter diet. Indoor life, meat-eating, hearty food, lack of exercise, overwork, and poor ventilation spell "sickness," and poor health.

If the stomach cannot do its work properly, ill health is sure to follow. Mi-o-na is the one medicine that assures a natural digestion, that strengthens the stomach, that soothes and heals all irritation, congestion, and inflammation in the stomach or bowels. It is this that makes it a certain and guaranteed cure for all stomach troubles.

If the digestion is impaired, the blood is impoverished and becomes filled with poisonous impurities, deranging the whole system and causing sickness and suffering. Mi-o-na, acting upon the stomach and digestive organs cures sleeplessness, nervous troubles, headaches, backaches, and general weakness and debility.

If you are weak and ailing the chances are that it is due to a diseased stomach, but you can be cured by using Mi-o-na. Ask Wm. Madill, the reliable Druggist, to show you the strong guarantee under which Mi-o-na is sold. Mi-o-na costs but 50c. a box. If it does not help you, the price is absolutely nothing.

LITTLE LOCAL LINES

Dashes Here and There by Times Reporters on Their Round

—Comic valentines galore at Times Bookstore.

—The Hibernians please note that the meeting to-night will be at 7.30.

—The Tennyson Club held a successful meeting at the residence of Miss Thompson, 300 Simcoe street.

—Mr. H. Rush sat in the Seat of Judgment at the police court yesterday, as Police Magistrate Dumble was not well.

—After this date don't ask The Times to "Hold a conversation over the telephone," Simply Telverse you Telveration, we are too busy for redundancy.

—For the best No. one quality crokinole board, you only have to pay one dollar and fifteen cents at Times Bookstore Ten cents saved by buying here.

—The Business College students blew their fingers, and almost cussed at the cold yesterday. The boiler supplying their usual heat was out of order.

—The club organized by Rev. Mr. Langfeldt to promote efficiency in speaking and comprehending his native tongue meet this evening at 7.30 at St. Luke's Rectory.

—The Never Leath Club held another of their popular dances at Foresters' Hall, last night. After a most enjoyable evening the assemblage broke up about midnight.

—Miss A. M. Cahill will read a paper to-morrow night at the regular meeting of the Ladies' Literary Society of St. Peter's T.A.S. Her subject will be "Joan of Arc."

—Mr. R. M. Dennistoun will give his lecture on "Joan Valjean" in the Y.M.C.A. Hall on Saturday evening at eight o'clock, under the auspices of the Social Committee. There will be no charge for admission and the

—The International Correspondence School of Scranton, Pa., have secured temporary quarters opposite The Times offices, where they will be open for a few days, showing samples, advertising matter, and answering enquiries for information concerning their institution.

—Something new under the sun is the concert to be given to-night at the Street Railway Rink, through the medium of a Brodbignagian phonograph. This huge overgrown sound propellor, will enable the audience and skaters to enjoy reproductions of pieces played by the largest and best trained military and civic bands.

The Canadian General Electric Benefit Society gave a concert last night. It was only fairly well attended.

A woman worn-out, who never has to lift a hand for herself, who does not know the meaning of the word "worry"! How can it be possible? That it is possible is proved by the experience of many a woman who, because of sleeplessness, nervousness, backache and other womanly ills, becomes an utter physical wreck.

Dr. Pierce's Favorite Prescription gives new life and new strength to weak, worn-out, run-down women. It establishes regularity, dries unhealthy drains, heals inflammation and ulceration, and cures female weakness. It makes weak women strong and sick women well.

"I suffered for five years with inflammation which caused violent pain and often torture so bad at times that I could not be about to attend to my daily duties," writes Mrs. Julius C. Bell, of Bathurst, Kingston, Ont. "Life was simply misery to me and I did not know which way to turn for relief. Had tried doctors but found they did not help me. My druggist advised me to try Dr. Pierce's Favorite Prescription—only giving it in glowing terms. I decided to give it a trial and bought a bottle home. I am happy to say that after the use of the first bottle I felt so much improved I decided to take another and after that a third bottle. I have good reasons to be pleased, for I am to-day a well woman, work is easy and the world looks bright. I have perfect health, thanks to your medicine."

Sick women are invited to consult Dr. Pierce by letter, *free*. Address Dr. R. V. Pierce, Buffalo, N. Y.

"Favorite Prescription" makes weak women strong, sick women well. Accept no substitute for the medicine which works wonders for weak women.

Dr. Pierce's Pleasant Pellets should be used with "Favorite Prescription" whenever a laxative is required.

—Port Hope Guide: We note from the published annual report that Mr. John Alexander Culverwell, our fellow townsman, and also of Toronto, has been honored again by re-election as a vice-president of Upper Canada College Old Boy's Association, the governing body of that great school. The president is W. H. Beatty, Esq., and other vice-presidents are Colonel Geo. T. Denison, Nicol Kingsmill, K.C., Judge Barron, Frank Arnoldi, K.C., and Colonel Hendrie, M.P.P.

H. C. McLEOD,
General Manager.

Toronto, January 25, 1905.

We have audited the above Statement with the books of the Bank at the Chief Office and with the returns from the Branches, and have found the same correct. We have verified the cash and securities at the Chief Office and at some of the Branches, and have obtained all the information and explanations we required. In our opinion the transactions of the Bank which have come under our notice have been within the powers of the Bank, and the above Statement is a correct exhibit of the financial position of the Bank according to the best of our information and the explanations given to us and as shown by the books of the Bank.

MID-WINTER BARGAIN SALE
.....OF.....
Furs and Furnishings

WE are now as deep into the winter as we can hope, fear, or expect. January is the middle month. We have reached the middle of the winter—we have arrived at its deepest depth. Now, two things this store has to say to you in this connection.

...FIRST...

If ever you needed Winter Furs—for yourself or any of your family—or any of you men need Heavy Winter Furnishings—you need them now.

...SECOND...

If ever we are going to clear Winter Goods out and get ready for New Goods for Spring—now is the time to clear them.

There you have the thought behind the noteworthy list of big Midwinter Bargains during this Sale. You will kindly note the Big Reductions made and come in and have a look. If you haven't seen a copy of our large sale bill, come to the store and get one and read the Startling Reductions,

If You Don't Buy Here we Both Lose Money.

PETERBOROUGH NEEDS CONSUMPTIVE SANATORIUM

An Association Formed Last Night to Consider the Question of Isolating Consumptive Patients---Local Medical Men Say That Consumption is Unquestionably Contagious.

The action of the committee of citizens in effecting a meeting last night of members of the Town Council, Board of Trade, Board of Health, the medical profession, and the ministry to discuss the question of securing for Peterborough a local sanatorium, if deemed advisable, for the treatment of sufferers from the great white plague, was a step which should commend itself to the whole community. This committee, of which Mr. R. M. Denniston, is chairman, was formed with a view to rhising subscriptions for the endowment of a bed at Gravenhurst Sanatorium for consumptives. $241 had been subscribed of the $300 necessary, for this commendable purpose, when the committee concluded that the practicability of securing a local institution for the treatment of this dread disease was well worthy the fullest consideration by medical men and representative local bodies. This led up to a very satisfactory meeting being held in the Council Chamber last night, when the following gentlemen were present; Dr. Hodgetts, Secretary of the Provincial Board of Health; Mayor Beat, Revs. Dr. Crothers and Torrance, Rev. Mr. Lewis, Drs. Boucher, Halliday, Bingham, McNulty, McCullough, Grey, Morgan, Brown; Ex-Mayor G. M. Roger; Alderman Tovey, McIntyre, Begley, Johnston, Hatten, R. B. Rogers, W. H. Moore, R. M. Denniston, E. B. Edwards, Town Clerk Armstrong, Wm. Eyres, J. W. Bennett, J. Coyll Brown, B. F. Ackerman; T. Q. Quartermaine, Secretary Board of Trade.

Col. E. B. Edwards made a very acceptable chairman.

LOCAL SANATORIUM ASSOCIATION.

As a result of two hours' deliberation on this question of vital interest, on motion of Mr. R. M. Denniston, seconded by Mr. Wm. Eyres, an association known as the Peterborough Sanatorium Association, was formed, composed of the following gentlemen;—

President—Dr. Boucher.
Vice-Pres.—E. B. Edwards.
Sec-Treas.—J. W. Bennett.
Executive Board—Mayor Beat, Ald. Johnston, Robt. Neill, W. H. Moore, R. M. Denniston, Wm. Eyres, Dr. Crothers, Dr. Halliday, Dr. McNulty.

TREATMENT OF CONSUMPTION.

Dr. Hodgetts gave an exhaustive treatise on the requirements of sanitaria, and the crying need for more than one institution—that at Gravenhurst—for the treatment of the white plague in Ontario. He said, like that great blessing to mankind vaccination—the sanatorium treatment of tuberculosis had its origin in England, and in both instances the originators were county physicians. In the year 1835, Dr. George Bodington advocated treatment by pure air and out door life, but so great was the opposition of his associates and the ridicule heaped upon him by the public that he had to give up practice and abandon the sanatorium. The result of his work was, however, published in 1840. Some 24 years later the second sanatorium was erected in Germany by Dr. Gorberadorf of Brehmer. From this time on the work gradually extended chiefly, however, for the treatment of those in more comfortable circumstances, until at the present there are the following sanatoria; in England, 25; France, 21 Germany, 43; Russia, 11; Switzerland, 8. United States, 63; Canada, 5; besides many others in different portions of Europe.

The methods pursued in Germany being somewhat different to those adopted on the Continent may, with interest, be briefly referred to. Many of the sanatoria have been established by the State, others by the Government Insurance Companies, and still others by philanthropists, and some as good investments by capitalists. During 1902 the Insurance Companies expended nearly two million dollars, half the erection of sanatoria and the other half for their maintenance.

These sanatoria may be classified as follows;—

A. Those built and supported in whole or part by the State.

B. Those built and equipped by philanthropic persons to give climatic and other advantages to persons unable to pay for them, the excessive charges of hotels and boarding houses the rate usually being $5 per week, while the cost to the institution is from eight to ten dollars per week, the difference being made up by philanthropy.

C. Those built as commercial speculations and are self-supporting, the charges ranging from fifteen to twenty-five dollars per week, or

The object of these three classes of sanatoria is to have the patients spend a large portion of each day in the open air, and by giving as much of the right kind of food as they can assimilate thereby improving the general nutrition, and for this purpose rules are laid down for their daily guidance; these, of course, differing slightly in each institution.

Dr. A. Hillier in his recent work on 'The Prevention of Consumption,' page 129, very clearly sums up the three classes of institutions required as follows;

(a) Sanatoria for early cases who are able to get about and in whom there is a fair prospect of cure.

(b) Special sanatoria or homes for advanced cases, who are unable to be up, and in whom the prospect of cure is not great.

(c) Open air colonies which would be supplied for both classes (A & B). For "A" with patients who had improved but were still not cured; for "B" with that small number of consumptives who, in spite of their advanced condition, had rallied sufficiently to be able to be up and follow some light occupation.

A sanatorium should be placed in the southerly aspect of a hill at a sufficient altitude to obtain a bracing air, with woods in its near vicinity, and some acres of ground to permit of the construction of walks and erection of summer houses. The soil should be by preference sandy, or on rock, dry, with slope to ensure drainage. Given these a consumptive must have all the sunlight it is possible for him to get. The following are given by the Commission of New Hamshire, appointed to consider a desireable site for a State Sanatorium, as essentials in making a choice;—

1. A considerable tract of land, say one hundred to two hundred acres, partly wooded, preferably, but not necessarily with pine, with a southerly or southeasterly slope, at least for building sites, within easy access of railroad, at an elevation not less than five hundred feet above sea level, with dry porous soil.

(Altitudes—Peterborough, G. T. R. station, 649 feet; Lakefield, G. T. R. station, 770 feet; Gravenhurst, 818 feet.)

2. Its proximity to railroad communication is essential, not only for the convenience of patients, but for the furnishing of coal and other supplies.

3. Another requisite is a sufficient amount of good water for all the purposes that might be required, with opportunities or facilities for good drainage.

4. The location must be near a city or village, but not in it; must be remote from the dust of towns, and where the air is known to be pure.

5. The location must be such that the scenery will be pleasing and somewhat extensive; a near-by lake or pond would be an attraction.

In the States the plan prevailing for construction is to build a large number of small detached cottages, accommodating each from four to eight patients, these being grouped around a central building. Such in part is the system adopted at Gravenhurst where tents with properly constructed floors and wooden roofs are used, in this manner patients are at all times breathing fresh air.

The advantages of the American system are, the patients are not brought into such close contact; surroundings are more agreeable, and possibly the amount of fresh air obtained is greater.

The chief disadvantage is the extra cost of heating, which in our cold climate is always heavy.

Experience in Europe has shown that a properly conducted sanatorium is not a source of danger. The greatest danger is the pthesical patient at large. Houses without control are a source of danger, whereas in a sanatorium precautions are taken to disinfect sputum.

In considering the provision that would have to be made by the district of Peterborough for the care of consumptives, I have collected the figures of deaths recorded during the past six years in the County of Peterborough, which were as follows;

In 1896, 69; 1899, 60; 1900, 78. 1901, 46; 1902, 44; 1903, 44.

In the County of Peterborough alone 44 died from consumption during 1903, being its quota of the 1,095,000 victims of the white plague for that year. This county lent its aid to the 3,000, who died each day of the year, and as each minutes of the day two persons fell as twenty-two minutes of the time were used in this county.

With a death roll of 44 it may justly be computed that there are

least at the present time in the County of Peterborough 150 living in all stages of the disease, and allowing that there are as many in the incipient stage as die annually then the figures would be about one-third of this total for each of the following classes, incipients, advanced, chronics, and for this number provision would ultimately have to be made.

To begin the work of caring for consumptives I would not do more than recommend a central administration building, containing dining room, offices, kitchen and other rooms for staff, with possibly two wings having broad pizzas; these wings could be used possibly for the advanced cases, while tents similar to those used in the Adirondacs, Gravenhurst, and other American Sanatoria, could be constructed.

Regarding financial assistance from the Provincial Government, I would state that owing to the efforts of the Hon. J. R. Stratton, when head of the Department, an act was passed by the legislature whereby municipalities or joint municipalities on receiving the approval of the Provincial Board of Health of their plans are granted an aid in the purchase of land and erection of buildings, a sum not exceeding $4,000, and thereafter an annual allowance of $1.50 per week per patient. It is quite apparent, however, that the Legislature for once went ahead of public opinion, for unfortunately no municipal authority has as yet availed itself of the offer.

To Col. Edwards, Dr. Hodgetts replied that it might be advisable to provide for incipient cases first; there could be accommodation in tents, with a central building for offices.

Dr. McNulty felt that active steps should be taken to combat this dread disease. The financial question, though is a serious problem.

To Dr. Torrance, Dr. Hodgetts replied that a properly equipped sanatorium would cost $10,000 or $15,000.

Col. Edwards thought the Hilliard estate, owned by the town, would be a good site; perhaps the house there could be moved, and with additional wings converted into a central building for offices, with a lady superintendent in charge. Cottage tents for two patients would cost $100 each, and four four patients $125 each. He thought a sanatorium could be secured in this way for $2,500.

Mr. J. W. Bennet estimated that patients could be treated at a cost of $5 a week each.

Dr. Halliday said that as to the necessity for such an institution in Peterborough there can be no question. It is a duty we owe to consumptives who cannot afford proper treatment, either in incipient or advanced stages, to provide such an institution.

Dr. Boucher said a sanatorium is highly desirable for Peterborough. Statistics show that the mortality from all other diseases put together does not come within 500 of those who die from tuberculosis. The house on the Hilliard estate would not answer the purpose, however, it is old and the rooms not light and airy.

Mr. Wm. Eyres thought the isolation of consumptives imperative in the interests of the whole community.

Dr. Grey pointed out that the Hilliard property was purchased by the town for $10,000 for a sandpit; he did not think its surroundings sufficiently attractive for a sanatorium. $10,000 would buy four or five townships in new Ontario, just the spot for consumptives—plenty of trees, fresh air, water, etc., and offering abundance of opportunities for exercise. And there is nothing more healthy than to live in a log house with a fireplace in it. He thought a Provincial sanatorium in new Ontario would meet a crying need. And it is bound to come in order to have that isolation necessary to stamp out the white plague.

Dr. Halliday remarked that there is as much need for the isolation of consumptives as of small-pox patients. Consumption is certainly contagious.

Dr. Hodgetts offered the information that 28 deaths occurred in Peterborough last year from consumption, which aside from suffering and sorrow, represents a loss to the community, represents a loss to the municipality of $50,000.

SUNDAY DAY FOR UNITED ACTION

General Resumption of Labor Agitation in Russia

SOUTHERN PRESS UNSPOKEN

Blame Government for Disasters in Far East—St. Petersburg Strikers out Again

London, February 9.—The recurrence of the Russian strikes seems to be the beginning of a general resumption of the labor agitation. Little can be said beyond this at present, but the unrest previously noted in the despatches continues everywhere and rumor points to Sunday as the probably occasion for united action. This, possibly, will not be aggressive, but it will be none the less determined.

A majority of the South Russian newspapers print outspoken articles of the war with Japan. They recapitulate the Russian disasters, and openly ascribe them and the sufferings of the army in Manchuria to the incompetence and corruption of the Government, the heads of the army and the commissariat. All the articles infer that it is time to abandon the hopeless struggle. An anti-war demonstration, which was arranged for today at Odessa, was prevented by the police, who would not allow the would-be demonstrators to hold a meeting. The students attempted to hold a meeting in spite of the police prohibition, with the result that the university was hastily closed. The authorities, however, were unable to prevent the distribution of an astonishing number of leaflets, headed: "Stop the War." Thousands of these, which were seditiously worded, were scattered on the chief thoroughfares early in the morning.

ST. PETERSBURG WORKMEN QUIT.

A despatch from St. Petersburg says a majority of the workmen in the Government cartridge factory at Vassili Ostroff, where 5,000 hands are employed, quit work this afternoon. Many of the smaller factories in the same district have also been closed by their hands going on strike. The motives prompting the men to again commence the struggle are partly resentment against the constitution of the so-called work men's deputations that have been received by the Czar, it being claimed they consisted of Government overseers and not workmen, and partly against Gov.-Gen. Trepoff's instructions to manufacturers and the directors of the Government factories not to parley with the workmen, but to treat them as strikers who have refused pardon, and who are therefore law breakers. The employers are more concerned regarding the Government's attitude than anxious to reopen the factories.

At a meeting of strikers at Lodz this evening the offer of the employers was rejected.

PETERBORO WATERWORKS

INTERESTING REPORT OF THE SECRETARY-TREASURER

A Surplus of Assets of $3370.29 for the Year

The following is the annual report of the Secretary-Treasurer of the Peterborough Waterworks for the year 1905, presented at the annual meeting of the Board of Water Commissioners;—

Peterborough, Jan. 31st, 1904.

To the Peterborough Water Commissioners;—

Gentlemen,—I herewith submit the financial statements of the Waterworks Department for the year 1904.

The amount expended in the extensions of mains and setting hydrants was $7,699.92, and in laying services $3,006.21, a total of $10,706.13 expended in construction work. The practice inaugurated in 1903 of charging the whole cost of engineering and superintendence to expense account has been followed in 1904.

On the first of April the rate of discount allowed to consumers for prompt payment was increased from 20 per cent. to 25 per cent. The expenses on the dam were much larger than in 1903. Including the cost of procuring a report and plan from Mr. C. H. Keeler, C.E., these amounted to $2,798.27, as compared with $524.14 in the previous year, and were paid out of revenue.

The net water rates for the year amounted to $25,806.86, and the expense accounts, including interest on debentures and sinking funds and 7½ per cent, written off tools and plant for depreciation, amounted to $25,306.94, leaving a balance of $500.92, which has been carried to the credit of profit and loss account.

Respectfully submitted.

S. R. ARMSTRONG,
Secretary-Treasurer.

Just the same.

A FELLOW FEELING

Why She Felt Lenient Towards the Drunkard

A great deal depends on the point of view. A good temperance woman was led, in a very peculiar way, to revise her somewhat harsh judgment of the poor devil who cannot resist his cups and she is now the more charitable. She writes:

"For many years I was a great sufferer from asthma. Finally my health got so poor that I found I could not lie down, but walked the floor whilst others slept. I got so nervous I could not rest anywhere.

"Specialists told me I must give up the use of coffee—the main thing that I always thought gave me some relief. I consulted our family physician, and he, being a coffee fiend himself, told me to pay no attention to their advice. Coffee had such a charm for me that in passing a restaurant and getting a whiff of the fragrance I could not resist a cup. I felt very lenient towards the drunkard who could not pass the saloon. Friends often urged me to try Postum, but I turned a deaf ear, saying 'That may do for people to whom coffee is harmful, but not for me—coffee and I will never part.'

"At last, however, I bought a package of Postum, although I was sure I could not drink it. I prepared it as directed, and served it for breakfast. Well, bitter as I was against it, I must say that never before had I tasted a more delicious cup of coffee! From that day to this, (more than 2 years) I have never had a desire for the old coffee. My health soon returned; and asthma disappeared. I began to sleep well and in a short time I gained 20 pounds in weight.

"One day I handed my physician the tablets he had prescribed for me, telling him I had not use for them. He stayed for dinner. When I passed him his coffee cup he remarked 'I am glad to see you were sensible enough not to let yourself be persuaded that coffee was harmful. This is the best cup of coffee I ever drank.' he continued; 'the trouble is so few people know how to make good coffee.' When he got his second cup I told him he was drinking Postum. He was incredulous but I convinced him, and now he uses nothing but Postum in his home and has greatly improved in health." Name given by Postum Co., Battle Creek, Mich.

Look in each package for the famous little book "The Road to Wellville."

AN EDITORS' VISIT

Col. Frederick of the War Cry to Visit Peterborough on Sunday

The local Salvation soldiers are all agog over the promised visit of Col. Friederich, editor of that world-wide organ of Salvation, "The War Cry." Col. Friederich unites with his editorship the superintendency of the Alaska and British Columbia missionary stations among the Indians. He will arrive Saturday night and conduct a series of special services Saturday, Sunday and Monday next.

Adjutant Arnold, of Territorial headquarters, will accompany the editor. A specially interesting feature will be the curios collected by Col. Friederich along the shores of the Pacific and adjacent islands. On Monday night the colonel will deliver a specially illustrated lecture on "The Red Man."

READY FOR FRESH ATTACK

Great Battle Coming in the Indian Ocean—Two Fleets to Clash

Tokio, Feb. 10.—Admiral Togo arrived at Kure to-day, and immediately raised his flag on the battleship Mikasa.

Russian supremacy in the far east hinges on the result of the naval battle now imminent between the Baltic fleet and Admiral Togo. The Russian Admiralty definitely announces that Admiral Rojestvensky will cross the Indian ocean immediately before the monsoon season, which begins in March, and makes navigation impossible for torpedo-boats, small cruisers, and coast defence vessels. This report presages an early meeting between the Russian squadron and the Japanese fleet, which, under the command of Admiral Togo, will sail for the south in a few days. Experts predict that the last days of February or the first of March will see one of the greatest naval battles in the world's history.

St. Petersburg, February 10.—The third division of the Pacific squadron, which has been fitting out at Libau for several months will sail from that port for the Far East to join Admiral Rojestvensky on February 14. It will be commanded by Admiral Miebogatoff.

CRUCIAL BATTLE IN HUN VALLEY

Russians Expected to Repeat Their Last Move

CONCENTRATING TO WEST

Anticipate Attempt on Part of Japs to cut Their Lines of Supply

Tokio, February 10.— Information from the Sha River indicates that the Russians are concentrating at Chitaitse and Tselinshu, west of the Hun River, apparently in anticipation of a movement on the part of the Japanese threatening their lines of supply. Otherwise the situation is unchanged. A general battle is not imminent.

Mukden is crowded with the Russian wounded, and the hospital accommodation is fearfully inadequate. There is also much confusion in the Russian camp. Naturally desertions are on the increase.

Military critics in Tokio consider that the centre of each army is so strongly fortified as to defy assault. The non-success of the Russians in the mountain fighting renders it improbable that they will attempt to turn the flank of Gen. Kuroki, who commands the right wing of the Japanese army. Accordingly, despite the defeat of the Russians recently sustained, it is considered likely that the Hun Valley will be the scene of the crucial struggle.

NO KNOWLEDGE OF PEACE PROPOSALS.

Tokio, Feb. 10.—A report, emanating from London, to the effect that the Grand Dukes of Russia, determined to secure peace, had asked the friendly offices of Great Britain, was published in Tokio to-day. The Foreign Office denied having any knowledge of the matter.

THE CANADIAN WINTER GAME.

PETERBOROUGH NOW INTERMEDIATE CHAMPIONS OF DIS. 1 AND 2.

In a fairly good exhibition of hockey on the Brock street rink last night the Peterborough seniors defeated the Smith's Falls Micmacs, winners of district No. 2, by a score of 8 to 2, thereby clinching the championship of districts No. 1 and 2.

The visitors were a much lighter aggregation than the home septette and play a fast clean game of hockey, but were unable to cope with the locals forward line, who repeatedly broke away with brilliant spells of combination, but the ice being sticky, frequently skated over the puck and spoiled many a good rush. They checked back well, but found it next to impossible to pierce the strong defence of the home team. At all stages of the game the locals showed their superiority over the Micmacs. The visiting team were particularly weak in combination, and relied principally on individual work, are good stick handlers, but failed to pass the rubber, when opportunity afforded them a good chance. The Micmacs are the youngest bunch of players that have played intermediate hockey here this season, being a much lighter team than the locals, and have some coming material that promise to shine in hockey in the future. The locals especially in the first half seemed to be unable to strike their gait partly because of the sticky condition of the ice which the disc stuck to, and prevented the players from indulging in their brilliant combination, the boys repeatedly skating over the puck and this also interfered with their shooting as was evidenced by the number of shots that went wide for at one stage of the game Cavanah had openings and shot six times, but failed to locate the nets. The work of Glover and Crowley was excellent, and seldom was Ernie Wasson, who guarded the nets, allowed a chance to show his good work, rush after rush of the visitors being intercepted by them.

FIRST HALF.

The game was started sharp at 8.30 and immediately the crowd of about 1,200 spectators, the largest this season, including a small bunch of supporters of the Micmacs became enthused and fairly made the rafters of the rink tremble as they applauded and roared when the locals scored or made a brilliant rush; then again you could almost hear a pin drop as the excited crowd waited in breathless suspense and a sigh of relief would come over their countenances when Wasson had cleared, or Glover or Crowley would take the rubber up the ice and free the nets from danger.

Peterborough was the first to score after three minutes' play, Cavanah locating the nets on a pass from Graham, although Parnell planted a hot one a few seconds before which Mereau blocked. The next went to the visitors, Gallipeau putting the lucky shot followed by another for the locals, Morgan intercepting a rush of Poulins, securing the rubber, took it down the ice, and punctured the net. Then the visitors tried hard to even matters. Glover blocked a rush of Dunn's, and took the rubber down the full length of the ice, but the shot was blocked. In the meantime, Morgan, Parnell and Crowley, all had had a series of unsuccessful pokes at the net, but their shots were either blocked or went wide, finally Armstrong got away with the rubber, and rushed up the ice, passed to Poulin, who scored making it two all.

From this on it was quite evident that it would be just a matter of goals for the locals, and the visitors were shut out from any further scoring. Graham scored another for Peterborough on a pass from Parnell. Cavanah drove shot after shot at the nets but was unable to count finally. Crowley took a rush down and slammed one in. This ended the scoring in the first half.

SECOND HALF.

In the second half the visitors failed to make an impression, and the play was kept pretty much in the vicinity of their nets.

Cavanah started the scoring and landed one in two minutes. Then the visitors' goal was besieged with shots from the locals. Cavanah shone in the shooting line, and was fed by Graham, Morgan and Parnell, who also took a turn at jabbing them at the nets, but Mereau was playing a brilliant game between the flags for the visitors and had it not been for his excellent work the score would have been much larger. Graham went off for one minute, followed by Dunn, and shortly afterwards, Wilds and Parnell decked the fence. Crowley scored the next goal, and Morgan followed, pushing it in from a shot of Parnell's which struck the post. Then Chancer Elliott got in his work, and as a result the following players played on the bench for periods of one minute each, Cavanah, Morgan, Glover, Crowley 2, and Arm strong of the Micmacs. The final game was scored by Chris Graham on a pass from Morgan, making the score 8—2.

Following is the line-up;—

Peterborough—		Smith's Falls
Wasson	Goal.	Mereau
Glover	Point.	Lee
Crowley	Cover-point.	Wild
Cavanah	Rover.	Poulin
Morgan	Centre.	Dunn
Parnell	Right Wing.	Armstrong
Graham	Left Wing.	Gallipeau

Goal Umpires—Peterborough, Geo. Lynch; Smith's Falls, F. Hutton.

Timekeepers—J. McCabe and W. Pierce.

Referee—Chancer Elliott.

In last night's game Mereau in goal put up a magnificent game, and stopped some hot ones. Had it not been for his excellent work the score against the Micmacs would have been considerably larger. Poulin and Dunn also showed up well, especially the former.

It would be difficult to single out any particular one of the locals, but Crowley and Glover were veritable stonewalls at their positions.

The visitors' line-up was the same with the exception of Wilds who replaced Hammond at cover-point, as played in Smith's Falls on Monday night when the locals trimmed them 15 to 2.

U. S. Colonel Cured of Rheumatism

So Crippl d He Couldn't Walk—Absolutely Helpless Till He Took the One Sure Cu e.

FERROZONE

Relieved at Once—Cured Permanently—Well Ever Since

Colonel H. M. Russ, of Edwards, St. Lawrence county, N.Y., is one of the fine old heroes of the Civil war.

"I couldn't get around without a cane, and then only with difficulty.

"Rheumatism took complete control of my limbs.

"The suffering was more intense than the hardships on the battlefield.

"When my doctor had done his best I got Ferrozone.

"Then came a quick change.

"Ferrozone gave me comfort at once, eased the pain and took the stiffness out of my muscles.

"I am well to-day. Ferrozone cured me completely. I can jump and run like I did forty years ago."

No matter how long you have suffered Ferrozone will bring you prompt relief. It will increase your strength, renew your vitality, drive out every trace of rheumatic pain. Never known to fail; 50c. per box, or 5 for $2.50, at all medicine dealers, or Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock. The Times will be sent to subscribers in the district at 50 cents per month, and to outside points at $4 per year, strictly in advance.

UNION LABEL

PETERBOROUGH, FEBRUARY 10 1905

WHY?

Why should Russia continue the barren struggle in Manchuria? The latest movement around Mukden by Gen Kuropatkin was plainly an attempt to feel the Japanese position and determine if it were possible to find a weak spot where an attack would not be hopeless. It has failed completely, so far as we can judge. So soon as it progressed far enough th betray its purpose it was met by a vigorous counter movement, and the Russians have been driven back with serious loss beyond the Hun River. Ten thousand men have been killed or wounded, and nothing has been gained. Further action of the same or more desperate kind can in all probability yield no better results. The Japanese have forced the Russians from all of Manchuria that was desired by themselves, the strongest fortified place of modern times has fallen into their hands; the fleet which alone could threaten their easy, prompt, and safe communications with their home base has been destroyed or captured; it is hard to see how they can be dislodged even if the effort to dislodge them should be kept up for years. And what hope can Russia have of maintaining such an effort long enough even remotely to threaten the exhaustion of Japan?

Another question. Why should the nations of the earth treat Russia in this situation otherwise than they would treat Japan? Suppose that the Japanese had suffered defeat from the time that they crossed the Yalu. Suppose that they succeeded only in holding the passes of the mountains west of that region and were compelled to strain every resource to do that. Suppose that they had been cut off on the sea, and forced to give up the siege of Port Arthur. What would have been the attitude of the Powers toward Japan? Would they not have demanded that a vain and wasteful and disturbing conflict should be settled, and while trying to safeguard their own interests, as they did when Russia had defeated Turkey, would they not insist that peace should be made on the best terms practicable? Soon or late, it seems inevitable that the intervention of Europe will occur. Why not now? The answer will be that one more decisive battle in Manchuria must be fought. But what reason is there to suppose that such a battle will do more than emphasize the present situation? All that can happen in meantime in a military way is that each Power will strengthen its forces to the utmost, and, with the resources of each, the relative distance from the home base, and the efficiency of the two military systems, can there be serious question as to which Power will gain the more in the interval?

JOHN BULL LEANS ON UNCLE SAM

Accepts President Roosevelt as America's Policeman

New York, Feb. 10.—A London despatch to the Herald says; The decision of the British Government to withdraw all the infantry battalions from the West Indian Colonies at an early date has been the occasion of considerable discussion in business circles during the last few days, but it does not appear to have come as a surprise to army and navy officers.

An officer who recently relinquished a high military command, said to-day that the step now to be taken had been under discussion for some time previously.

"It is in this way," he continued, "the complement of what is being done in regard to naval matters in the same locality.

"It appears that the British Government has determined to take President Roosevelt at his word, and accept his definition of the Monroe doctrine.

"Why, for example, should we be at the expense of keeping soldiers at Barbadoes, Bermuda and Jamaica, when those islands are quite as secure from foreign invasion as is Cuba or Porto Rico?"

PRIEST TAKES A BRIDE

Father O'Hanley of Brantford Married in Toronto to Miss Finch-Noyes of Hamilton

Hamilton, Feb. 10.—Roman Catholic Church circles particularly, and society generally, are excited over the announcement of the secret marriage of Rev. Father Alex. O'Hanley and Miss May Finch-Noyes, daughter of E. F. Noyes, of the big clothing firm of Copley, Noyes & Randall.

The notice of their marriage, which was performed in Toronto on Jan. 24, by Rev. A. Gilray, was inserted in the papers by the girl's parents after the pair had left for New York yesterday morning. The marriage was kept secret till Monday.

Father O'Hanley, who is about 40 years of age, came here about two years ago from Antigonish, Nova Scotia, and was located at St. Mary's Cathedral up to three weeks ago, when he was transferred to a parish in Brantford. He was very popular with the clergy and the congregation Miss Noyes' parents belong to the Church of England, but she was one of the converts made at a mission held here two years ago by Jesuit Fathers from Montreal. She was an ardent Catholic, and was a frequent visitor to the convent and the church.

That the two were fond of each other was never suspected by the friends of either. The girl had another suitor up to a few weeks ago. She is twenty-two years of age and very pretty.

Nothing is known of the couple's intentions, whether they will return or not. Officials of the Church would give no information other than that the priest was gone.

What is considered the worst feature of the case by Roman Catholics is that Father O'Hanley returned to his parish and exercised the duties of a priest after having violated his obligation.

Rev. Alex. Gilray, of College street Presbyterian Church, was called upon by a press representative with reference to the above, but he positively refused to make any statement whatever in reference to it.

MORE BLOODSHED

Men Who Went to Work Killed by Strikers

Warsaw, Russian Poland, Feb. 8.—Several men were killed here to-day by strikers in bakeries and elsewhere, where attempts were made to resume work. Many arrests have been made.

The price of provisions has gone up. The peasants are afraid to bring in their produce.

Strikers this morning attempted to bring out the employes of the electrical plant of the lunatic asylum, but the doctors succeeded in gaulfying the men.

According to a report from Radom, 20 workmen have been killed or wounded in strike disorders there to-day, while at Sjaraysko 24 have been killed and forty wounded.

Grave trouble is also reported at Kutno to-day. Troops have been sent to Kutno from here.

A PROGRESSIVE COMPANY

Annual Meeting of the Shareholders of the Anglo-American Fire Insurance

Elsewhere will be found the financial statement of the Anglo-American Fire Insurance Company, presented at the sixth annual meeting of the shareholders of that progressive institution, held at the head office, Toronto, on Tuesday last. Considering the unusually heavy losses sustained by fire insurance companies in Canada during the year, the management are to be congratulated on the result of the year's operations. The company's net income for the year 1904, after deducting all reinsurances, was $310,-066.50, being an increase of premium income on the underwriting account over the previous year of $46,465.80. The company's net loss for the year amounted to $316,204.66, including all unadjusted losses. The Fire Loss Account is abnormally swelled by the Toronto conflagration, entailing a loss of $166,290.62. Excluding this heavy loss, the loss ratio for the year is only 49.20, which is a very low rate, considering the excessive fire waste throughout the country

LOOKS FOR "FREE CANADA

President of Cornell Predicts our Independence

New York, Feb. 9.—At a meeting of the Presbyterian Union at the Hotel Savoy last evening, Jacob G. Shurman, President of Cornell University, aroused enthusiasm as he pointed possible expansion of American protectorates, if not American sovereignty, over Canada, the West Indies, and possibly of some of the Latin South American States.

"I do not believe the annexation of all the West Indies and most of the South American States would be a very agreeable thing for us, but the trend is that way. Another problem that faces this country is the effect of the immigration of Americans into the great wheat fields of the Northwest Territory. What political effect that is going to have I hardly dare trust myself to say, but I look forward to a Canada that will become a free and independent state, and it's my firm belief that if we do not expand in that direction at once we shall at least soon be in a position where we will be compelled to clasp her hand as a sister state, striving with us to maintain political and religious liberty such as we now enjoy. She will not long consent to remain a mere colony."

Mr. Jacob Gould Schurman is a Canadian by birth, having seen the light at Freetown, Prince Edward Island, where he was born on May 22, 1851. He was educated at Acadia College, Nova Scotia, where in 1875 he won the Canadian Gilchrist scholarship in connection with the University of London. He graduated there A.B. and A. M. in course 1877 and 1878, and later studied at Paris, Edinburg, Heidelburg, Berlin and Gottingen. He was appointed President of Cornell in 1892. Mrs. Schurman was a daughter of the late George Munro, the New York publisher, who died in 1896, and was also a Canadian.

A WIDOW'S PATHETIC LETTER.

One of Hundreds of Letters Received at Muskoka Free Hospital for Consumptives—Pleads for the Life of an Only Son.

The following is one of hundreds of letters received at the office of the National Sanitarium Association:—

COOKESHIRE, QUE., June 3rd, 1904.

DEAR SIR,—I hope you will pardon my writing to you. I am Charles Brown's poor mother, that is heart-broken about my one and only son, and longing for your kind letter to arrive to say you can find a place for him soon in the Muskoka Free Hospital for Consumptives. He is the only son I have and I am depending on him for support, and he has a wife and one baby depending on him also for their support. . . . He is the Charles Brown that Judge Britton's daughter spoke to you about. . . . Dear Sir, for God's sake hasten the time for him to get there, as the longer it runs on him the harder it will be for him to get well and back to his former health and strength again. . . .

MARG'T BROWN.

COOKESHIRE, QUE., June 6th, 1904.

DEAR SIR,—I received your kind and most welcome letter to-day. Very glad I was to hear the good news that my dear son can go to the Hospital any time this week. Thank God for the good news. He will leave Montreal on Monday, the 13th, or Tuesday, 14th, at the latest. . . . It has given him new life to hear the glad news that you have sent to me, his mother.

MARG'T BROWN.

It is to meet just such cases as this that the Free Hospital for Consumptives has been built. Less than three years opened, nearly 400 patients have been cared for, and not a single patient has ever been refused admission because of his or her poverty.

Sir Wm. R. Meredith, Kt., Chief Justice, 4 Lamport avenue, Toronto, or W. J. Gage, Esq., 54 Front street, will receive and acknowledge any subscriptions our readers will send.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

1] At least six months' residence upon and cultivation of the land in each year during the term of three years.

2] If the father (or mother, if the father is deceased), or any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same town, township, or an adjoining or cornering township.

A settler who avails himself of the provisions of [illegible] 2] 3] or 4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the End of June, 1908.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Land Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

INCORPORATED

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and, we believe, exceedingly profitable investment. Every dollar of stock is guaranteed by twenty year, full paid, gold bond, delivered to purchaser of stock, from an investment Company that has no interest whatever in the company, but who are disposing of the debentured bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the State Treasurer under which they received their charter, there by doubly securing the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvellously rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Simmer and Jack Mining Co., Limited, Klandsfountain, South Africa:—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world.

"With the present development of the Monument Mine, I estimate that 100 tons per day can be extracted, which will mill from $15.00 to $20.00 per ton. The total cost of mining the ore, delivering and milling, I place at about $4.00 per ton. With increased milling capacity, it is safe to say that the mine can furnish 100 tons of $15.00 ore, which would yield a clear profit of $11.00 per ton, or $1,100.00 per day (equal to $400,000.00 per annum). Estimated total value of ore in sight, $2,500,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Dr. Brown writes as follows:—

"In regards to the amount of ore available at the mines at Sinclair, I saw on the dumps several thousand tons, probably 5000 tons would be an under-estimate.

"As to the size of the ore body itself, from what I saw of the geological structure, I think that there is every indication that it will be found to extend underground as far as the out-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish full information to investors.

VARICOCELE CURED

NO NAMES USED WITHOUT WRITTEN CONSENT.

Confined to His Home for Weeks.

"Heavy work, severe straining and evil habits in youth brought on a double varicocele. When I worked hard the aching would become severe and I was often laid up for a week at a time. My family physician told me an operation was my only hope—but I dreaded it. I tried several specialists, but soon found out all they wanted was my money. I commenced to look upon all doctors as little better than rogues. One day my boss asked me why I was off work so much and I told him my condition. He advised me to consult Drs. Kennedy and Kergan, as he had taken treatment from them himself and knew they were square and skilful. He wrote them and got the New Method Treatment for me. My progress was somewhat slow and during the first month's treatment I was somewhat discouraged. However, I continued treatment for three months longer and was rewarded with a complete cure. I could only earn $18 a week in a machine shop before treatment, now I am earning $21 and never lose a day. I wish all sufferers knew of your valuable treatment.
HENRY C. LOCUST.

HAS YOUR BLOOD BEEN DISEASED?

DRS. KENNEDY & KERGAN

Cor. Mich. Ave. and Shelby St., Detroit, Mich.

A SPLENDID PROPOSITION

The Salido Gold and Copper Company

Incorporated under the laws of Arizona, with a capital of $3,000 000 forever non-assessable divided into shares of $1 each, par value. All investments insured Granite Securities Company.

The "SALIDO GOLD COPPER COMPANY" enterprise offers attractions to the investors of the country, that without thorough investigation, would scarcely seem probable. If only a fraction is realized of what any prudent business man in his own affairs would regard as absolutely certain, the enterprise must prove abundantly successful and exceedingly profitable.

SALE OF STOCK

The company will prosecute the work of development with all the diligence that be cash in the treasury will permit and circumstances warrant, and to this end a small amount of the treasury stock is now placed upon the market, in blocks of not ess than One Hundred Shares. The par value of the stock is One Dollar per share, fully paid and forever non-assessable.

The company reserves the right to advance the price of stock without notice.

REMEMBER

First—That all payments for treasury stock go into the treasury for development work and not into the pockets of the promoters.

Second—There are no salaried officers.

Third—The incorporators have put their own good money into this enterprise and being business men, intend to do business along business lines.

Fourth—That this company is honest.

Fifth—If you are thinking of investing in mining stocks this is worthy of your careful investigation.

OTHER PROPERTIES

This Company owns four other Gold and Copper Mines, which title is now in process in the laws of Mexico. As soon as title is perfected, we shall commence to develop them as we certainly expect something very great from these properties. Our assays taken have been of the very best, showing gold and copper from $6.00 to $122. 30 per ton.

I have secured a small block of this stock, which I offer at the following prices: Unguaranteed 40 cents per share, guaranteed 80 cents per share. These prices will only prevail for a short time, as the number of shares for sale at this price is limited. The Shares will then be advanced to 40 cents for the unguaranteed and 80 cents for the guaranteed. I can unhesitatingly recommend this investment to the Canadian public.

MRS. CHADWICK CAN NOT BE CONVICTED

So Claim the Counsel of Woman of Frenzied Finance

ACCOUNT WAS OVERDRAWN

But Lawyers Claim There Was No Conspiracy—The Carnegie Forgeries

Cleveland, Ohio, February 7.— Mrs Chadwick's counsel are confident she cannot be convicted. Mrs. Chadwick was indicted first in the Federal Court for violating the United States banking laws. It was charged that she conspired with President C. T. Beckwith and Cashier A. B. Spear, of the Citizens' National Bank, Oberlin, to misapply the funds of the bank and that she aided and abetted them in such acts. The fact is that she issued cheques on the bank and obtained New York bills of exchange from it, when there was no money to her credit in the bank to meet the orders. In other words her counsel say she overdrew her account and the bank officials permitted her to do so.

The lawyers say that to prove Mrs. Chadwick guilty, it must first be proved there was a conspiracy on the part of Beckwith and Spear to misapply the funds. Their friends believe that instead of misapplying funds, these officers were trying to save the funds of the bank. Toward the end, in their desperation to preserve Mrs. Chadwick's credit and save their bank, they permitted her to overdraw her account, but that was not conspiracy.

In the county court Mrs. Chadwick is charged with forging and uttering three notes all payable to herself. Andrew Carnegie's name was signed to them. Mrs. Chadwick enjoined upon the bank officers the greatest secrecy and warned them not to raise any money on the notes, as Carnegie would never forgive her for such an act. The actual forging of the documents, it is contended, it will be almost impossible to prove. No one saw the actual writing done and handwriting experts always differ. Mrs. Chadwick's attorneys assert there was no uttering or offering of the Carnegie notes with intent to fraud.

DECLARED HUSBAND DEAD

But He is Alive and Well in Toronto—Wanted Insurance

Toronto, Feb. 9.—Although William Skelton's wife has declared before a notary public that her husband is dead, he is still in the land of the living, his address at the present time being the Workingmen's Home, 50 Frederick street, Toronto. Mr. Skelton appeared in the flesh before an incredulous press representative at the above address yesterday morning.

Mrs. Skelton, who lives at Locklin, near Lindsay, Ont., has asked Dr. Radford, coroner, for a certificate to the effect that a man killed on the G.T.R. track, six miles west of Galt, on Nov. 3, last, was her husband. Enclosed with the letter of application was the statutory declaration that she had examined a photograph of the deceased, and had identified the remains as those of her husband. She said she wished to apply for certain insurance on her husband's life in an English company, and the certificate of death from the Coroner was necessary.

SON INTERFERED.

On the strength of the sworn testimony of the wife, it is possible that the Coroner would have given the certificate, had he not received a letter from William Owen Skelton, a son of William. Young William lives at 291 Lippincott street, Toronto, and when he read in the papers the account of his mother's action, he wrote to Dr Radford, acquainting him of the circumstance that his father was not dead, but living in Toronto. A few days later the Coroner received an official notification to that effect from Deputy Chief Stark, of the Toronto Police Force.

Skelton, sr., who is fifty-two years of age, during the interview, said he came out from England with his family about four years ago, and for a year they all lived with his wife's brother, E. Osborne, on the farm at Locklin.

T FLEEWILL CRUISE

Second Cruiser Squadron Will Visit American Shore

London, Feb. 9.—The second cruiser squadron, commanded by Rear-Admiral Prince Louis of Battenberg, will be inspected by the King off Portsmouth at the end of the month, and it will then start on a cruise of several months, with the object of showing the British flag in distant waters. The squadron will visit American ports among others.

The exact date and details of the squadron's cruise in American waters have not been decided, but it will follow a three months' cruise in the Mediterranean. Captain Stockton, the American naval attache, expects to receive shortly the itinerary from the

Colonies for Manitoba and the West are Coming

London, Feb. 9.—Negotiations are said to be proceeding between Lord Rothschild and the Canadian immigration authorities for the formation of great Jewish colonies in Manitoba and the North-West.

An Itinerant Hospital

Messrs. J. J. Turner & Son, showed Wednesday in their George St. window, an interesting proof that it is not necessary to erect a building in which to isolate people who are unfortunate enough to be stricken down by infectious disease. Their exhibit is a model, on small scale, of a tent just fitted to comply with the requirements of infection. It is made of satin, the exterior measurement is 15x30 feet, and the interior 14x29, its side wall being six feet high. Mr. Turner reports that very great satisfaction is being given by these tents, which are now being used all over Canada, and even quite a number in the U.S. They are being officially recognized by the Ontario and British Columbia Government Boards of Health. This minature hospital was shipped Wednesday to Toronto to the Toronto General Hospital.

MERITED SUCCESS.

Baseless Attacks Upon The Reputation and Business of a Physician are Without Avail.

There lives in Buffalo, N. Y., a man who is widely known as the proprietor of the Pierce Family Medicines. Dr. Pierce has lately come into added publicity because of the unwarranted attack made upon his medicines by a certain periodical, which charged that they were not what they were represented to be by the doctor. He promptly met that attack by suing the owners of the journal in question for $300,000 damages. Upon the filing of this suit a retraction was printed by the editors, who acknowledged that their statement was entirely without foundation, but notwithstanding this covert attacks have still been made upon Dr. Pierce and his business.

Dr. Pierce's business, which has its center at Buffalo, where he has a large laboratory known as the World's Dispensary, for the manufacture of his medicines—the "Favorite Prescription" and the "Golden Medical Discovery" and a hospital, known as the Invalids' Hotel, for the treatment of various ailments by a large staff of physicians and surgeons, is the result of thirty-eight years of honorable and honest dealing with the public. He is a man of honor, respected in the community and enjoying the confidence of his fellow citizens. They know that he is neither a quack nor a charlatan, but that he has attained success in life because he deserves it.

Comley's History of New York State, containing biographical sketches of the men who "have given wealth, stamina, and character" to the Empire State, gives a sketch of the distinguished physician, from which the following brief extracts are made: "Every nation owes its peculiar character, its prosperity—in brief, everything that distinguishes it as an individual nation—to the few men belonging to it who have the courage to step beyond the boundaries prescribed by professional tradition, or social customs. . . . . Of this class of men the medical profession has furnished a distinguished example in the successful and justly-celebrated physician, Dr. R. V. Pierce, of Buffalo, N. Y., and any history treating of the industries of the Empire State would be incomplete without a sketch of his useful and earnest work. . . . . Specially educated for the profession he early supplemented his studies by extensive and original research in its several departments. Devoting his attention to certain specialties of the science he has so carefully investigated, he has been rewarded in a remarkable degree. In these specialties he has become a recognised leader. Not a few of the remedies prescribed by him, have, it is said, been adopted and prescribed by physicians in their private practice. His pamphlets and larger works have been received as useful contributions to medical knowledge. . . . . That his success is *real*, is evidenced by the fact that his reputation, as a man and physician, does not deteriorate; and the fact that there is a steadily increasing demand for his medicines, proves that they are not nostrums, but reliable remedies for disease."

Dr. Pierce's establishment at Buffalo, is one of the show points of that flourishing city, and is well worth a visit just to see how modern medicines, even though they be "patent," are compounded with the utmost skill by trained chemists and on the most scientific principles. It is also worth while for the purpose of seeing the methods followed by which each applicant for aid, whether he be a correspondent or a patient at the hospital, secures the care of eminent specialists in medicine and surgery. Once these things are seen it will be speedily acknowledged by the most skeptical that all patent-medicine businesses are not the frauds which some careless papers have declared them to be.

STEVENS
It's a Habit when using STEVENS ARMS—hitting Bull's-Eye and bringing down your game. All requisite firearm virtues are embodied in our famous line of RIFLES, PISTOLS and SHOTGUNS. How can you help hitting the mark when shooting a STEVENS?

Rare Chance to Secure a Paying Investment

THE GOLD COIN MINING COMPANY

has placed a small block of their stock at the disposal of Canadian investors. This stock is sure to rapidly advance in price. The Company is now arranging to instal the power plant and a mill and cyanide plant for the reduction of their ore to a bullion on the property. They have arranged with a Trust Company having assets of $1,500,000 to put up a bond guaranteeing investors the repayment of the full amount invested. This makes investors absolutely safe. By no possibility can they lose a dollar

THE GOLD COIN MINING COMPANY was organized November 21, 1902, under the laws of the State of Idaho. The capitalization is one million shares of the par value of one dollar each, fully paid and non assessable; of the 1,000,000 shares, 400,000 have been set aside as treasury stock

THE BOISE BASIN came into prominence shortly after Grimes and his party of prospectors entered the Basin country in 1862; their entrance was into the northern portion and one discovery of rich placer ground followed another until the news of the rich finds reached the outside world, when a veritable stampede for Boise Basin commenced, towns sprang up and grew together in an incredibly short time; the rush of people to Idaho City made it a place of 20,000 people in 1867, having a business street over a mile long lined with two-story buildings streets and sidewalks filled with people day and night business and money on every hand and the city bearing the proud distinction of being the capital of the territory of Idaho. Wages ran from $6 to $10 a day and not infrequently forty and fifty men worked on a single placer claim; the clean-up for a day's work in many instances ran close to $5,000; large fortunes were made in a few days by washing the golden sands in a pan; so eager was the quest for the shining metal that the streets of Idaho City were dug up and washed and re-washed, and the soil removed from under the houses and places of business. So extensive was the search for the hidden treasure that not only all of the low ground was worked but the foot of the mountains surrounding the city have been washed away, filling up the lower portions of the basin and extending into the town, where one of the buildings has been buried under the tailings from the numerous placer workings

LOCATION—The property of the Gold Coin Mining Company is situated in the Gambrinus Mining District, Boise County, Idaho, on the range of mountains between Moore Creek and Elk Creek, which forms a part of the eastern boundary of the famous Boise Basin and into which these mountains are drained. The property is located ten miles northeast of Idaho City, from which place there are good wagon roads either to the workings on top of the mountain or to the place of the proposed tunnels in the gulch which crosses the Tunnelsite claim.

THE CLAIMS—The Company owns a group of four contiguous lode mining claims and the Gold Coin Millsite: the names of the lode claims are the Tunnelsite, Blue Bell, Pennsylvania and Homestake, each being a full claim 600 feet wide by 1,500 feet long, excepting the Tunnelsite claim, which is 450 feet wide at the west end and 1,055 feet long: it was necessary to stake the claim in this form on account of joining the Washington property on the south and the Sab Rosa property on the west, these properties being prior locations to the Tunnelsite claim. The four lode claims aggregate nearly 80 acres of rich mineral land.

Further particulars may be had on application to WM. SAILSBURY, Fiscal Agent of the Company Peterborough, Ont., or to

S. E. PHELPS, Secretary,

Tuberculosis The Lungs Cured

World's Greatest Physician Eulogo Catarrhozone, which killsall theGerm Heals the Membranes, Cures Th roughly.

That consumption is due to the presence of germs in the air passages is now admitted by all physicians. Before the disease can be cured of course these germs must be killed. Liquid medicine taken into the stomach can't possibly reach the air cells of the lungs, and is therefore useless.

Catarrhozone never fails to kill the bacilli of consumption for the following reasons, which are plain to every thinking person;

First—Each breath of medicated air you draw through Catarrhozone Inhaler is at once sent through every air cell and air passage in the throat, bronchial tubes and lungs; it is then sure to reach the seat of the consumption germs.

Being a powerful antiseptic Catarrhozone at once kills these germs and establishes such a healthy condition in the lungs that microbes can't live there. Once the cause of the disease is removed it is only a matter of time till you get well and strong again.

That Catharrhozone does permanently cure Tubercular Trouble can no longer be doubted. Ample evidence of its marvellous merit is witnessed every day. Thousands have been cured after all else has failed by this great germ destroyed, which is inhaled to the very source of the disease.

Mrs. G. P. McCluskly, writing from Salt Lake City, U.S., says; "My doctor ordered me to Colorado, where I first used Catarrhozone. I inhaled it probably twenty times a day. In one week it stopped my cough completely, and it was not very long in taking every bit of soreness and hoarseness out of my throat. The antiseptic vapor of Catarrhozone must certainly have killed all the germs of consumption in my lungs, for I came home in seven months a cure. My doctor says Catarrhozone is a marvel. It is of the greatest assistance in lung trouble, and cured me permanently.'

Not only consumption but every form of catarrh and throat trouble is easily cured by Catarrhozone. Two months' treatment costs $1.00. At druggists or by mail from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont. For a quick and certain cure use only Catarrhozone.

A girl with some experience wanted at The Times bindery, to feed ruling machine. Apply at Times Book store.

Accident at C.G.E. Works

A young man named Frederick Hoiyole met with a painful accident at the C.G.E. Works yesterday afternoon, having his first and second fingers on the left hand so badly lacerated that Dr. Young, the company's surgeon, found it necessary to amputate them at the first joint.

To Settle In Belleville

Eighty families consisting of 356 individuals, are coming to Canada by the Telegraph fund. Twenty-three families will be located at Belleville, forty-four will go to other cities and farther west, while the rest are going to friends. Peterborough should get its share, too.

Gusty Gets Guessing

Gusty Dundas, a well-known local eccentric, amused the passers by yesterday afternoon. He had experienced, not for the first time that horses and vehicles, even of such a kind as he drives, will lose themselves, when he has one of his periodicals. His condition yesterday was due in part to recovery of his horse and sleigh, lost the night before, and recovered at a certain barn yesterday. When last seen he was going west in a horizontal recumbent position in his sleigh, trusting to the bonbe to find his way home.

The attendance at the
Peterboro' Business College
larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 80 per cent. of these graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our

Pestered by Small Boys

Many of the merchants and other citizens have been pestered the past few days by some small boys, who are soliciting financial aid towards a fictitious hockey club. It seems that the "club" they are so interested in, has no existence save in the boys' imaginations. The police will doubtless take a hand in, if these youngsters do not very soon mend their ways.

A Bad Leak

The hydrant just north of St. Paul's church on Water street, sprung a leak a couple of days ago, and has occasioned some trouble. It appears the hydrant had been used, but the valve had not been properly screwed down, with the result that the frost got in its work. Yesterday the water had to be turned off that section of the town in order to allow the hydrant to be dug up and repaired.

Extensive Alterations Contemplated

Messrs. T. Barrie & Co., are offering a sweeping reduction in prices of all lines in furs, haberdashery, hats, caps and all lines seasonable or unseasonable, to clear their stock to its lowest compass, owing to the intended thorough re-fitting and alterations about to be done in the immediate future. All these goods must positively be reduced before carpenters and other mechanics begin work, to make space and avoid dust. See adv. in another column.

Police Court News

Acting Magistrate Eastwood, yesterday morning, presided over the court. His business was light, only a vagrant, Fred Hubble, who was remanded for a week.

Mr. Henry Rush has been appointed Acting Police Magistrate, pro tem, in the place of Magistrate D. W. Dumble, who is confined to his home by illness.

A special session of the Police Court was held yesterday afternoon, Acting Magistrate presiding.

Bank of Nova Scotia

Mr. E. T. Hammett, Toronto, one of the officials of the Bank of Nova Scotia, arrived in town yesterday, and is registered at the Snowden. Mr. Hammett, who called on The Times, stated that the bank would open their Peterborough branch as quickly as the premises, on the corner of George and Charlotte streets, at present occupied by Tax Collector Green and Town Engineer Hay, could be put in shape. The bank would have handsomely fitted up quarters, and Mr. Hammett looked forward with confidence to the future as regards their Peterborough business.

Merritt and Pritchard's Biograph Co.

A large and well pleased audience, after some half hour's weary delay, owing to the company being blockaded by snow between Cornwall and here, greeted this really excellent show. The operator, Mr. C. E. Corwin, had just received for the first time some specially made carbons direct from Germany, which enabled an alternating current to be used on the lantern; this caused the pictures to be distinctly vivid. It would be invidious to discriminate between the excellencies of the different pictures, comic, sentimental or otherwise, all were good of their kind. The illustrated songs were very effectively rendered. It is a pity for the sake of the little ones that more shows of this nature do not visit Peterborough.

Two Feet From Death

At three o'clock yesterday afternoon as a lady walking on the south side of Hunter street, passed the dry goods establishment of H. LeBrun & Co., a huge mass of ice and half congealed snow, loosened by the present warmer temperature, fell from the mansard roof, smashing in the head of a heavily built escort dry goods case. Had this messenger of death deflected its course by two feet, there would have been a family mourning a dear one. Pedestrians little think that death hovers over their heads on the slanting mansard roof of a large percentage of our business buildings. What might have been a serious accident occurred in front of a George street store the day before yesterday, was due to this same cause, when a lady was almost knocked down from a small avalanche of snow, fortunately soft, from the roof. Will tenants and owners of such constructions wait until some citizen is killed before they take such small precautions as will do away with this lurking death. It is safer to walk on the inside of the pavement and "avoid the rush," should it come.

The Delineator For March

Containing the first authentic reports of the Spring and Summer styles, the March Delineator is of special interest to the woman of fashion, and a most attractive number throughout. A discussion of "The Use and Abuse of Armorial Bearing" by William Armstrong Crozier, is a noteworthy contribution, containing a fund of information in regard to coat of armor that is little known or widely disregarded. N. Hudson Moore's article on "Old Pewter," the first in a series on kindred subjects, will appeal particularly to collectors, and the story of Charlotte Elliott's famous hymn, "Just as I Am," as related by Allan Sutherland, is of greatest interest. Other features are "Robert and Clara Schumann," by Gustav Kobbe, in the Composers' Series, "The Game of Politics as it is Played in Washington"—and more particularly, woman's part in it—by "Marie Columbia," and a reproduction of miniatures from the Marie collection. There are two notable pieces of fiction in "The Things That Are Real," by Zona Gale, and "His Honor vs. Cupid," by Virginia Woodward Cloud, in addition to delightful verse. For the young folks, L. Frank Baum gives an "Animal Fairy Tale," Grace MacGown Cooke a "Son Riley Rabbit" story, and Lina Beard an amusing pastime. There are the usual departments and other matter of interest to women within and without the home.

LITTLE LOCAL LINES

REAL ESTATE DEAL

Valuable George Street Property Changes Ownership

The executors of the late William Loch's estate have sold that valuable property immediately north of their store, No. 415, the ground floor of which has until recently been occupied by Mr. E. W. Gardiner as a candy and confectionary store. The property was sold yesterday to Mr. R. McGregor, formerly in the confectionary business. We understand that the price paid was $6,600.

GYMNASIUM RALLY

Of the Senior Intermediates Will be Held on Monday Night Next

Every senior and intermediate gymnasium man is especially requested to be at the gym. class next Monday night at the Y.M.C.A.

Class work will start as usual at 8.15 o'clock and will close at 9 o'clock.

After class a reception will be held in the parlor. Addresses by prominent men of town will be given relative to the physical department. There will also be music rendered by local talent, after which there will be served light refreshments by the Ladies' Corps.

Every senior and intermediate is expected to be present Monday evening.

AN OLD RESIDENT GONE

Mrs. Robert Howden Died From a Stroke of Paralysis Yesterday

The town has sustained a loss, and a large circle of friends and relatives to-day mourn the loss of a loving wife and mother.

Mrs. Jane Howden widow of the late Robert Howden, who has suffered from a long and tedious illness has at last passed peacefully away, the end being hastened by apoplectic symptoms. Mrs. Howden's maiden name was Sharp, and the deceased lady lost her husband only a year ago by death. Mrs. Howden was born in Cavan, in which township her only surviving brother resides. Mrs. Howden's children were Miss Ella, at home; Mrs. W. H. Staple, Cavanville, Mrs. A. E. Scott, of Winnipeg; and the late Mrs. Robert Fair. The funeral will take place at two o'clock to-morrow from her late residence, 678 Bethune street.

DUTTON'S MARKET.
See our Grocery Window for Bargains.
R. A. DUTTON
Phone 304. 418-420 George Street

SOCIAL AND PERSONAL

—Miss Stewart who has been visiting Mrs. Leary, left yesterday for Cobourg.

—Mr. Dickson Jewett, Cannington, is in town for a few days renewing old acquaintances.

—Mr. E. T. Hammett, of the Bank of Nova Scotia, is registered at the Snowden House.

—Mr. Isaac Kerr, an old resident of South Monaghan, is dead at Fairberry, Neb.

—Mr. Wm. Johnston, of Belleville, the veteran inspector of weights and measures, was in town yesterday.

—Mr. and Mrs. Leary and Miss Katie Leary left yesterday morning for a short visit at "Inglis Falls."

—Miss Viola Junkin and her brother Randolph, of Penelon Falls, are visiting with Mrs. J. A. Tully, Water street.

—Mr. R. C. Clute, K.C., known by many of the legal fraternity in town, has been raised to the High Court Bench.

The many friends of Mr. D. W. Dumble, Police Magistrate, will regret to hear that he is confined to his home through illness. We join in hoping that he will soon be well again.

—Mr. Fred Collins, who is pursuing his medical studies in Toronto, and who is ill in the hospital in that city, we are pleased to learn is convalescent, and hopes to be able to return home in a month's time. Fred is a son of Mr. J. D. Collins.

—Mr. Walter E. Wellsley, traveller for J. J. Turner & Son, has returned from an extended business tour of the North-west and British Columbia. He reports things booming in the West. Why not, when the Westerners have this city to fall back on for their supplies.

—The damaged boiler that should supply heat to the Peterborough Business College, is not yet fully repaired. The boys are still breaking cycles off their whiskers, and the ladies asking "Is my nose red?"

Cooling Off.

The man who would sit on a cake of ice to cool off would be considered crazy. Yet it is a very common thing for a person heated by exercise to stand in a cool draught, just to cool off. This is the beginning of many a cough which ultimately involves the bronchial tract and the lungs.

For coughs in any stage there is no remedy so valuable as Dr. Pierce's Golden Medical Discovery. It cures deep-seated, obstinate coughs, bronchitis, bleeding of the lungs, and like conditions which if neglected or unskillfully treated terminate in consumption.

There is no alcohol in "Golden Medical Discovery," and it is entirely free from opium, cocaine and other narcotics.

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good."

"I took a severe cold which settled in the bronchial tubes," writes Rev. Frank May, of Portersville, Jefferson Co., Kansas. "After trying medicine I believed 'Pure Cure,' almost without number, I was led to try Dr. Pierce's Golden Medical Discovery. I took two bottles and was cured, and have always since."

"When I thought of the great pain I had to endure, and the terrible cough I had, it seems almost a miracle that I was ever relieved."

"That God may spare you many years and abundantly bless you is the prayer of your grateful friend."

Dr. Pierce's Common Sense Medical Adviser, containing 1008 pages, is sent free on receipt of stamps to pay customs and mailing only. Send 21 one-cent stamps for the book in paper covers, or

Anglo-American Fire Insurance Company

REPORT OF DIRECTORS

Presented at the Sixth Annual Meeting of Shareholders, held at the Head Office of the Company, McKinnon Building, Toronto, on Tuesday, the Seventh day of February, 1905

Your Directors have pleasure in presenting their sixth annual report and financial statement of the Company's business for the year ending 31st of December, 1904, as duly certified by the auditors.

The Premiums for the year ending 31st of December, 1904, less rebates for cancellation..... $394,430 38
Interest on the Company's Investments..... 5,823 84
Total income..... $400,254 22

The Company's net income for the year 1904, after deducting all reinsurances, was $310,086.50.

Showing an increase of premium income on the underwriting account over the year 1903 of $46,485.80.

The unadjusted losses at the 31st of December, 1904, amounted to only $2,378.31, of which $863.28 is covered by reinsurance.

The Company's net loss for the year amounts to $316,204.06, including all unadjusted losses.

You will note the very small amount of unadjusted and unpaid losses at the 31st of December.

All claims against the Company have been promptly paid on adjustment.

The large sum paid for losses is accounted for by the fact that the Company suffered by the Toronto conflagration to the extent of $166,230.02, exclusive of reinsurance. Although the loss in the Toronto conflagration was very heavy, your Directors believe that the risks held by the Company over the burnt districts were taken with proper care and well distributed, and were such as would have been accepted by any Company doing business in Canada.

Excluding this heavy loss, the loss ratio for the year is only 49.20, which is a very low rate, considering that, in addition to the Toronto conflagration, the fire waste in Canada for 1904 was excessive.

The Company still confines its business to the Dominion of Canada, although it has received many overtures to write surplus lines in foreign countries.

During the year, calls amounting to 30 per cent. were made on the stock of the Company, and, we are pleased to say, were very promptly met.

Your Directors cannot close this report without referring to the great loss we have sustained by the death of Mr. John J. Long, Vice-President, who had acted in that capacity since the inception of the Company. The position of Vice-President was filled by the election of Mr. John R. Barber.

Your Directors all retire, but are eligible for re-election.

S. F. McKINNON, President.

Financial Statement for Year Ending 31st December, 1904.

REVENUE ACCOUNT

ARMSTRONG DEAN, General Manager.

To the President, Directors and Shareholders of the Anglo-American Fire Insurance Company:

Gentlemen,—We, the undersigned, having examined the vouchers, checked the bank balances, and audited the books of the Anglo-American Fire Insurance Company for the year ending 31st December, 1904, certify that we have found them correct and that the annexed balance sheet is a true statement as at above date.

J. P. LANGLEY, F.C.A., RICHARD LEE, Auditors.

Toronto, February 4, 1905.

The following gentlemen were elected Directors: S. F. McKinnon, Esq.; A. A. Allan, Esq.; Messrs. A. A. Allan & Co.; Toronto; John R. Barber, Esq., Pres. Toronto Paper Co. of Cornwall, Georgetown; Dr. George H. Bowlby, Berlin; A. B. Cunningham, Esq., Barrister, Kingston; H. D. Eckardt, Esq., Messrs. H. P. Eckardt & Co., Toronto; John Flett, Esq., Flett, Lowndes & Co., Limited, Toronto; W. J. Gage, Esq., The W. J. Gage Co., Limited, Toronto; John Knox, Esq., Messrs. Knox, Morgan & Co., Hamilton; R. Millichamp, Esq., Messrs. Millichamp, Coyle & Co., Toronto; J. N. Shenstone, Esq., Sec.-Treas. Massey-Harris Co., Limited, Toronto; Dr. Urish M. Stanley, Brantford; Hugh Waddell, Esq., Peterborough; Emil Nerlich, Esq., Messrs. Nerlich & Co., Toronto; R. W. Robertson, Brantford.

At a subsequent meeting of the Board, Mr. S. F. McKinnon was elected President, and Messrs. John R. Barber and John Flett, Vice-

MID-WINTER BARGAIN SALE
.....OF.....
Furs and Furnishings

WE are now as deep into the winter as we can hope, fear, or expect. January is the middle month. We have reached the middle of the winter—we have arrived at its deepest depth. Now, two things this store has to say to you in this connection.

...FIRST...

If ever you needed Winter Furs—for yourself or any of your family—or any of you men need Heavy Winter Furnishings—you need them now.

...SECOND...

If ever we are going to clear Winter Goods out and get ready for New Goods for Spring—now is the time to clear them.

There you have the thought behind the noteworthy list of big Midwinter Bargains during this Sale. You will kindly note the Big Reductions made and come in and have a look. If you haven't seen a copy of our large sale bill, come to the store and get one and read the Startling Reductions.

If You Don't Buy Here we Both Lose Money.

M. WITTE SAYS PEACE MUST COME

Also Reforms in Order to Prevent Revolution

CZAR TO SUE FOR PEACE

This is the Opinion Which is Rapidly Gaining Ground

St. Petersburg, February 11. — Speaking to a Russian friend, M. Witte said: "Peace must be secured in the Far East at any cost. The Grand Dukes, who have hitherto opposed peace because they dread the consequences of internal reforms with a diminution of their authority and emoluments, are now reconciled to it, because peace is the only course to prevent actual revolution. The Czar personally is not opposed to reform and would even accept a constitution."

Despite the opposition of the Grand Dukes, a people's assembly will assemble March 1. There is greater probability of peace now than at any previous time. Terms of peace acceptable to Russia would be the recession to China of Manchuria. The Liatung Peninsula and Port Arthur, with permission to China to lease these territories to Japan for ninety years. Russia to evacuate Manchuria, but to retain the island of Saghalien, Vladivostok and the Province of Usuri. No indemnity would be paid.

AS VIEWED IN MOSCOW.

Moscow, February 11.— Sentiments of national honor may delay peace negotiations for a considerable time. This is a very real and very great difficulty. The Czar and all his advisers feel it keenly. The Government is profoundly ashamed to ask Japanese pardon, or to seek an amicable settlement. Nevertheless this must come. Sentimental difficulties, however great, must give way. High officials here and in St. Petersburg do not venture to declare for peace openly, but among themselves admit that the fight is hopeless, and that an early escape from further sacrifices must be found.

How to find this way nobody has yet formulated a clear idea. The authorities are simply waiting. While they wait, another battle of large dimensions is likely to be fought, and possibly further grave internal outbreaks will occur. It is now vividly recalled that the ablest men of the Empire opposed the war, with all their power at the start. Witte, Kuropatkin, and Prince Khilkoff, each one of whom have given proof of high ability in the most arduous stations of the public service, fought for peace. The dullest people today realize why this great triumvirate stood where it stood.

ELEVEN YEARS of constant use in Blythe, Ont., is Dr. H. J. Milner's experience WITH "The D & L" Emulsion. Do you suppose he would have continued ordering it unless it was the best?

SOME G. T. R. RUMORS

Battle Creek to be Headquarters for New Southern Route

Battle Creek, Mich., February 10,—Semi-official rumors prevalent here indicate a sweeping change in Grand Trunk Railway matters in this section, which will make Battle Creek the third city in Michigan. It is stated that the system will open a southern route to Indianapolis and Cincinnati, and perhaps beyond, for which Battle Creek will be headquarters. The Grand Trunk is spending thousands of dollars acquiring valuable sites in the heart of the city. One whole street has been bought for the site of a $100,000 depot and east of that site the company has bought a site of hundreds of acres for big car shops. Over $1,500,000 (official figures) will be spent in shops to make engines and cars.

NO MORE CHADWICKING

Entire Directorate of Banks Must Know When Loans are Made

Washington, February 11.—Comptroller of Currency Ridgley has put into effect a new rule supposed to be the outgrowth of the Chadwick case. The purpose is to safeguard more carefully the interests of depositors of national banks. In cases of loaning over the allowed amount the entire directorate is to be called to remedy the defect. Heretofore in such cases only the president necessarily had cognizance of the situation.

NO SEPARATE SCHOOLS

College Street Bap tist Church to Protest to Protest to Ottawa

Toronto, February 9—A largely attended and enthusiastic business meeting of the College street Baptist church was held last evening, with Rev. Dr. Sowerby in the chair. It was unanimously voted to draft a resolution to be forwarded to Ottawa protesting to the Government against the establishment of Separate schools in the Territories. A committee to draw up the resolution was appointed, consisting of Rev. Dr. Goodspeed, of McMaster University; Rev. Dr. Sowerby, and Rev. J. G. Brown.

MAY BE MURDER

An Alleged Murder Committed in the Far North

Ottawa, February 10.—An important link in the chain of evidence in the alleged murder at Lesser Slave Lake is supplied by Dr. Primrose, of Toronto. The mounted police discovered at Lesser Slave Lake in the debris of a camp fire what they supposed to be human remains, but the surgeons of the force could not establish the fact. Chemical examination by Dr. Primrose now positively supports the police theory. The remains are believed to be those of an English prospector who went to Lesser Slave Lake, accompanied by an American named King. The latter is now awaiting trial for murder.

THE GIANT EATS WELL

ONE DAY'S MEAL WOULD KEEP FAMILY FOR A WEEK

While His Gold Ring Would Make a Respectable Collar for a Fox Terrier—Comes From Russia and His Name is Machnov

London, February 11.—The Daily Express publishes the following: Londoners will shortly be able to realize the feelings of the Lilliputians when Gulliver appeared among them, for a Brobdingnagian person, before whose size all other giants dwindle into insignificance, is to appear at the Hippodrome.

This modern Gulliver's name is Machnow, and he was born in Charkow, Russia, twenty-three years ago. His actual dimensions today are nine feet two and a half inches from head to foot. His weight is 37st.

Machnow wears the biggest hats ever made for a human being. His frock coat cuts into sufficient material to clothe five average-sized men. His boots are so large that they cost eight guineas a pair, and three pairs of his socks, which have to be specially woven for him, would, if unscamed, make a coverlet for an average cot.

On the forefinger of his right hand Machnow wears a gold ring, which weighs half a pound, and would make a respectable collar for a fox terrier.

The following is his food for one day:

Breakfast, 9 a.m.—One to two quarts of milk or tea, sixteen hard-boiled eggs, six to eight small loaves and butter.

Luncheon, 12 mid-day.—Two to three pounds of meat, five pounds of potatoes, one quart of beer.

Dinner, 5 p.m.—Soup, three to five pounds of meat, fowl, fish, vegetables, potatoes, three pounds of bread, one to two quarts of beer.

Supper, 9 p.m.—Ten to fifteen eggs, with bread and butter and one quart of tea.

—Get your valentines from Times Bookstore today. Prices begin at one cent up to thirty cents.

OVER ONE HUNDRED STRIKERS KILLED IN POLAND

Strike Resumed in St. Petersburg---Iron Workers Quit Work to Force an Eight Hour Day---Many English Firms Yield.

St. Peterasburg, Feb. 11.—The apprehension of further trouble with the strikers was partially justified this morning when the whole body of the workmen of the Putiloff Iron Works and those of the Franco-Russian works struck because the directors were unable to promise them a work day of eight hours.

The men at the Putiloff works, who yesterday announced their intention of trying to enforce an eight-hour day, reported at seven o'clock, worked an hour, and then demanded to see the director of the works, who conferred with the men's delegates. The latter demanded eight hours, no discrimination against the promoters of the recent strike and pay for the week's strike. The director declared he was unable to accede to the demands, and thereupon 12,000 men of the Putiloff works went out.

The employes of the Franco-Russian works took similar action. In both cases the men marched out quietly and formed groups in the streets. The troops continue to assure the maintenance of order at the Putiloff and Franco-Russian Works, and at the other factories.

Rumors were rife yesterday evening that the men would go out in several large factories, and three English mills decided, in view of the gravity of the situation, to grant all their employes' demands, including an eight-hour day, increased wages and strike pay.

This decision was condemned by the majority of the employers, but the Englishmen pointed out that it was not advisable to wait till the machinery of the law for reforming the conditions of labor had been set in motion.

Minister of Finance Kokovsoff has summoned a conference of factory inspectors for Feb. 28 to discuss State insurance, ten hours of labor, medical aid and labor unions. A proposal of the Minister that the manufacturers hold a similar conference was refused.

Warsaw, Feb. 11.—Over a hundred strikers were killed or wounded by the military at the conflict which took place at the Katherinen Iron Works at Sosnovice yesterday evening. The strikers were attempting to put out the fire in a furnace of the smelting department of the works when troops appeared, and a conflict ensued. The soldiers fired three volleys, and finally scattered the workmen.

Warsaw, Feb. 11.—The report of the death of Governor-General Tchertkoff, published by the London papers this morning, is unfounded. He continues to receive reports and sign documents as usual.

Special despatches from Warsaw published in the London papers this morning reported the death of Governor-General Tchertkoff, who was wounded in the leg in a recent encounter between troops and strikers, and whose limb is said to have been amputated.

JAPS DESTROY LINE TO HARBIN

Reported They Have Cut Russian Communications

RESERVISTS TEAR UP TRACK

Attitude of Bureaucracy That one Victory Must Precede Peace is Still Unbiased

London, February 10.—The St. Petersburg correspondent of the Express says that strikers and mutinous Polish reservists have torn up a thousand yards of the Siberian Railway twenty miles east of Irkutsk. The strike has extended to the railway guards, with the result that sixty miles of the track of the railway is wholly unprotected. It is reported that there is little doubt that the Japanese have blown up the line between Mukden and Harbin.

The despatches of English correspondents increasingly insist upon the growth throughout Russia of that recognition of the necessity for peace that was remarked upon by the despatches on February 4. Not only the strikers and agitators are putting the cry to stop the war among their foremost demands, but educated persons everywhere are discussing the prospects for peace, and hoping that it will be attained. The gloomiest view is taken of the existing position in Manchuria, and the most remarkable rumors regarding it are eagerly repeated.

There is, however, not the smallest evidence that the bureaucracy is weakening in its attitude that peace is not to be thought of until at least one decided victory is gained by the Russian army. The desire of other powers to use their good offices to bring the war to an end is well known, but interposition is as unwelcome now as ever. The statements made yesterday by the St. Petersburg correspondent of the Chronicle regarding the Grand Duc's volte face and the cancellation of war orders are not supported, and they may be regarded as being among the rumors. Headquarters of both armies report more outpost actions, which are apparently unimportant.

THOUSANDS UPON THOUSANDS of the best known people in Canada have greatly benefited by use of Allens Lung Balsam. It cures despesated coughs and colds as well as all cases of Croup, Quinsy, Bronchitis, and similar affections.

THE CZAR MIGHT HEAR POWERS

Member of Government's Views on Peace Movement

RESOLVED TO FIGHT IT OUT

Hope of Intervention Would Depend on a Personal and Psychological Factor

London, February 11.—The St, Petersburg correspondent of the Telegraph says that he has interviewed a member of the Government on the probability of Russia accepting the good offices of Great Britain and Germany to bring about a cessation of hostilities, and received the vague reply that the matter rested with the Emperor. The official added that he was not aware that his Majesty's determinations to continue the campaign had changed. On the contrary, he recently reasserted his resolve to carry it on without relaxation. If Great Britain and Germany appealed to his Majesty the result "would depend upon a personal and psychological factor which could not be determined in advance."

When asked if it were true that Gen. Kuropatkin was relinquishing his command, the official declined to either confirm or deny the report. He said, however, that the General's health had suffered considerably during the campaign, and his nervous tension was consequently extreme.

The St. Petersburg correspondent of the Chronicle credits M. de Witte, president of the Council, with saying in conversation that he was confident that peace must be had at any cost. The correspondent gives the details of the terms of peace, to according to his confidant, Russia agree.

MURDERERS WILL BE HANGED

Supreme Court of Colorado Declares Capital Punishment Law Constitutional

Denver, Col., February 11. — The Supreme Court of Colorado yesterday declared that the capital punishment law was constitutional. Four murderers, whose execution had been postponed from time to time awaiting this decision, will now be hanged.

The decision was given in the case of Newton Andrews, Charles Peters and Fred Arnold, who killed Mrs. Amanda Youngblood in this city when attempting robbery. The court set their execution for the week beginning May 21 next.

Asel D. Galbraith, who killed his wife and child in Russel Gulch, will be hanged the first week in March, when the reprieve granted him by Gov. Adams will expire, unless he shall secure a further respite.

THE WAY THE MONEY GOES

Nearly $160,000 Wanted by the Town in the Spring.

The town will require $92,000 in a short time, and debentures will accordingly be issued for this amount for the following purposes; $50,000 for new Collegiate Institute. These will be issued in instalments, and will run for 30 years, drawing interest at 4 per cent. $20,000 for waterworks, extending over 30 years at 4 per cent. $10,000 for armory site purposes, extending over 30 years at 4 per cent. $12,000 for the opening and extensions of certain streets, extending over 20 years at 4 per cent.

Town Solicitor E. H. D. Hall and Ald. E. F. Mason were in Toronto on Thursday interviewing the financial men regarding the disposal of these debentures. It is said that a satisfactory sale can be made.

ASSESSORS TO MEET

A Hint for the Peterborough County Authorities

It might be wise for the assessors of Peterborough County as well as the town to follow the example of Perth. At the County Council there a resolution was passed to bring the assessors of the different municipalities in the county together at the court house at an early date to go over the new assessment act and prepare them for the work which they will shortly start out on. The idea met with favor, and such a conference will be held here. There are about 50 assessors in the county. The county will have Alex. Miller, K.C., the county solicitor, here to meet them, explaining the act and give them such assistance as he can.

Each of the municipalities is to bear the expense of its own delegates. This conference will be held on Feb. 18. A special committee was also appointed to help the rural telephone system along.

MR. DENNISTOUN'S LECTURE

A Treat in Store To-night for the Boys and Friends of the Y.M.C.A.

As an addition to the many other ways and means whereby the Y.M.C.A. seek and succeed in keeping the young people off the street, and steer their thoughts into pleasant as well as profitable channels, they have inaugurated a series of week end entertainments in their beautiful home on George street. The initial entertainment is to be given to-night, and the leading feature is a talk by Mr. R. M. Dennistoun, who has chosen as his subject a character well known by readers of the great French novelist, Victor Hugo, in every country in civilization. Jean Valjean is a strong and boldly defined character, whose prominence in "Les Miserables," is marked and worthy of great notice by a critical reader. Mr. Dennistoun, with his unusual literary attainments will doubtless give his audience a treat, worth going far to hear. A lighter tone will be given the evening by the rendition of a well selected program of songs, and instrumental music. The evening's entertainment is free to all, both ladies and gentlemen.

INSTALLS I.O.O.F. OFFICERS

An Interesting Ceremony Among the Local Brethern

The officers who will rule the destines of Mount Hebron Encampment No. 56, and Hiawatha Encampment No. 66 were duly installed by D.D.G.P. Wm. Scott, of Lindsay, and Grand Patriarch Ed. C. Garbutt, of Picton, assisted by P.C. Patriarchs Morrow, Anderson, Emmerson, Lewis, Ringer and Lacy.

Officers installed for the coming terms, Hebron Encampment, No. 56 I.O.O.F.:

C. Patriarch—Dr. McKercher.
H. Priest—R. F. Morrow.
S. Warden—F. C. Brown.
Scribe—R. Mulligan.
J. Warden—J. C. Sharpe.
Treas.—W. M. Savigny.
Guard—T. Duncan.
1st W.—Wm. Hill.
2nd W.—F. Sollitt.
3rd W.—A. A. Fowler.
4th W.—T. G. Anderson.
O.G.—W. Garrow.
I.G.—L. Scott.
1st G. of T.—F. Raines.
2nd G. of T—A. McIntosh.

Officers installed for the coming term, Hiawatha Encampment, No. 66, I.O.O.F.

C. Patriarch—George Baird.
H. Priest—S. H. Sharpe.
S. Warden—R. G. Cottrell.
Scribe—E. G. Poole.
Fin. Scribe—R. Matchett.
J. Warden—H. Millard.
Guard—F. Derrick.
1st W.—J. Emmerson.
2nd W.—W. H. Goodwin.
3rd W.—W. Lewis.
4th W.—Theo Thorton.
O.G.—W. R. G. Higgins.
1st G. of T.—A. Ringer.
2nd G. of T.—R. Goodenough.
Inside Sent.—W. J. Lloyd.
Outside Sent.—M. Comstock.

After the installation an enjoyable supper was served.

IN CALIFORNIA

They Use Fruit and Grape Nuts

Out at Los Angeles, Cal., they have people who give some attention to food as a sure way out of sickness.

A lady says: "Husband has been a sufferer from dyspepsia and biliousness together with indigestion for a great many years. He kept getting worse in spite of all the medicine he took.

"We did not know what to do for he was steadily running down, and whether he ate meat, bread, eggs, or anything of that sort, he kept losing flesh, until he got down to a skeleton, and, of course, was a physical wreck.

"One day a friend advised him to quit his regular breakfast entirely and use only Grape-Nuts and cream together with a little fruit.

"He took the advice and begun to grow better at once. It was only a short time when he began to fatten up and grow stronger. Now he is the picture of health and his old troubles have disappeared.

"We give Grape-Nuts to our baby boy. He is very fond of the food and is healthy and strong. We think he is the happiest year-old baby in California!" Name given by Postum Co., Battle Creek, Mich.

Look in each pkg. for the famous little book, "The Road to Wellville."

PETERBOROUGH MUST HAVE IT.

We Cannot Allow the Banner Town to Be Superseded

There is more than a possibility that our already large circle of manufacturing industries is to be increased by still another. We have in days gone by had a brick factory in Peterborough, which died in its early youth; still there were circumstances which tended to cause failing health in this dead concern. The clay had to be brought to town four miles down the Otonabee, in special steam scows, involving the cost of handling the raw material several times before it reached the manufacturing machinery, other drawbacks mitigated against the old brick factory, that are now done away with.

Mr. Donald Campbell of Hamilton, is interested in the making of a new kind of brick; which stands the test of experience in several cities in the the United States, and he is in town making investigation with a view to possibly locate a factory here. As yet it is not decided where the new kind of brick factory will be located. Mr. Campbell having interviewed the powers that be in several places in Ontario; but, judging from his guarded conversation, Peterborough seems to hold out many inducements towards its being the choice, its competing railways, the immediate future (as we hope), Trent Valley Canal route to the seaboard, and its proximity to good beds of sand making out town a good location Mr. Campbell seemed very favorably impressed by the attitude assumed towards him by several of our leading citizens with whom he discussed the matter yesterday. He left last night for Lindsay, but will return to Peterborough again before any definite decision is attained. The bricks in question are made from a combination of sand and lime, and can be made any color desired, at a cost below that of the common brick. With the crying need for more houses for Peterborough, this is our opportunity.

COUNTY SWING BRIDGES

Counties ask the Government to Maintain Them

THE MINISTER'S REPLY,

Fifteen Thousand Feet of Bridges in Peterborough County to Maintain.

The deputation from Peterborough County and Northumberland and Durham, waited on the Hon. H. R. Emmerson, Minister of Railways, on Wednesday. They asked that the Government assume the cost of maintenance and operation in connection with eight swing bridges along the line of the Trent Canal. These are Trent Bridge, Benscoth, Wallace Point, Locks, Chemong, Gannon's Narrows and Pigeon Creek. The following gentlemen represented Peterborough County; Warden W. T. Buck, Norwood; Councillors Dennis Moloney, Warsaw, Chairman of Roads and Bridges; John Monogue, Chandos, T. J. Johnston, Otonabee, Chairman of Finance; Samuel Stinson, Smith; H. C. Garbutt, Smith; Thos. Webster, Dummer; Jas. Andrews, Asphodel; E. A. Peck, County Solicitor; John Belcher, County ginеer; R. R. Hall, M.P., West Peterborough; John Finlay, M.P., East Peterborough. Through Mr. Hall and Mr. Finlay, an interview with Mr. Emmerson, Minister of Railways and Canals, was obtained at noon yesterday. The speakers on behalf of the Counties were Mr. Holland, Mr. Donaldson, Mr. Peck and Mr. Belcher, Mr. Collingwood Schreiber, the Deputy Minister, was also present during the interview. The argument presented was that on account of the growth of navigation on the Trent Canal during the past few years, the maintenance and operation of swings on the bridges built by the Counties, had entailed an increasing expenditure, and since the Government had, by the construction of the canal, made such swings necessary, it seemed but reasonable that they should assume the cost in connection therewith. They had established a precedent in accepting the responsibility in connection with other bridges. The reply received from the minister was considered very satisfactory by the deputation. He asked that a statement of cost in connection with the swings be submitted in writing together with other information, such as would be of value should an Order-in-Council be deemed necessary. This done he would give the matter prompt consideration.

Hon. Mr. Emmerson in replying stated that he would like to have a statement presented as to the cost of present maintenance and operation of the swings. He could quite understand that it was in anticipation of an increase in cost that the Counties were now wishing to place the cost on the Government. It may be properly so placed, said he, although I do not express any opinion on it. I would like to look into the matter and have it reported on. I had in my mind a suggestion to the municipal authorities interested to jointly memorialize the Government, setting forth in detail the facts and giving a statement of the actual cost of the difficulties in connection with the maintenance and operation of these swings. Continuing he stated that their able presentation of the case had given him a very good version, but he would like to have the information as a matter of record, so that he could present it to his colleagues, should an Order-in-Council be necessary. If this were done promptly he would try and have prompt consideration given to the matter.

DARING ATTEMPT TO SMUGGLE CHINESE

United States Inspectors Give Celestials a Long Stern Chase

THRILLING DRIVE IN NIGHT

Finally Reached the Canadian Border and Eluded Their Would-be Captors

Montreal, February 11.—The Immigration Bureau, Washington, has just received a report from Inspector Thomas D'Arcy, of Plattsburg, N.Y. Mr. D'Arcy tells of the attempt made by Frank Castine, who, it is alleged, was trying to bring a sleigh load of Chinamen over the border.

Word reached Inspector D'Arcy from Douglas Corners, Que., on the night of January 30, that Castine and the Chinese had started from that place and were making for Laprairie. Hurriedly summoning and arming Inspectors Weeks, Maher, Ketchum and MacGregor, Mr. D'Arcy proceeded to Dewey's Corners, with sleighs and dogs. Two roads leading from Canada run through Dewey's Corners, and so the inspectors decided to intercept the party at that place. They waited until after two o'clock in the morning, before the dogs gave the alarm. The thermometer stood at 20 degrees below zero, and it was necessary to keep the horses constantly moving in order to prevent them from freezing to death.

Finally a sleigh filled with Chinamen hove in sight, followed by a small cutter containing one man. The inspectors barred the road and ordered the strangers to halt. Instead of obeying, the two sleighs were quickly wheeled around and started back in the direction of Canada. The inspectors set out in hot pursuit over the snow-covered roads mile after mile. They gradually gained upon the pursued, and within calling distance shouted to them to surrender. The pursued only whipped their horses all the harder.

Finally Mr. D'Arcy fired his revolver after the speeding sleighs, but the shots went wild. Still the inspectors gained, and soon it became evident that they would be able to overtake the smugglers within the next few hundred yards. The man in the small cutter rose in the sleigh, and leaning far over to one side overturned it in the middle of the road. The inspectors' sleigh was close behind. There was no time to turn out, and in another instant D'Arcy and his men were sprawling in the snow on top of the man and his wreck.

In the meantime, the sleigh containing the Chinamen had disappeared up the Canadian road. Placing Castine in charge of Inspector Weeks, D'Arcy and the others again took up the chase, but the big sled had had too long a start and was not overtaken.

Inspector D'Arcy reports that when they got Castine back to Dewey's Corners, it was found that he had sustained a fracture of a rib. Acting upon the advice of the United States Attorney, Mr. D'Arcy allowed Castine to go home, for medical attention.

Your presence will help make a success of the Foresters' Carnival, Feb. 14.

Royal Baking Powder

45 CENTS a pound can (AT ALL GROCERS)

25 cents a half pound can

Royal Baking Powder is made from pure grape cream of tartar, and is absolutely pure.

Royal Baking Powder assures wholesome food; it makes the best biscuits, cakes and all hot-breads; it protects the family from the danger of alum and other injurious substitutes.

Royal Baking Powder saves time, saves butter, flour and eggs; saves health.

The Surest Remedy is Allen's Lung Balsam

It never fails to cure a SIMPLE COLD, HEAVY COLD, and all BRONCHIAL TROUBLES.

Large Bottles $1.00. Medium Size 50c. Small or Trial Size 25c.

Endorsed by all who have tried it.

GET UP TIRED WEARY ALL DAY

Never Feel Refreshed — Always Played Out, Weak, Languid, Discontented.

FERROZONE

Will Infuse the Vim and Fire of Youth into Your Veins.

Quick permanent cure follows Ferrozone. It braces at once, makes you feel like new. You rejoice in new found strength, in vital energy, in power to act, to think, to do. No other medicine on earth so beneficial to the weak, the run-down and nervous.

Mr. George K. Stainsburg, of 179 Queen street, Toronto, was completely rebuilt by Ferrozone, and writes;

"I was subject to spells of dizziness and light feeling in the head,

"I broke out in cold sweats.

"My appetite was poor and I lived in perfect dread of a collapse.

"I improved at once by using Ferrozone.

"It braced up my nerves, gave me a good appetite, strengthened my blood, and made me feel young again. I am now in the best of health, just because I used Ferrozone."

It's a shame to live in a half-dead condition. Ferrozone will vitalize you. It will give you reserve strength, self-control, surplus vigor. It's the most strengthening medicine made. 50c. per box, or six for $2.50, at all dealers in medicine, or Polson & Co., Kingston, Ont., and Hartford, Conn., U.S.A.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing materials, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $3 per year, strictly in advance.

UNION LABEL

PETERBOROUGH, FEBRUARY 11 1905

THE WHITNEY CABINET

In the Cabinet formed by Mr. Whitney, for the administration of Ontario, the seven portfolios are filled by four lawyers, two doctors and a farmer. Mr. Whitney, Attorney-General; Mr. Foy, Commissioner of Crown Lands, Lt.-Col. Matheson, Treasurer; and Mr. Hanna, Provincial Secretary, are the lawyers. Dr. Pyne and Dr. Beaume are respectively Commissioners of Education and Public Works. The farmer is Mr. Monteith, Commissioner of Agriculture.

Another lawyer, Mr. St. John, becomes Speaker of the Legislature.

In discussing the matter the Ottawa Journal says that Mr. Whitney was practically compelled by circumstances to instal a Cabinet chiefly composed of professional men. He is a lawyer himself; Mr. Foy was a Cabinet necessity, on account both of his ability and political service, and of being a representative of the Irish Catholic electorate; while Lt.-Col. Matheson has been for many years the Opposition financial critic, thus possessing a special claim to the Treasurership. The claim of the other lawyer, Mr. Hanna, to Cabinet office, is the only one not clear. As to the medical men, Dr Beaume was, like Mr. Foy, a Cabinet necessity if French-Canadian claims had to be considered; while Dr. Pyne is possibly the best man in the Legislature for head of the Education Department. He was for some years chairman of the Toronto Public School Board.

At best, however, it is regrettable that the great industrial and agricultural interests of a Province like Ontario are not more weightily represented in the Provincial Cabinet. No doubt a feeling of this kind on Mr. Whitney's own part helps to account for the fact of counsel being desired from three Ministers without portfolio, two of them being Lt.-Col. Hendrie, of Hamilton, engineer and contractor, and Mayor Beck, of London, a manufacturer. The claim of the third, a medical man, Dr. Willoughby, is doubtless long and arduous party service.

It is to be hoped that any changes in the Cabinet in years to come will recognise the idea that the industrial and farming and lumber and mining interests of Ontario should not, in the Administration at Toronto, be over-shadowed by the professional classes. Perhaps it is well to add, however, in case any person may fancy that Mr. Whitney is doing worse than Mr. Ross in this regard, that the portfolios in the Ross Cabinet which has just gone out of office, were occupied by two school teachers (Ross and Harcourt), two lawyers (Latchford and McKay), an editor (Graham), a farmer (Dryden), and a lumberman (Charlton). Without portfolio were two lawyers, Messrs. Gibson and Evanturel. It will be seen, therefore, that the number of professional men in the Ross Cabinet was the same as is the case in the Whitney Cabinet.

Speaking generally, the Whitney Cabinet seems to be fully up to the standard of ability of any administration known to the Province in recent years, and to be of high personal character.

EDITORIAL COMMENT.

It was really a mean trick to make the talkative St. John Speaker of the Ontario Legislature where he will have to sit still and listen to the other fellows.

• • • •

Now France has sent an ultimatum to the Sultan. The Sultan must have about the finest ultimatums collection in the world.

• • • •

There is an ice jam at Morrisburg, probably caused by the efforts of the river to get to the Whitney demonstration.

• • • •

Among Russia's other troubles, it has the common one of finding it difficult to raise money.

• • • •

• • • •

They are "marking time" in Manchuria doubtless to keep their feet warm.

• • • •

One of the features of the Whitney Cabinet is its large "waiting list."

• • • •

Of course Mr. Whitney regarded Pyne as good Cabinet timber.

WESTWOOD.

—Mr. D. Kennedy was in the village on Sunday.

—The Farmers' Institute meeting was well attended, and all present heard very instructive and interesting addresses by able and powerful speakers. A musical and literary program was rendered by home talent. Mr. Thos. Howson's recitations were heartily received and encored, helping in no slight degree to add to the interest that farmers should take in their business and in the annual meetings. The club is suffering at present from lack of members to keep it together, and it would be well for a few more to join hands with the enterprising officers who are endeavoring to keep the object of the farmer's occupation before the public and not lose heart in the procedure, or the Institute will probably meet the fate of many more—death.

—On the 25th, owing to a heavy wind and snow storm, the Liberal Government drifted out in the Opposition beyond all hope of redemption.

—The season for balls is over at last.

—Despite the stormy weather and the recent snow-falls the roads are kept in good shape by the ambitious and progressive people of this little hamlet.

—Brackenridge & Sons are doing a rushing business in timber this winter.

—Mr. John Pulfor, who has been threshing all summer with the St. Helens Express, is back to his old post at the sawmill engine.

—The Tories are so jubilant over the fact of their winning this campaign that they will refuse half of the road when meeting you.

—The Grits claim that the Opposition is a cold spot, for it registered one morning 42 below Whitney.

—Our Caughnawaga neighbor remarked that Keene did not remember their own mud-slinging.

—We noticed in the Keene items a reference to the brutality of their Campbellford opponents in a recent hockey match. We think that, if the Executive of the League knew their business, these men should be amply punished and their certificates cancelled.

Japan Has Protested

London, February 10.—The Express says that the British vessel which took American submarine boats to Antwerp, where their presence was discovered, subsequently brought them to a British port, where she took on board a general cargo. She sailed Wednesday for Odessa. An American engineer, who is in charge of the submarines, will accompany them to Vladivostok overland. It is not known whether Great Britain will interfere with the steamer carrying the boats. Negotiations with Japan are proceeding on the subject.

Two Canadians Poisoned

Laporte, Ind., Feb. 10. — Robert Campbell and his wife, formerly of Sarnia, Ont., and later of Northwood, North Dakota, have been found dead in their home there, poisoned by corrosive sublimate. It is not yet known whether it is a case of double suicide or murder.

DO THE RIGHT THING when sore throat and tickling threat warn you that an all-winter cold threaten. Use the staunch old remedy, Perry Davis' Painkiller, and get rid of the pest in twenty-four hours. 25 and 50 cts.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

2) If the father (or mother, if the father is deceased), or any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

3) If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same town, township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses 2, 3 or 4 must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 30 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the North-west Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Land Agents in Manitoba or the North-west Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

AUTHORS & COX

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

INCORPORATED

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and, we believe, exceedingly profitable investment. Every dollar of stock is guaranteed by twenty year, full paid, gold bond, delivered to purchaser of stock, from an Investment Company that has no interest whatever in the company, but who are disposing of the debentured bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the State Treasurer under which they received their charter, there by doubly securing the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvellously rich in gold.

Following is the opinion of C. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Simmer and Jack Mining Co., Limited, Klondyke, South Africa:—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world.

"With the present development of the Monument Mine, I estimate that 100 tons per day can be extracted, which will mill from $15.00 to $20.00 per ton. The total cost of mining the ore, delivering and milling, I place at about $4.00 per ton. With increased milling capacity, it is safe to say that the mine can furnish 100 tons of $15.00 ore, which would yield a clear profit of $11.00 per ton, or $1,100.00 per day (equal to $400,000.00 per annum). Estimated total value of ore in sight, $3,500,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Dr. Brown writes as follows:—

"In regards to the amount of ore available at the mines at Sinclair, I saw on the dumps several thousand tons, probably 5000 tons would be an under-estimate.

"As to the size of the ore body itself, from what I saw of the geological structure, I think that there is every indication that it will be found to extend underground as far as the out-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish full information to investors.

OUR NEW METHOD TREATMENT will cure you, and make a man of you. Under its influence the brain becomes active, the blood purified so that all pimples, blotches and ulcers heal up, the nerves become strong as steel, so that nervousness, bashfulness and despondency disappear; the eyes become bright, the face full and clear, energy returns to the body, and the moral, physical and sexual systems are invigorated; all drains cease—no more vital waste from the system. The various organs become natural and manly. You feel yourself a man and know marriage cannot be a failure. We invite all the afflicted to consult us confidentially and free of charge. Don't let quacks and fakirs rob you of your hard-earned dollars. WE WILL CURE YOU OR NO PAY.

NO NAMES USED WITHOUT WRITTEN CONSENT.

THREATENED WITH PARALYSIS.

Peter E. Summers, of Kalamazoo, Mich., relates his experience:

"I was troubled with Nervous Debility for many years. I lay it to indiscretion and excesses in early youth. I became very despondent and didn't care whether I worked or not. I imagined everybody who looked at me, guessed my secret. Imaginative dreams at night weakened me—my back ached, had pains in the back of my head, hands and feet were cold, tired in the morning, poor appetite, fingers were shaky, eyes blurred, hair loose, memory poor, etc. Numbness in the fingers set in and the doctor told me he feared paralysis. I took all kinds of medicines and tried many first-class physicians, wore an electric belt for three months, went to Mt. Clemens for baths, but received little benefit. While at Mt. Clemens I was induced to consult Drs. Kennedy & Kergan, though I had lost all faith in doctors. Like a drowning man I commenced the New Method Treatment and it saved my life. The improvement was like magic—I could feel the vigor going through my nerves. I was cured mentally, physically and sexually. I have sent them many patients and will continue to do so."

BEFORE TREATMENT — AFTER TREATMENT

CURES GUARANTEED OR NO PAY

We treat and cure VARICOCELE, STRICTURE, NERVOUS DEBILITY, BLOOD DISEASES, URINARY COMPLAINTS, KIDNEY AND BLADDER DISEASES.

CONSULTATION FREE. BOOKS FREE. If unable to call write for a Question Blank for Home Treatment.

148 SHELBY STREET, DETROIT, MICH.

A SPLENDID PROPOSITION

The Salido Gold and Copper Company

Incorporated under the laws of Arizona, with a capital of $3,oc ooo forever on-assessable divided into shares of $1 each, par value. All investments insured Granite Securities Company.

The "SALIDO GOLD COPPER COMPANY" enterprise offers attractions to the investors of the country, that without thorough investigation, would scarcely seem probable. If only a fraction is realized of what any prudent business man in his own affairs would regard as absolutely certain, the enterprise must prove abundantly successful and exceedingly profitable.

SALE OF STOCK

The company will prosecute the work of development with all the diligence that be cash in the treasury will permit and circumstances warrant, and to this end a small amount of the treasury stock is now placed upon the market, in blocks of not ess than One Hundred Shares. The par value of the stock is One Dollar per share, fully paid and forever non-assessable.

The company reserves the right to advance the price of stock without notice.

REMEMBER

First—That all payments for treasury stock go into the treasury for development work and not into the pockets of the promoters.

Second—There are no salaried officers.

Third—The incorporators have put their own good money into this enterpr se and being business men, intend to do business along business lines.

Fourth—That this company is honest.

Fifth—If you are thinking of investing in mining stocks this is worthy of your careful investigation.

OTHER PROPERTIES

This Company owns four other Gold and Copper Mines, wh ch title is now in process in the laws of Mexico. As soon as title is perfected, we shall commence to develop them as we certainly expect something very great from these properties. Our assays taken have been of the very best, showing gold and copper from $6.00 to $122. 30 per ton.

I have secured a small block of this stock, which I offer at the following prices: Unguaranteed 40 cents per share, guaranteed 80 cents per share. These prices will only prevail for a short time, as the number of shares for sale at this price is limited. The Shares will then be advanced to 40 cents for the unguaranteed and 80 cents for the guaranteed. I can unhesitatingly recommend this investment to the Canadian public.

FISCAL AGENT, ... PETERBOROUGH

Agents wanted in outlying districts, including Toronto.

CONSERVATIVE MINING

Those who are interested in a genuine mine, no wildcat scheme—one on which a dividend is guaranteed by one of the most prominent banking and broking firms in the west—

8 Per Cent. for 1905 and 12 Per Cent. . . . the Next Year . . .

As there is only a small amount of the stock left at 20 cents a share the buyers will participate in the appreciation of stock value, the price will be raised to 25 cents within 30 days

The First Dividend Will be Paid in April

THE CALIFORNIA-BUCKEYE MINE

is a Zinc Mine, with outcroppings of lead and will prove a bonanza to its shareholders, and the value of it is guaranteed by a responsible firm of bankers.

Capital Stock - - $250,000.00

Shares, par value, $1.00 each. Fully paid up and non-assessable. No PREFERRED STOCK. NO BONDED INDEBTEDNESS.

Buy now before the advance of 20 per cent. is made

From Yesterday's Issue

SUNDAY DAY FOR UNITED ACTION

General Resumption of Labor Agitation in Russia

SOUTHERN PRESS UNSPOKEN

Blame Government for Disasters in Far East—St. Petersburg Strikers out Again

London, February 9.—The recurrence of the Russian strikes seems to be the beginning of a general resumption of the labor agitation. Little can be said beyong this at present, ubt the unrest previously noted in the despatches continues everywhere and rumor points to Sunday as the probably occasion for united action. This, possibly, will not be aggressive, but it will be none the less determined.

A majority of the South Russian newspapers print outspoken articles of the war with Japan. They recapitulate the Russian disasters, and openly ascribe them and the sufferings of the army in Manchuria to the incompetence and corruption of the Government, the heads of the army and the commissariat. All the articles infer that it is time to abandon the hopeless struggle. An anti-war demonstration, which was arranged for today at Odessa, was prevented by the police, who would not allow the would-be demonstrators to hold a meeting. The students attempted to hold a meeting in spite of the police prohibition, with the result that the university was hastily closed. The authorities, however, were unable to prevent the distribution of an astonishing number of leaflets, headed: "Stop the War." Thousands of these, which were additionally worded, were scattered on the chief thoroughfares early in the morning.

ST. PETERSBURG WORKMEN QUIT.

A despatch from St. Petersburg says a majority of the workmen in the Government cartridge factory at Vassili Ostroff, where 5,000 hands are employed, quit work this afternoon. Many of the smaller factories in the same district have also been closed by their hands going on strike. The motives prompting the men to again commence the struggle are partly resentment against the constitution of the so-called work men's deputations that have been received by the Czar, it being claimed they consisted of Government stewards and not workmen, and partly against Gov.-Gen. Trepoff's instructions to manufacturers and the directors of the Government factories not to parley with the workmen, but to treat them as strikers who have refused pardon, and who are therefore law breakers. The employers are more concerned regarding the Government's attitude than anxious to reopen the factories.

At a meeting of strikers at Lods this evening the offer of the employers was rejected.

The Delineator For March

Containing the first authentic reports of the Spring and Summer styles, the March Delineator is of special interest to the woman of fashion, and a most attractive number throughout. A discussion of "The Use and Abuse of Armorial Bearing," by William Armstrong Crosier, is a noteworthy contribution, containing a fund of information in regard to coat of armor that is little known or widely disregarded. N. Hudson Moore's article on "Old Pewter," the first in a series on kindred subjects, will appeal particularly to collectors, and the story of Charlotte Elliott's famous hymn, "Just as I Am," as related by Allan Sutherland, is of greatest interest. Other features are "Robert and Clara Schumann," by Gustav Kobbe, in the Composers' Series, "The Game of Politics as it is Played in Washington"—and more particularly, woman's part in it—by "Marie Columbia," and a reproduction of miniatures from the Maria collection. There are two notable pieces of fiction in "The Things That Are Real," by Zona Gale, and "His Honor vs. Cupid," by Virginia Woodward Cloud, in addition to delightful verse. For the young folks, L. Frank Baum gives an "Animal Fairy Tale," Grace MacGowan Cooke a "Son Riley Rabbit" story, and Lina Beard an amusing pastime. There are the usual departments and other matter of interest to women within and without the home.

MIRRORS ARE A NUISANCE in the house of a man whose face is branded with eczema. His own reflection shames him. Let him anoint his inflamed itching skin with Weaver's Cyrate and purify his blood with Weaver's Syrup

READY FOR FRESH ATTACK

Great Battle Coming in the Indian Ocean—Two Fleets to Clash

Tokio, Feb. 10.—Admiral Togo arrived at Kure to-day, and immediately raised his flag on the battleship Mikasa.

Russian supremacy in the far east hinges on the result of the naval battle now imminent between the Baltic fleet and Admiral Togo. The Russian Admiralty definitely announces that Admiral Rojestvensky will cross the Indian ocean immediately before the monsoon season, which begins in March, and makes navigation impossible for torpedo-boats, small cruisers, and coast defence vessels. This report presages an early meeting between the Russian squadron and the Japanese fleet, which, under the command of Admiral Togo, will sail for the south in a few days. Experts predict that the last days of February or the first of March will see one of the greatest naval battles in the world's history.

St. Petersburg, February 10.—The third division of the Pacific squadron, which has been fitting out at Libau for several months will sail from that port for the Far East to join Admiral Rojestvensky on February 14. It will be commanded by Admiral Miebogatoff.

The hydrant just north of St. Paul's church on Water street, sprung a leak a couple of days ago, and has occasioned some trouble. It appears the hydrant had been used, but the valve had not been properly screwed down, with the result that the frost got in its work. Thursday the water had to be turned off that section of the town in order to allow the hydrant to be dug up and repaired.

A SPLENDID PROPOSITION

Rare Chance to Secure a Paying Investment

THE GOLD COIN MINING COMPANY

has placed a small block of their stock at the disposal of Canadian investors. This stock is sure to rapidly advance in price. The Company is now arranging to instal the power plant and a mill and cyanide plant for the reduction of their ore to a bullion on the property. They have arranged with a Trust Company having assets of $1,500,000 to put up a bond guaranteeing investors the repayment of the full amount invested. This makes investors absolutely safe. By no possibility can they lose a dollar

THE GOLD COIN MINING COMPANY was organized November 21, 1902, under the laws of the State of Idaho. The capitalization is one million shares of the par value of one dollar each, fully paid and non assessable; of the 1,000,000 shares, 400,000 have been set aside as treasury stock

THE BOISE BASIN came into prominence shortly after Grimes and his party of prospectors entered the Basin country in 1862; their entrance was into the northern portion and one discovery of rich placer ground followed another until the news of the rich finds reached the outside world, when a veritable stampede for Boise Basin commenced, towns sprang up and grew together in an incredibly short time; the rush of people to Idaho City made it a place of 20,000 people in 1867, having a business street over a mile long lined with two-story buildings streets and sidewalks filled with people day and night business and money on every hand and the city bearing the proud distinction of being the capital of the territory of Idaho. Wages ran from $6 to $10 a day and not infrequently forty and fifty men worked on a single placer claim; the clean-up for a day's work in many instances ran close to $5,000; large fortunes were made in a few days by washing the golden sands in a pan, so eager was the quest for the shining metal that the streets of Idaho City were dug up and washed and re-washed, and the soil removed from under the houses and places of business. So extensive was the search for the hidden treasure that not only all of the low ground was worked but the foot of the mountains surrounding the city have been washed away, filling up the lower portions of the basin and extending into the town, where one of the buildings has been buried under the tailings from the numerous placer workings

LOCATION—The property of the Gold Coin Mining Company is situated in the Gambrinus Mining District, Boise County, Idaho, on the range of mountains between Moore Creek and Elk Creek, which forms a part of the eastern boundary of the famous Boise Basin and into which these mountains are drained. The property is located ten miles northeast of Idaho City, from which place there are good wagon roads either to the workings on top of the mountain or to the place of the proposed tunnels in the gulch which crosses the Tunnelsite claim.

THE CLAIMS—The Company owns a group of four contiguous lode mining claims and the Gold Coin Millsite: the names of the lode claims are the Tunnelsite, Blue Bell, Pennsylvania and Homestake, each being a full claim 600 feet wide by 1,500 feet long, excepting the Tunnelsite claim, which is 450 feet wide at the west end and 1,055 feet long; it was necessary to stake the claim in this form on account of joining the Washington property on the south and the Sub Rosa property on the west, these properties being prior locations to the Tunnelsite claim. The four lode claims aggregate nearly 80 acres of rich mineral land.

Further particulars may be had on application to WM. SAILSBURY, Fiscal Agent of the Company Peterborough, Ont., or to

S. E. PHELPS, Secretary,
311 SCHOFIELD BUILDING, CLEVELAND, OHIO.

Advertising in The Times will bring Results

Not Only Relief, but Lasting Cure

Is What You Get From Catarrhozone Which Eradicates Every Trace o Catarrh From the System.

Relief is a good thing, but we soon get tired of it and look for a remedy that will drive the seeds of Catarrh right out of the system. It is only a waste of time to trifle with internal dosing. You must treat Catarrh locally because it is a local disease.

The most sensible treatment is Catarrhozone which really does reach the diseased membranes in a most thorough way. Every case of catarrh can be cured if Catarrhozone is used. It unquestionably penetrates every air cell and air passage of the breathing organs. It completely destroys the catarrh germs and heals all the inflamed surfaces.

Every requirement of an ideal catarrh cure is embraced in Catarrhozone. Other treatments may have failed to even bring relief, but one trial is sufficient to prove merit in Catarrhozone not found in the ordinary snuff or wash that unscrupulous people sometimes recommend for catarrh.

If you are subject to colds, catarrh or throat trouble you will find quick relief and lasting cure in fragrant, healing Catarrhozone. Mrs E. P. Fairbanks, of Durham, was cured of chronic catarrh by this remedy and endorses it in the following letter, which speaks for itself;

"I suffered continually from catarrh which affected my throat. My nostrils were usually inflammed and I was greatly bothered with droppings in the throat which made me sick at my stomach. I had a bad taste in my mouth, and felt a ringing in my ears. I read of Catarrhozone and commenced to use it. In a few days it helped me more than I ever expected. I used it four times daily and it two weeks most of the disagreeable symptoms disappeared. I continued the Catarrhozone treatment for six weeks and was perfectly cured. The catarrh has never returned."

Every complete outfit of Catarrhozone sufficient for two months' use is guaranteed to permanently cure; trial size 25c. Sold by druggists or by mail from N. C. Polson & Co. Hartford, Conn., U.S.A., or Kingston, Ont.

Accident At the Block

A young man by the name of Monarief, living on Sherbrooke street, and employed at the Peterborough Hardware, had the misfortune to break his leg while skating at Brock street rink last night. Dr. W. D. Scott attended to his injuries, after which he was taken to his home.

Yesterday's Snow Storm

The Radial Railway Company's electric snow sweeper was kept busy yesterday afternoon, keeping the heavy and fast drifting snow from covering the rails and consequently reducing their power and speed. Very little delay in the service was noticeable owing to the prompt manner the difficulty was combatted with.

At The Opera House

The Marritt & Pritchard Co. again played last night to a large and highly amused audience. A special feature for this afternoon is a 10 cent matinee for the Kiddies, the pictures for that performance including subjects open to the comprehension of the smallest child, among others being, Puss in Boots, Red Riding Hood, Trick on the Policeman, and Over the Garden Wall. It is a good clean, amusing show.

DUTTON'S MARKET

Park Street Baptist Church

Rev. A. H. Brace will be in charge all day to-morrow. Special subjects treated;

Morning, 11—"Modern Miracles"

Evening at 7—"A Storm at Sea."

Hymn books provided. Strangers made welcome.

Sunday School and Pastor's Bible Class at 3.

Wire Fencing Compulsory

At the Victoria County Council it was decided to petition the Legislative Assembly of the Province, praying that they will so amend the Municipal Act that Municipal Councils may have the power, where bonuses are granted for the purpose of erecting wire fences on the principal roads leading to make the removal of all the fences causing snow blockades on the leading highways, compulsory, same to be replaced by wire fences.—Carried.

A Peterborough Architect's Work Completed

The fine and massive power plant which has for some time past been in course of construction, is at last completed, and ready to begin business. This very fine plant has been erected by the public spirited municipality of the thriving village of Fenelon Falls, and is one of the most modern and finest equipped in this section. Mr. John E. Belcher, C.E. prepared the plans and superintended the construction throughout, and his work reflects great credit on him. The cost of this undertaking mounts to the goodly sum of $30,000.

Free List Suspended Monday

The Times announces by special request, that persons desirous of attending the opening of the Peterborough Conservatory of Music on Monday next, will kindly apply in person to the Conservatory. While all lovers of music are heartily welcome, the capacity of the room is limited. Programs are now in course of completion, and persons calling at the Conservatory will be given these programs, which will be their open sesame to the opening. Program holders attending the opening will enjoy the pleasure of hearing Mr. Wilhelmy, an artist of considerable note.

A Butter Famine

Housewives throughout the town yesterday complained of the constrained use they had to make of their shoe leather hunting that oleaginous but necessary commodity, butter. One lady after using her telephone until her arm tired out, walked to seven different grocery establishments before feeling sure her John Henry would not have to use the family bacon rind to complete this morning's hot buttered toast. The grocers for once had to turn a deaf ear when their various competitors in the business, telephoned to borrow a supply. The stringency was somewhat relieved by afternoon shipments which opportunely arrived. Butter was quoted in the morning as high as 30 cents per pound.

HOW'S THIS?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Props., Toledo, O.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by their firm.

Walding, Kinnan & Marvin, Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Price 75c. per bottle. Sold by all Druggists. Testimonials free.

Hall's Family Pills are the best.

The Colportage Mission

Geo. Buskin of the International Evangelical and Colportage Mission of Algoma and the North-West, is making his annual visit to Peterborough, in behalf of the 22nd years' work of disseminating the Holy Scriptures and Scriptural literature through those districts, its influence being for much good, and is free from denominational limit. The work and traveling of last year were more extensive than any previous year, the journeys being from the Atlantic to the Pacific oceans, visiting 105 cities, towns and villages, the supplies were in ten languages, in number 2,746 copies, and many were also given but not entered and many thousand copies of the mission tracts and booklets were also given. $358.91 was received for those sold. There is still an indebtedness of over $3,000 on the work which have been accumulating during the past 19 years, and $400 is also necessary to meet the cost of publishing the second part of the Ojibway Indian dictionary, which will be a valuable help to the Indians in making progress both in Christian and general knowledge, and to meet the cost would be but a small matter, considering the benefits settlers have derived in the land of the Indian and the sacrifices they have had to make for the enlargements of their white brethren. The Mission Depot at 202 King street east, Toronto, is also attended with $600 annual costs, for the supplying of Biblical literature, and improvements there are necessary for the accommodation and convenience of visitors, and cannot be undertaken for lack of means $41.15 was contributed last year in Peterborough in aid of the Mission which the missionary gratefully acknowledges.

—Miss H. M. Cahill read a very interesting paper on "Joan of Arc" last night in the T.A.S. Hall, before the regular fortnightly meeting of the Ladies Literary Association of St. Peter's T.A.S.

THE CHARITY BALL

Most Successful Social Event of the Season

Held in the Oriental Hotel Last Night The Hall a Blaze of Light and Beauty.

DANCING, that art of which poets have sung in all ages and which stands unrivalled to the present day as a graceful amusement, was never more fully enjoyed that last evening at the Charity Ball given at the Oriental Hotel. The affair proved to be an immense success, both from a social and financial standpoint. It was admirably conducted, and the committee in charge were warmly congratulated on the unqualified success of their efforts.

The handsome rooms of the Oriental were lavishly decorated, and supplied with everything necessary for the comfort and convenience of those who were fortunate enough to be present. The reception room presented a most gorgeous appearance and palms and hot house flowers were to be seen everywhere.

Ample accommodation was provided for the dancers, and here the decorations were most profuse. Every available space was brightened with gaily colored bunting and appropriate mottoes with the national colors were tastefully arranged and displayed about the walls.

The dance program was a lengthy and elaborate one, and many handsome costumes were seen, the ladies all having their hair powdered.

The lunch rooms were under the supervision of the Oriental staff, and the menue was most elaborate and the tables elegantly appointed.

Mr. George Graham, with his usual generosity, and deep interest in matters appertaining to local and charitable interests, had kindly placed the hotel in the hands of the ball committee, giving them carte blanche; he opened the door to the stairs immediately east of the barber shop, so that ladies could enter those and ascend the newly carpeted steps; the beautiful palm decorated rotunda was reserved for gentlemen guests at the ball, so that they might have a breathing place after tripping the light fantastic. Mr. Graham supplied the coffee gratuitously.

The following ladies acted as patronesses; Mrs. H. D. Burnett, Mrs. P. Campbell, Mrs. J. Crane, Mrs. R. S. Davidson, Mrs. R. M. Denniston, Mrs. K. Eardley-Wilmot, Mrs. R. R. Hall, Mrs. L. M. Hayes, Mrs. W. H. Hill, Mrs. P. J. Lundy, Mrs. J. H. Larmouth, Mrs. C. B. McAllister, Mrs. R. H. Rogers, Mrs. A. H. Stratton, Mrs. J. R. Stratton.

The following gentlemen were stewards; Messrs. P. Campbell, R. M. Denniston, H. D Burnett, H. C Rogers, John Crane, A. H. Stratton, K. Eardley-Wilmot, L. M. Hayes, T. E. Bradburn, F. D. Kerr, H. Rush jr., Jas. Hamilton, W. P. Reynolds, H. Ritchie, Mr. A. A. Hollingshead was honorary secretary, and a great measure of the success of the evening was due to his energetic efforts.

LITTLE LOCAL LINES

Dashes Here and There by Times Reporters on Their Round

—Some people, like mules, do little head work, and are always kicking.

—The Strangers Fellowship Club of the Y.M.C.A. meets to-night at 8 p.m.

—Mr. Lilicrap, of Lakefield has returned from Toronto.

—Miss Amy Bennett is in Kingston visiting friends.

—Mrs. Nugent will not receive on Monday, as she is visiting in Toronto.

—Mr. C. LeBrun, is in town for a few days, visiting his brother, Mr. H. LeBrun.

—Miss Idea Stevens, of Bowmanville, is visiting town, the guest of Mrs. G. B. Stevens, George street.

—The Italian Orchestra, specially brought from Toronto for last night's social event were registered at the Oriental.

—We regret that Mr. D. W. Dumble is still confined to the house, not much change being evidenced in his condition.

—Mr. Stanley, Broad, who has been with A. W. Cressman for the past four months, has gone to Hamilton where he has secured a position.

—Mr. and Mrs. J. Lynch are now settled down to matrimonial felicity, having returned from the sweets of the honeymoon.

—Messrs. J. L. Hopwood, Toronto. Chas. S. Tanner and J. H. Kilbourn, Lakefield, registered at the Oriental for the Charity Ball last night.

—The Melfort, Assa. "Moon" devotes quite a notice to Mr. E. R. Jarvis, late of the Bank of Commerce here, who has been appointed manager of his bank in that town.

—Mr. Charles Stapleton, representing the Mutual Benefit Cigar Co., is in town. Charley is making the rounds calling on friends, and incidentally placing lots of his goods with the hotel and cigar men.

—Mr. W. B. Bamford for many years the popular agent of the C.P. Ry. here, was in town yesterday. Mr. Bamford is now travelling freight agent of the C.P.R., with headquarters at Burlington, Ont.

—Mrs. Will McFarlane, of Winnipeg, is the guest of Mr. and Mrs. Andrew McFarlane, Homewood Ave. Mr. McFarlane is expected to arrive in town in a few days and will spend some time here renewing old acquaintances.

SCHOOLS IN THE NORTHWEST

(To the Editor of The Times)

In view of the agitation on the part of the Roman Church for Separate Schools in the new provinces about to be created in the Territories, will you allow me to sound a note of warning through your valuable paper to both Protestants and Roman Catholics, and to urge them to do their utmost, in their own interests to frustrate the scheming of the Roman hierarchy. I have read with great interest a book entitled "Rome in Ireland," by Michael J. F. McCarthy, B.A., himself a Roman Catholic. He writes about educaton in Ireland, and points out the result of having the Roman Catholic children educated under the influence of the priests. Let me quote one passage: "My conviction, as a lay Irish Catholic, is this; I want my children to receive such a training as will fit them to compete successfully in after-life with Protestants. All the great industrial nations are Protestant. In fact, the world is a Protestant world, wherever it is a wide-awake world. Isolation from Protestants, distrust and hatred of Protestants, have not enabled ourselves and our fathers to compete successfully with Protestants. I hold that it is not necessary, as Father Casey says, to forsake our ancient religion in order to compete successfully with our fellow-citizens of all denominations. But it must be conceded that the study of Catholic theology, and Church history, and the lives of our innumerable saints and martyrs does not fit our youth for success in the practical pursuits of life. An excessive amount of time spent upon Catholic religious exercises and observances did not enable our ancestors to advance the race intellectually or commercially. The road upon which we have been traveling has led, as we all see to prosperity for the cleric, and to the reverse of prosperity for the layman. The Irish priesthood has become the wealthiest and most prosperous in the world, while the Irish Catholic laity remain the least progressive, the most timid, down-hearted and despondent white race in the world."

If a man who has made the intellectual condition of his countrymen the subject of his study, does all he can do to liberate his fellow-countrymen from the dominion of the Roman priest, and as a result of his studies has come to the conclusion that the influence of the Roman Church is antagonistic to the best interest of the people, especially in secular matters, if a Roman Catholic layman of the standing such as Mr. McCarthy possesses strongly advises his friends to let the priest mind his own business and attend to his spiritual work. I think we in Canada might well follow his advice. The less the priest has to do with the secular education of the Canadian children the better for their prosperity and progress. The Roman Church is the same everywhere, away from Protestant interference, the more pitiable in its effect upon the conditions of its people. I hope that all loyal Canadians, whether Protestant or Roman Catholic, will join in strong agitation against our legislators, who would dare to force upon these new provinces, as a vote-catching scheme, Separate Schools. For our part, I would say to both priests and ministers of all denominations, "Hands off the schools." Our Public School system is the best in the world. We have godly and well-qualified teachers, to whom the education of the children might well be entrusted without the interference of any priest or Church. Let the children be educated as loyal Canadians and not as bigoted members of any Church or sect. From a patriotic point of view much more might be said against Separate Schools, but I fear I would trespass upon your valuable space and time were I to do so.

E. A. LANGFELDT.

St. Luke's Rectory, Peterborough, Feb. 9, 1905.

CLEANING

House is one of the duties that a weak woman looks forward to with dread. As a rule, she knows that she must pay for the over-strain with days or weeks of womanly suffering.

Doctor Pierce's Favorite Prescription makes weak women strong and sick women well.

$500 REWARD! FOR WOMEN

WHO CANNOT BE CURED.

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay $500 in legal money of the United States, for any case of Leucorrhea, Female Weakness, Prolapsus, or Falling of Womb which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

"I took two bottles of your 'Favorite Prescription' and two of the 'Golden Medical Discovery' and am feeling well," writes Mrs. Dan Mitchell, of Lowery station, Sugar Brotes Co., Nova Scotia. "I had uterine trouble, also pain in the side and headache. After taking your medicine I was cured. You may publish this or use it in any way you think best, as I owe my health to the help of Dr. Pierce and his medicines."

Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of customs and mailing only. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

CAUGHT BY THE GRIP. RELEASED BY PE-RU-NA.

"The world of medicine recognizes Grip as epidemic catarrh."—Medical Talk.

LA GRIPPE is epidemic catarrh. It spares no class or nationality. The cultured and the ignorant, the aristocrat and the pauper, the masses and the classes are alike subject to la grippe. None are exempt—all are liable.

Have you the grip? Or, rather, has the grip got you? Grip is well named. The original French term, la grippe, has been shortened by the busy American to read "grip." Without intending to do so a new word has been coined that exactly describes the case. As if some hideous giant with awful GRIP had clutched us in its fatal clasp. Men, women, children, whole towns and cities are caught in the baneful grip of a terrible monster.

The following letters speak for themselves as to the efficacy of Peruna in cases of la grippe or its after effects.

After Effects of La Grippe Eradicated by Pe-ru-na.

Mrs. Fred Weinberger, Westerlo, Albany County, N. Y., writes:

"Several years ago I had an attack of la grippe which left my nerves in a prostrated condition. Then I had another attack of la grippe which left me worse. I had tried three good physicians but all in vain. I gave Peruna a trial. In a short time I was feeling better and now I am as well as anyone."—Mrs. Fred Weinberger.

Hon. James R. Guill of Omaha.

Hon. James R. Guill is one of the oldest and most esteemed men of Omaha, Neb. He has done much to make it what it is, serving on public boards a number of times. He endorses Peruna in the following words:

"I am 63 years old, am hale and hearty, and Peruna has helped me attain it. Two years ago I had la grippe—my life was despaired of. Peruna saved me."—J. R. Guill.

A Relative of Abraham Lincoln.

Mr. Silas S. Lincoln, who resides at 913 I. Street, N. W., Washington, D. C., has the honor of being third cousin to Abraham Lincoln. He writes:

"I had la grippe five times before using your medicine. Four years ago I began the use of Peruna, since which time I have not been troubled with that disease. I can now do as much work at my desk as I ever could in my life. I have gained more than ten pounds in weight."—S. S. Lincoln.

Pe-ru-na Not Only Cured La Grippe but Benefited the Whole System.

Miss Alice M. Dressler, 1313 N. Bryant Ave., Minneapolis, Minn., writes:

"Last spring I suffered from la grippe and was partially cured but the bad after effects remained through the summer and somehow I did not get strong as I was before. One of my college friends who was visiting me asked me to try Peruna and I did so and found it all and more than I had expected. It not only cured me of the catarrh but restored me to perfect health, built up the entire system and brought a happy feeling of buoyancy which I had not known for years."—Alice M. Dressler.

An Actress' Testimonial.

Miss Jean Cowgill, Griswold Opera House, Troy, N. Y., is the leading lady with the Aubrey Stock Co. She writes the following:

"During the past winter of 1904, I suffered for several weeks from a severe attack of grippe, which left a serious catarrhal condition of the throat and head.

"Some one suggested Peruna. As a last resort, after wasting much time and money on physicians, I tried the remedy faithfully, and in a few weeks was as well as ever."—Jean Cowgill.

A Southern Judge Cured.

Judge Horatio J. Goss, Hartwell, Ga., writes:

"Some five or six years ago I had a very severe spell of grippe, which left me with systemic catarrh. A friend advised me to try your Peruna which I did, and was immediately benefited and cured. The third bottle completed the cure."—H. J. Goss.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

Store to be Re-modelled

Must have more room—Growth of Business compells it.

Big Sale of Furs, Men's Furnishings and Hats to be started at once.

Present Stock must be cleared out so as not to be destroyed by dirt and dust during alterations.

Sale Commences this week—**NOW** is the time to Secure the Choicest Selections before stocks are picked up.

Our Stock of Furs is very choice, richer and better finished than any ready-made stock, as we have them manufactured in our own workrooms and know whereof we speak.

Our Men's Furnishing Stock is conceded by all to be the finest and highest grade in Peterboro.

ANOTHER JAP VICTORY CAPTURED 2,000 RIFLES

Severity of the Winter Prevents an Active Siege of Vladivostok, which will Eventually Become a Japanese Objective.

Tokio, Feb. 13.—To-day, the anniversary of the coronation of the first Emperor of Japan, is being generally celebrated throughout the Empire, the war successes giving additional zest to the celebration. Tokio and all the principal cities are decorated.

The Emperor received at lunch a party including the nobles, officers and diplomatic corps, numbering in all six hundred. The Emperor toasted the Powers represented at the luncheon, and Baron D'Anthethan, ambassador from Belgium and dean of the diplomatic corps, responded on behalf of the foreign representatives. Count Katsura, Premier of the Empire, responded for the Japanese Government.

The Japanese captured an eminence south of Chang Chichia on Thursday morning, driving off two companies of Russian infantry.

The Russians have continued shelling Field Marshal Oyama's centre and left since Thursday last.

The Russian dead who were buried after the battle of Keikoutai totalled two thousand.

The Japanese on that occasion captured two thousand rifles.

General Nogi is taking command of the extreme Japanese right flank It is believed that when something decisive occurs General Kuroki, whose new army is equipped with a large number of field guns, will try to cut the Russian communication north of Vladivostok. It is now undoubtedly the ambition of the Japanese to invade at least a small part of actual Russian territory, but the severity of the winter prevents an active siege of Vladivostok, which will eventually become a Japanese objective.

London, Feb. 13.—The Aden correspondent of the Times sends an interview with General Stoessel, in which he reiterates his declaration that his surrender of Port Arthur was justified. The interview is much on the same lines as one cabled from Colombo, Ceylon, last week, but he concluded by saying; "The Czar and my peers will judge if I should have prolonged the siege, have made a heroic but criminal sortie, or whether I was right to prefer a less great name in military annals to having 30,000 lives on my conscience." Other officers declared that General Stoessel was a brave man, but not a gun as General Kondratenko, they said, was the real soul of the defence, and was adored by his men. When he died Port Arthur died with him.

MEDIATION MAY COME

Believed That Russia Wants War Ended

SITUATION IS DESPERATE

In Event of Peace Revolution in Russia Will not be Stopped

London, February 13.—In the event of peace with Japan, it is thought that Russia's troubles are only beginning. The returning soldiers are rebellious and there is every reason to believe that they will join the revolutionists. Regarding the peace outlook, it is simply a question of "saving Russia's face." Nothing is more evident than that Russia is sick and tired of the war, and would gladly get out of it if that could be done with reasonable honor. This is where mediation might do its work. It ought not to be beyond the skill of diplomacy to devise some settlement of the question at strike, which would seem distinctly better to Russia than anything she can hope to gain by fighting on, while they would give Japan so much that the Mikado's Government would feel the cost of winning far more expensive.

Every battle fought leaves Russia worse off than it was before. Even the last mad effort of Kuropatkin's has damaged the prestige of his army and leaves the country in a worse position to negotiate for peace. When spring releases the opposing forces once more, there is every possibility that Vladivostok will be besieged, and that — possibly — Mukden will be taken. There is little chance that Japan will be induced by either diplomacy or threats to abandon Russia any territory which she has conquered by force of arms; so that the capture of the former port will only increase the humiliation that must come to the Czar's Government when the final reckoning is made.

It is not very hopeful to say in reply to all this that Russian resources will finally wear down the Japanese. These resources are vast; but they are fairly well tied up just now with internal discontent and they must be fed into the East through the slender and unsafe tube of the Siberian Railway. Then until the tide begins to turn, every week's fighting is a loss to Russia; and the party of Witte seems to be of the opinion that the sea will rise at home before the tide will turn in the East. This is all on the assumption that the tide would ever turn under any circumstances—a pure assumption when we remember that Japan has a population larger than that of the British Islands which is enthusiastically ready to spill blood and treasure in defence of Japanese existence.

All these things must now be plain at St. Petersburg. The notion with which the war was begun so jauntily that they would soon sweep these "little yellow dwarfs" into the sea, is pretty well dissipated by now. or, such as Germany, or some outside power, such as the United States, were to step in at this moment with a series of fair proposals which would "save Russia's face" without robbing Japan of the results of its splendid victories, there ought to be a chance that they would be accepted on both sides. The broad lines of such proposals should be to leave Port Arthur with Japan and give Manchuria back to China. This would shut Russia out of the southern port she has been seeking for her Siberian Railway; but, after the slaughter of this war, she can hardly hope for any other outcome. Japan would be secured from menace in her own waters and would find Corea opened to her settlement and development. What more she can gain if she is to give Manchuria back to China, it is difficult to see. The question of war indemnity will come up, but that will not be so delicate as the possession of territory.

WORLD'S GREATEST WARSHIP

King Edward VII to be a Navy Record Breaker

New York, February 12. — The Times says: Britannia means to rule the wave, and she knows how to. There are some striking innovations in the King Edward VII., the new British line-of-battle ship which is the flagship of the Atlantic fleet. In order to improve the "control of fire," platforms have been erected high up the masts. These are in telephonic communication with the barbettes and batteries below, and will be occupied in action by gunnery officers, who, observing the enemy from a commanding height, will direct the fire of the weapons below. The armored conning tower will continue to be the recognized station of the captain. It has been realized as the result of a series of experiments in the Mediterranean, in which Captain Percy Scott, the new director of target practice, had a share, that great as is the part which "the man behind the gun," will take in a battle at sea, "the man above the gun" is yet more important. The officers, on the gun-directing platforms, will watch the effect of each discharge, and give to the officers in charge of the gun's crew below orders as to direction, range etc. Other novel features of the King Edward VII. include the boiler installations, which consists of one-fourth cylindrical and four-fifths water-tube, after the German fashion, and a bakery, so that the crew will get bread even upon a prolonged voyage.

Competition for Farmers

The Executive Committee of the Fairs and Exhibition Association, which meets in Toronto, February 14 to 16, will, among other things, discuss Superintendent Cowan's plan of a competition for the best-kept farm in the Province. None but men who actually make their living will be allowed to compete. The idea is to give a prize for the best kept farm in every county, the winners to be eligible to enter the contest for the best farm in groups of counties; the successful ones there to strive for the Provincial prize. Points will be counted for the best-kept house and surroundings; lengthy descriptions of the prize winning farms will be published and as many as possible of teh winners will be selected as Institute speakers. Special prizes will be given for the best kept dairy

A WOMAN'S TRIAL

Mrs. Cassie Chadwick's Trial Now Set For March 6th

Cleveland, February 13.—The trial of Mrs. Cassie L. Chadwick in the United States district court has been set for Monday, March 6. She will be tried before Judge R. W. Taylor. The date for beginning Mrs. Chadwick's trial was agreed upon at a conference between Judge Taylor and District Attorney Sullivan.

FOUND WIFE IN A DAY

Young Man Proposed, Was Accepted and Forthwith Was Married

Greenwich, Conn., February 13. — The many friends in Greenwich of Clarence Webb, a young man who went to Cross River, N.Y., a year ago and started in the poultry business are talking today of the quick manner in which he decided to take a wife, and how well he succeeded.

Mr. Webb's many friends have had much fun with him about keeping bachelor's hall. Yesterday morning Peter Hunt, a Cross River merchant, asked him why he didn't get a housekeeper.

"Don't know of any," was the reply.

"Why, I can tell you of two or three who would make good wives," said the jolly merchant, and he named them, including Miss Carolyn Saxton, a school teacher.

It appears that Mr. Webb acted on the suggestion, for when school was out he was at the schoolhouse with a horse and sleigh and invited the young woman to a sleigh ride. She accepted, and the two drove to Katonah, stopped at the Presbyterian parsonage, and were married by the Rev. A. D. Reid.

SIBERIAN LINE BREAKS DOWN

Sledges Conveying Troops and Passengers Across the Baikal

Irkutsk, Siberia, February 13.—The transportation of troops, passengers, and mails by sledges across Lake Baikal commenced today.

The railway around Lake Baikal, which was completed last autumn after great efforts on the part of the Russian authorities and has since been used, was destroyed to do away with the necessity of employing sledges or boats to cross the lake.

The report from Irkutsk therefore probably means that the railway service has broken down. The strike movement in Russia is reported to have extended to the men engaged on the Trans-Siberian Railway. Should this be true, Gen. Kuropatkin's army in Manchuria would be in danger of shortage of supplies.

Last winter many of the troops on their way to the Far East had to march across Lake Baikal, but mails and passengers were usually taken in the two great ice-crushing ferries.

GRAND DUKES NOW FOR PEACE

At a Conference To-day Practically all Voted For it

PRESS WANTS WAR ENDED

The Terms May be Hard now, But They Would be Worse Later on

St. Petersburg, February 13. — All the leading Grand Dukes met in conference a few days ago to consider the question of the termination of the war. All present with the single exception of Grand Duke Sergius, ex-Governor-General of Moscow, voted for peace. Grand Duke Michael, uncle of the Czar, Grand Duke Alexander, the famous brother-in-law of the Czar, Grand Duke Sergius Michaelovitch, inspector-general of Russian ordnance, Grand Duke Vladimir Alexandrovitch and his sons, favored peace. A private poll of the council of the Empire and the Senate, the two highest assemblies in Russia, resulted in an almost unanimous vote in favor of peace. The minority report of the Moscow nobility, the skilled Prince Dolgorouki's party, in which the nobility of other districts of Russia, have concurred, was handed to the Czar today. It begs the termination of the war before entering on the question of reform.

The terms of peace seem to be of less interest than its conclusion. Prince Meatchersky said today; "Terms of peace to such a great country as Russia matters little. Hard they may be, but they will be forgotten by Russia within three years. The advantages of peace at the present moment are so great that sacrifices to obtain it appear to us very little By delay we risk meeting still harder conditions."

In all the offices of the government's private newspapers, one hears nothing but peace talk. The press clamors for the termination of hostilities.

—The following gentlemen will represent the Cavan Agricultural Society at the Fairs and Exhibitions convention in Toronto next week. President W. H. Lough, Messrs. J. A. Tait and T. A. Kelly.

WILL PROBE THE MYSTERY OF BOGUS BOXES

The New Government will Investigate—There is a Feeling That Some of the Witnesses Spoke with Reserve in the Belleville Court.

Kingston, Feb. 13.—Though the surface has been quite peaceful, there has yet been an undercurrent in connection with the celebrated bogus ballot box case ever since the preliminary trial at Belleville ended, and the date of the hearing for the alleged conspirators set for next month. There was an air of reserve about some of the witnesses that savored of the truth, but "not the whole truth." And there are indications that there will be "more truth" revealed at the next trial. Detectives were in this city and vicinity this week, inquiring of one of the witnesses whether his story, true as it was, was not curtailed on the advice of his lawyer.

Further, a deputy-returning officer of the county has since stated that on the night before the Dominion elections, after he had retired, he was visited by a tall man with a black mustache, who went to his room and took out of a grip a ballot box and offered him fifty dollars to use it on election day, and told him that the bogus ballots would reach him early in the morning. The D.R.O., according to his own story, refused to go into the deal.

The statement is also made on good authority that the man who was to furnish "Shibley ballots" to several deputies became faint-hearted, and that only Hawkey received some.

It is felt here that much remains to be told of the acts in the drama of last November; and the hope is expressed that now the machinery of the law has by the vote of the people been placed in the hands of those who have no interest in keeping back the facts that the whole inner history of the plot will be brought to light.

HON. LOMER GOUIN QUEBEC'S NEW PREMIER---PARENT CAN'T HOLD OFFICE

Hon. Mr. Monet Holds a Meeting for This Evening to Tell Electors His Story.

CABINET CRISIS PROBABLY OVER BY TUESDAY

Ottawa Forced to Yield and Now Both Arms Have Been Lost to Sir Wilfrid Laurier

Montreal, Feb. 13.—"I have done my duty to my party and to my province and we will, of course, win." —Hon. Lomer Gouin.

"Hon. Lomer Gouin will in very short time be first minister of this province."—Hon. Adelard Turgeon.

"I have no intention of resigning, and will fight it out to the end."—Hon. N. S. Parent.

PARENT CANT HOLD OFFICE.

The public can take their choice, but it does not seem at all possible for Premier Parent to hold on to office by Tuesday the crisis will be over, and that Hon. Lomer Gouin will be premier of this provin..

Ottawa has been forced to yield, and the premier and the minister of justice having lost their right arm in Ontario, the left at Quebec will also be amputated in a few days.

Hon. Mr. Parent reached Montreal this morning, and after taking breakfast at the Place Viger he left at once for Ottawa. It is stated on the very best authority that he is to be appointed to the Grand Trunk Construction Commission in place of Mr. Brunet. Then Hon. Mr. Gouin will take his little trip to Ottawa on Sunday. It seems that the big schoolmaster could not receive both of the bad boys at the same time.

MONET TO HOLD A MEETING.

Hon. Mr. Monet telephones from his county to-day that he will hold a meeting at St. Remi on Monday evening for the purpose of laying before his electors the reasons which induced him to accept office. It is thought, however, that Hon. Mr. Monet will have ceased to be a minister by Monday and will have gone out with th...

"You may say," telephones Mr. Monet, "that I invite to this meeting all those who have anything to say against me, and especially those who have been talking against me through interviews in the newspapers. I am ready to meet one and all of them. You may also say that it is true that I offered to resign in the interests of peace and harmony. I am still ready [illegible]

ex-ministers accept Mr. Parent as leader of the party."

PARENT HAS A DUTY.

The Gazette this morning says; Under the circumstances it will be well for Mr. Parent to recognize that he owes a duty to the province, a duty not in the least obscured by the melancholy fact that during the time he has been at the head of its government his conduct has not given evidence that he fully appreciated its existence. He may remain and F-I-G-H-T, but he can only do so at the expense of the reputation of the province. The situation confronting him—the necessity of securing a majority in the House—is identical with that which gave rise to the series of scandals which made the name of Ontario a by-word until the people were given an opportunity of punishing those who had prostituted their good name and reputation for their selfish ends.

IF HE DOES.

Mr. Parent can follow in the footsteps of Mr. Ross. If he does he will wreck the Liberal party in this province. That is no concern of ours. But what is of great concern to every man having the interests, the good name and the welfare of Quebec at heart, is that if Mr. Parent does make this mistake it will be the province, not the Liberal party alone, that will have to pay the price. That is why it is his duty to ask the Lieutenant-Governor to relieve him at once of his trust. If he fails to appreciate this it is to be hoped that the Lieutenant-Governor will seek an early opportunity of pointing it out to him.

PARENT WILL RESIGN.

Quebec, Feb. 13.—Although things in political circles here appear calm on the surface, Dame Rumor's tongue is busy with all kinds of stories. Yesterday it was reported that Sir Wilfrid Laurier was coming down from Ottawa to-day to try and effect reconciliation which the Parent faction has been preaching since the caucuses. However, Sir Wilfrid did not turn up as expected.

There is a story now in circulation that Parent will resign on Monday, and that he will be succeeded by Hon. Mr. Archambault. It is said that Gouin and Turgeon are willing to accept Archambault and are willing to join his Cabinet. As Archambault is a member of the legislative council either Gouin or Turgeon would practically become premier, as one of them would be leader of the assembly, where they would get all the prominence they may be looking for in political circles. It is further said that Monet, one of the bones of contention between the two factions, is willing to resign his position in order to bring about peace.

There appears to be some ground for the statement that Parent will throw up the sponge, as he left for Ottawa this morning, accompanied by Archambault, Gouin and Turgeon also left for Ottawa by the same train. It was said that Parent would endeavor to whip the mutineers into line by threatening a dissolution, a course which constitutional lawyers say he has a right to adopt, as these men had been elected to support him, but up to the present he has not made such a threat, if he ever intended to do so. All the men who came here to attend the caucuses have returned home. It is now expected that by Monday or Tuesday next something important will be doing in the political arena here.

A DISTINGUISHED STRANGER

Baron Colloredi is now Visiting in Montreal

Montreal, February 13. — Montreal has a distinguished visitor in the person of Baron Colloredi, who is at present staying at the Windsor.

The Baron arrived in the city yesterday, and intends making a tour of Canada.

The latest noble visitor in Montreal has an eventful career. Throughout his life, and he is a man of middle age, he has been a great traveller, spending many years in India, and the province of Burmah in particular. He has been decorated by several Indian maharajahs for his services to the Indian native states.

OMEMEE SCHOOL OPENING

New High and Public School Building Formally Inaugurated

The formal opening of the new Omemee High and Public School building, which replaces one destroyed by fire a year ago, took place on Friday last. Dr. Wood, of Lindsay, a former pupil of the school was chairman. The County Council, with Warden Stabeck, attended in a body, as well as the Emily Township and Village Councils. Regrets were read from Dr. Pyne, Minister of Education; J. H. Carnegie, M.P.P.; Col. Sam Hughes, M.P., and S. Fox, M.P.P. Short addresses were given by Warden Stabeck, Inspector Knight, Messrs. Austin, Fairbairn, Shaver, Beats, Beatty, Balfour, Harvey, and by the ministers of the village, Rev. Messrs. Tenny, Lock, Whitelaw and Johnston; also musical selections by the pupils.

IRON MASTERS FOR PEOPLE GOVERNMENT MUST CHANGE

Democratic Principles Must Prevail or Normal Relations Can Not Be Renewed---Sensational Exposure of Autocracy.

St. Petersburg, Feb. 11.—The Society of Russian Iron Masters, representing "$300,000,000 of capital," has memorialized M. De Witte, president of the committee on ministers, on the labor question, pointed out that the attitude of the people is a warning "that no repressive measures will end the deeply rooted national movement of the Russian people."

The iron masters further declare that normal relations between the workmen and their employers are only possible with a system of government based on justice and with the participation of both employers and employees in legislation, equality for all before the law, inviolability of domicile, the right to hold meetings and strike, protection for workers against the attacks of strikers, freedom of speech and press and universal compulsory education.

London, Feb. 13.—The Daily Graphic publishes an advance summary of a remarkable article which will appear in the forthcoming number of that periodical from the pen of the annoymous Russian writer whose whose character sketch of the Czar created so profound a sensation on its appearance in the Quarterly Review of July last. The article is entitled "An Autocracy at Work," and is a scathing indictment of the rule of the Czar and his advisers, the Grand Dukes.

The writer begins by acknowledging that the Czar as an individual, has some engaging features. He is an uncommonly dutiful son, a model husband, a tender father, and a most obliging disposition in his intercourse with foreign potentates, but regarding him as the autocrat of Russia, the author protests against the attempt to picture him as "a well-intentioned youth, who, if advised by honest, patriotic, and enlightened men, might make a beneficient, or, at any rate, a harmless ruler." "Only of late," he says, "has it become known that Nicholas II., at the head of his Grand Ducal satellites, has long been his own adviser and his own Government." He is his own master, and is himself answerable for his men and measures.

UNCLEAN MONSTERS.

"If some of the men are unclean monsters—Grand Ducal burglars—who rob the people of their substance, and "break the records" of vice and crime without drawing down punishment or provoking censure, the who tolerates, shields, and befriends them shares the odium of their misdeeds and participates in their risks. If the Czar robs Finland of her liberties, despoils Armenian schools and churches, suppresses the nationality of the Poles, and keeps the Russians more miserable than any foreign element of our population, we may discuss his motives, but we cannot question his responsibility. At the same time, it is a fact which should be noted as an extenuating circumstance that in everything he does and leaves undone he is strongly, but, as a rule, indirectly influenced by his uncles, cousins, and nephews, the Imperial drones, who are ever buzzing about him. They seem endowed with a special faculty of calling forth what is least estimable in the Emperor's character. They surround him with a moral atmosphere charged with morbific and stupefying vapors, which bring on a morbid mood, and then the slightest touch from without provokes the acts which cause our people to wince and writhe."

RESPONSIBLE FOR THE WAR.

The trouble with Japan, the writer says, was braved by the Czar, acting not on the advice but against the recommendations of his most competent Ministers. He "first provoked the misunderstanding with the Government of Tokio, and then thwarted the honest endeavors of Russian and Japanese statesmen to clear it up."

"Within my knowledge is the important fact that the influence which in certain cases moved Kouropatkin to assume the offensive, came direct from his Majesty after consultation with the Minister of War. That, for instance, was the genesis of the famous October order of the day, by which Kouropatkin rendered the staff of our army the laughing stock of the world, and made himself the scourge of our people. A victory was indispensable to the autocrat, a victory which would have enabled him to castigate the insolent reformers who were scheming at home to circumscribe his power. And he commanded it to be fought for and won regardless of consequences. Unhappily one of the consequences this disregarded was that tens of thousands of brave, simple-minded Russian men were needlessly shot down, and hundreds of thousands of women and children were brought to the verge of starvation."

KING EDWARD TO VISIT CANADA

His Majesty to Make Announcement To-morrow

SAYS A NEW YORK PAPER

Will be Absent From England at Least a Couple of Months

New York, Feb. 13.—The Tribune says;—King Edward will, it is reported in London, make announcement in his speech when he opens Parliament to-morrow of the secret which until now he has kept.

It is nothing more nor less than the intimation that he proposes to visit this year one of the dependencies of the British Empire, and all his arrangements are being made with a view to his absence from England for at least a couple of months, at the close, so it is said of the London season.

His destination will be either South Africa or Canada, and there are reasons to believe it will be the latter rather than the former, for, although he visited the Dominion nearly half a century ago, and has never been in South Africa, where his presence might do much towards conciliating the Boer element, yet the trip to Canada and through the Dominion could undoubtedly be made more expeditiously, with a greater degree of comfort and less fatigue than a long sea voyage to the Cape and an exhausting railroad journey thence to Pretoria, and possibly to the end of the railroad line on the Zambesi River Moreover, there are other considerations which render it desirable that the King should visit Canada just now.

THE CONSERVATORY OF MUSIC.

Formal Opening to Take Place This Evening—Interesting Event

The most important event in the history of music in Peterborough will be the formal opening of the Conservatory of Music this evening.

Mr. R. M. Dennistoun will deliver the inaugural address, but the musically important event of the occasion will be a musical recital by Herr Wilhelmy and other members of the faculty. It is to be hoped that the success of the opening occasion will be of so marked a character as to strike the key note of a most successful future for the [illegible] Conservatory of music

Thousands of Refugees From Russian Poland

News of Collision at Sosnowice is Hourly Expected

OUT AT ST. PETERSBURG

Strike Partially Renewed—Arms Intended for Caucasus Workmen Seized at Odessa

Berlin, February 13.—The gravity of the situation around Sosnowice is reflected in the excitement among the thousands of refugees from Russian Poland who have fled to Kattowits and neighboring towns on the Silesian frontier.

The railway station at Kattowitz is besieged by large crowds anxiously awaiting news from Sosnowice, where a collision between the troops and the strikers is hourly expected.

It continues to be asserted that the workmen are in possession of dynamite. In addition to an eight hours' day the strikers demand the dismissal of foreign workmen.

There is no immediate prospect that the men's demands will be granted, and the conclusion of the strike is consequently more remote than ever unless hte workmen are starved into surrender.

BAD BOYS PUNISHED

Two Lads Fined at the Police Court on Saturday Morning

On Saturday Acting Police Magistrate H. Rush thoroughly convinced two juvenile offenders that they must hereafter curb their youthful exuberance. For some time past, a number of small boys have acted in such disorderly ways about the C.P.R. Station that the police have been notified to put a stop to it. At the Saturday morning court, two newsboys named Hoffman and Harbor, were charged with disorderly conduct at the station. It seems that these boys were ringleaders of a gang, which, a few days ago, when the trainmen remonstrated with them about their bad conduct, threw lumps of coal and ice in reply. The Magistrate fined each of the boys $2, and told them in unmistakeable language that they had better turn over a new leaf.

The chief uses this opportunity to warn the crowd of boys that the force is keeping a strict watch in this locality, and any further offences will be rigorously punished.

A man from the 5th Ward paid $2 for the privilege of furious driving. Fast, furious, fun, fine.

When Baby Comes You'll Need Strength

No Mother Can Rear a Healthy Child Unless She is Stronger Herself.

FERROZONE

mparts New Vigor—Braces Nourishes Strengthens Weak Women.

A woman's anxieties multiply ten-fold about the time the new baby is expected. If her strength is exhausted and her blood weak, it goes hard in the hour of trial. Ferrozone should be used because it makes the blood nutritious and rich. By instilling new strength into every part of the body, it uplifts your spirits at once.

Childbirth is certainly made easier by Ferrozone. The following statement expresses the earnest gratitude of Mrs. M. E. Duckworth, of Durham. It is a woman's story—of her own case—told that other women may profit by her experience:

"Before baby was born I was in a miserable, weak, nervous state. I had no reserve strength. I tried to build up, but nothing helped me. I looked upon the coming day with dread, knowing I was unequal to the occasion.

"Ferrozone braced me up at once. It gave me strength and spirits, brought back my nerve and cheerfulness. From my experience with Ferrozone I recommend it to all expectant mothers."

There is more concentrated nourishment in Ferrozone than you can get from anything else. It supplies what weak systems need. Simply take one tablet at meals and you'll feel uplifted at once. Ferrozone makes healthy, virile, vigorous women; try it. 50c. per box of fifty tablets, or six boxes for $2.50, at all dealers, or by mail from N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U.S.A.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $2 per year, strictly in advance.

UNION LABEL

PETERBOROUGH, FEBRUARY 13 1905

DEMANDING A RUSSIAN CONSTITUTION

If it be the intention of the Russian autocracy to concede as little as possible to the spirit of liberalism and progress, as some observers at St. Petersburg infer from recent utterances and occurrences, it is clear on the other hand that the intelligent elements of the Empire are very far from contemplating reversion to an attitude of submission, resignation and silence.

The assassination at Helsingfors may or may not signalize the revival of that terrorist activity which the united revolutionary groups suspended upon the appointment of Mirsky as Plehve's successor in order to give the liberals an opportunity of obtaining "reform from above;" certain it is that the liberals will not hesitate to point thereto as an argument for substantial concessions, on the theory that a reactionary policy inevitably begets violent resistance and desperate acts.

The nobles of St. Petersburg, undeterred by the measures recently taken to prevent agitation of constitutional reform by the press, have adopted an address to the Czar in which the summoning of a national assembly, elected by the people, to participate in legislation is declared to be the only available means of restoring internal peace and confidence. The Moscow nobles having adopted a memorial reform address to the Emperor, a formidable minority of eighty tell him frankly in a separate document that the majority had misrepresented the situation and misled the government. The bureaucracy, says the minority address, is paralysing Russian society; and the need of the hour is such a union between the Czar and the nation as only a national assembly elected could bring about.

This is precisely what the St. Petersburg editors told the amiable but impotent Mirsky some time ago, and what a deputation representing the engineers of the capital has just told De Witte, the president of the council of ministers, whose position is felt to be much stronger now than it was when he was first "promoted" to that ornamental post.

If De Witte is reported with fair accuracy, his words to the engineers are most significant. To the demand for a constitution as the sole remedy, he is said to have replied: "I do not say no, but it is a disputed question. Nine hundred and ninety-nine people out of a thousand are crying for a constitution, but who knows whether the thousandth cool-headed man is not right?" Cold comfort this for the autocracy. History teaches us—as the astute De Witte knows—that the 999 generally have their way. Was he damning autocracy with faint support?

SEPARATE SCHOOLS IN WEST

The principal dependance of the advocates of Separate Schools in the West seems to be the apathy of Parliament and of the people of the Territories. An attempt has been made to hypnotize members of Parliament by pointing out that some mysterious constitutional sanctum surrounds the provision for Separate Schools. It is said that the people of the Territories care nothing about the matter, but are more concerned about subsidies and control of their lands. This indifference may be convenient for those who are trying to perpetuate the Separate School system, but it does not absolve Parliament from responsibility. Parliament is legislating, not for Mr. Haultain and his colleagues, nor even for the present population of the Territories, but for the population of the West for all time to come. It has no right to obtain present ease of itself at the cost of future trouble to millions of people.

The argument founded on the alleged indifference of the inhabitants has two sides. We have been told that these provisions are for the benefit of the "minority," that settlers have entered the country on the strength of an understanding that Separate Schools would be maintained, and that they would regard it as a gross injustice and hardship if this privilege was cut off. We do not now fear their clamoring for Separate Schools, and we doubt whether that matter entered into the calculation of any considerable number of the new arrivals. The agitation for Separate Schools does not come from the people, and never did. They are sought, not for the enlargement of liberty, but for the enlargement of clerical authority.

EDITORIAL COMMENT.

Soon the admirers of Mr. Stratton may be expected to ask of his successor in office, "What's the matter with Hanna?"

• • • •

Mr. Whitney managed to find Rheaume for a French-Canadian in his Cabinet without any fuss and feathers.

• • • •

A Toronto paper uses a heading "On the Street." No reference to Rose though.

• • • •

Russia appears to be willing to let go if it only knew how.

APSLEY.

—Mr. Will Weir, of Otonabee, was in the village last week.

—Miss Bertha Bullied was the guest of Miss L. Tucker last week.

—Mr. John Elmhurst, of Manitoba, is visiting with friends in this neighborhood.

—Mrs. Shairp went down to Lakefield recently to spend a few days with relatives there.

—A proverb for the weak; Blessed is she who expects nothing for she shall not be disappointed.

—Bert Wilson shot a wild cat on the cemetery fence the other day. This is another instance of the eternal fitness of things.

—Quite a number of the farmers are drawing logs to the mill and everything points to active building operations during the coming season.

—An impromptu dance was held at the doctor's on Friday evening evening last. Quite a number from the village were present, and a most enjoyable time was spent.

—On Saturday evening, February 4th, a meeting of the Agricultural Society took place in the village. The society was reorganized, and the following officers were elected; President, Dr. Bell; Vice-President, Mr. Isaac Lean; Secretary-Treasurer, Mr. George Bullied; Directors, Messrs. Wm. Snelgrove, T. J. Wilson, J. W. Hales, John Hales, Esau Tucker, Alex. Trotter, John James, John Bullied.

—Apsley is to have a telephone. This ambitious little city feels that at last the time has fully come when it should switch on and make connections with the other centres of industry. Our worthy Mayor and City Fathers are taking active steps to have this project materialize, and already a goodly number of poles have been subscribed. Of course, wireless telegraphy would be good, but the people have not been educated up to that yet. I guess Apsley is "going some," and it is to be hoped that she will "go some more."

ENTOMBED IN THE MINE

Shafts are all Closed and Men are Within

Calumet, Mich., Feb. 13.—All shafts at the North Kearsarge branch of the Osceola Consolidated Mining Company where 10,000 pounds of dynamite exploded yesterday, have been sealed at the surface. There have been no developments since the rescue party left the mine yesterday. 'Not one body has been recovered, and at least five men are buried in the mine. They are dead beyond the slightest doubt. A drill boy who was burned by escaping steam, is dying. The hospital at the mine is crowded with injured, and the mine officials are besieged by relatives of the injured and missing miners. As all the openings into the mine are sealed the fire will eventually be smothered, but when it will be possible to open any of the shafts cannot be said.

BRUTES IN RUSSIAN FORM

Girl Barbarously Flogged to Extort Confession

London, Feb. 13.—The Paris correspondent of the Times wires:—Owing to the contradictory reports, colored no doubt in one sense or the other in proportion to the sympathy or the reverse which Russia inspires at the present moment, the public mind here is a little confused as to the real extent and nature of the atrocities which were recently perpetrated at St. Petersburg. In the Paris edition of an important New York paper the foreign correspondents at St. Petersburg are soundly rated editorially for having purposely exaggerated the terrors that took place, and this on the authority of this paper's special representative, who, however, admittedly arrived on the scene some days after all the bloody work was over.

TORTURE TO FORCE CONFESSIONS

As an offset to this Russophile protest, a letter, which appears to-night in the Temps from its accredited special correspondent at St. Petersburg, deserves to be quoted, more especially as the Temps is the most reliable and sobersided of all the Paris journals, and is the favorite semi-official organ of the French Foreign Office. According to this correspondent, a Russian, who did not belong to the official class, but who spoke with a profound accent of sincerity, recounted to him that the St. Petersburg police, with the object of establishing the existence of a revolutionist plot, which, however, was purely fictitious, had made free use of the birch in order to force imaginary confessions from their prisoners and from wounded men and women who were being treated in the hospitals, and this in spite of the fact that the practice of corporal punishment and torture had been legally abolished by the Czar.

WOMAN FLOGGED WITH A BIRCH.

One girl student, who had had her breast partially severed by a Cossack's sabre, was taken away from the hospital before she was half cured and questioned as to her connection with the Anarchist organization by the Commissioner of Police. Her replies being unsatisfactory, she was stripped and flogged with a birch on the lower part of her back until sheer agony forced her to declare anything her torturers wished. She was then returned to the hospital, where it was necessary to place here on an elastic bed filled with curded milk, so dreadfully had she been thrashed.

BEATEN TO POINT OF DEATH.

A student of the Technological Institute was similarly whipped and sent home in a dying condition. Preposterous stories as to the amount of money forwarded from England and Japan were told by rioters, and they were all extracted from the victims of the police under the above circumstances.

The same Russian informant of the Temps states that he visited fifteen out of forty-six hospitals in St. Petersburg in search of a missing relative, and counted two thousand one hundred and ninety-five dead, which would prove that the grand total was very different from the ninety-six which the authorities confessed to.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

1] At least six months' residence upon and cultivation of the land in each year during the term of three years.

2] If the father (or mother, if the father is deceased), or any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same town, township, or an adjoining or cornering township.

A settler who avails himself of the provisions of [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 20 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the North-west Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Land Agents in Manitoba or the North-west Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

INCORPORATED

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and, we believe, exceedingly profitable investment. Every dollar of stock is guaranteed by twenty year, full paid, gold bond, delivered to purchaser of stock, from "an Investment Company that has no interest whatever in the company, but who are disposing of the debentured bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the State Treasurer under which they received their charter, there by doubly securing the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvellously rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Summer and Jack Mining Co., Limited, Mandsfountain, South Africa:—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world.

"With the present development of the Monumeut Mine, I estimate that 100 tons per day can be extracted, which will mill from $18.00 to $30.00 per ton. The total cost of mining the ore, delivering and milling, I place at about $4.00 per ton. With increased milling capacity, it is safe to say that the mine can furnish 100 tons of $15 00 ore, which would yield a clear profit of $11.00 per ton, or $1,100 00 per day (equal to $400,000 00 per annum). Estimated total value of ore in sight, $2,800,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Dr. Brown writes as follows:—

"In regards to the amount of ore available at the mines at Sinclair, I saw on the dumps several thousand tons, probably 5000 tons would be an under-estimate.

"As to the size of the ore body itself, from what I saw of the geological structure, I think that there is every indication that it will be found to extend underground as far as the out-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish full information to investors.

VARICOCELE & STRICTURE

No other disease is so prevalent among men as Varicocele. As it interferes with the nutrition of the sexual organs it produces weakness, loss of semen through the urine, decay of the organs, pains in the loins, aching in the back, nervousness, despondency, bashfulness, palpitation of the heart, constipation, and a combination of these results in complete LOSS OF MANHOOD. Thousands of young and middle-aged men are troubled with STRICTURE. If you have reason to believe you are afflicted with it, don't neglect it. It will ruin you. Don't let doctors experiment on you by cutting, stretching or tearing it. Our NEW METHOD TREATMENT dissolves the stricture tissue, hence it disappears and can never return. We cure Varicocele and Stricture without operation or loss of time. The treatment may be taken at home privately. Send for our Free Illustrated Book on VARICOCELE and STRICTURE. WE GUARANTEE TO CURE OR NO PAY.

Kidneys & Bladder

All sexual complaints affect these organs, hence the kidneys are a great source of disease. Have you aching or weakness over the small of the back, frequency to urinate frequently, deposit in urine, coldness of hands or feet, a drowsy feeling in the morning. Don't neglect your kidneys. Our NEW METHOD TREATMENT is guaranteed to cure any disease of these organs or no pay.

☞ No Names Used Without Written Consent.

O. W. Rowe, of Jackson, Mich., says: I had varicocele in the secondary stage and the [illegible] got temporary relief. I was finally advised to try the NEW METHOD TREATMENT of Drs. K. & K. The enlarged veins disappeared in six weeks, the stricture tissue was removed in eight weeks and my sexual energy and vitality returned so I was a man in every respect. I recommend you doctors with my whole heart.

CURES GUARANTEED. NO CURE NO PAY.

Before Treatment. After Treatment.

We treat and cure Nervous Debility, Lost Manhood, Varicocele, Stricture, Blood Diseases, Kidney and Urinary Complaints. Consultation Free. Books Free. Write for Question List for Home Treatment.

DRS. KENNEDY & KERGAN
140 SHELBY STREET, DETROIT, MICH.

A SPLENDID PROPOSITION

The Salido Gold and Copper Company

Incorporated under the laws of Arizona, with a capital of $3,oc ooo forever on-assessable divided into shares of $1 each, par value. All investments insured Grants Securities Company.

The "SALIDO GOLD-COPPER COMPANY" enterprise offers attractions to the investors of the country, that without thorough investigation, would scarcely seem probable. If only a fraction is realized of what any prudent business man in his own fairs would regard as absolutely certain, the enterprise must prove abundantly successful and exceedingly profitable.

SALE OF STOCK

The company will prosecute the work of development with all the diligence that he cash in the treasury will permit and circumstances warrant, and to this end a small amount of the treasury stock is now placed upon the market, in blocks of not ess than One Hundred Shares. The par value of the stock is One Dollar per share, fully paid and forever non-assessable.

The company reserves the right to advance the price of stock without notice.

REMEMBER

First—That all payments for treasury stock go into the treasury for development work and not into the pockets of the promoters.

Second—There are no salaried officers.

Third—The incorporators have put their own good money into this enterpr se and being business men, intend to do business along business lines.

Fourth—That this company is honest.

Fifth—If you are thinking of investing in mining stocks this is worthy of your careful investigation.

OTHER PROPERTIES

This Company owns four other Gold and Copper Mines, wh ch title is now in process in the laws of Mexico. As soon as title is perfected, we shall commence to develop them as we certainly expect something very great from these properties Our assays taken have been of the very best, showing gold and copper from $6.00 o $122. 30 per ton.

I have secured a small block of this stock, which I offer at the following prices: Unguaranteed 40 cents per share, guaranteed 80 cents per share. These prices will only prevail for a short time, as the number of shares for sale at this price is limited. The Shares will then be advanced to 40 cents for the unguaranteed and 80 cents for the guaranteed. I can unhesitatingly recommend this investment to the Canadian public.

FISCAL AGENT, ... PETERBOROUGH
Agents wanted in outlying districts, including Toronto.

CONSERVATIVE MINING

Those who are interested in a genuine mine, no wildcat scheme—one on which a dividend is guaranteed by one of the most prominent banking and broking firms in the west—

8% Per Cent. for 1905 and 12 Per Cent. . . . the Next Year . . .

As there is only a small amount of the stock left at 20 cents a share the buyers will participate in the appreciation of stock value, the price will be raised to 25 cents within 30 days

The First Dividend Will be Paid in April

THE CALIFORNIA BUCKEYE MINE

is a Zinc Mine, with outcroppings of lead and will prove a bonanza to its shareholders, and the value of it is guaranteed by a responsible firm of bankers.

Capital Stock - - $250,000.00

Shares, par value, $1.00 each. Fully paid up and non-assessable. No PREFERRED STOCK. NO BONDED INDEBTEDNESS.

Buy now before the advance of 20 per cent. is made

DARING ATTEMPT TO SMUGGLE CHINESE

United States Inspectors Give Celestials a Long Stern Chase

THRILLING DRIVE IN NIGHT

Finally Reached the Canadian Border and Eluded Their Would-be Captors

Montreal, February 11.—The Immigration Bureau, Washington, has just received a report from Inspector Thomas D'Arcy, of Plattsburg, N.Y. Mr. D'Arcy tells of the attempt made by Frank Castine, who, it is alleged, was trying to bring a sleigh load of Chinamen over the border.

Word reached Inspector D'Arcy from Douglas Corners, Que., on the night of January 30, that Castine and the Chinese had started from that place and were making for Lagrairie. Hurriedly summoning and arming Inspectors Weeks, Maher, Ketchum and MacGregor, Mr. D'Arcy proceeded to Dewey's Corners, with sleighs and dogs. Two roads leading from Canada run through Dewey's Corners, and so the inspectors decided to intercept the party at that place. They waited until after two o'clock in the morning, before the dogs gave the alarm. The thermometer stood at 20 degrees below zero, and it was necessary to keep the horses constantly moving in order to prevent them from freezing to death.

Finally a sleigh filled with Chinamen hove in sight, followed by a small cutter containing one man. The inspectors barred the road and ordered the strangers to halt. Instead of obeying, the two sleighs were quickly wheeled around and started back in the direction of Canada. The inspectors set out in hot pursuit over the snow-covered roads mile after mile. They gradually gained upon the pursued, and within calling distance shouted to them to surrender. The pursued only whipped their horses all the harder.

Finally Mr. D'Arcy fired his revolver after the speeding sleighs, but the shots went wild. Still the inspectors gained, and soon it became evident that they would be able to overtake the smugglers within the next few hundred yards. The man in the small cutter rose in the sleigh, and leaning far over to one side overturned it in the middle of the road. The inspectors' sleigh was close behind. There was no time to turn out, and in another instant D'Arcy and his men were sprawling in the snow on top of the men and his wreck.

In the meantime, the sleigh containing the Chinamen had disappeared up the Canadian road. Placing Castine in charge of Inspector Weeks, D'Arcy and the others again took up the chase, but the big sled had had too long a start and was not overtaken.

Inspector D'Arcy reports that when they got Castine back to Dewey's Corners, it was found that he had sustained a fracture of a rib. Acting upon the advice of the United States Attorney, Mr. D'Arcy allowed Castine to go home, for medical attention.

MURDERERS WILL BE HANGED

Supreme Court of Colorado Declares Capital Punishment Law Constitutional

Denver, Col., February 11. — The Supreme Court of Colorado yesterday declared that the capital punishment law was constitutional. Four murderers, whose execution had been postponed from time to time awaiting this decision, will now be hanged.

The decision was given in the case of Newton Andrews, Charles Peters and Fred Arnold, who killed Mrs. Amanda Youngblood in this city when attempting robbery. The court set their execution for the week beginning May 21 next.

Asel D. Galbraith, who killed his wife and child in Russel Gulch, will be hanged the first week in March, when the reprieve granted him by Gov. Adams will expire, unless he shall secure a further respite.

MAY BE MURDER

An Alleged Murder Committed in the Far North

Ottawa, February 10.—An important link in the chain of evidence in the alleged murder at Lesser Slave Lake is supplied by Dr. Primrose, of Toronto. The mounted police discovered at Lesser Slave Lake in the debris of a camp fire what they supposed to be human remains, but the surgeons of the force could not establish the fact. Chemical examination by Dr. Primrose now positively supports the police theory. The remains are believed to be those of an English prospector who went to Lesser Slave Lake, accompanied by an American named King. The latter is now awaiting trial for murder.

NO MORE CHADWICKING

Entire Directorate of Banks Must Know When Loans are Made

Washington, February 11.—Comptroller of Currency Ridgley has put into effect a new rule supposed to be the outgrowth of the Chadwick case. The purpose is to safeguard more carefully the interests of depositors of national banks. In cases of loaning over the allowed amount the entire directorate is to be called to remedy the defect. Heretofore in such cases only the president necessarily had cognisance of the situation.

NO SEPARATE SCHOOLS

College Street Bap ist Church in Protest to Protest to Ottawa

Toronto, February 9.—A largely attended and enthusiastic business meeting of the College street Baptist church was held last evening, with Rev. Dr. Sowerby in the chair. It was unanimously voted to draft a resolution to be forwarded to Ottawa protesting to the Government against the establishment of Separate schools in the Territories. A committee to draw up the resolution was appointed, consisting of Rev. Dr. Goodspeed, of McMaster University; Rev. Dr. Sowerby, and Rev. J. G. Brown.

THOUSANDS UPON THOUSANDS of the best known people in Canada have greatly benefited by use of Allan's Lung Balsam. It cures deep-seated coughs and colds as well as all cases of Croup, Quinsy, Bronchitis, and similar affections.

AN OPEN LETTER FROM MR. W. J. GAGE.

Toronto, Can., Dec. 1, 1904.

DEAR FRIEND,

We again come to you with our story of trouble, but a story of surprising and encouraging results.

No apology is necessary; the great work of the National Sanitarium Association, carried on at the Muskoka Cottage Sanatorium and Free Hospital for Consumptives, is now well known.

The 1,400 patients cared for in these two Homes plead for your help.

The large number of lives saved, of those who a few years ago were supposed to be "under sentence of death," gives a right to your sympathy.

In helping to rescue a number great enough to constitute a large prosperous village, the giving back to home and friends a regiment of workers, surely will arouse interest in this work of mercy.

Each patient cared for in our Consumptive Homes, removes a source of danger, so that the life of every citizen in Canada is more secure.

The marvellous decrease of 40 per cent. in three years in the death-rate in Ontario from consumption proves that the fight against this dread disease is no losing one.

The Muskoka Free Hospital for Consumptives, for which this appeal is made, without any endowment keeps an open door to all who are poor and sick, as long as a vacant bed remains.

Nearly 400 patients have been cared for in this Hospital since it was opened less than three years ago. This has only been possible because of the continuous stream of gifts that have come to us from every part of Canada.

Remember, too, these were patients that other hospitals as a rule refuse.

Almost every trade and profession has sent its representative, and of every age—from the young schoolboy of 12 to the widowed mother of 60.

Trustees of the Free Hospital for Consumptives through contributions and bequests.

$50,000 should be given this year if the Board is to provide for the increased accommodation and maintenance of those pleading for admission.

Where will your money do so much good in bringing health to the sick and protecting the lives of those in your home?

Why should consumption not be stamped out if the needful money and help be forthcoming?

The official Report of the Secretary of the Provincial Board of Health tells a **surprising story**—a story of a winning fight, showing that from 1897 up to 1900 there was a **steady increase** in the death-rate from Tuberculosis.

From 1900 there has been a **large decrease each year**, reducing the death-rate from 3,484 to 2,072 in three years, or **over 40 per cent.** This is all the more remarkable in view of the increase in population.

You have the joy of knowing that your dollar has helped in this merciful work.

The pitiful part of it all is in knowing how many more lives could have been saved if the needful money had been forthcoming to provide additional beds.

Will you not join in this great life-saving work?

Your dollar will bring gladness.

Fifty dollars will keep a sick one for two months; may save a life. Three hundred dollars will endow a bed for a year.

Yours sincerely

W. J. Gage

A SPLENDID PROPOSITION

Rare Chance to Secure a Paying Investment

THE GOLD COIN MINING COMPANY

has placed a small block of their stock at the disposal of Canadian investors. This stock is sure to rapidly advance in price. The Company is now arranging to instal the power plant and a mill and cyanide plant for the reduction of their ore to a bullion on the property. They have arranged with a Trust Company having assets of $1,500,000 to put up a bond guaranteeing investors the repayment of the full amount invested. This makes investors absolutely safe. By no possibility can they lose a dollar

THE GOLD COIN MINING COMPANY was organized November 21, 1902, under the laws of the State of Idaho. The capitalization is one million shares of the par value of one dollar each, fully paid and non assessable; of the 1,000,000 shares, 400,000 have been set aside as treasury stock

THE BOISE BASIN came into prominence shortly after Grimes and his party of prospectors entered the Basin country in 1862; their entrance was into the northern portion and one discovery of rich placer ground followed another until the news of the rich finds reached the outside world, when a veritable stampede for Boise Basin commenced, towns sprang up and grew together in an incredibly short time; the rush of people to Idaho City made it a place of 20,000 people in 1867, having a business street over a mile long lined with two-story buildings streets and sidewalks filled with people day and night business and money on every hand and the city bearing the proud distinction of being the capital of the territory of Idaho. Wages ran from $6 to $10 a day and not infrequently forty and fifty men worked on a single placer claim; the clean-up for a day's work in many instances ran close to $5,000; large fortunes were made in a few days by washing the golden sands in a pan; so eager was the quest for the shining metal that the streets of Idaho City were dug up and washed and re-washed, and the soil removed from under the houses and places of business So extensive was the search for the hidden treasure that not only all of the low ground was worked but the foot of the mountains surrounding the city have been washed away, filling up the lower portions of the basin and extending into the town, where one of the buildings has been buried under the tailings from the numerous placer workings

LOCATION—The property of the Gold Coin Mining Company is situated in the Gambrinus Mining District, Boise County, Idaho, on the range of mountains between Moore Creek and Elk Creek, which forms a part of the eastern boundary of the famous Boise Basin and into which these mountains are drained The property is located ten miles northeast of Idaho City, from which place there are good wagon roads either to the workings on top of the mountain or to the place of the proposed tunnels in the gulch which crosses the Tunnelsite claim.

THE CLAIMS—The Company owns a group of four contiguous lode mining claims and the Gold Coin Millsite: the names of the lode claims are the Tunnelsite, Blue Bell, Pennsylvania and Homestake, each being a full claim 600 feet wide by 1,500 feet long, excepting the Tunnelsite claim, which is 450 feet wide at the west end and 1,055 feet long: it was necessary to stake the claim in this form on account of joining the Washington property on the south and the Sab Rosa property on the west, these properties being prior locations to the Tunnelsite claim. The four lode claims aggregate nearly 80 acres of rich mineral land.

Further particulars may be had on application to WM. SAILSBURY, Fiscal Agent of the Company Peterborough, Ont., or to

S. E. PHELPS, Secretary,
311 SCHOFIELD BUILDING, CLEVELAND, OHIO.

Air Carries Healing Medicine

THAT CURES COLDS, CATARRH AND DISEASES OF THE THROAT LUNGS AND BRONCHIAL TUBES

About the healing power of the air of the pine woods everybody knows, but to supply it in the form of medicine seemed almost beyond realization. After many years of careful study a scientific remedy now known as Catarrhozone has been produced which enables the sufferer to breathe into his lungs all the healing properties of the balsamic pine woods air. This marvellous remedy has conquered catarrh. It unquestionably does cure it permanently.

You cannot fail to be cured by Catarrhozone, because it reaches and destroys the cause of the disease. You simply inhale the antiseptic vapor. It instantly spreads to every part of the breathing organs. The microorganisms infecting the diseased tissues of your nose, throat and lungs die instantly. There is nothing left to cause inflammation. Any spots that are raw and sore are quickly healed by Catarrhozone and you are soon completely cured.

It is impossible to breathe through a Catarrhozone inhaler without at once feeling better. Your head is cleared of mucous discharge, your nostrils are cleansed of all putrid matter, the phlegm is removed from your throat. Every trace of catarrh is searched out of the system by Catarrhozone, which thoroughly disinfects and purifies every organ of the body.

Catarrhozone is the only natural remedy for catarrh. It cures by cleansing and purifying all diseased tissues, not by deadening the stomach by drugs. It is a clean, simple and satisfactory remedy that is endorsed by the clergy, and universally prescribed by the medical profession because it is scientific and absolutely certain to effect lasting cures.

Don't be misled into accepting a substitute for Catarrhozone, which alone can cure thoroughly. It is so powerfully healing that colds disappear in an hour, coughs in two hours and even chronic catarrh in a comparatively short time. Two months' treatment $1, sample size 25c. At druggists or by mail from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

A Painful Accident

During the hockey match between the employes of Mr. A. W. Cressman and Mr. Robert Fair, on Thursday evening last, Mr. Harry Cressman was struck on the knee by one of the players, with the result that he has been confined to his room ever since. The knee joint is swollen and painful, necessitating complete rest for some time. Harry's many friends will sympathize with him in his misfortune.

Your presence will help make a success of the Foresters' Carnival, Feb. 14.

Peterborough Man Winning Tournament

There is now being held in the city of Milwaukee an important pool tournament, games following each other succession for a month. The tournament ends shortly, and Saturday night the game was between Mr. Kehn (Jack) Dolan and Fred Brusen. Dolan giving him a handicap of 50 points. Mr. Dolan is at the head of the winners to this writing and prospects are fair for his winning the prize $1,000. Uncle Jim is wearing "The smile that won't come off," and may possibly forsake the cigars for a few days and run over to help Jack bank the $1,000.

DUTTON'S MARKET

See our Grocery Window for Bargains.

R. A. DUTTON
Phone 204. 418-420 George Street

The attendance at the
Peterboro Business College
larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 80 per cent. of these graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

IS THIS THE WAY TO ENTER

If you cannot attend our School write for particulars regarding our correspondence course.

No Gas Manufactured Yesterday

Yesterday the gas house employes had a rest. The bricks inside the carbonater, had become misplaced and fouled, so advantage was taken of the small demand for gas, for manufacturing purposes, on Sunday. The works were shut down, and under the supervision of Mr. G. Curtis, were kept busily employed, from 7 a.m. to 11 p.m. remedying the difficulty. Owing to the foresight of Mr. Stevenson the public suffered no inconvenience, sufficient gas having been stored in advance.

Snow Sinking Mud Lake Ice

Many of the farmers from Smith and Ennismore were complaining Saturday about the difficulty of approach to the Chemong lake shores, owing to the immense weight of snow sinking the ice, so that, at the shores, horses and vehicles, in some places, had to wade through considerable depth of water. Two loads of hay and a load of wood were upset and the hay partly destroyed, not a few farmers with heavy loads from Ennismore had to return home, and wait until the difficulty subsides.

Peterborough Man's Reputation

Cobourg Sentinel Star: James Chatten, a meandering, self-educated boal-the-sick quack, who is charged with practising medicine in these counties without a license, was arrested at Peterborough on Saturday by Chief Ryan on a warrant issued at the instance of the Ontario Medical Council, Detective Rose, of Toronto, laying the information. He appeared before E. S. Barnum, J.P., on Monday evening, and was fined $25 and $17.06 costs, or 30 days in gaol. He paid the fine.

Another Nationality in Business

Peterborough is becoming cosmopolitan in its merchants. We have had French, English and German, now we have Greek. The ding-dong of the small boys bell, heard last week in front of Mr. Geo. Carton's old stand, corner of George and Charlotte streets betokens that gentleman's final bow to his customers in his old store, which, in addition to that formerly occupied by Mr. C. Wilhelmy, immediately extensive alterations are completed, will be occupied by Mr. M. Pappas, a gentleman, who calls the classic city of Athens, Greece, his birth-place. Mr. Pappas will engage in several branches of business, ranging from a shooting gallery, pool room, groceries to a shoe parlor.

A Successful Evangelist

The Rev. E. B. Ryckman, D.D., of Cornwall, writes the Christian Guardian: "The church here has had a season of revival. Mr. H. D. Kennedy, evangelist, was with us from the middle of November until Christmas. Sixty persons have been received into membership. Mr. Kennedy's services were very highly appreciated. His preaching is always with power, full of precious evangelistic truth, and of absorbing interest to the congregations. He has the gift of securing the most intense attention of his hearers. His methods are those with which the Methodist church has been familiar from the former days. Seekers are urged to come forward, converts to testify and to use their influence with their unsaved friends, and church members to throw themselves into the work. The impression remains on the minds of the Cornwall people that the old-time revival is not a thing of the past."

LIEUT.-COL. FRIEDRICH

An Editor Known to Every Chime Welcomed at the S. A. Barracks

Yesterday was a red letter day with the local Salvation Army. Their commodious hall was filled to repletion with an intelligent and loudly applauding audience. The Times was favored with a special invitation, advantage of which was gladly taken and appreciated. Lieut.-Col. Friedrich, editor of that universally known paper, "The War Cry," a gentleman whose experience has been gained throughout the habitable globe, addressed the members of our local contingent of the army, at meetings held during the day, and it is safe to say, that never did a speaker in that hall hold the interest of the soldiers and public more steadily.

MATRIMONY SUCCEEDS MASQUERADING

Mr. J. C. Boyd Entangled in the Webs of Venus

Readers of The Times will remember the sensation our report of Mr. C. J. Boyd's desire to link his fortunes with those of a wife made in the town, and how, he, in defiance of the old fashioned custom of finding and courting a lady who would suit his fancy, cut the Gordian knot by advertising for the fair one, and how his adv. was answered by a man masquerading in woman's garb. Now Mr. Boyd is enjoying the contemplation of coming life long felicity with a really truly female lady, one whom he has discovered to be the life long wanted damsel of his loving heart, one with whom he can go, hand in hand, down the rose strewn paths of conjugal domesticity, and her home, be it whispered, is in Lakefield.

Mr. Boyd will taste the pleasures of anticipation, as he has not yet bought the golden circle through which he looks for joy, but left last night for his home in Coldwater to gather together twigs and fragments for his matrimonial nest. Our hero is a man of well balanced judgment in weighing wares of his seeking, having sifted out his choice from other applicants for his hand and fortune. Not the least attraction found, in the heroine of this local drama, is the fact that she is a cunning follower of Epicurus. The lady possesses three pledges of the happiness she is able to confer on a husband, three loving and beloved olive branches from a former marriage.

—At the morning service yesterday Rev. R. G. McKay of Knox College, Toronto, preached, and Rev. Dr. Torrance in the evening.

—In St. Andrew's church yesterday morning, Rev. J. G. Potter took as his text "The Church's Peril," and in the evening his subject was "The Human Voice."

—Mrs. John McPherson spoke at the Y.W.C.A. Gospel meeting yesterday her subject was "Prayer." Many young women heard her and were interested.

—In honor of Lieut.-Col. Friedrich, the Salvation Army Band yesterday played a selection of Norwegian airs and for the first time "The Magic Loaf" march.

—There was a fair market on Saturday, mostly meat; little hay or wood, but a crop of the ubiquitous fakers that would fairly "Bear" the fake market.

—P. C. Stewart, on Saturday evening, arrestedd a man on George street the charge being indecent exposure. Acting Magistrate Rush will settle the case this morning.

—Bailiff T. LeP'lante and party have returned from Buckhorn where they were snow bound for a day, however, the party had forty-five good reasons for not objecting to the delay at Manc Hont Eastwood's.

—Miss H. Cahill's essay on "Joan of Arc," was a revelation to her audience, her concise and eloquent dissertation on this unique figure in history holding the attention of her audience from beginning to end.

—Mr. Ward, M.P., Port Hope, seems to have good reason for believing that the T.V. Canal will have its outlet at that town. The Minister at Ottawa in conversation with Mr. Ward seamed to coincide with the latter's contention.

—The pavement in front of Mr. C. B. Routley's store was partly blockaded by an immense shipment he had received Saturday. Mothers with baby carriages who happened to meet just at that spot had to exercise considerable ingenuity to get their priceless darlings past one another.

The assessors will shortly be on their rounds. One of their duties is the enter the names of manhood franchise voters — young men who are of age and are not assessed on real estate or otherwise. It is the duty of every good and patriotic citizen to see that the assessor has the name of every young man entitled to a vote. It is also the duty of every citizen to tell the assessor if he has a dog. There are some people who would give you the impression that an was a stranger to them—but they never pay a tax for their dog.

THE STOMACH IN WINTER

Mi-o-na Food Puts Extra Strain on This Important Organ

Winter is a little more than half over, and the results of its hearty food are shown in the variable appetite, nausea, heartburn, sallow skin, furred tongue, headache, backache and sleeplessness. The stomach has been overworked, the nervous system is unstrung, the blood is in bad condition, the digestive organs are tired out.

It is at this season of the year that Mi-o-na, the only remedy known that gives strength to the stomach and digestive organs, is of especial value.

Mi-o-na is not a hit-or-miss cure, but is an unusual combination of remedies that makes it infallible in restoring health to the stomach and digestive system. It overcomes any acid condition that may be present in the stomach and intestines, soothes and heals the irritated mucous membrane, has a stimulating effect on the solar-plexus, and combines peculiar properties that strengthen the nerves of the stomach, and puts the whole digestive system in so healthy, clean and sweet a state that fermentation of the food cannot exist, any disease germs in the stomach will be destroyed, and the digestive system will be so strengthened that it will extract from the food all the elements that make solid bone, firm muscle, and pure blood. It is a guaranteed cure for all diseases of the stomach, excepting cancer.

The guarantee on Mi-o-na is given by one of our best known Druggists, Wm. Madill, who agrees to refund the price, 50 cents, should Mi-o-na not give perfect satisfaction. Ask him to show you the guarantee he gives with every package.

Get your skates on and enjoy a good time at the Foresters' Carnival, Feb. 14.

SOCIAL AND PERSONAL

—Mr. R. J. Kidd, Toronto, spent Sunday in town.

—Mr. Jas. Drury is in town, a guest at the Windsor.

S. A. McGaw, Toronto; John Connor, Boston, are at the Oriental.

—Mr. Geo. Brown, Chemong Park, was in town yesterday on business.

—Mrs. Dawson Kennedy, Water street, is confined to the house by illness.

—Mr. D. Walker, I.P.S., was in Toronto, the last few days of last week.

—Mr. C. LeBrun, Toronto, is spending a few days in town, the guest of his brother, Mr. Harry LeBrun.

—Mr. Chester Dies, Toronto, representing Messrs. F. W. Blackhall & Co., printers' supplies, was in town Saturday.

J. Walker, E. T. Stiles, J. Jackson, all of Toronto, L. H. Brown, Ottawa, and N. L. Knox, Orillia, are registered at the Snowden House.

—Mrs. George Armour, who fell on the ice near the Post Office and broke her arm is doing well, the fractured bone knitting all right.

—Mrs. B. P. Thewlis, daughter of Mr. Frank Mason, has returned to her home in New Bedford, N.J., Mr. Thewlis is Superintendant of a large manufacturing concern in that city.

—The many friends of Mr. D. W. Dumble will be pleased to learn that he is gradually improving, although still very ill. Dr. Young, his physician, is quite hopeful that he will soon be

In all departments of active service stand in need of the readiness of mind and promptness of action which depend on a healthy nervous system. Let a railroad man be "rattled," and every life depending on him is in danger. A great many railroad men have found in Dr. Pierce's Golden Medical Discovery a valuable tonic for the overstrained nervous system. It builds up the body, purifies the blood, nourishes the nerves, and induces a healthy appetite and refreshing sleep.

"I suffered for six years with constipation and indigestion, during which time I employed several physicians, but they could not benefit me," writes Mr. G. Poppleton, of Bowden Park, Carroll Co., Ark. "I felt that there was no help for me; could not retain food on my stomach; had vertigo and would fall helpless to the floor. Two years ago I commenced taking Dr. Pierce's Golden Medical Discovery and 'Pellets,' and improved from the start. After taking twelve bottles of the 'Discovery' I was able to do light work, and have been improving ever since."

Send 21 one-cent stamps to pay expense of mailing and get Dr. Pierce's Medical Adviser in paper covers, free. Address Dr. R. V. Pierce, Buffalo, N. Y.

—Mr. J. L. Lowndes and wife of Gasge, Que., are stopping for a few days at the Snowden House. Many of her old friends are renewing acquaintances with Mrs. Lowndes, who was raised in Peterborough.

Dress up and try for a prize at the Foresters' Carnival, Feb. 14.

ENTOMBED IN THE MINE

Shafts are all Closed and Men are Within

Calumet, Mich., Feb. 13.—All shafts at the North Kearsarge branch of the Osceola Consolidated Mining Company where 10,000 pounds of dynamite exploded yesterday, have been sealed at the surface. There have been no developments since the rescue party left the mine yesterday. Not one body has been recovered, and at least five men are buried in the mine. They are dead beyond the slightest doubt. A drill boy who was burned by escaping steam, is dying. The hospital at the mine is crowded with injured, and the mine officials are besieged by relatives of the injured and missing miners. As all the openings into the mine are sealed the fire will eventually be smothered, but when it will be possible to open any of the shafts cannot be said.

EXPECT JAPS TO DEAL FINAL BLOW

Englishmen Think That Reverses are in Store for Russia

THE OPENING OF THE HOUSE

Owing to Improving Trade Conditions the Government May not Have a Deficit

London, February 14.—"If we are to have a Waterloo we must first have a Trafalgar." So said a Japanese authority at the outbreak of the Russo-Japanese struggle and Japan having found in Admiral Togo a veritable Nelson, all English observers now await the advent of her Wellington.

The idea that Japan will now abandon the initiative on land and remain on the defensive, holding that with Port Arthur lost, Manchuria is useless to Russia is to be only mentioned to be abandoned. Japan has other things to do in the world than engage in chronic warfare at the will of her enemies. Everything points to a supreme Japanese effort. While the morale of the Russian leaders and men is under the baneful influence of the Russian home trouble, perhaps such an overwhelming political and military blow as the capture of Mukden, by Marshal Oyama, perhaps the destruction of the Russian footing upon the Pacific by the reduction of Vladivostok, or perahps even *both*.

The Japanese Minister at the British Court, Viscount Hayashi, frankly discusses, in the Manchester Courier, today, what Japan means to do with her victory. He places first the open door in Manchuria. "We shall claim no privileges in Manchuria that may not be obtainable by all on equitable terms. If there be any *peril to the nations of the Occident* in our achieving success in Manchuria. It will consist merely in the fact of our greater field of enterprise. It may enable our manufacturers, in some respects, to compete on exceptionally favorable terms, but we surely are not to be blamed if we happen to be geographically well placed for trading in our immediate neighborhood.

WHAT RUSSIA PLANNED.

"That Russia planned to impose a tariff permanently at Niu Chwang and Dalny, every one knows. The American Consul appointed to Mukden in 1903 never had a chance to assume a residence under Japan's inspiration. China is expected to open larger centres of commerce to foreign consuls and also to facilitate the exploitation of her inexhaustible mineral or other wealth."

The Englishmen begin to see the stupendous world-wide importance of Japan's victory. Even in the moral sphere, the Times today finds much food for reflection in the possibilities of Japan's influence upon western divilisation and religion. Its special correspondents in the Far East insist again and again upon the splendid morals of the Japanese fighting men and the Japanese people at large. "In that, says the Times, "far more than in her ships and rifles lies the real strength of Japan. The greatest lesson for England from the war is the moral lesson." Then *follows* a sentence which will be read with some dismay in many English personages this morning: "It matters not by what creed or training this splendid result has been achieved. It is part of our intense provincialism to look at the difference between creeds and trainings, and concluded that those in which we believe must produce the best results, but the dynamics of national struggles know nothing of methods. It is the result that counts."

OPENING OF PARLIAMENT.

Today will begin the strangest parliamentary session of recent years. The Ministry, which started this parliament with a majority of 134 now has a nominal majority of only 87. That 87 may *vanish* in a moment at the will of a man who is not minister. If Mr. Chamberlain says "*dissolution*," dissolution is certain. Seeing that Mr Chamberlain himself publicly declared that dissolution cannot come too soon, it is not surprising that the chief Liberal whip, yesterday, warned the Liberals to expect a general election within six weeks.

The Government's menu for the session is singularly unexciting, an anti-Aliens bill, a Scottish Education bill, another workmen's compensation bill, and a bill to facilitate an appeal in criminal cases, which is the outcome of the Beck scandal. The session hangs, however, not on bills, but on the budget. So encouraging are the signs of the revival of British trade—largely consequent upon the Colonial trade expansion, the woollen goods orders for the Japanese army, and the engineering activities for armaments and industry that the long-dreaded deficit on the estimates for 1905-6 may prove to have no existence.

RUSSIA'S PAPER NAVY

How the War Would Have Gone had Czar Good Ships

New York, February 14.—The announcement that a third division of the Baltic fleet, consisting of four battleships and three cruisers, will sail for the Far East on February 14, must again bring home to the Japanese the great paper superiority of their enemy. The five armored ships now about to sail, with the dates of their construction, are the Admiral Oushakoff, 1893; the Admiral Seniavin, 1894; the General Admiral Apraxine, 1896; the Nicolai, 1888; and the Vladimir Monomach, 1882. Even the departure of these vessels will not exhaust the list of Russia's ironclads, for that country had fully forty-six armored vessels at the outbreak of the war, exclusive of the Black Sea fleet. It is perfectly obvious that if these ships had *been in good repair and capable* of being promptly commissioned, the Japanese naval outlook would have been very dark from the outset. Since the war began, just a year ago, eight armored vessels have been sunk and one is interned at Kiaochau.

BRITISH SQUADRON'S VISIT

Prince Louis of Battenberg to Bring Cruisers to America

London, February 14.—The second cruiser squadron, commanded by Rear Admiral Prince Louis of Battenberg, will be inspected by the King off Portsmouth at the end of the month, and will then start on a cruise of *several months*, with the object of showing the British flag in distant waters. The squadron will visit American ports, among others.

The exact date and details of the squadron's cruise in American waters have not yet been decided, but it will follow a three months' cruise in the Mediterranean. Capt. Storkton, the American Naval Attache, expects to receive shortly the itinerary from the Admiralty, and after that will take up the matter with the Navy Department at Washington.

Capt. Storkton, who is a personal friend of Prince Louis of Battenberg, said today:

"There is none worthier than Prince Louis of Battenberg of a hearty reception by the American navy and people. He is a most staunch admirer and friend of Americs, and *his* visit will afford an opportunity for the return of the compliments he has heaped on American naval officers on the occasions of their various visits to Great Britain."

No British cruiser squadron is leaving England at the end of February on a cruise around the world under the command of the Prince of Wales. The Admiralty official who gave this denial of the story published in New York added that no preparations were making at present for any cruise by the Prince of Wales.

Toothpick Nearly Kills Man

Detroit, Feb. 14.—A small boy with a *pop-gun* and a *toothpick* for a dart inflicted an injury on Fred Garland of 90 West Columbia street, that nearly caused his death.

Garland, a jewelry salesman, was in a store in Saginaw a week ago Tuesday, where the five-year-old lad was exploiting his new toy. Playful he made the back of Garland's head his target, and a small round hardwood tooth-pick entered the scalp fully half an inch.

Garland pulled it out and thought nothing of it until that night in Flint, when the wound gained him so severely that Dr. Hensel was summoned, and found Garland suffering from a serious attack of blood poisoning.

Royal Baking Powder

45 CENTS a pound can AT ALL GROCERS

25 cents a half pound can

Royal Baking Powder is made from pure grape cream of tartar; is absolutely pure; has received the highest praise from all authorities on food at home and abroad; is used daily in millions of homes throughout the world.

Royal Baking Powder is the most economical thing in the kitchen.

RUSSIANS ARE CONSTRUCTING DEFENSIVE WORKS

Erecting Fortifications on Their Right and Bombarding the Japanese Front---Russians Abandon Fushun and Retreat.

Tokio, Feb. 14.—The Russians continued to bombard portions of Field Marshal Oyama's center and right on Saturday last, Feb. 11th. The Russians continue the construction of defensive works on their right, to the south-west of Mentepan, where they are erecting an e aulement for a battery of 24 guns.

The Japanese recently surrounded a Russian cavalry detachment, near Haiencheng, killing three of the enemy and wounding eleven.

St. Petersburg, Feb. 14.—A telegram from Sachetun says General Kaulbara, commander of the third Manchurian army, has taken over the command of the second Manchurian army, recently vacated by Gen. Grigenberg.

Tokio, Feb. 14.—A despatch from Koupanto states that the Japanese right recently was so much extended as to press Fushun, on the extreme Russian left, the source of the Russian coal supply. The Russians were compelled to abandon Fushun, and to retire toward Mukden.

The Russian left appeared to be deficient in artillery, and the Japanese scouts suspect that some large movements is going on in another direction. It is also stated that the Russians are sending munitions north to Tieling from Mukden.

A despatch to the Asahi from Yingkow says that a large body of Russians which was largely in the vicinity of Sinmintung in the neutral zone, have all been withdrawn.

In point of Japanese casualties the battle of Heikoutai ranks as third in the campaign. The officers killed and wounded were 222, the men over 8,000. With Liaoyang and the Sha River this makes a total of 42,000 casualties in the three battles.

Amsterdam, Holland, Feb. 14.—A telegram from Batavia, Island of Java, says that on the arrival at Lampong Bay, Sumatra, of the colliers Bulgaria and Sandyford, chartered by the Hamburg and American Steamship Company, the Netherlands Government authorities, in conformity with neutrality regulations, ordered the vessels to be brought to Batavia. An agent of the Hamburg-American Company, who arrived there yesterday, consented that the cargoes of coal should be unloaded and sold.

St. Peterburg, Feb. 14.—The Emperor's creation of a joint commission of masters and workmen chosen by themselves to investigate the causes of discontent among the laborers has made an exceedingly good impression, being considered definite evidence of the Government's purpose to compel some of the rapacious masters who have paid starvation wages to do justice to their employes.

The Imperial decree ordering the formation of the committee foreses the Presidency of the body in Senator Chidlovski, and instructs the committee to ascertain immediately the causes of discontent of St. Peteraburg workmen and devise measures to prevent such discontent in the future. The committee consists of representatives of Government departments, the various industries, and the workmen. The President is authorized to report in person to the Emperor, and determine the number and mode of selection of the committee.

STEAMER LEFT HALIFAX AND IS FIVE DAYS OVER DUE--HAD FEW PASSENGERS

Steamer Silvia Seven Days Out on Voyage Taking Only Two Days.

GRAVE FEARS ENTERTAINED FOR HER SAFETY.

May be Caught in Ice Floes and is Drifting Helplessly About Below St. John.

St. John's, Nfld., Feb. 14.—No tidings have been received of the Red Cross line steamer Silvia, which is now five days overdue at this port, from Halifax, N.S., and grave fears are entertained for her safety. Shipping men here figure that the Silvia must have encountered last Wednesday's blizzard in the vicinity of Cape Race, one of the most treacherous spots in the North Atlantic. There is a possibility, however, that her machinery may have become disabled or that she has been caught in the ice-floes, and is drifting helplessly about.

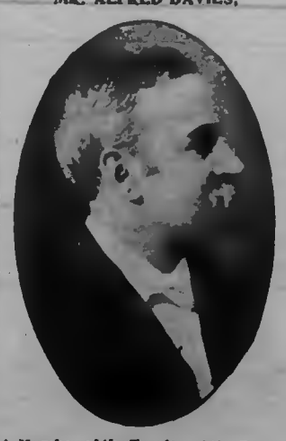
The Silvia sailed from New York with a cargo of merchandise and several passengers and touched at Halifax in accordance with her regular schedule. The voyage from that port to this city should have been made in 48 hours under normal conditions, but seven days already have elapsed without any word having been received from her.

ARE NOT WORRIED.

New York, Feb. 14.—Charles W. Bowring of Bowring and Company, of this city, agents of the Red Cross line steamer Silvia, said to-day that he was not in the least worried by the fact that the Silvia is five days overdue at St. John's.

"At this time of the year," said Mr. Bowring, "big fields of ice come down from the north, and north-east winds pack them against the coast, making it impossible for a steamer to get into port. The Silvia may be a few miles below St. John's, waiting for a chance to get through the ice. Of course we would like to see her in, as there has been some heavy weather there, but Captain Farrell has orders to keep his vessels from being nipped in the ice and driven ashore, as he is experienced in Newfoundland

MR. ALFRED DAVIES,



A Member of the Faculty of the Peterborough Conservatory of Music.

OUR LATEST INDUSTRY

Peterborough Cereal Company is to be Incorporated

We notice that the Peterborough Cereal Company is seeking incorporation. The company will have an authorized capital of $250.000. The provisional directors are; Messrs. W H. Meldrum. W. H. Collier, W. G. Ferguson, A. Hall, R. R. Hall.

The company will take over the new mill, at the foot of Simcoe street, erected last fall by Mr. W H. Meldrum, and will erect additional buildings in connection.

Speaks Well for Home Grocers

Some few weeks ago a gentleman decided to settle in Peterborough, and forthwith set out to hunt up a house he could rent as a dwelling. After a fruitless search for some weeks he was unable to find a vacant house in the *town to suit him*, and was in desperation, compelled to buy a house. The gentleman, Mr. John Rothwell, was sent here from London, Ont., by the Metropolitan Life Insurance Company, and has been appointed Superintendent of his company for the district of Central Ontario. Mr. Rothwell has quadrupled the business of his company in London during the past four years, and reports the prospects in Peterborough as very favorable. He has purchased the property at 167 Antrim street, from Mr. Colman Elliott of Norwood, the price

A SLANDER REFUTED

Strong Resolution of the Peterboro Ministerial Association

At a special meeting of the Peterborough Ministerial Association yesterday morning, Rev. Dr. Torrance presiding, in the absence of the president, the following resolution was moved by Rev. A. H. Bruce, and seconded by Rev. J. G. Lewis, and carried unanimously:

The Ministerial Association of Peterborough have seen with much regret the letter which appeared in The Examiner, of February 6, reflecting upon the consistency and honor of their President, Rev. J. C. Davidson, M.A. The Association wishes most emphatically to affirm that Rev. J. C. Davidson used no improper means to secure the presidency, and never attempted to foist any political resolution upon them, against the wishes of the members. The Association further would protest against attacks of a personal nature being made by any anonymous correspondent in the public press.

R. G. STURGEON PLUMBING INSPECTOR

By-law to Aid the Peterborough Cereal Co. Carried

The Town Council Met in Special Session Last Night — The Legislature will be Asked to Confirm Several By-laws.

The Town Council met in special session last night, when there were present; Mayor Henry Best, and Aldermen Tovey, Hicks, McIntyre, Begley, Crowe, Mason, Hall, Adams, Scott and Johnston.

The Council will apply to the Legislature at the coming session, to confirm several by-laws, and also for incorporation of this town as a city.

PLUMBING INSPECTOR.

Ald. Mason's by-law re the appointment of a plumbing inspector came up for further consideration, which resulted in Mr. R. G. Sturgeon being appointed at a salary of $400 a year, his salary to be paid in monthly instalments, starting March 31st. His appointment will take effect March 1st, and his duties will include the inspection of sewer connections.

Ald. Hall moved, seconded by Ald Mason, the appointment of Mr. Sturgeon—Carried.

Ald. Adams moved, seconded by Ald. Hicks, that Mr. F. Bartlett receive the appointment—Lost.

Aldermen Johnston and Begley did not vote either way.

THE NEW CEREAL COMPANY.

A by-law to aid the Peterborough Cereal Company, Limited, passed its several readings, and will have to be confirmed by the Legislature. This company propose purchasing from Mr. W. H. Meldrum the new buildings erected by him along the water front east of the C.P.R. spur line, south of the foot of Simcoe street. These buildings will be operated as a flour mill and a mill for the manufacture of cereal foods, and the Town will convey to this company half an acre or more to the east, upon which, after being filled in, they will erect a grain elevator and warehouse. The buildings and machinery are to cost $100,000, and are to be completed and in operation 18 months after the passage of the by-law last night. Thirty hands are to be employed, and the assessment is fixed at $10,000, dating from January 1st, 1906.

Some of the machinery for this new industry is already in town, and its installation will begin to-day.

SHOVEL COMPANY'S BY-LAW.

A by-law conveying to the Peterborough Shovel and Tool Company, that property at the south end of the town, used in part for over five years by H. P. Kennedy as stock yards, and fixing the company's assessment at $4,000 for 10 years, commencing January 1st, 1905, passed its several readings. This company will erect a suitable brick building, the construction on which is already under way, 200x65 feet, and install machinery, at a cost of $25,000. The building and $12,000 worth of machinery are to be in operation within 12 months, with an output of fifty dozen shovels a day. At least twenty hands are to be employed. This by-law will have to be confirmed by the Legislature.

Both the by-laws provide for a reconveyance of the properties in question to the Town should the terms of the by-laws not be faithfully carried out.

CONVEYANCE OF POWER.

A by-law to authorise the Canadian General Electric Company to sell power to the Otonabee Power Company, without being taxed poll rent or the town, passed its several readings. The latter company need to purchase power from the former for a couple of months, while necessary repairs are being made to their plant. As the Canadian General were given permission by the Town to erect poles and wires on the streets to convey power to their works only, free of pole rent providing they did not sell power to other industrial concerns, the above action was rendered necessary. Similar concessions have been made before when one of the power companies found it necessary to buy power from a contemporary during a period of forced inactivity.

The Council then adjourned.

Electric Cars Distribute Pop

The horses attached to a wagon, containing ginger beer, owned by Mr. C. James, yesterday morning, stood in front of the Windsor Hotel. The electric sweeper passing down George street, filling the air with snow was too much for the team's nervous system, and they stood no longer; neither did the cases containing the beer. The runaway outfit flew down Water street to Brock, when the sleigh upset. No damage was done except that by the ever present small boy, who took the gifts that the gods sent him, and filled up his program with the scattered bottles of ginger beer.

GOUIN HAS WON AGAINST PARENT THE PREMIER WILL WITHDRAW?

MISS ALICE ROGER,

A Member of the Faculty of the Peterborough Conservatory of Music.

NEW PLANT INSTALLED

The Times' Bindery Being Greatly Improved

In order to keep up with the rapidly growing business, we have been forced to add additional machinery to the Times bookbindery department. We are now putting in a third power gaging machine of the latest design. This machine was made by the Latham Company, Chicago, and is a gem. It is worked by electric power, and will gage a book or do any other kind of numbering, the figures changing automatically.

In addition to this machine, we are also adding a second ruling machine, which is being brought from England. The latter machine will not be installed until we move into our new premises on Hunter street. The Times bindery will then be equipped with modern applicances of every description for use in the art of bookbinding.

Lindsay's Wholesale House

Lindsay, Feb. 14.—A wholesale grocery has been opened in this town by Messrs. Adams & Sparling. They have secured the fine large building on Cambridge street, formerly the Matthews packing house. It has been overhauled and fitted up to make a fine store. This is Lindsay's first wholesale concern. J. E. Adams, one partner, has been in the town for a year conducting a grocery business in the Bleakwell Block, which he has now sold to his brother, D. Adams of Millbrook. W. B. Sparling comes from Toronto, and was for several years

The Trouble in the Quebec Cabinet Settled to His Satisfaction He Declares

LIBERAL LEADER IN CONFERENCE WITH LAURIER.

Indications are That Parent Will Retire Under Arrangement with Sir Wilfrid.

Montreal, Feb. 14.—"The trouble in the Quebec Cabinet is practically settled," was the statement made to a press representative to-day by Hon. Lomer Gouin, who headed the bolt from the Cabinet, on his arrival from a conference with Sir Wilfrid.

"While I am not at liberty to say on what conditions, you may state that they are certain to be acceptable to the Liberal party of Quebec."

Hon. Mr. Gouin had already stated that the only conditions he would agree to would have to include the resignation of Mr. Parent.

OTTAWA BELIEVES IT.

Ottawa, Feb. 14.—Premier Parent goes down to Quebec this evening, and it is understood that a Cabinet council will be held there to-morrow. The Liberal leader at Quebec has been in conference with Sir Wilfrid Laurier, Hon. Messrs. Gouin, Turgeon, and Weir also laid their side of the story before the Federal Premier. Nothing was given out of the result of the conferences, but the general impression is that Mr. Parent's retirement is inevitable.

Another C.G.E. Co. Benedict

Mr. Reginald A. Suteliffe, on the office staff of the Canadian General Electric Company, is a candidate for congratulations. He has joined the ranks of the down-trodden fraternity of benedicts. The happy ceremony took place in Brighton, Ont., when he married Miss Mabel L., daughter of the late A. E. Fife, M.D., of that place. The ceremony was performed by the Rev. W. Creswick, of St. Paul's church. The many friends whom Mr. Suteliffe has made during his short sojourn in Peterborough, are helping him develope his biceps and welcoming his bride. Mr. and Mrs. Suteliffe will reside at 279 Sherbrooke

RUSSIA'S BANE A WEAK CZAR

Nicholas Now Seems an Enthusiastic War Lord

PEACE FEELING IS GROWING

Rates at Lloyd's on War or Peace at the End of April are at Even Money

London, February 14.—The Russian uncertainty is as impenetrable as ever. If the Czar were a good man or a bad man, a knave or a Christian, anything, in fact, save what he is, it would be possible to see some issue from the crisis which involves Russian destiny.

The Czar refuses to rule himself but by fitful whims, and is as uncertain as the weather. He endorses now one policy and then another of a diametrically opposite character. The most hopeful feature of the situation is the fact which has been announced in these despatches a week ago, that even the Grand Ducal coterie recognizes the hopelessness of the war, and are ready to make peace at the earliest opportunity.

Now comes the curious announcement that the Czar alone favors a continuance of the war. There is no assurance of truth in the report, but, after all, it is not improbable. It was a remarkable exploit of the Grand Duke which converted the organiser of the world's peace congress into an enthusiastic war lord, and it is not surprising that more than a day is required to turn one of the Czar's weak but obstinate characters back into peaceful paths. Nicholas is a great believer in the Divine right of kings, and is quite convinced that he is especially inspired by Providence.

PEACE SENTIMENT GROWING.

The impression as to the imminence of peace gained ground through out Europe during the week, especially in financial circles. At Lloyd's yesterday the rates on war or peace at the end of April were at even money. A fortnight ago it was three to one against peace.

The St. Petersburg and Warsaw correspondents make the point that the attitude of the well-to-do and middle classes requires an explanation. They are unanimously against the Government, and in favor of peace, but they are equally opposed to a revolutionary rising among the masses. Mobs, they say, never discriminate, and sudden anarchy would mean vast destruction of property and a reign of terror.

THE ALBANY CLUB

Annual Meeting and Election of Officers Last Night.

The annual meeting of the members of the Albany Club took place last night, when reports from the secretary and treasurer were submitted. The treasurer reported the finances of the club to be in a satisfactory condition. The membership of the club, which is limited at one hundred, is slightly under this mark, but it is expected that the next few months will see a full membership. The following officers were elected for the ensuing year.

Hon. President—Mayor Best.
President—W. H. Robertson.
First Vice-Pres.—Dr. Bradd.
Second Vice-Pres.—R. R. Hall, M.P.
Third Vice-Pres.—T. E. Bradburn, M.P.P.
Secretary—Geo. K. Martin.
Treasurer—J. M. Brooks.
Executive Committee—T. S. Medd, Geo. Elliott, J. D. Armstrong, R. J. Munro, G. B. Stevenson.
Board of Directors—W. H. Meldrum, G. B. Stevenson, J. D. Armstrong, J. M. Brooks, Geo. Elliott, C. Riabor, G. K. Martin, R. J. Munro, T. Brighton, T. S. Medd, W. W. Armstrong, B. Morrow, J. Butcher.

LOST AND FOUND.

Mr. Ernest Roger Has a Thrilling Experience Yesterday

Yesterday the chief topic of interest was "Where is Mr. Roger?" When the midnight C.P.R. train arrived at the Depot on Sunday night, it was a passenger short. It seems that Mr. Ernie Roger was coming to his birthplace, Peterborough, from New York, in a highly nervous and ill condition. His sister who accompanied him, introduced him, shortly before leaving Toronto to two Peterborough gentlemen, coming here on the same train. Mr. Roger, whose sister was sitting in the parlor car, tired out after long travelling, had been chatting with his two new acquaintances and leaving them, as they thought momentarily, failed to return. A brakesman saw him jump off the car steps just before the train passed Lansdale Junction, going at only about five miles an hour, but thinking him to be a passenger wanting to get off at that station, as the train passed slowly, did not give the matter further concern. By the time the train reached Clyde, Mr. Roger's continued absence from his friends filled them with grave apprehensions. On arrival of the train in Peterborough, the disturbing intelligence brought the wire into immediate and active use, in the endeavor to find tidings of the missing man's whereabouts but without avail. Yesterday morning, Mr. R. H. Fortye went by earliest train to Toronto, and intermediate points to try and find some trace of Mr. Roger, who is his brother-in-law.

The anxiety of Mr. Roger's friends was much relieved yesterday evening by receipt of a telegram announcing that he had been located at a farm house near Toronto, where he had sought shelter from the cold and blizzard that was raging. Mr. Roger is a son of the late Mr. J. H. Roger, once manager of the Bank of Toronto here, and is married to the daughter of Mr. W. H. Merrick, late of Peterborough. Mr. Roger is expected to arrive, with Mr. Fortye, to-day,

A Death From Heart Disease

Overtake Those Who Neglect Their Weak Heart and Tired Nerves.

FERROZONE

Is the One Sure Heart Tonic That Always Cures

An attack is liable to come at any time from over-exertion, excitement or emotion.

If blood rushes to your head and palpitation and shortness of breath are noticeable, there's great cause for alarm.

A. F. Beattie, of the Allen Hotel, Bay City, Mich., was cured of heart disease by Ferrozone. See if your case is similar to this;

THE SYMPTOMS;

Nervousness	Palpitation
Trembling	Dizziness
Sinking Feeling	Heart Pains
Short Breath	Weakness

Mr. Beattie says;

"I was weak and miserable.

"I was a subject to heart palpitation and dizziness.

"As I grew worse I began to have trembling and sinking sensations.

"Ferrozone strengthened my heart, gave vigor to my nerves, soon made me well. It's a great builder."

The one medicine for the people with weak heart and poor nerves is Ferrozone, 50c. a box or six for $2.50, at all dealers in medicine, or Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $4 per year, strictly in advance.

PETERBOROUGH, FEBRUARY 14 1905

THE SECOND YEAR OF THE WAR

The second year of the war opens with two main problems set before the Japanese. The first is the coming of the Baltic fleet, the second the Russian army at Mukden. Rojestvensky's seven battleships are an uncertain quantity. Should they defeat Togo, the war would instantly change its aspect. Oyama and his army would be prisoners on the mainland, cut off from their base. Two or three hundred thousand Japanese soldiers would be an awkward problem for the Russians to solve, even under so tremendous a disadvantage. None the less, much the greater part of Manchuria would automatically revert to the Russians, and the Japanese would stand under the shadow of enormous and fatal disaster. The whole issue of the war, therefore, still rests upon the skill of two sets of seamen. The odds, however, are heavily with Togo, for the Baltic fleet so far has not inspired the world with respect.

The Japanese occupation of Manchuria has been extraordinarily thorough and solid. The railway from Port Arthur and Newchwang to the Japanese front has been changed to the national gauge. Another railway has been built from the Yalu River to Liao Yang. A southern prolongation soon will traverse Korea, and a traveller will be able to leave Tokio by rail, cross a narrow strait into Korea, and go by train straight to Liao Yang and Mukden. At the worst they can retire into Korea and Port Arthur, where they will be almost unassailable. Their advance has been slow—the absence of posts must in a part account for that. It also, with the risky occupation of Korea, has been academic in its precise formality. Where the Japanese foot once has been planted it is not easily to be removed. Let Togo destroy the last Russian fleet, and Oyama will have a far simpler problem than he had last year. No Port Arthur will harrass him and divide his strength. Every Japanese soldier will be at his disposal to force the Russians backward. His communications will constantly improve. He is close to his base, and Japan is drilling fresh soldiers to supply wastage. Forty million people will furnish much cannon-fodder.

Kuropatkin's problem is far more difficult. To some extent his object is gone. Port Arthur has fallen, and is as solid a pivot point for the Japanese as it was for him last year. To hammer the Japanese back to the sea-coast and then to find them resting under the guns of the fleet is an unattractive prospect. Moreover, his railway is wearing out. It has so baffled predictions that we may be chary of believing evil about it; still, it cannot be in good condition. If Oyama, distracted by the siege, could yet force back a Kuropatkin who had at his back a railway at its maximum efficiency, what will happen when Oyama is free to devote his whole strength to his work, and Kuropatkin's line of com-

THE COMMON SCHOOLS

The Brockville Times notes with approval the introduction of a resolution in the County Council for the improvement of the common school system of Ontario. Too long, it says, we have listened to the oft repeated boast that Ontario's school system is a world beater, and too long have we been told that Ontario's Ministers of Education have been perfect models of scholastic administration.

It is true that the High Schools and Collegiate Institutes have done and are doing very good work, but when we consider that fully 90 per cent. of the school pupils of Ontario are being educated at the common schools only, is it not time for the people of Ontario to do everything that possibly can be done to raise those common schools to as high a state of efficiency as can be attained?

Nobody in Ontario would think for a moment of interfering with or crippling the efficiency of the High Schools of the Province, but everybody will hope to see some improvement inaugurated with regard to the common schools.

EDITORIAL COMMENT.

Ontario is now waiting breathlessly to hear Whitney announce whether or not he has found that Ross surplus.

* * * *

Whitney says that he has no intention of giving the leader of the Opposition a salary, for he knows a very good man who worked at the job a long time for nothing.

* * * *

Whitney's troubles have begun. Crawford, of West Toronto, is sore because he was not taken into the Cabinet. Only two Torontonians got into the Cabinet as it was.

INVESTORS

Fifty dollars invested in Granite Mountain Mining Company's stock, paid the purchaser $34,500, besides several thousand dollars in dividends. One hundred dollars invested in Boston and Montana Mining stock paid the purchaser $44,000, besides several thousand dollars in dividends. A few dollars invested in shares of the Butte Copper Mining & Smelting Company stock, will not only insure you big returns in dividends, but a handsome profit in an increased value of the stock. Our mine is not a prospect but a copper mine which has produced $160,000 in profits in the last three years.

For the purpose of buying adjoining ground we have placed on the market 50,000 shares of our treasury stock. This stock is fully paid and non-assessable. Par value $1.00 per share. We will sell any part or all of this lot at 60 cents a share; no certificate issued for less than 100 shares. Send us your order for what stock you want and we will reserve it for you pending your investigation of our company, and when you have received our prospectus and satisfied yourself that the investment is a good one, you can send us the money and we will issue the stock, or have the stock sent through any bank you may designate. COSSACKS FOLLOW STRIKERS

But no one Cares to Predict What may Happen on Sunday in St. Petersburg

St. Petersburg, Feb. 13.—The day passed quietly without any collision between the troops and strikers, though many arrests were made after a big meeting at the Moscow gate this morning. The police and Cossacks did not interfere with the assembly itself, at which there was only a reading of papers and a desultory discussion, but they followed the men when the meeting broke up and prevented them from marching in large bodies to intimidate other workmen.

In the industrial quarters most of the establishments were closed at 2 p.m., the regular Saturday half holiday releasing practically the entire industrial population of St. Petersburg and making it very difficult to verify the host of rumors. But it was evident that there had been no general extension of the strike, as feared. The strikers apparently have no plans for making demonstrations to-morrow, but it is impossible to predict what may develop.

Premier Wants to Quit

Moscow, Feb. 14.—Prince Troubetskoy, president of the Moscow Zemstvo, has informed the assembly of nobles that he declines re-election as provincial marshal of the nobility. Addressing a meeting of the nobles, Prince Troubetskoy declared that throughout his tenancy of office he had always striven to maintain harmony among the nobility of Moscow, and throughout Russia, but as a split had manifested itself during the debate on the recent address to the emperor he had decided not to seek re-election. The assembly tried to induce Prince Troubetskoy to reconsider his decision, but he refused to do so. All the former provincial and district marshals of the nobility, whose names were proposed, likewise declined the post. The deadlock ultimately was temporarily solved by Prince Troubetskoy consenting to remain in

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which may be dealt homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

[1] At least six months' residence upon and cultivation of the land in each year during the term of three years.

[2] If the father (or mother, if the father is deceased), or any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same town, township, or an adjoining or cornering township.

A settler who avails himself of the provisions of [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who performed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Land Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

Consolidated Gold Mines Limited.

Capital $625,000, of which 35 per cent in shares is now in our Treasury. Shares fully paid and non-assessable.

Mines directly west of the LeRoi and LeRoi No. 2. War Eagle and Centre Star, four of the largest gold-copper mines in the world, all of which have paid large dividends.

Some identical ore and veins now in sight on the BIG FOUR. Large ore bodies.

Assays from $6 to $600 in gold, copper, silver, etc. Very rich display as now on exhibition in the city are exhibit, causing wide comment.

We have nearly two miles of Railway on Big Four property with water and timber in abundance.

Rossland ore shipments for 1903, 269 000 tons. Shipped for 1903, about 410,000 tons, 1904 about 400,000 tons. Total value of Rossland ores mined, $31,000,000.

Rossland's large ore bodies are a great success with the concentration system of ore reduction. $3.00 ore now pays to mine as now proved by the latest reports and dividends.

No less than 100 shares sold. Shares can be had on instalment plan, payments monthly. Twenty per cent. cash, balance within a year.

Company has no debts or liabilities and a full force of men now working.

References.—The Hon. Mayor, Gold Commissioner, postmaster, or any bank or business man in city.

There is a tide in the affairs of men
Which taken at the flood, leads on to fortune;
Omitted, all the voyage of their life
Is bound in shallows and in miseries.

MEDIATION MAY COME

Believed That Russia Wants War Ended

SITUATION IS DESPERATE

In Event of Peace Revolution in Russia Will not be Stopped

London, February 13.—In the event of peace with Japan, it is thought that Russia's troubles are only beginning. The returning soldiers are rebellious and there is every reason to believe that they will join the revolutionists. Regarding the peace outlook, it is simply a question of "saving Russia's face." Nothing is more evident than that Russia is sick and tired of the war, and would gladly get out of it if that could be done with reasonable honor. This is where mediation might do its work. It ought not to be beyond the skill of diplomacy to devise some settlement of the question at stake, which would seem distinctly better to Russia than anything she can hope to gain by fighting on, while they would give Japan so much that the Mikado's Government would feel the cost of winning far more excessive.

Every battle fought leaves Russia worse off than it was before. Even this last mad effort of Kuropatkin's has damaged the prestige of his army and leaves his country in a worse position to negotiate for peace. When spring releases the opposing forces once more, there is every possibility that Vladivostok will be besieged, and that — possibly — Mukden will be taken. There is little chance that Japan will be induced by either diplomacy or threats to abandon Russia any territory which she has conquered by force of arms, so that the capture of the former port will only increase the humiliation that must come to the Czar's Government when the final reckoning is made.

It is not very hopeful to say in reply to all this that Russian resources will finally wear down the Japanese. These resources are vast; but they are fairly well tied up just now with internal discontent and they must be fed into the East through the slender and unsafe tube of the Siberian Railway. Then until the tide begins to turn, every week's fighting is a loss to Russia; and the party of Witte seems to be of the opinion that the sea will rise at home before the tide will turn in the East. This is all on the assumption the the tide would ever turn under any circumstances—a pure assumption when we remember that Japan has a population larger than that of the British Islands which is enthusiastically ready to spill blood and treasure in defence of Japanese existence.

All these things must now be plain at St. Petersburg. The notion with which the war was begun so jauntily that they would soon sweep these "little yellow dwarfs" into the sea, is pretty well dissipated by now. Consequently, if some friendly power, such as Germany, or some outside power, such as the United States, were to step in at this moment with a series of fair proposals which would "save Russia's face" without robbing Japan of the results of its splendid victories, there ought to be a chance that they would be accepted on both sides. The broad lines of such proposals should be to leave Port Arthur with Japan and give Manchuria back to China. This would shut Russia out of the southern port she has been seeking for her Siberian Railway; but, after the slaughter of this war, she can hardly hope for any other outcome. Japan would be secured from menace in her own waters, and would find Corea opened to her settlement and development. What more she can gain if she is to give Manchuria back to China, it is difficult to see. The question of war indemnity will come up, but that will not be so delicate as the possession of territory.

FOUND WIFE IN A DAY

Young Man Proposed, Was Accepted and Forthwith Was Married

Greenwich, Conn., February 13.—The many friends in Greenwich of Clarence Webb, a young man who went to Cross River, N.Y., a year ago and started in the poultry business are talking today of the quick manner in which he decided to take a wife, and how well he succeeded. Mr. Webb's many friends have had much fun with him about keeping bachelor's hall. Yesterday morning Peter Hunt, a Cross River merchant, asked him why he didn't get a housekeeper.

"Don't know of any," was the reply.

"Why, I can tell you of two or three who would make good wives," said the jolly merchant, and he named them, including Miss Carolyn Saxton, a school teacher.

It appears that Mr. Webb acted on the suggestion, for when school was out he was at the schoolhouse with a horse and sleigh and invited the young woman to a sleigh ride. She accepted, and the two drove to Katonah, stopped at the Presbyterian parsonage, and were married by the Rev. A. D. Reid.

SIBERIAN LINE BREAKS DOWN

Sledges Conveying Troops and Passengers Across the Lake

Irkutsk, Siberia, February 13.—The transportation of troops, passengers, and mails by sledges across Lake Baikal commenced today.

The railway around Lake Baikal, which was completed last autumn after great efforts on the part of the Russian authorities and has since been used, was destroyed to do away with the necessity of employing sledges or boats to cross the lake.

The report from Irkutsk therefore probably means that the railway service has broken down. The strike movement in Russia is reported to have extended to the men engaged on the Trans-Siberian Railway. Should this be true, Gen. Kruopatkin's army in Manchuria would be in danger of shortage of supplies.

Last winter many of the troops on their way to the Far East had to march across Lake Baikal, but mails and passengers were usually taken in the two great ice-crushing ferries

AN OPEN LETTER FROM MR. W. J. GAGE.

Toronto, Can., Dec. 1, 1904.

Dear Friend,

We again come to you with our story of trouble, but a story of surprising and encouraging results.

No apology is necessary: the great work of the National Sanitarium Association, carried on at the Muskoka Cottage Sanatorium and Free Hospital for Consumptives, is now well known.

The 1,500 patients cared for in these two Homes plead for your help.

The large number of lives saved, of those who a few years ago were supposed to be "under sentence of death," gives a right to your sympathy.

In helping to rescue a number great enough to constitute a large prosperous village, the giving back to home and friends a regiment of workers, surely will arouse interest in this work of mercy.

Each patient cared for in our Consumptive Homes, removes a source of danger, so that the life of every citizen in Canada is more secure.

The marvellous decrease of 40 per cent. in three years in the death-rate in Ontario from consumption proves that the fight against this dread disease is no losing one.

The **Muskoka Free Hospital for Consumptives**, for which this appeal is made, without any endowment keeps an open door to all who are poor and sick, so long as a vacant bed remains.

Nearly 400 patients have been cared for in this Hospital since it was opened less than three years ago. This has only been possible because of the continuous stream of gifts that have come to us from every part of Canada.

Remember, too, these were patients that other hospitals as a rule refuse.

Almost every trade and profession has sent its representative, and of every age—from the young schoolboy of 12 to the widowed mother of 60.

Trustees of the Free Hospital for Consumptives through contributions and bequests.

$50,000 should be given this year if the Board is to provide for the increased accommodation and maintenance of those pleading for admission.

Where will your money do so much good in bringing health to the sick and protecting the lives of those in your home?

Why should consumption not be stamped out if the needful money and help be forthcoming?

The official Report of the Secretary of the Provincial Board of Health tells a **surprising story**—a story of a winning fight, showing that from 1897 up to 1900 there was a **steady increase** in the death-rate from Tuberculosis.

From 1900 there has been a **large decrease each year**, reducing the death-rate from 3,484 to 2,072 in three years, or **over 40 per cent.** This is all the more remarkable in view of the increase in population.

You have the joy of knowing that your dollar has helped in this merciful work.

The pitiful part of it all is in knowing how many more lives could have been saved if the needful money had been forthcoming to provide additional beds.

Will you not join in this great life-saving work?

Your dollar will bring gladness.

Fifty dollars will keep a sick one for two months; may save a life. Three hundred dollars will endow a bed for a year.

Yours sincerely

W. J. Gage

Rare Chance to Secure a Paying Investment

THE GOLD COIN MINING COMPANY

has placed a small block of their stock at the disposa of Canadian investors. This stock is sure to rapidly advance in price. The Company is now arranging to instal the power plant and a mill and cyanide plant for the reduction of their ore to a bullion on the property. They have arranged with a Trust Company having assets of $1,500,000 to put up a bond guaranteeing investors the repayment of the full amount invested. This makes investors absolutely safe. By no possibility can they lose a dollar

THE GOLD COIN MINING COMPANY was organized November 21, 1902, under the laws of the State of Idaho. The capitalization is one million shares of the par value of one dollar each, fully paid and non assessable; of the 1,000,000 shares, 400,000 have been set aside as treasury stock

THE BOISE BASIN came into prominence shortly after Grimes and his party of prospectors entered the Basin country in 1862; their entrance was into the northern portion and one discovery of rich placer ground followed another until the news of the rich finds reached the outside world, when a veritable stampede for Boise Basin commenced, towns sprang up and grew together in an incredibly short time; the rush of people to Idaho City made it a place of 20,000 people in 1867, having a business street over a mile long lined with two-story buildings streets and sidewalks filled with people day and night business and money on every hand and the city bearing the proud distinction of being the capital of the territory of Idaho. Wages ran from $6 to $10 a day and not infrequently forty and fifty men worked on a single placer claim; the clean-up for a day's work in many instances ran close to $5,000; large fortunes were made in a few days by washing the golden sands in a pan; so eager was the quest for the shining metal that the streets of Idaho City were dug up and washed and re-washed, and the soil removed from under the houses and places of business So extensive was the search for the hidden treasure that not only all of the low ground was worked but the foot of the mountains surrounding the city have been washed away, filling up the lower portions of the basin and extending into the town, where one of the buildings has been buried under the tailings from the numerous placer workings

LOCATION—The property of the Gold Coin Mining Company is situated in the Gambrinus Mining District, Boise County, Idaho, on the range of mountains between Moore Creek and Elk Creek, which forms a part of the eastern boundary of the famous Boise Basin and into which these mountains are drained The property is located ten miles northeast of Idaho City, from which place there are good wagon roads either to the workings on top of the mountain or to the place of the proposed tunnels in the gulch which crosses the Tunnelsite claim.

THE CLAIMS—The Company owns a group of four contiguous lode mining claims and the Gold Coin Millsite: the names of the lode claims are the Tunnelsite, Blue Bell, Pennsylvania and Homestake, each being a full claim 600 feet wide by 1,500 feet long, excepting the Tunnelsite claim, which is 450 feet wide at the west end and 1,055 feet long: it was necessary to stake the claim in this form on account of joining the Washington property on the south and the Sub Rosa property on the west, these properties being prior locations to the Tunnelsite claim. The four lode claims aggregate nearly 80 acres of rich mineral land.

CATARRH

RUINS HEALTH AND BEAUTY CAUSES THE WEAK TO DIE Y UNG INVARIABLY LEADS TO CONSUMPTION.

Thousands Annualy Cured by Catarrhozone

MR. ARCHIBALD BASS, of New Harbor, writes; "Catarrhozone proved itself a remarkable remedy in my case. I suffered terribly from catarrh in the throat and my nose was so stuffed up every morning I could hardly draw my breath. The mucous dropped back into my stomach, spoilt my digestion and kept me sick all the time. Catarrhozone relieved in a short time and cured perfectly."

MRS. W. F. BREACH, of Chapman, writes; "I have used a great many catarrh remedies but none of them ever helped like Catarrhozone. It cleared out my nose and throat and stopped a ringing noise in my ears. Catarrhozone is very pleasant and simple to use and many times better than any other catarrh remedy."

MR. LAWRENCE KENNEDY, of New West Annan, says; "For three years I tried doctors but my catarrh grew worse and worse. I got no relief till I used Catarrhozone. It was not very long in curing me so perfectly that the disease has never returned."

MR. JOSEPH De ROCHE, one of the most prominent and highly respected citizens of Loggieville, N.B., says; "I used Catarrhozone for a sore throat, cold in the head and head ache. I always felt relief immediately. It cured the discharge from my nose and restored my sense of smell lost through the effects of catarrh."

Catarrhozone is simple, convenient and pleasant. It is warranted to instantly relieve and permanently cure.

Complete outfit consists of a beautiful polished hard rubber inhaler and sufficient liquid for recharging to last two months. Costs $1.00 or sample size 25c. Sold by all druggists, or sent by mail to any address if price is forwarded to N. C. Polson & Co., Kingston, Ont., or Hartford Conn., U S

larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 90 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

WHO IS THE BEST TO ENTER

If you cannot attend our School write for particulars regarding our

Police Court

At the Police Court yesterday morning, Magistrate Rush, assisted by Magistrate Eastwood, presided. Campbell Hodges was before their honors charged with indecent exposure. The accused pleaded he had been under liquor, but had to contribute $10 and costs or be an exile for three months; he decided that a depleted pocket was way ahead of a breezy location, this frosty weather, and helped on the town revenues.

New Street Car Attachment

With that energy that characterizes the Peterborough Street Railway Company's management, they have added to the safety of both passengers and employees. Beginning with car No. 13, the company will equip their passenger rolling stock through out with the Peacock brake, a new but proven success. This brake has more powerful leverage, stronger grip, easier in manipulation and more satisfactory in every respect than the other devices. It is made in Toronto.

Millbrook Reporter: The lecture in the Town Hall on Friday evening last by Rev. Mr. Langfeldt, of Peterborough, was very largely attended and needless to say was very instructive and much enjoyed. Venerable Archdeacon Allen occupied the chair and introduced the speaker in a brief and witty speech. Those who know anything of the lecturer's platform abilities can understand how pleasing the address was, for although the subjects has been often discussed he clothed it with new interest. A hearty vote of thanks was moved by Rev. Mr. Johnston and Mr. Joseph Thorndyke.

The Late Edward Allen

On Sunday morning the demise occurred, after a short illness, of Mr. Edward Allen, of Douro, a son of the late Robert Allen, an old and esteemed resident of that township. The deceased had never been married. He leaves to mourn his death, five sisters and two brothers. The sisters are Mrs. Heffernan, Otonabee; Mrs. David Conroy, Fifth Ward, town; Mrs. Wm. Leahy, Otonabee; Mrs. Tangney, Otonabee and Mrs. Jas. Barrie, Douro. The brothers are Robert Allen, of the Fifth Ward and John R. Allen, councillor, of Douro. The funeral will take place this morning from the residence of his brother, John R. Allen, Douro, to the Douro cemetery.

MISS HELEN DAVIES,

A Member of the Faculty of the Peterborough Conservatory of Music.

SOCIAL AND PERSONAL

—Miss Nellie Renwick, of Keene, is the guest of the Misses Harding, Bethune street.

—Miss Lillian Little, Toronto, is visiting with Miss Mabel Wareham, Sherbrooke street.

—Mr. W. G. Macfarlane, wife and two children, are the guests of Mr. Andrew Macfarlane.

—Mr. J. H. Carnegie, M.L.A., spent Sunday in town, the guest of his father, Mr. John Carnegie.

—Rev. J. G. Whiten, of Picton, is in town, the guest of his uncle, Mr. G. E. Whiten, our local photographist.

—We are pleased to report that at a late hour last night, Mr. D. W. Dumble's condition showed improvement.

—Professor Davies has sufficiently recovered from his recent attack of la grippe, as to begin work again tomorrow.

—Rev. S. J. Shorey, of Oshawa, was in town yesterday, on his way home. He conducted services in Lindsay on Sunday last.

—J. A. Vandervent, Kingston; A. W. Abbott, Toronto; W. H. Kelcheson, Eden P. Romeril, Montreal, and W. A. Forbes, Hamilton, are guests at the Oriental.

—Mr. R. W. Black, a well to do farmer of Bow Bells, S.D., was yesterday the guest of his old friend, Mr. J. H. Campbell, formerly of Waubaushene. He returned last night to his home.

—Miss Rose Clark, 2 Aberdeen Ave., Toronto, formerly of Peterborough, has returned home after an extended trip of over eight months in Winnipeg, the Northwest Territories and British Columbia.

Toronto Globe; Mrs. H. T. Woodroofe held her first reception in her new home, 122 Kendall avenue, on Friday afternoon. Mrs. Woodroofe received in a handsome gown of cream crepe de chene with cream lace on the corsage. She was assisted in the reception by her sister, Miss Caldwell, and Mrs. Nugent of Peterborough. The tea room was prettily done in green and white, and was presided over by Mrs. Brady, assisted by Miss Freda Cole, Miss K. E. Smith, Miss R. Dugit and Miss P. Osborne. Mrs. Woodroofe will receive the first and last Fridays of each month.

GREAT MUSICAL EVENT

Formal Opening of the Conservatory of Music

THE OPENING CEREMONIES

Objects of the Institution Described by Mr. H. M. Dennistoun in an Eloquent Address in Which Formally Declared the Conservatory Open—Splendid Musical Program

Under the happiest of circumstances the Peterborough Conservatory of Music was formally opened last night. This event has been eagerly anticipated by the musical people of Peterborough ever since Mr. Rupert Gliddon, with his characteristic energy and enterprise, purchased the handsome building known as the Leech residence, with the object of establishing a Conservatory. The building presents an imposing appearance outside, and the spot is an ideal one for this institution. Inside it is beautifully and tastefully fitted up, and on entering the expectancy a feeling of genial warmth and homelikeness, which is particularly agreeable to the seeker after knowledge. The rooms devoted to the different branches are well lighted and heated and everything necessary for the comfort and convenience of pupil and teacher is found therein. Mr. Gliddon is to be congratulated on the success he has achieved in his establishment of this very important institution. The faculty is composed of the most eminent teachers to be had in Canada today, and it is felt that a successful future for the Peterborough Conservatory of Music is assured.

After the guests, to the number of about 200, had assembled, Mr. R. M. Dennistoun delivered the inaugural address, as follows:

It is with great pleasure that we all join tonight in marking the progress which Peterborough makes by having in her midst this handsome Conservatory of Music, under the able directorship of Mr. Rupert Gliddon—a man who has labored unceasingly to elevate music to its proper position and to cultivate the musical taste of our citizens.

The objects of a Conservatory of Music are:

1. To afford musical instruction upon a system both logical and scientific.

2. As part of such a system to advance pupils in regular progression, paying particular attention to the aptitudes and attainments of the individual pupil by means of a curriculum carefully prepared.

This cannot be done under private instruction in the same way, for each teacher has his own method, and change of teacher means change of method, with most unsettling effect upon the student.

3. To afford opportunities for musical intercourse which tends to develop a lively interest in music itself. In this building students will be afforded frequent opportunities for recital before audiences; this develops confidence and self-control, and exposes the pupil to educated criticism, which is, after all, the best educator and monitor.

4. Last, but not least, it will afford opportunity to many who have no particular talent for technical work to master the theory and fundamental principles of music and enable them to cultivate a musical taste, which will open great and delectable sources of enjoyment which are cannot either be lost or materially obliterate.

The question whether or not the child shall receive instruction in music comes to every parent. The answer to this question is often given upon an entirely wrong hypothesis. It is generally thought that the child which shows no musical talent should, for that reason, have no musical education. We take particular pains to teach the child which is deficient in the rudiments of our common education the particular branches in which he is lacking. So it should be with music, poetry and the fine arts. Music occupies a unique position among the nations of the earth. In the language of Longfellow:

"It is the universal language of mankind."

Every ear can understand the tragedies or comedies which the great composers tell us, provided the ear has been trained to unravel these mysteries.

A father once objected to Dr. Arnold teaching his boy Latin, because he did not see what the child could do with it. Arnold replied, "Sir, it is not for the sake of what the boy will do with the Latin, but for what the Latin will do with the boy."

So it is with music. Our children may not become musicians. They may never charm large audiences or even small ones, but the benefit which music may have upon their lives may be incalculable. It will enlarge and uplift the intellect, assuage the ills of fortune and improve the morals of our race.

It will have a lasting and fostering influence upon the other talents which lie dormant until awakened, and may stimulate the child to efforts in quite unexpected directions. As Mme. de Stael says, so beautifully:

"Architecture is frozen music."

So too poetry, painting and sculpture are closely allied to it.

In conclusion, let us make this Conservatory an institution upon which the warmest affections of our people will centre, and let us endeavor, one and all, to use it for the improvement and enlightenment of our community.

I now declare this Conservatory duly opened for the work it has to do, and I wish the musical director and his mots talented and efficient staff every success in their labors.

THE MUSICAL PROGRAM.

The program was one which would appeal to the most cultivated musical tastes, and was excellently rendered throughout. The opening number was a piano solo by Miss Alice B. Roger, preclude in F Minor (Mendelssohn) which displayed excellent technique and expression. Herr August Wilhelmj then sang "Per diversi bosca bella" (Lotti). This number was greatly enjoyed, and brought out the singer's rich baritone voice admirably. "Orpheus and His Lute" (Sullivan), which was to have been rendered by Miss Helen Davies, kindly consented to take her selection, and sang in good voice. Mr. Gilbert Markle's violin selections evoked much enthusiasm, and were thoroughly appreciated. His first number "Sarabande" (F. Marie LeClair) was an adagia movement; the second "L'Abeille" (The Bee), was more lively, and the technically difficult passages were well interpreted by this clever young violinist.

The second half of the program was opened by Miss Alice B. Roger, who again favored the audience with a piano solo. "Prelude" (Chaminade) and was enthusiastically received. Herr August Wilhelmj next rendered Strauss' "Dream in the Twilight," in a particularly pleasing style. The concluding number was given by Herr August Wilhelmj with fine artistic taste and expression. It was (a) "Eldorado" (Clarence Lucas) (b) "Nussaum" (Schumann).

The singing of the National Anthem brought this very enjoyable evening to a close.

THE FACULTY.

Mr. Harry Field, piano pedagogue.
Herr August Wilhelmj, voice.
Mr. W. E. Fairclough, F.R.C.O., organ theory.
Herr Heinrich Klingenfeld, violin.
Miss Alice Roger, piano theory.
Miss Alice Roger, piano theory.
Miss Estelle Foy, kindergarten.
Miss Helen Davies, voice.
Miss Wilhelmina Gumpricht, piano.
Miss Amy K. Bennett, art.
Miss Ivy Coventry, physical culture and Swedish gymnastics.
Mr. Gilbert Markle, violin.
Mr. Alfred Davies, piano and theory
Mr. E. W. Gibbs, clarinette and saxophone.
Mr. L. N. Watkins, mandolin, guitar, banjo.
Rev. F. A. Langfeldt, M.A., German.
Prof. Raymond Accolas, French.
R. Gliddon, piano, musical director.
H. Gliddon, piano, musical director.

Dress up and try for a prize at the Foresters' Carnival, Feb. 14.

LITTLE LOCAL LINES

Dashes Here and There by Times' Reporters on Their Round

—Trains all late yesterday.

—Charlotte street Young Men's Guild will meet to-night.

—Valentines to-day at ten cents a dozen. Times Bookstore.

—The Town Council met last night. For report of proceedings, see other columns.

—The Central Charity Board met last night at 7.45, and the Manufacturers' Committee at 8 p.m.

—Choice of 100 nicely bound books, by the best authors, for 15 cents, Times Bookstore.

—The guests of Castle Nesbitt took an airing yesterday, taking exercise on the Court House hill anow.

—Chief Rossel has a pair of fur gauntlets for which he wants a fit, and incidentally a description.

—The Charlotte Street Church Epworth League had a pleasant social gathering last night.

—The boys and girls are pondering over the momentous question, whether to go as a nigger or a clown, Indian girl, or Italian peasant, to the carnival to-night.

Your presence will help make a success of the Foresters' Carnival Feb. 14,

—Rev. Mr. Trotter, well known by his old parishoners here, lectured last night in the Murray street Baptist church. His subject was 'Songs of the Sanctuary." It was good.

—Last night the members of the Men's Guild of St. Luke's church were given an intellectual treat, a discourse on "Macbeth" by Mr. J. J. Jefferies, of the Collegiate Institute.

—Word comes from Orillia that great efforts are being made to induce the James Bay Railway to touch at that town. This will give Peterborough direct communication with New Ontario.

—The Times is in receipt of postcards outlining the splendors, of the Eastern Ontario Live Stock and Poultry Show to be held in Ottawa, March 6th to 10th, 1905. The Stallion Show will be a specialty, and lectures on stock, poultry and kindred subjects will be given.

$500 REWARD! FOR WOMEN

WHO CANNOT BE CURED.

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay $500 in legal money of the United States, for any case of Leucorrhea, Female Weakness, Prolapsus, or Falling of Womb which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

The Vice-President Independent Order of Good Templars.

An experience which many women have was related by Miss Agnes Stebbings, of 231 East 30th Street, New York City, as follows: "I had very poor health for a year until life looked dark and dreary to me. Had headaches, backache, also pain, my sleep was broken and fitful. I longed for health. Tried several medicines but none were of any lasting benefit until I took Doctor Pierce's Favorite Prescription. I soon realized that I had found the right remedy. It helped nature to throw off the poisons that saturated the system, removed all pains and strengthened the digestive organs, and brought the roses of health back to my cheeks. This medicine if taken occasionally keeps the system in perfect condition, helping it to throw off the disease and consequences of exposure to dampness. I am pleased to give it my endorsement."

"Favorite Prescription" makes weak women strong, sick women well. Accept no substitute for the medicine which works wonders for weak women.

Dr. Pierce's Common Sense Medical Adviser is sent *free* on receipt of 21 one-cent stamps for the paper-covered book, or 50 stamps for the cloth-bound. Address Dr. R. V. Pierce, Buffalo, N. Y.

BISHOP LEGAL CONDEMNS NEUTRAL SCHOOL SYSTEM

Neutral Schools are Really Protestant Says The Highest Dignitary in the Catholic Church

Both in Manitoba and the West the Agitation Will be Kept Up Until the Desired End is Secured from Parliament —A Catholic View of the Situation.

Montreal, Feb. 15.—All the important points dealing with the interesting School question in the North-West Territories were touched upon in an interview accorded a representative to-day by Bishop Legal of Saint Albert, N.W.T., who is at present visiting his superiors in this city. Bishop Legal is the highest Catholic ecclesiastical dignitary in the Territories, and is at the head of the largest diocese in point of population in the entire country which it is proposed to subdivide into provinces. When he speaks on this important question he voices the opinion both of Church and of his people. He certainly has the strongest views on the school question, and claims he is in a position to know what is best for his people, seeing he is just completing his twenty-fifth year in the West.

HAVE THEM NOW.

"It is just like this," he says. "At present we have Separate schools throughout the Territories, and I may say that we get along splendidly. There is never the slightest trouble between the different denominations.

"The system of purely Separate schools is the only one that can be called national in this country. It so happens that the population is made up partly of Protestants and partly of Catholics, and matters must be so adjusted that no religion can dictate to any other.

CATHOL C VIEW.

"From a Catholic standpoint there cannot be any such system as a neutral school system. Once it is made neutral, from our standpoint it may be regarded as Protestant. The commissioners would be for the most part Protestant, and the books Protestant. In the education of our children we desire to look to the religious as well as to mental training.

"In the districts in which Catholics are not numerous, if a Catholic school is established it always means quite a burden for the small number, but they have always shown themselves willing to bear it. It is true that the Catholic population, is only about one in four in the Territories, but we cannot see that any improvement can be made to the present system. We do not desire any, and do not expect any will be forced upon us. If any change were to be introduced we would go on fighting till we again secured straight Separate schools, just as Manitoba is going to fight till the minority gets its rights. My opinion is that in the Territories there will not be any change to the present system."

BOTH CONFIDENT.

Bishop Legal is accompanied by Father Leduc, his vicar-general, who has been in the West for forty years. Father Leduc has just as strong views on the subject as his Bishop. From the manner in which they discuss the question they seem to be fairly certain that the Dominion Government intend to protect the interests of the people;

A FRIGHTFUL EXPERIENCE

Spent Six Days and Nights in an Open Boat

Tacoma, February 14.—Blown out to sea in an open boat through which the water poured so that one was kept continually baling for six days and nights was the experience which befel a man and woman who are now lying ill at Kayak. The victims are Charles W. Cook and Mrs. Rita Wolfenden, who started for Kayak from Yakataga, to overhaul two men who had robbed them of $600. Their boat began leaking, but before they could reach shore they were blown out to sea. For six days and nights they were at the mercy of waves and wind, their food being spoiled by salt water. Cook's mind weakened and he jumped overboard, but was caught by the woman and pulled back. He was delirious for two days, then utterly collapsed. A shifting wind blew the boat ashore at Cape St. Elias, where they killed a dog and lived on the flesh for three days. Regaining strength they proceeded to Kayak.

TO FLEE FOR THEIR LIVES

A Most Serious Ice Jam now on at Morrisburg

Morrisburg, Ont., February 14. — Something unprecedented in the history of the St. Lawrence River can be seen at Morrisburg at the present time. Some weeks ago an ice bridge formed at Farran's Point canal. Since then the ice has been slowly backing up in the river, raising the water to such an extent that much damage has been done to property between here and the Point. The local electric light plant had to shut down and the waterworks is being run by a temporary boiler placed on the canal bank to supply steam power. People have been compelled to vacate their homes along the river front. The main road cannot be traversed. Yesterday the ice backed up to the government docks here. The water raised 30 inches during the night, and is now as high or higher than ever. At noon today the ice in Doran's Bay broke loose and swung across the river, being held by the ice jammed between, making a bridge across to the American shore, which is being used by people on foot today. This is something the oldest resident cannot remember ever happening before. A similar flood and jam was experienced some eighteen years ago, but at that time the ice did not back up to within five or six miles of this village, although the water was just as high. The matter has been brought to the attention of the Government, and it is hoped some action will be taken to prevent this state of affairs occurring in the future.

IS SICK OF WAR

The Czar Said to be Anxious for Armistice

Paris, February 15.—A despatch to the Petit Parisien from St. Petersburg says the Czar is said to have consulted competent persons upon the best way to conclude a preliminary armistice with the Japanese, and then to come to a definite understanding upon the conditions that would not be too humiliating or onerous for Russia to accept.

EQUITY IN SCHOLARSHIP, RELIGION AND LANGUAGE.

It is asserted that there are only ten Separate Schools in the Territories, out of a total of a thousand, although twenty-four year shave elapsed since public aid to schools was first granted by Governor Laird. The laity are apparently satisfied with Public Schools, in which there is equality in scholarship, religion and language. The Roman Catholic clergy, says a writer in The Globe, are not satisfied and having been unsuccessful in the Territories they are transferring the struggle to Ottawa, where they may win "if temporizing public men; in both parties prefer to secure present ease "for themselves at the cost of future trouble for the people "who are pouring into the West." The people of the West have given their representatives no mandate in favor of separation in education. It is pretty clear that the demand for Separate Schools does not come from the West at all, and that the Dominion Parliament has no justification for establishing them.

JAPAN GIVES DUE WARNING.

Any Colliers Found With the Rojestvensky Squadron will be Sunk Regardless of Their Nationality--Russian Attack Again Repulsed in Manchuria St. Petersburg Has a Peace Rumor.

Tokio, Feb. 51.—In discussing a report that colliers had refused to accompany the second Russian Pacific squadron on its way north, a member of the Japanese naval staff said today:

"Our commanders will fire and sink any colliers found in company with the Russian warships, regardless of their nationality."

Vice-Admiral Togo departed from Kure on February 13, his destination being kept secret. It is presumed, however, that he is proceeding south.

RUSSIANS AGAIN REPULSED.

Manchurian headquarters reporting to-day says; "The Russians shelled and twice attacked Waitao Mountain on Sunday, February 12, but were repulsed.

"Small forces of Russian infantry attacked Lapatai and Hunabantai on February 13, but were repulsed.

"The Russians continued to construct entrenchments in the neighborhood of Heikoutai."

Reports from Liao Yang place the total Russian force between the Shakue River and Harbin at 450,000, of which 280,000 are on the fighting line. The condition of the prisoners and of the bodies of the dead, indicate that the Russians are short of shoes and winter clothing. Some of the officers are wearing Chinese shoes. It is believed that exposure to the cold is greatly increasing sickness among the Russians.

Later estimates of the Russian losses at Heikoutai place the number at 25,000.

St. Petersburg, Feb. 14.—A despatch from General Kouropatkin is as follows; "Early in the morning of February 12, three hundred Japanese cavalry attacked a bridge near Fangtaikong and damaged thirty yards of the railroad. Train service was resumed after some delay.

"The Japanese bombarded Lone Tree Hill, and Sekheyan, with siege guns, February 11. One officer was killed and several were wounded.

"According to corrected returns the Japanese prisoners captured from January 25 to January 29, total 843, of whom 221 were wounded."

RUMORS OF PEACE.

St. Petersburg, Feb. 15.—Prices on the Bourse to-day were strong on rumors of peace.

PEACE MOVEMENT GAINING GROUND

No One Willing to Take Odium of a Declaration

ASSEMBLY OF THE PEOPLE

Will Declare in Favour of a Termination of War Thus Clearing the Way

Tsarskoeselo, February 15. — In spite of all denials and it is certain that the peace movement is gaining grounds. I am informed by an absolutely reliable authority here that the court and the Grand Dukes secretly favor peace, but that no one is willing to take the odium of a public declaration. There will be no active operations in Manchuria until after March, by which time the Semsky Sobor (people's assembly) will have met and taken the responsibility of declaring for peace.

All eyes are turned towards the coming meeting of the people's assembly. The reforms that are being elaborated by the committee of ministers are commanding meagre attention, because it is generally felt that its action will be superceded by the Zemsky Sobor.

My Tsarskoeselo informant states definitely that Gen. Kuropatkin will be replaced and that there only remains the question as to who is to succeed him. Gen. Grippenberg is mentioned. The much heralded departure of the third Baltic squadron is not taken seriously. I am informed on good authority that there is little likelihood that Rojestvensky will go beyond Madagascar.

There is increasing talk here of a future alliance with Japan, providing the peace terms do not materially alter the ante-bellum situation. The feeling toward Japan is unquestionably more cordial than before. It is expected that the Routiloff works will re-open today.

Further violence in St. Petersburg is not likely pending the action of the coming Zemsky Sobor.

THAT TORMENTING COLD that made you wretched last winter will not come back if you take Allen's Lung Balsam when your throat is raw and sore. This admirable remedy is in the Empire and Grand Challenge, and Wm. Vernon of Collingwood is in the Grand Challenge; neither Montreal rink has stood the pace.

On Saturday in the Empire Scott beat Doig of Glenboro by 10 to 9 and Flavelle beat Hoffman of Thistle by 13 to 9.

In international play Lyall of Montreal, beat Thompson of Portage la Prairie by 12 to 10 and went into the second round. Flavelle of Lindsay beat Walsh of Oxbow 11 to 5 and followed suit. Neither Vernon of Collingwood nor Scott of Toronto has played yet.

In the Tetley Tea both Scott and Flavelle were beaten. Robson of Trearne beat Flavelle 10 to 9 in a fluky game, while Whalen of Fort William took a fall out of Scott by a score of 14 to 10. Vernon of Collingwood beat Hepburn of Stonewall easily by a score of 11 to 3. Hughes of Montreal has not played in this competition yet.

Hughes of Montreal is the only Easterner entered in the consolation event for the Mellon Cup.

• • • •

Nearing the Top.

Cobourg, Feb. 14.—A very fast and clean game of hockey was played here last night in the junior O.H.A. series, between the Queen's III. of Kingston and the home team. The score at full time was 9 to 3 in favor of Cobourg.

• • • •

Brighton Defeated Belleville.

Brighton, Feb. 14.—The Brighton Thistles defeated Belleville junior O. H.A. team in an exhibition hockey match here by six goals to 0. The game was fast and remarkably clean. W. E. Burke of Belleville officiated and gave entire satisfaction.

ATHLETIC WORLD

BY OUR SPORTING EDITOR

The Peterborough Seniors defeated Markham last night in the first game of the second round of the O.H.A. semi-finals by a score of 9 to 6. The return game will be played here on Friday night.

• • • •

Woodstock Club Suspended.

By telegraph vote this afternoon the Woodstock Hockey Club was suspended by the O.H.A. Executive Committee.

Fresh evidence was secured showing that the three players, McCourt, La Rose, and De Gray, of the Woodstock club, did not purchase tickets from Cornwall to Toronto on the night of Sept. 30, 1904, as stated by them before the committee on Saturday last. The Grand Trunk Audit Department state that no tickets were sold, nor cash fares paid.

• • • •

The suspension of Woodstock necessitated a readjustment of games in the intermediate series. Woodstock's games with Berlin in the 3rd round were canceled, and Goderich and Stratford were ordered to play home-and-home games at Goderich to-morrow, the 15th, and at Stratford, Friday, the 17th, to decide which club should take Woodstock's place. The winner will play Berlin at Berlin, Tuesday, February 21, and return game at winner of Stratford-Goderich series on Friday, the 24th.

• • •

In the third round the winner of the Victoria Harbor-Thessalon series will play at the winner of the Markham-Peterborough series on Tuesday, the 21st, and the return game on the 24th.

CURLING.

Orillia curlers arrived here yesterday afternoon, three hours late. They played four rinks of Peterborough curlers for the Shepherd-Neil Cup. Peterborough won here by ten shots.

• • • •

Four other rinks of Peterborough left here at 8.30, yesterday morning for Orillia to play the same number of rinks there, and owing to the fierce storm the Peterborough boys did not arrive before 5 p.m.

• • • •

Winnipeg, Feb. 14.—Unprecedented progress has been made in the Manitoba bonspiel since the start last Wednesday, andd all past records in number of games played for the same time have been broken, while the competitions have all been advanced far beyond the limit for similar period for some years. So satisfactory has been the progress that the committee in charge expect to put on the finals by Thursday at the latest. Some may be played as early as Wednesday. The Grand Challenge and Empire have reached sixteens, six rinks being in that stage of the latter and seven in the same stage of the Challenge. To date 375 games have been played.

The commencement of the second week of the spiel finds Eastern rinks rather cushed. In the open competi-

Parent to Answer Charges

Must Disprove Accusations Against Him Before Getting Favors From Sir Wilfrid---His Resignation Believed to be Matter of Hours

Ottawa, Feb. 15.—Your correspondent is informed that an important feature of Hon. Mr. Parent's understanding with his party friends regarding his retirement from the Provincial Premiership is that he specifically agrees to clear up the charges laid at his door by Senators Choquette and Fiset, of alleged mal-administration of the Crown Lands of Quebec. It is now apparently agreed on all hands that Mr. Parent's resignation is only a matter of hours, or at the very outside, a very few days and that when he goes out Hon. Lomer Gouin will succeed him in the Premiership.

Mr. Gouin appeared before the Railway Commission this morning on behalf of a private client. Alongside of him was Mr. Dupuis, M.P.P. for Chateguay, a supporter of Hon. Mr. Parent in the present Provincial crisis at Quebec, whose name was mentioned last week with the portfolio of Public Works in the reorganized Parent Administration.

Report says that after Hon. Mr. Parent has enjoyed the benefit of a good rest, the Federal Government will avail itself of his services upon the National Transcontinental Railway Construction Commission to replace Mr. Brunet, who at present represents Quebec upon this Board.

C.P.R.S. FAST BOATS

Canadian Pacific Steamship Won Great Ocean Race

Vancouver, February 15. — More than ordinary interest was aroused in shipping circles over the simultaneous sailings for the Orient, on the 23rd January last of the new Great Northern liner Minnesota from Seattle and the Canadian Pacific Empress of Japan from Vancouver. The Empress reached Yokohama Monday last, 6th inst., at 2 p.m., on her schedule time. The Minnesota did not arrive at Yokohama until Saturday, at 5 p.m., having taken five days more than the C. P. R.'s Empress in crossing the Pacific.

LAST WIFE INTERVIEWS HOCH

She Asked for Her Money and He Told Her not to Worry

Chicago, Ill., February 15. — Mrs. Emilie Fiaber Hoch, the latest wife of Johann Hoch, called upon him today to make a demand for her money. After Hoch had been brought from a cell into Police Inspector Shippy's office, she said: "John, you have got my money, and I want it. Give it back to me if you have any heart at all, for I need every cent."

Unmoved by the earnest plea, Hoch answered. "Now, my dear, don't get excited. You will get all your money back, and more, if you do the right thing. All of these stories about me are false. You leave me alone, and you will come out all right. Wait and we will talk it over later."

The woman did not make any reply, and the interview was at an end.

A special detachment of detectives has been set at work in order to locate the drug store at which Hoch is supposed to have purchased the arsenic, which the police will endeavor to prove was administered to Mrs. Marie Welcker-Hoch. The post-mortem examination disclosed three grains of arsenic in the woman's stomach.

FORESTERS' CARNIVAL A GRAND SUCCESS.

Competing Masqueraders Throng the Ice.

THE RINK A BLAZE OF COLOR

Large Crowd of Spectators Present --57th Band Add to the Evening's Entertainment

The Foresters have every reason to be proud of the result of their preliminary labors over last night's carnival. The large and modern Brock street rink was a blaze of color, a glitter of steel, a sheen of ice and the merriest home of Momus it is possible for the mind to conceive. The ice had been specially prepared for this occasion and was simply perfection in its condition. Flags and mottoes were everywhere, Messrs. J. J. Turner & Sons, having almost depleted their extensive supply of fancy buntings. Among the illuminated mottoes bannered were sentiments that always appeal to loyal Canadians. "Long may he reign," "God bless her Majesty," immediately over the inside entrance was the inscription, "Willie we have missed you," these mottoes being made specially for the occasion. All went merry as a marriage bell, and Peterborough had gathered there her beauty and her contrarieties. Negroes skated hand in hand with beauties from Circassia. Boer and Briton fraternized. The cinnamon bear fled from Little Lord Fauntleroy and Knights of the Realm rubbed elbows with jail birds. The seats were simply crowded. After nine o'clock, as usual, the public in mufti were allowed on the ice, and one and all were happy and forgetful of life's stern realities. The regimental band played particularly appropriate selections throughout the evening. The judges were; Messrs. Eardly-Wilmot, John Crane. For gentlemen's costumes, and Mesdames Wilmot and Crane for the ladies. The officers of the Managing Committee were, W. Carter, chairman, and D. Menzies, Sec.-Treas.

GETTING RID OF JEWS

Russian Government Offers Them Cheap Rates to Emigrate

London, February 15.—A despatch to The Telegraph from St. Petersburg says that the Ministries of Railways and Finance have arraged to issue tickets to Jews emigrating to non-European countries at one-fourth the ordinary fares.

ADULTERATION OF CANADIAN GOODS

Many Complaints are Made by the British Importers

WELSH TIN PLATE INDUSTRY

Uneasy Over Fears of Canadian Rivalry—Dinner to Lord Minto

London, February 13.—One of the best known Canadians in London, who is in close touch with the importers of Canadian goods, speaking to the Canadian Associated Press, said that he knew of many instances where Canadian goods were much inferior to the sample shown. To take maple syrup, for instance, it was exceedingly difficult to procure a single gallon of pure syrup in London, though mostly all who have it for sale claim that their article is the real thing. They are not to blame, as no doubt the article has been sold them as such. To take another commodity, corn, today you purchase a can and find it full of splendid beautiful corn, tomorrow you purchase another, and find it full of husks. Something should be done by the Canadian Government to prevent adulteration of some Canadian goods.

Another Canadian and an extensive importer of veneered timber, to whom the Canadian Associated Press mentioned the difficulty of procuring maple syrup, replied: "Perfectly true, I found that difficulty. Why, even in my trade in timber, I cannot let veneered timber sent me from Canada. Canadian timber men have at my request put the timber in water for two days, but when the timber supplied by them has arrived here, it could not stand the test of water for half an hour. Many of my customers are very much dissatisfied, so now I have had to look to another market for veneered timber."

TIN INDUSTRY FOR CANADA.

Much uneasiness has been created in tin plate circles in Llanelly, Wales, owing to the determined efforts that are being made to establish an industry in Canada. Inducements have been offered to several well-known Welsh manufacturers to open works in Toronto. Canada at present is one of the best customers for tin plate. A most notable feature of the Sheffield cutlery trade is that the exports to Canada for January this year were double those of January, 1904.

A DINNER TO LORD MINTO.

The London Chamber of Commerce is giving a dinner to Lord Minto. The tickets have been placed at thirty-one shillings and sixpence.

PROSPERITY IN KOREA

Natives Benefit Greatly by Japan's War With Russia

Washington, February 15. — The State Department is in receipt of a long report on the commerce and industries of Korea and the effect of the war on the trade of Korea by Gordon Paddock, the American Consul General at Seoul.

Mr. Paddock says there being a large number of troops to be fed, and large railway and other undertakings being pushed forward in Korea, much money has been distributed throughout the country, and the Korean laborer often has more ready money than it ever was his lot to enjoy.

On account of the orderly manner in which the campaign in Korea has been conducted, the regular routine has been disturbed very little. Following the advance of the army there has been an enormous immigration of Japanese, mostly laborers and small merchants, and much of the available land in the treaty ports, notably Fusan, Chemulpo and the city of Seoul ha sbeen bought by the Japanese.

Teh consul says American commercial interests in Korea today undoubtedly are greater than those of any one European nation.

A Tonic for the Winter-Wearied

To be among the fruit and flowers of the beautiful Southern resorts for a few weeks is a sure cure for those run down in health or who cannot stand the cold winter weather. Full information and tickets may be obtained on application to any Grand

Allen's Lung Balsam

The best Cough Medicine.

ABSOLUTE SAFETY should be rigorously insisted upon when buying medicine, for upon that depends one's life. ALLEN'S LUNG BALSAM contains NO OPIUM in any form and is safe, sure, and prompt in cases of CROUP, COLDS, deep-seated COUGHS. Try it now, and be convinced.

Medicines Loaded With Alcohol

Think of it! The Danger You Run — Drink Habit is Easily Acquired, But Hard to Cure.

Careful analysis shows that many so-called tonics contain little else but whiskey—the rankest, poorest kind of whiskey.

You may unconsciously be using an alcoholic liquid remedy. Some member of your family may be doing so. Your duty is plain; stop it at once.

The test of a tonic is the permanency of its cure. To become strong, you must build up the blood—alcohol weakens it. You must increase your nerve force—alcohol steadily devours it.

Give up the liquid tonic, before you become its slave. The true medicine for the run-down, depressed and nervous is Ferrozone. It is nothing but concentrated cure in tablet form. It stimulates the appetite, aids digestion, fills the blood with iron, builds up in nature's way. Never known to fail.

Whether weak from worry, overwork, thin blood, or ill-nourished nerves, Ferrozone will quickly make you well. It is safe and harmless, undoubtedly the best tonic and rebuilding medicine made. We must recommend you to use Ferrozone if in poor health.

Ferrozone, known as the great food-tonic, costs 50c. per box, or six for $2.50, at all dealers, or by mail from N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U.S.A.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $4 per year, strictly in advance.

PETERBOROUGH, FEBRUARY 15 1905

MUNICIPAL INSURANCE

Mr. J. A. Ellis, Mayor of Ottawa, writes the Municipal Journal as follows: Since the recent very large increase in rates by the Insurance Companies, this subject has come to the front. Until 1900 the Companies at the old rates were making money. As the result of the large fires in Ottawa, Hull, Montreal and Toronto, in and since that year, it is doubtful if the business of insurance from 1900 to 1905 would have been a paying one if the companies had continued to charge the old rates. In the last two or three years, however, the rates have been nearly doubled. It is clear that the rates now charged are not only intended to fully cover the risks of the companies, but that the companies are endeavoring to create a reserve fund by charging the present high premiums, in order that any future large losses can be met out of this fund. Whilst this is good policy from the companies' standpoint, it is a little hard on the insurers of today, taht they should have to pay large rates in order to provide this fund.

Under these conditions it has been thought by many people that municipal insurance would, if it did nothing else, serve as a check against the companies in the future charging higher rates than are reasonable.

I brought the matter both before the Ontario Union of Municipalities and the Canadian Union of Municipalities, and laid a plan for its adoption before both bodies. The plan was as follows:

1. That a Dominion charter be secured incorporating all Municipalities in Canada who may desire to join as a company, such company to be incorporated and conducted in same way as a Joint Stock Insurance Company.

2. Every municipality becoming a member of such company to be entitled to have all shareholders' rights in the proportion of one vote of every 10,000 of population. All municipalities under 10,000 to have one vote.

3. Each municipality proposing to join the company to do so only when authorized by a vote of the ratepayers.

4. The directors of the company to be five, consisting of one from Ontario, one from Quebec, one from the Maritime Provinces, and one from Manitoba, the North-West Territories and British Columbia, and one from at large, all to be elected annually.

5. The directors to have power to appoint all officials required, including a Board to fix the rates of insurance in each municipality.

6. The company in the first place to enter into competition with existing insurance companies.

7. Each municipality joining the company to pay in in cash an amount equal to 1-100 of 1 per cent. of the assessed value of all the property in such municipality.

8. The company to deposit with municipality (carrying interest at 4 per cent.) equal to one per cent. of the assessable property of each such municipality. These debentures to be cashed in the event of losses being sustained which cannot be met by the ordinary revenue of the company. Whilst uncashed no interest will be payable on them.

9. All insurance in the company to be done through the municipal authorities in each municipality, who shall act to all intents and purposes as local agents of joint stock insurance companies do now. No commission or any consideration whatever to be paid any local municipal authorities by the Corporation.

The principals of the plan was adopted by the Ontario Union of Municipalities, and recommended for adoption to the Canadian Union of Municipalities. The latter body has decided to submit it to the Dominion Superintendent of Insurance for criticism, and to take further action upon it at the next Annual Convention.

It is often said that municipalities cannot conduct undertakings of this nature as successfully as companies. Unfortunately, this is often too true, though I see no reason why it should be. Companies are frequently successful where municipalities are not, because the former employ skilled and expert managers, whilst the latter in many cases fail to do so. The men today at the head of insurance companies are, as a rule, shrewd, experienced business men, and experts in insurance. If such men cannot be secured to conduct municipal insurance, then the project must fail; but I cannot see why a municipal company, managed as proposed in the above plan, cannot secure the services of just such men.

The keynote of the whole plan is that the Municipal Company should be conducted in every way just as a Joint Stock Insurance Company is conducted, and if this were done, I think it is a workable one. At any rate, I have submitted it as my contribution upon a subject which is bound to become a very live one, if the insurance companies do not desist from raising rates as they have been doing during the past few years.

When it is remembered that the total premiums paid in Canada to companies for insurance is over $12,000,000 per year, it will readily be seen how important an increase in rates becomes.

Some people think any plan for municipal insurance should be confined to a small number of municipalities, or, at all events, to one Province. This is not my view. In insurance, the larger the volume of business, and the greater the number of risks carried, the less chance of a company failing to meet its obligations because of large losses in any one locality. A number of Canadian companies have at one time or another had to go into liquidation. This, in nearly every instance, has been because they were doing a comparatively small business, and a large loss in any locality cleared out their reserve funds, and more. On the other hand, the United States and British companies doing a large Canadian business, have nearly all weathered the storms which now and again arise in insurance circles. In my opinion, if municipal insurance is to be successful at all, a large number of the municipalities in Canada must enter into the project, in order that the volume of business done will be very large from the commencement.

There are many other points involved in the plan I have outlined which should, perhaps, be discussed at length, but in this short article I have only space to touch upon the main features of it.

NEURALGIA may not be dangerous, but it hurts. It seems to tear the face with red-hot pincers. Stay indoors and use Perry Davis' Painkiller. The blessed freedom from pain which follows cannot be told.

ATHLETIC WORLD

BY OUR SPORTING EDITOR

Ottawa, Feb. 14.—The usual influx of Stanley Cup hockey challenges is commencing. Trustees Sweetland and Ross have received within the past few days two challenges for the cup, one from the Manitoba Hockey League and one on behalf of the Nova Scotia Hockey League.

The championship of the Manitoba League is not yet decided, and the challenge is issued by the league itself in preparation for a trip east of whatever club happens to win the championship of the western organization.

The challenge from Nova Scotia comes from the Amherst Club, which won the championship last year and still holds it. The trustees, however, after their experience with the Yukon team and with some other teams that have come from a distance to compete for the cup, are not likely to accept this challenge. They feel that it is desirable that any club which wishes to play for the cup should first have proved its calibre beyond all question by its performance in first-class company outside of its own league, and the Amherst Club will probably be written to to that effect.

With regard to the western challenge, however, the Manitoba teams that the East can provide, that there can be no question about their title to play, and the trustees are, therefore, certain to accept the Manitoba challenge.

The latter challenge is as follows:

Winnipeg, February 6, 1905.

Trustees of the Stanley Cup, Ottawa, Ont.:

Dear Sirs.—The Manitoba Amateur Hockey League hereby challenge for the Stanley Cup on behalf of the champions of its league for the present season.

The series to be decided in favor of the team winning two out of three games.

Yours respectfully,
Fred T. Cadham,
Sec.-Treas. M.A.H.L.

• • • •

Markham Tournament.

The Markham tournament will commence to-morrow, with Peterborough and Markham playing an O.H.A. match in the third round of the series. There will also be another match. Special trains will leave Toronto each evening at 8.30.

• • • •

Smith's Falls Confident.

Mr. J. A. Washburn of Smith's Falls saw the Marlboro-Barrie game on Saturday night, and he says that the champions will have to play much faster hockey to even beat the Falls' team in Toronto. Smith's Falls will go to Toronto on Friday night, and will practice at the Mutual street rink on Saturday morning.

Killed His Son

Athol, Mass., Feb. 14.—Journeying 3,500 miles to obtain his 11-year-old son, R. H. Back, a wealthy lawyer of Vancouver, and a former resident of Athol, arrived here yesterday and kidnapped his boy from under the very eyes of the wife and mother, who screamed without avail for help. Mr. Back and the boy are now on the way back to Vancouver, and the husband declares that the wife will never see the boy again. Mr. Back arrived here on the noon train, and within an hour seized the boy from companions on the street, stuffed a handkerchief in his mouth, and, jumping into a sleigh drove rapidly to Winchester, N. H., where he took a train. Mr. Back and his wife had trouble in 1903 and separated.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

1] At least six months' residence upon and cultivation of the land in each year during the term of three years.

2] If the father (or mother, if the father is deceased), or any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same town, township, or an adjoining or cornering township.

A settler who avails himself of the provisions of [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Land Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

INCORPORATED

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and, we believe, exceedingly profitable investment. Every dollar of stock is guaranteed by twenty year, full paid, gold bond, delivered to purchaser of stock, from an Investment Company that has no interest whatever in the company, but who are disposing of the debentured bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the State Treasurer under which they received their charter, there by doubly securing the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvellously rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Summer and Jack Mining Co:. Limited, Elandsfountain, South Africa:—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world.

"With the present development of the Monument Mine, I estimate that 100 tons per day can be extracted which will pay from $15.00 to $20.00 per ton. The total cost of mining the ore, delivering and milling, I place at about $4.00 per ton. With increased milling capacity, it is safe to say that the mine can furnish 100 tons of $15.00 ore, which would yield a clear profit of $11.00 per ton, or $1,100.00 per day (equal to $400,000.00 per annum). Estimated total value of ore in sight, $2,500,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Dr. Brown writes as follows:—

"In regards to the amount of ore available at the mine at Sinclair, I saw on the dumps several thousand tons, probably 5000 tons would be an under-estimate.

"As to the size of the ore body itself, from what I saw of the geological structure, I think that there is every indication that it will be found to extend underground as far as the out-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish full information to investors.

BLOOD DISEASES CURED

Drs. K. & K. Established 25 Years.

NO NAMES USED WITHOUT WRITTEN CONSENT.

Before Treatment.

After Treatment.

He was surprised at how the sores healed—I took your New Method Treatment for a serious blood disease with which I had been afflicted for twelve years. I had consulted a score of physicians, taken all kinds of blood medicine, visited Hot Springs and other mineral water resorts, but only got temporary relief. They would help me for a time, but after discontinuing the medicines the symptoms would break out again—running sores, blotches, rheumatic pains, looseness of the hair, swellings of the glands, palms of the hands scaling, itchiness of the skin, dyspeptic stomach, etc. I had given up in despair when a friend advised me to consult you, as you had cured him of a similar disease 8 years ago. I had no hope, but took his advice. In three weeks' time the sores commenced to heal up and I became encouraged. I continued the New Method Treatment for four months and at the end of that time every symptom had disappeared. I was cured 7 years ago and no signs of any disease since. My boy, three years old, is sound and healthy. I certainly can recommend your treatment with all my heart. You can refer any person to me privately, but you can use this testimonial as you wish." W. H. S.

We treat Nervous Debility, Varicocele, Stricture, Vital Weakness, Blood and Skin diseases, Urinary, Bladder and Kidney complaints of men and women.

Consolidated Gold Mines Limited.

Capital $625,000, of which 35 per cent in shares is now in our Treasury. Shares fully paid and non-assessable.

Mines directly west of the LeRoi and LeRoi No. 2. War Eagle and Centre Star, four of the largest gold copper mines in the world, all of which have paid large dividends.

Some ore bodies now in sight on the BIG FOUR. Large ore bodies.

Assays from $5 to $800 in gold, copper, silver, etc. Very rich display as now on exhibition in the city ore exhibit, causing wide comment.

We have nearly two miles of Railway on Big Four property with water and timber in abundance.

Rossland ore shipments for 1902, 350 000 tons. Shipped for 1903, about 430,000 tons, 1904 about 400 000 tons. Total value of Rossland ores mined, $31,000,000.

Rossland's large ore bodies are a great success with the concentration system of ore reduction. $3.00 ore now pays to mine as now proved by the latest reports and dividends.

No less than 100 shares sold. Shares can be had on instalment plan, payments monthly. Twenty per cent. cash, balance within a year.

Company has no debts or liabilities and a full force of men now working.

References.—The Hon. Mayor, Gold Commissioner, postmaster, or any bank or business man in city.

There is a tide in the affairs of men
Which taken at the flood, leads on to fortune;
Omitted, all the voyage of their life
Is bound in shallows and in miseries.

EXPECT JAPS TO DEAL FINAL BLOW

Englishmen Think That Reverses are in Store for Russia

THE OPENING OF THE HOUSE

Owing to Improving Trade Conditions the Government May not Have a Deficit

London, February 14.—"If we are to have a Waterloo we must first have a Trafalgar." So said a Japanese authority at the outbreak of the Russo-Japanese struggle and Japan having found in Admiral Togo a veritable Nelson, all English observers now await the advent of her Wellington.

The idea that Japan will now abandon the initiative on land and remain on the defensive, holding that with Port Arthur lost, Manchuria is useless to Russia is to be only mentioned to be abandoned. Japan has other things to do in the world than engage in chronic warfare at the will of her enemies. Everything points to a supreme Japanese effort. While the morale of the Russian leaders and men is under the baneful influence of the Russian home trouble, perhaps such an overwhelming political and military blow as the capture of Mukden, by Marshal Oyama, perhaps the destruction of the Russian footing upon the Pacific by the reduction of Vladivostok, or perahps even both.

The Japanese Minister at the British Court, Viscount Hayashi, frankly discusses, in the Manchester Courier, today, what Japan means to do with her victory. He places first the open door in Manchuria. "We shall claim no privileges in Manchuria that may not be obtainable by all on equitable terms. If there be any peril to the nations of the Occident in our achieving success in Manchuria, it will consist merely in the fact of our greater field of enterprise. It may enable our manufacturers, in some respects, to compete on exceptionally favorable terms, but we surely are not to be blamed if we happen to be geographically well placed for trading in our immediate neighborhood.

WHAT RUSSIA PLANNED.

"That Russia planned to impose a tariff permanently at Niu Chwang and Dalny, every one knows. The American Consul appointed to Mukden in 1903 never had a chance to assume a residence under Japan's inspiration. China is expected to open larger centres of commerce to foreign consuls and also to facilitate the exploitation of her inexhaustible mineral or other wealth."

The Englishmen begin to see the stupendous world-wide importance of Japan's victory. Even in the moral sphere, the Times today finds much food for reflection in the possibilities of Japan's influence upon western civilization and religion. Its special correspondents in the Far East insist again and again upon the splendid morals of the Japanese fighting men and the Japanese people at large: "In that, says the Times, "far more than in her ships and rifles lies the real strength of Japan. The greatest lesson for England from the war is the moral lesson." Then follows a sentence which will be read with some dismay in many English personages this morning: "It matters not by what creed or training this splendid result has been achieved. It is part of our intense provincialism to look at the difference between creeds and trainings, and concluded that those in which we believe must produce the best results, but the dynamics of national struggles know nothing of methods. It is the result that counts."

OPENING OF PARLIAMENT.

Today will begin the strangest parliamentary session of recent years. The Ministry, which started this parliament with a majority of 134 now has a nominal majority of only 87. That 87 may vanish in a moment at the will of a man who is not minister. If Mr. Chamberlain says "dissolution," dissolution is certain. Seeing that Mr. Chamberlain himself publicly declared that dissolution cannot come too soon, it is not surprising that the chief Liberal whip, yesterday, warned the Liberals to expect a general election within six weeks.

The Government's menu for the session is singularly unexciting, an anti-Aliens bill, a Scottish Education bill, another workmen's compensation bill, and a bill to facilitate an appeal in criminal cases, which is the outcome of the Beck scandal. The session hangs, however, not on bills, but on the budget. So encouraging are the signs of the revival of British trade—largely consequent upon the Colonial trade expansion, the woollen goods orders for the Japanese army, and the engineering activities for armaments and industry that the long-dreaded deficit on the estimates for 1905-6 may prove to have no existence.

RUSSIA'S PAPER NAVY

How the War Would Have Gone had Your Good Ships

New York, February 14.—The announcement that a third division of the Baltic fleet, consisting of four battleships and three cruisers, will sail for the Far East on February 14, must again bring home to the Japanese the great paper superiority of their enemy. The five armored ships now about to sail, with the dates of their construction, are the Admiral Oushakoff, 1893; the Admiral Seniavin, 1894; the General Admiral Apraxine, 1896; the Nicolai, 1888; and the Vladimir Monomach, 1882. Even the departure of these vessels will not exhaust the list of Russia's ironclads, for that country had fully forty-six armored vessels at the outbreak of the war, exclusive of the Black Sea fleet. It is perfectly obvious that if these ships had been in good repair and capable of being promptly commissioned, the Japanese naval outlook would have been very dark from the outset. Since the war began, just a year ago, eight armored vessels have been sunk and one is interned at Kiaochau.

Makes new blood
Builds up the system
Throws off all weakness

A boon to those recovering from wasting fevers and long illness.

Sold by all medicine dealers.

Davis & Lawrence Co., Ltd., Montreal.

AN OPEN LETTER FROM MR. W. J. GAGE.

Toronto, Can., Dec. 1, 1904.

DEAR FRIEND,

We again come to you with our story of trouble, but a story of surprising and encouraging results.

No apology is necessary; the great work of the National Sanitarium Association, carried on at the Muskoka Cottage Sanatorium and Free Hospital for Consumptives, is now well known.

The 1,500 patients cared for in these two Homes plead for your help.

The large number of lives saved, of those who a few years ago were supposed to be "under sentence of death," gives a right to your sympathy.

In helping to rescue a number great enough to constitute a large prosperous village, the giving back to home and friends a regiment of workers, surely will arouse interest in this work of mercy.

Each patient cared for in our Consumptive Homes, removes a source of danger, so that the life of every citizen in Canada is more secure.

The marvellous decrease of 40 per cent. in three years in the death-rate in Ontario from consumption proves that the fight against this dread disease is no losing one.

The **Muskoka Free Hospital for Consumptives**, for which this appeal is made, without any endowment keeps an open door to all who are poor and sick, as long as a vacant bed remains.

Nearly 400 patients have been cared for in this Hospital since it was opened less than three years ago. This has only been possible because of the continuous stream of gifts that have come to us from every part of Canada.

Remember, too, these were patients that other hospitals as a rule refuse.

Almost every trade and profession has sent its representative, and of every age—from the young schoolboy of 12 to the Trustees of the Free Hospital for Consumptives through contributions and bequests.

$50,000 should be given this year if the Board is to provide for the increased accommodation and maintenance of those pleading for admission.

Where will your money do so much good in bringing health to the sick and protecting the lives of those in your home?

Why should consumption not be stamped out if the needful money and help be forthcoming?

The official Report of the Secretary of the Provincial Board of Health tells a **surprising story**—a story of a winning fight, showing that from 1897 up to 1900 there was a **steady increase** in the death-rate from Tuberculosis.

From 1900 there has been a **large decrease each year,** reducing the death-rate from 3,484 to 2,072 in three years, or **over 40 per cent.** This is all the more remarkable in view of the increase in population.

You have the joy of knowing that your dollar has helped in this merciful work.

The pitiful part of it all is in knowing how many more lives could have been saved if the needful money had been forthcoming to provide additional beds.

Will you not join in this great life-saving work?

Your dollar will bring gladness.

Fifty dollars will keep a sick one for two months; may save a life. Three hundred dollars will endow a bed for a year.

Yours sincerely

W. J. Gage

A SPLENDID PROPOSITION

Rare Chance to Secure a Paying Investment

THE GOLD COIN MINING COMPANY

has placed a small block of their stock at the disposa of Canadian investors. This stock is sure to rapidly advance in price. The Company is now arranging to instal the power plant and a mill and cyanide plant for the reduction of their ore to a bullion on the property. They have arranged with a Trust Company having assets of $1,500,000 to put up a bond guaranteeing investors the repayment of the full amount invested. This makes investors absolutely safe. By no possibility can they lose a dollar

THE GOLD COIN MINING COMPANY was organized November 21, 1902, under the laws of the State of Idaho. The capitalization is one million shares of the par value of one dollar each, fully paid and non assessable; of the 1,000,000 shares, 400,000 have been set aside as treasury stock

THE BOISE BASIN came into prominence shortly after Grimes and his party of prospectors entered the Basin country in 1862; their entrance was into the northern portion and one discovery of rich placer ground followed another until the news of the rich finds reached the outside world, when a veritable stampede for Boise Basin commenced, towns sprang up and grew together in an incredibly short time; the rush of people to Idaho City made it a place of 20,000 people in 1867, having a business street over a mile long lined with two-story buildings streets and sidewalks filled with people day and night business and money on every hand and the city bearing the proud distinction of being the capital of the territory of Idaho. Wages ran from $6 to $10 a day and not infrequently forty and fifty men worked on a single placer claim; the clean-up for a day's work in many instances ran close to $5,000; large fortunes were made in a few days by washing the golden sands in a pan, so eager was the quest for the shining metal that the streets of Idaho City were dug up and washed and re-washed, and the soil removed from under the houses and places of business So extensive was the search for the hidden treasure that not only all of the low ground was worked but the foot of the mountains surrounding the city have been washed away, filling up the lower portions of the basin and extending into the town, where one of the buildings has been buried under the tailings from the numerous placer workings

LOCATION—The property of the Gold Coin Mining Company is situated in the Gambrinus Mining District, Boise County, Idaho, on the range of mountains between Moore Creek and Elk Creek, which forms a part of the eastern boundary of the famous Boise Basin and into which these mountains are drained The property is located ten miles northeast of Idaho City, from which place there are good wagon roads either to the workings on top of the mountain or to the place of the proposed tunnels in the gulch which crosses the Tunnelsite claim.

THE CLAIMS—The Company owns a group of four contiguous lode mining claims and the Gold Coin Millsite: the names of the lode claims are the Tunnelsite, Blue Bell, Pennsylvania and Homestake, each being a full claim 600 feet wide by 1,500 feet long, excepting the Tunnelsite claim, which is 450 feet wide at the west end and 1,055 feet long, it was necessary to stake the claim in this form on account of joining the Washington property on the south and the Sub Rosa property on the west, these properties being prior locations to the Tunnelsite claim. The four lode claims aggregate nearly 80 acres of rich mineral land.

Further particulars may be had on application to WM. SAILSBURY, Fiscal Agent of the Company Peterborough, Ont., or to

S. E. PHELPS, Secretary,
311 SCHOFIELD BUILDING, CLEVELAND, OHIO.

Catarrh Cannot be Cured by Dosing

IT IS A LOCAL DISEASE AND IF CURED MUST BE LOCALLY TREATED.

Seven people out of ten suffer from catarrh. There is no lack of medicines, and if dosing would cure, very few cases of catarrh would be found.

You probably have it yourself. How much benefit have you obtained so far from medicine-taking? A little relief is all that you have derived. You have spent lots of money—and yet the catarrh is growing worse all the time.

Has it ever occurred to you how desirable and how successful a treatment would be that you could breathe to where the disease exists? Perhaps you have thought about this form of cure but you have been unable to find a remedy that could be pleasantly and safely used.

Try Catarrhozone, it can be broken up by the air and carried in small drops to every part of the breathing organism. It touches the catarrh with healing, that is why it cures.

This healing, balsamic, vegetable substance is so volatile that the air greedily takes up from the inhaler, so antiseptic that it instantly destroys the microbes which produce disease of the breathing organs, and so soothing that it relieves congestion subdues inflammation, and stops mucous discharge.

Plainly Catarrhozone is an ideal remedy for diseases of the throat, lungs and nasal passages. If you have catarrh, bronchitis or asthma all are equally curable by Catarrhozone. You have been told why this is so. These diseases are all modifications of an inflammatory condition of the lining membranes of the throat and nasal passages.

Now, bear in mind, you breathe Catarrhozone. Do you not think this is a rational treatment—a certain way of reaching the diseased surfaces which lie so far in the cavity of the body or in the head that they can be reached in no other way.

You cannot possibly fail to obtain quick cure from any of these maladies if you use Catarrhozone.

All dealers in medicine sell Catarrhozone. Trial, 25c., complete outfit, $1.00, which will last two months and is guaranteed to cure permanently. Sent postpaid to any address by N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U.S.A.

Mr. Rush Not Hurt in Rescue

We are pleased to see that Mr. Harry Rush, shows no sign of damage received during his gallant rescue of the lady, whose horse ran away with her on Monday. Times' readers will remember that Mr. Rush, at great personal risk to himself, seeing the horse tearing madly down George street, rushed from the sidewalk and grappled with the flying steed, being rolled over in the snow-clad street.

A Double Runaway

Yesterday morning on the arrival of the C.P.R. express from the west, the horse attached to Mr. Richard Foster's delivery rig, which was standing at the station, made a bolt for liberty and home, followed by Mr. Wm. Lewis' Dominion Express rig. The two horses proceeded up George street at a 2.40 clip, until they came to the market, where they were captured. No damage was done.

Erin's Green Isle Honored

A pleasing evening was spent by friends of the Epworth League, when the songs and recitations were of a marked Hibernian flavor, and took them in spirit to Erin's Green Isle. Mr. A. O. Kidd presided, and the main features of the evening's entertainment were songs by Mr. Mark Wilson, a duet by Misses Wilson and Gerrard, the old time favorite "Kathleen Aroon," by the Misses Chasty, and recitations by Mrs. (Dr.) Morgan. The entertainment was closed by refreshments being served.

Ald. Batten's Brother Dead

Ald. Joseph Batten received a telegram yesterday afternoon conveying the sad intelligence that his brother George, aged about 45 years, had died at his home in Rochester. No particulars were given. His death must have been sudden, as he was in perfect health a short time ago. The late George Batten was a native of Peterborough, having left for Rochester about 15 years ago. He leaves a wife and babe, the latter only a few weeks old. Ald. Batten leaves for Rochester this morning.

Blizzard Makes Blizzard Distant

Yesterday morning two gentlemen were in town, who proved the truth of the saying "The longest way round is the shortest way home. These gentlemen are farmers who call Blizzard Station on the G.T.R. home. A sale of stock and farm implements had been advertised at Indian River, which is four miles from where they reside. The two gentlemen wanted to attend this sale, and fearing to face the certain difficulties arising from the snow congested roads, decided to go to the sale by rail, in preference to using up their horses, so came here by train and proceeded to Indian River by C.P.R. This detour involved their travelling 52 miles to save a return drive of eight.

HOW'S THIS?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Props., Toledo, O.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by their firm.

West and Truax, Wholesale Druggists, Toledo, O.

Walding, Kinnan & Marvin, Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Price 75c. per bottle. Sold by all Druggists. Testimonials free.

Hall's Family Pills are the best.

Has Time Dead Festina Too Often

The Chief of Police has been in receipt for a few days of a communication from the Cobourg authorities, warning him to be on the watch for one William Flood, whom they had had in their toils no less than twenty-nine times. This bird of passage must have an unreliable company, as contrary to the custom of his kind, he unwisely dified the elements and steered his bark to the north instead of south during the blizzard season. Yesterday this indiscretion brought him into cognizance of the local police force, resulting in Magistrate Rush sending him up on the hill for three months. We may not be on the front, but vagrants might as well recognise right now, that twenty-nine appearances of a confirmed bobo in Peterborough means just twenty-nine successive times or detentions from the giddy whirl of society.

Easier Problems Desirable

A teacher in one of the Peterborough schools received the following from a complaining parent a few days ago; "Sir, Will you please for the future give my boy some easier somes to do at nites. This is what he brought home to or three nites ago; if fore gallins of bere will fill thirty-to pint bottles, how many pint and half bottles will nine gallins fill? Walt, we tried and could make nothing of it out, and my boy cried and sed he wouldn't go back without doing it. So I had to go an' buy a nine-gallin keg of bere, which I could ill afford to do, and then we went and borrowed a lot of wine and brandy bottles, besides a few we had by us. Well, we emptied the keg into the bottles and ther were nineteen, and my boy put that down for an answer. I don't know whether it is rite or not, as we split some in doing it. P.S.—Please let the next one be water, as I am not able to buy any more bere."

NOW IN POSSESSION

Bank of Nova Scotia Will Open in a Few Days

The Bank of Nova Scotia are now in possession of the premises at the corner of George and Water streets, and will start making alterations to the building to-day. The Peterborough Canoe Company have the contract of fitting up the offices.

The manager's office will be at the rear of the building, next the market, while the fittings and counters will run from the front to the manager's office. There will only be one public entrance to the bank.

It is not yet definitely decided who the manager will be, although we understand Mr. Hemmitt will probably be appointed.

LITTLE LOCAL LINES

Dashes Here and There by Times Reporters on Their Round

—The Raffia class met at the Y.M.C.A. last night at 7 o'clock.

—Did you get a valentine? If so, say, candidly did you smile or frown.

—For an experienced nurse, having good references, apply at 340 1-2 Water street.

—Twenty-five sheets of best ruled paper at Times Bookstore for five cents. Money saved by buying all office stationery here.

—Miss S. J. Moore, of Peterborough, has sent $5 to the Globe fund for the poor of London. The fund now amounts to the sum of nearly $5,000.

—The Foreign Work Committee and all members interested in the young men are reminded of the meeting at the Y.M.C.A. on February 16th at 8 o'clock.

—The new Y.W.C.A. building will be opened about April 1st. The date has not been definitely decided upon but it will be about the time mentioned.

—All trains were delayed by snow drifts yesterday. The G.T. Railway 11.45 train, not reaching town until 2.45. The C.P.R. Toronto express was only 45 minutes late.

—Mr. John Crane, manager of the local branch of the Ontario Bank, will deliver an address to All Saint's Men's Guild next Monday evening. His subject will be "Counterfeit Money."

—The Cobourg Police Magistrate has made ruffianism at hockey matches an expensive luxury. Colo. the Campbellford goal umpire, was fined $12 by him, for his assault on P. McGrath, of the T.A.S. hockey team, in Cobourg.

—Without desiring to throw cold water on any charities, foreign or local citizens who subscribe to outside charities, no matter how deserving, might begin at home, and keep in mind such cases of destitution as the family who were burned out on Sunday night; they are in need of assistance.

—A very successful social was held last night in the Charlotte street church, under the auspices of the Epworth League. A short program consisting of a solo by Mr. R. Freund, recitations by Miss Sadie Free, Miss Mabel Christie, violin solo by Mr. G. W. Jones, piano solo, by Miss M. Huffman, recitation by Mr. Jones. Mr. S. R. Armstrong, president, was in the chair.

NEW ATHLETIC ARENA

What the Turf Club Proposes To Do in the Interest of Sport This Summer

As readers of The Times will remember, our local sportsmen, some days ago considered the advisability of trying to get a regular circuit established, and entered into correspondence with various towns in this part of Ontario. The replies are now, for the most part, in the hands of Mr. A. Rountree, Secretary of the Peterborough Turf Club. Present indications denote that the coming season's race circuit, will include Lindsay, Port Hope, Belleville and other nearby towns, starting at Lindsay, and concluding at Toronto Fair. Mr. Brooks, of the Palace Restaurant, has been in correspondence with the leading horsemen of the Dominion, and considers that the coming circuit will be a grand success from start to finish.

The Turf Club have completed the improvements to their grounds and will now be glad to hear from the different athletic organizations who may want to engage or make dates for the use of the driving park grounds during the coming summer.

At a meeting held yesterday afternoon, in the Ontario Bank parlors, the Turf Club auditors, reported that that season was a very unsatisfactory one financially, but prospects are much brighter for the coming season. The club has completed arrangements for races at the Driving Park on May 24th and all other holidays. Mr. Robert Munroe, President of the club expressed his complete satisfaction with the condition of affairs and trusts that the sporting public will respond to the calls that will be made on them for patronage.

SOCIAL AND PERSONAL

—Mrs. J. R. Stratton is in Toronto and will not receive this week.

—Mr. Charles Armstrong and little son, of Havelock, were in town yesterday on business.

—Ald. and Mrs. R. H. Leary and daughter, returned yesterday from a visit to Owen Sound.

—Miss Lily Mowry is home from Toronto, where she has been visiting for the past few weeks.

—Miss Mary Trotter, Port Hope, who was the guest of Miss Wier, town for the past few days, returns home to-day.

—Dr. McGrath, who has been seriously ill in St. Joseph's Hospital, is on the mend, and resting a little better.

—A. J. Eaton, C. Davis, W. G. Fischer, Toronto; Ernest Grobb, St. Catherines; A. R. Chapman, Boston, are guests at the Snowden House.

—Mr. Bernard Dench, a well to do yeoman from Lakefield, who has been visiting with Mrs. Hayward of Peterborough, returned home yesterday.

—Miss Agnes Quinlan was married by Rev. Father Gavlin, in the Cathedral, yesterday to Mr. Edward Barrett of Ennismore. The happy couple have gone to their home in Geneva, N.Y.

—Robert Gordon, Chicago; Julius Engel, Toronto; D. Donohue and wife, Hamilton; G. W. McQuillan, Toronto, Jas. B. Muir, Montreal; F. H. Dumont, New York, are at the Oriental Hotel.

—Mr. Fred. Russell, formerly G.T. to town on a business trip from Lindsay.

—Mr. D. W. Dumble's condition does not show much change, he was somewhat stronger last night. He was able to be moved yesterday, for a short time, from bed to a sofa.

—Miss Hattie Campbell arrived from Truro, N.S., yesterday morning, on a visit to her mother, Mrs. James Campbell, Water street. She will return in about ten days, after visiting the wholesale millinery establishments in Toronto.

—Miss Eardley-Wilmot, who has been visiting in Ottawa, returns to Peterborough this week, accompanied by Miss Phoebe Read, of that city.

Globe, Mrs. J. Everett Giles, formerly Miss Ethel Brodigan, is visiting Toronto friends for the first time since her marriage, and will receive with her mother to-morrow (Wednesday) at 310 Carlton street.

Short Changes Hands

The C.P.R. Hotel, on Simcoe street, has been sold by Mr. T. J. Allen, former landlord, to Messrs. John and George Rickerby, the latter of Peterborough, and the former was until this purchase, proprietor of the Grand Central Hotel, Sault Ste. Marie. The Rickerby brothers positively assert that they intend to observe all liquor laws to the letter; the thirtiest soul in Peterborough need not apply for liquor after legitimate hours. It is the intention of the new proprietors to have twelve large electric lights placed in front of the hotel, and prevent loafing or obscene language about the premises. The former proprietor of the C.P.R. Hotel has always had a large and remunerative share of public patronage.

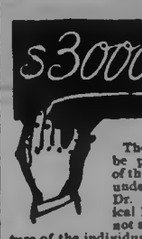
TENDERS WANTED

SEALED TENDERS will be received by the undersigned up to Four o'clock, p.m., on Friday, March 3rd, for the erection of a Collegiate Institute Building in the Town of Peterborough. Plans and specifications may be seen at the office of the Architect, Mr. J. E. Belcher.

The lowest or any tender not necessarily accepted.

$3000 Forfeit



The above will cheerfully be paid in lawful money of the United States, by the undersigned, proprietors of Dr. Pierce's Golden Medical Discovery, if they cannot show the original signature of the individual volunteering the testimonial below, and also of every testimonial among the thousands which they are constantly publishing attesting the superior curative properties of their several medicines, and thus proving the genuineness and reliability of all the multitude of testimonials volunteered by grateful people, in their behalf.

WORLD'S DISPENSARY MEDICAL ASSOCIATION, Proprietors, Buffalo, N. Y.

THE REASON.—There is no medicine equal to Dr. Pierce's Golden Medical Discovery, for purifying the blood. It carries off the poisons which contaminate the life fluid. It increases the activity of the blood-making glands and gives the body an increased supply of pure, body-building blood. It builds up the body with sound, healthy flesh instead of flabby fat, promotes the appetite, feeds the nerves, and so gives to weak, nervous people vitality and vigor.

"About a year ago I had a very bad cough and feared it would run into consumption," writes Hon. Geo. W. Lynch, of 27 Mason Street, Worcester, Mass. "When a severe attack of coughing would come on vomiting would set in. Matter accumulated in nose and my tonsils were irritated. After reading of the wonderful cures resulting from Dr. Pierce's Golden Medical Discovery began to use it, with some doubts as to the good it would do me, I am frank to say. But, after I had used one bottle I noticed quite a change for the better. Ordered five more bottles and before I had used them all the cure was complete. There is not now a trace of cough or cold in my system and my health is perfect."

To gain knowledge of your own body—in sickness and health—send for the People's Common Sense Medical Adviser. A book of 1008 pages. Send 31 one-cent stamps for paper-covered, or 50 stamps for cloth-bound copy. Address Dr. R. V. Pierce, 663 Main Street, Buffalo, N. Y.

HAD NO COAL AT GIBRALTAR

An Alarming Story In An Indian Paper

TOLD BY BRITISH OFFICER

War Vessels in the Mediterranean and British on the Verge of War

London, February 16.—It is hard to believe that when everyone thought that this country was on the brink of war with Russia after the North Sea outrage the British fleet was practically helpless at Gibraltar owing to want of coal, says the Daily Chronicle.

Yet this is the sensational statement made in the "Indian Daily News" by Captain Berryman, of the steamer London Bridge, on his arrival at Calcutta.

The London Bridge left England with a cargo of coal for Port Said just before the North Sea occurrence. Captain Berryman arrived off the Straits of Gibraltar about four o'clock in the morning.

"We were going through quietly," he told a representative of the "Indian Daily News," "when out of the harbor came torpedo boats and launches.

"'Who are you?' asked the leading boat, and when I replied I was told I must come into Gibraltar.

"I was greatly astonished at this, and thought they were stopping all traffic through the Straits. But when I reached the harbor I found they wanted more coal. They told me to start unloading at once, and the London Bridge went from ship to ship until she was empty. We were two days over the job.

"There were fourteen war vessels in the bay, and they had been gathered hurriedly from all parts of the Mediterranean. So they were fairly well empty by the time they reached Gibraltar.

"What stock of coal was there at Gibraltar? Well, I do not know for certain. Ashore there was, I believe, only 1,000 tons of patent fuel in bulks. But I had no opportunity to see how much there was on shore.

"The stock must have been low, however, for I was not the only boat that was stopped. Ten others at least there were within the two days only—all English, of course."

Asked for further details, Captain Berryman continued:

"I don't know if the Government had arranged with the Port Said people to buy the coal before they took it. Probably this may have been arranged, for the business could be settled quickly by cablegram. But it was the British Government, you see, that commandeered it, and the London Bridge is a British ship, so that did not trouble me at all."

The London Bridge reached Gibraltar at the time when Admiral Rojestvensky was at Vigo with his squadron.

CEREAL COMPANY SOUND

American Cereal Company's Annual Statement Shows Up Satisfactorily

An extract from a late copy of the "Daily Trade Bulletin" shows that, notwithstanding the fact that their local establishment in Peterborough is only running about three days a week, the general financial aspect of the company's affairs is thoroughly satisfactory. A gentleman connected with the company, and conversant with matters appertaining to the general policy of this colossal industry, yesterday informed The Times, that, although oats are selling at ten cents more in Canada than in the United States, this excess in price of their raw material, has not made, nor does it make any difference whatever as to the closing down or running of the local plant; it is the difficulty in the railway freights.

The large bulk of the output of the Peterborough plant is exported. It would simply be a question of bonding the meal and using American oats, and there is no question that this would be done, provided that the railways would adjust freight rates so as to place Canadian millers on an equality of footing with their American competitors. The extract above mentioned as taken from the Daily Trade, reads, "The American Cereal Company's balance sheet indicates that the company had a year of large earnings. The increase shown in the profit and loss account amounts to $282,720 as compared with an increase in the same account of $67,325, the previous year, and a gain of $88,828 in 1902. Twelve per cent. dividends were paid each year. This increase in the surplus would indicate therefore the earnings on stock amounting to 20.5 per cent. last year, 14 per cent. in 1903, and 14.7 per cent. in 1902."

Whilst the Cereal Company's plant is now running on short time, there is reason to hope that an adjustment will before long be reached, whereby they will be running again overtime. The company buy their oats so largely in the United States, not in consideration of price of the oats, but to grind in bond and export the produce on a through rate, the local shipping rates, debarring use of home products, which the company would prefer to use.

SEPARATE SCHOOLS IN WEST

Rev. Mr. Langfeldt Writes to Conservative Leader on the Subject

The Rev. E. A. Langfeldt, who has always taken a deep interest in the question of disallowing Separate schools, has tried to get the true status of the Conservative party on the subject, with special reference to the proposed Separate schools for the new provinces in the North-West. He and Rev. Dr. Torrance were appointed as a committee, by the Peterborough Ministerial Association, to obtain information regarding the matter of Separate schools in the North-west. Rev. Mr. Langfeldt, who has also written on the subject to our local member, Mr. R. R. Hall, has received a non-commital reply from Mr. Borden, which says in part;

"Your letter of the 13th inst. is before me. During the past three years the Conservative party has advocated the granting of a provincial status to the North-West Territories. Neither the party nor myself has made any pronouncement in favor of establishing Separate Schools in the new provinces. The intentions of the Government will not be known until the measure is brought down. The Prime Minister has given an assurance that it will be introduced on Tuesday next, the 21st inst. I shall be very glad to send you a copy of the bill as soon as it is available."

57TH REGIMENT NEWS

Officers Listen to Committees' Reports at Annual Meeting

A meeting of the officers of the 57th Regiment has been held in their mess room to hear the annual reports from the several committees. Nothing out of the way was presented, with the exception of the financial balance sheet for the year. This will appear in our columns in a few days, when ready for distribution. The distribution of the efficiency pay, which will be drawn for the first time during the coming season, will be regulated by a committee comprising the paymaster and the several company captains, who will draft the regulations.

The following committees were elected for 1905—

Regimental, Major Dennistoun, chairman; Major Stevenson, Major Hayes.

Mess, Major Halliday, chairman; Major Hayes and Captain Eastwood;

Rifle, Major Stevenson, chairman; the captains of companies and one man from each company.

Band, Captain Walker, chairman; Captain Clegg and Captain Cluxton.

Nominating, Lt.-Col. J. W. Miller, chairman; Chaplain Rev. J. C. Davidson, Captain Bennett, Captain Clegg and Captain MacWilliams.

Auditors, Captain MacWilliams and Lieut. Watt.

Trip, Captain Mills, Lieut. McLean and Lieut. Clarke.

SULTAN IS AFRAID

He Doesn't Want His Subjects to get Revolutionary Ideas

Constantinople, February 16.—Sultan Abdul Hamid has ordered publications to stop printing continued stories or articles of any kind. He thinks the works of Tolstoi and Gorky have installed revolutionary ideas into the minds of his subjects.

TEN STOREY BUILDING

Montreal Firm Will Erect It on St. Lambert Hill

Montreal, February 16.—The Credit Foncier Franco-Canadian has purchased the property on the corner of St. James and St. Lambert Hill, and will build a ten-storey office building, at a cost of $400,000.

INDICATIONS ARE FOR MILDER WEATHER.

Milder weather is in sight to-day, the watchers at the Observatory say. Here in Peterborough, the temperature is a little below zero, and the wind, while still high, is not quite as biting as it was yesterday. It is very cold both in Ontario and Quebec, although in the far west there is a rise in temperature which may extend eastward unless some sudden change takes place.

The thermometer was generally below zero yesterday. In other places the records were; Winnipeg, 16 below; Port Arthur and Sault Ste. Marie 20 below; Parry Sound, 12 below; Port Stanley, 6 below; Kingston, 8 below; Ottawa and Quebec, zero; Montreal, 2 below; Rockcliffe, 16 below; Chatham, N.B., 10 below. Strong northerly winds prevail over Ontario.

In the Eastern States there is also a little milder weather, but in the West, unlike the Canadian Northwest, it is a little colder than yesterday. St. Paul registers 18 below; Davenport, Iowa, 14 below; Chicago, 8 below; Detroit and Toledo, 6 below; Cleveland, zero; Buffalo, 4 above; New York, 14 above; St. Louis, 2 below.

The probabilities for Peterborough for to-day indicate at present fair, cold weather with a higher temperature.

Turning Oyama's Left With 9,000 Cavalry

Extensive Turning Movement Being Made by Russian Cavalry.

Two Steamers for Vladivostock Overhauled by the Japs.

Third Pacific Squadron Makes Its Departure for the Far East

Tokio, Feb. 16.—The Russians have begun an extensive cavalry movement against Field Marshal Oyama's extreme left. Last night they were attempting to cross the Hun River west of Liaoyang with 9,000 horsemen.

The operation began west of Chitaitzu. One force of cavalry stole into Laohunshi and simultaneously another cavalry force approached Tacha, which is situated 13 miles south-west of Chitaitsu and 27 miles west of Liaoyang. Nine thousand cavalry with artillery approached the river a mile below Tacha and attempted to cross at six o'clock in the evening, advancing on Heikoutai.

The shelling of Oyama's center continues.

St. Petersburg, Feb. 16.—In view of the continued attacks on and criticism of General Kouropatkin, which are prejudicial to the Russian arms, the Novoe Vremya, in an extended defence of the tactics of the Commander-in-Chief, proposes that a commission composed of retired officers be appointed to pass judgment on the general.

Tokio, Feb. 16.—The British steamers Apollo and Scotsman bound for Vladivostock were captured off Hokkaido yesterday. The Apollo was from Cardiff with coal, and the Scotsman had a cargo of provisions on board, which, according to her papers were consigned to Yokosuka fifteen miles from Yokohama.

St. Petersburg, Feb. 16.—The departure of Grand Duke Alexis and Vice-Admiral Avellan for Libau last evening, to bid farewell to the third squadron on its departure for the far east does not indicate that there is any intention of postponing the sailing of the squadron, as has been rumored at Kiel. The Admiralty mentioned no change in the program yesterday afternoon.

CHRISTMAS DAY IN CHINA

INTERESTING LETTER FROM MISS DICKSON, OF FENELON FALLS

Presbyterian Missionary at the Port of Macao, South China

Below we publish an extract from a letter recently received by a Lindsay lady from Miss Agnes Dickson, daughter of Mr. Jas. Dickson, of Fenelon Falls, formerly Secretary of the Y.W.C.A., of Peterborough, who left for China in October last as an accredited missionary of the Presbyterian church;

Macao is one of the prettiest spots I have ever seen. It is practically an island, and the fresh sea breezes render it particularly healthful. The houses are built mainly of plastered brick, painted in all colors of the rainbow, and all having green shutters, owing to the intense heat in the summer months. They are freshened frequently with a new coat of kalsomine. The Portuguese seem to spend much thought and every upon the beautifying of the streets, parks and gardens, the latter of which are very beautiful, especially Camoens, which contains the grotto and bust of the exiled poet. He wrote an ode to Macao beginning, "Gem of the Orient earth, and open sea, Macao."

Our mission home is situated above the native city, facing the Portuguese parade ground, and a low hill surmounted by the oldest lighthouse in China. This hill shuts out our view of the sea, but the wide walk round it along the shore, known as the Cliff Walk, is very beautiful. There are so many pretty places to walk—I think I enjoy most of all Praya Grande, the semi-circular street at the entrance of the harbor. It is a broad, level walk, bordering on the breakwater, and

SHADED BY DROOPING BANYANS.

On a moonlight night the view out beyond the junks, with their twinkling lights, over the silvery sea, and the mountainous islands wrapped in purple haze, is beautiful beyond description.

There are several English families connected with the customs and the steamers, so it is very pleasant for us. Our Christmas was a very happy one, in spite of our being so far from home. On Saturday morning we went to the Mission School, which the girls had decorated most artistically for the occasion with greens, flowers, Chinese texts, etc., their bright shades — every variety of color combination, and gay hair dressing. The program consisted of Christmas hymns — the old familiar ones — some in Chinese and some in English. There were also some Chinese kindergarten ones, and some recitations. Their method of reciting is most peculiar, being like a low musical chant. Their teacher explained the meaning of the day in Chinese, assisted by Mr. McKay in the devotional exercises and after

REPEATING THE LORD'S PRAYER,

(we knew sufficient Chinese to join in this), the presents and refreshments were distributed. The former consisted of gay colored handkerchiefs, and the latter of candy, cookies, Chinese sponge cakes, oranges and peanuts, quite as appetizing as the same would be at home.

In the afternoon we went to the Union Sunday School, where the program was much the same. The boys were presented with tin horns or whistles and pencils, and the girls with handkerchiefs and cakes of perfumed soap. One interesting costume was worn by a little girl about nine years old. She wore yellow satin trousers with purple trimmings, and a yellow satin jacket, with purple trimmings, and a yellow satin jacket, with purple trimmings, and a yellow satin jacket,

Said "Good-Bye" to His Family

Dying of Weakness—Given Up by Doctors as an Incurable and Hopeless Wreck

FERROZONE

SAVED HIS LIFE

After reading the following letter from Mr. H. A. Thurston, of 228 Vermont street east, Indianapolis, Ind., no one will ever doubt the merit of Ferrozone:

"A year ago I took the grippe.

"I was as weak as a child.

"I was no longer able to eat.

"My blood was thin. My cheeks were white and hollow.

"Doctor gave me all kinds of medicine, but none of them brought me strength.

"My friends said I was wasting away with some slow disease, and I bid them good-bye.

"Then I heard of the wonderful Ferrozone.

"After three days it gave me an appetite. I gained strength and became cheerful. Under Ferrozone I improved steadily. I am well today. I weigh fifteen pounds heavier than ever before, and feel like a new man."

(Signed) "H. A Thurston."

The secret of growing strong is solved by Ferrozone. It supplies actual nourishment. It braces you up quick, supplies new energy, brings back the snap and fire of youth. Try Ferrozone, 50c. per box, or six for $2.50, at all dealers in medicine, or Polson & Co., Hartford, Conn., U. S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $4 per year, strictly in advance.

UNION LABEL

PETERBOROUGH, FEBRUARY 16 1905

OPPOSITION FOR STANDARD OIL

Mr. Rockefeller's dictum that the petroleum oil trade of the world belongs to himself and his colleagues and their policy of crushing every competitor by fair means or foul have together been very successfully maintained in the past. The Standard Oil Company has, in the course of its existence, scored many a victory on all sorts of fields, but it seems to be about to meet with an opposition of a novel sort, judging from reports sent out from Kansas. Bills have been introduced into the Legislature of that State providing for the appropriation of two hundred thousand dollars with which to build a state oil refinery to compete with Mr. Rockefeller's company, and letters from the people are reported to be pouring in by the hundred urging that the proposition be favorably considered. Figures are given to show that a refinery costing one hundred and fifty thousand dollars can, at the prices Mr. Rockefeller consents to pay for crude oil and extracts for the refined products, on a daily output of a thousand barrels, earn eight hundred thousand dollars a year. With such a margin of profit the claim seems well grounded that the State, by engaging in this business can furnish a better market for their crude oil to the owners of Kansas wells, lower prices to every consumer within its boundaries and yet obtain a satisfactory return on the amount of money invested.

A contemplated revolt of this sort against the power of the Standard Oil company should of course be promptly suppressed by that merciless monopoly, unless it would invite other attacks of a similar nature. Mr. Rockefeller may be depended upon to see the exact nature of the situation and adopt such measures as he may think best calculated to bring him prompt and complete success. The people of Kansas, however, appear to be thoroughly aroused, and the battle promises to be a brisk one, which may bring about some interesting developments before it is over. Naturally, the first argument advanced in opposition to this movement is that the State has no more reason for going into business of refining oil than it has for engaging in the packing of meat or the grinding of flour; but there seems to be no occasion at present for the latter, while Mr. Rockefeller's monopoly is a little too oppressive to be endured with patience. Many cities have their own water works and their own gas plants, and the extension of the principle of municipal ownership to the State is only a question of public policy. The monopoly of the oil business enjoyed by Mr. Rockefeller depends upon his control over transportation, which by right should be open on equal terms to everyone. While this condition of into other fields, and it is this which the people of Kansas are proposing to do. States have been and still often are asked to give pecuniary assistance of one sort or another to private enterprises which is it asserted will be of advantage to the people in the end. It is going only a short step farther to undertake outright a business which promises to relieve the people of unjust burden imposed upon them through the insatiate greed of private individuals. The important point to be considered is the suitability of the means adopted to accomplish the end sought.

LOSING THEIR GRIP ON RELIGION

The Brooklyn Eagle says American morals are going to the dogs. Crime increases, the people grow careless about corruption in high places. Church-going is on the wane. But read:

"Explain the matter as we may, we cannot get back to the fact that an association representing the legal profession of the first State of the Union has put itself on record as excusing corruption in the judiciary. We cannot close our eyes to those measures in the Legislatures of the States, and even of the nation, which have for their object the personal enrichment of men who frame the bills. The revelations of moral rottenness that have been made in New York, Chicago, St. Louis, San Francisco, Pittsburg and Philadelphia, have been discouraging to preachers of the ascendant tendencies of democracy, and in our Senate seats have been notoriously bought, and held after their occupants have been repudiated by the entire body.

"Those manifestations have been attributed to the law and partial enforcements of the law, but that merely shifts the blame from the wrongdoers to the bar, the judiciary, and the agencies for prosecution, reform and punishment. The courts will be pure where the people are pure. It is the entire American people that is at fault. But it is observable that as crime has increased church-going has decreased. This again may not instance the decay of faith, but only of discontent with church methods and of concessions to the world's lures that are cast out so freely on Sunday, but that in themselves imply nothing of the irreligious. It is to be feared, however, that religious faith has lost its hold on millions, and that among those millions are many who need the corrective of fear.

"If the abolition of hell from the beliefs of certain men implies to them their freedom to engage in vices, crimes and meannesses, from which the dread of eternal burning kept them before, it signifies a threat to the public welfare that they have lost that belief."

"Graft," says The Eagle, "is everywhere. The dollar is above the Deity."

EDITORIAL COMMENT.

The opinion seems to be gaining ground that the Czar should force Kuropatkin to retire. If not, Oyama may have to do it.

• • • •

Kuropatkin has his headquarters train always ready for retreat, which shows that Pat is something of a prophet.

INVESTORS.

Fifty dollars invested in Granite Mountain Mining Company's stock, paid the purchaser $34,500, besides several thousand dollars in dividends. One hundred dollars invested in Boston and Montana Mining stock paid the purchaser $44,000, besides several thousand dollars in dividends. A few dollars invested in shares of the Butte Copper Mining & Smelting Company stock, will not only insure you big returns in dividends, but a handsome profit in an increased value of the stock. Our mine is not a prospect but a copper mine which has produced $160,000 in profits in the last three years.

For the purpose of buying adjoining ground we have placed on the market 50,000 shares of our treasury stock. This stock is fully paid and non-assessable. Par value $1.00 per share. We will sell any part or all of this lot at 60 cents a share; no certificate issued for less than 100 shares. Send us your order for what stock you want and we will reserve it for you pending your investigation of our company; and when you have received our prospectus and satisfied yourself that the investment is a good one, you can send us the money and we will issue the stock, or have the stock sent through any bank you may designate. SHOOTING RIGHTS FOR 21 YRS.

Exclusive Privilege Granted by Late Government

Toronto, Feb. 15.—As time goes on it is becoming evident that during the last days of the Ross Administration official sanction was given to a number of Acts which may not be approved by Mr. Whitney and his colleagues. One of these is the exclusive shooting privilege granted to Messrs. H. H. Macrae, Col. H. M. Pellatt and others for 21 years over several miles of marsh on the border of Rice Lake at the annual rental of $160. A few years ago the Orillia Packet published an item to the effect that the residents and ratepayers in the vicinity of Rice Lake had decided objections to the granting of any exclusive shooting privileges, and mentioned the rumor that such a concession was being applied for.

Col. Pellatt, when seen by the press said that there was nothing wrong about the concession. The land was absolutely useless for any other purpose than hunting and at the present time the hunting was bad. He and his associates desired to establish a preserve where the ducks could find a resting place to breed, for it was his opinion if something was not done soon there would not be a duck left on the whole lake. The slaughter had been of a wholesale character, but no attempt had been made to protect the birds. Col. Pellatt said there had been a good deal of trouble about the concession, because it had been necessary first to get the consent of the nearby farmers. This had been obtained, and he could not credit the story that the residents were making objections, and sending petitions to the Minister of Public Works.

In answer to a question as to when the concession had been granted, Col. Pellatt said, "Within the last three weeks." He hastened to point out, however, that the terms of the lease had been practically settled six months ago, but for some reason it had been impossible to get the order passed.

The Colonel said that a number of Peterborough gentlemen were associated with him in the matter, but he really could not remember their names at the moment, nor could he remember the proposed name of the club which was to be formed. Incorporation would be applied for.

ATHLETIC WORLD

BY OUR SPORTING EDITOR

Winnipeg, Feb. 14.—The weather continues splendid for curling, and interest increases as the finals are nearing. There are now no unbeaten rinks in the bonspiel, Russell and Douglass of Winnipeg Thistles, having lost games yesterday. Scott's rink of Parkdale curlers were successful in both bonspiel games played. They had but little trouble in disposing of Kelly, of Manitoba College, for the Dodge trophy, winning out by twelve to five. Later they entered the sixteens of the Grand Challenge by defeating McMillan, of Virden, seventeen to fourteen. Earlier in the day McMillan had defeated Flavelle, of Lindsay, twelve to eight, putting Lindsay out of the Empire competition. Flavelle won his next three games, defeating Ellerby of Winnipeg Thistles, by eleven to ten with his last stone in the play for the Abell trophy. Russell, of Winnipeg Thistles, eighteen to six, and Lyall, of Montreal nine to eight, both of the latter games being for the Dodge Cup, Vernon, of Collingwood, lost to McDougall, of Winnipeg Granites, by fourteen to eleven for the Dodge, and won from Eade, of the Civic Club of Winnipeg, by ten to seven for the Grand Challenge. Hughes, of Montreal, was defeated by eleven to ten by Doel, of Glenboro, for the Tetley trophy.

Scott, of Parkdale, won another close game in the Dodge in the evening. A pretty draw through a port with his last stone gave him a victory over McLean of Holland by 13 to 11.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at local land office for the district in which the land to be taken is situate, or if the Homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

1] At least six months' residence upon and cultivation of the land in each year during the term of three years.

2] If the father (or mother, if the father is deceased), or any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same town, township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 20 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Offices in Winnipeg, or at any Dominion Lands Office in Manitoba or the North-west Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Land Agents in Manitoba or the North-west Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

RUBBER STAMPS

B. CAIRNS RUBBER STAMPS

TO CANADIAN INVESTORS

Oregon-Idaho Gold Mining Co.

INCORPORATED

Capital $5,000,000. Shares $1.00 Each, Par Value, Fully Paid Up and Non-Assessable.

We have just secured the agency for the above splendid proposition, of which we have been allotted a block of Treasury stock. We can confidently recommend this as a safe and, we believe, exceedingly profitable investment. Every dollar of stock is guaranteed by twenty year, full paid, gold bond, delivered to purchaser of stock, from an Investment Company that has no interest whatever in the company, but who are disposing of the debentured bonds to the public, and, under their charter, they are compelled to deposit securities to an equal amount, to the State Treasurer under which they received their charter, there by doubly securing the payment of their gold bonds.

The Company's property, which is now past the project stage, is known to be marvellously rich in gold.

Following is the opinion of G. W. Miller, Mining Engineer, formerly with the Boston and Montana Consolidated Copper and Silver Mining Company, U. S.; Simmer and Jack Mining Co., Limited, Klandsfountain, South Africa:—

"You have here a most valuable property and one of the strongest fissure veins that can be found in any part of the world.

"With the present development of the Monument Mine, I estimate that 100 tons per day can be extracted, which will mill from $15.00 to $20.00 per ton. The total cost of mining the ore, delivering and milling, I place at about $4.00 per ton. With increased milling capacity, it is safe to say that the mine can furnish 100 tons of $15.00 ore, which would yield a clear profit of $11.00 per ton, or $1,100 00 per day (equal to $400,000 00 per annum). Estimated total value of ore in sight, $3,500,000."

During the past summer, a party of the Company Directors visited the property, taking with them, Amos P. Brown, Ph.D., Mining Engineer and Professor of Geology and Mineralogy at the University of Pennsylvania. Dr. Brown writes as follows:—

"In regards to the amount of ore available at the mines at Sinclair, I saw on the dumps several thousand tons, probably 5000 tons would be an under-estimate.

"As to the size of the ore body itself, from what I saw of the geological structure, I think that there is every indication that it will be found to extend underground as far as the out-croppings on the south side of the gulch. This would mean an ore body large enough to keep the present mill running for many years to come.

A write up of the proposition will appear in these columns in a few days. Watch for it. In the meantime we will be pleased to furnish full information to investors.

STRICTURE AND KIDNEY DISEASE CURED.

G. E. Wright.

"I had stricture for eleven years. It finally brought on Bright's Disease of the Kidneys. I had an uncomfortable shooting pain in the groin and feeling as though something was in the urethra. My back was weak and I could scarcely stoop over. Urine was full of sediment. Had a desire to urinate frequently. Family doctors, so-called specialists, patent medicines, electric belts, all failed. I was discouraged. I had spent hundreds of dollars in vain. Finally I consulted Drs. Kennedy & Kergan as the last resort. I had heard a great deal about them and concluded from the fact that they had been established over 25 years that they understood their business. I am delighted with the results. In one week I felt better and in a few weeks was entirely cured. Have gained sixteen pounds in weight."

G. E. WRIGHT, Lansing.

ADULTERATION OF CANADIAN GOODS

Many Complaints are Made by the British Importers

WELSH TIN PLATE INDUSTRY

Uneasy Over Fears of Canadian Rivalry—Dinner to Lord Minto

London, February 15.—One of the best known Canadians in London, who is in close touch with the importers of Canadian goods, speaking to the Canadian Associated Press, said that he knew of many instances where Canadian goods were much inferior to the sample shown. To take maple syrup, for instance, it was exceedingly difficult to procure a single gallon of pure syrup in London, though mostly all who have it for sale claim that their article is the real thing. They are not to blame, as no doubt the article has been sold them as such. To take another commodity, corn, today you purchase a can and find it full of splendid beautiful corn, tomorrow you purchase another, and find it full of husks. Something should be done by the Canadian Government to prevent adulteration of some Canadian goods.

Another Canadian and an extensive importer of veneered timber, to whom the Canadian Associated Press mentioned the difficulty of procuring maple syrup, replied: "Perfectly true, I found that difficulty. Why, even in my trade in timber, I cannot let veneered timber sent me from Canada. Canadian timber men have at my request put the timber in water for two days, but when the timber supplied by them has arrived here, it could not stand the test of water for half an hour. Many of my customers are very much dissatisfied, so now I have had to look to another market for veneered timber."

TIN INDUSTRY FOR CANADA.

Much uneasiness has been created in tin plate circles in Llanelly, Wales, owing to the determined efforts that are being made to establish an industry in Canada. Inducements have been offered to several well-known Welsh manufacturers to open works in Toronto. Canada at present is one of the best customers for tin plate. A most notable feature of the Sheffield cutlery trade is that the exports to Canada for January this year were double those of January, 1904.

A DINNER TO LORD MINTO.

The London Chamber of Commerce is giving a dinner to Lord Minto. The tickets have been placed at thirty-one shillings and sixpence.

TO FLEE FOR THEIR LIVES

A Most Serious Ice Jam now on at Morrisburg

Morrisburg, Ont., February 14.—Something unprecedented in the history of the St. Lawrence River can be seen at Morrisburg at the present time. Some weeks ago an ice bridge formed at Farran's Point canal. Since then the ice has been slowly backing up in the river, raising the water to such an extent that much damage has been done to property between here and the Point. The local electric light plant had to shut down and the waterworks is being run by a temporary boiler placed on the canal bank to supply steam power. People have been compelled to vacate their homes along the river front. The main road cannot be traversed. Yesterday the ice backed up to the government docks here. The water raised 30 inches during the night, and is now as high or higher than ever. At noon today the ice in Doran's Bay broke loose and swung across the river, being held by the ice jammed between, making a bridge across to the American shore, which is being used by people on foot today. This is something the oldest resident cannot remember ever happening before. A similar flood and jam was experienced some eighteen years ago, but at that time the ice did not back up to within five or six miles of this village, although the water was just as high. The matter has been brought to the attention of the Government, and it is hoped some action will be taken to prevent this state of affairs occurring in the future.

PROSPERITY IN KOREA

Natives Benefit Greatly by Japan's War With Russia

Washington, February 15.—The State Department is in receipt of a long report on the commerce and industries of Korea and the effect of the war on the trade of Korea by Gordon Paddock, the American Consul General at Seoul.

Mr. Paddock says there being a large number of troops to be fed, and large railway and other undertakings being pushed forward in Korea, much money has been distributed throughout the country, and the Korean laborer often has more ready money than it ever was his lot to enjoy.

On account of the orderly manner in which the campaign in Korea has been conducted, the regular routine has been disturbed very little. Following the advance of the army there has been an enormous immigration of Japanese, mostly laborers and small merchants, and much of the available land in the treaty ports, notably Fusan, Chemulpo and Chemulpo and the city of Seoul ha sbeen bought by the Japanese.

Toh consul says American commercial interests in Korea today undoubtedly are greater than those of any one European nation.

A FRIGHTFUL EXPERIENCE

Spent Six Days and Nights in an Open Boat

Tacoma, February 14.—Blown out to sea in an open boat through which the water poured so that one was kept continually baling for six days and nights was the experience which befel a man and woman who are now lying ill at Kayak. The victims are Charles W. Cook and Mrs. Rita Wolfenden, who started for Kayak from Yakataga, to overhaul two men who had robbed them of $600. Their boat began leaking, but before they could reach shore they were blown out to sea. For six days and nights they were at the mercy of waves and wind, their food being spoiled by salt water. Cook's mind weakened and he jumped overboard, but was caught by the woman and pulled back. He was delirious for two days, then utterly collapsed. A shifting wind blew the boat ashore at Cape St. Elias, where they killed a dog and lived on the flesh for three days. Regaining strength they proceeded to Kayak.

AN OPEN LETTER FROM MR. W. J. GAGE.

Toronto, Ont., Dec. 1, 1904.

Dear Friend,

We again come to you with our story of trouble, but a story of surprising and encouraging results.

No apology is necessary; the great work of the National Sanitarium Association, carried on at the Muskoka Cottage Sanatorium and Free Hospital for Consumptives, is now well known.

The 1,500 patients cared for in these two Homes plead for your help.

The large number of lives saved, of those who a few years ago were supposed to be "under sentence of death," gives a right to your sympathy.

In helping to rescue a number great enough to constitute a large prosperous village, the giving back to home and friends a regiment of workers, surely will arouse interest in this work of mercy.

Each patient cared for in our Consumptive Homes, removes a source of danger, so that the life of every citizen in Canada is more secure.

The marvellous decrease of 40 per cent. in three years in the death-rate in Ontario from consumption proves that the fight against this dread disease is no losing one.

The **Muskoka Free Hospital for Consumptives**, for which this appeal is made, without any endowment keeps an open door to all who are poor and sick, as long as a vacant bed remains.

Nearly 600 patients have been cared for in this Hospital since it was opened less than three years ago. This has only been possible because of the continuous stream of gifts that have come to us from every part of Canada.

Remember, too, these were patients that other hospitals as a rule refuse.

Almost every trade and profession has sent its representative, and of every age—

Trustees of the Free Hospital for Consumptives through contributions and bequests.

$80,000 should be given this year if the Board is to provide for the increased accommodation and maintenance of those pleading for admission.

Where will your money do so much good in bringing health to the sick and protecting the lives of those in your home?

Why should consumption not be stamped out if the needful money and help be forthcoming?

The official Report of the Secretary of the Provincial Board of Health tells a **surprising story**—a story of a winning fight, showing that from 1897 up to 1900 there was a **steady increase** in the death-rate from Tuberculosis.

From 1900 there has been a **large decrease each year**, reducing the death-rate from 3,484 to 2,072 in three years, or **over 40 per cent.** This is all the more remarkable in view of the increase in population.

You have the joy of knowing that your dollar has helped in this merciful work.

The pitiful part of it all is in knowing how many more lives could have been saved if the needful money had been forthcoming to provide additional beds.

Will you not join in this great life-saving work?

Your dollar will bring gladness.

Fifty dollars will keep a sick one for two months; may save a life. Three hundred dollars will endow a bed for a year.

Yours sincerely

W. J. Gage

THE GOLD COIN MINING COMPANY

has placed a small block of their stock at the disposal of Canadian investors. This stock is sure to rapidly advance in price. The Company is now arranging to instal the power plant and a mill and cyanide plant for the reduction of their ore to a bullion on the property. They have arranged with a Trust Company having assets of $1,500,000 to put up a bond guaranteeing investors the repayment of the full amount invested. This makes investors absolutely safe. By no possibility can they lose a dollar

THE GOLD COIN MINING COMPANY was organized November 21, 1902, under the laws of the State of Idaho. The capitalization is one million shares of the par value of one dollar each, fully paid and non assessable; of the 1,000,000 shares, 400,000 have been set aside as treasury stock

LOCATION—The Company's property is located in the eastern portion of the famous Boise Basin which has produced approximately $300,000,000 in gold. An adjoining mine has produced $94,000 from above the 200 foot level; only 10 miles from Idaho City, Idaho.

PROPERTY—The Company owns 140 acres of rich mineral land; one group of claims extends over a mile on the Blue Bell vein, on which we have done 120 feet of development work in shaft; **all work done on vein and in ore; no dead work; nearly $200,000 worth of ore exposed in mine and on dump. All roads built, buildings erected, mining and hoisting machinery installed. Estimates on ore from this shaft show a clear profit of $500 a day.**

Another claim, with **4 feet of ore averaging $21 a ton; still another claim has a vein 150 feet wide showing values entire with and ore in shaft assays $64 a ton.** Ore from this vein can be quarried in large quantities at small expense.

CAPITAL WANTED for mill, cyanide plant and electric power plant to be operated by water power. Ore will be reduced to a bullion at mine. **Will be a steady producer and dividend payer as soon, as improvements are installed.**

WHAT OTHERS SAY ABOUT THE GOLD COIN—G. W. Ball, an experienced mining engineer said in 1903:—"**It is one of the most attractive prospects I have ever seen and predict that it will soon develop into a dividend paying mine.**" In 1904 Mr. F. M. Whitmas said:—"I looked into this proposition thoroughly, and it seems to me that **all the company needs to make this a big dividend payer is the power plant and mill for extracting the values from the ore at the mine, for there is no question about the quantity and richness of the ore.**"

A freighter and miners at Idaho City have invested: the stock is a money-maker for you also. NO CHANCE, NO SPECULATION, A CERTAIN WINNER

The Catarrhozone Dry Air Treatment

THE ONLY RATIONAL, SURE CURE FOR CATARRH AND DISEASES OF THE NOSE, THROAT AND LUNGS.

The only natural cure for catarrh is the dry air treatment which effects startling cures without resorting to drugs, dangerous snuffs and cocaine mixtures.

Catarrhozone kills the catarrh germs, soothes and heals the sore mucous membrane, clears the air passages of the nose and throat, cures chronic catarrh that has resisted all other treatments.

The reason why Catarrhozone cures is because it really gets at the cause of the disease. No matter how remote or long standing your catarrh may be you can place perfect faith in Ferrozone. It is Nature's Cure composed of the most healing balsamic antiseptics known to medical science. Read the following:

MR. L. MURPHY, well known in West Medford, Mass., writes; "Catarrhozone cured my catarrh, after a score of doctors failed. I used to hawk and spit, my nose was continually stuffed up, and often I was sick at my stomach. Catarrhozone has removed every trace of catarrh from my system."
